Footswitch for the CUBE-80GX and CUBE-40GX Expression pedals compatible with the GA-FC Foot Controller

Specifications

- **Input Impedance:**
  - CUBE-80GX: 1 M ohm
  - CUBE-40GX: 1 M ohm
  - MICRO CUBE RX: 1 M ohm
  - CUBE-80HDX: 1 M ohm
  - CUBE-40HDX: 1 M ohm
  - 24W: 1 M ohm

- **Rated Power Output:**
  - CUBE-80GX: 40 W
  - CUBE-40GX: 24 W
  - MICRO CUBE RX: 5 W
  - CUBE-80HDX: 25 W
  - CUBE-40HDX: 12 W

- **Dimensions:**
  - CUBE-80GX: 30 cm (12 inches) + Tweeter (Coaxial, 2-way)
  - CUBE-40GX: 11-11/16 (W) x 8-3/16 (D) x 11-5/8 (H) inches
  - MICRO CUBE RX: 9-3/4 (W) x 6-13/16 (D) x 17-7/16 (H) inches
  - MICRO CUBE BASS RX: 11-1/16 (W) x 8-3/16 (D) x 11-5/8 (H) inches
  - CUBE-80HDX: 17-3/8 (W) x 9-3/4 (D) x 17-1/16 (H) inches
  - CUBE-40HDX: 16-5/8 (W) x 12-13/16 (D) x 18-7/8 (H) inches

- **Connections:**
  - BASS INPUT, AUX IN, LINE OUT/DI OUT, RECORDING OUT/PHONES, EXT SPEAKER, FOOT SW (SOLO, COMP/DRIVE), RECORDING OUT/PHONES, FOOT SW (EFX/SOLO, COMP/DRIVE), STEREO AUX

- **Power Consumption:**
  - CUBE-80GX: 186 mA
  - CUBE-40GX: 20 W
  - MICRO CUBE RX: 11 W
  - CUBE-80HDX: 42 W
  - CUBE-40HDX: 12 W

- **Weight:**
  - CUBE-80GX: 7.6 kg / 16 lbs 13 oz
  - CUBE-40GX: 3.7 kg / 8 lbs 1 oz
  - MICRO CUBE RX: 2.8 kg / 6 lbs
  - CUBE-80HDX: 3.5 kg / 7 lbs 7 oz
  - CUBE-40HDX: 1.44 kg / 3 lbs 11 oz

Options

- **Footswitch**
  - FS-6: For CUBE-80GX and CUBE-40GX
  - FS-5U: Footswitch for the CUBE-80GX

- **Speakers**
  - CUBE-80GX: 18 cm (7-1/8 inches) x 20 W + tweeter
  - CUBE-40GX: 18 cm (7-1/8 inches) x 12 W + tweeter
  - MICRO CUBE RX: 10 cm (4 inches) x 20 W
  - CUBE-80HDX: 18 cm (7-1/8 inches) x 25 W + tweeter
  - CUBE-40HDX: 18 cm (7-1/8 inches) x 12 W + tweeter

- **Power Cord, Mini Cable (4-pole miniature phone type)**

- **Accessories:**
  - GA-FC Sticker
  - GA-FC Foot Controller
  - CUBE-80GX: 11-1/16 (W) x 8-3/16 (D) x 11-5/8 (H) inches

- **Input Impedance:**
  - BASS INPUT= 1 M ohm
  - INPUT= -10 dBu, STEREO AUX
  - INPUT= -10 dBu, i-CUBE LINK/AUX IN

- **Nominal Input Level:**
  - BASS INPUT= -10 dBu, AUX IN= -10 dBu
  - INPUT= -10 dBu, STEREO AUX
  - INPUT= -10 dBu, i-CUBE LINK/AUX IN

- **Current Draw:**
  - 186 mA

- **Registered Trademarks:**

The ultimate in amp modeling technology, fueled by decades of extensive R & D by Roland. Equipped with a wide selection of legendary amplifier tones, CUBE amps give you instant access to classic sounds for playing all styles of music. Roland’s COSM technology reproduces the response and playability of coveted vintage amps with incredible accuracy, based on meticulous analysis of electronic characteristics down to the component level, as well as the physical properties of speakers and cabinets. COSM has also given birth to all-new sounds such as the ultra-heavy EXTREME* amp type, which delivers massive, high-gain tones that surpass any existing amplifier.

Material choice is a crucial aspect in the CUBE’s specially designed speakers. Each CUBE model is outfitted with a custom speaker that’s been specifically designed and optimized to maximize the performance of each amp. All of the high-quality materials used in the speakers go through stringent durability tests, including the paper used to make the cones. Fitted with powerful magnetic circuitry, the speakers provide excellent projection and dynamic sound with great sensitivity, accurately reproducing everything from soft picking to heavy low-range tones.

Built for top sound quality and extraordinary durability. All CUBE amps feature quality cabinet construction usually only found in amps costing much more, with great care taken in the choice of materials, panel thicknesses, and construction methods. For example, the baffle employs direct-joint construction that converts the speaker’s vibration into sound with minimal loss, and we’ve improved the ultra-low range response by using airtight back construction. From the robust corner protectors to the sturdy metal grille to the bolted-in rubber feet, everything in the CUBE series’ cabinets has been designed with sound quality and heavy-duty use in mind.

The CUBE series has become the industry standard in small amplifiers by providing guitarists and bassists versatile amps with rich, expressive tones and big sound that defies their compact size. Roland’s renowned COSM technology powers the very best amp modeling available, while high-quality custom speakers and heavy-duty cabinet construction deliver top-level sound and rock-solid reliability that players can count on. The new CUBE-GX lineup represents the next evolution in the legendary series, building on the trusted CUBE standard with even more versatile operation, built-in connectivity for Apple’s iOS devices, and much more.

COSM Amps Onboard

Custom Speakers

Cabinets are precision-engineered to ensure clear, accurate, and interference-free sound transmission. The CUBE series’ cabinets are designed to be light yet sturdy, with precise panel thicknesses and construction methods that provide high stability and durability.

Cool Extras

With battery power, you can enjoy playing anywhere you want. Many CUBE models support battery-powered operation*, giving you high-quality portable amplification for playing anywhere—parties, street performances, the beach, camping trips, wherever! These amps deliver dynamic sounds for extended periods of non-stop playing, thanks to their ultra-efficient design.

Two Million Amps Sold

Thanks to the enthusiastic support of guitarists and bassists around the world, we’ve shipped more than two million CUBE series amps to date.

Available on the CUBE-80GX/-40GX/-20GX, MICRO CUBE GX, and CUBE Lite.

*Supported on the CUBE-80GX/-40GX/-20GX, MICRO CUBE GX, and CUBE Lite.

Battery-powered models: MICRO CUBE DX, MICRO CUBE, and MICRO CUBE BASS.
Sound quality that transcends size. Expressiveness that exceeds your imagination. That’s what the CUBE series is all about.

2.1 Channel Audio System for Guitarists

CUBE are tone and effects add-ons, providing guitarists with an innovative and integrated solution to enjoy high quality stereo sound. The headphone jack, integrated speaker system, and line output allow Tone Cubes to be used as a complete portable audio studio, right in your hands. CUBE的成功在于其能够模拟各种现有的音效，同时创造出前所未有的音效。在CUBE-LT中，我们可以找到这种音效的精髓，而CUBE-20XL则提供了一种全新的体验。
