To the Honorable President and Common Council of the City of Ann Arbor, Mich. :

Gentlemen—Pursuant to the request of the Board of Public Works, I hereby call the attention of the Common Council to the necessity of making an early connection between the water mains and the flush tanks, to the end that the Board may be able to allow the use of sewers constructed, as applications for the use thereof are becoming urgent.

Respectfully,

A. M. CLARK,

President of the Board of Public Works.

Received and filed.

To the Common Council:

The Board of Public Works has asked the Ann Arbor Water Co. to make a proposition what they will charge for making connections with the water mains, furnish the pipe and connect up the sewer flush-tanks; the proposition submitted is that they will do the work and furnish material at the actual cost to the company. The proposition made is herewith submitted and recommend the same by accepted approval.

By order of the Board of Public Works.

W. J. MILLER, Clerk.

Received and filed.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable President and Common Council of the City of Ann Arbor, Michigan:

Gentlemen:—I desire to call your attention to a resolution passed by your Honorable Body, July 2nd, 1894, instructing the Board "not to expend any more money," etc., to the end that you may take such action pertaining to such work as was affected thereby, as to you may seem advisable.

Respectfully,

A. M. CLARK,

President of the Board of Public Works.

FROM THE SAME.

To the Common Council:

The Board of Public Works submit the annexed report of the City Engineer as to the matter of the grade on the west side of State

This allows the walk to be 7½ inches above grade at a point 110.5 feet south of the south line of Sager block, and again conforming to the established grade at the south line of Sager block and at 155.5 feet south of the Sager block.

By order of the Board of Public Works.

PRESENTATION OF PETITIONS.

Of Amariah Hammond and ninety-two other residents of the 5th ward remonstrate and protesting against the building of lateral sewers on Broadway, Moore, Traver, Pontiac and Wall streets in said ward, was received and filed.

By Ald. Manly :

WHEREAS the Board of Public Works have been directed by resolution of the Common Council to advertise for bids to build that part of the main sewer situate in the fourth and fifth wards of the city of Ann Arbor, and

WHEREAS said Board have repeatedly and without any explanation therefor disregarded the written instructions of the Council in reference to the building of the sewer above referred to as well as many other important matters referred to them, and

WHEREAS the presenter of this resolution, from the reading of the petition and information obtained from the signers of the petition is led to, and does believe, that the petition is an offspring of the Board of Public Works and born for no other purpose than to enable the Board to evade the numerous resolutions of the Council. And

WHEREAS the petition signed by ninety-three of the citizens of the fifth ward protesting against the building of lateral sewers has no bearing on the question at issue, and if it had it bears on its face the evidence beyond a question that the signers have been misinformed as to the facts. That if said sewer was built the property owners along the line of the main sewer would be called upon to pay for the building of the same, and if the main sewer was built, lateral sewers would be laid on all the streets mentioned in said petition,

and that the people would be required to connect with said laterals. And

WHEREAS it is of great importance that that branch of the main sewer be built for the convenience of the scholars attending school and others who are desirous of connecting with said sewer, and as the tax payers of said wards are paying their share for the construction of the main sewer and as the building of said sewer does not levy any additional tax on the petitioners or any citizens of the city, therefore be it

Resolved that the Board of Public Works be and they are hereby instructed to prepare plans and specifications for the construction of that part of the main sewer situate in the fourth and fifth wards of the city, and present said plan and specifications to this Council at its next regular meeting.

Adopted as follows:

Yeas—Alds. Bodmer, Allmendinger, Wood, Snyder, Ferguson, Brown, Manly, Taylor, Kitson, Pres. Wines—2.

Nays—Alds. Wagner, Prettyman—2.
