FROM THE MAYOR

To the Honorable, The Common Council:

swallowed by any dog, can be legally complied with.

Although my sentiments are in full accord with your honorable body, as I assure you, it would give me great pleasure to see the miscreant brought to justice, still I find it my unpleasant duty, for reasons above stated, to disapprove the resolutions.

COMMITTEE ON DIVISION AND REFERENCE.

Ald. Brown asked the privilege to so
amend the finance report as read so as
to include a bill of P. S. Banfield which
was omitted in copying the same.

The request was granted by the coun-
cil and the omission ordered insetted.

To the Common Council:

Your committee to whom was referred
the message of the mayor for division
and reference would report that we
recommend that that portion from the
words "I would advise the repairing
and putting in good condition of our
streets" to the words "would thus be-
come a useful and accessible thorough-
fare," be referred to the committee on
streets.

Further, your committee would rec-
ommend that that portion from the
words "the lighting of the city" to the
words "reduce the cost of lighting," be
referred to the lighting committee.

Further, your committee would rec-
ommend that that portion which reads
as follows be referred to the sidewalk
committee.

"It would seem to me, judging from
the number of people who have been
injured more or less by falling upon
cement walks which are left with a
smooth and glassy surface, that such
walks should not be allowed to be fin-
ished in that manner, as they can as
easily be finished under a wood float
and thus do away with this nuisance.

That portion of the message relating
to the smoke nuisance your committee
would recommend that the council refer
the same to Prof. Mortimer E. Cooley,
whose investigations on the subject
would be of great value to this body.

The discipline of the force has been somewhat improved during the year, and our police have been very diligent as a whole in the discharge of their duties. The force justly deserves the commendation of your honorable body and of the citizens generally.

I think that it will be conceded by all fair minded persons that this department has been successful in a large degree during the past year in accomplishing the objects for which it is maintained, that is for the enforcement of the city and state laws within the city so as to ensure peace and good order upon our streets, for the arrest of persons violating the law, and for the protection of property. Our city has been remarkably free from the depredations of the criminal classes, a result due both to the peaceful disposition of our citizens and to the vigilance of the police. We have had but few cases of robbery compared with other cities of our class. While the financial unrest which has prevailed throughout the country for some time has thrown many men out of employment, still crime has been much less here than in many cities much smaller than ours, and the larcenies committed here were of a petty character, and in almost every case the offenders were brought to justice.

In conclusion, the thanks of this department are due to your honorable body for the active encouragement and prompt attention that it has always received at your hands. The thanks of this department are also due to Mayor Darling for the kind and personal attention that he has always given to the matter of bringing it up to a high degree of efficiency. He has been ceaseless in his efforts to bring this important branch of the city government up to a superior degree of excellence. I am personally much indebted to every

member of the police force for their strict attention to their duties, and particularly to David Collins for many valued services.

Believing that the coming year will show a continued record of progress, I am very respectfully yours,

PARRIS S. BANFIELD,
Chief of Police.

MEN.

There have been but two changes in the mannal force of the Department, John Kenny minute man having resigned, his place is filled by M. C. Ryan. Louis Hoelzle, fulltime who is attending school has changed places with minute man Samuel McLaren. There have been no serious accidents or sickness during the year.

The men are working in perfect harmony and free from political influences, which is due in a great measure to those who in the past few years have been at the head of the city government.

Suggestions will be made at times agreeable with the demands of the Department.

Hoping that we will be as successful in the future as we have in the past. I very respectfully submit the above report,

The answer of Albert M. Clark, President of the Board of Public Works, of the City of Ann Arbor, to the charges exhibited against him by Charles H. Manly, an elector and then member of the Common Council of the City of Ann Arbor.

ANSWER TO CHARGE I.

Charge first is couched in the following language, "First. With official misconduct in the performance of the duties of his office."

The gravamen of the language under this charge is that, as President of the Board of Public Works, I voted to use in the construction of the lateral sewers what are known as Jackson tile and that I did, after a part of said tile had been laid and the contractors had more on hand to lay, cause said tile to be condemned and rejected by my vote and influence on said Board.

That immediately after this action, a representative of the Jackson Sewer Tile Company, one Smith, came to the City of Ann Arbor and visited me and promised me five per cent. of all the moneys to be paid by the City of Ann Arbor, for said tile, to said contractors, if said tile were used in the construction of said lateral sewers; and that thereafter and on the 20th day of October, 1894, by my vote and influence I caused a resolution to be passed by the Board of Public Works allowing the use of said Jackson sewer pipe or tile which had been condemned, and that thereby and through such corrupt influence I
