SEWER COMMITTEE.

To the Honorable Common Council:

Gentlemen—Your committee on sewers, to whom was referred the estimate and report of the city engineer relative to the construction of lateral sewer in district No. 26 (Wall street and Broadway), beg leave to report that they have had such estimate and report, as well as the resolution of the common council, under consideration and have made due inquiry relative thereto, and your committee is of the opinion that there is necessity for the construction of such lateral sewer, and that special taxing or assessment districts ought to be fixed by the common council upon and against which the construction of such sewer may be charged, street crossings excepted, pursuant to the ordinance in such case made and provided.

Your committee further recommends that resolutions fixing the boundaries of said district be prepared by the city engineer and the board of public works ordered to advertise for bids for construction of above named sewer.

I. L. Sherk,
Geo. Blaich,
W. H. Stark,
Geo. H. Fischer,

By Ald. Fischer:

Resolved, that this council still deeming it a necessary public improvement and expedient to cause to

be constructed a lateral sewer in lateral sewer district No. 26 (Wall and Broadway), the construction of the same is hereby ordered.

Resolved, further, that the city engineer furnish proper boundaries by the next regular meeting of the council, and this order and determination be certified to the city assessor and the board of public works, and the board of public works advertise for bids on the construction of said sewer, without four-inch pipe.

By Ald. Abbott:

Resolved, that the actual cost of constructing a main sewer from the main sewer proper, from Fuller street on Wall street to Broadway, in proposed sewer district No. 26, be paid by the city out of the proper fund when the amount is determined, and the remaining cost of constructing sewer in sewer district No. 26 be spread over entire said district No. 26.
