To the common council, board of public works, fire commissioners, park commissioners, and heads of the different departments city government:

Gentlemen: I call your attention to the accompanying report and recommend that any improvements contemplated be considered carefully and if found necessary that funds be provided by the only way open, a vote of the people. You can see by a glance at the report that the money provided for natural running expenses will not be sufficient to take care of said natural running expenses, let alone improvements. This is caused by overdraft of previous years which can be overcome only by the strictest economy.

Respectfully submitted.
