Of A. E. Jennings, et al., to the council: Gentlemen—We the undersigned are informed that you are asked to vacate the west end of Madallion street and to convey same by a quit-claim deed to Rollin E. Drake of this city. We respectfully represent that the undersigned include all of the owners of property through which street would go if extended, as well as other residents in that vicinity, which would be effected by the extension of said street. We further represent that in our judgment there is no demand or occasion for a street at this place, and that a street there would not enhance real estate values in that locality, but would be a positive damage, as it would destroy all of the plans and purposes of the homes now laid out. We therefore respectfully request your Honorable Body to grant Dr. Drake's petition. Signed by ten or more freeholders as required by the charter. Ordered on file and following resolution offered:

By Ald. Fiegel: Whereas, ten freeholders of the city of Ann Arbor have petitioned the common council of the City of Ann Arbor, in accordance with Sec. 137 of the City Charter, asking the council to vacate a certain portion of the west end of Medallion st. described as follows:

Commencing at a point on the west side of Oswego st., at the southeast corner of lot No. 5, in block 1, of J. D. Baldwin's Eastern addition to the City of Ann Arbor, thence south along the west line of Oswego st. to

All in the City of Ann Arbor. And, whereas, the said common council does hereby determine that the proposed discontinuance of said above described alley is an advisable public improvement, and for the public good. And, whereas, all the property owners interested in said portion have signified their willingness to have said street closed by signing said petition, now, therefore, be it Resolved, that the common council does hereby determine, to vacate and discontinue that portion of Madallion st. above described, and that the Mayor and City Clerk are hereby directed to execute a quit claim deed to said portion of Madallion street to R. O. Drake, according to the prayer of the petitioners.

Water Works Department of the City of Ann Arbor. By Geo. S. Vandawarker, Manager.

Annual Report of Park Board.

Ann Arbor, Mich., May 8th, 1915.

To the honorable mayor and common council of the city of Ann Arbor: Gentlemen—We beg to submit a report of the work done by the Ann Arbor park commission for the year ending May 1st, 1915, together with a detailed financial statement of the receipts and expenditures for a period from January 1st, 1914, to May 1st, 1915, this being the period covered by the supervision of the present park superintendent. In presenting this budget one year ago the park board promised the council that it would adhere closely to the work outlined in that budget, and we are glad to report that all the work contemplated at that time has been completed with the exception of three items as follows:

The installation of toilet and sewer connections at West park, due to the fact that the city has not yet installed a sewer which can be reached.

Building a retaining wall at West park, due to the fact that only recently a proper adjustment has been made to the property line so that this wall can be built.

The building of a bridge at Island park delayed until the shelter was definitely located.

Funds however, are in reserve to meet all of these items.

Briefly stated, the important work done during the past year is as follows:

Shelter built at Island park.

Additions to West park graded and tool house and toilet rooms erected.

Toilet rooms and tennis courts installed at fairgrounds and old build-

ings remodeled into usable condition.

Sufficient water supply procured from the Argo race to keep the pond in Riverside park in proper condition and a large amount of shrubbery planted at this park.

Shade trees on streets mentioned in the financial statement have been systematically trimmed and many dead trees removed.

The board has felt that its functions have been twofold.

First: The care and improvement of city property and all shade trees, and

Second: The furnishing of expert advice and assistance to all residents of Ann Arbor in regard to the care and planting of trees and shrubs and general improvement of their property.

With these two ends in view, in February, 1914, R. E. Bassett was employed as park superintendent and since that time has been of great use to the citizens of Ann Arbor, having made hundreds of calls to give advice as to the care of trees and shrubbery and as to the proper kinds of trees to plant. All trimming of trees on the streets has been done under his supervision, and where trimming was done for the convenience of the telephone and lighting companies, his services have been paid for. In this way the continual wrangling with these companies over the trimming of trees has been done away with and the result has been most satisfactory.

The board will present to the finance committee its estimates of expenses for the coming year, the most important item of which will be the trimming and care of shade trees. It has

been our aim to do thoroughly such trimming as our appropriation would admit, and this plan will be continued, but the trimming required for Ann Arbor has only just begun, and we hope this year to double the amount of territory covered last summer. It is also proposed to start a nursery for shade trees in a suitable place on one of the parks. With the initial expense of only about \$50, a thousand seedlings will in five years develop into trees which it would cost at least \$1,000 to purchase. These trees can then be used to replace unhealthy trees in the city and can be planted uniformly on all new streets.

While Ann Arbor is now well supplied with parks, the future should not be forgotten, and all possible property suitable for park purposes should be obtained while the price is still reasonable. Three pieces particularly recommend themselves for this purpose.

The valley between Huron street and Miller avenue, west of West park, option on the greater part of which is now held.

The south bank of the Huron river from Whitmore Lake road to the Barton dam.

The triangle at the corner of Washtenaw and Baldwin avenue, four-fifths of the cost of which was generously offered to the city by the residents in that neighborhood.

We believe that a plan can be worked out for the purchase of this property without increasing the annual amounts spent for park purposes, and would like in the near future, to take the question up with the finance committee of the council.

Respectfully submitted,
Board of Park Commissioners.
