Communications.

Mayor's veto—

Ann Arbor, Mich., June 8th, 1916.

To the Honorable, the Common Council: Gentlemen—I desire to infom you that I have not approved of that portion of the Council proceedings of June 5th, 1916, relative to the increase of the salaries of our Firemen and Policemen.

I veto your action relative to the resolution creating the increase upon the ground that no provision was made in the budget for the year of 1916-1917, to meet this increase, and should you decide to increase the compensation of all other city employes on a similar basis, which they also may be entitled to, we would then find our various funds much overdrawn.

Respectfully yours, Ernst M. Wurs-

ter, Acting Mayor.

The Chair put the question, "Shall ommendation of the B the recommendations of the Fire and Police committees to increase the pay of the Fireman and Policemen be adopted, the Mayor's veto notwithadopted, the Mayor's veto notwithat Donnelly, Manwaring, standing?" Not adopted.

Special Police.

Ann Arbor, Mich., June 19th, 1916.
To the Honorable, the Common Council—Gentlemen—I hereby announce the appointment of Louis Rupp as special police for police duty at the University of Michigan, and without pay from the city.

Respectfully yours, Ernst M. Wurster,

Acting Mayor.

walks or near line of streets dwellings.

The Common Council of the City of

Ann Arbor ordain:

That it shall be unlaw-Section 1. ful for any person or persons to erect, place, cause or permit, or allow to be erected, build, or place within a distance of thirty-five feet from the line of any avenue, or street, or within thirty-five feet of any dwelling house, situated upon an adjoining lot or parcel of land, in the city of Ann Arbor, any barn, stable, chickencoop. other building, shed, or inclosure, to be used, or which shall be used, for the purpose of securing or keeping any animal or animals or poultry, or for the purpose of storing or keeping hay, grain, or other food for any animal or animals or poultry, or in which to feed any animal or animals or poultry.

Section 2. It shall be unlawful for any person or persons to deposit or cause to be deposited upon any sidewalk or within thir y-five feet from the line of any avenue or street, or within thirty-five feet of any dwelling house, upon an adjoining lot or parcel of land any manure or other filth, or allow same to be dumped upon any premises owned or occupied by him, her or them, or cause or allow to be fastened or keep upon any premises owned or occupied by him, her, or them any animal or animals within thirty-five feet, from the line of any street or avenue, for the purpose of keeping such animals in such place longer than twenty-four hours, including temporary remova's, or for the purpose of using such place as a stable or feeding place for such animal or animals; provided, that this section shall not be construed to prevent any person from distributing over his premises manure for the purpose of benefitting the soil.

Section 3. Any person or persons violating any of the above provisions of this ordinance, shall, upon conviction thereof, be punished by a fine not exceeding One Hundred Dollars and the cost of such prosecution, and in default of payment of such fine the Court may make a further sentence that the offender be imprisoned in the County Jail of Washtenaw county, or any jail or lockup of said city until such fine and costs be paid. Provided such imprisonment shall not exceed ninety days.

This ordinance shall be in force and

or take effect on and after ten days from legal publication.

The Chair put the question, "Shall

this ordinance pass?"

Moved by Ald. Manwaring, that the ordinance be referred back to the Ordinance committee. Adopted.

Ald Sink presented the following ordinance, which was given its sec-ond reading, and referred to Ordinance committee by unanimous vote on motion of Ald. Sink.

An ordinance relative to the oiling of providing a unpaved streets and method of raising by taxation the money to pay and defray the cost and expense thereof.

The Common Council of the City

Special Committee on Water Rates. Ald. Heck, chairman of the special committee on water rates, presented the following report from the Water Works Department, as requested by the Common Council May 1st 1916, and matter referred to special

committee May 15, 1916.

Report of Water Works Department. Ann Arbor, Mich., May 12, 1916.

To the Honorable Common Council of the City of Ann Arbor, Mich: tlemen—Please find herewith information asked of this department as per resolution adopted by your Honorably Body, May 1st, 1916.

No. 1. Cost per gallon of pumping

water in Ann Arbor?

.00194c per gal, or 1.94c per 1,000 gals.

No. 2. Cost per gallon of furnishing water to consumers?

.00433c per gal. or 4.33c per 1,000

Assuming a deduction for slippage, leakage, flushing mains, sewers and alleys, fire service and wastage of 30 per cent, and that consumers actually receive 70 per cent of water pumped, the cost at the tap per million gallons delivered would be \$61.86 or 6.2c per 1.000 gals. or .00602c per

No. 3. Estimated number of gallons water consumed by people not on meter?

806,354,870 used in various ways outside of meters, as flat rate consumers, fire service, flushing mains, alleys, sewers, streets and wastage.

No. 4. Receipts from people not

using meters?

\$48,704.01 Flat rate consumers, including city fountains. buildings, public parks and cemeteries, flushing sewers, alleys, streets and

\$ 9,959,98 Rental of fire hydrants.

1.770.14 Mason work.

\$60,434.13 Total.

No. 5. Rates at which water is being furnished different consumers?

University of Michigan, 7c per thousand galions.

Public schools, 10c per thousand gallons.

Meter Rates.

Less than 1,000 gals, per day, 20c per thousand,

1,000 to 3,000 gals. per day 15c per thousand.

3,000 to 10,000 gal. per day, 10c per thousand,

No meter rates at less than \$25.00 per year. The following are the anrual rates to Flat Rate consumers:

For ordinary household uses for a house of not exceeding four

rooms, occupied by one family\$2.50 For each additional room..... For one bath tub 2.50 For each additional bath tub.... 1.00

For one water closet (self-closing) and wash bowl with faucet 3.00 For each additional closet 1.00 Sprinkling per season 5.00 Washing machine3.00 Cost of water furnished

through large hydrants?

An ordinary fire stream flows 215 gallons per minute through an 1 1-8inch nozzle. It depends on pressure at hydrant, length of hose, how many streams are flowing, and the length of time you wish to use the hydrant.

No. 7. Cost of installing meters in

the city and upkeep of same?

The cost of installing a single meter amounts to approximately \$2.50, but in case several are set the cost would be much smaller. The condition is the same in the upkeep. If we had enough meters so that we could employ men who did nothing else the cost would be very small, probably 25 to 40c per year per meter.

No. 8. Number gallons water ordinarily consumed in sprinkling hour each day during the sprinkling

season?

There are different pressures in this city to take into consideration. With a 56 pound pressure at the sill cock with a 50 foot length of 3-4-inch hose and size of nozzle 3-16-inch, 450 gallons per hour would flow.

No. 9. Receipts from lawn and

street sprinkling rates?

Last year, while the season was very wet and having constant rains, there were not as many people who took advantage of sprinkling as did the year previous. However, the receipts last year were \$9,875.00.

Scale of rates for house-No. 10.

holders?

See answer in question No. 5.
