Jan. 4, 1926

To the Honorable, the Common Cduncil,

Ann Arbor, Mich.,

Gentlemen:

I have investigated the possibility of flooding the lagoon on Riverside Park to make a skating place for the children in that section of the city.

A fire hydrant is near enough to make this possible but I believe a constant flow of it will need water to maintain a level in the lagoon. This will require a large amount of water which the Water Department will ask to be paid for. The appropriation of five hundred dollars for skating ponds is barely sufficient to maintain in good order the two rinks which are in use and if the skating weather lasts for some time, it may not be possible to maintain the present rinks throughout the whole season.

If the Common Council desires to provide an additional rink for this winter, extra funds should be appropriated.

Respectfully submitted E. A. GALLUP, Supt of Parks

Ordered on file.

Notice of hearing before the State Departments of Conservation and Health, at Lansing, Feb. 9, 1926, relative to pollution of public waters, was received.

Moved by Ald. Dwyer, that the City Engineer, City Attorney and Chairman of Sewer Committee be authorized to attend hearing at expense of city.

Adopted by following vote: Yeas, Ald. Slauson, Graf, Maulbetsch, Dwyer, Ware, Moore, Freeman, Lutz, Pres. Woodbury, 9. none.

Enter Ald. Lucas.

Communication from Ann Arbor Railroad Company, requesting permission to abandon the crossing gates at Hoover ave. and place a watchman at the crossing, received and referred to Railway Committee.
