COMMUNICATIONS From the Mayor

March 7, 1929

To the Honorable
Common Council,

Gentlemen:

The so-called Darin Bill, introduced in the Legislature at Lansing recently, proposes to exempt the properties of fraternities and sororities from taxation. Should this bill pass it would remove approximately \$1,800,000 from the tax rolls of this city. That would mean the tax on other property would have to be increased to make up for the loss and placing an additional burden on other property owners that would be unfair, unjust and unreasonable.

Fraternities and sororities in our city receive exactly the same service in the way of fire protection, police protection, health protection, water, sewage disposal, garbage disposal, well paved and well kept streets, sidewalks, parks, drives, etc., as do other property owners in this city and at no greater cost.

The Chamber of Commerce has already gone on record as being opposed to the passage of this bill. The Ann Arbor Daily News and Washtenaw Tribune both have given his matter considerable publicity and published splendid editorials giving many reasons why fraternities and sororities should not be tax exempt.

May I suggest that your honorable body take such action as you may deem proper promptly, in order that the interests of our citizens and taxpayers, whom we represent, be properly protected.

Respectfully submitted,
Ed. W. Staebler, Mayor.

By Ald. Maulbetsch:

Resolved, that this Council is opposed to the enactment of any legislation which will have the effect of removing from the tax rolls of the City of Ann Arbor the real

estate of fraternities and sororities.

Resolved, also, that it is the sense of this Council that inasmuch as these properties receive all the benefits accorded to other residents and citizens, that they should pay their fair share of the expense thereof in taxes.

Resolved, also, that this Council is expressly opposed to the so-called "Darin Bill" now before the Legislature of this State.

Resolved, also, that the City Clerk send a copy of this resolution to the following persons: Representative Joseph E. Warner, Senator Charles A. Sink, the Clerk of the House of Representatives and the Senate, and to the Honorable Fred W. Green, Governor of this State.

Adopted by following vote: Yeas, Ald. Slauson, Wuerth, Maulbetsch, Graf, Allmendinger, Harris, Draper, Severance, Bursley, Townley, Fisher, Pres. Woodbury, 12. Nays, none.

Water Committee

Resolved by Ald. Fisher:

Whereas, the Board of Water Commissioners of the City of Ann Arbor did on February 4th, A. D. 1929, send a communication to this Council requesting that this Council arrange for a bond issue of three hundred twenty-five thousand dollars, to cover contemplated improvements to the distribution system of the city water supply plant, and

Whereas, the afore-mentioned Water Commissioners have presented the following estimates of the cost of the contemplated improvements as follows:

(1) 6,000,000 gallon, reinforced concrete covered reservoir with surface elevation at 10 feet higher elevation than present reservoir, with connection to water mains, \$110,000.00.

(2) Cast iron trunk line water mains, \$150,000.00.

(3) Connecting dead end mains and installing additional hydrants, \$45,000.00.

(4) Contingencies and engineering, \$20,000.00.

Total, \$325,000.00.

and have given the following explanation of the needs for the contemplated improvements and of the benefits to be derived therefrom and also a plan for the payment of their costs, to-wit:

The six-million-gallon reservoir is to replace the present two-million-gallon structure, which is an old open type structure and in bad condition. For years the old reservoir has not been considered safe to carry more than one million gallons storage and this amount is dangerously inadequate. The proposed new reservoir is to be of reinforced concrete and entirely covered and of sufficient capacity to insure the city against a shortage of water in the event of a bad fire. The covered reservoir will keep the water in better condition and at a lower and more uniform temperature.

The cast iron trunk line water mains are for strengthening and improving the distribution system and will insure adequate water at times of maximum demand to all parts of the city and at slightly better pressures, and at a much more uniform and satisfactory quality to all consumers.

The new trunk line mains together with the contemplated smaller connecting dead end mains will relieve the condition of stagnant water throughout the city and will improve the condition of the water to all consumers.

Your Water Board feels that these are badly needed improvements and are so laid out that they will work in with, and in fact be necessary to, any future developments of the water system.

The interest on the proposed bond issue, together with the retirement of the bonds, will be paid from the revenue of the Water Department and will not therefore

in any way affect the taxes of the city; and

Whereas, these additions to the distribution system of the City Water Supply Plan are hereby declared to be a necessary public improvement and their period of usefulness is hereby determined to be a period of thirty (30) years or more;

Now, therefore, be it resolved, that at a special election to be held in the City of Ann Arbor, Michigan, on Monday, the first day of April, A. D., 1929, the proposition of raising by loan the sum of \$325,000.00 be submitted to the qualified voters of this city.

Resolved, further, that the polls of said election be opened at the designated places from seven o'clock a. m. to eight o'clock p. m. Eastern Standard Time.

for the use of the electors at the said special election, which shall be in the following form:
