Blue and Gray.

"Oh mother, what do they mean by blue? And what do they mean by gray? Was heard from the lips of a little child..."

A MONETARY TEACHER.

Near the coast of Monterey there is a deserted hut on a barren hillside, gray with sage brush and yellow with long, rain-washed furrows.

WIT AND HUMOR.

"The bell of the kitchen—The dinner bell—Parlor matches—Courtin' in the drawing-room."

ITEMS OF INTEREST.

"The horse is still standing in New Haven, Conn., where Benedict Arnold, the infamous traitor lived 110 years ago."

TO BE BELIEVED AT TABLE.

"Upon taking your seat, your first duty should be to inspect the cutlery. If the knives bear Roger's stamp, for instance, sound the praises of the Meriden manufacture."

THE HISTORY OF THE BAYONET.

"The history of the bayonet is set forth in the catalogue of General Pitt Rivers' anthropological collection, which the British Government will present on exhibition in the South Kensington museum."

OUR FORM OF DRESS.

"How did we come to possess our present form of dress? This is one of the many questions answered by a reviewer in the Nature. Clothing at first was almost entirely ornamental."

MAW'S AGE.

"Few men die of age. Almost all die of disappointment, passion, mental or bodily toil, or accidents. The passions kill men sometimes, even suddenly."

FRESH AIR.

"Live out of doors as much as you can. It is the place for a man to be. It is good for the health. A distinguished physician was in the habit of saying: 'However bad the air may be in the house, it is always worse in the house.'"

A SUNDAY IN LONDON.

"London pays all possible respect to the Sabbath. It is the characteristic of English life in contradistinction to the French people that Sunday is kept sacred to holy duties."

THE GREAT PHYSICAL POWER OF TERRESTRIAL MAGNETISM.

"The great physical power of terrestrial magnetism has engaged the attention of the world of late, and it is well known that several ingenious solutions of it have been propounded. Professors Ayrton and Perry for example, conceived the happy thought that the earth was charged with static electricity, and that the current was carried round on the surface by the diurnal rotation."

THE HISTORY OF THE BAYONET.

"The history of the bayonet is set forth in the catalogue of General Pitt Rivers' anthropological collection, which the British Government will present on exhibition in the South Kensington museum."
