### A STREET RAILWAY.

A COMPANY OFFERS TO COM-PLETE IT IN 1889

The Proposed Routes and the Charter they ask of the City-The Council Meet Next Monday to Decide upon an Ordinance.

The Ann Arbor Street Railway Company is the name of a proposed company, at the head of which are Gen. O. B. Church, R. P. Peet and other citizens of Ithaca, Michigan, who ask the right to build a street railway in this city. The company apparently mean ordinance to the council under which they desire to work. A committee, consisting of Ald. Wines, Sutherland and Allmendinger, are now considering its terms and will report at a meeting of the council to be held next Monday evening. The company propose to build a street railway over the following route: Commencing at the Michigan Central railroad bridge, south on Detroit street to Catherine, thence west to Main street, thence south on Main to Packard street, thence southeast to Madison street, thence east to State street, thence south to Monroe, thence east to Forest avenue, thence south to Hill street, thence east to Washtenaw avenue, thence north on Washtenaw avenue to North University avenue, thence west to State street, and from Madison street north on State street to the Michigan Central. A track will also be laid on William street from Main street to the Toledo & Ann Arbor depot. This route they are willing to contract to complete in the year 1889.

They also propose to build from the intersection of Huron and State streets, west on Huron street to the west boundary of the city, and to complete this by the year 1890.

The proposed ordinance asks the exclusive right to build street railway over the route named for thirty years, and also of constructing a street railway on such other streets as the city should desire a railway erected upon, providing that they shall give their assent in writing within thirty days after notice and complete the road within a reasonable time. Otherwise the council may grant another company the right to build on such streets.

The tracks are to be laid under the direction of the council or its city engineer and on such location along said A number of gentlemen from the city streets as the council shall prescribe, including an Argus representative the company having the right to conwent over the route of a proposed new struct a single or double track. THE VICTOR FINALLY VANQUISHED.

Without Warning the Invincible Steals on His Victim and Does His Work Quickly.

Again the Ocean Beats the Requiem of the Nation's Best Beloved, as His Spirit "Goes Out with the Tide."

Nonquitt, Mass., Aug. 6.—Gen. Sheridan is dead. So ends the story of a t ree months' struggle for life. All through Sunday Gen. Sheridan had been in unusually good spirits. laughing and chatting with his doctors and

members of the family, and seemingly in better spirits than for several days. His medical attendin better ants were also good-natured and spent a portion of the day in calling atseveral cottages. At 7:30 Dr. Matthews said the general was doing so well that there

After dinner at the hotel Mrs. Sheridan carried down to the general a large slice of roast beef, which he ate with apparent relish. He dozed a bit during the afternoon, but awoke to eat supper and then went to sleep again. At 10 o'clock a messenger came bareheaded and breathless to the hotel and demanded the immediate presence of Col. Sheridan at the cottage. Five minutes after another messenger summoned the colonel's wife. Then came the bulletin announcing the death. Another messenger followed with a request for the appearance of B. N. Wilson, a Chicago friend of Col. Sheridan, who has been boarding at the hotel. Mr. Wilson remained at the cottage only long enough to return with instructions to summon Dr. John Mackay, an embalmer, and E. T. Wilson, an undertaker, both of New Bedford.

The first bulletin message was sent to the president, then to a newspaper, and after-

ward to the adjutant general of the army, the secretary of war and members of the staff of the late distinguished commander. With the general at the death-bed were Mrs. Sheridan, Mary, Louise, Irene and Philip, his wife, sisters Justinia and Urban, who have faithfully and tenderly nursed the dead hero from the beginning to the end, and both Drs. Reilly and Matthews.

The plaintive tolling of the fog bell on the rocks just at the entrance of Buzzard's bay falling on the stillness of midnight unconsciously expressed the grief which has over taken his immediate summer friends of the past and present season. The unfavorable symptoms, which were exhibited, made their appearance so unexpectly and were so rapid in development that it was but a chance that the children were aroused in time to take a last look at their dying father.

Mrs. Sheridan and the nurses were on their bended knees in prayer as the spirit departed. Mrs. Col. Kellogg, a dear friend of the fam-

ended in death. The following official bulletin was issued

at midnight Sunday night: Gen. Sheridan died at 10:20 this evening. The immediate cause of death was heart failure. The remote cause was disease of the mitral and abertic valves, the existence of which was known to his physicians, to himself, and to his family in November of last year. The complications which have occurred have been nervous exhaustion, pneumonia, and hemorrhages. The last day of his life was somewhat restless, but not more so than he has been several times since his arrival at Nonquitt. At about 9:30 systoms of heart failure suddenly appeared. The remedies which had hitherto been successful were vigorously applied but proved ineffectual, and he sank rapidly, dying painlessly at the hour

Washington City, Aug. 7.—The following telegram respecting the funeral arrangements was received from Col. Sheridan at Nonquitt by the war department yesterday:
It is Mrs. Sheridan's wish that her husband should be buried with military honors, and that at the same time there should be no display beyond what pertains to a strictly military funeral in proper respect to his rank. GROVER CLEVELAND.

At 1 o'clock the following communication

was sent to the capitol:

To the Senate and House of Representatives;
It becomes my painful duty to announce to the congress and to the people of the United States, the death of Philip H. Sheridan, general of the army, which occurred at a late hour last night at his summer home in the state of Messaghus at army, which occurred at a late hour last night at his summer home in the state of Massachusetts. The death of this valiant soldier and patriotic son of the republic, though his long illness has been regarded with anxiety, has nevertheless shocked the country and caused universal grief. He had established for himself a strong hold in the hearts of his fellow-countrymen who soon caught the true meaning and purpose of his soldierly devotion and heroic temper. His intrepid caught the true meaning and purpose of his soldierly devotion and heroic temper. His intrepid courage, his steadfast patriotism and the generosity of his nature inspired with peculiar warmth the admiration of all the people. Above his grave affection for the man and pride in his achievements will struggle for mastery, and too much honor can not be accorded to one who was so rightly endowed with the qualities which make so richly endowed with the qualities which make his death a national loss.

GEN. SHERIDAN'S ILLNESS.

Several Times He Was Very Near Death's Door.

Washington City, Aug. 6.—The illness which has resulted in Gen. Sheridan's death commenced on the 12th of May last, immediately after his return to Washington from a tour of inspection out west. He complained of feeling unwell and worn out, but went down to the office each day for about a week. He was then forced to remain in doors, and on May 22 he had a severe attack of heart failure, which greatly alarmed his family and physicians. On account of the effect it was feared the news would have on the general's mother, who was aged and in ill-health, an endeavor was made to keep the more alarming phases of his illness from the public, and it was not until the end of that week that the physicians admitted the true character of the disease. On Friday of the week ending May 26 he had several attacks of heart failure and these increased in violence with each succeeding attack. Several times during his illness it seemed as if his life had become exat one time ceased to beat for a few seconds, but the extraordinary watchfulness and care of the attending physicians brought him back to consciousness again. NEW YORK, Aug. 4. - Seventeen people

were burned to death in a six-story brick building in the rear of 197 Bowery. Six more, burned so badly that they will prob-

The fire started on the first floor in the apartment of Emma Stevenson, the janitress of the building, and was caused by the explosion of a kerosene oil-stove. The building burned belonged to Lawyer Abraham Stern, who bought it six months ago. The damage to the building is about \$8,000, covered by insurance. The loss on the stock of clothing in the various apartments is estimated at \$15,000. It is believed that it was not insured. The house in the rear of the death-trap was badly burned, and the People's theatre was slightly damaged by fire

A Buyer of False Teeth.

A sharp eyed little man attracted the writer's attention in a Chicago hotel by the close watch he maintained at the dinner table upon the jaws of the other gueets. After watching them all pretty closely for a while, he finally concentrated his attention upon an elderly gentleman opposite, who are his food with some difficulty Even a casual observer could have noted that he selected only the softest articles on the bill of fare.

"That man has a bad fitting set of teeth and I'll get them," said the little man. When the elderly gentleman left the table the little one followed, and in a few moments was in conversation with him, and, and the state of the said of as it afterward transpired, had engaged to buy his false teeth as soon as he had ob-

tained a new set.

This little man picks up a great many sets of false teeth in the course of a year. Most persons that have a set before they reach 30 years of age are obliged to buy two more sets, at least, before they reach 60 years, and the mouth changes so that teeth that fit well and serve their wearer well at first after a while do not fit and cause the wearer a great deal of discomfort. The man that makes a living in this line has acquired a great knack for discovering ill fitting teeth, and he scarcely ever fails to secure a bargain, for notwith standing false teeth are the only immortal material about our bodies, inasmuch as they are said to be capable of resisting 4,000 degs. of heat (Fahrenheit), very few people know that they are worth anything second hand, and so the little man gets them at his own figure.

He told the writer that many sets of

false teeth are found. Owners are more careless of them than is supposed, and instances are more frequent than would be imagined in which they have been left in hotel bedrooms. They have been found in railroad cars and even in horse cars, and quite frequently turn up in cabs. As the cabbies and railroad employes cannot wear other people's teeth they hunt up the buyer, and he gets the set for a few shilwas found in a magpie's nest in Pennsylvania, and another was picked out of a woman's throat by a surgeon. The patient would never wear them again, and they were sold for a song. The little man picks up a nice living by his purchases, adding to it now and then by buying a second hand wig or two. — New York

Happy and Home Loving French. I assert that, to those who will look at us without bias, we must appear in our true light the happiest and most home loving people among modern nations. That provincial life in France is narrow, I have admitted, but what a very dove cote is almost every little home! If the time to be happy is now, and the way to be so is to make all those around us happy, then are we the most enviable people on earth, for we put that theory into practice. In what other land will you find so many households whose members are of three or four generations? Parents and children cling together to the exclusion of all the world outside. boy is brought up with a view to emigra-tion. The thought of the young birds leaving the nest is dreaded. I know girls who have refused splendid offers of mar-riage and preferred humbler ones because tinct, but by the adoption of radical measures the action of the heart was stimulated and he was brought round again. plications set in and hope was abandoned several times only to be renewed by the great vitality and determination shown by the stricken soldier. With the approach of 7 or 8 in the evening, as so many Americans do; and that on Sunday, your only day at home, you were too exhausted to enjoy your children's prattle or to take a walk with your wife. The little French provincial tradesman, who locks his shop door while he spends a joyful hour at din. door while he spends a joyful hour at dinner with his family, has come nearer solving the problem of happiness than the Anglo-Saxon jockey in the race for ducats.

Hungry Fire Department Horses.

Fire department horses in the big cities are, as a rule, ravenous feeders. There are certain hours of the day when they are fed, and the horse soon comes to know the feeding hours as well as the hostlers. As early as 5:30 o'clock in the morning is oats feeding time. If the feeder happens to be a little slow in getting down stairs, if he is only two minutes late, there is the greatest tramping of hoofs on the wooden floors, kicking the sides of the stalls and the wickedest champing of bridle bits ever seen or heard in a stable. This sort of racket is kept up continuously, too, until the oats are divided out for the meal.

The moment they commence feeding, if an alarm comes in, every horse in the house will leave his oats and take his place under the swinging harness, and will impatiently dance around anxious to get off for a run. The fire department horse is, I believe, the only one that will leave his oats voluntarily to go to work. The best hostlers in the department always take the bits out of the mouths of The general had made his will and all the horses at feeding time. This is under the preparations for death and was ready to face to give the animal a chance to thoroughly masticate his food. The horse that eats should not be given up without a severe struggle. He leaves a wife, the daughter of last long in the department.—Fire Chief in Globe-Democrat.

Mind Reached Through the Body.

That mental disorders may in many instances be cured by corporeal measures all know Some sudden shock to the body has often proved the only means by which a long standing mania has been removed. It is wonderful, for instance, what a marvelous effect the submersion of the would be suicide in the cold depths of the dark river has upon his mind. No sooner is he rescued and brought to his senses than all thought of putting an end to his existence has vanished, and he once more braces himself up to fight the battle The disappointed lover who-especially if she be a woman—is tempora-rily deranged, finds a plunge into the nearest pond quickly alters her views as to her miserable condition. The fires of love are often as effectually quenched by one rash dip and the troubled mind as speedily restored to a healthy condition, as though the false one had never betrayed her, or the treacherous vow had never been spoken.—London Standard.

Increase of Scandinavian Population. The Scandinavian population grows at its root in Castle Garden in New York, and in all its branches over the land. The total number is now about 2,000,000, of whom one-half were born across the sea. They are divided in about these proportions: Swedes, 1,000,000; Norwegians, 750,000; Danes, 245,000; Icelanders, 5,000. So rapidly have they increased in Minne-

# \$1,500 in Cash Prizes FOR THREE BEST ADVERTISEMENTS.

The Chicago Daily News has reduced its price from two cents to One Cent per copy. For a year past its sales have been over "a-million-a-week," and it believes it now sees the way to safely lead in placing an ideal American daily paper upon the basis of the lowest unit of American coinage—ONE CENT.

To successfully accomplish this end two things are essential:

First—To make as good a newspaper as the best, if not a little better; second—to let every man, woman and child in the Northwest know it's being done, and done at one cent a day. The Dally News believes that it is competent to take care of the first named condition, and knows of no better way of meeting the second than by general newspaper advertising. To do the latter most effectively it here solicits the co-operation of all who believe themselves competent to write an effective newspaper advertisement. To induce the best effort in its service in this matter THE DAILY NEWS will reward the writers of the three best advertisements submitted, with three cash prizes, aggregating Fifteen Hundred Dollars, divided as follows:

First Cash Prize—For best advertisement, - - - - - \$1,000.00 Second Cash Prize-For second best advertisement, - - - - 300.00 Third Cash Prize-For third best advertisement, - - - - -

The advertisement may be a single announcement, or a series of announcements not exceeding six in number. The space required must not exceed that occupied by this advertisement—eight inches deep, six and one-quarter inches wide.

For the general guidance of all who enter the competition, the following ten points are briefly stated as being those which THE Daily News will require to be most prominently brought out. The advertisement must emphasize

1—That The Daily News is first, last and all the time, a news-paper. Because that should be the first and controlling consideration in the production of an American Daily paper,—and it isn't always so. It costs money, enterprise and hard work in unstinted measure to make a genuine news-paper.

a—That The Daily News is a daily paper for busy people. Because this is a country of busy people, and the North-west is the busiest part of it. Most people haven't the time or patience to read a "blanket-sheet,"—they absolutely haven't any use for it. Newspaper reading, after all, is but an incident of life, not its chief business. Therefore The Daily News is a short-and-to-the-point-paper

The Daily News is a short-and-to-the-point-paper

3—That The Daily News is an independent, truth-telling newspaper. Because the American people are intelligent enough to prefer honest, impartial journalism to the misleading, truth-discoloring dishonesty of the regulation political "organ." Everybody really wants to know the truth in political matters; the most violent partisan doesn't want misinformation for a daily diet. And as to editorial expression, even the most unreasonable partisan will rarely take lasting offence at an adverse opinion, so long as he is confident of the konesty of purpose back of the opinion. It's not the mere fact of disagreement that makes trouble, it's the suspicion of insincerity. [Make this point very strong and clear. It's because The Daily News has won it's way to the confidence of its readers of every political faith that it has a circulation of over "a-million-a-week."]

4—That The Dally News is a family paper. Because this is the age of the newspaper,—a time when everybody reads it, and it is all-important that the newspaper should be made with direct reference to the needs of all the members of the family. Woman and her interests never occupied so large a share of the world's thought as to-day—a fact not to be overlooked. The moral tone and influence of a daily paper must also be constantly watched, for children read it. The Dally News is for the home, and therefore it follows

DAILY News is for the home, and therefore it follows

5—That The Daily News is against the saloon. Because "the liquor interest" arrogantly assumes to dominate in American politics, and The Daily News believes that it is not for the country's good that any one interest should thus over-ride all others, much less one which stands as the representative of all that is most un-American among us. The Daily News is not the organ of prohibition. It is not sure that prohibition is the best thing. Good people who have made this subject a life-long study do not agree as to the remedy. The Daily News has no eutopian hope that it is possible to legislate men into good-

ness, but it has a very positive conviction that it is entirely practicable, and altogether desirable, to legislate saloon-keepers into their proper place, as being engaged in a traffic which here, as everywhere else in the civilized would, is only tolerated as, apparently, a necessary evil. [There must be no uncertain sound on this point.]

6—That The Daily News is a happy paper. Because it believes in the practical wisdom of being good natured; of being generally satisfied rather than everlastingly dissatisfied. The chronic fault-finder is a nuisance, and The Daily News will have the least possible of him. The world is better than it used to be, and is getting better every day. It's a good place to live in—let's make the best of it.

That The Daily News costs a great deal of money to make. Because there is sometimes no way of demonstrating the value of a thing, to some people, so conclusively as by showing, even in part, what it costs to make it. There are 302 people on the regular weekly pay-roll of The Daily News, and their salaries range from \$5,500 to \$6,000 per week, aggregating \$300,000 a year. The white paper costs another \$300,000 a year. The aggregate expenditures of The Daily News for 1888 will vary but a trifle either way from \$900,000. And yet

8—That The Daily News now costs the reader only One Cent a Day.

Because this is the most wonderful thing in modern journalism, and deserves telling o'er and o'er. [There is little danger of making too much of this point.]

9—That THE DALLY News is now literally everybody's paper. Because heretofore metropolitan daily papers have been too expensive both in price and in time required 'o read them, to make it practicable for the farmer or the mechanic to take them. Now this is changed. The farmer particularly should take a daily paper now that it costs but little more than the old-time weekly, and is condensed so that he can also afford the time to read it. He'll save its yearly cost over and over again by knowing the market prices every day, instead of weekly as heretofore.

10—That THE DALLY NEWS now inaugurates a newspaper revolution. Because such a combination of values as it now offers the reader is absolutely without parallel among American newspapers, and it is bound to make the dry-bones rattle. The result of this revolution is that every English reading person living within daily newspaper distance of Chicago can now afford, both as to price and time, to have his city daily.

Other points will suggest themselves to the regular reader of the paper itself, and may be introduced according to the judgment of the advertisement writer. Outline illustrations and poetry may be introduced if desired, but they are not necessarily essential to success in the competition. The prizes will be awarded to the three most successful advertisements, the publisher of The Daily News being the sole judge, whatever may be the absolute grade of their merit. All advertisements must be received before September 1st next, and the awards will be made at the earliest date practicable thereafter. Intending competitors must apply for the paper's complete prospers and advertisements must be submitted under the conditions therein named in detail. pectus, and advertisements must be submitted under the conditions therein named in detail.

FRIDAY, AUGUST 10, 1888.

### BEAKES & MORTON, Proprietors.

Entered at the Post-office, in Ann Aroor, Mich., as second-class matter.

TERMS-\$1.00 PER YEAR, IN ADVANCE.

For President, GROVER CLEVELAND. For Vice-President, ALLEN G. THURMAN.

THE present tariff yielded \$130,-000,000 more than was needed for the governmental expenses. Why not reduce it? And if we reduce it why not reduce it on the necessaries of life?

THE Ypsilantian speaks of two years of drought. The other republican papers think the Mills bill is responsible for the ills the farmers complain of. It must be the Mills bill is responsible for the drought.

CHINA objects to imports. So does the republican party with Harrison, the favorite of the Chinese, as its leader. The republican party does not wish us to trade with foreign nations. The farmer is obliged to sell his surplus wheat abroad. Why not let him trade to advantage?

"No government has the right to put its hand in my pocket, take out my money and give it to some one the resolutions. else" said Justice Miller, a republican member of the U. S. Supreme Court in one of his decisions. That is exactly what a protective tariff

GENERAL Harrison never heard of Robert Burn's famous lines ending "A man's a man for 'a that" or if he did he doesn't believe them. He says a cheap coat means a cheap man inside of it. We cannot all be rich and wear fine broadcloth but we don't wish to be considered cheap the interests of labor. men on that account.

MAYOR Timothy Nester, of Marof the upper peninsula has deserted the republican ranks and declared for Cleveland and a reduced taxation. He will also do yeoman service for Burt's election. Nester is a leader who has a large followquette, one of the republican leaders ing among the voters.

GLADSTONE, Parnell and Davitt are free traders. The great O'Contive tariff of England. All the of Indiana, who know him best. English protectionists now belong to the Tory party which is engaged in an effort to keep Ireland from her just rights. The republican organs very carefully refrain from stating

GEO. S. WHEELER at the republican convention in speaking of the sugar trust said that he could tell how to break up the trust-take the duty off and the trust would be broken inside of thirty days. The convention heartily applauded this point. Mr. Wheeler ought to be muzzled by the republicans if they expect to stand on their platform this year. The democrats are seeking to break up trusts by taking off the tariff. The republicans would rather put on more tariff.

In an interview with a reporter trial. of the Evening News, Mayor Weston, of Grand Rapids, said:

"The farmer remembers the war period when wheat was \$2.25 a bushel, and he put just seven bushels into a wagon when he had to buy a \$15.75 suit of clothes. Now, with wheat 75 cents, he has to put 21 bushels in to get the same suit. He gets inquisitive and finds that the old war tariff tax of 67 per cent. is still standing on woolen goods, which is mainly responsible for the big hole made in his wheat bin.

Once in a while you will find a republican paper with the temerity to hope that the republicans may carry Tennessee. A republican governor, they suggest, failed of an election in 1884 by only about 3,000 votes. The candidate who made that phenomenal run was Judge Frank Reed, the strongest man in the republican party of Tennessee. This year he is an earnest supporter of President Cleveland because he believes in revenue reform. He is a

the democratic majority in Tennessee. Leading republicans all over the country are declaring for Cleveland WHAT THE FARMERS PAY, OWand a reduction of taxation.

SAYS the Charlotte Leader.

Senator Frye, (republican) of Maine, said in the United States senate in 1873, when the wool question was under discussion: "Domestic wools have gone done in price from the time the tariff was enacted until to-day." In 1883, the republican state committee of Michigan, issued a circular in which occurs this sentence: "To-day wool is cheaper pound for pound, and has been for the last five years, than it was from 1856 to 1860 under the free rating of the free trade party." The national wool growers association convention in 1883 said: "The price of wool from 1845 to 1860, under a low tariff, was to the grower 46 5-8 cents while to-day under the tariff of 1887 it is less than thirty cts.

THE Harrison managers called a meeting of Indianapolis workingmen last Thursday to try and induce Governor Porter, a favorite of the workingmen to run on the workingmens' ticket. The workingmen at this meeting expressed their opinion of Harrison. A committee of twenty five everyone of whom had hereto. fore voted the republican ticket were appointed to wait upon Gov. Porter and present him with the resolutions adopted by the unanimous vote of the meeting. The following were

# The Result of a Fight.

What seemsd to be a free fight created considerable excitement in the city last Saturday eyening about seven o'clock. In the course of it chairs were used as weapons, beer bottles, and whatever else came handy. As the outcome of the fight, Solomon Zeeb, Henry Waldron, William Taylor and Arthur Crump (all colored) were arrested. Solomon Zeeb and Henry Waldron plead guilty before Justice Pond to a breech of the peace and were each fined \$1 and \$4.70 costs. This they paid. Arthur Crump ≥ as arraigned on the charge of carrying a concealed weapon and plead guilty. The weapon was a razor. He received ninety days in the house of correction, in which he had served a former term. William Taylor was arrested on the charge of carrying a concealed weapon and a pistol was taken from his pockets by an officer. He plead not guilty before Justice Frueauff and will have his

# TALKS ON THE STREET.

HEARD BY THE ARGUS DURING THE WEEK.

How You Can Tell Hotel Boarders-A Farmer Gives Some Telling Facts-The Way Tramps Have of Getting Breakfasts.

"Three soldiers came in here to make affidavit for an application for a pension," said a rustling democrat Monday "and they all stated as they were going out that they have been republicans but were going to support Cleveland this year. If the republicans lose much of the soldier vote this year, what will become of then."

Mr. H. M. Russel, of Saline, said, while in the city last Tuesday, that he had received an average of 45 cents a pound for his wool in the eleven years preceding 1860, under a revenue tariff and free wool. Last year he got 28 cents and this year 22 cents. Such a fact as that is a strong argument to show that the tariff on wool does not help the farmer.

Mr. Russel called attention to the cloth he was wearing and said that last January he bought it in Saline for \$4.50 a yard. Before the war ne sold the same quality of cloth, the same weight but half the width, for \$1.75 a yard. He running a store in Saline at the time. At that time farmers got from 45 to 50 cents for their wool. This year he got 22 cents. This goes to show that farmers under the high tariff get less for their wool and pay more for their clothing. "Did you ever notice," said a rather

close observer the other day, "that you can always tell a regular hotel boarder about the hotels. They all look like stuffed pigs. A few years ago I boarded at the Cook house and began to grow heavy and although 1 am not a large man I tipped the beam at ;189 pounds, now I only weigh 148. The reduction has come since I quit hotel boarding. I suppose it's because where there are so many courses a man involuntarily eats more than he does at a private table. I remember being in Grand Rapids recently and taking a seat at a table occupied by a number of fleshy ladies and gentlemen. I asked the gentleman with me, if they were not all regular boarders at the hotel. Of course they were. You can always tell them Try it and see."

Farwell introduced a bill granting a pension of \$5,000 per year to Mrs. Sheridan. Blair introduced a joint resolution requesting the president to open negotiations with Great Britain for the po-litical union of Canada with this country. On motion of Edmunds a resolution instructing the finance committee to inquire into the alleged cotton bagging trust was laid on the table. Vance defended the fisheries treaty in a set speech. A presidential message announcing Gen. Sheridan's death was received, and Hawley offered a resolution to appoint a committee to attend the funeral, which was adopted, and the following named

respect to the dead general. The chaplain of the house in his opening prayer alluded to Gen. Sheridan's death, and shortly after the house came to order the president's message formally announcing the same was received. Hooker of Mississippi and Grosvenor made short eulogistic addresses, after which Hooker offered appropriate resolutions, including instructions to the speaker to appoint a committee to take part in the funeral. This was adopted, and

at 1 p. m. the house adjourned in memory of the deceased soldier. WASHINGTON CITY, Aug. 8.—The senate vesterday passed the resolution for an inquiry into the cotton bagging pool. Sherman then made an extended speech against the ratifica-tion of the fisheries treaty. The bill to restrict Chinese immigration was then taken up, but without action the senate at 6:15 p.

COLUMBUS, Ohio, Aug. 4.—Charles, alias "Blinky" Morgan, the principal figure in the Ravenna rescue and the murder of Detective Hulligan, of Cleveland, Ohio, was executed at the Ohio penitentiary shortly after midnight. The prisoner spent a quiet day, re-fusing to see visitors except those with whom he had been intimata and who had taken an interest in the commutation his sentence. To all with whom he talked he protested his in-

nocence of the crime. Morgan made out an order turning his body over to Dr. Clemmer, the physician of the prison, with the request that it be used for the benefit of the sciences and afterward cremated. After giving the order he received a letter from Nellie Lowery, of Cleveland, who is reputed to have been his mistress, asking that his body be sent to her. She had been refused the pleasure of seeing him alive, and she claimed that it was no more than right she should see his face after death. Morgan changed his mind after reading the letter and asked the physician to relinquish his claim, which was

New York, Aug 4.—The World's special from Columbus, Ohio, says that "Blinky" Morgan made an awful fight for life when he was hanged. The trap was sprung at 1:22. He fell seven feet and the straps came off his arms, and he began trying to pull the rope off his neck. The physicians grabbed his hands and held them until he died of strangulation. It was twenty-four minutes before the heart ceased to beat, and he died e terrible death, drawing his legs up and kicking in a frightful manner. Morgan made a statement to Warden Coffin that confession of his guilt. During his conversation the warden suggested to Morgan that if he had told his whereabouts on the night of Morgan said: "It would do no good at this others a great deal of trouble " Afterward Morgan went on to state that it would ruin two women if he told where he was at the time of the McMunn rescue.

action.

THE STANDARD meets and triumphantly refutes the great argument of protection. It shows why wages are higher in the United States than in Europe, and that the difference is in no way due to the operation of the tariff, whose only effect is to reduce the reward of labor.

During the coming campaign every tariff reformer will be called upon to defend the principle of free trade against the principle of protection. Those who read THE STANDARD can do this easily and unanswersably.

The "what have you got to say about the communication was as follows:

the stream emptied into the pipe.

A communication (a copy of which marked "A" is appended) was sent April 30 to the superintendent of the water company calling attention to this filthy stream and asking that it be immediately shut off, and that no more water be permitted to flow from it into the pipes until the bed and banks of the stream were cleansed and assurance given that it would be kept clean and the water pure. The water was promptly turned off. But in a few weeks water was found again running into the pipes from this stream and the into the pipes from this stream and the two streams draining the stable yards.

two streams draining the stable yards.

This the superintendent states was without his instruction or knowledge and that the water was turned in by employees to rinse the receiving basin. He gave verbal promise at a meeting of the board, to which he was invited, that there would be no more trouble about it. But about July 1st, water was again found running from this stream, which had not been cleansed, into the pipe.

At a meeting of the board July 2nd, the secretary was instructed by resolution (copy appended marked "B") to notify the superintendent of the water company of what had been found, and

And stating that unless assurance in writing was received, that the water from this stream should be kept turned off until efficient measures were taken to protect it from filth, the board would enforce the resolution of July 2nd. We have received no asknowledgement of this communication and are reluctantly left to believe that the water company is either unwilling or unable to comply with the reasonable recommendations of this board to secure to citizens what they pay for and have a right to expect, i. e., water if not absolutely pure, at least free from filth.
