The Mexicans outnumber, ten to one, the white citizens in that section, and there is no telling to what excesses they will resort, especially as they have no difficulty in escaping to Mexico if it suits them. Governor Ross has also telegraphed all the sheriffs of all the counties on the border, or contiguous to it, to proceed by forced marches to the troubled district, and take armed posses along with them. He likewise telegraphed to the San Antonio rifles, to the Belknap rifles, and the famous Houston Light guard to hold themselves in readiness to march at a moment's notice.

It is believed there will be a general massacre of Texas citizens unless the United States troops from Fort Ringgold come to their rescue. The event is likely to lead to an international complication and should a massacre occur swift and wholesale retribution is certain to follow. Governor Ross rise to the worst fears.

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. Fernandina's Deceptions Regarding the Fever.

SHAMEFUL CONCEALMENT CHARGED

The Authorities Only Forced to Tell the Truth When a Government Inspector Was Looked for-North Carolina Refuses to Receive Refugees-Frost in Alabama -Situation at Decatur and Jackson-"Suspicious Case" at Memphis.

JACKSONVILLE, Fla., Sept. 26. - There have been about a dozen deaths in Fernan-dina during the past two weeks. Stephen A. Sessar, civil engineer, died Sept. 16, of alleged gastric fever. L. B. Aiken, died Sept. 15. T. B. Pryor was said to have died of typhoid fever, and several colored persons, among them S. B. Payne, principal of the colored school. On the 22nd inst. the county board of health denounced reports of yellow fever as untrue, Dr. Palmer not agreeing to the statement, but being out-voted 6 to 1. The mayor and other prominent officials endorsed the denial. It was only Monday, when it was learned that a marine hospital surgeon would inspect the town, that the presence of yellow fever was acknowledged, after being concealed several weeks, but being locally known, and many persons having quietly left the place. This course is gravely censured. It was an outrage on other towns, like Gainesville, which kept up communica-tion with Fernandina on the strength of the official denial that there was no yellow fever

The official bulletin for Jacksonville for the twenty-four hours ended at 6 p. m. yesterday is as follows: New cases, 143, of which 85 are colored people; deaths, 4—J. L. Burch, Mrs. Hall (colored), Otto Tripp, Miss Florence Stowe; Total cases to date, 2.134; total deaths, 231.

The twenty-four hours ended at 6 p. m. yesterday is as follows: New colored people; deaths, 4—J. L. Burch, Mrs. Hall (colored), Otto Tripp, Miss Florence Stowe; Total cases to date, 2.134; total deaths, 231.

The type of the fever appears to be growing milder, and the death rate continues low, producing a more hopeful feeling. One death—that of Jonathan Law—is reported from McClenny.

The board of health announces that the

city is well supplied with physicians and nurses at present. It is requested that be-fore any are engaged to come here the board of health be communicated with as to its needs. The appearance of sporadic or imported cases of yellow fever at high and healthy points in the interior has added to the alarm in some sections, but is not regarded here as serious.

TELEGRAMS TO WASHINGTON.

Reports of Train Suspensions-The Mississippi Mob Quarantine.

Washington City, Sept. 26.—The post-office department yesterday afternoon received a telegram from a postal official, dated Atlanta, Ga., stating that no trains are running between Memphis and New Orleans except accommodation trains; none between New Orleans and Wilson, La., nor between Greenwood and Jackson, Jackson and Natchez, Moydan and Shreveport, Moydan and New Orleans, Cairo and Mobile, Aberdeen and Durant, Selma and Moydan, Chat-tanooga and Moydan, except a short train between Birmingham and Tuscaloosa.

Another telegram says: "No new cases of yellow fever or deaths occurred at Jackson yesterday, but this fact does not reem to abate the excitement in the least. There are no trains running between Selma and Moydan and Montgomery and Akron. A fumigation station has been established at Deca-tur. No station can as yet be placed at Jackson, as the neighboring towns threaten that if mail or anything else, fumigated or not, is taken on at or near Jackson they will tear up the track and burn the bridges. Arrangements have been made to establish a station at Jackson as soon as the excitement subsides. There are slight evidences of reaction. Business men begin to feel the pressure and are commencing to resist the

SHUT OUT OF NORTH CAROLINA.

That State Closes Its Doors Against Refugees from the Fever.

RALEIGH, N. C., Sept. 26.—Governor Scales has written the following letter to the president of the board of health of Jackson-

I am in deep sympachy with your people, strug-gling with a terrible scourge, and am anxious to aid you in every way possible, consistent with the safety of our people. Many towns in the moun-tains of North Carolina invited the citizens of Jacksonville, under proper precautions and re-strictions, to take refuge with them. This arrangement has been managed so loosely and with so little regard to the health interests of those of our people among whom your citizens have taken refuge, that our physicians, many of whom before, in their humanity, advised such action, now regard any similar colonization of refugees in our

midst as dangerous, and earnestly advise against it. This is, therefore, to notify you, and all other persons from infected yellow fever districts in Florida and elsewhere, that in future such coloni-zation will not be allowed in this state, and every effort will be employed to prevent it.

SANGUINE DECATUR PHYSICIANS.

They Think the Worst Is Over in Spite of an Unfavorable Showing.

NASHVILLE, Tenn., Sept. 26.—A special to The American from Decatur says: The deserted streets, the closed business houses and the general melancholy appearance of everything, show the real condition of things. Two deaths have been reported since Monday night-J. H. Weakley and his son, L. S. Weakley. They were from Brownsville, Tenn., and had been in Decatur but a short time. Two new cases were reported yesterday. Notwithstanding the unfavorable showing the doctors still think the worst is over. The supply of provisions and money is about exhausted, and is coming in very slowly. No trains, either freight or pas-senger, are allowed to stop, and communication can only be had by telegraph.

The Discouraging "Suspicious Case."

MEMPHIS, Tenn., Sept. 26.—A suspicious case of sickness is reported in the suburbs of this city. It is that of B. H. Binford, traveler for a Cincinnati coffee house. He came from Decatur. It is not certain that it is yellow fever. An official statement of what the disease is will be made as soon as possi-

Sioux City's Corn Palace.

SIOUX CITY, Iowa, Sept. 2s. - The first day of the corn palace festival was all that could be desired as to weather, and the attendance was greater than was anticipated. All the railroads centering here ran special trains, and these were filled in the morning and crowded in the afternoon, bringing in altogether about 8,000 visitors. The corn palace was thrown open to the public at noon, and within an hour was filled to its utmost capacity. There were no formal ceremonies. The Elgin Military band, consisting of forty-six pieces, arrived Monday morning and gave two concerts in the festival build ing. The palace presents an even more attractive appearance under illumination at night than during the day.

LUCK ON WALL STREET.

SIGNS WHICH BROKERS BELIEVE IN-DICATIVE OF BAD FORTUNE.

Wall Street a Hotbed of Superstition. How Hunchbacks Affect the Market. The Wrong Foot Foremost-The Number 13-Lucky Suits of Clothes.

While eating lunch the other day with a prominent broker, I chanced to ask him about the stock market. Before the question was out of my mouth his hand went under the table like a flash and three ominous raps greated my inquiry. nous raps greeted my inquiry.
"Spirits?" said I, distrustfully eyeing

"Luck," he answered, sipping his coffee.
"I rapped for luck, as every sensible man should when the market is referred to in a restaurant."

Outside the circle of Spiritualists hundreds of prominent persons are supersti-tious. We consider ourselves at the meridian of civilization, but, as Emerson says, we are only at the cock crowing and says, we are only at the cock crowing and the morning star. Hundreds of people consult swindlers who call themselves astrologers. A large proportion of the population here believe in signs indicative at good luck or ill luck, or else they believe that certain persons are favored with good look, while others are naturally unlocky. look, while others are naturally unlucky. The Rothschilds will have nothing to do with a man whom they consider unlucky. Commodore Vanderbilt, one of the ablest railroad financiers this country ever produced, believed in luck.

BAD LUCK ON FRIDAY.

Hundreds of intelligent persons have a superstitious reluctance to engage in any important enterprise on Friday. This includes as cool and matter of fact a man as Jay Gould. Under no circumstances with the use of persons of the late lesses Hoyt. Jay Gould Under no circumstances will he use an elevator. The late Jesse Hoyt, the millionaire grain merchant, would never engage in any important business undertaking on Friday, and many of the speculators on the big exchanges are similarly superstitious. They consider every Friday a Black Friday. The prejudice against Friday probably dates back to the Middle Ages, or to even a remoter period, as the day on which Christ was executed. It is only one of innumerable old superstitions which still survive.

Many investors and speculators in Wall street are superstitious about dropping things If they find themselves constantly dropping articles which they happen to be

dropping articles which they happen to be carrying they take it as a sign that they must sell their bonds and stocks. Many have a superstitious fear of holding stocks over a holiday.

Some firms will not display the ominous 13 if it happens to be the number of their places of business.

"I confess," said the manager of a large banking and brokerage house, "that I have a superstition about the 13th day of the month. It is not generally a lucky day. One unlucky instance I remember, too, about Friday A big lake steamer that plied between Buffalo and Chicago a number of years ago was launched on number of years ago was launched on Friday, sailed on Friday and sank on Fri-

Some stock brokers think it is very good some stock brokers think it is very good luck to see a hunchback. If they can touch the deformity it will bring big gains Such a touch is also supposed to cure headaches. To see a negro the first

thing in the morning is a favorable sign. In the play "Henrietta" a youth who speculates in stocks when asked by his broker whether he wishes to buy or sell answers gravely. "I will consider it." Then he turns his back and tosses a cent to determine his course. This is really founded partly on fact. A person in the habit of speculating in stocks found he was losing steadily. At length he hit upon the idea of tossing a half dollar which he always carried for luck, and if it proved to be "head" he bought the first stock that came out on the tape; if it was "tail" he sold For a time at least he was far more successful by this method than he had ever been through the exercise of common sense.

THE WRONG FOOT FOREMOST.

Some persons on rising in the morning have a superstitious fear of putting the left foot out of bed first. Others believe in always putting on the left shoe first. If they meet a negro or a cross eyed woman they spit for good luck. Everybody wants to pick up a horseshoe.

On the Cotton Exchange there is one prominent member who consults the spirits" for points on the market. On a dark day, when the gas is lighted, some of the brokers consider it a sign that the market will advance. Others say it is good luck to meet a Sister of Charity.

"I shouldn't care," said a popular oil operator. "to be long of 13,000 barrels of oil here and short that much in Oil City.

would make it 14,000 at all hazards. course it is all nonsense, but I should feel better to change the figures at once. better to change the figures at once. Then I have an unlucky suit of clothes. It may sound laughable, but it is so. I have a fine gray suit at home which I have only worn four or five times in the last three years, and it has already cost me ten times what I gave for it. I borrowed a diamond ring from a friend and thought it might give me luck. It was just the reverse. As sure as I wear that diamond ring the market breaks. Another thing, I never trade on Friday if I have seen that day a cross eyed woman or a red headed man."

or a red headed man."

One of the best known traders in the oil ring of the Consolidated Exchange will never cross a street diagonally, but always at right angles. Between Wall street and Exchange place on narrow New street, on which both Stock Exchanges abut, the brokers walk in the middle of the street about as much as they do on the sidewalks; but the oil operator referred to always keeps carefully to the sidewalks, and if he has occasion to cross at the intersection of another street altakes in each corner on the way rather than cut across cata-cornered. He has a German coin that he could not be induced

to sell. It gives good luck.

Hundreds of brokers on the two Stock Exchanges consider that they have their

lucky suits of clothes.
On the Consolidated Exchange, espe cially in the shouting, gesticulating, pushing and rollicking oil group, it is considered a very bad omen to open an umbrella and raise it over the head. Putting up an umbrella in a board room would seem under all circumstances to be unnecessary. It is worse It brings bad luck. There is a skeptical wag in the crowd, however, who on dull days, when the brokers are skylarking, will raise an umbrella and run into the trading ring and hold it over as many traders as he can. They scamper like a flock of frightened sheep.—New York Cor. Globe-Democrat.

Then there is even a larger annual expenditure for white paper, and telegraph and cable tolls sometimes run nearly a thousand dollars a week. Take it all together the expenditures of The Daily News for the year 1888 will vary very little from \$900,000.

The foregoing takes no account of the special correspondents at hundreds of places throughout the country; of European correspondents; of fifteen hundred news agents throughout the Northwest who distribute The Daily News to its out of town readers; of two hundred city carriers; of forty-two wholesale city dealers with their horses and wagons; of one hundred and fifty branch advertisement offices throughout the city, all connected with the main office by telephone, nor of the about three thousand newsboys who make a living, in whole or in part, selling The Daily News in Chicago. WE are looking for the Pittsfield and Lodi democrats to give a good road for the republicans.

you could have purchased that crockery for \$9.60 and the tax would only have been \$4.20.

THE Courier this week affirmes that free trade between nations as between states is a beautiful sentiment. No republican protectionist ported by such a free trade paper. Of course this squib is arrant nonsence, but it is a fair sample of Courier editorials.

HENRY A. ROBINSON, who ran in the Detroit district two years ago, for congress on the republican and labor tickets, has declared for Cleveland and tariff reform and is out with a strong letter supporting his position. He is a recognized labor leader in Detroit, everywhere respected for his honesty. His letter and influence will have a good effect in this state.

It so weakens its editorial columns that its opinions, assertions and arguments come to be regarded as worthless.

THE republicans are claiming everything this year, admitting nothing. So desperate are they, that they are even resorting to for-geries to regain power. We refer English flag at the head and supposed extracts from English papers to the effect that the only use England has for an Irishman is to send trade. The quotations are forgeries.

being an enemy of the soldiers, no ministration. doubt our boys in blue wish they had more such enemies. President Cleveland has appointed just seventeen pension agents, sixteen of these were union soldiers and the other one is the widow of a union soldier. The only other pension agent now in office is a union soldier appointed by Arthur and kept in office by Cleveland.

THE present tariff is a tariff which discriminates against the poor and in favor of the rich. For instance the duty on common woolen shawls is 86 per cent but on the finest India shawls it is only 401/2 per cent. Spool thread pays a duty of 51 per cent but the finest thread lace pays only3oper cent. Castor oil pays a duty of 180 per cent but otter of roses is admitted free of duty. Horse-shoe nails pay a duty of 116 per cent but gold studs are admitted with only 25 per cent duty. And so you may run through the list. The necessities of life are heavily taxed, the luxuries more lightly. The tariff sadly needs revision. Lower the tax on the necessities of life which the poor man must have!

> THE last democratic governor of Michigan before the war, was Robert McClelland who served his second term in the years 1853 and 1854. These are the last years in which the democrats controlled the state government of Michigan. Since that date Michigan has elected republican governors, excepting in 1882 when Begole was elected; since that date Michigan's legislatures have been republican. The years 1853 and 1854 were, then, the last years in which the democrats controlled the state government and legislation. In the year 1853 the state taxation was only \$10,000. In 1854, it was only \$30,000. Compare this last two years of democratic administration with the last two of republican administration. In 1887, state taxes were \$1,950,085.16. In 1888 they were \$1,458,466.04. In the last two years of republican administration state taxes were \$3,408,-551.20. In the last two years of democratic administration the taxes were \$40,000. Of course the state could not be supported on such a small amount as that alone. But we must remember that the state had been managed by democrats for a series of years and had become forehanded. The state population in 1854 was 507,521. In 1884 it was 1,853,658. In other words, our population is not more than four times as large, but our taxes are eighty-five times as heavy.

THE TARIFF TAX-WHO PAYS IT?

In one breath the Republican expounders of protection—the paper Chinese wall designed to shut foreign poachers out of the domestic preserves-tell their hearers that the duty laid on imports does not increase the price of the protected article to the consumer,-in fact that it cheapens the taxed fabric in the market: then, failing to explain to the satisfaction of some curious and THE democrats stand for reduction incredulous inquisitior how such an absurdity can be, they assert that and contributes that much to the support of our government. THE WEEK'S PROCEEDINGS IN SEN-ATE AND HOUSE.

A Summarized Statement of What the National Law-Makers Are Doing-Record of the Bills and Resolutions Introduced in Both Branches of Congress During the Past Week.

WASHINGTON CITY, Sept. 20. - Edmunds

reported to the senate yesterday an order of the foreign relations committee directing the presiding officer to withhold the Chinese bill from the house until further directions. wanted immediate consideration, but Teller A resolution was passed appropriating \$100,000 to be used exclusively for relief of yellow fever suffers, and not for quarantine. Jones of not for quarantine. Jones of Arkansas spoke at length on the tariff, declaring it a system of naked robbery, and Stewart replied declaring the demonetization of silver the cause of all the trouble. Bills were passed: Appropriating \$750,000 for a public building at St. Paul; granting Duluth & Winnipeg railway right-of-way through Fon du Lac Indian reservation in Minnesota; forfeiting lands granted Michigan to aid the Ontonagon & Marquette railway; appropriating \$75,000 for a public building at Kalamazoo, Mich. The senate then adjourned.

The house spent the whole day debating

the public library clause in the sundry civil bill, and when a vote was taken on the con-ference report to agree or not to agree, it stood yeas, 68; nays, 67—no quorum—and the house at 2:55 adjourned.

Washington City, Sept. 21.—A bill was reported to the senate yesterday to amend the act for the relief of the Stockbridge and Muncie tribes of Indians in Wisconsin. Ed-munds, for the reason that the Chinese exclusion bill had passed out of control of the senate, moved to lay on the table the resolu-tion directing that the bill he withheld; agreed to. Mitchell made a long speech against the Mills tariff bill. The senate then held a short secret session, after which the bill to create an executive department of agriculture was taken up, and it was agreed Also Linseed Oil Meal an excellent feed for stock. > The house refused to agree to the conference report on the sundry civil bill—32 to 47—and a further conference was ordered. A bill was reported suspending the timber culture, pre-emption and desert land laws until action is taken on pending legislation on those subjects. Morrow offered as a question of privilege a resolution directing the enrolled bills committee to immediately transmit the Chinese exclusion bill to the president. Declared no question of privilege by the chair. The house, at 3:15 adjourned.

> WASHINGTON CITY, Sept. 22. - Stewart introduced a bill in the senate yesterday providing that bills which have passed both houses shall be immediately transmitted to the president; also a resolution requesting the house to require its officers to so transmit bills. To the latter Edmunds objected. The clause in the house bill providing for an ex-ecutive department of agriculture which transfers the weather bureau to the new department was rejected, and the bill passed. The conference report on the sundry civil bill was agreed to, and a motion adopted to drop the library clause entirely from the bill in case of further disagreement. The senate then adjourned until Monday.

In the house Kilgore, by objecting, prevented the passage of the senate bill appropriating \$100,000 to aid the yellow fever sufferers. The senate bill forfeiting the Marquette & Ontonagou land grant was amend-ed, limiting the forfeiture to lands along the unconstructed part of the road, and extending it to lands granted to the line from Ontonagon to the Wisconsin state line, and then passed. Hopkins of New York objected to unanimous consent to consider the bill providing for the suppression of trusts. The bill to suspend the pre-emption, timber culture and desert land laws was amended by strikout the suspension part and leaving the provisions that railroad claimants shall not se-cure any better claim to lands, nor the right of the United States to forfeit be in any way diminished during the pendency of the forfeiture legislation. The bill was passed. Several private bills were then passed, and recess taken to 8 p. m., at which time the Mrs. Sheridan pension bill came up, but Cheadle of Indiana objected. It was then proposed to make the bill special order for Dec. 6, but Kilgore of Texas objected. Thirty-two private pension bills were passed, and the house, at 10:30, adjourned till Monday.

Washington City, Sept. 25.—A bill was

reported to the senate yesterday allowing any person (not only veterans) who has relinquished a homestead entry to make another one provided he is not a speculator.
Plumb spoke in favor of forfeiting certain
land granted the Northern Pacific railway.
Ten thousand dollars was appropriated for a
monument to commemorate the surrender of Burgoyne. The general deficiency bill was taken up and an amendment agreed to in-serting each of the items contained in the book of estimates which had been omitted from the bill except those for the Pacific rail-way companies. Other amendments appropriated \$276,000 for indemnity to persecuted Chinese; provided for two additional asso-ciate justices for the Dakota supreme court; appropriated \$25,000 for the annual leaves of absence of employes in the government printing office, and extended the criminal laws over the public land strip. The bill was then passed. Stewart introduced a sweeping measure of Chinese exclusion requiring the abrogation of all treaty obligations permitting the immigration of Chinese laborers, A bill was introduced to appoint a commission of seven physicians of different schools to go south and investigate the yellow fever. Plumb introduced a bill to pay a reward of \$100,000 to the proprietor of the copyrighted remedy that cures 981 out of 1,000 yellow fever patients. The senate then adjourned. The house passed a bill authorizing the construction of a bridge our the Mississippi at LaCrosse, Wis. Other bills offered were: To establish yellow fever refugee camps at

proper points in the south and equip the same; to prevent aliens being employed on public works. A joint resolution extending the existing appropriations for sundry civil expenses to Oct. 15 was adopt-ed. Sayres of Texas made a speech ed. Sayres of Texas made a speech defending the administration from the charge of extravagance, and laying the blame on the senate. Further conference was ordered on the public library clause in the sundry civil bill, the rest of the report being agreed to. Holman asked immediate consideration of a bill to extend the criminal laws over the public land strip, but the friends of the Oklahoma bill notified him All kinds of Berry Plants. Fruit and Crossmantal trees from Ellwanger Roy Millin of Tennessee objected to a proposition to fix a day to consider the Blair educational

bill, and the house adjourned. WASHINGTON CITY, Sept. 26.—Stewart offered a resolution in the senate yesterday calling on the president for such information as he has regarding the Chinese treaty, received since the 7th inst. Edmunds said that was a matter for executive session and the senate thereupon closed the doors and a secret session was held, during which Stewart | the amended treaty.

withdrew his resolution in favor of a more comprehensive one that Edmunds offered Upon resuming the open session Morgan continued and concluded a speech on Sherman's resolution for an inquiry into the relations between Great Britain and this country. The house joint resolution for continuance of last year's appropriation for sundry civil expenses was adopted, being the fifth resolution of the kind this session of congress. The bill granting a pension of \$3,500 per year to Mrs. Sheridan was passed, Berry of Arkansas alone voting no. Then in forty-five minutes the senate passed il4 private pension bills. The bill granting the St. Louis & San Francisco railway right-ofway through Indian territory was passed, as well as a number of other miscellaneous measures. Jones and Platt had a personal controversy over a bill to pay for captured cotton, which was stopped by the presiding officer, and the senate adjourned.

The house passed a joint resolution accepting the invitation of Germany to take part in an international geodetic association, and for the appointment of a commission to settle the Mexican boundary line question. A bill regulating the course at the Naval academy and making the limit of ages 16 to 21 years was passed, and the house adjourned.

BASE BALL ATTRACTIONS.

Scores of League Clubs in the Contest for the Pennant. The standing of the league nines, including

Tuesday's games, is as follows: cent. .632 New York.... Philadelphia Indianapolis.....

CHICAGO, Sept. 20.—For the third time the Quakers showed Anson's nine how to play ball yesterday, giving them a goose egg for their score this time. New York also dropped a game. League scores were: At Chicago—Chicago 0, Philadelphia 3; at Pittsburg—Pittsburg 4, New York 1: at De-troit—Detroit 2, Boston 0; at Indianapolis— (exhibition game) Indianapolis 14, Washing

CHICAGO, Sept. 21.—The Local league base ball club did an unusual thing yesterday by beating a tail-ender two games in succession. Two new pitchers were in the Chicago box—Gumbert and Dwyer, and the first game resulted in a blank for the visitors. League scores yesterday were: At Chicago—(first game) Washington, 0, Chicago cago—(first game) Washington, 0, Chicago 11: (second game) Washington 1, Chicago 5; at Detroit—New York 5, Detroit 4; at Indianapolis—Philadelphia 2, Indianapols 1; at Pittsburg—Boston 4, Pittsburg 0.

CHICAGO, Sep. 22—League scores yesterday At Chicago—(first game) Chicago 2, Wash ington 8; (second game) Chicago 10, Wash ington 0—six innings—darkness; at Pittsburg—Pittsburg 2, Boston 1—ten innings; at Indianapolis—Indianapolis 2, Philadelphia 3; at Detroit-Detroit 3, New York 3-eight innings-darkness

The playing in the different organizations Saturday and yesterday gave the following scores: National League: At Chicago— Chicago 3, Washington 2; at Indianapolis— Indianapolis 5, Philadelphia 6—eleven inings; at Detroit—Detroit 6, New York 3; at Pittsburg—Pittsburg 1, Boston 7. CHICAGO, Sept. 25.-Following are the

ores at base ball made by National league clubs yesterday: At Chicago—Chicago 10, Indianapolis 3; at Pittsburg 5, Detroit 1; at Washington—Washington 1, New York 2; at Boston-Boston-Boston 4, Philadelphia 1. CHICAGO, Sept. 26.—The only interesting feature of League base ball playing from this out is the race for third place between Detroit, Boston and Philadelphia. New York has the pennant without any doubt.

The League scores yesterday were: At Chicago—Chicago 6, Indianapolis 7; at Pitts-burg—(first game) Pittsburg 0, Detroit 4; (second ga e) Pittsburg 6, Detroit 3; at Boston-Boston 0, Philadelphia 10.

THE FLAGSHIP HARTFORD. No Action To Be Taken on the Bill to

Repair the Vessel. Hale said Friday that the senate naval com mittee had decided to take no action on the bill appropriating \$100,900 to repair the old

THE HARTFORD was opposed to putting such a large sum into a vessel which when completed would be of no use. Such vessels as the Hartford were as totally unfit for present use as was the In-dian cance in the days of the Hartford's prime. The committee did not think it wise to throw such a sum away on sentiment They preferred rather to recommend to the senate that all money be spent in building up a navy that would be of service in time of war in competing with the great navies of the world.

Holding Their Cotton from Market. ATLANTA, Ga., Sept. 22.—The merchants all over the state are greatly agitated over the failure of the farmers to bring in their cotton. This failure is due to the fact that the southern farmers have absolutely de-clined to use jute bagging at all, and are holding their cotton in their gin-houses waiting to find some way to get ahead of the cotton bagging trust. Up to this time a year ago 7,143 bales of cotton had been re-ceived in Atlanta. This year up to the pres-ent time only 300 bales have been received here. What is true of Atlanta is true of this section generally.

The Jones County Calf Case Ended.

WATERLOO, Iowa, Sept. 24.—The jury in the celebrated Jones county calf case after being out forty-eight hours returned a verdict for the plaintiff for \$1,000. Robert Johnson, the plaintiff, says this will end the case, which has been in the courts for twenty years and has cost thousands of dollars. Five calves, said to have been stolen from various herds and worth about \$1 each, were found among Johnson's cattle. Johnson was charged with theft and was acquitted after several trials, since which time he has continued to sue his accusers for false prosecu-

China Rejects the Treaty.

WASHINGTON CITY, Sept. 23.—The president has received official information of the refusal of the Chinese government to ratify the amended treaty. Secretary Bayard, in an interview with a representative of the United Press, when asked about the rejection of the Chinese treaty by that government, said the information was received at 'the state department in a dispatch from Minister Denby, in which he simply stated that the Chinese government had refused to ratify

MATRIMONY BY WHOLESALE.

Mr. Brown's Too Numerous Nuptial Enter

There were old and young women, blondes and brunettes, homely and comely women They formed a small contingent of the dupes who once thought they were lawful wives of James W. Brown, who is reported to have been married thirty-seven times since 1873, Brown, supported by an offi-cer on either side, came in pal-sied and decrepit. He looked neither to the front nor to the rear of him, shunning the eyes of the women. A few minutes later another female contingent arrived, followed by several persons in clerical garb and sorrowful mien, who had each performed marriage ceremonies in which Brown had figured as bridegroom. There were by actual count just nineteen women and five preachers present who we re, or had been personally and directly interested in Brown. Then the trial began, the specific charge against Brown being that of unlawfully marrying Mary Benjamin on the 27th day of August, 1887, at Detroit, while he yet had another wife living. The evidence was convincing, and Brown was speedily found guilty. He will be sentenced in a day or

At the office of the law firm ex-Judge Shipman said: "Mr. Dodge has been with us for ten years and we had implicit faith in him and believe that he was perfectly honest. He has been very much distressed by the discovery of Bedell's forgeries and was doubtless more or less worked up at the idea that he had been even innocently an aid to him in his nefarious work. We have found Mr. Dodge's books perfectly straight in every item, and not the slightest suspicion has ever been attached to him."

Can't Get Back Again.

By the way, have you ever noticed that it costs a great deal more to go back to Europe than it cost originally to come from there? Look at the number of people who on very small wages have saved up enough to leave Germany and Ireland and other places and come to America, and can't on very large wages save enough to go back It is funny when you come to think about it that a man who came to California years ago at a cost of about \$75, tells you today he can't afford to take a trip to the old country because it would cost him too much money. America seems to change people a good deal.—San Fran-cisco Chronicle

Columns of Society Twaddle.

No one today is secure from gossip. Whence comes this license? It comes from the men and women among Mr Mc Allister's four hundred, whose itch for notoriety impels them to send every bit of tittle tattle concerning the interior of their domestic life to the newspapers for publication. It will hardly be pretended by any man or any woman who today complains of the tattling of the newspapers concerning him or her that he or she has not heretofore utilized this very tendency. Run down to Newport next sum-mer. Keep your eye on the correspon-dents of the great metropolitan journals, See how eagerly they are sought by these four hundred flapdoodles. Look in their mail box morning after morning. Follow their continual intercourse with the people concerning whom they write, and draw your own conclusions as to the source of their information.

Why, I distinctly recall in the office of a once leading Sunday newspaper, seeing upon the desk of the society editor, as he was called, a poor devil to whom they paid \$4 a week for furnishing from four to fourteen columns of society rot, a bushel of letters at a time, and every one of them contained either a ticket to some place of was a wee bit of a girl, only 2½ years old.

Bismarck in a Passion.

When you are on good terms with Bismarck there is no better companion. His originality of thought is only surpassed by his originality of expression. Some of his repartees are characteristic. "What do you do," he asked me one day, "when you are angry? I don't think you get angry as often as I do." "Bah!" I replied, "I never get angry except at the stupidity of people, never at their wickedness."

"It's lucky that you are not in my place, for there would soon not be a whole piece of furniture left in the house." "Do you see the chamber of the Emperor William?" he added, pointing to the bath chalet at Gastein, where this conversation took place. "I was in a terrible rage there once. I left the room; in banging the door the key remained in my hand; I went to Lehndorff's and threw it against a washbowl, breaking the bowl into a thouwashbowl, breaking the bowl into a thousand pieces 'Are you ill' said Lehndorff.

FEDERATION ADOPTED.

Proceedings of the Switchmen's Aid Asso-

ciation at St. Louis. Sr. Louis, Sept. 25.-In the Switchmen's Aid association meeting Tuesday morning the plan of federation as proposed by the Firemen's brotherhood was adopted, and Messrs, Bailey, Sweeney and Downey were appointed a committee to confer with the locomotive engineers, firemen, brakemen, railway telegraphers and the Knights of Labor to complete the work of federation. The details of the plan are carefully concealed, but from the fact that a conference is to be held with the telegraphers and the Knights of Labor, it is the opinion that the plan embraces both these bodies, as well as the four original railroad men's organizations, Oficers for the ensuing year were then elected s follows: Grand master, Frank Sweeney; vice grand mas er, John Downey; grand organizer, George S. Bailey; grand secretary and treasurer, William A. Simrott; board of directors, J. W. Callahan, S. K. Hardin, J. Scullin, E. M. Hutchinson and J. M. Kelly

The Partridge as a Drummer.

During the time the ben was laying her eggs and setting, he often gave us the "stormy music of his drum" It was small trout le to arrange bushes on a fence near by so that one could creep up unseen and get a full view of the gallant thunderer perched on a knotty old hem lock log mossy and half buried in the ground and "children of a larger ground and "children of a larger growth as well as the boys and girls availed themselves of the opportunity Of the many who saw him in the act of drumming I do not recall one who had a correct ides beforehand of the way in which the "partridge thunder" is produced It was supposed to be made by the striking of the bird's wings either against the log or against his body; whereas it was now plainly to be seen whereas it was now plainly to be seen that the performer stood straight up, like junk bottle, and brought his wings in front of him with quick, strong strokes, smiting nothing but the air—not even his 'own proud breast," as one distinguished

observer has suggested. Wilson thinks the drumming may be heard nearly half a mile. He might safely have doubled the distance, though, when we consider the low pitch, B flat, second line in bass staff, the fact is surprising The tones somewhat resemble those of any deep drum, being very deceptive as to distance, often sounding near off, and far off when near I would de scribe the drumming as a succession of thumps, the first dozen of which may be

counted The first two or three are soft and comparatively slow; then they increase rapidly in force and frequency, rushing onward into a furious whir, the whir subsiding into a sudden but graduated diminish. The entire power of the partridge must be thrown into this exercise His appearance immediately afterward attest well as the volume of sound, for he drops into the forlornest of attitudes, looking as if he would never move again. In a few minutes, however, perhaps five, he begins to have nervous motions of the head, up. up it goes and his body with it, till he is perfectly erect-legs, body, neck and all And then for the thunder once more.— Simeon Pease Cheney in The Century.

Log Cab/n Success.

What ails the young men?
Robert Garrett's father left him a fortune of twenty million. He was from childhood reared in luxury; he re-ceived a splendid education with an especial training into the thorough knowledge of railroad management and was expected to succeed his father as a rail-

road king.
Within three years after the responsibilities which his father's death threw upon him were assumed, he is reported a broken down man, with mind and health permanently shattered.

George Law is another young man left with millions of money, who is re-ported among the "wrecks." His father, bred a stone mason, was of gi-gantic size and strength, with com-mensurate brain power, so he became a a great contractor, then a railroad king and left a half dozen millious for his son to dissipate. The young man is a success as a dissipator.

The founders of both of these estates were born in the most humble walks of life, grew strong, mentally and physiby simple living and honest labor and developed into financial giants. Their sons were reared in the lap of luxury and developed into intellectual pigmies.

The great men of our country have not, as a rule, come from the elegant mansions of the cities, but from the Log Cabins of the rural districts. Simple ways of living, freedom from dissipa-tion and enervating pleasures, simple remedies for disease, effective and which leave no poison in the system, develop brawny, brainy men, who compel the world to recognize their strength and po wer.

The wholesome, old-fashiened Log Cabin remedies are the safest and surest for family use. Our grandmothers knew how to prepare the teas and syr-ups of roots, herbs and balsams which drive disease out of the system by af-ter-methods and leave no after ill effects. The most potent of these old time remedies were, after long and searching investigation secured by H. H. Warner of safe cure fame, and are now put out for the "healing of the nations" in the Warner's Log Cabin remedies.

Regulate the regulator with Warner's Log Cabin sarsaparilla and with pure blood giving health, strength, mental and bodily viger, you may hope to cope successfully with the most gigantic fi-nancial problems of the age, without wrecking health and manhood.

TRY IT YOURSELF.

"It is of no use to argue the question, Philip, I am neither stubborn nor opinionated, I have simply had a lesson that will last a lifetime.

"Look here Jack! you are like some old bachelor that has been jilted by one woman and goes about declaring all women are false."

"Not at all! my brother Charley died of Bright's disease, brought on by using one of these so called 'blood purifiers' — the kind you see attractively advertised in every nook and corner. It contains iodide of potassium, a drug useful in extreme cases when cautiously given under a doctor's supervision, but death dealing to all who take it in quantity. If you brother bad died under such circumstances.

you would hate patent medicines as I do."
"I do dislike the name of that mis-called 'blood purifier," for I have heard a first class physician say it is the cause of half the cases of Bright's disease in the country, and it is strange the proprietors have not been prose-cuted for selling it. But I was recommending Vinegar Bitters and that does not contain any mineral, narcotic or other hurtful drug."

"On nobody supposes that old woman's remedy will hurt anybody; the question is will it cure anything? I'd as soon think of No. 4 South Main St., Ann Arbor. taking some of my grandmother's herb tea."
"You would be better off, Jack, if you had

some of that tea to tone up your system now, instead of taking a glass of braney to make you's eep one night and perhaps a bottle of beer the next." "Is this a temperance lecture, Phil?"

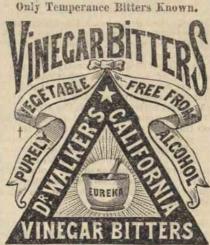

"No, it is a Vinegar Bitters lecture. I've taken the medicine more or less for fifteen years, and look the world over, you will not find a healthier man than I am."
"What is all this nonsense about old style

Death of Mrs. L. J. Liesimer.

Mrs. Louis J. Liesimer died at her home in this city at eight o'clock last Wednesday evening of typhoid fever, from which she had been seriously ill for a couple of weeks. Mrs. Liesimer man whose principles are calculated to had been the local editor of the Washin both German and English. She graduated from the Ypsilanti normal school and at the age of eighteen was made preceptress of the Hudson schools. Hers had been an active, busy life, and the friends she fastened to her will greatly mourn her loss. To her husband her loss will be irreparable. She had been indeed a helpmate for him. She leaves a little daughter. The tuneral services will be held at 10:40 a. m. to-morrow (Saturday) from the house.

She Wants a Divorce.

Mrs. Favoretta Nina Neir, of Ypsilanti, filed a bill last Saturday in the circuit court asking for a divorce from George W. Neir, whom she married September 5, 1883, at Dixboro. The Edward S. Chase to Abram Shear, couple have two children aged four and two years. Mrs. Neir asks for the divorce on the ground of desertion. She claims that four months after the marriage, he left her for a year. He then returned and they afterwards lived together at Battle Creek, where in January, 1887, he drew his wages, handed her a dollar and departed for parts unknown, since which time she has supported herself and children. Afterwards, she says, she went to Petoskey at his request. He left word that he had gone to the timber woods and would be out in the spring. Spring came and though he came once or twice to see the children, he failed to support them or her and she lost track of him again. So she came home to her father's in Ypsilanti. She did not know where he was, until two days before she filed her bill, when she heard that he was working for a farmer in Superior. She describes her husband as a healthy, ablebodied man, twenty-four years of age.

Robbed by Their Conductors.

NEW YORK, Sept. 25.—Much excitement has been caused in the railway circles here by the discovery that the Wagner Palace Car company has been robbed by their conducturs of a sum reported to aggregate some \$50,000. The thieving, it is said, has been carried on systematically for some months past by the conductors, and there seems to be no immediate possibility of convicting the thieves. Numerous conductors have already been discharged, no explanations being offered. The first clew to the robbery is reported to have been gained through the remarks of a conductor overheard in a Sixth

HARRISON AND THE IRISH.

An Emphatic Statement From an Irishman of Honor. The Catholic News reprints the following article thus commending it to

the attention of all loyal Irishmen: When the republic in papers and poli-cians attempt to face Mr. William Condon down in his statement of Harrison's fatal abuse on the Irish, they will find they are not brushing aside a lying allegation by some irresponsible little campaign prevaricator, but are facing the solemn asservation of an old citizen and influential business man of unblems and word the solemn area. ed reputation, and whose word is as good as his bond. It cannot be set aside on the flimsy ground that some other

man fails to recall it.
Mr. Wm. Condon, Sr., was seen by a Bulletin reporter and asked as to the statements as to this morning's Pantagraph in reference to his charge agains Harrison for having slandered the Irish people. Mr. Condon has talked the matter over with gentlemen who also heard Harrison's vile speech here at Dudley hall, and has come to the con-

Dudley hall, and has come to the conclusion that it was in the campaign of 1876 and not eight years ago.

Mr. Condon said: "Harrison the republican presidential candidate, spoke here on an afternoon a few days before the election of 1876, and Colfax spoke in the evening of the same day, I think, although I did not hear Colfax. The abusive words from Ben Harrison came out in this way:

out in this way:

"Harrison had praised all the nationalities, except the Irish, and was just quitting this feature of his address, when an old man with an Irish accent asked: 'How about the Irish, and where were Meagher, Sheridan, Shields, Mulligan and others?' The crowd hissed the question and shouted, 'Put him out.'
While they were taking the old gentleman from the building Harrison said
exactly, or almost exactly the following

"It is easy to know that man's race you all know what they are; if it were not for them we would not need half of our penitentaries which are almost full of them; they have no intelligence; they are only good to shovel dirt and grade railroads, for they receive more than they are worth as they are no acquition

to the American people.'
"I have frequently mentioned the language to many people, and long belanguage to many people, and long before Harrison was prominently men
tioned for the presidency, and therefore
I speak of the matter now for mere political effect. I was surprised to find
my letter in print, indeed In my letter I made merely an incidental reference to the matter, not thinking that or any other portion would be copied by the press. I stand by every material state-ment I have made. Many of my neighbors who did not hear Harrison remem more bitter than anything I have ever heard from anyone. I dislike to bring any foreign nationality into our American politics in a free country where we all are or should be Americans, for American interests only; but Harrison has provoked this matter by his own false and hitter words on the stump. false and bitter words on the stump. I have no prejudice against nationalities; on the contrary it is a pleasure to re-

member that all races have contributed to the growth and splender of our country, and that in the terrible conflict for the maintainance of the union the Celt and the brave heroes from the German fatherland fought side by side

with the American born.
"The false alarm of those who say the democratic party favors a tariff system favorable to England and detrimental to America, should blind no Irish-American to the fact that a ran-corous defamer of his race is running against Cleveland, that fearless honest sweeping villification of the Irish people, who usually come here to obey the laws and help develope the mental and physi-

and help develope the mental and physical capacities of our common country.

"The Pantagraph talks about producing an affidavit that Harrison did not make the abusive remarks. Well there will be a number of counter affidavits from Irish-Americans. It is hard to prove a negative, but we can prove it was a positive fact."—Bloomington Ill. Bulletin.
