A New Plan of Religious Work.

The principle of co-operation among the churches is becoming constantly more prominent. The churches of Ann Arbor have, a number of them, united in inviting Rev. Dr. Frank Russell, of New York City, the Field Secretary of the Evangelical Alliance of America, to address our people at the Congregational church, Friday evening, Dec. 11. The special plan of work in view is that of a religious census of Ann Arbor, which will show what families are not receiving religious privileges. All are invited to attend this interesting service.

Rev. L. T. Chamberlain, D. D., of New York, will also speak under the auspices of the Evangelical Alliance at the Presbyterian church, Sunday evening the 13th, on "The Necessity of Co-operation of Christian Forces in Our Communities."

Death of Two Well Known Ladies.

On Tuesday morning, at an early hour, Miss Sarah D. Giles, of Fuller street, died of congestion of the brain. Miss Giles was taken ill on Sunday, at the residence of C. B. Davison, where she was taking dinner. She was taken home and gradually failed until death claimed her. The deceased was born at Marshall, in 1846, and came to Ann Arbor with her parents when a few months old. She was in the employ of the Courier for over 26 years, and was one of the trusted employees of that office. The funeral services were held at the residence yesterday morning.

On Monday, Miss Jane E. Brigham died at the residence of her nephew, John B. Moloney, in Detroit, of chronic bronchitis, aged 65 years. Miss Brigham was the daughter of Dr. Brigham, and a member of one of the old pioneer families of this city. Until a few years ago, Ann Arbor had been her home since childhood, she then going to Detroit to spend the remainder of her days. Miss Brigham was a woman well known and much beloved here, and in the early days of Ann Arbor society, was a leader. Her remains were brought here Wednesday morning, and after services at St. Andrew's were placed in the family lot at Forest Hill cemetery.

Killed by the Cars.

Wednesday night about 11:30 o'clock a telegram was received at this place from Delhi, saying that the fireman on a freight was sure that his engine had struck a man west of Chelsea. Nightwatch Green, Jacob Staffan, Jay Wood, and Mortimer

Campbell started out and after going about half-a-mile found a piece of the headlight step and a little farther on found a Scotch cap with the fore-piece torn, also a pocketbook, a rubber shoe, felt boot, and a few rods farther west found the body of a man lying between the rails of the north track. The probabilities are that the train going east struck the man and knocked him over on the north track, as was shown by the way the gravel was thrown on the flange of the rail. Three trains going west passed over the spot after the freight struck him, and carried the body about sixty rods west of the place where he was struck. His skull was crushed in and one leg cut off, besides being bruised in various other places. By papers found in his pocketbook it was discovered that his name was Wm. Oesterle, of Sylvan Centre, a cousin of Peter Oesterle, of this place. Justice Bacon was called, and viewed the body, which was then removed to the baggage room, and at daylight was taken to Frank Staffan's undertaking establishment, where the coroner's jury viewed it at 11 o'clock. At one o'clock the inquest was held and a number of witnesses were sworn. It was shown that he had been in town the greater part of the day. The freight train that struck him did not stop here, but stopped for a moment about three-quarters of a mile east of here and then went on without leaving word. The inquest was adjourned until Tuesday next at 1 o'clock p. m., to get the evidence of the conductor, engineer and fireman of the freight train.

University Extension Teaching.

The subject of the University Extension system of teaching is exciting public interest throughout the entire country at present, and the University of Michigan is among the leaders, as usual in all educational matters. The idea of university extension is to give to the workmen and those who are unable to attend a college or university a portion of the advantages which are enjoyed by those who are more fortunate than themselves. Local organizations are effected and series of lectures by prominent educators are delivered upon subjects usually taught in the University, examinations afterwards being held.

President Angell has issued a circular announcing that members of the faculty will deliver lectures before local assemblies upon invitation upon the following subjects:

Greek Life and Literature, Professors D'Ooge and Pattengill; Roman Art and Literature, Professors Kelsey and Rolfe; Philosophy and its Bearings, Professor Belsler; French Literature, Professor Walter; German Literature, Professor Thomas; English Language, Professor Hempf; Rhetoric and Art Criticism, Professor Scott; English Literature, Professor Demmon; History, Professors Hudson and McLaughlin. Philosophy, Dr. Lloyd; Science and Art of Teaching, Professor Brown; Political Economy, Professor Adams and Dr. Hicks; Music, Professor Stanley; Printing and Books, Librarian Davis; Mathematics, Professors Benham, Cole, Ziwet and Dr. Markley; General Chemistry, Professor Freer; Bacteriology, Professor Novy; Popular Astronomy, Mr. Hussey; Zoology, Mr. Sherzer; Zoology, Professor Steere; Elocution and Oratory, Professor Trueblood; Surveying, Professor Davis; Drawing and Prospective, Professor Denison; Mechanical Engineering, Professors Wagner, Cooley, Taylor and Denison.

Monday Night's Treat.

Mlle. Decca, who sings at the Opera House next Monday evening, has been receiving the most flattering press notices, and that a treat awaits the public is proven by the following notices from New York, Chicago and Louisville:

Mlle. Decca came to us a perfect stranger and left us an established favorite. No such success has been noted this season in the Chicago Auditorium.—Chicago Times.

At the Marine Band Concert last night Mlle Decca did some beautiful singing—some phenomenal singing—singing that won sincere and deserved applause. Certain effects of diminishing, of echo, in which she is amazingly proficient, of mezzo voice, and of extremely high notes were little short of marvelous. So far Mlle. Decca stands enormously high, so high as to be almost alone upon her pinnacle.—New York Sun.

Miss Decca is unquestionably one of the greatest singers who have ever been heard in Louisville. Her voice is a soprano of great range and extraordinary purity and smoothness, and cultivated to the highest pitch of perfection. Her execution of the brilliant ornate arias of Donizetti and Rossini was faultless. Miss Decca's voice reminds us of Gerster's when that great singer's gifts were unimpaired.—Louisville Courier-Journal.

Railroad Crossings Protected.

A meeting was held in the council chamber, Wednesday afternoon, between Railroad Commissioner Whitman, the city council, and General Manager Ashley, of the T., A. & N. M. R'y, at which the commissioner heard the arguments pro and con on the resolution of the council asking him to order gates on the streets crossed by the T. & A. A. in the city. The request of the council was for gates and keepers at the crossings on Miller avenue, S. Main, Jefferson, Washington, Williams, Liberty, Madison, Traver and Pontiac streets.

Alderman Herz complained that on Washington street the flagman neglected his duty, to which Mr. Ashley responded that the flagman would be compelled to his duty at this as well as the other crossings where they are now standing.

Miller avenue crossing was then discussed. Mr. Ashley contended that the great cause of complaint in Ann Arbor at all the crossings was the fact that trainmen left trains and cars standing on the streets. This he considered just cause for complaint and he advised the officers to arrest the trainman who do this. Any such man arrested, Mr. Ashley agreed to discharge from the service of the company. The company spent \$10,000 to fit up a yard which is twice as large as is necessary, and no engineer had any business to pull his train out of this yard or cut in two across any street, and he is willing to have the council pass an ordinance forbidding a train to be cut or stand near a crossing in the city limits.

Mr. Ashley asked to speak to the council about the sidewalk ordered built in front of their vacant property on First street. Mr. Ashley said that this property was held by his company not for private but for public benefit. This property the company was willing to give to any good manufacturer or mill that would locate on it. To put a sidewalk on that side would prevent teams from loading and unloading. He offered to pay double the cost of the sidewalk into the city treasury if the council would release him from building it. He then scored a point against the council which they all acknowledged. Although the company had built a long stretch of walk, according to orders, in front of their depot property, nothing had yet been done by the owners of adjacent property and people wanting to reach the depot still had to "go in boats or on sleds as they have done for twelve years past."

The party then went to inspect the various crossings where protection is asked. The dangerous places were pointed out, and Mr. Ashley agreed to all the suggestions made by the commissioner and the council, and nearly every street will be protected. Numerous cars were found standing partly on the streets, giving the council a chance to point out to Mr. Ashley one of the greatest causes for complaint here. Mr. Ashley agreed that if the number of each car found encroaching on the street hereafter was reported to him, he would discharge the trainman who placed it.

The following appliances were decided upon to protect the various crossings: S. Main street, an electric alarm bell, which gives warning when a train gets within 500 feet of the crossing; Liberty street, a flagman; Washington street, a warning signal; Miller avenue, gates and gate-keeper; Pontiac street, an electric bell. This gives protection at every traveled crossing in the city, and the city is to be congratulated upon the prompt action of Commissioner Whitman.

A Local Insurance Company Proposed.

A meeting of a dozen or more of the businessmen was held on Friday evening, for the purpose of discussing the advisability of organizing a local insurance company to be carried on a plan similar to the Washtenaw Mutual and the other companies in the county. Nothing definite was done but much was brought out showing that an organization of this character would result in a great saving annually to our citizens.

Notwithstanding the fact that Ann Arbor now has unexcelled water supply and a thorough equipped fire department, giving Ann Arbor as good fire protection as any place of its size in the country, the insurance rates are but little if any lower than when the city depended upon cisterns, wells and reservoirs and an old hand engine for protection against the fiery element.

The losses by fire are merely nominal since the organization of the present fire department, last year but \$1,600, and the year before less than \$10,000. It is safe to say that the average losses will not exceed \$10,000 or \$15,000 a

year, with the present facilities. It is estimated that in the neighborhood of \$100,000 is taken out of this city annually by the insurance companies, and the losses paid by them will not average over one-tenth of this amount. Unless the fire insurance companies can give the city a lower rate on insurance, a local company composed of all those who carry insurance on their property would result in a saving of \$80,000 or \$90,000 annually to our citizens. Even if the estimate of \$100,000 a year is too high, the amount of annual premiums is surely much greater than the losses, and there is no reason why our citizens should pay a large profit each year into the pockets of the stockholders of the large fire insurance companies.

Of course there are many arguments against the organization of a local insurance company. A heavy contribution would make a heavy assessment on the members and perhaps result in their paying more for insurance than they are now paying. But unless rates can be secured by our businessmen which are more in proportion to the fire protection that the city now has, the feeling seems to be gaining ground among the businessmen and those who own property here, that some steps toward a local insurance company should be taken. The city pays a large amount yearly in maintaining a good fire department and the benefit derived should be for the citizens, not for the insurance companies, (as they alone receive the benefit when the losses are low on insured property), as it now is.

The Annual Pomological Meeting.

President J. Austin Scott's address was full of good humor and of good will toward the society which he had served so faithfully during the year.

The reports by the recording and corresponding secretaries and treasurer were adopted and accepted. A vote of thanks was tendered to the officers of the society in acknowledgment of their services during the year.

The following officers were unanimously elected for the coming year: J. Austin Scott, president; Ewart H. Scott, first vice-president; J. J. Parshall, Wm. McCreery, vice-presidents; J. Ganzhorn, recording secretary; E. Baur, corresponding secretary; J. Allmend, treasurer. Executive committee, Wm. F. Bird, A. A. Crozier, J. C. Schenk, H. C. Markham; Prof. J. B. Steere, office of Ornithology; Prof. M. W. Harrington, Climatology; Prof. V. M. Spaulding, Botany; Prof. V. C. Vaughan, Hygiene; Mr. A. A. Crozier, Entomology.

Mr. W. F. Bird gave a very interesting account of the annual meeting of the State Horticultural society at Eaton Rapids. Mr. Bird showed 13 varieties of grapes at said meeting. Washtenaw was well represented by Messrs. Ewart H. Scott, A. A. Crozier.

The Columbian Fair will outdo the Centennial and Paris Fairs in the exhibits of Pomology and Horticulture. The building for that display will be 1,000x280 feet. Michigan devotes \$100,000 for this exhibit. Every fruit grower is expected to assist in this great exhibit without any remuneration. The banquet given by the citizens of Eaton Rapids to the State Society was a most happy and cheerful conclusion of this successful meeting.

The Austin apple exhibited at this meeting was pronounced the best for this season. I wish to correct an error I made in my November report. It was not Mr. Wilder, but Charles Dawning, the great pomologist, who named this apple of which Hon. J. Austin Scott is the originator.

At the January meeting of the Washtenaw Horticultural Society, the topics will be: "Nut Culture," by Mr. Ganzhorn, a new and important topic which never has been discussed here. The entertainment of the next annual meeting by the citizens of Ann Arbor and by this society, by A. A. Crozier. Reviewing the lessons of the past season, by W. F. Bird; to increase the interests of our society, by Pres. Scott.

The Dundee Reporter is a little rough on some of its citizens or else some of the citizens themselves are a little tough. It says: "It was a question on Sunday whether there were more who walked along Monroe street going to church or more who walked the other way on a hunting expedition."

James McCabe was brought before Justice Calkins charged with disposing of a horse on which James Blackwood held a chattel mortgage. In the examination the defendant claimed he was so drunk he did not know he had disposed of the property. Mr. McCabe gave bail to appear for the postponed examination, Dec. 9th.—South Lyon Excelsior.

Tecumseh Herald: Mrs. James Kennedy departed this life on Friday last, at the age of 71 years. She was stricken with apoplexy about two weeks previously, from which she never recovered. The funeral was held at her home in this village Monday afternoon. Many of her old neighbors and friends from Raisin were present, in addition to those living in the village. The burial service from the Episcopal ritual was read by Rev. J. Phelps and appropriate music was rendered by the choir.

Here's a sample of what a minister can do when he starts on a story. Manchester Enterprise: "Dan Gage accompanied Rev. Cope to Lenawee county and they went into Ohio hunting. They returned home to-day with 63 quail and one partridge. The elder informs us that Dan drove up a flock of quail and shot one with each barrel, the dog caught one and another one flew directly towards Dan and he struck it with his gun and killed it. If those Ohio people want any quail they better have a law passed prohibiting these Michiganders from hunting there.

Died, in this village, on Nov. 27th, at the residence of her son-in-law, John Hughes, of acute bronchitis. Mrs. Mary Wheeler, aged 57 years. The deceased was born in Rome, Mich., and lived for many years in Adrian. About three years ago her husband passed on to the better land, and since then she has made her home with her daughter here in Tecumseh. Mrs. John Hughes. She has been afflicted with bronchial trouble for some years, but her death was somewhat sudden and unexpected. The funeral services were conducted on Sunday by Rev. W. H. Babbitt, and the remains were taken to Adrian for interment.—Tecumseh Herald.

It must be that the horses that propel the Tecumseh milk wagons have a special prejudice against working on Thanksgiving day, or else they were on a strike last Thursday. The team on Adams & Bryan's wagon struck in the morning—struck out at a pace altogether too speedy to insure the rapid formation of cream—ran north on Evans street and up Pottawatomie

street, dragging the wagon along on its side, and were stopped after a lavish distribution of milk and cans along the highway. Dick Farley's horse must have also been on the lookout for a lockout, at any rate he brought matters to a crisis, upset the milk wagon, produced a fall in milk on Pottawatomie street, and demoralized things generally. Guess our milkmen are glad Thanksgiving day comes but once a year.—Tecumseh News.

Commendable.

All claims not consistent with the high character of Syrup of Figs are purposely avoided by the Cal. Fig Syrup Company. It acts gently on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all and makes no pretensions that every bottle will not substantiate.

My Head Was Fairly Rotten.

And how much I suffered it is hard to describe. That loathsome disease, catarrh, caused the above, and the doctors said they could not relieve me. I paid hundreds of dollars for which I received no benefit. I got more good from two bottles of Sulphur Bitters than from all the money I paid to doctors. I shall continue the Sulphur Bitters, as I have great faith that they will cure me. S. M. Day, 41 Hanover street, Boston.

A National Event.

The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will really benefit this nation as much as the discovery of the Restorative Nerve by Dr. Franklin Miles is doubtful. This is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dullness, confusion of mind, etc. It acts like a charm. Trial bottles and fine book on "Nervous and Heart Diseases," with unequalled testimonials, free at Eberbach & Son's drug store. It is warranted to contain no opium, morphine or dangerous drugs.

Small forms in jewelry are much more becoming, especially in rings.

JACK AND JILL.—There are various accounts as to how the man got into the moon. A common one with us is that he was banished for having been detected by Moses in the act of gathering sticks on the Sabbath. In German legend he committed the same offense, and was given the alternative of being scorched in the sun or frozen in the moon. In Icelandic myth the man becomes the two children familiarly known as Jack and Jill, who were kidnapped by the moon. There we see them stand with bucket or pole across their shoulders, falling away, one after the other, as the moon wanes. And so it is that "Jack fell down and broke his crown, and Jill came tumbling after."

Now, just as sure as the moon wanes just so sure does disease wane under the influence of S. S. S. The difference being, however, that Jack and Jill never go up the hill any more in the latter case, the eradication of disease by this medicine being complete and permanent.

THE SONG OF THE "No. 9."

My dress is of fine polished oak, As rich as the finest fur cloak, And for handsome design You just should see mine— No. 9, No. 9. I'm beloved by the poor and the rich, For both I impartially stitch; In the cabin I shine, In the mansion I'm fine— No. 9, No. 9. I never get surly nor tired, With zeal I always am fired; 'To hard work I incline, For rest I ne'er pine— No. 9, No. 9. At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

Forty-Five Years of Bondage.
Gents: For forty-five years I have been afflicted with blood poison, liver and rheumatic difficulties. Part of the time confined to my bed. My blood was badly diseased. Six bottles of Hibbard's Rheumatic Syrup did me more good than all the other medicines I have taken. My friends have used it and in every case it has proven a wonderful remedy. I have known of some wonderful cures of dyspepsia and neuralgia.

Remarkable Facts.
Heart disease is usually supposed to be incurable, but when properly treated a large proportion of cases can be cured. Thus Mrs. Elmira Hatch, of E. K. Hart, Ind., and Mrs. Mary L. Baker, of Ovid, Mich., were cured after suffering 20 years. S. C. Limburger, druggist at San Jose, Ill., says that Dr. Miles' New Heart Cure, which cured the former, "worked wonders for his wife." Levi Logan, of Buchanan, Mich., who had heart disease for thirty years, says two bottles made him "feel like a new man." Dr. Miles' New Heart Cure is sold and guaranteed by Eberbach & Son. From Montana.
"It is a pleasure to inform you of the good that S. S. S. has done me. I had blood poison several years ago which had never been eradicated from my system. Last November it broke out in the shape of salt-rheum on the back of my hands. I spent sixty dollars trying to be cured by the treatment of physicians and taking other medicines and never found any benefit from any treatment until I commenced taking S. S. S. That cured me sound and well, and now I feel that I am a well man. I took only three bottles. I have recommended the medicine to a great many people, and find that it is benefitting them as well as myself."

S. S. S. never fails to relieve the worst cases of blood poison when taken by the directions, and before some vital organ has become impaired so as to render a cure impossible. We will mail a valuable book on the blood and skin to any who will apply for it.

A FARMER RELEASED
From Entire Loss of Voice.
Catarrhal Aphonia the Result of Chronic Catarrh.
Better Late Than Never.
SHELLSBURG, BEDFORD CO., PA.
The Peruna Medicine Co.—I was a sufferer from Catarrh in my head and throat. I doctored with one of the best physicians in our place for that terrible disease and found no relief. But in 1883 I lost my speech and was not able to do any kind of work for nearly three months. I could neither eat nor sleep. Peruna did wonders for me, and now I am in better health than I have been in ten years. Yours truly,
ISAAC NICODEMUS.

Loss of voice in cases of Catarrh is due to an extension of the disease to the larynx. In the progress of catarrh on its way from the throat to the lungs, the first prominent symptom is hoarseness, which shows that the disease has revealed the larynx and vocal chords.

Symptoms of catarrh of the respiratory tract differ according to the part affected. If the catarrh is confined to the nose the symptoms will be sneezing and mucous discharges, or the formation of dry scabs corresponding to the stage of the disease. When in the pharynx it causes hawkings, enlarged follicles and tonsils, and sometimes deafness; in the larynx it produces hoarseness, and often entire loss of voice, as in the above case. As soon as the catarrh reaches the trachea and bronchial tubes, cough, with abundant mucous expectoration, ensues. Upon reaching the lungs, catarrh speedily causes consumption, and all of the symptoms of that dread disease follow sooner or later. Catarrh also attacks the urinary tract, producing in the kidneys "Bright's disease," in the bladder chronic cystitis, and in the urethra small, frequent and painful urinary passages. Peruna is a specific for catarrh wherever located and in all stages.

A pamphlet on the cause and cure of all catarrhal diseases and consumption sent free to any address by the Peruna Drug Manufacturing Co., Columbus, Ohio.

Congress organized Monday. Crisp, of Georgia, was elected speaker.

The Republican party, from President Harrison down, objects to minority representation of any class or kind. The harangue of the president in his message to congress against the new system of electing presidential electors in Michigan, is merely a protest against allowing a minority any voice in the choice of a president.

President Harrison has issued his message to congress, according to custom. The president appears to have grown dyspeptic over the new method adopted for electing presidential electors in Michigan and devotes considerable space to censuring this action. His principal objection, read between the lines, is that Harrison will be able to get but few of the electoral votes from Michigan in 1892.

Recently the Register started a bug-a-boo, which has gone broadcast throughout the state and has given Ann Arbor a financial reputation which she is not entitled to. Their statement that Ann Arbor would pay interest on an overdraft of \$20,000 until Feb. 1st, was merely the statement of a croaker and were as truthful as such croakings usually are. The fallacy of their croak is shown by the fact that to-day the city has a good substantial balance in the bank, which is being increased from \$1,000 to \$3,000 a day as taxes are received. No city in the union stands more solid or has a better financial record than Ann Arbor, although it might be easily injured if all our local papers carried out the croaking policy maintained by the Register.

The average business man is an easy victim when it comes to dealing with a stranger, and yet when dealing with those whom he knows and who deal with him daily, he is sharp and shrewd. Hundreds of men live upon the schemes which they concoct and work upon the businessmen of the country. A sample of this was seen in Ann Arbor last week. A perfect stranger came here with a "new" advertising scheme, although in fact it was a very old one and one that had been worked here several times before. He went to see the business firms and that he was successful is shown by the well-filled pocketbook that he carried away with him. 'Twas a catch-penny affair, but he received the financial support that none of the local papers or advertising agents could have received for legitimate advertising that would have paid them a hundred fold better. Nor even if a man well known here had tried to work the same scheme would he have met with anything like the success a stranger would. The scheme itself was one which really ought not to be called an advertising scheme, as it really fails to advertise.

Can't Cook as Mother Did!

How many a young wife's heart has been saddened by hearing the above remark! And yet how often the words are true; especially when cake, pastry or biscuit are in question! The reason is plain, yet it is "like telling a secret."

Our mothers used and are using Dr. Price's Cream Baking Powder. They cannot be misled into using any of the ammonia or alum powders. No dyspepsia no sallow complexions, when mother did the cooking.

The first symptoms of ammonia poisoning, says a New York paper, which appear among those who work in ammonia factories, is a discoloration of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance.

Dr. Price's Cream Baking Powder is the only pure cream of tartar powder that contains the whites of eggs.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact the purity of this ideal powder has never been questioned.

A Fine Art Exhibition.

The annual exhibition of the Ann Arbor Art Club is now being held at the Ladies' Library Association, closing this evening. The exhibit is larger and finer than any before held, and reflects great credit on the members. There are many dainty sketches, both of landscapes and still life, in oil and water colors. Many of these and small hand-painted fancy articles are offered and being sold to those desiring Christmas presents. The lists of exhibits and sketches are by the following local artists:

Water colors—Mrs. W. S. Perry, two studies of still life; Mrs. Zina P. King, fruit and flower sketches; Mrs. Dr. Campbell and Miss Campbell, a number of sketches of still life; Mrs. L. H. Walker, a number of studies, one of a plate of grapes receiving special notice; Miss Richmond, several studies of flowers; Miss Alice Hunt, a large exhibit of various studies, mainly fruit and flowers, with several water sketches on Orr Island, off the coast of Maine, and a view on the Huron river; Miss Helen Randall, several studies in still life; Miss Kate Douglas, a large collection of studies of still life and landscapes and a beautiful screen of original design valued at \$100; Mrs. Prof. Dewey, a number of dainty sketches of still life and landscapes; Miss Fannie Fisher, still life and fruit pieces; Miss Elsie Whitman, a sketch entitled, "Don Felipe," and several sketches from nature of University hall, the library, the observatory, the Unitarian church and the Smithsonian Institute.

Oil paintings—Mrs. Dr. Tyler, four sketches from still life; Mrs. W. E. Walker, a landscape and a fruit piece; Miss Bliss, still life; Mrs. L. E. Smith, half a dozen sketches of still life; Miss Susa Whedon, ten studies of still life, fruits and flowers; Mrs. J. L. Patterson, fruit sketch; Miss Wheeler, Miss Sutherland and Miss Orcutt, sketches in still life; Miss Ruth Trueblood, sketch of an old pitcher of the last century.

The Business Men's Association.

An enthusiastic meeting of the Business Men's Association was held Tuesday evening in the council chamber.

S. W. Parsons, of Ypsilanti, submitted a proposition for the organization of a company for the manufacture of coffee roasters in this city. He explained the cost of manufacturing the machines and the probable profits. His plan was to organize a company with \$15,000 stock, \$10,000 of which is to be in preferred stock with a guaranteed dividend of seven per cent. A committee was appointed to consider the plan and confer with Mr. Parsons, the committee being A. L. Noble, G. F. Allmendinger, C. E. Greene, H. S. Dean and Moses Seabolt. Two new members were elected to membership in the association.

They Are Advertisers.

Probably the largest crowd of people that ever congregated in this county in response to an advertisement was to be seen at Mack & Schmid's, Saturday. Their spacious salesrooms were literally packed with customers from 9 o'clock in the morning till 10 at night. Mack & Schmid say by actual count they find 1,587 sales were made that day. They had advertised throughout the county to sell No. 16 all silk ribbon at five cents and fine cloaks for \$2.22, and actually did just as they advertised. There can be no doubt the public appreciates such sales.—Times.

Webster Society.

A large number of students of the various departments of the University assembled in the law lecture room last night, to hear Professor Nathan Abbott's address on "Students of Law in Dickens' Novels," which was delivered under the auspices of the Webster Society.

Professor Abbott prefaced his address with an epitome of Dickens' early career, showing how the great novelist became affiliated to the legal profession and conversant with its ways. The address was interspersed with selections from Dickens' divers works and at its conclusion Prof. Abbott received a burst of well-merited applause. The Ann Arbor banjo and guitar club followed with a selection and received a hearty encore. The programme was closed with a spirited controversy on the subject: "Resolved, that the lawyer should be a politician," in which Messrs. A. Gravelle and A. I. Loeb upheld the affirmative and negative sides respectively. An informal discussion followed.—U. of M. Daily.

HORSE

BLANKETS

Nearly every pattern of *Horse Blanket* is imitated in color and style. In most cases the imitation looks just as good as the genuine, but it *hasn't* the warp threads, and so lacks strength, and while it sells for only a little less than the genuine it isn't worth one-half as much. The fact that *Horse Blankets* are copied is strong evidence that they are THE STANDARD, and every buyer should see that the *H* trade mark is sewed on the inside of the Blanket.
