

Hot weather is bearable or exceedingly annoying, according to the condition or state of one's mind.

We would not advise Ulsters as the proper wearing apparel for these beautiful June days, and then expect your mental faculties to temper the heat to your overburdened body, but would suggest a Serge or Mohair Coat, a Duck or Marseilles Vest, a Manilla Hat, and Negligee Shirt, all of which, in endless variety, can be found at the Star Clothing House--then, with a mind equally cool, you are prepared for old Sol's fiercest rays.

## DROWNING AT DEXTER.

The Latest and Best Church Choir Story in the State.

### ANNUAL REPORT OF ST. ANDREW'S PARISH.

How Mr. Nowlin Got His Watch Back.  
The Bull and the Bicycle.  
In Memoriam.

#### A Little Boy Drowned.

A sad drowning accident occurred at Dexter, Wednesday afternoon. A little seven year old boy named Orville Todd was wading in the river near the bridge about a quarter of four o'clock when he slipped and fell into the deep water, going to the bottom. His body was not recovered for three quarters of an hour, and when recovered life was extinct. George Hines, the lineman of the telephone company in this city, was at the scene of the accident about a quarter of an hour after it occurred and at once dove for the body. He dove eight or nine times and finally found the body by the side of a big stone and brought it up. The sad accident was the main topic of conversation throughout the village.

#### A Lucky Recovery of a Gold Watch.

M. M. Nowlin, proprietor of the Cook House, had a \$150 gold watch stolen Monday afternoon which was recovered last evening by a very good piece of detective work. The watch had been left in a vest in the laundry of the hotel and when Mr. Nowlin went after it, it was gone. Deputy Sheriff Paul Schall undertook to discover the thief. Richard Carroll, who worked about the yard of the hotel, was suspected. From a concealed place Schall saw him looking up and down the street in a suspicious manner and put something in his pocket. He followed him on Washington street, passed through a saloon after him, and treading lightly so that his presence was not discovered, found Carroll burying the watch in the sand. After burying it as he supposed securely, Carroll placed an old basket over the spot and some empty beer cases above that and turned to go. Schall then grabbed his man and took him to jail. Returning he got Mr. Nowlin and they dug the watch up from the sand.

#### An Odd Incident in Church.

One of the funniest incidents which have recently happened in Michigan is thus related in last week's Lapeer Clarion:

Rev. J. W. Fenn was just in the middle of his sermon at the M. E. church Sunday morning and was coming to the place where he would clench his point with the wrought nail of good argument, when an incident occurred which broke him off for the moment and set the large congregation into very audible merriment. Caleb Hicks sat on the front seat and his head, together with the big bass viol leaned against the wall close to the open window. Suddenly there was a loud report very much like that of a pistol, but it wasn't. The strings on the "big fiddle" had become hot from being too near the stove and one of them broke, the end of it hitting Mr. Hicks on the ear with great force, which instantly numbed that useful member, completely. Caleb grabbed the ear in his hand and springing up excitedly, asked in a loud voice: "who did that?" He thought some street Arab had disturbed the sanctity of the Sabbath by shooting it off through the window, and he imagined he could feel the blood trickling from the wound. It was too funny to be endured calmly, and the congregation roared. After a little Mr. Fenn resumed his sermon, but the gravity of his audience had evaporated and a broad smile was continuous. Even when the choir sang the closing number they could scarcely refrain from casting shy glances at the bass viol, and had to be careful not to get the "twang" of the broken string and the "oh" of Mr. Hicks mixed with the song.

#### A Good Story if True.

Wm. Stickelmaier, of Ann Arbor, has a bicycle which is painted a bright red color. A few days ago he mounted the machine and went sailing down Pontiac street in that city whistling "The Girl I Left Behind Me," with liquid pathos and great gayness of spirit. Suddenly he heard a terrific bellow and glancing in the direction of the sound he saw a brindle bull leap out of a stable yard and start for that blood-hued 42-inch hummer. The bovine run up his narrative in regular war style, his eyes stuck out of their port holes several inches and his leveled horns proclaimed to the world that he ached for a muss. Bill saw the point and began to bear down spasmodically on the cranks until his whizzing feet assumed the appearance of a revolving wheel. Prompted by a laudable ambition to not be overtaken and forced into a rumpus, he strained every nerve

to keep ahead and preserve his reputation as a good, law-abiding citizen. The bedlam produced by the bellowing bull was contagious. Dogs shot away in pursuit yelping like mad, boys yelled and women yanked open their doors and screamed, "did you ever!" Even great big able-bodied men doubled up and laughed and howled amid their paroxysms. "throw the throttle wide open, Billy!" "He's gainin' on yer, mister!" "Two to one on brindle!" "Win the spurt if yer can, Wil-li-am!" etc. The poor fellow, hatless, out of breath and with a look of terror, suddenly drew up to a fence, threw the wheel over, then leaped over himself and left the bull to paw dirt on the other side.—Grass Lake News.

#### A Prosperous Year in St. Andrew's.

The annual report of St. Andrew's parish submitted by Rev. Mr. Tatoek at the diocesan convention last week contains some very interesting figures showing the prosperity of the parish, from which the following are extracted:

The whole number of baptized persons in the parish is 961. The number of infants baptized in the past year was 20 and adults 92. The number of persons confirmed in the year was 92. The communicants reported a year ago were 503. The present number is 601. The number admitted in the parish during the year was 92, the number received from other parishes 70. The number who died was 10 and the number removed 54. The number of families in the parish is 345 and the number of souls 1063. These figures are exclusive of the students. There are in addition to them about 200 student communicants and about 300 attending service. The marriages during the year were 14 and the burials 20.

#### In Memoriam.

Our Heavenly Father having taken from us unto himself our beloved friend, associate and counselor, Mrs. Sarah Welles Hunt, who was one of the two or three noble women to whose generous impulses, far-seeing intelligence, and skill in organization our Ladies' Library Association owes its existence, we desire as her associates to express our high regard for her exalted character, our grateful appreciation of her wise and loving labors, and the deep sense of loss with which her departure fills us.

From the beginning an honored member of the board of directors, she was chosen our first secretary, an office for which she was admirably fitted and which she filled most acceptably for many years. She was also a valued member of our book committee to the last.

Through all our difficulties her courage and enthusiasm never failed, while her recent efforts in behalf of the payment of the debt upon our building, her rejoicing at the consummation of this object, and her earnestly expressed desires and suggestions for the increased power and usefulness of the library in the community must be a perpetual incentive to us to carry out her wishes.

Earnest and unselfish, helpful and well beloved in society and in the church, her friends were inspired and strengthened by the beauty and beneficence of her consecrated life, and cannot but deeply feel the loss of such a personality, in which is embodied the highest and best of our nature.

While the sweet memory of her beautiful spirit, her gentle and gracious presence, will abide with us always, we desire to assure her bereaved family of our heartfelt sympathy, and to remind them and ourselves that our loss is assuredly her inexpressible joy and gain.

His Disgusting Trial In Progress in the Circuit Court.

### THROWN FROM A BRIDGE ON THE CENTRAL.

A Junior Law Student Drowned—The Teachers for Next Year Selected.  
—A Brief but Vigorous Railroad War.

#### Thrown From the Track.

John Lutz, of Freedom, was thrown from the bridge of the Michigan Central near the pulp mill, Wednesday afternoon, by a Central passenger train, and seriously injured. He was over sixty years old and had gone fishing. His shoulder and collar bone were broken. He was taken at once to the University hospital, where he is now being treated.

#### Drowned in the Huron.

Another drowning in the Huron river has been added to the already very long list. On Friday last about six o'clock, Lee Tucker, a junior, law student, while bathing in the river above the ice houses, got beyond his depth and as he could not swim, sank to the bottom. His companions in the river were not looking towards him at the time and it was a few minutes before he was missed. Search was made for the body and physicians worked over the body for some time but were unable to resuscitate him. He was nineteen years old, graduated from the high school here last year and was from Mentone, Ind. His mother is not living. His father and three brothers survive him. He was very popular with his associates.

### An Attempt to Bulldoze a Track Across Streets.

The Toledo, Ann Arbor & North Michigan road aroused the indignation of our citizens last Sunday by what looked like a bare-faced attempt to steal part of First street. About nine o'clock Sunday morning a gang of men were put at work to build a sidetrack from Liberty street, across William street, on First street adjoining their land. By midnight the track was down and fifteen or twenty loaded freight cars upon it. The track ran exactly where the Toledo road had been ordered to build a sidewalk, which they had neglected to do.

Mayor Doty was not notified of the matter until Monday morning, when he at once caused the work to be stopped. A rumor was afloat that Ashley was on his way from Toledo with a large gang of men and the fire department was ordered out and a hose attached to drown the first men who started to work. The mayor issued a call for a special meeting of the council at one o'clock and their action is fully set forth in their official proceedings in another column.

The road, in accordance with the notice served by order of the council, have removed their track from the street. But they simply moved it over on their own land, evidently with the intention of crossing William street and it begins to look as if that were the original intention of the road. In fact, it looks as if they considered their method the easiest way of getting the council to consent to their crossing two streets.

Disgusting—Prince Michael on Trial.  
The long haired colony of Israelites, of Detroit, who believe in the Flying Roll, moved down on Ann Arbor this week and have attracted considerable attention. It is unnecessary to remark that Ann Arbor will be heartily glad when they shake the dust of Ann Arbor from their feet and return to Detroit, excepting one of their number who, let it be hoped, may sojourn behind the bars at Jackson.

Michael K. Mills, or Prince Michael, as he chooses to call himself, has been on trial in the circuit court this week, on a charge of venue from Wayne county, charged with the most revolting of crimes against little Bernice Bickle, aged fifteen. Accompanying him is his spiritual wife, the chief of his harem, Eliza Courts.

The prosecution is conducted by prosecuting attorney Burroughs and assistant prosecuting attorney Springer, while the shrewd, cool and sharp attorney, Col. John Atkinson, appears for the defence, assisted by T. D. Kearney, Esq. The following is the jury: Wm. H. Donahue, Ann Arbor town; Wm. Dewey, Bridgewater; A. D. Jackson, York; Simon Nissly, Saline; J. Breitenbach, Lyndon; J. C. Tuttle, Ypsilanti; J. Ulrich, Freedom; Martin Manz, Sylvan; David Gore, Northfield; Chas. F. Bates, Scioc; C. C. Deuruss, Ypsilanti; Gilbert Howe, Pittsfield; George Clarken, Ann Arbor.

The details of the case are too revolting for publication, but may be briefly summarized as follows. Mills met the little girl at Sarnia, where he was preaching. He sent for her to play the piano at headquarters. She came to Detroit and the first night slept with May Webster and Mrs. Mills, the next two nights with Ella Rowlinson and the fourth night by directions in Prince Michael's room. He slept there also and talked to her about their peculiar religious belief. The following night Mills, Eliza and the little girl occupied the same bed. She refused his advances. He impressed upon her the virtue of obedience to him. She refused to obey. The party then went to Europe and on their return he accomplished his vile purposes. Little Bernice testified to these facts in detail and was corroborated by May Webster and Ella Rowlinson in most of the essential details. The most shameful cross-examination failed to shake the witnesses. From the testimony of all three it seemed that Michael's "God house" was a regular harem.

The defense attempted to prove that the testimony was a result of a conspiracy against Mills by the police officers and introduced a number of long haired witnesses to testify to Prince Michael's good character. They revealed the fact that they would do whatever he told them and believed he could do no wrong. The testimony closed last evening and the attorneys are closing the case today.

The court room is daily crowded and a few women are drinking in the disgusting details of the testimony.

Long haired Mike does not seem to be pleased at all by the position in which he is placed. Neither does Eliza Court who keeps by his side. Mrs. Mills, his lawful wife, is absent but Lucifer and his other angels are still firm followers.

Editor Blosser, of Manchester, is making extensive repairs on his residence. Up to the middle of last week the Clinton woolen mills had purchased 75,000 pounds of wool. Clark; alternate, John O. Thompson. The Ypsilantian is getting into training for the fall campaign. It reports that O. E. Thompson while visiting Clinton saw men planting corn with diving bells. This is only a sample of what the Ypsilantian's readers may expect during the campaign. Editor Smith, of the Milan Leader, has been up on a high place and looked down upon Milan. The discovery he chronicles in his last issue is told in these words: "Milan is really a beautiful town as viewed from the roof of the new Masonic temple." Did you notice that man parading down the streets of Grass Lake, with his thumbs in the armpits of his vest and that wide expansive smile on his beaming countenance? That was Carlton, of the Grass Lake News, and he was telling everyone he saw of the great improvement which had been made in Grass Lake, which tended to throw Jackson in the shade. The Grass Lake bank had put a new piece of linoleum on their floor. For Over Fifty Years Mrs. Winslow's Soothing Syrup has been used for children teething. Hanged by the Neck. Early Monday morning, Daniel Burch, of Sharon, came to town with the information that his neighbor, John Schmidt, had committed suicide by hanging himself in his barn. Deputy Sheriff Kelly and S. H. Perkins, esq., were soon on their way to Sharon and the scene of the tragedy, where they found a crowd of neighbors assembled. A coroner's jury was soon empaneled, consisting of Messrs. W. B. Osborn, Wm. Campbell, Daniel Burch, Richard DuBois, John Jones and Andrew Kappler. The testimony of Mrs. Schmidt and Daniel Burch was taken, which revealed the facts about as follows: Between six and seven o'clock on Monday morning, while yet in bed, Mr. Schmidt told Mrs. Schmidt and daughter, a girl about 8 years of age, to go to the pasture and milk the cows. When they returned, Schmidt was not in the house and Mrs. S. began a search for him, which resulted in finding him hanging by a short rope from a rafter in the barn or shed and perfectly lifeless. She ran to the house and sent the children to the neighbors for help, then went and cut the body down. The verdict of the jury was that deceased came to his death by hanging himself.

From the blackened appearance of the suicide's face it was evident that he died from strangulation. Mr. Schmidt was sick on Sunday but visited one of the neighbors in the afternoon and told him that the neighbors were all down on him and that they intended to send him to state's prison. He was a very superstitious man and evidently not very strong minded. There is \$1,000 mortgage on the place and he had borrowed \$200 with which to build a small house, the foundation for which has already been built. — Manchester Enterprise. Specimen Cases. S. H. Children's day, last Sunday at the M. E. church was a success. The church was crowded, there was some good singing and speaking by the children. The farmers are all busy shearing sheep, but they won't get as much a pound for their wool as was promised them four years ago by McKinley advocates. How Unpleasant it is to see a beautiful child's face disfigured with vile humors, bursting through the skin in pimples, blotches, and sores, and sadder still, when the young and innocent are laughed at and twitted in all such cases. Strawberries are beginning to ripen here now and the crop is a large one.

The crop of grass will be large and if the weather continues good will be of good quality.

The High School Debating Club has a banquet at their hall on Friday night of this week.

Children's day exercises were fine and very interesting at all the churches last Sunday.

Fruit is coming on well, except that the blight is reported on some of the apple and peach trees.

The new time card that went into effect last Sunday on the railroad is an improvement on the old one for us.

The glorious Fourth will be celebrated here about as usual with picnics at the lake and family gatherings.

Corn seems backward now, but by the fourth of July it will be as far advanced as it usually is at that date.

Rev. F. W. Ware spoke at the Baptist church last Monday evening to a small audience on Sabbath Observance.

Wheat has headed out and looks well, there is every indication of a large yield in the territory tributary to this market.

The village marshal is improving the streets in various parts of town by cleaning out the gutters and using gravel where needed.

School will close next week with the usual graduating exercises, Friday night, at the town hall. The class consists of two boys and two girls.

Mrs. D. W. Maroney and her sister, Mrs. Lewick, left here last Sunday morning to visit friends in York state and take in Niagara Falls and other points of interest.

Mrs. Elnathan Skidmore died at the family residence in this village last Saturday of paralysis. She was an estimable lady and leaves Mr. Skidmore in a very lonely condition.

The market has taken another big drop and arrivals have almost stopped. Wheat now stands at 80 cts. for red or white, rye 72 cts., oats 35 cts., beans \$1.20, eggs 14, butter 13 cts. Wool has hardly begun to move yet, but will go from 20 to 22 cts.

Shearing is going on slowly and shearers scarce. Wool will be in fair condition. One small lot of washed fleeces appeared on our streets last Monday and sold at 20 1/2 cts. per pound. This is low, but it is all the market would seem to bear with Michigan xx wool quoted in Boston at 24 to 26 cts. Protection doesn't seem to protect on wool or wheat. Wool will come in slowly and some will be carried over unless the market improves.

**The Wettest Yet.**  
Our expectation of last Thursday that a heavy rain would follow on that evening, was more than fulfilled, the deluge exceeding all that had preceded it, and probably surpassing any record in this part of the country. The gauge showed 2 1/4 inches of water precipitated in 48 minutes, with a third of an inch more added during the night. Four inches altogether, had fallen up to Monday morning, and the first five days of June had rain. So far, then, the abnormally wet May was surpassed by June. The effect of this flood added to the already soaked and sodden fields, extinguished the hope of crops on many more fields, both planted and unplanted. Mr. Bemiss shows us a stalk of corn, 11 inches high from the kernel to the tip of the leaf, turned pale yellow from water; and large areas of oats are completely drowned.

We may get an impression of what such a precipitation as that of Thursday evening means, if we calculate the quantity, and find that 2 1/4 inches means a pouring out upon a single 160-acre farm in about three-quarters of an hour, of over forty thousand tons of water.—The Ypsilanti.

**THE DETROIT EXPOSITION.**  
Many New and Interesting Features This Year.

The Detroit International Fair and Exposition Association has appointed Mr. T. F. E. Sotham, of Pontiac, manager, and, guided by the past three years' experience, has decided upon changes and additional attractions, which will make this year's exposition (August 22 to September 2), not only superior to any previously held in Detroit, but superior in many respects to any yet held in the country.

One of the improvements which, as much as any other, is calculated to popularize this institution is a vast amphitheater, the arena of which is one-fifth of a mile in circumference and seating 40,000.

At one side of the bandstand, in the arena, cattle will be judged, on the opposite side draft horses, and in the outer circle saddle and harness horses. The Detroit Exposition has in previous years brought together the finest displays of stock ever seen in this country. There is every indication that this year's exhibition in that line will excel any that have preceded it. With the method proposed for judging animals, the stock exhibits will be brought before thousands of people who have heretofore paid but little attention to this important branch of the country's wealth.

In this arena, at stated hours daily, there will be a series of special attractions, such as the Roman Hypocrite, chariot races, wild four horses driven abreast, midget chariot races, mule races over hurdles, athletic contests, races, circus, interspersed with popular and classic music by the best bands and a great number of other attractions. The general admission to the grounds will also admit to the amphitheater, where, comfortably seated, all visitors can enjoy these varied attractions.

The exhibition will be not only a pleasant entertainment but an educational institution. As one means by this end, the association will invite some of the best speakers in this country and Canada to address the people on subjects appropriate to each of the ten days. The building will be utilized for speakers, and seats provided so that listeners can be seated within hearing of the speaker's voice.

The ground floor of the main building will be devoted exclusively to the exhibition of manufacturing in actual operation. In previous exhibitions, this idea has been carried out to a limited extent and the result has been that about the alcoves in which these were conducted furnished evidence of the intense interest which attaches to them. Their scope this year will be greatly enlarged, so that visitors will have abundant opportunity to see how articles of necessity, comfort and luxury are made.

In the women's department the classification has been broadened, so that it is safe to say that household work from parlor to kitchen will be more intelligently encouraged and illustrated by this exhibition than has ever before been attempted by any association in this country.

As a means for the regulation track near the south end of the grounds, which were a popular feature last year, will be continued, with purses to the amount of \$10,000. Many of the horses in these several classes will appear in these speed trials, and few meetings offer equal attractions.

There will be an unusually good display of agricultural machinery, the products of the farm, orchard and garden, all classes of manufactured products and articles of household and domestic use.

Altogether, the Fair of 1892 will be the grandest in the history of permanent agricultural and industrial exhibitions and will be of such magnitude and varied attractiveness as to make it probable for visitors to remain in attendance the entire ten days. Its educational features are such as to commend the association to every patriotic citizen and to insure his active support.

Days have been set apart and designated as follows, indicating something of the scope of the speaking and exercises: 1. Children, 2. Athletics, 3. Politics, 4. Labor, 5. Industrial societies, 6. Commerce, 7. International comity, 8. Music, 9. Agricultural, 10. Military and uniformed societies.

Better railway rates than ever hitherto given, viz., one fare for the round trip, have been conceded by the railways and steamship lines, and exhibits that have prepaid freight from point of shipment will be returned free.

The most complete and comprehensive program list ever issued is now ready for distribution free to all applicants.

**THE GREAT BANKRUPT SALE.**  
Clothing Way Below Manufacturers' Cost.

It will pay you to come a hundred miles to visit this great sale. If you value money, don't miss it. To save money is to make it, and probably the whole history of clothing fails to disclose greater bargains than are now being offered at the Great Bankrupt Sale of men's, boys' and children's clothing, at 197 Woodward Avenue, Detroit. This mammoth stock was bought of a prominent New York concern that became bankrupt, and bought, too, at prices that enables us to sell it at 40 and 50 cents on the dollar of manufacturers' cost. The prices asked by us, as may be judged, are far and away down from usual retail figures. Every garment in this stock was made up this season, of materials equal to those of custom tailors, and cut in latest styles. As to prices, for example, we can sell you a man's good all wool suit, worth \$13 for \$6.50; a boy's all wool suit, long pants, ages 14 to 19, well worth \$10 at \$5.

We have 125 different styles of children's suits, ages from 4 to 14 years, and sold by other dealers at \$6, \$7 and \$8, of which we offer you your choice for \$2.95. The sale will continue until the entire stock amounting to \$85,000 is disposed of. First comers will have the pick of selections. We guarantee everything as represented, or money refunded.

FRANK A. WIETHOFF, Prop.

one of the Republican papers... that their candidates are first field. Did they never hear the first being last?

Detroit Tribune admits that wool market is depressed." Of good then is the McKinley bill... are the farmers concerned?...

Ypsilantian expresses surprise... "that the Register had even a Republican paper." Does the Register say to this... Ypsilantian the leading Republican paper of the county?...

The Hill men are making the big claim of 222 votes for Hill on the first ballot or only about 370 short of the nomination. But in the figures which they give to sustain this claim, it will be noticed that the only doubtful state to give Hill votes is New York and that all the other doubtful states are Cleveland. Hill will not receive 150 votes in the Democratic convention.

It is a duty that every Ann Arborite, who attends the Chicago convention next week, owes his party to lift his voice as high as he can for Cleveland's nomination. Any other candidate, no matter how good, would prove a disappointment to the great mass of democratic voters. It is the Democratic voters at the convention should seek a base, not the Democratic politicians. The politicians will fall to line anyway. It is the voter who may be independent on election day.

The Republicans, last Friday, nominated Benjamin Harrison for president and Whitelaw Reid for vice-president. Harrison was nominated in the face of the declaration of the New York Republican leaders that he could not carry New York, and as if to make this more certain, the most persistent enemy of organized labor in New York was placed on the ticket with him for second place. This action of the Republican convention opens the way for Democratic success in November. With Cleveland and Boies, Cleveland and Vilas, Cleveland and Dickinson, or Cleveland and Gray the Democrats will be able to sweep the country.

Ypsilanti is experiencing the trouble, which all cities experience as they grow larger, and an experience which Ann Arbor went through a few years ago. At the last meeting of the Ypsilanti council the chief of the fire department asked for a new hose wagon for company No. 1, "as it is almost impossible to get the company together to draw the wagon now in use to fires." Let Ypsilanti get the new wagon and after the company has been out with it a few times and the novelty has worn off the same difficulty in getting the company together will be experienced. In small villages the whole community, men, women and children will turn out for work in case of fires. In little larger communities volunteer companies may do good work, and will be aided by the other men. In still larger towns the main part of the community simply turn out to advise or find fault with the unpaid workers. The larger the town or city the less interest can be sustained in volunteer companies. The criticisms of the public are not relished and a dislike for the work ensues. Sooner or later, Ypsilanti will have to come to a paid fire department. That comes from putting on metropolitan airs.

The Democrats of this congressional district will have efficient aid rendered in this fall's campaign by the Wayne County Democrat, just established at Wyandotte. Its editorial page is a very bright one and as its news columns are very readable it will undoubtedly attain a good circulation. We gladly welcome the Wayne County Democrat.

NOT SO CONFIDENT.

The Ypsilantian evidently does not enter into the approaching political campaign with any great degree of confidence, as witness the following extract from that paper the day before Harrison was nominated:

"Give us McKinley, Sherman, Rusk, Alger, Tom Palmer or any other able and equally patriotic man for a standard bearer, and victory is sure. Under the present circumstances to nominate Blaine, would jeopardize the cause. The same perhaps is true of Harrison."

WHAT WILL THE HILL DEMOCRATS DO?

The Democrats of the country hope to see Mr. Cleveland nominated in Chicago next week. Never before has there been a stronger popular demand for the nomination of any man for president. With his nomination Indiana, Wisconsin and at least two other western states will cast their vote for him. He is 200,000 votes stronger than any other man in the party. How is it with New York? We believe that Mr. Cleveland is a stronger man in New York than Mr. Hill. He will get thousands of votes from men who are not politicians and who do not care for office. Will he get the votes of the New York Democratic politician? On this point the New York World of last Monday editorially says:

The probability of Mr. Cleveland's nomination at Chicago is now nearly a certainty.

The fact gives peculiar importance to the question, Can he carry New York?

That is a question of immediate and vital interest and The World is trying to find out the probabilities.

It has been asserted over and over again that the friends of Mr. Hill will not support Mr. Cleveland. It has been contended that they are not Democrats for principle but Democrats for Hill or nothing.

The World has not believed this slander, and after its usual method it has asked the Hill men, the members of the State Committee who will have charge of the campaign, the categorical question.

Their answers are printed this morning. They are the answers to be expected from true and loyal Democrats. These men are for Democracy. They prefer Mr. Hill for candidate, but they will give loyal and earnest support to the Chicago candidate, whoever he may be, as every Democrat will who desires the triumph of Democracy for the sake of the principles and policies which Democracy represents. Their motto is that of all Democrats, that

The next President must be a Democrat.

Since the above editorial was in print the World has come out and taken even more advanced grounds in favor of the nomination of Cleveland and says:

It is constantly asserted that if Mr. Cleveland is nominated at Chicago he cannot carry New York.

As Mr. Cleveland seems likely to be nominated, and as New York's support is essential to his election, it is important to know whether or not the assertion is true.

The only opposition in this State to Mr. Cleveland's nomination comes from the supporters of another candidate. The only question of his ability, in case of his nomination, to poll as large a vote as any other candidate, turns upon the other question whether or not these men will support the ticket if Mr. Cleveland shall head it.

The World has put this question to the leading Democrats who are opposed to Mr. Cleveland's nomination. Yesterday it published the answers of the State Committeemen. Today it presents the replies of the delegates chosen at the February convention to represent the State at Chicago.

The result may be summed up in a sentence. Hill Democrats and all other Democrats unite in saying that they will support the candidate nominated at Chicago, whoever he may be.

Many of the delegates in declaring their loyalty to the party take occasion to express the opinion that Mr. Cleveland cannot carry the State, but none of them offers any reason for this conviction. Without such reason the conclusion seems reason-

able that if he is nominated Mr. Cleveland's chance of carrying the State will be as good as would be that of any other Democrat nominated in his stead.

Whoever the candidate may be his election should be the desire of every man who believes in Democratic principles and hopes for the dominance of Democratic policies. Whoever he is he will have received a two-thirds vote in the National Convention, and no man will have a right to regard himself as a Democrat who is not ready and willing to work and vote for the triumph of Democracy in his election.

The Need of Organization.

EDITOR ARGUS: The history of civilization has proved that political party influence has ever had much to do with human progress. This being true, we should not disregard the present and consider the future our chance. Whoever is nominated by the Republican party at Minneapolis, he will be placed before the people as the man with whom the Republicans expect to carry their principles into effect. Their platform must indorse the McKinley bill, the billion dollar congress and the force bill. To vote for the Republican candidate is to vote for these measures. This no honest man can afford to do. For they are contrary to the principles of good government. Let the people understand this and we court the result. There is one means to get them to understand this and that is through organization. By organizing we can disperse literature and develop the study of issues to a far greater degree than without it. It supplies food for the voter who has seen the fallacies of the so-called protection. Some who see these fallacies, wander into various third parties, but finally settle in the party of the people—the Democratic party. But we must gather them in now. It is true that the large majority of the voters are Democrats, but unfortunately the popular vote does not elect the President or Senators upon which the coming election depends much. Not the election of President and Congressmen alone, they are only two-thirds of the fight. If the Democrats elect the President and retain the house all legislation is blocked by the Senate. We must fight for this as well. Such a fight is on in our own state of Michigan. We have but to teach the people the truth and they will see to it that we add one more to the Democratic side of the Senate. This is true from the stand the various third parties make upon the principle issue—the tariff. These voters are Democrats thus far, and only need persuasion to join us. Organization does not mean machine politics alone, it means establishment. We must establish our stand before the people. Why is it that voters stay away from the polls? This is best answered by another question, viz.: Who is it that votes? The man who understands his preference. If the voter does not understand what he is voting he is only pressed into service by the use of the "machine." The Democrats have no "machine" to compare with the Republicans, because the Republicans have the money. The people are anxious to learn, they read and listen. They debate the questions as best they can either in the country school house, store, or shop. Furnish them food for study, let them study and there will be little use for the machine. The Republicans have their paid men to talk protection fallacies and deceive the people. We have not, but we can meet them with the strength of honest reason and the people can best

understand the truth. Organization is our best and only means for the emergency and the sooner we perfect it the better.

JAMES A. BORDEAUX.

To Capt. Allen.

If it could be managed in some way so as not to jar too harshly on ex-congressional nerves, the Press would be glad to have some one convey to Capt. Allen—as delicately as possible, mind—the information that the first clip of wool sold in Chelsea this season, realized 14 cents a pound or a discount of 50 and 44 per cent from list price, as promulgated by the captain in his McKinley schedule. As the captain is just now very busy "leveling" Republican assessments as provided by the civil service rules, it would not be in good taste to interrupt him while adding up totals; but the figures on this first wool clip, of Chelsea, might be gently laid on his desk, in plain sight. It couldn't do the least harm, at all events. The captain will please note the figures—14 cents.—Adrian Press.

**NEVER A FAILURE.**

The Red River Valley of  
Minnesota and  
North Dakota  
has  
never  
had a failure  
of crops.  
It produced 30,000,000  
bushels of wheat  
besides other cereals in 1890.  
Farms can be had  
on the  
crop plan, or long time  
cash payments.  
It is not an uncommon thing  
to pay for a farm  
from the proceeds of  
one crop.  
It has all of the advantages  
of an old country in  
the shape of school, church,  
market, postal & railway facilities  
and all the chances of  
a new country in  
the way of  
cheap lands, rich soil,  
and increase in value.  
It is one of the most  
fertile and promising  
regions in America  
not yet fully occupied.  
In the rush to the far  
west, however,  
this rich valley has  
been over-looked.  
It has room for a

 This list includes the names of Hon. M. H. Goodrich, an ex-President of this society, and also an ex-President of the State Pioneer Society, the Hon. C. H. Richmond, treasurer of this society, and Randolph Rogers, the distinguished sculptor, an early resident of Ann Arbor, who departed this life at Rome, Italy, the 15th of Jan., at the age of 66 years. Judge Thomas Ninde, of Ypsilanti, also with many more noble men and women who helped to make Washtenaw County what she is, have finished their labors and are at rest, leaving as a rich legacy to us who still remain the memory of pure and spotless lives, devoted to the work of upbuilding every good cause. Their labors have made the wilderness to bud and blossom as the rose, the desert wild where they made their early home a veritable garden of the Lord. Their lives so true, so beautiful, so good, call to us to emulate their virtues and follow their example, and thus to keep green their memory in all the days to come.  
 To Mr. Morrell Goodrich, of Dexter, Mr. A. H. Hotchkin, of Saline, I am indebted for many names in this list of pioneers who have deceased during this year. Their kindness and care have enabled me to make it much fuller than otherwise would have been possible. I desire to thank them personally as well as in the name of the society for their thoughtfulness and diligence in gathering and reporting the names to me.

Y., was in the city, Wednesday. Adrian Press Washtenawisms. As an evidence of the decadence of the times, the Milan rink has been converted into a livery stable. Not satisfied with having secured several good things recently, Dundee is now plotting to get the Fourth of July there. The cartoonist of the Ann Arbor Courier failed to produce anything last week. It is to be feared he has broke something inside of him. The Ann Arbor board of Review meets on the 4th of June, at which time tax payers are expected to call around and commit their annual perjury. The locating of a Keeley institute at Ypsilanti raises a general hope for the editors of that city, the institute being within walking distance. The "Damnation of Faust" was lately rendered by an Ann Arbor Choral Union. The president and his friends did the same thing for Blaine last week. If the proprietor of the Saline opera house doesn't soon plug up the holes in the roof and lessen the danger of the actors' drowning, the dramatic fraternity will be justified in "plugging" him with holes. The bravery and soldier-like qualities of the Ann Arbor Light Infantry are likely to be soon tested on the bloody field. Two base ball teams have been organized among its members; and once again will be revived those old war songs: "Mother dear, your Boy is Wounded," and "Mother I've come Home to Dine."

The recent production of the "Damnation of Faust," by the Ann Arbor Choral Union was heralded in advance by all the Ann Arbor papers, which gave the most liberal space in their local columns to free advertising "for the benefit of the cause." In reciprocity for these favors the Choral Union spent every cent laid out for job work—with the Ann Arbor newspaper offices? No, with a Jim Crow job office in Detroit, having no newspaper in connection to give "The Damnation of

Faust" a line of advertisement! The local papers have since been engaged in the damnation of Faust, and are not to be blamed if they make it very horrible. Mrs. Kress, a Battle Creek disciple of hygienic cookery, has opened a cooking school at Ann Arbor. If she has any process that will restore the lost youth of the average hotel "spring chicken," soften the heart of the railroad sandwich or enrich the nourishing properties of the church oyster, and will impart the secret, she will be blessed by thousands in this world and sainted in the next. Java Tip-o-Tip Victoria Folfse Zulu Dungan Omisha, son of King Tetowa Cetywago Son-of-a-Gun, once King of Zululand, Africa, addressed the Epworth League at Ann Arbor, Sunday of last week. Java Tip-o-Tip Victoria Folfse Zulu Dungan Omisha is as black as a pot and as shiny as an old Prince Albert coat. His mission here is to convince the benighted heathen of this country that they are wearing too many clothes. The criticism, however, does not extend to Mille.Rhea or the exalted ballet. What is to be thought of a man who will steal a pencil from a newspaper reporter? Has he not reached the depth of infamy?—Ann Arbor Courier. He's pretty deep in, but hasn't quite touched bottom. It is the pirate who loots the product of the newspaper man's pencil and transfers it to his own lean columns, as original, whose infamy is most infamous; but these remarks do not apply to the Courier. Miss Zebb has been a guest of Mrs. Taylor, of Ann Arbor. Is she not now? No, guest not. The ladies are colored. Miss Zebb donned a sack which Mrs. Taylor's girl claimed and Zebb slapped her. The mother interfered and the Zebb sailed into her, in shirt sleeves. Talk about free wool! It was enough to make Capt. Allen commit suicide. It hung in shreds about the room and festooned the "what-not" and the woodbox. When the fight closed, both combatants were sans clothes and bald-headed. This is why Miss Zebb shortened her visit at Mrs. Taylor's. At a late meeting of the stockholders of the Michigan Pump Manufacturing Company, of Ypsilanti, it was voted to increase the capital stock of the company to \$50,000, and to offer for sale 1,000 shares of the par value of \$10 each at \$11 per share, with a guarantee dividend of at least 6 per cent. The company has obtained exclusive control of the new process for casting iron as applied to the manufacture of pumps, which is owned by H. P. Glover and W. Eames, and which gives to this company great advantage over all other pump manufacturers. This stock can be obtained at the First National Bank at Ann Arbor, or the Ypsilanti Savings Bank, or the office of the company at Ypsilanti. The directors of the company are: H. P. Glover, J. M. Chidester, M. S. Hall and E. P. Goodrich, of Ypsilanti, and Wilfred Eames, of Ann Arbor.
