CORONER'S INQUEST'S STARTLING VERDICT.

Sad End of a Tarr'd and Feathered Girl.

Two New Buildings on the Campus.

The Board of Regents of the University passed a resolution, Wednesday, providing for the erection of two new buildings on the University campus, one an administration building to cost \$45,000, and the other a recitation building to cost \$30,000. The plans of E. W. Arnold for the new administration building were adopted, and the plans of Speer & Rohns for the new recitation building were also adopted.

Three German Commissioners Here.

Dr. Dettmar, professor of medicine in the University of Bonn, Dr. Betzold, professor of medicine in the University of Berlin, and Dr. H. Lichtenfelt, three of the German commissioners to the World's Fair, arrived in the city last Wednesday evening, to investigate the educational system in vogue at the University of Michigan. While here they are the guests of County Treasurer P. G. Suekey. Six of the colleges of this country are to be made the subject of special investigation by the German commissioners, of which Michigan is one. The three visiting commissioners yesterday witnessed the graduation of the largest class ever graduated in this country.

Our County Treasurer as a Linguist.

County Treasurer Suekey returned from Chicago on Monday evening. He had a great time while absent. At the German-American Day celebration he occupied a prominent seat between the German minister at Washington and Henry Villard. He attended a number of banquets while absent, and responded to a toast at the banquet given by the Milwaukee Press Club to foreign and American visiting journalists. A special train was run from Detroit, and the banquet cost over \$10,000. Representatives from a large number of foreign countries were present, and Mr. Suekey's response was in German, French, Italian, Spanish and English. It is unnecessary to state that Mr. Suekey was liberally applauded.

Killed His Lambs.

Thomas Blake, one of the substantial farmers of Ann Arbor town, living on the river road, was in the city last evening. His usual good nature has been severely strained recently. He says that some Ann Arbor man came down to his place and standing on the Michigan Central railroad track deliberately shot two of his lambs. Following this two fellows from Ann Arbor passed through his fields with a liver-colored water spaniel, which killed one lamb, and worried another so that it had to be killed. He followed the young men and wanted to kill the dog. They claimed it belonged to "University Thompson." One thought it belonged to Guy Thompson, Mayor Thompson's son. The next time he came to the city he called on Mayor Thompson, who informed him that neither he nor Guy owned a dog, but that they wanted one.—Washtenaw Times.

A Presidential Postmaster Removed.

"Congressman Gorman did it with his little hatchet. He came to Washington this trip with one particular thing in mind, and that was to secure the removal of Postmaster Humphrey, of Adrian, for every kind of offensive partisanship. He filed charges against him which covered his conduct of the office, the insulting resolutions pertaining to President Cleveland, which he drafted and presented to the G. A. R. post in 1887, and his identification with a secret non-American and unpatriotic organization. His efforts were rewarded by President Cleveland this afternoon by the removal of Postmaster Humphrey. His successor is the splendid young democratic ex-Mayor, Leonard W. Hoch, for the last four years chairman of the democratic county committee of Lenawee county. Congressman Gorman also secured changes in a number of the smaller postoffices in his district and a new deal in pension examining boards, and goes home very well satisfied."

The above dispatch from Washington was published in Tuesday's Free Press. Those who are acquainted with the new Adrian post-

master will thoroughly approve the appointment. Ex-Mayor Hoch is a thoroughly enterprising young German business man, and a great democratic worker, whose work has told in Lenawee. He was Washtenaw's candidate for auditor-general at the democratic state convention last year, and would have been nominated by acclamation had he not telegraphed his declination of the honor. We congratulate President Cleveland, Congressman Gorman and the people of Adrian on the appointment.

The Harugari Flag Dedication.

The Harugari Maennerchor of Ann Arbor will celebrate the glorious Fourth by dedicating their new and beautiful flag, which has just arrived from the well known and justly popular Mrs. Hermann, of Detroit.

On the obverse side of the flag, on a chrome yellow field, on a pedestal composed of the shield and coat of arms of the society, stands the goddess of music and song, with right hand supporting a lyre and left hand holding aloft a scroll. Around the pedestal is worked a wreath of oak and laurel and a streamer bearing the date of the society's organization; above, and forming an arc, the words: "Harugari Maennerchor." On the reverse side, on blue field, on pedestal composed of the shield and coat of arms of the United States, the American eagle, the corners neatly worked in with oak and laurel. The whole work is silk embroidery. It is a true work of art that must be seen to be appreciated.

The German-American societies of Ann Arbor, Chelsea, Dexter, Ypsilanti and Saline, and male choirs of Detroit will participate in the festivities. A grand procession of all societies will parade the principal streets and march to Relief Park, where the Hon. B. F. Thompson, mayor of the city, will deliver an address of welcome and the exercises of dedication will take place. Good music, dancing in the afternoon and evening and a good time generally is assured.

"He who loves not wine, wife and song,
Remains a fool his whole life long."

Celebrating the Fourth at Whitmore.

The 4th of July will be celebrated this year by the people of Northfield with great pomp and splendor. A picnic is to be held at Smith's grove, Whitmore Lake, and the finest program ever presented by any picnic held at the lake will be carried out on Tuesday afternoon, commencing at 4 o'clock sharp. Some of Ann Arbor's finest talent will tend to lend enchantment to the undertaking, which will prove very entertaining to all who attend. The ladies are strenuously endeavoring to make the eatables wholesome and toothsome for their city neighbors, and in this most important duty they hope to succeed. The Toledo, and Ann Arbor road will, besides their 7:15 standard time train, run a special train at 10 a. m., city time, to the lake; returning, leave the grounds at 7 o'clock in the evening. This will give the many from Ypsilanti who are to attend an opportunity to catch the 8 o'clock motor. A good program and an excellent time are assured, as may be seen by the following

Stopping Bicycle Thieving.

Deputy Sheriff Peterson has done a good piece of detective work in ferreting out the bicycle thieves and putting a stop to that kind of thieving in this section. His work resulted in the arrest of Miles Linklater, who has been a law student and was employed at the Psi U. house as a waiter at the time of his arrest, and of Charles Davis, who lives in the first ward and was brought up at Mooreville, for stealing bicycles. Two of the bicycles were recovered. Two complaints were made against each man. Linklater waived examination and was bound over to the circuit court with \$500 bail in each case. Davis had his examination, Wednesday, and was also bound over, with the same bail.

Neither has yet furnished the bail.

The bicycles were recovered at Mooreville, and were found in a swamp on the farm of William Bush, the grandfather of Davis. They had been taken apart and carefully secreted, Bush denying that the two arrested men had been there. He was arrested for receiving stolen property. One of the wheels recovered was a St. James, an imported wheel stolen from Robert Dunn; the other was a Victor, stolen from W. C. Hartman. The wheels were stolen on the night of June 5. They were put in a vacant shed on Madison street, moved to a barn, moved again, and finally, last week, were taken to Mooreville. Neither Davis nor Linklater could ride them. They started for Mooreville at ten o'clock at night, pushing the wheels all the way, and reaching there at three o'clock in the morning. The distance is fourteen miles. Hiding the wheels in Bush's barn and getting a lunch, they walked back, reaching Ann Arbor at eight o'clock.

The officers believe that Bush secreted the wheels in the swamp after they had made the first search for them.

At the examination, a young man named McFadden testified that Davis told him about the stealing of the wheels, and wanted him to sell them. He did speak to a couple of young Dexter men about them.

Deputy Sheriff Peterson worked very hard on the case, making a number of trips to Mooreville, and his good work is deserving of much praise.

Three Houses Burned Last Evening.

Ann Arbor had its biggest fire in the past four years last evening. In fact the loss was as large as the total fire losses in the city for the past ten years. Three new dwelling houses were burned to the ground. Two of these houses belonged to A. W. Hamilton, and the other to Dr. J. L. Rose. They were situated on South State street, on the Hamilton, Rose & Sheehan addition, and were occupied by Rev. Philip Farnum, Mrs. Susan Fisher, and Rev. Joel Kennedy. The fire started in the barn on the place occupied by Rev. Mr. Farnum, and it is not known in just what manner. Some people think it was fire crackers which originated it, and others think some of the workmen on the new society house adjoining may have been smoking there. The fire had obtained a good start before the alarm could be sent in, as the person sending it had some distance to go to get to a telephone. The run down was made in good time, though South State street had been so heavily graveled as to make it difficult. But the united hose carried in both wagons was insufficient to reach the nearest hydrant to the fire, and a second trip to the engine house had to be made for more hose. The nearest hydrant was on the corner of State and Packard streets, and a line of 2,600 feet of hose was finally laid. But the water pressure was found to be insufficient for this long line of hose. The pressure at this hydrant is said to be twenty-six pounds, which would be a sufficiently strong pressure for only 500 feet of hose.

When the fire company was finally able to obtain water, the first house was entirely enveloped in flames. The three houses were quickly consumed, the department making the best fight possible under the circumstances. They succeeded in saving the adjoining house of John V. Sheehan.

Rev. Mr. Farnum and Mrs. Fisher lost nearly everything. Mr. Farnum's loss was \$1,500. His is not sure as to whether he has insurance or not. Mrs. Fisher lost \$1,200. No insurance. Rev. Joel Kennedy lost \$500, fully insured. A. W. Hamilton's loss was \$6,500, of which \$4,000 was on one house and \$2,500 on the other. Insured for \$3,500. Dr. J. L. Rose's loss was \$2,650, insured for \$1,800. The total loss was \$12,350.

Mr. Hamilton stated this morning that they will rebuild the houses at once.

Death from Abortion in Augusta.

Augusta gives rise to a sensational criminal case this week. Jane Harrington, as she was known, a girl of eighteen or twenty years of age, died early Wednesday morning evidently from an attempted abortion. A jury was summoned and an inquest held by Justice Anton Gabel, of Augusta. The jury brought in a verdict in which they "on their oaths say that the deceased came to her death by medicine furnished by Lorin Jackson and Dr. Patterson." The justice brought his evidence

to the city yesterday and laid it before the sheriff. To a reporter of the Argus he stated that the girl who has just died and her sister were tarred and feathered at Whittaker about four months ago for keeping bad company. She then went away to work but came back again sick and was living with her mother. The justice says she was an innocent girl up to a few months ago. The man charged with causing the crime is Lorin Jackson, who has been working at Mooreville.

The girl's maiden name was Harrington. At the inquest William Johnson testified that she was his wife, and that he married her July 2, 1892. They had never lived together. He visited her three months ago to see about getting a divorce. She said that she was willing that he should have one. He saw her again twenty-four hours before she died. She told him that some one had given her something to get rid of a child. He asked her whose child it was, and she said Lorin Jackson's. Jackson had given her money to get medicine with.

Several women testified to the girl's statement just before she died. She said she had taken half an ounce of British oil and half an ounce of oil of tansy, which Jackson had got for her in a Milan drugstore. As this did not work, he advised her to go to Ypsilanti, and gave her seventy-five cents to get medicine with. She went to Dr. Pattison and told him what she wanted, and he gave her some black pills, of which she took all but one. This pill is now in possession of the sheriff. The statement was testified to by Mrs. Mary Klose, Clista Demay, Mrs. Almedia Kilingbeck, and Mrs. Mary Bird. This was all the testimony excepting the evidence of Dr. H. R. Post, who testified as to the cause of her death.

The officers were unable to find Jackson, as he had left immediately on hearing of the inquest.

It is but just to Dr. Pattison to state that he was not called to give evidence at the inquest. He states that he gave no medicine to procure abortion and he is perfectly willing to have the medicine he gave analyzed.

Regular Horticultural Meeting.

The June meeting of the Washtenaw Horticultural Society, held last Saturday, discussed strawberries, fruit prospects and transportation. Jacob Ganzhorn exhibited the Michel's early strawberry, which he considered valuable on account of its season, being about three days earlier than Crescent, though not as good a yielder. The Veno possesses the merits of a good color, fair size and uniform shape. Its flowers are staminate, thus enabling it to be used as a fertilizer for the pistillate sorts. The strawberry crop this season had been a good one and brought fair prices.

The prospects for other small fruits were considered good. Raspberries, blackberries and grapes are now in fine condition and if drought does not cut short the berries, or black rot the grapes a full crop is assured. Cherries are a light crop. Large fruits do not promise quite so well as early in the season. Winter apples blossomed sparingly and will be a very light crop. Peaches are doing well, though in some orchards certain varieties failed to set as well as was expected. Plums generally blossomed well, but set only a light crop on account of the wet weather. B. G. Buell reported that most varieties of pears had blossomed and set well, though the Flemish Beauty failed to blossom, and the Anjou blossomed full but did not set.

A. A. Crozier reported that the new Carrott raspberry, though making rather a light growth last fall, was growing finely this season and promised a large crop.

Prof. J. B. Steere said that the outlook for celery was all right. He is putting in thirty acres this year and expects to increase the area to one hundred acres next year. The land is all pure muck, three to five feet deep, resting on clay and is drained by open ditches and irrigated by artesian wells, sunk to a depth of from twenty to thirty feet.

New plantations of fruit were reported in good condition, except where the tree and plants were damaged by delayed shipments. Strawberry plants in particular were liable to be injured if shipped from a distance.

The transportation question was discussed at length and the general conclusion reached that no agent of the Society was necessary in Detroit to receive the fruit. B. J. Conrad was appointed committee on transportation for the season.

The Secretary exhibited samples of splint baskets of various sizes and excellent quality made by Wesley Lewis, of Dundee.

The next meeting will be held on the first Saturday in August.

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Makes a Discloser.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Jewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows:

"Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonderfully. We say to all, try these remedies."

—Solomon Jewell, Marion, Ind., Dec. 5, 1862.

These remedies are sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. They positively contain neither opiates nor dangerous drugs.

NOW LOOK HERE!

If you intend buying a piano, we want to say just eight words to you—**WE WILL Save You Money on a Piano.** This means something when we say it and we will add—**Now is the Time to BUY.** Trade in all lines is dull. Money is scarce, and a little money goes a long way.

About 40 Rented Pianos

Will be brought in for the summer this week. Some are good as new, having been used but a few months, others (three or four years) will go at prices which will astonish you.

EVERY PIANO

Will be thoroughly tuned, action regulated and repolished and will be warranted, same as new.

RIGHT HERE WE WANT TO SAY

A certain competitor is offering a piano for which we are state agents at a price absurdly low and at which it is known it cannot be furnished. Such conduct is beneath the dignity of responsible dealers who are above misrepresentation and falsehood. Parties making such statements simply misrepresent facts and have no intention of making such offers good. A state agency for a reliable piano carries with it reasonable business protection which every legitimate manufacturer invariably gives to those agents who sell his piano. We sell the pianos we represent on their merits regardless of those sold by others, or misleading statements made by them. Dealers having a reputation usually do the same. Others could follow this method to advantage.

NEVER A FAILURE. The Red River Valley of Minnesota and North Dakota has never had a failure of crops. It produced 30,000,000 bushels of wheat besides other cereals in 1890. Farms can be had on the crop plan, or long time cash payments. It is not an uncommon thing to pay for a farm from the proceeds of one crop. It has all the advantages of an old country in the shape of school, church, market, postal & railway facilities and all the chances of a new country in the way of cheap lands, rich soil, and increase in values. It is one of the most fertile and promising regions in America not yet fully occupied. In the rush to the far west, however, this rich valley has been over-looked. It has room for a million more people. Write to F. I. WHITNEY, St. Paul, Minn for particulars. Publications sent free.

Impure blood is the cause of innumerable maladies. Hence, one of the greatest benefactions to the humanity was the discovery of Ayer's Sarsaparilla, which, more than any other medicine, has saved America from becoming a nation of invalids.

It's flying in the face of Nature to take the ordinary pill. Just consider how it acts. There's too much bulk and bustle, and not enough real good. And think how it leaves you when it's all over! Dr. Pierce's Pleasant Pellets act naturally. They help Nature to do her own work. They cleanse and renovate, mildly but thoroughly, the whole system. Regulate it, too. The help that they give, lasts. They're purely vegetable, perfectly harmless, the smallest, easiest, and best to take. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels are promptly relieved and permanently cured. One tiny, sugar-coated Pellet for a gentle laxative—three for a cathartic. They're the cheapest pill you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get. This is true only of Dr. Pierce's medicines.

FRIDAY, JUNE 30, 1893.

Adrian Press Washtenawisms.

The Salem creamery uses 5,000 pounds of milk daily, and no "Salem's daughters weep around."

Washtenaw "budge" merchants pay this year \$34,300 license, Ann Arbor contributing nearly half.

Lightning struck the Advent church at Willis last week, with a noise that seemed to presage the millennium.

Wages are so high about Grass Lake, that some farmers have rented their broad acres and gone to working out by the month.

A lady cyclist at Ann Arbor, last week, run down and injured another lady. Right on the sidewalk, too, just like a masculine man.

Normal non-socialists cleaned out the "Sassiety" dudes at ball, last week. Hinted that the girls will career over toward the non-socialists.

The South Lyon Picket, which was started "to fill a long felt want," has been slimed and boa-constricted by the Excelsior—"to fill a long felt want."

Six children at the Ann Arbor congregational church were last week presented with Bibles. Better have distributed them to the adults, whose probation is shorter.

Merle A. Breed, a graduate of the Ypsilanti high school, has become president of Benzonia college. President Breed is a well bred gentleman, a minister and a scholar.

Emmet Coon, of Ann Arbor, has received a patent on an ash-sifter. Now let the perdition-doomed coal combine gaze with palid cheek upon that sifter! Too late, they see what they have done.

No one in this part of Michigan has ever caught a perch that weighed a pound, says the Dexter News. Let the friends of truthful Editor Thompson have a care over him. He is liable to be lynched by liars.

A teamster and a farmer at Ypsilanti last week had a fight, over 25 cents worth of cobble stones. One of them was struck senseless; then both were arrested and "Bogardused" to the value of many stones.

"A belief used to be current that there was a bottom to the wheat market, but the idea has died an ignoble death," remarks the Dexter News, and it reminds us that the wheat tariff isn't high enough. What we want is a sky-scraper.

The Grass Lake Baptist choir practiced so badly, the other evening, that a hanging lamp fell down upon the organ and so deranged its internal works that a wheezy old instrument in the back room was brought in for Sunday service.

Supervisor and Deputy-Oil-Inspector Gilbert, of Sylvan, must be getting ready to boom his candidacy for the presidency. He has just erected a windmill on his place.—Argus.

But, can he tell what became of Inspector Cohn's testing apparatus?

Willie Davis, of Ypsilanti, spilled some powder, which he swept into a dustpan. A cunning "kid," threw a lighted match in it, and Willie, though his eyes were saved, will bear marks on his face that should entitle him to lick the other boy once a month during the rest of his life.

The Ann Arbor town clerk will be at the court house on Saturday, June 24, for the purpose of taking woodchucks, crows, hawks and sparrows, from 2 p. m. to 5 p. m.—Argus.

If he passes this zoo-ornithological trial, uncheated by the small boy, he's a cuckoo.

The South Washtenaw Farmers' Club is saying the meanest things it can find in the dictionary about the late legislature, for passing the new law relative to road work. They say it will create a new office—commissioner of roads—for politicians to grab for. It makes us "hot" to hear any one speak ill of our noble legislature.

The United States Government reports ROYAL a pure cream of tartar baking powder, highest of all in leavening strength.

Royal Baking Powder Absolutely Pure.

All chemical tests to which I have submitted it have proved the Royal Baking Powder perfectly healthful, of uniformly excellent quality, and free from every deleterious substance

McMurtre, Edw., Ph.D.

Late Chemist U. S. Department of Agriculture, Washington, D. C.

Only the pure acid of grapes is used in Royal. Royal leaves no acid or alkali in the food.

The Register says that Maris T. Kendig, a graduating law student of the University, got through the first year on \$95, of which \$60 went as University fees. This left him \$35 for subsistence, cocktails, theater tickets, and clothes. Does someone say that was nothing? Well, that was about the size of it.

Hailstones fell in Ann Arbor, Thursday of last week, as large as pieces of chalk and many were much larger. A photographic skylight was "knocked silly," trees blown down, motors burned out, and the windows of the University building made to look as though they had umpired a baseball game.

It is gathered from the Milan Leader that "as the sun of the solar system slowly glided into view, yesterday morning, a son of Mr. and Mrs. Crolus 'first opened his eyes to the light of day.'" This shows that there was nothing lazy about the little cuss. Up, at the peep of morn, to see the robin yank the angleworm.

"Iron Creek," in Manchester township, has dropped into "inocuous desuetude," and in its place "Windemere" spreads out serenely over the same territory. Yet the voice of the mud-turtle is no sweeter, the croak of the bull-frog just as harsh, and the fish-liar's tales just as enormous and unbelievable around Iron Lake as ever.

"I suppose it will be all right to check against this?" queried a stranger calling himself J. H. Whitmore, to cashier Hiscock, of the Ann Arbor Savings Bank, as he passed in a 1,000 dollar check on Elizabeth, N. Y. "O, certainly—just as soon as we get returns," replied Hiscock. There were no returns. The check was a forgery, and Hiscock pulls down his left eye and asks if anyone sees anything green.

To be perfectly contented with present conditions is a sure sign of death and decay, both in an individual and in a community.—Dexter News.

That, John, depends wholly on circumstances. Come, let us reason together. Suppose you were young again, and sat once more with your arm around her—her warm cheek pillowed against your throbbing Waterbury—in the fire-light's fitful flicker; would you pretend that present contentment presaged death or dry rot, and flounce out of your chair; or would you continue to gaze at the fire and let her flicker? Honest, John!

A thief with very little principle recently broke into the house of Rev. F. E. Morehouse, of Waterloo, and stole \$13. As a consequence of this wretched business, the elder fears another donation, which, taking into account his wife's succeeding illness from overwork, wages and smashage by hired girl, greasing of carpets, spilling of coffee into the piano, etc., will entail upon him a still further net loss. Let us hope the thief's future punishment will be very horrible!

Postmaster Robinson, of Milan, has resigned, the act to take effect July 1. It was not because Mr. Robinson did not love to be postmaster, for he did. His stomach had adjusted itself to the assimilation of Columbian stamp gum and his pocket to the salary. But, animated by that noble impulse, "To the victors belong the spoils," he "fired" his resign in the teeth of the administration. A man named Gorman wrote to him that he wanted him to do so, or he would never have done it in the world.

Bard Johnstone—the same is he that was to come, as prophesied of by the newspapers—complains through the Ann Arbor Argus of a recent attempt by a hired agent of the Press to assassinate him. Failed! The death of the assassin shall be more horrible than that of Johnstone. Concerning the affair the poet makes the following statement: "I was walking by the murmuring Huron, at peace with all mankind (save that living witness of one of the mysterious freaks of nature, that irrepressible, indescribable, zoological, spectral, Adrianatic monstrosity, whose genealogy may be traced from a gorilla to the devil)." * * * A charge of shot tore away seven ounces of meat.

Tore away seven ounces! Good!—but not good enough. We shall hire an agent with a deadlier aim. It must be conceded, however, that Johnstone writes an admirable self-description. He was walking, he

says, * * * "at peace with all mankind, save that living witness of one of the mysterious freaks of nature." Then he describes the "freak." As the "witness" was the assailant, the identity of the "freak" is in no doubt. Let the reader review the poet's deposition. He will enjoy it.

Homes for World's Fair Visitors. In view of the crowded condition of Chicago and its hotels during the World's Fair period, Poole Bros. have done a public service in issuing a very carefully prepared list of the homes in Chicago that are thrown open to the public on this occasion. The list is complete and gives the name, location, and number of rooms, etc., so that correspondence may be had and arrangements made before the visitor comes to Chicago. This list is accompanied by splendid sectional maps of the city on a large scale, by which the location of every house can be accurately found. Copies can be obtained at the Michigan Central ticket office at the publisher's price, 50 cents—less really than the value of the maps themselves.

A Surgical Operation

For the cure of Piles is always painful, often dangerous and useless, and invariably expensive; on the other hand there is a new certain cure, perfectly painless, gives instant relief and permanent cure and costs but a trifle. It is the Pyramid Pile Cure. It is a more certain cure than a surgical operation, without any of the intense pain, expense and danger of an operation. Any druggist will get it for you.

In Paint the best, is the cheapest.

White Lead is best; properly applied it will not scale, chip, chalk, or rub off; it firmly adheres to the wood and forms a permanent base for repainting. Paints which peel or scale have to be removed by scraping or burning before satisfactory repainting can be done. When buying it is important to obtain

Strictly Pure White Lead

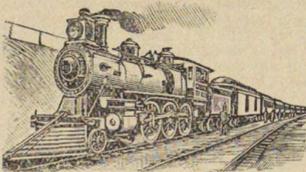

properly made. Time has proven that white lead made by the "Old Dutch" process of slow corrosion possesses qualities that cannot be obtained by any other method of manufacture. This process consumes four to six months time, and produces the brands that have given White Lead its character as the standard paint.

- "Armstrong & McKelvy"
"Beymer-Bauman" "Eckstein"
"Fahnestock" "Anchor"
"Kentucky" "Morley"
"Southern" "Shipman"
"Red Seal" "Collier"
"Davis-Chambers"

are standard brands of strictly pure Lead made by the "Old Dutch" process. You get the best in buying them. You can produce any desired color by tinting these brands of white lead with National Lead Co.'s Pure White Lead Tinting Colors.

For sale by the most reliable dealers in Paints everywhere. If you are going to paint, it will pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a postal card to do so.

Somnambulism Due to Profound Sleep.
Chambers, a very well known authority, attributes somnambulism to unusually profound sleep rather than to incomplete sleep. In it volition is abolished, and the mind acts automatically with a single idea. All of those mechanisms which have been trained by constant repetition to act automatically, as in preserving equilibrium, are preserved and their powers even heightened, so that somnambulists may walk along roofs, and dangerous roofs, without harm. Overeating and sleeping with the head too low is calculated to invite the somnambulist state, other attacks following without apparent cause. Hereditary somnambulism has also been observed, he says, alternating with catalepsy.—St. Louis Globe-Democrat.

No Woman
is beautiful with a bad skin, covered with pimples, freckles, moth, or tan. I have been asked many times what will remove these unsightly blemishes. No face paints or powders will remove them, as they are caused by impure blood. The only sure remedy I have ever seen is Sulphur Bitters, and in hundreds of cases I have never known them to fail.—*Edw. Fashion Gazette.*

A Miracle of the Nineteenth Century.
I have been afflicted with rheumatism for twenty years, and have used crutches for ten years. From using powerful liniments to get a little strength, my hip and knee had lost nearly all strength. When I commenced to take Hibbard's Rheumatic Syrup I could not take one step without the aid of a cane. I can now walk without my cane from my house to my office and wish I might herald to all afflicted with rheumatism, the merits of this wonderful medicine. S. S. CONOVER, Agt. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. GOOD HEALTH.
IS YOUR BLOOD IMPURE? Are you suffering from any Kidney or Female Complaint? Have you a Cough, Cold or any disease of Throat, Chest or Lungs? Is your Liver performing its functions properly? If you have any of these complaints it will certainly pay you to try the medicines mentioned below, which are warranted.

A REMARKABLE CURE.
MESSRS. FOLEY & CO., Chicago.
GENTLEMEN—I had a scrofulous taint of the blood from childhood. An ulcer began on the side of the nose, having all the appearances of a most malignant cancer, became about the size of a silver dollar and ended a thin, offensive matter. The agony of mind I suffered cannot be described as I contemplated the progress of the disease.
I was induced to try the Clinic Sarsaparilla; it appeared to neutralize the poison in the blood, the ulcer ceased. The diseased tissues in the bottom and edges of the sore seemed to loosen and the natural flesh to take its place. Thus the cure continued until an even surface remained. No part of the disease remains.

SUFFERED 27 YEARS.
Mr. G. A. Stillson, a merchant of Tampico, Ill., writes, August 10th, 1891:
MESSRS. FOLEY & CO.
GENTLEMEN—Your Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I, myself, am able to testify to its merits. My face to-day is a living picture of health, and your Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and to-day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities.

MACCABEE COLUMN.

Items and Notes of Interest to Members of that Order.

ANN ARBOR'S THREE FLOURISHING LODGES.

Arbor Tent With 412 Members, Johnson Tent With 48, and Arbor Hive, the Ladies Lodge, With 90.

ARBOR TENT, No. 296—Meets on every Friday evening at eight o'clock in their hall in the Post Office building.

JOHNSON TENT, No. 783—Meets on Wednesday evening at eight o'clock in their hall, No. 6 N. Main street.

ARBOR HIVE, No. 113—Meets on Tuesday evenings at 7:30 o'clock in the hall of Arbor Tent.

There were 927 tents in Michigan on May 31, with a total membership of 51,889.

Great Record Keeper Boynton was recently presented with a fine silver service by the D. G. C's.

The Saline Maccabees are getting up a celebration for the Fourth of July. Two bands have been engaged.

Twenty-six applicants for membership in Acme tent, of Saline, were examined by the tent physician last week.

Some of the Port Huron tents have adopted the plan of having essays, speeches, singing, etc., at the reviews, which makes them quite interesting.

The committee on arrangements for the Grand Rapids meeting are buzzing with all their might and expect the greatest swarm of bees that ever got together.

The July number of the Michigan Maccabee will contain a supplement with beautiful half-tone pictures printed on fine paper, showing a group of the executive officers of the Great Camp, and the exterior of the Maccabee Temple recently built in Port Huron, with interior views of the Supreme and Great Camp offices. It will be a work of art and will find a place in many a frame.

ARBOR TENT.

Assessment No. 50 is due July 15. There was one application at the last meeting.

The semi-annual pass word will be due in July.

The per capita tax and tent dues are due tomorrow, July 1.

Funds are being raised for a flag for the pole on Maccabee hill.

The Michigan Maccabee credits Arbor tent with 412 members on May 31.

Arbor tent and Venus tent are tie for third place, each having 412 members.

The question of an excursion to Grand Rapids is being quite freely discussed.

The "bee" editor has been too busy the past two weeks to write, hence the non-appearance of the Maccabee column.

Arbor tent will send in a proposition for an amendment to the by-laws to be acted upon at the coming Great Camp meeting.

The current number of the Michigan Maccabee speaks in very warm terms of this column, as well as reprinting considerable matter.

JOHNSON TENT.

Johnson tent was credited with 48 members on May 31.

Two new names were voted on at the Wednesday evening review.

There will be two or three initiations on next Wednesday evening.

Important business urges all members to be present at the next meeting.

ARBOR HIVE.

Per capita tax and hive dues are now due.

The next assessment is due and must be paid by July 15.

A goodly number of Ladies attend the sewing bee on each Friday afternoon, in the hall.

The applications for membership keep coming, there being another at the last meeting. Let the good work go on.

There will be no meeting of the hive next Tuesday, as the members will be too busy celebrating the 4th to attend meeting.
