## GOOD WATER COMING.

An Amicable and Satisfactory Settlement Being Reached.

RESERVOIRS TO BE THOROUGHLY CLEANED.

And a Large Well Thirty Feet Across to be Sunk by the Water Works Company.—A Spirit of Conciliation Prevails.

The meeting of the committee of the council and citizens appointed to confer with the water company and the water company held in the council room resulted very satisfactorily for the people of the city. A wise spirit of conciliation prevailed and the result will undoubtedly be seen in an immediate improvement in the water and in the obtaining of an ample supply later on. All the members of the committee but one were present and Messrs. Hamilton and T. F. Hutzler represented the water company.

It was decided to take up the recommendations of the water committee one at a time. The first recommendation, "that the company be required to draw off and entirely clean the reservoir, catch basins and pipes" gave rise to considerable discussion of the whole question of supply. It was admitted that the reservoir had never been cleaned but Mr. Hamilton said the pipes had been blown off last year. In reply to a question regarding the amount of water used by motors, Mr. Hamilton said that all the motors in printing offices, butcher shops and running fans, in fact all the motors were metered and that in the past 90 days they had used 8,300,000 gallons or considerable less than 100,000 gallons a day. Between two and three million more gallons of water had been used so far this month than last. He maintained that not over 500 gallons a day was lost from the reservoir. With both pumps 3,000,000 gallons a day could be pumped, the large pump having a capacity of 2,300,000. Some of the committee were inclined to believe that leaky valves had much to do with the increase in water consumption. Mr. Hutzler said that after a shower the consumption fell off 500,000 or 600,000 a day. Mr. Hamilton said that a garden hose allowed to run all day used more water than any motor, excepting that in a printing office. The scarcity of water was not caused by the motors. Ald. Martin said he paid \$125 for water and he knew there were people who paid only \$10 who used more water than he did. There was a wide difference of opinion between the committee as to whether more water is used in sprinkling now than formerly. Getting back to the question, the company requested the council to set apart two days for the cleaning of the reservoir during which the people were requested not to use their hose. The company would then pump direct in the pipes and pressure could be kept up. On motion of Ald. Manly the committee decided to recommend this to the council.

The second recommendation that the reservoir and catch basins be paved with cement and made water tight" was taken up. Mr. Hamilton said the present reservoir was made under the direction of Prof. Greene. The same question was discussed then. When cement lined reservoirs were made in this part of the county they invariably cracked and scaled off. The reservoir was lined with cobble stones on both the sides and bottom. Ald. Prettyman said the committee hadn't known that there were cobble stones on the bottom. The filth being so thick they had been unable to detect them. He thought that cement could be got which would not crack. Mr. Hamilton said that such a bottom would cost \$5,000 or \$10,000 and the company preferred to put that amount in a well. Col. Dean didn't favor a cement bottom. It didn't make a good bottom. It made the water hard and the fresh water pouring over on the smooth surface kept the sediment in motion and roiled the water. It was found by a reference to the water contract that the reservoir was paved as the contract directed.

After discussion it was decided that the council should appoint some one to see that the work was thoroughly done, the following resolution by Mr. Bullis being adopted. Resolved, That we recommend to the council that hereafter the reservoir be thoroughly cleaned by the water company in the months of

April and October of each year and that the reservoir be cleaned immediately under the supervision of the water committee of the council, or such other person as they may direct.

The recommendation regarding the cement bottom was laid on the table.

The third recommendation, that a roof be constructed over the reservoir, gave rise to some discussion and was laid on the table. Mr. Hamilton said it had been considered best to place a rockery in the reservoir and pump the water over it and thoroughly aerate it. Air was the best known purifier of water. It was shown that the water committee did not want the sides enclosed, but the committee finally agreed that they preferred to have the sun get at the water, and that the expense of roofing an acre would be almost too heavy. They wanted reptiles, toads and frogs kept out of the water, and means of doing this were good-naturedly discussed. The company showed a desire to comply with the wishes of the committee.

Now came the main recommendation, that the company be required to construct one or more large wells. Mr. Hamilton said the company was contemplating doing so. They were at a loss to know just where to put the well, but as soon as Prof. Greene got back would determine it and would put down a well thirty feet across during the coming winter. They could not do it now. After various questions, the committee expressed themselves as satisfied, and adjourned subject to the call of the president within one week after the reservoir had been cleaned.

During the meeting Mr. Hamilton presented an analysis of the water, made by Prof. Chute, of water taken from his hydrant July 19, indicating the absence of organic matter and nitrates and a good condition of the water.

President Watts' pertinent questions showed considerable study of the subject, and the various members of the committee showed a desire to do the best that could be done for the city, while being perfectly fair with the company. It is unnecessary to state that the meeting was highly successful.

### This Morning's Fire.

The fire department was called out this morning by a fire in the house on the corner of East University avenue and Hill street, occupied by Mrs. Nelson. A good run was made and the house was saved after \$400 or \$500 damage had been done. The fire broke out in an upper room and may have been started by the cleaning of carpets with turpentine. The furniture in the upper part of the house was badly damaged and the furniture in the lower part of the house was removed, somewhat damaged by the removal. The fire had a good start but the department succeeded in saving the greater part of the house.

### More Good Detective Work.

Deputy Sheriff Peterson has succeeded in recovering the property stolen from the club houses at Zuke Lake. In the latter part of November, 1891, the head of a deer which had been shot by Mrs. W. E. Walker, and which formed a fine ornament for the house of the Sporting Club, was stolen. Mr. Peterson recovered this, Monday, in the station of the D. & M. R. R. at Ovid, where it had been deposited for shipment in a box addressed to Mr. W. Y. Hicks, Pinckney, and marked "Glass; please handle with care." He brought the deer's head back to Hamburg, and on Tuesday morning, with Ed. Walker, M. Fritz and Chase Dow, went to Howell and swore out a warrant for Hicks' arrest. Peterson went to Pinckney in company with the sheriff of Livingston, and W. W. Watts, of the Keystone club, drove over to meet them. A search was made of Hicks' house, and a large quantity of silverware which had been stolen from the Keystone club house was recovered.

William Y. Hicks was the station agent at Hamburg. He is thirty years old, married, and had always borne a good reputation, his arrest coming as a great surprise to his neighbors. He was taken to the jail at Howell.

## JOLLY OLD UNCLE JOSH.

HIS GENEROSITY TOWARDS HIS NEWLY MARRIED NIECE.

A Realistic Romance of Ann Arbor, in Which a Number of Prominent Business Men Take a Very Conspicuous Part.

"Miss Somers—Polly—I—er—dare I—" But the speaker took a header over bashfulness, only to hear a sweet.

"Yes, Charley."

"Can I aspire to—er—to—that is—"

"Again a lapse into silence, followed by an encouraging:

"Yes, Charley."

"Oh, if I might only hope to—er—to—"

Another failure of language. It was seemingly a hopeless case, and might have been, only for a demure:

"Charley, I've said 'yes' twice, and if you mean it, I mean it too, and—"

And to this day that young man will insist that he popped the question.

All this happened away "down east," and it wasn't long before there was a wedding. Not much longer before there came a letter from Polly's Uncle Josh, out in Michigan, who wrote effusively of his delight at her exhibition of what he called "grit," and he proposed that if the young couple would locate at Ann Arbor he would start them up in life as a wedding gift. Of course they accepted, and bade their friends adieu.

A few weeks subsequent to the above conversation, a travel-stained party arrived at Ann Arbor. Our friend Uncle Josh was in charge, and he led the party straightway to a hotel. "The Germania Hotel," said he, "is a typical hotel of the best class. I have known W. L. Frank, the manager, for years, and he is mine host after my own heart. A thorough business man, he is endowed with that delightful intuition that makes a guest feel at home, comfortable, contented, and in mighty good luck, and the attendants polite and expert."

"Now, the basis for a home," remarked Uncle Josh, "is a bit of mother earth. We will first find the popular real estate dealer, A. W. Hamilton, who controls some very desirable property, both city and farm, besides representing some of the best fire and life insurance companies." A farm was soon selected, and Mr. Hamilton also sold them a neat house in Hamilton Park subdivision, where the Sigma Alpha Epsilon society of the University recently bought a couple of lots and are putting up a stone residence and club house, costing \$15,000.

"Having provided you with a cage for your bird," said Uncle Josh, "the first thing we'll look after will be the furnishings for it." Hereupon Polly energetically declared that she had heard so much about Koch & Henne that she desired to go there. The result was that they were ushered into such a bewildering display that the girl was at first at a loss how to select. But she soon yielded to the seductiveness of a magnificent parlor suite, a bedroom set in oak (antique finish) that would have done credit to old Antiquity herself. To this she added a fine Brussels carpet for the parlor, and Lowells for the other rooms, besides draperies and lace curtains to match the other beautiful furnishings.

"A pretty good start," said the old man, "and now we'll go to Schuh & Muehlig's hardware store." Here Polly's house-wifely instincts had full play in marvels of kitchen apparatus. There is not an establishment in Ann Arbor that carries a more comprehensive stock of household furnishings. Every possible piece of kitchen furniture, from a tin dipper to a cooking range is here in all styles and variety. If Polly fails to accomplish wonders in the culinary art, it will not be the fault of superior cooking utensils, for she purchased a Quick-Meal gasoline stove for summer use, a Garland cook, and Charles got one of the celebrated Carton combined hot water and hot air heaters for the new house, besides a couple of mantels and grates, for, said he, a fireplace is always pleasant and the large stock of Schuh & Muehlig contains an endless variety of mantels to select from.

"Let's see—I promised you a gold watch, didn't I?" queried Uncle Josh of Polly. "The place of all places in town is William Arnold's,

so we'll go there." Entering the popular jewelry store, the old man gallantly acquitted himself of his promise and then directed Polly's attention to the superior stock of silverware carried by this house. "There is no other such house in Ann Arbor," said the old man, "and I guarantee the quality to be the very best. Pick out your family clock while here," he added, "Mr. Arnold carries a magnificent line, besides an endless variety of jewelry and silverware."

"By the way," remarked Uncle Josh, as they reached the street, "I must run over to the Farmers' & Mechanics' Bank, and get another check book. Come with me and I will introduce you to Mr. Belser, cashier, for of course you will do business with him, as it is always pleasanter to be personally acquainted with the men you do business with. This bank is as solid as the base of the universe and depositors need have no fears these panicky times of not getting their money when they call for it. You will find them ever ready to extend any accommodation compatible with business principles. It is an institution of which the people of Ann Arbor are justly proud.

At this point uncle Josh suggested laying in a supply of groceries and provisions. "Never neglect your larder," said he, "that important adjunct of housekeeping controls masculine temper. To that end you must patronize a grocer on whom you can depend for honest goods. Through a long term of years I have found Rinsey & Seabolt perfectly reliable. You will find them careful dealers, always full stocked with every possible thing in the line of staple and fancy groceries, fresh and first-class—no shelf worn goods there—while the prices are down to brass tacks. Be sure and take what eggs you may have to sell to Rinsey & Seabolt."

"By the way, Uncle," exclaimed Polly, "where can I go for dry goods? This dress of mine is hardly suitable I must admit." "Well, my girl, if you want to select from one of the most extensively stocked establishments in the city, I will direct you to Schairer & Millen, who carry a line of dress goods that for variety and real value, is seldom seen outside the largest metropolitan cities. They carry all the latest things in summer silks, parasols and laces. You will find them pleasant to deal with and their employes polite and expert, while their place cannot be duplicated." Uncle Josh then called Polly's attention to their extensive cloak department, the finest in the city.

While looking over the University buildings, Uncle Josh complained of a headache, and so they repaired to the E. E. Calkins' drug store, at 34 S. State St., where the obliging attendant soon produced a sedative that relieved him. This establishment carries a line of Kodaks that amused the party greatly, because of several snap shots taken of a phenomenal baby at play opposite on the campus. Uncle Josh told them to have their prescriptions filled here as it would be done accurately and they wouldn't have to pay fancy prices either, besides none but the purest of drugs would be used.

Near by, the trio stopped in at the book bindery of Fred J. Schleele, where Uncle Josh recommended Charles to lay in a stock of account books, besides what paper and envelopes they would need for a year, "for," said he, "you can get 166 sheets of paper, letter size, for a quarter." Mr. Schleele makes a specialty of fountain pens, including the celebrated John Holland make. He binds magazines at half price during the present dull season and always carries a full line of students' note books and general stationery.

"Every house," said Uncle Josh, "should be supplied with a good bath. None is so handy and economical as Knowlton's Universal Bath. Let's walk over to 24 North State street, and visit Mr. E. J. Knowlton, whose baths are sold from Maine to California, receiving the highest award at the Centennial in Philadelphia in 1876, in competition with the world." They found the veteran inventor at home, in his usual good spirits, and ordered one of the best, which cost about half the price of the clumsy old-fashioned copper tubs, and can be used without taking up an entire room when not in service, and are neater and more convenient than a stationary tub.

They then took a street car for down town, and landed at the shoe store of Wahr & Miller, 48 South

COUNTY AND VICINITY.

German Day, August 24, will be celebrated at Saline this year.

Luther Palmer is rebuilding his dam on the Huron river at Dexter.

Manchester has a farmer who sports a brilliant diamond in his shirt front.

Huckleberries on the marshes around Chelsea, it is said, will be numerous.

W. F. Riemenschneider, of Chelsea, is building a cottage at Cavanaugh Lake.

Saline is getting up with the times. The council has built a heavy cement crosswalk.

Dexter is so proud of its new clerk that the Dexter Leader takes a column to talk about it.

Chicken thieves made havoc in Charles Carpenter's chicken house at Birkett, a few nights since.

Flower thieves have been desecrating the Manchester cemetery by stealing flowers and plants.

The wind in Sharon recently unroofed William Kulenkamp's barn and tore up a number of trees.

The colored people of Ypsilanti are making great preparations for the celebration of Emancipation Day, August 1st.

Poles have been placed on the Ann Arbor and Dexter road for the long distance telephone between Detroit and Kalamazoo.

Albert S. Hayden has been appointed treasurer of York to take the place of Joseph Gauntlett, who resigned to take the postmastership.

The Manchester brewery team recently made things lively by running away and smashing the wagon, dumping out the driver and the beer.

John Peer, of South Lyon, was injured in the hay field last Wednesday by being thrown from his wagon, breaking his wrist and dislocating his shoulder.

Mrs. W. H. Henion died in Manchester, July 12, aged thirty-six years. She was a most estimable lady and leaves a husband and several small children.

Chelsea young men take such pride in their fast horses and in taking nobody's dust that it has been found necessary to call their attention to the ordinance against fast driving.

Grass Lake has a society called the "Busy Fairies."—Chelsea Herald. We would like to see them.—Manchester Enterprise. If they allowed idlers around they would soon have to change their name.

James Abrams, a well to do farmer living near Brighton, committed suicide last week by shooting himself, while deranged. His death was instantaneous. He was fifty years old, and was worth \$20,000.

The Spring Arbor farmers' club is wrestling with the question, "How and when to dispose of a fortune?" If anybody hereabouts is going down with cramps over this query, we would say to them: First get your fortune; get it all in money if you can; then come around and see us.—Grass Lake News.

The Chelsea schools last year cost \$8,682.89, including \$3,220.38 for bonds and interest. The amount paid for teacher's salaries was \$3,670. The direct tax levy this year is \$5,800, or \$700 less than last year. There is only \$2,100 needed next year to pay up the indebtedness and interest.

The Manchester Enterprise, to show how healthy Manchester is says: "Among the old gentlemen of the village and township are Andrew Bailey, aged 86; Elijah Carr, 84; Fred Valentine, 83; Lorenzo Coon, 82; Wm. Baxter, 82; James Hendershot, 81; E. M. Tracy, 83; John Smally, 88; A. S. Perry, 83; Thomas Green, 86; and Charles Clark, 83.

Blessed with unusual graces of person and weighted down with amiability, we sent in our application for membership to the society of "Busy Fairies." We were blackballed on the ground of onion eating and habitual carelessness in our tout-ensemble. Thus is another blow struck at American liberty, and unless the masses rise in their might and put down such intolerance, our beloved country is doomed to destruction.—Grass Lake News.

A good story is told of a young girl in a neighboring town who recently found a lot of letters written by her father to her mother before they were married. The daughter read them to her mother, pretending they were of recent date, and substituting her own name for that of her mother, and the name of a young man well known to both of them, for her father's. The mother is very much disgusted, and has forbidden her daughter to have anything to do with a young man who would write such nonsense and sickening stuff.—Dexter News.

On Sunday morning about five o'clock two freights tried the old scheme of trying to pass on the same track, and made a very bad failure of it. The orders had been to pass at Milan, but were changed to pass here. The train from the

west was slowing down to go on the siding; the engineer of the west bound train got his orders mixed in some way, and was pulling right through for Milan. They met between the Whittaker and Fuller crossings, smashing both engines and six or seven cars, strewn the ground with salt, vinegar, tobacco, etc. The crews saved themselves by jumping. The wreck was cleared away so that trains were running again by four o'clock. A large crowd from the country round about were here to view the wreck.—Whittaker Correspondence.

Jonas Marsh, of Delhi Mills, was in Dexter, Monday, with his old-time hustle and push, notwithstanding his eighty-two years of life. The old gentleman was halted in his hurry long enough to recite the scenes of nearly sixty years ago, when, a young man of twenty-three, he feasted his eyes on the wild deer, turkey, etc., of this then wooded country. He also spent time in a hurried way to express regret that he didn't see his chances for speculating in land around that old log hotel that stood nearly opposite where the court house now stands in Ann Arbor. With all his desire to keep things moving, he was spell-bound for a few minutes over memories of the past, but said, as he made a lunge for his buggy, and his face lit up with a smile. "Say, I'll come again, and we'll have some fun talking over these things."

A couple of amusing cases of absent-mindedness came under our notice this week, in which the laugh was placed upon a couple of well known men in great shape. In the first a good-natured citizen whose prominent characteristics are his love for smoking and his keen appreciation of a joke, missed his pipe. Of course he at once thought that some of the boys had appropriated it, and he promptly demanded it. He was considerably mystified at the hearty laugh that arose, but was speedily enlightened by some one remarking, "By, your pipe is in your mouth." But this is hardly "in it" with the story told on the good old Baptist brother who came into town early Sunday morning to do some trading, and did not find out what day of the week it was until he had sold his produce and gone for his mail. A bad Case of forgetfulness, sure.—Dexter News.

The unprecedented cyclone of April 12 last, which swept with devastating results the picturesque and progressive city of Ypsilanti, razed to the ground a portion of the handsome hotel property known as the Hawkins. The property was then

as it always has been, the leading hotel of the city and one of the leading hotels of southern Michigan. To-day the enterprising proprietor of the property, Mr. A. L. Nowlan, is far advanced in the work of rebuilding and reappointing the structure. The new Hawkins will be in every way a better property than its predecessor, and will be the peer of any western hotel of its proportions. It will be a three-story, fireproof structure, steam heated, electric lighted, with perfect sanitary appointments. It will contain 76 rooms, single and en suite, and have the finest bathrooms, barber shop and bar outside of the city of Detroit. The dining hall will have the same style of tile flooring with all other apartments on the ground floor. The interior of the lower floor will be done in steel paneling. It is expected all repairs will be done in 60 days.—Detroit News.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

If you intend buying a piano, we want to say just eight words to you—WE WILL Save You Money on a Piano. This means something when we say it and we will add—Now is the Time to BUY. Trade in all lines is dull. Money is scarce, and a little money goes a long way.

About 40 Rented Pianos

Will be brought in for the summer this week. Some are good as new, having been used but a few months, others (three or four years) will go at prices which will astonish you.

EVERY PIANO

Will be thoroughly tuned, action regulated and repolished and will be warranted, same as new.

RIGHT HERE WE WANT TO SAY

A certain competitor is offering a piano for which we are state agents at a price absurdly low and at which it is known it cannot be furnished. Such conduct is beneath the dignity of responsible dealers who are above misrepresentation and falsehood. Parties making such statements simply misrepresent facts and have no intention of making such offers good. A state agency for a reliable piano carries with it reasonable business protection which every legitimate manufacturer invariably gives to those agents who sell his piano. We sell the pianos we represent on their merits regardless of those sold by others, or misleading statements made by them. Dealers having a reputation usually do the same. Others could follow this method to advantage.

# NEVER A FAILURE.

The Red River Valley of Minnesota and North Dakota has never had a failure of crops. It produced 30,000,000 bushels of wheat besides other cereals in 1890. Farms can be had on the crop plan, or long time cash payments. It is not an uncommon thing to pay for a farm from the proceeds of one crop. It has all of the advantages of an old country in the shape of school, church, market, postal & railway facilities and all the chances of a new country in the way of cheap lands, rich soil, and increase in values. It is one of the most fertile and promising regions in America not yet fully occupied. In the rush to the far west, however, this rich valley has been over-looked. It has room for a million more people. Write to F. I. WHITNEY, St. Paul, Minn for particulars. Publications sent free.

## It isn't the usual way—it's just the reverse—

to pay a patient when you can't cure him. Nevertheless, that's what's done by the proprietors of Dr. Sage's Catarrh Remedy. They promise to pay you \$300 if they can't cure your catarrh, no matter how bad the case. It isn't mere talk—it's business. You can satisfy yourself of it, if you're interested. And you ought to be, if you have catarrh. It's faith in their medicine that's behind the offer. It has cured thousands of the worst cases, where everything else failed. You can be cured, too. If you can't, you get the money. They're willing to take the risk—you ought to be glad to take the medicine. It's the cheapest medicine you can buy, because it's guaranteed to give satisfaction, or your money is returned. You only pay for the good you get. Can you ask more? That's the peculiar plan all Dr. Pierce's medicines are sold on.

## SURROUNDED BY MYSTERY! A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system, and it has been seen by the accompanying cut. The little white lines are the nerves which convey the nerve force from the nerve centers to every part of the body, just as the electric current is conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the part affected. Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the subject, long since realized the truth of the first statement, and his Restorative Nerve is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove. Dr. Miles' Restorative Nerve is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. Restorative Nerve positively contains no opiates or dangerous drugs. Sold by Druggists Everywhere.

They promise to pay you \$300 if they can't cure your catarrh, no matter how bad the case. It isn't mere talk—it's business. You can satisfy yourself of it, if you're interested. And you ought to be, if you have catarrh. It's faith in their medicine that's behind the offer.

The Ann Arbor Argus.

BEAKES & CURTISS, PROPRIETORS. TERMS.—\$1.00 PER YEAR IN ADVANCE. OFFICIAL PAPER OF THE CITY. Entered at the Post-Office, in Ann Arbor, Mich. as second-class matter.

FRIDAY, JULY 21, 1893.

Third Ward Caucus.

The Democrats of the third ward will meet in the basement of the Court House, on Monday evening, July 24, at 7:30 o'clock, local time, to nominate a candidate for alderman to fill vacancy.

W. H. MCINTYRE, Chairman Ward Committee.

To the Electors of the Third Ward of the City of Ann Arbor.

Notice is hereby given that a session of the board of registration of the third ward of the city of Ann Arbor, will be held in the basement of the court house, in said city, on Wednesday, July 26, A. D. 1893, for the purpose of registering the names of new electors in said ward in said city, who may apply for that purpose, and that said board of registration will be in session on the day and at the place aforesaid, from eight o'clock in the forenoon to eight o'clock in the afternoon, for the purpose aforesaid.

Dated, July 5th, 1893. JAMES KEARNS, WILLIAM G. SNOW, Board of Registration.

Third Ward.—Special Election Notice.

Notice is hereby given that a special election will be held on Monday, July 31st, 1893, in the Third Ward of the City of Ann Arbor, for the election of an Alderman to fill vacancy caused by the death of Alderman Ariel H. Fillmore. Said election will be held in the basement of the Court House.

By order of the Common Council. Dated July 7th, 1893. W. J. MILLER, City Clerk.

Miss Emma Bower, the talented editor of the Ann Arbor Democrat, is, we understand, a candidate for great record keeper of the Lady Maccabees of the state, and we sincerely hope that her candidacy will be crowned with success.

The city and the water works company are both to be congratulated on the outcome of the meeting last night. With a thorough cleaning out of the reservoir and pipes, water will be obtained, fresh, pure, clean and wholesome.

The Ann Arbor Courier is blindly partisan. We feel it our duty to point out this grave fault in our otherwise able and highly esteemed contemporary, that it may mend the error of its ways.

Royal Baking Powder is shown by chemical tests absolutely pure and 27 per cent. greater in strength than any other. Many second-class brands of baking powder are urged upon consumers at the price of the high-cost, first-class Royal. These powders, because of the inferior quality of their ingredients, cost much less than the Royal, besides being 27 per cent. less strength. If they are forced upon you, see that you are charged a correspondingly lower price for them.

THE WATER WORKS PROBLEM.

The water works question will prove a troublesome one to settle. There is a general and widespread demand among the people for a great improvement in the water service. This improvement does not consist in an extension of the water mains, which is the way in which the company has been making improvements in the past, but in the improvement of the quality of the water furnished and an accumulation of a surplus of water in the reservoir to keep up a steady fire pressure and to be prepared for the conflagrations which may at any time visit the city.

The water committee of the council, Monday night, as will be seen by a glance at the council proceedings, prefers a stinging indictment against the company and especially against its superintendent. Such a report should not have been made unless it was the intention of the committee and the council to follow it up.

It is a grave problem which confronts the people. What shall be done to improve the water system? It will not do for the superintendent of the water company to deny that any cause for dissatisfaction exists. Part of the indictment may be unfounded, part of the recommendations may be faulty, but the truth remains that there is need of improvements in the waterworks system, and that as at present run, there is not an adequate supply of water, and proper care is not taken of the water at the receiving basins and reservoir.

As the Argus has previously hinted, there are members of the company who wish to remedy the existing condition of affairs. Let us hope that they may be allowed to do so. Hundreds of people write "it is impossible to describe the good Hood's Sarsaparilla has done me." It will be of equal help to you.

citizens. But at the same time the city can not afford to palter with that which affects the health or safety of its citizens.

As a matter of fact, the city should own its waterworks system. The public servants, directly amenable to the people, would then be compelled to see that good service was secured. Public ownership may be, after all, the only lasting solution of the problem.

There was a time when the water supply was sufficient and when the quality of it was excellent. We cannot conceive why the change in condition. Can the company be pumping as much water as it formerly did? Are the pumps doing as effective work and is there not a tendency to economize too much in fuel? Does the superintendent see that the reservoir, basins and pipes are kept clean and are the sources of supply pure? These are some of the questions which must arise in candid minds.

It is said that the amount of water used has greatly increased but has it? Meters have been placed on the motors, which have caused the Backus motors to be replaced by Pelton motors, which use much less water and the consumers have naturally been using less water paid for by the 1000 gallons than when paid for by the year. People do not play with their hose as they formerly did. The novelty has worn off. It takes too much time and it is now too much like work. To a man up a tree, who uses his eyes, it would seem that there cannot now be more water used than formerly. The Argus makes these few reflections because it believes that the company can, if it will, remedy the condition of affairs which now exists. It will not remedy the evil to make attacks on individual members of the council. That only looks as if the company thought that they owned votes in the council, because some of the aldermen owed water bills. If they do, they deserve more credit for standing up for what they believe to be the city's rights.

As the Argus has previously hinted, there are members of the company who wish to remedy the existing condition of affairs. Let us hope that they may be allowed to do so.

Hundreds of people write "it is impossible to describe the good Hood's Sarsaparilla has done me." It will be of equal help to you.

Mr. Duffy is well qualified to undertake the task and the military boys will find themselves well provided for.

Deputy-Sheriff Brenner last evening arrested Mary Beach, a woman fifty-seven years old, from Fremont, Ohio, for drunkenness. She had been insulting people on Main street. When arrested, she laid down. An omnibus was called. She struck at the officers and when put in jail again assaulted them. She was a woman with one hand and although last night she heard perfectly, this morning she pretended to be deaf. Justice Bennett this morning gave her five days in the Detroit House of Correction.

According to the supervisors returns filed in the county clerks office, Freedom had more births last year than had the city of Ypsilanti. Thirty-seven births were reported from Freedom and only thirty-six from Ypsilanti. Only two births were reported in the second district of Ypsilanti composed of the fourth and fifth wards, from which a big return might have been expected and these two births were twins. The only explanation that can be given for the above state of facts is that the birth returns are worthless because incomplete.

### Killed by a Falling Safe.

One of the most distressing and fatal accidents in the history of Dexter occurred on Main street about four o'clock last Saturday afternoon, resulting in the death of one of our best known and most estimable business men, John H. Murdock.

Harris Ball and his son, Joe, were, with the aid of iron bars, moving their fire-proof safe, the weight of which is about 2,000 pounds, from the postoffice to the Beal building. In this work they were being assisted by a number of citizens. When the safe had reached Mr. Murdock's store he came out upon the walk and in the largeness of his heart proposed that all take hold and assist in the work. Suiting his words he took hold of the safe on the side toward the buildings, and in company with several others, pushed it until it had nearly reached the Beal building, when without an instant's warning the walk broke through, precipitating the safe into an unused cellar-way, and carrying Mr. Murdock with it. The others miraculously escaped by jumping.

He was caught between a broken plank against which the safe fell and the cellar wall, and held there by tremendous pressure. Willing hands soon released him, and he was laid upon the sidewalk unconscious. Drs. Lee and Honey were at once summoned and the injured man carried to L. L. James' drug store, where an examination was made, and he was found to be crushed through the abdomen and two ribs broken, besides several bruises on his head.

Everything that could be was done for the sufferer, but to no avail. He regained consciousness but a few moments, death taking place in about an hour after the accident, probably from internal hemorrhage.

John H. Murdock was born in White Pigeon, Mich., September 24, 1846. While still an infant his parents removed to Dexter, where the remainder of his life was spent. —Dexter News.

Absent—Ald. Wagner, Herz, O'Mara, Taylor—4.  
The journal of the last session was approved.

**PETITIONS AND COMMUNICATIONS.**

To the Common Council of the City of Ann Arbor:

**GENTLEMEN:** I would respectfully ask leave of your Honorable Body to erect a barn on lot number 10, block 3 north, range 4 east. Said lot is on North Fourth avenue, between Catherine and Beakes streets.

M. J. MARTIN.  
Dated July 10, 1893.

Referred to Fire Department Committee.

A petition signed by John Young and other residents and property holders of the city of Ann Arbor, asking that a sidewalk be ordered built on the east and west sides of Mary street, from Packard to Edwin streets.

Referred to Sidewalk Committee.

**REPORTS OF STANDING COMMITTEES.**

To the Common Council:

Your Committee, to whom was referred your resolution directing an investigation of the water supply for the city as affecting domestic consumption, beg leave to report that on the 7th day of July your Committee visited the Water Company's pumping station and reservoir, and found that while the supply of water from the Company's wells seemed fairly ample and of good quality for domestic use, the pumping machinery was out of repair, and at the time not of sufficient strength to supply the city. We also found the Company to be practically out of a supply of fuel for pumping purposes. The wells, or supply seemed to your Committee to be on the decline and not as strong as one year ago, and your Committee were strongly impressed with the opinion that other wells or larger wells would have to be constructed in the near future, or a supply from some other sources be obtained, or the Company would have to discontinue the supply of water for mechanical purposes.

Your Committee next directed their attention to the river at the point of the Company's connections, and found the water wholly unfit for domestic purposes. It is but fair to the Company to state, in this connection, that the Company make a strong denial of making use of the river for any purpose.

Your Committee also visited the reservoir and catch basins, and found a condition which we can only designate as a disgrace both to the Company and its managers. These catch basins and the reservoir can be said to be mud-holes only. No person having a decent regard for his health would think of staying near their stinking influences, much less drinking from these seeming impurities. What will remedy this unwholesome condition your Committee is at a loss in a measure to suggest.

Your Committee feel that the managers of the Water Company ought to be severely censured, in these particulars:

- 1st. For permitting the fuel supply to become exhausted.
- 2nd. For their negligence in prosecuting the repairs to the pumping machinery.
- 3rd. For selling water in large quantities, at this season of the year, for mechanical purposes (motors, fans, and elevators), to the injury of their private consumers and to the detriment of the fire protection of the city, endangering the property of all the people.
- 4th. For their repeated failure and refusal to draw off the water pipes and reservoir when ordered by the Common Council, thereby assuring cleanliness where now is filth, and constantly exposing and jeopardizing the health of all the people.
- 5th. For being almost criminally negligent in protecting the water and allowing it several times during the past year to become contaminated with petroleum, forming a nasty combination that our citizens were obliged to use for several days at a time.

Your Committee would recommend that the Water Company be required to draw off and entirely clean the reservoir, catch basins, and pipes; that the reservoir and catch basins be thoroughly and newly paved with cement, and made water tight; that such pavement be extended over the bottom, as well as the sides; that a roof be constructed over the basins and reservoir, so that the water shall at all times be shaded from the sun's rays; and that the Company be required to proceed without delay to construct one or more large wells, say 30 feet in diameter, 60 to 70 feet deep, from which your Committee feel assured that an ample supply of pure water will be obtained.

Your Committee further recommend that a special committee of five members of this Council, with the President as chairman, be appointed, and instructed to confer and negotiate with the Water Company relative to these suggestions; and unless the suggestions herein made be accepted, or other suitable solution or problem undertaken by the Water Company forthwith, then such special committee do consider the advisability of the city's purchasing the Water Company's plant, if it can be had at a reasonable sum, and if not, then the propriety of the city's undertaking to build and construct a system of water works for fire protection and domestic use, on its own account, or of granting a franchise for that purpose to some other responsible company, or such other method as the said special committee shall deem most advisable for a more efficient supply for fire protection, and water possessed of greater purity for domestic purposes.

All of which is respectfully submitted.

A. P. FERGUSON,  
CHRISTIAN MARTIN,  
C. H. MANLY,  
Water Committee.

Ald. Prettyman moved that the report be and the same is hereby approved and confirmed.

Adopted by unanimous vote.

Ald. Ferguson asked for a report of the Sidewalk Committee on crosswalk referred to them at the junction of Fourth Ave., and Detroit street.

Ald. Martin moved that Sidewalk Committee be allowed further time to report. Adopted.

**MOTIONS AND RESOLUTIONS.**

By Ald. Schairer.  
Resolved, That the Board of Public Works be requested to submit to this Council an estimate of the cost of grading and filling in Mary street from Packard to Edwin streets, also to submit a proper grade for said street, at the next regular council meeting.

Adopted.

By Alderman Ferguson:  
Whereas, The water pipes are believed to be in such condition as to render them not of the best use for fire protection.

Therefore resolved, That the Ann Arbor Water Co. is hereby ordered to blow off and clean all the mains in the city, under the supervision of the Chief of the Fire Department, within ten days from this date.

Adopted.

Ald. Prettyman moved that a committee of four citizens be appointed by the chair to act in conjunction with a special committee of the Council on Ann Arbor's water supply.

Adopted.

President Watts appointed the following committee: Ald's Ferguson, Martin, Manly, Prettyman, Col. H. S. Dean, George W. Bullis, John Heinzman and Robert Shannon.

Ald. Manly moved that a warrant of \$5.00 be ordered drawn in favor of Mrs. Ann Evans, as aid for the month of June.

Adopted as follows:

Yeas—Ald's Schairer, Martin, Snow, Ferguson, Manly, Prettyman, Kitson, President Watts—8.  
Nays—None.

On motion the Council adjourned.

**A New Certain Cure for Piles.**  
We do not intend to endorse any except articles of genuine merit; we therefore, take pleasure in recommending to sufferers from Piles in any form, a prompt and permanent cure. The following letters speak for themselves.

Mrs. Mary C. Tyler, of Heppner, Ore., writes: One pkg. of Pyramid Pile Cure entirely cured me of piles from which I have suffered for years, and I have never had the slightest return of them since.

Mr. O'Brien, Rock Bluffs, Neb., says: The pkg. of Pyramid Pile Cure entirely removed every trace of itching piles, I cannot thank you enough for it.

The Pyramid Pile Cure is a new, certain, painless cure for every form of piles. It is safe, sure and cheap. Any druggist will get it for you in you ask him.

**A REMARKABLE CURE.**  
MESSRS. FOLEY & CO., Chicago.  
**GENTLEMEN:**—I had a scrofulous taint of the blood from childhood. An ulcer began on the side of the nose, having all the appearance of a most malignant cancer, became about the size of a silver dollar and ended a thin, offensive matter. The agony of mind I suffered cannot be described as I contemplated the progress of the disease.

I was induced to try the Clinic Sarsaparilla; it appeared to neutralize the poison in the blood, the ulcer ceased. The diseased tissues in the bottom and edges of the sore seemed to loosen and the natural flesh to take its place. Thus the cure continued until an even surface remained. No part of the disease remains.

**SUFFERED 27 YEARS.**  
Mr. G. A. Stillson, a merchant of Tampico, Ill., writes, August 10th, 1891:

MESSRS. FOLEY & CO., Chicago.  
**GENTLEMEN:**—Your Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself, am able to testify to its merits. The agony of mind I suffered cannot be described as I contemplated the progress of the disease. I had suffered twenty-seven years with the disease, and to-day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities.

HURT BY DEPRESSION IN TRADE. NEGAUNEE, July 15.—The Schleisinger syndicate, the largest ore operators in the world, are in difficulty owing to the depression in the trade.

Attachments aggregating \$32,800 have been placed on the property of the Buffalo Mining company. The largest claim is \$24,000, held by the Chicago & Northwestern Railway company for freight on ore shipped.

Ferdinand Schleisinger, president of the Buffalo Mining company, frankly admitted the embarrassment of the Buffalo company, but stated that if given several days to turn around in he can square everything, and the indications are that he can do so.

Schleisinger began operations four years ago and has cut a large figure in the iron trade. He was embarrassed ten years ago, but sold the Escanaba, Iron Mountain & Western railway to the Chicago & Northwestern railway and pulled out of difficulties.

The Ypsilanti says "The highly Morrill Twins" have closed their engagement in Ypsilanti. It is apparent that the Ypsilantian editor is still unregenerate, for he adds: Many are wondering how those unique showmen ever procured a letter of endorsement from the eminent Chicago divine, Dr. Henson.

Geo. C. Smith, one of the proprietors of the Ypsilantian, has retired and Mr. Osband will strive, in and of his own main strength to convince the world that the tariff is not a tax. If any man can, he can. Mr. Smith will now borrow a hammer and cold chisel and try to chip the last letter of his name, after which he will engage in some active business.

H. Ball, postmaster at Dexter, takes a last look at the old familiar P. O., and sings in the key of H. B. minor:—

If you receive a telegram, study carefully and be sure it was meant for you. Wm. Kersey, of Ypsilanti, colored, Wednesday last week, received a Detroit message announcing the serious illness of his wife. Now William wasn't married, but he knew a "colored gal" in Detroit, to whom he should have been married as attested by their seven-year-old daughter. But when he called at the house his "wife" was "in good health thanks!" and she seized a razor and cut his throat with cheerfulness and celerity. With great loss of blood Kersey got home to Ypsilanti. The telegram that so nearly severed his windpipe, was intended for another Bill Kersey.

A lurid poster, of the most pyrotechnic hue, has been received by mail, announcing the "Original poems of Ernest Fenwick Johnstone, L. L. M., University of Michigan." How it came through without scorching the mail bags, we do not understand, for it is incandescent with the fervid utterances of the author, advertising his book of poems. Concerning them, he says: "In some imagination speaks. In some the truth is plainly told. In all, the humble author seeks to moral sentiments unfold." Among his works "Lorame" is a tale of love, sorrow and happiness, covering seventeen pages, in speaking of which the author makes the claim that it "will satisfy the most romantic maid in Ypsilanti." Perhaps it will, but we wouldn't be in Johnstone's shoes, face to face with the "romantic maid of Ypsi," when she reads that "it can not fail to please

"The dreary, fair romantic maid, Who wanders by the rippling stream." "Dreamy" was the word the author endeavored to express, but the "giasticutus" who set up the type made a "dreary" job of it, and one which the poet will find hard to explain to the "romantic maid of Ypsi." Johnstone is but 25 years old but he's "a thoroughbred."

JOLLY OLD UNCLE JOSH.

(Continued from first page.)

Main street. "Oh," said Polly, "what a perfectly lovely slipper that is in the show window." "Yes," said Uncle Josh, "their stock can't be equalled in style and extent in this section; come in and look it over." It might have been policy not to have extended that invitation, had not Uncle Josh known how wise economy it is to trade at Wahr & Miller's, for Polly found goods and prices so seductive that she purchased an outfit from a satin slipper to a handsome walking boot. Charles invested in a gent's fine shoe, while Uncle Josh indulged in a stout farm boot. No one needing footwear can resist the styles and prices of Wahr & Miller. They carry a magnificent line.

"As you are going to farming," remarked Uncle Josh, "you'll need harness. The boss horse milliner in this section is Fred Theurer, at 12 West Liberty street. He employs only first-class workmen, and gives personal supervision to the minutest detail of manufacture. There is nothing in his line that cannot be had of him—heavy and light, single and double, plain and fancy, work and buggy harness, he has all of them in stock, whips, robes, etc."

"Now," cried the old gentleman, "let's go to the photograph gallery of A. W. Corlis, No. 6 Huron street, up stairs, and look over some of his elegant view and portrait work, and get a picture of this crowd in good old country fashion." I wantone full-sized photo for my study and some small ones for my friends. Mr. Corlis is famous for successful enlarging, and I want to give you a life-sized representation of 'yours truly'. Mr. Corlis has the soul of a true artist. All his work is a labor of love, in which he will not stop short of perfection."

"And now, Polly, there is one thing about which I want your advice. I notice the extensive electric marble works of John Baumgardner, at No. 6 Detroit street. He is one of the most enterprising business men in Ann Arbor. He has just introduced an electric polisher, which enables him to buy the marble and granite in the rough and finish it here, saving 20 per cent. to customers over small yards who buy their work finished ready for lettering. Let's go in here and look about, and I have decided to take this occasion to perform a duty long delayed and buy a monument to the memory of your Aunt Betsey, than whom a better woman never lived. It is better to go to the office and buy direct, and not only save commissions paid to traveling men of 20 to 25 per cent, but I am told it is a pleasure to deal with Mr. Baumgardner personally. Then there is the further advantage of examining the various designs." To this Polly readily assented, and they selected one of the old standard style of Scotch granite spiral monuments and left suitable orders for the inscription to the memory of one dear to their hearts. There was a large stock of the new style square work, in all grades of stone; but Uncle Josh is an old-fashioned man and chose one of the old fashioned kind, and Polly agreed with him.

"As you are going farming you'll do well to meet K. J. Rogers, the well-known dealer in farm tools, and you will need a complete outfit of utensils for the farm. K. J. Rogers' line of farm tools, embracing the Wiard and Bissell plow, Planet Jr. cultivators, riding cultivators, Farmer's Friend grain drills, and also the celebrated Perfection pumps, best of the kind for pumping water. Rogers also keeps the largest line and best assortment of seeds in bulk, field, garden and flower, and I need not say this is the best place in the county to buy these goods. And as salt is a saver, I will just add that lump salt is kept here and can be bought at the lowest rate. Do not fail to remember to buy your goods of Rogers."

The little party strolled up town and visited the music stores, but it was at the Ann Arbor Organ Co.'s Polly found most to interest her. In her old home she had used an Ann Arbor Organ, and naturally had a desire to visit the factory where it was made, which they did. Upon passing to the ware-rooms a magnificent assortment of pianos, organs, musical instruments, and sheet music was seen, including the well-known Mehlin piano, and the Baumuller piano. Polly was an expert and tried several, but finally selected a fine Mehlin upright as the best of all. Uncle Josh was delighted with her choice, assuring her that whatever Mr. Clement represented could be entirely relied on.

Charles now proposed a drive out to the place Uncle Josh had bought them. And the party ordered a rig from J. A. Polhemus, the livery man. "You see," said Uncle Josh, "Mr. Polhemus keeps only first-class turnouts, and I can always get better service there than at any other stable. Remember, Charles, when you are located on the farm and come to town, put up at these sta-

bles and rest assured your team will be well taken care of, while charges will be very reasonable."

En route to their home the gentlemen called at the Argus office. "You'll want the news every week," said Uncle Josh, "and as this is the favorite paper here, I'll subscribe for it."

Upon rejoining, Polly began to volubly express her thanks. "You have bought us everything," she exclaimed.

"Only one thing," remarked Uncle Josh, reflectively, "but I can remedy that. Koch & Henne always have a nice line of them, and you can get one whenever you want it; I'll pay for the best."

"W-h-y," exclaimed Polly, with great curiosity, "whatever is it?" "Well, it's a baby cab, and—"

But Polly had fainted.

BITS OF INFORMATION.

An Interesting Batch of News from Points in Michigan.

The fair at Howard City will be held from September 12 to 15.

A \$30,000 hotel is to be built by Chicago capitalists at Sand Lake.

Osen Betts, a farmer living near Hillsdale, committed suicide by hanging.

Conrad Kiel dropped dead from sunstroke while working in a hay field near La Salle.

A falling timber in the Chapin mine, at Iron Mountain, instantly killed Capt. Fred Ennis.

Otis Fuller, of St. Johns, has been appointed warden of the state house of correction.

Farmers of Cheboygan county realized about \$10,000 from the huckleberry crop this season.

From the new school census it is estimated that Lansing now has a population of about 30,000.

Mrs. Sarah Ketchum, of Grand Rapids, was killed by falling down a flight of stairs in a clothing store.

E. C. Goddard, one of the best known lumbermen in the state, died at Saginaw of cancer of the stomach.

The ninth annual reunion of the Michigan and Ohio Band association is to be held in Hudson August 17.

An elevator with a capacity of 60,000 bushels of grain is in course of construction by W. A. Coomb at Coldwater.

ELOPED WITH A TEACHER.

Prof. Stephenson, of Brooklyn, Mich., Deserts His Wife and Family.

BROOKLYN, July 14.—Prof. John B. Stephenson, for five years superintendent of the public schools of this city and one of the foremost citizens of Jackson county, has eloped with Miss Ida Culver, a pretty young woman 22 years of age. The professor is 55 years old. Before going away he turned all his real estate over to his wife, at the same time informing her that she would never see him again. He has a family of grown children. Miss Culver is also a school-teacher. The pair met at Coldwater, and have been traced from there to Chicago.

ANOTHER CONVICTION.

William Repke Found Guilty of Implication in the Molitor Murder.

ALPENA, July 14.—William Repke, who confessed and implicated twelve others in the murder of Albert Molitor in Rogers City in 1875, has been found guilty of murder in the first degree. The jury was out only twenty minutes. Repke, together with the three prisoners who were convicted Monday of the same crime, will probably be sentenced to life imprisonment in Jackson. This makes the fifth conviction in the case, one man already having been sentenced. Reiger, another of the conspirators, will be tried next week.

PRaised the GUARD.

Verdict of the Coroner's Jury on the Ionla Prison Affair.

IONIA, July 14.—A coroner's jury has fully exonerated the officers and guards of the state house of correction for the killing of Oscar Mellior during the recent attempt of a lot of convicts to scale the walls and escape. Thomas W. Mitchell was identified as the guard who shot Mellior, but the jury decided that he was acting strictly in the line of duty when he fired the fatal shot that knocked Mellior off the ladder.

Flames in a Mine.

JACKSON, July 15.—A fire which has been burning for several days in the refuse from the Emerson coal mine, near this city, set fire to the shaft and buildings, completely destroying them and either destroying or badly damaging the machinery. The loss will reach \$9,000; insurance, \$2,000. The mine has not been in operation since February last.
