PLANS FOR AIDING THE STARVING MINERS

First Class of Trained Nurses Graduated.  
—Tuesday Night's Fire.—The Divorce Mill Again.—Other News Items.

Fire Tuesday Evening.

The frame house belonging to Mrs. Dr. Palmer on Ann street, just west of her residence, caught fire at 5:30 o'clock Tuesday evening. It was discovered by a student passing, who said that the house was all ablaze when he saw it. The fire evidently caught from the rear chimney, and ran through the partitions breaking out in several places. The fire department was on hand promptly, but it was over half an hour before the blaze was extinguished. The contents were moved out and were badly damaged. The loss on the house was \$1,000 covered by insurance. The house was occupied by Mrs. Willis, Mrs. Kline, and Myra Lewis, and they had no insurance on their household goods.

At the Women's League.

At the last meeting of the Women's club on Saturday, December 16, Mrs. Gayley-Browne gave a very interesting and instructive paper on the "Condition of the Women of the Lower Classes in Ireland." Mrs. Gayley-Browne lived for more than twenty-four years in the extreme western part of Ireland, and, as her husband was a pastor, had every opportunity of knowing the Irish peasant thoroughly. She laid great stress upon the exquisite beauty of the land and the contrasting disfigurement of the wretched hovels and forlorn condition of the inhabitants. She described the educational system and the social and moral life of the people. The lecture was enlivened by many humorous stories. Mrs. James B. Angell spoke in behalf of the lower missions, urging the members of the League to interest themselves in its beautiful work.

Taxes Compared With Last Year.

A comparison of taxes in this city with last year is of interest. The man who pays taxes on \$1,000 assessment this year pays \$2.00 state tax, \$1.70 county tax and \$6.10 school tax. If he paid his city tax last July, he paid \$7.05 city tax. Last year the man who paid taxes on \$1,000 assessment paid \$1.50 state tax, \$1.50 county tax, \$5.85 school tax and \$6.90 city tax. These figures which are taken from the rolls shows that on a \$1,000 valuation, taxes have increased this year over last as follows: state tax, 50 cents; county tax, 20 cents; school tax, 25 cents, and city tax 15 cents. From this it will be seen that the main increase in taxes is due to the republican state administration, the state tax in this city being one-third larger than it was last year or the year before. Another way of stating this fact is that this year the city of Ann Arbor pays \$10,971 state taxes. Last year it paid \$7,761 and the year before \$7,885.37.

Three Divorces Wanted.

Three petitions for a divorce have been filed in the circuit court this week, one woman and two men desiring to be released from their matrimonial bonds.

Elizabeth Webber, of this city, asks for a divorce from George Frederick Webber, whom she married October 11, 1881 and to whom she bore seven children, six of whom are now living, ranging in age from five to thirteen years. She charges her husband with extreme cruelty consisting in beating her in the presence of her children. She instances two cases of assault, on December 1 and 13, on the latter of which days she charges that the assault was made with a hammer and chisel.

Jacob Slimmer was married in Chelsea Dec. 21, 1892 to Sarah Brennan by the Rev. Dr. Holmes. Now he wants a divorce, charging that about two months after marriage his wife became intoxicated, that she has been intoxicated several times since and goes out with other men.

Another one of Rev. Dr. Holmes' marriages is sought to be dissolved. On October 8, 1879, Allen Stephens was married to Lucy Smith. They

have no children. Now Allen wants a divorce on the ground that against his earnest protests his wife neglects her household duties and devotes most of her time to teaching country schools. He also states that she has several times left home for a long time.

In the Circuit Court.

On Monday last the case of John Porlock vs. Edward Kwiecinski was tried with a jury and resulted in a verdict of \$100 for the plaintiff. The complaint was for an assault upon Porlock June 4, in the township of Augusta.

Emanuel Paul submitted to a non-suit in his case against the township of Lodi.

On Monday, in the case of John S. Dunklee vs. George H. Hammond, et al., the judge directed the jury to return a verdict of \$2,903.29 for the plaintiff.

The case of Lucius Tubbs vs. M. C. R. R. Co., occupied the attention of the court and jury, Monday and Tuesday, and resulted in the court's directing a verdict for the defendant. Tubbs carried the mail from the depot to the postoffice in Dexter and was struck by the Grand Rapids express at the time of our last county fair, while walking down the track and badly injured.

A decree and order of sale was entered in the case of Lizzie Stewart vs. Mary A. DeForest, et al., for \$603.45. A decree and order of sale was also entered for \$1,045.32 in the case of George G. Shaffer vs. Frederick Breitenwischer.

The Washington Birthday Address.

The committee appointed by Presidents Minnahan and Kerns, of the senior and junior law classes, consisting of Messrs. Clark, Hopkins, Fuller, Messic and McCabe, from the senior class, and Messrs. Burnham, Brown, Pierrepoint, Jones and Rogers, from the junior, have with the valuable assistance of Congressman Levi T. Griffin, secured Congressman J. P. Dolliver, of the 8th district of Iowa, to deliver the address on February twenty-second.

Mr. Dolliver is a degree man and a lawyer by profession. He has four times been elected to congress. When first elected was the youngest man in congress. The republican minority of the House in this past special Congress, selected Dolliver to lead the opposition to the Tucker election bill.

While Mr. Dolliver is not more than thirty-four years of age, he has given the Decoration day address in New York City which has been given by Ingersoll, Depew and only by our greatest orators.

A strong sentiment existed in the department to secure him a year ago, and this year the laws may congratulate themselves upon the fact that they have secured the acknowledged orator of the West. The Michigan Republican club have also secured him for their banquet to be held in Detroit on the night of the twenty-second.

Taxes Being Paid Slowly.

Up to the close of December 19, this year, City Treasurer Pond reports \$11,790.01 taxes paid into the city treasury. Up to the same date last year \$20,058.34 had been paid in, and up to the same date in 1891 the sum of \$24,320.23 had been paid in. The taxes included in the December assessment this year are not so large as in the two preceding years, as the city tax was largely paid last July; but the collections this year have not, even allowing for this, been up to the past rating. The amount to be collected this month, as shown by the warrants in the treasurer's books, is \$64,943.73, while last year it was \$84,087.20, and in 1891 it was \$89,019.79. Compared with last year, proportionally, the sum of \$15,495 should have been collected by December 19, which indicates that only about 76 per cent as many taxes have been paid this year as were paid at the same date last year. The largest day so far this year was Saturday, December 16, when \$1,851.37 was paid, while on December 19, 1891, the sum of \$4,258.12 was paid in. The largest day in 1892 to date was Friday, December 16, when \$2,528.70 was paid in. The biggest day last year was Friday, December 30, when \$8,102.67 was paid in. But this was not as big a day as Wednesday, December 30, 1891, when \$9,068.29 was paid over the city treasurer's table.

Graduating Trained Nurses.

Wednesday evening the first class of the Training school for nurses graduated and received their diplomas in the University chapel. The platform was occupied by Pres. and Mrs. Angell, Dr. and Mrs. A. B. Prescott, Regent and Mrs. Barbour, Regents Whitman and Cocker, Prof. Knowlton, Dr. Vaughan, dean of the medical faculty, and Prof. D'Ooge. The University Orchestra furnished the music. Prof. D'Ooge delivered an earnest invocation.

Dr. Angell made a few remarks in which he said there were few more important days in the history of the University than this the graduation of the first class of trained nurses. They were all much indebted to skillful nursing. Physicians know how much skillful nursing helped to make difficult operations successful. It was a subject of congratulation that women took this vocation, and that so many women turned their attention to this profession not for mercenary motives but to alleviate pain and suffering. On the recommendation of the medical faculty their work had been approved and as the board of regents thought it proper that they should receive their diplomas from the hands of a woman, the pleasant task was conferred on Mrs. Angell.

Thereupon Emma Botsford, of Amherstburg, Ont.; Roberta Brown, of Ann Arbor; Anna Corrick, of Sarnia, Ont.; Anna Harrison, of Richmond, Ind.; Ida Sauerbann, of Paris, Ont.; and Lena Tucker, of Lafayette, Ind., walked upon the platform and received their diplomas.

The young women were all dressed in the pretty regulation nurses' costume of white aprons and caps. Another young woman who also received a diploma, Josephine M. Allen, was unable to be present.

Regent Barbour was then introduced and made a most felicitous address. He said the University was very proud when its first medical class graduated and it felt just as proud at the graduation of trained nurses. They were the pioneers in their profession. While nursing was very old the profession was very new. It was the result of the progress of man's humanity. A rather profane physician said a nurse was the right bower of a doctor. They had not kings and queens to nurse, but when they got a knave he was entitled to their best care and skill. They would now just begin to feel the importance of their profession. They had the power to show the importance of trained women and what they could do for humanity. He fancied that the time would come when there would be no sickness in which they would not be called. There was no one profession which opened so broad a field.

Dr. V. C. Vaughan, dean of the allopathic medical faculty, was called upon, who showed the work that the young women had done in the past two years. They had practically done all the work of nursing over 3,000 patients. They had heard lectures and had been quizzed upon them, and he hoped they would go into the world to do credit to the University. Dr. Vaughan gave a short history of the first introduction of hospitals, which were a modern institution. The people of the State of Michigan felt that the University was a burden to them, and they did not realize what returns they received from the work done in the hospital. Only about 57 per cent of the people applying could be treated, for want of room. He made an earnest plea for more wards and a proper residence for the trained nurses.

To Aid the Starving Miners.

The following circular letter has been issued by the relief committee for Washtenaw county:

SIR: A meeting of the chairmen of the local committees appointed by the several villages and townships in this county was held in this city on Thursday last. It was determined at that meeting that there should be a general relief committee of this county, of which the chairman of each committee should be a member. The committee was organized by the election of B. M. Thompson as chairman and James O. St. Clair, secretary.

B. M. Thompson, mayor of Ann Arbor; Alfred Davenport, supervisor of York; Michael P. Alber, supervisor of Freedom; Fred. Siple, poor commissioner of Ann Arbor, and George J. Crowell, of Chelsea, were appointed to formulate a plan for soliciting aid and forwarding the

same to the poor and destitute in the Upper Peninsula.

We hope that your committee will commence soliciting aid immediately and that the work will be well and thoroughly done so that every one may have an opportunity to give, be his gift ever so small.

It is expected that the local committees at the several shipping points will make arrangements for receiving supplies immediately, and we should suggest that a notice of the place where such supplies can be delivered be posted in the post-office or some other public place. It is expected that the local committees at the shipping points will keep an account of all supplies received and shipped and will credit the several townships furnishing such supplies and will also notify the secretary of the general committee in order that a full and accurate statement of the donations of the county as a whole, and of each township, village or city, may be published for the information of our citizens.

Respectfully,  
J. O. ST. CLAIR,  
Sec'y of Relief Com. Wash. Co.

Accompanying this letter was the following report of the committee: GENTLEMEN—Your committee to whom was referred the question of devising some general plan for soliciting aid for the poor and destitute in the upper peninsula, collecting supplies and forwarding the same, have had the same under consideration and beg leave to suggest.

1. That the local committee of each township in the county divide the township by school districts, and that there be a house to house canvass made in each school district.

2. That the local committees of the cities and villages make a house to house canvass.

3. That the supplies collected be turned over to the local committee of either Ann Arbor, Ypsilanti, Chelsea, Dexter, Saline, or Milan, and that such supplies be forwarded either to the relief committee of Dickinson or Gogebic county, or first reported to the general relief committee of Detroit, care of J. L. Hudson, Esq., and sent as that committee shall direct. Your committee would recommend that all shipments be made under direction of the general committee at Detroit, for the reason that the general committee will be fully advised of the condition of affairs in the north and will be able to forward such supplies to the points where they are most needed. A report of all supplies forwarded should be sent to the secretary of the general relief committee of this county, in order that all of our citizens may know through the reports of that committee what each township, village and city has done and what are the aggregate donations of the county.

4. The several local committees are requested to solicit money, clothing, grain and all kinds of provisions and perishable vegetables. It is suggested that arrangements be made at each shipping point with some flouring mill to grind all grain donated or to exchange flour for such grain.

5. The committee recommend and urge that the work of soliciting donations be commenced immediately and completed not later than the first of January next.

All of which is respectfully submitted.

The Ypsilanti Dress Stay Factory closed down last Friday to await orders. Peter Cook and wife, of Urania, were thrown out of their cutter last week. There were no cases of corporal punishment in the Chelsea schools last month. Whooping-cough has broken out in the Iron Creek school district of Manchester. The three-year-old child of John Campbell, of Ypsilanti town, died of the grippe last Thursday night. Randall Bross, of Ypsilanti, for fifty years a resident of Michigan, died Sunday, aged eighty-three years. La grippe is no respecter of persons. It has ever attacked the editors, as Editor Warren, of Saline, can testify. The Dorris school house in Western Manchester caught fire last week, but the fire was put out before much damage was done. Herbert W. Childs, of Ypsilanti, fell and broke his right leg, last Saturday. This is the third time he has fallen, each time breaking the same leg. Mrs. Israel Bailey, who died at the residence of her son in Livingston county, December 4, was a resident of Dexter for fifty years. She was 76 years old. Horse thieves stole a horse from the barn of Orson sober, of Superior, last Saturday evening and a buggy and harness from George Sever, of Ypsilanti town. Wolverine lodge, No. 197, I. O. O. Ostroffe, of Augusta, was attending church, someone stole his robe from his cutter. What would have happened had the reverend gentleman not been attending church. The Azalia creamery was destroyed by fire December 13, including butter to the value of \$750. It is supposed that the fire was started by an incendiary, possibly to cover up a robbery. Mrs. Albert Kishpaugh, of Clinton, died December 6, of neuralgia of the heart. She was 23 years of age, and was married in 1889. She was the daughter of Thomas Van Gieson, of Bridgewater. Rev. W. P. G., Mrs. Dolly Whaley; secretary, Mrs. Ella Bray; treasurer, Mrs. Nellie Whaley. Stockbridge has a new paper, the Stockbridge Era, which made its bow last week with a valedictory. It is a very readable paper, but we advise Brother Bush to get a dictionary and see what valedictory means. The members of the Epworth league are raising one dollar each by doing odd jobs about town. One lady earned a part of hers by blacking boots. Another, a young miss, swept the snow from the walks in front of and about the Methodist church last Monday, for which she was paid 30 cents.—Grass Lake News. Cole; second master of the guards, W. C. Walworth; sentinel, Adam Schable; picket, Jacob Bauer. Clint. Rowland has a cat that is possessed of more than the ordinary amount of feline intelligence. The other night he was awakened by the ringing of the door bell. He got up and opened the door, when in walked the cat. Clint thought that the cat had accidentally rung the bell by jumping up against the bell handle. But he don't think so now; for the next night the bell rang again and when he opened it, in walked pussy as demurely as you please.—Tecumseh News. The Stockbridge Farmers' Institute to be held in the town hall, Tuesday and Wednesday, January 2d and 3d, will be one of the best institutes ever held in the state. Gov. Rich, Hon. Wm. A Much-Married Woman. Mrs. Fowler, of this city, was married last January to her sixth husband, and strange as it may seem, five of them died exactly two years from their marriage day. Her present husband has been sick for the last four months with chronic jaundice, and was given up by four of our best physicians; as a last resort he began using Sulphur Bitters, and yesterday told our reporter that they had saved his life, smilingly saying that he guessed Mrs. Fowler would be unable to take a seventh better half for some time to come.—Exchange. W. I. Church, of Staunton Post, G. A. R., says: "I have tried nearly every cough remedy, but have found nothing to compare with Parks' Cough Syrup. There is nothing on earth like it for bronchitis. I have suffered ever since my discharge from the army, and Parks' Cough Syrup is the only remedy that has ever helped me." Sold by Eberbach & Sons.

THE CRITIC. Harriet Hosmer, the American sculptress, it is said, can wear as many medals as a hereditary grand duke. She has spent the last 20 years almost continuously in Europe. Poems over the signature of Annie Fields, which appear in the leading magazines, are written by the widow of the well known publisher, James T. Fields. Mrs. Fields lives in Boston. M. Lambroso says: "George Eliot had the face of a man, an enormous head, hair disordered, a large nose, thick lips, a prominent mustache, a long face like a horse and a voluminous lower jaw." Few living American writers have as much knowledge of military and naval affairs as is possessed by John Habberton. Few follow current reading as closely as the author of "The Maid of Bethany." Appreciative parents and friends are inundating Dr. Edward Everett Hale with reports of children's sayings which Dr. Hale was said to be collecting for philosophical purposes. The statement, Dr. Hale says, was an entire hoax. General Lew Wallace is at work on a fourth novel, the material for which he has been quietly collecting for several years. General Wallace refuses to state with what age or people he will deal in his new work, nor will he even say when he expects to have it finished. Rudyard Kipling passes most of his leisure time in cultivating flowers. The novelist wrote to Mrs. W. S. Dana, in regard to her book on New England wild flowers, that he disliked to transplant flowers, as in digging them up it "made the roots of the poor little things squeak."

Because It is so Pure!

That's the great reason why you should know about our salt. It requires the best to produce the best. The good farmer realizes this with his seed; shall the butter maker be less wise? Our salt is as carefully made as your butter—made expressly for dairy work; and bright dairymen everywhere find their butter better made and their labor better paid when they use

Diamond Crystal Dairy Salt.

No matter what brand you have used, just give this a fair trial. It is first in flavor, first in grain, and first in purity. Whether for dairy or table use, you will find it to your advantage to be acquainted with the salt that's all salt.

OFFICIAL PAPER OF THE CITY.

Entered at the Post-Office, in Ann Arbor, Mich., as second-class matter.

FRIDAY, DECEMBER 22, 1893.

Buffalo Bill has entered the race for the republican nomination for governor of Nebraska. His nomination would be on a par with that of wordy mouthed Foraker in Ohio a few years ago.

The Courier says the Mormons have always voted the democratic ticket. The statement is incorrect. The Mormons run a ticket of their own called the Mormon ticket. It is in no sense a democratic ticket. The Courier has evidently never studied political almanacs.

TAX THE OTHER FELLOW.

Henry Watterson, the brilliant Kentucky journalist in the Louisville Courier-Journal pays his respects to the sectional aspect of a protective tariff in these words:

Reduced to its last resource, crowded into the ditch by the intelligence of an awakened people, and seeing its privileges slipping away from it, protection drops its mask and stands forth the hideous, selfish and sectional thing it has always been in spite of its thin veneering of patriotism.

But what a shifting of the scene and a swapping of roles there has been.

New England, sleek and prosperous and bursting with plenty gathered from protected industries, sees with alarm the growing competition of the West and South, and demands a new adjustment of the tariff to suit new conditions.

The South, long the only refuge of tariff reform, now harbors a band of clamorous protectionists who demand protection for an iron industry in which they can already beat the world through natural advantages.

The West and Northwest, with vast agricultural interests, vitally concerned in the removal of every barrier that impedes the farmer's free entry into the markets of the world, now resound with the call of mine-owners and lumber merchants for protection and bigger profits.

From the Southwest, sold into slavery to a sugar bounty, rises the cry of the sugar-growers, who have come to distrust their ability to stand alone without tariff crutches.

And all want protection against what? Practically against each other. The subsidists of each section want authority to force other sections to buy their products. Our industries have been diversified with a vengeance, and each demands the right to levy a bounty while claiming exemption for itself, all quarreling like a band of robbers over the division of the booty, which, in the long run, is wrung from the farmers' unprotected product.

It is idle to attempt to reconcile these jealous interest and wrangling sections on any protective basis, yet to such cheese-paring is the protective policy now mainly applied. The protection of one is the injury of another. Each wants the best of it in the shuffle and deal and an extra ace up his sleeve. It is simply impossible by any system of protection to equalize the natural difference in soil, resources and productiveness in a country as big as this and as diversified. The longer we try it the worse the tangle. We stretch the blanket over one corner and another raises a shrill cry that it is exposed to the cold blasts of competition. The hot-house system of forcing has induced undue sensitiveness to breezy rivalry that would be only stimulating to a soundly developed industry. All buy the products of other protected industries under protest and want a higher duty on their own. The "home market," which we have been at such pains to build up, is not giving satisfaction. There are too many sellers for the buyers, and disappointed sections and industries turn and rend each other. It will always be so until we get back to sound principles of free trade in and with the markets of the whole world. In a field so vast, each industry must needs fairly stand by its own ability to contribute to the wants of the race, or it will not stand at all.

The first actual approach toward abolishing the vicious system shows how deep the poison has gone. It is section against section, one industry against another. The sooner we have done with it all, the better for our temper as for our pockets.

And from that fixed goal the Democratic party, in proof that it is national in its sympathies and broad and firm in its purposes, must not suffer itself to be diverted by sectional appeals.

CORUNNA LYNCHING.

INVESTIGATION OF SHERIFF JACOBS COMMENCED.

Nothing of a Sensational Character Introduced—Sentence of Homer W. Candler Commuted by Governor Kitch—The Eastern Portion of Monroe Suffering From High Water.

CORUNNA, Dec. 20.—The investigation of Sheriff Jacobs for allowing William Sullivan to be hanged by a mob last May without making any resistance was resumed Tuesday morning before Circuit Court Commissioner Bump, Harrison Geer and A. L. Chandler looked after the interests of the sheriff, and Attorney General Ellis appeared for the people. Sheriff Jacobs appeared to be in good humor and he shook hands with everyone. His attorneys made a stubborn fight to exclude all testimony except that pertaining to the night of the lynching. After arguing the point for some time they finally conceded that testimony bearing on the case could not be ruled out by the court at the hearing, and they decided to take a general exception.

Dr. A. G. Cowles of Durand stated that he was in Northville on the night Sullivan was hung and he did not go to Corunna again until July 2. This caused the defense to smile, as they supposed that the prosecution were trying to show that the doctor was one of the lynchers. He said that he only knew one man at the depot, but that night he spoke to five or six. On Monday he received a dispatch that Sullivan had been captured. Witness did not think the crowd at the station an unusually large one, and he did not know anything about a rope. After being pushed hard the witness admitted that he saw a rope in the coach when he was riding from Durand to Corunna, but he denied knowing why it was there or to whom it belonged. After reaching Corunna the doctor said he went uptown and after standing on the walk a few minutes, went to the Central hotel.

CORUNNA, Dec. 21.—William Dorrick, sheriff of Ionia county, testified he had had 30 years' experience, and yet saw nothing in the situation at Corunna that would necessitate calling the militia out the day Sullivan was lynched.

Richard Rice of Durand was at Corunna the night of the lynching. He had known Sullivan four years and had worked in Flint with him. He had not seen Sullivan after the latter's murder of Layton Leetch at Durand until he was lodged in jail at Corunna. Court then adjourned until 10 o'clock this morning.

HIGHEST IN YEARS.

The Eastern Part of Monroe Under Water.

MONROE, Dec. 20.—The streams of Monroe county are overflowing. The ice in the River Raisin, which was from four to five inches thick, has broken up and gorged above the Lake Shore railroad bridge. The water is the highest ever known here at this season of the year. It has been rising for several hours and is fast covering the low lands along the banks. The eastern part of this city is afloat. The ice has filled the river bed to the bottom, and the water is forced outside and is running in torrents down Front street and Elm avenue, washing out everything before it.

So far no damage besides washing away of sidewalks, fences and wood-piles has been done, but the water is fast filling the cellars and basements of the stores along the river bank. Several families in the Third ward have been compelled to leave their homes for higher ground, some of the houses having water from two to three feet deep on the first floors. Most of the people affected by the water are in poor circumstances and a flood in midwinter means a great deal to them.

WILL BE PARDONED.

HOMER W. CANDLER WILL EAT HIS CHRISTMAS DINNER AT HOME.

LANSING, Dec. 20.—Homer W. Candler, who was sent to the Detroit house of correction for three years, will spend Christmas at his father's home in Detroit. The young man was convicted of forging a \$3 note. He was somewhat unbalanced in mind and spent short terms at the St. Joseph retreat and also at the Pontiac asylum. He gave his father no end of trouble in many ways. Young Candler, it seems, would have been spared the sentence, had not his father insisted that he plead guilty. In fact, the aggrieved party was willing to settle the matter by receiving back the \$3 that was lost.

Now Mr. Candler is anxious to get the boy out, and has a good position all ready for him. So the governor has commuted the sentence so that it will end Dec. 23. Among those who petitioned in the young man's behalf were Judge Chambers of the recorder's court and ex-Prosecutor Burroughs.

Charged With Burglary. DETROIT, Dec. 21.—George L. Laird was taken before Justice Sheahan Wednesday morning and arraigned on the charge of burglary, the complainant being A. Tannenholz. He pleaded not guilty and the case was set for examination at 9 a. m. Dec. 29. Bail was fixed at \$1,000, with two sureties. Laird is charged with being one of the three burglars who escaped from the officers who tried to capture them while attempting to rob Tannenholz's saloon last Saturday morning and who was captured later in the day.

A Verdict For \$2,000.

OSCODA, Dec. 21.—Two years ago Charles Leach, now city clerk, then employed as setter in Penoyer Brothers' sawmill here, had both legs badly fractured by the displacement of some machinery on the circle saw carriage whereby he became crippled for life. Suit was brought against the Penoyers, and has been on trial here in the circuit court since last Thursday. Plaintiff sued for \$13,000. The case attracted general interest and was hotly contested. After deliberating four hours the jury rendered a verdict for plaintiff for \$2,000.

The Scott Trial at Marshall.

MARSHALL, Dec. 21.—During the examination Wednesday in the Scott trial of Dispatcher Cornell it developed that he thought his duty to keep the trains running rapidly was equal to his duty to look after the safety of the public. Switchman McCleough testified that he let No. 6 out of the main line from three to five minutes before the collision, and that the train was moving

about 10 miles per hour. The prosecution expect to show that the train ran at the rate of from 28 to 25 miles per hour, having been hurried out by the train dispatcher. The defense have intimated that they can show by the superintendent of the road and other officers that the Grand Trunk employees are not expected to live up to their rules.

SHORT IN HIS ACCOUNTS.

A Traverse City Railroad Agent Under Arrest.

TRAVERSE CITY, Dec. 16.—C. L. Hall, the popular agent of the Grand Rapids and Indiana railroad, who lost his position a few days ago, has now been arrested at the instance of the American Surety company, which went on his bond.

Mr. Hall was found to be short about \$500 in railroad funds. The discovery caused much surprise, for he has been considered the soul of honor and was the idol of several societies to which he belonged. His friends will make up the shortage by subscription. It is understood that Mr. Hall has lost heavily at gaming.

A Grip Victim's Delusion.

SAGINAW, Dec. 21.—Christian Hollweide a single man about 34 years of age, walked into the Central police station Wednesday morning and told a startling story about being confined in a smoky room last Friday night, where he was held while some one blew a white powder down his throat. Health Officer Ellis was called in, as the man was evidently very ill, and he intimated that Hollweide was mentally unbalanced from the attack of grip which had developed into pneumonia.

Lillian DeWitt, Married.

FLINT, Dec. 18.—It has just transpired that Lillian DeWitt, the former Flint girl who was the heroine of a kidnaping affair in Detroit last summer, and disappeared from that city in order to escape the disagreeable notoriety which came to her through publication of her sensational escapade, was married Nov. 27 at Buffalo to Dr. Vegas, a dentist of that city, a letter to that effect having been received by the girl's mother in this city.

Charged With Conspiracy.

BATTLE CREEK, Dec. 18.—J. M. Jacobs, a clothier of this city, and his brother, another dealer, at Albion, were arrested Saturday night for conspiracy. They are relatives of Morris Rosen of Grand Ledge, who secured \$30,000 worth of goods on time and then shipped them to different parts of the country. It is alleged that they assisted Rosen in secreting the goods. Both men are in Charlotte jail awaiting trial.

Incendiary Fire at Muskegon.

MUSKEGON, Dec. 20.—Fire was discovered in McComb's art gallery on Western avenue at 2 o'clock Tuesday morning. The blaze was clearly of incendiary origin. The same building was burned a year ago. The total loss is \$4,000; insurance, \$1,500. Firoch's cigar store, on the lower floor, was damaged \$2,000 by water; fully insured. McComb lost 30,000 negatives. He says he is certain the building was fired.

Clegg's Pilferings Growing Larger.

HOUGHTON, Dec. 19.—The officers here have hopes now of catching John Clegg, the absconding assistant postmaster of the Atlantic mine. Galena (Ill.) officers have telegraphed here stating that a man answering Clegg's description is there. A United States marshal has been telegraphed to, and is now on his way to Galena. Clegg's pilferings are growing larger each day.

Death of John P. Fleitz.

DETROIT, Dec. 21.—John P. Fleitz, one of the most prominent German business men and capitalists of this city, died at his late residence, 645 Jefferson avenue after a short illness, at 7:20 Wednesday morning. About two weeks ago he was attacked by the grip, which on Thursday last developed into pneumonia.

Burglary at Howell.

HOWELL, Dec. 19.—C. G. Jewett's hardware store was entered Saturday night by thieves and about \$100 worth of revolvers and razors taken from the showcase. The thief was tracked from Mark Staley's wagonshop to the back of the store, where he effected an entrance through a grating and cellar door.

Death of an Old Resident.

JACKSON, Dec. 18.—Mrs. Mary Dodge, wife of Noah Dodge, an old resident of Spring Arbor, died at her home, aged 76 years. The past year has been quite a disastrous one to old residents of this city, and scarcely a week has passed without the death of some prominent pioneer.

# Hood's Cures

Even When Called Incurable

Terrible Seige—Sciatic Rheumatism

Mr. Arthur Simon of Galata, Ohio.

"They said I was incurable, the doctors did, but the result has proven that Hood's Sarsaparilla was able to cure. I had Sciatic Rheumatism and was confined to my bed six months. Three physicians did not help me and

**I Was Given Up to Die**  
When I was in this terrible condition, unable to move hand or foot, I began to take Hood's Sarsaparilla. The first bottle had a little effect, and while taking the second, I gained so rapidly that I could sit up in my chair. My system had been so run down by other medicine, that it took me quite a while to recuperate. By the time I had taken four bottles of Hood's Sarsaparilla, I could walk around, and now, as I have taken six bottles, I am cured and can do a good day's work. I do not feel I can praise

enough." ARTHUR SIMON, Galata, Ohio.

There are no "houses to let" signs stuck up in Milan—Milan Leader. Not since the fire, anyway.

E. A. Garte, of Ann Arbor, ascertained with his foot, the weight of a barrel of white lead, and now hobbles on crutches.

James Sherman, of Dexter, last week fed his right hand to a power focker cutter. He is a hard working young man and there is much sympathy for him.

The Dexter Leader could not get potatoes on subscription, but is grateful to be remembered with a peck of Steele red apples, thus setting a sublime and beautiful example of gratitude.

The Press feels called on to regret that so bright and good a newspaper as the Ann Arbor Courier, is in danger of going to the insane asylum on account of the Wilson tariff bill.

Incandescent lights have been placed around the organ of the Ann Arbor Presbyterian church. No member of the choir going around behind the organ to drink with the blower, now.

Last Friday evening a masquerade ball was given at the Keeley institute in Ypsilanti. Some of the inmates were so sober that they were not recognized and in fact didn't know themselves.

So many Ann Arborites are in jail for violating city ordinances, that the sheriff has decided to put in a bill against the city for the board of its denizens, while forced to enjoy his hospitality.

At the Milan fire last week one determined, energetic worker seized a broken lamp chimney and carefully removed it to a place of safety, and kept on about his work. There's nothing like well directed energy.

Local "gag" of a minstrel show at Ypsilanti: McCoy was asked his reason for discharging the city police force. The answer was, "Because they are always Buck-ing into us and Eaton's us up." The plastering cracked and several stovepipes in the vicinity fell down.

The Washtenaw Times knows an officer who attempted to bring execution against the person, when the man flopped down on the floor and his wife and sister-in-law sat on the body, armed with stove wood. The officer withdrew. It was a "family spread," but he felt that he was "not in it."

The state professor of law at Bahia, Brazil, has written to Judge Cooley for permission to translate into Portuguese his celebrated work on constitutional law. Permission was given. Poor Brazil! In her blindness she yet gropes after the best, but no foundation could be reached with a pile driver stable enough to bear the weight of a national constitution.

Answering an attack in the Ann Arbor Argus on the Hawaiian question, the Washtenaw Times alleges that between attacks the "attacker" "Sandwichness" in a piece of advice. When we contemplate the monstrous diabolism of the above, we are overwhelmed with a sense of the awful responsibility of the American government in the Hawaiian matter.

Ypsilanti will have a city social club with a capital stock of \$6,000, while the Young Men's Christian Association goes begging to pay running expenses, and the Humane Benevolent Association is around with its knees out of its elbows—its stomach pinched with the pangs of want. Six thousand for the devil, but not a cent for God or humanity! O, Ypsi, Ypsi! thou Gomorrah of cities!

Mr. Dansingburg, of Whittaker, had several sheep mangled by dogs. Then Mr. Dansingburg shut the survivors in a yard. But the next night the dogs again danced after Mr. Dansingburg's flock and laid several more low. Now Mr. Dansingburg is a pretty mad man, and the man who can out-dance Dansingburg must begin early in the evening.

A Free Press correspondent at Ann Arbor referred to the Milan fire engine as "an old-fashioned squirt gun," and the Milan Leader turns the hose on him in this manner: The Ann Arbor correspondent should "jack up" his memory a bit, and remember that when Ann Arbor owned it two years ago it was one of the best hand engines in the country. It's as good now as it ever was.

A recent fire in the psychological laboratory of the University damaged instruments \$100 worth. Thus, in the midst of costly research, by the best minds, into the psychic mysteries, and just as the doctrine of intellectual supremacy of mind over matter was about to be proclaimed as a truth, along comes this fire—which the mind could not prevent—right in the hot-bed of investigation, and knocks the psychic hypothesis into stellar space.

## A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 135 pounds when I began using the remedy, and now I weigh 120. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from any physician."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. This great discovery by an eminent specialist in heart disease, contains neither opiates nor dangerous drugs.

## THE ODDITY.

Cutting off the hands and feet as a punishment was practiced in every country in Europe but England two centuries ago.

A German jeweler has introduced a grewsome "charm" for the watch chain in the form of a tiny receptacle for a portion of the ashes of cremated friends.

On a French tombstone—could it have been found on any other?—is the inscription: "Sacrificed to the memory of Mlle. — died April 3 in her eighty-first year. She never looked her age."

An old European custom was to give a clock to any one who could take an oath that he had stricly minded his own business and not meddled with his neighbors' affairs for a year and a day.

Dr. O. Hildebrand of Goettingen reports in The Medical Record the case of a boy of 15 who, since the age of 12 years, had had 150 to 200 teeth of various sizes removed. A year and a half later 17 more were removed, with evidences of others coming.

## The Great Through Car Line.

It is a well established fact that the North-Western Line (Chicago & North-Western R'y) in its equipment and train service, its general facilities for the accommodation of all classes of travel, and its methods of looking after the comfort and welfare of its patrons, takes rank with the leading railways of the world. Its through car lines extend from Chicago to St. Paul and Minneapolis, the "Twin Cities of the North-west," to Duluth, the Superiors, Ashland, Marquette and the wonderful iron and copper regions of northern Wisconsin and Michigan; to Winona, Pierre, and the rich agricultural sections of Minnesota and the Dakotas; to Des Moines, Sioux City, Council Bluffs, Omaha, Lincoln, the prosperous and growing cities of Iowa and Nebraska; to Deadwood, the Dakota Hot Springs, and the famous mining districts of the Black Hills; to Denver, Salt Lake, and the health resorts of Colorado and Utah; to San Francisco, Cal.; Portland, Oregon, and Pacific Coast and Puget Sound points.

The perfectly equipped vestibuled trains of the North-Western Line convey the traveler comfortably, safely and quickly to nearly every part of the west and north-west, and while one may travel surrounded by all of the luxuries afforded by an equipment of magnificent sleeping cars, buffet smoking and library cars, compartment sleeping cars, and superb dining cars, the comfort and convenience of passengers desiring to travel at small expense is prompted by the provision of accommodations for their use in Tourists Sleeping Cars, Free Reclining Chair Cars and commodious day coaches.

In a word, if you contemplate a trip to almost any portion of the west and north-west your tickets should read via the North-Western Line. Maps, time tables and general information can be obtained of ticket agents in the United States and Canada, or by addressing W. A. Thrall, General Passenger and Ticket Agent, Chicago Chicago & North-Western R'y, Chicago, Ill.

# TWICE-A-WEEK.

A REVOLUTION IN NEWSPAPERDOM.

"TWICE-A-WEEK" is the new name given to the Semi-Weekly Detroit Free Press. The "Twice-a-Week" has taken the place of the old "Weekly" edition which, after an existence of 62 years, was discontinued Nov. 30th, 1893. A weekly paper is no longer fully adequate to the requirements of this progressive age. The Free Press, first in everything, is the first to provide for its great host of readers a "Twice-a-Week,"—complete in every detail of the modern newspaper,—at a price (\$1.00 a year) hitherto unheard of for an 8-page semi-weekly family journal. This is indeed a newspaper revolution—a revolution the benefits of which accrue wholly to the reader. The spirit of Free Press enterprise is ever alert to promote the interests and welfare of patrons.

## SOMETHING TO REMEMBER:

- 1st.—The Twice-a-Week Free Press comprises 8 or more pages and is published every Tuesday and Friday morning in time for early outgoing trains.
- 2nd.—It is the largest and best Twice-a-Week in America and contains all the News, Markets, Literary Miscellany, etc., brought down to the hour of going to press.
- 3rd.—The Twice-a-Week Free Press will cost only ONE DOLLAR a year—104 newspapers for \$1.00. Did you ever hear of so liberal a proposition?
- 4th.—Take your local paper for local news and The Twice-a-Week for general news. No other papers in the world will give you so much for so little money.

COUNCIL PROCEEDINGS.

OFFICIAL. COUNCIL CHAMBER. ANN ARBOR December 18, 1893. Regular session. Called to order by Pres. Watts. Roll called. Quorum present. Absent—Ald. Herz, O'Mara, Ferguson, Prettyman, Kitson—5. The Journal of the last session was approved. COMMUNICATION FROM THE MAYOR. Mayor's Office, December 6th, 1893. To the Honorable, the Common Council:

GENTLEMEN: I have disapproved of so much of the report of the Finance Committee made to the Council on the 4th instant as allowed Christian Brenner pay for nine days as special policeman. Mr. Brenner was appointed for three days; by mistake he served nine days under the impression that he should be notified that his time had expired. The city is not responsible, as the appointment is written out plainly for three days. I regret that the mistake should have occurred. B. M. THOMPSON, Mayor.

The chair stated the question to be whether the action of the Council regarding passing so much of the report of the Finance Committee made to this Council Dec. 4 inst., as allowed Christian Brenner pay as per bill certified to this Council, be sustained, the Mayor's veto notwithstanding. The question was lost, two-thirds of the Aldermen elect not voting thereon, by yeas and nays as follows: Yeas—Ald. Schairer, Martin, Snow, Wood, Taylor, Manly, Pres. Watts—7. Nays—Ald. Wagner—1.

PETITIONS AND COMMUNICATIONS. To the Common Council: The Board of Public Works respectfully recommend that in the construction of the main sewer a six inch drain tile is needed at once, and we ask that a contract be made with S. Wood & Co. for 2,000 feet of six-inch sewer pipe at a discount of 85— from list price, being the same discount that we are getting from the Ohio Valley Fire Clay Company. By order of the Board of Public Works. W. J. MILLER, Clerk.

Received and filed. City Treasurer Pond reported the sale of \$30,000 sewer bonds with memorandum of agreement made on Nov. 11, with Spitzer & Co., of Toledo, Ohio, at par and accrued interest and to draw interest at five per cent. per annum. Referred to Finance Committee.

To the Common Council: Your Committee on Finance, to whom was referred the petition of Mrs. Kenny, asking for \$1,000 damages for injuries sustained to her right limb on June 10, 1892, by reason of a defective grate in front of No. 7 Ann street, would respectfully report that they have had the matter under consideration, and would recommend that said petition be denied. Respectfully submitted. WALTER L. TAYLOR, FRANK WOOD, Finance Committee.

Accepted and recommendation concurred in as follows: Yeas—Ald. Schairer, Wagner, Martin, Snow, Wood, Taylor, Manly, Pres. Watts—8. Nays—None.

To the Common Council: Your Committee on Finance, to whom was referred the communication from the City Treasurer regarding the sale of sewer bonds to Spitzer & Co., bankers, of Toledo, Ohio, and memorandum of said agreement and sale, would respectfully report that they have had the matter under consideration, and would recommend that said sale be hereby confirmed by this Council. Respectfully submitted. WALTER L. TAYLOR, FRANK WOOD, Finance Committee.

Accepted and recommendation concurred in as follows: Yeas—Ald. Schairer, Wagner, Martin, Snow, Wood, Taylor, Manly, Pres. Watts—8. Nays—None.

REPORTS OF SPECIAL COMMITTEES. Ald. Wood, chairman of the special committee on procuring a janitor for the City Building, asked for further time, which was granted.

Pres. Watts, chairman of Furniture Committee, stated that the committee had about completed its labors and would make a final report to this Council at its next regular session.

REPORTS OF CITY OFFICERS. Clerk Miller reported that President Watts had appointed the following Relief Committee: Messrs. A. L. Noble, H. J. Brown, James O. St. Clair, J. V. Sheehan, and Poor Superintendent Siple, to carry out the recommendations of His Honor the Mayor, as adopted by the Council at the last meeting.

MOTIONS AND RESOLUTIONS. By Ald. Wood: Resolved, That the Mayor and City Clerk be and are directed to sign and issue the \$30,000 Main Sewer Bonds, and deposit them with the City Treasurer, taking his receipt therefor; said bonds to be of the denomination of \$500 each, and payable \$2,000 annually, and to draw interest at the rate of five per cent per annum. Principal and accrued interest payable on December 1st of each year, at the office of the City Treasurer in the City of Ann Arbor.

Adopted as follows: Yeas—Ald. Schairer, Wagner, Martin, Snow, Wood, Taylor, Manly, Pres. Watts—8. Nays—None. By Ald. Manly: Resolved, That the Mayor be and is hereby authorized and empowered to

appoint, for the term of one year, three competent persons to act as special policemen for the purpose of guarding the property and conserving the peace at the Grand Opera House in this city, such policemen, however, to perform such service without costs to the city, and also the city to be without liability for any neglect of duty on their part.

Adopted. By Ald. Wagner: Resolved, That the Board of Public Works are hereby empowered to purchase from S. Wood & Co. 2,000 feet of six-inch drain pipe at 85 per cent off from price list.

Adopted as follows: Yeas—Ald. Schairer, Wagner, Snow, Wood, Taylor, Manly, Pres. Watts—7. Nays—None.

By Ald. Manly: Resolved, That Rule No. 21 be suspended, that the Street Commissioner be and is hereby instructed to make out all bills for labor on Sewer twice a month, and certify the same to this Council for its consideration at any regular meeting thereof.

Adopted as follows: Yeas—Ald. Schairer, Wagner, Snow, Wood, Taylor, Manly, Pres. Watts—7. Nays—None.

By Ald. Schairer: Resolved, That the Finance Committee be directed in the case of Mrs. Kenny vs. The City, to see what would be the least sum of money to compromise said case, and report to this Council.

Adopted as follows: Yeas—Ald. Schairer, Wagner, Wood, Taylor, Manly, Pres. Watts—6. Nays—None. Ald. Snow refused to vote.

On motion the Council adjourned. W. J. MILLER, City Clerk. THE POULTERER.

Too heavy feeding and want of exercise tend to barrenness. Keeping fowls on hard runs or floors will cause swollen feet or legs. Hens in confinement need to have egg-shell material supplied to them. Any kind of poultry may be improved by a careful selection and breeding. Chickens will keep healthier if they can have loose ground to scratch over.

Even in winter, if the hens are expected to lay regularly, care must be taken not to let them become too fat. The principal reason why cooked food fattens the fowls more rapidly is because it is much more easily digested.

When fowls are closely confined, the runs need spading up occasionally to prevent them from becoming too foul. Early broilers usually prove very profitable. Push the growth until they will average two pounds and then sell.

It will pay to sell all the common turkeys and make a new start with some of the better breeds like the Bronze of Narragansett. A small quantity of sunflower seed given occasionally will add to the gloss of the plumage. A handful to a dozen fowls will be sufficient.

Bran, ground oats and cornmeal make one of the best rations for growing chickens. It may be improved somewhat by baking and then crumbling. In selecting the hens, if there are any that have proved themselves exceptionally good mothers, it will pay to keep them over if they are past 2 years old.

The nests should be dark, warm and supplied with good nesting material, which should be changed regularly, even in winter, to prevent its becoming too foul.

Setting hens are scarce in winter, so if early chickens are wanted a good incubator will be necessary, the size depending upon the number of chickens to be hatched. Leaves or chaff make a good litter to scatter on the floor, and by throwing grain among it the fowls will be kept busy scratching it over, and in this way take exercise.

One of the principal items in raising chickens in the brooder is warmth. If they get chilled, they will crowd together in a brooder so closely that some will be smothered. Wheat is one of the best grains for laying hens. It is rich in material for growth, while stimulating to the egg functions. At present prices it can hardly be considered an expensive feed.

With good treatment pullets hatched in February will lay in September; those hatched in March will lay in October, while those hatched in April will usually begin laying in December.—St. Louis Republic.

NEVER A FAILURE.

The Red River Valley of Minnesota and North Dakota has never had a failure of crops.

It produced 30,000,000 bushels of wheat besides other cereals in 1890. Farms can be had on the crop plan, or long time cash payments.

It is not an uncommon thing to pay for a farm from the proceeds of one crop.

It has all of the advantages of an old country in the shape of school, church, market, postal & railway facilities and all the chances of a new country in the way of cheap lands, rich soil, and increase in values.

It is one of the most fertile and promising regions in America not yet fully occupied.

In the rush to the far west, however, this rich valley has been over-looked. It has room for a million more people.

"We."

Beautiful reader, in glancing over a newspaper editorial, did you ever notice the absence of the pronoun "I" and the substituting for it of "we"? Possibly you have not made a study of the omnipotent "we," as we have. You probably have not thought enough about it to offer any reasonable excuse for its use. Doubtless it has never worried you and you have always considered it a trivial matter. It is not, however.

Whenever you step into the editorial room of a newspaper, you will find "we" there with its coat off and getting in its work.

"We" is the editors Frankenstein monster. That gentleman's hypogriph, however, sometimes absented itself, something that "we" never does.

In all there are three reasons for its general use:

Reason the onct. An editor speaks not only for himself, but for many, necessitating the use of the plural.

Reason the twict. An editor usually amounts to three or four anyway.

Reason the threetimes. "We" is used so that when an editor says anything unkind of a man, as calling him a horse thief, etc., that man will understand that if he wants to see a retraction of the statement in cold type, he will have to lick the whole staff, including the devil and the tramp printer, not the editor alone.

In the first article a young man ever writes for the great American press or any other press, he always says "we." I once knew a newspaper man who had become so accustomed to say we that one night on entering a store devoted to the introduction and sale of beverages he said, "we will have a drink."

Every one in the emporium at the time rose as one man and moved up to the counter, and the young journalist was embarrassed right much. He had money enough to buy a drink for "I," but not for "we." Since that eventful night he has never used the latter pronoun.

Young man, if you are addicted to the "we" habit, cast it off. The wailing and gnashing of teeth caused by its non-use is not to be compared to that caused by the over indulgence in it. Think of the horror, whenever you sit down at your desk to see the grinning terrible face of "we" peering over your shoulder and casting its shadow on the virgin copy paper before you.

Rise up, young man, while you yet have strength and make the monster drop, and drop so hard that the fall thereof will be like unto that of a sixty day note when it falleth due.

THE HAWAIIAN MESSAGE.

President Cleveland Turns the Question Over to Congress.

WASHINGTON, Dec. 19.—The president's reply to the request of congress for information on Hawaiian affairs was sent to both houses Monday.

After reviewing the treaty of annexation proposed by the Harrison administration, Mr. Cleveland says:

"I conceived it to be my duty, therefore, to withdraw the treaty from the senate for examination, and meanwhile to cause an accurate, full and impartial investigation to be made of the facts attendant upon the subversion of the constitutional government of Hawaii, and the installment in its place of the provisional government. I selected for the great work of investigation, the Hon. James H. Blount of Georgia, whose service of 23 years as a member of the house of representatives and whose experience as chairman of the committee on foreign affairs in that body, and his consequent familiarity with international topics, joined with his high character and honorable reputation, seemed to render him peculiarly fitted for the duties entrusted to him."

Speaking of the dethronement of Queen Liliuokalani and the establishment of the provisional government, the president says he believes that a candid and thorough examination of the facts will force the conviction that the provisional government owes its existence to an armed invasion by the United States.

He further says: "As I apprehend the situation, we are brought face to face with the following conditions:

"The lawful government of Hawaii was overthrown without the drawing of a sword or the firing of a shot by a process every step of which, it may be safely asserted, is directly traceable to, and dependent for its success upon the agency of the United States, acting through its diplomatic and naval representatives.

"But for the notorious pretensions of the United States minister for annexation the committee of safety, which should be called the committee of annexation, would have never existed.

"But for the presence of the United States forces in the immediate vicinity and in position to afford all needed protection and support, the committee would not have proclaimed the provisional government from the steps of the government building.

"Believing, therefore, that the United States cannot, under the circumstances disclosed, annex the islands without justly incurring the imputation and acquiring them by unjustifiable methods, I shall not again submit the treaty of annexation to the senate for consideration."

The president then relates his instructions to Minister Willis and closes the message by saying: "I therefore submit this communication to the extended powers and wide discretion of the congress, desiring to add the assurance that I shall be much gratified to co-operate in any legislative plan which may be devised for the solution of the problem before us, which is consistent with American honor, integrity and morality."

Wm. Clancy, jr., has bought out the half interest in the saloon business of Geo. Mast, the firm name now being Steigelmeyer & Clancy.

The People Must

Have Their

"Christmas Candy"

When it comes to the Christmas Candy question, old Hard Times holds up his gaunt hand of protest in vain, and Santa Claus, upon his merry annual round, pauses equally at the doorways of the rich and the poor, well laden with the healthful delicacies of the confectioner's art.

It is all very well for Hard Times to forbid the usual lavish expenditure and to protest against the great mid winter response of the American Pocket Book to the contrary temptation of the infinite variety of expensive novelties displayed in the shop windows but Santa Claus draws the line of interference at candy. The question is to get pure, fresh and unadulterated candy which is not a luxury nowadays but a necessity. The largest assortment is at
