Mrs. Brogan brings her suit for divorce on the grounds of extreme cruelty.

Mrs. Brogan has also secured a writ of injunction restraining him from in any way interfering with her house, bousehold effects or property connected with her greenhouse located on S. Univerity ave. The return day of the writ is Aug. 3.

Predictions are freely hazarded that the next congress will not be republican, and these predictions are made by republicans as well as democrats. This indicates what the people are thinking of the Dingley tariff bill and prosper-

In the death of Hon. George V. N. LothropM, ichigan loses one of its grandest men. As an orator he was without a peer at the Michigan bar. He would have been an honored member of the United States Senate, a position which be would have adorned, had not his party been in a hopeless minority in the state.

Hicks, the weather prophet, has prophesied once too often to be considered infallible. During the hot weather of last week, we were consoled with Hick's prophecy, that however hot last week was, it was as cool as Greenland temperature, in comparison with the weather we were to have this week. Hicks' reputation is now gone.

The extra session of congress is still grinding its slow and weary course, endeavoring to devise new or increased taxes for the people The heat of Washington is not conducive to long hours of labor, and its enervating influence has doubtless been felt by the congressmen. Let them adjourn for cooler weather and the country will not be the loser.

Public sentiment is awakening to the necessity of a bicycle ordinance. Every held Saturday night. Ann Arbor should "get a move on," and not fall behind the procession.

There is a growing outery among the masses of the people against fads in the public schools. M. J. Cavanaugh will again hold his popular summer normal school at the Ann Arbor high school this year. It has in the past proved a great boon to Washtenaw county teachers and it is certain that this year will prove no exception to the rule. The term will begin July 26 and will end Aug. 20. The courses of study offered are as follows: A course for securing a third grade certificate.

A course for securing a second grade certificate.

A course for secuirng a first grade certificate.

A course for securing a state certificate.

Special courses in Kindergarten, Elocution, Physical Culture, Pedagogy, Penmanship, Drawing and Modeling.

Nothing will be left undone to make the time spent pleasant, agreeable and profitable to both teachers and students. Instructors, M. J. Cavanaugh, Prof. M. A. Cobb, assisted by a full corps of the most competent instructors.

The Summer School at Ann Arbor is the proper one for all county teachers to attend. As in the past, it will afford just such instruction as teachers want. If you go anywhere, don't fail to

The Ypsilanti Driving Club is no more an has had to succumb to the inevitable result that falls to the lot of any institution that gives a good race meet and good purses to the owners of horses who contest in it, and is poorly patronized by the public. As a consequence the race meet that was talked of for this year will not be held. The result above spoken of was reached at at a meeting of the members of the club Evening Times had the following introduction to its article in Monday night's paper:

For the Settlement of the Great Miners' Strike.

# OFERATORS WILL NOT ARBITRATE.

The Labor Leaders Are Working Harder Than Ever to Close the Mines in West Virginia and the Fuel Famine Is Spreading Day by Day-The Situation in Illinois-What President Ratchford Says of the Strike.

Chicago, July 13 .- Each day accentuates the prospect of a long and bitter struggle between owners of and employes in the soft coal mines. Arbitration halts. Organization on both sides continues. The number of miners at work in each of the states affected by the strike is steadily dwindling. The pressure for fuel grows stronger, with ascending prices.

An example of the activity of the railroads in preparing for a prolonged cessation of mining is given in the following special dispatches: Kankakee, Ills.-The Illinois Central is now hauling long trains of empty coal cars south and making every effort to get them loaded. Orders have been issued to shop men to repair coal cars first, regardless of other exigencies. At the Kankakee junction coal bins are full and coal is being unloaded on the ground. The railroad intends to be prepared in case a general strike results.

### Godsend to the Railways.

Bloomington, Ills .- The determination of the miners in the local shaft not to join in the general strike is a godsend to the Chicago and Alton, Lake Erie and Western and Big Four railroads, The lines of the three roads pass the local mine and they are taking every pound of coal obtainable from the company. The Lake Erie and Western has sent all the cars it can secure to this city to be filled with coal and it is likely that the entire western division will have to be supplied from here. The strike at Danville has compelled all engines of the Peoria and Eastern division of the Big Four to stop here for fuel and other divisions may call for some of the local product. The Alton is taking all the coal it can get here and is hauling many cars from the mines in Missouri. The latter road is now paying nearly \$1 a ton more for coal than it did a month ago, and the strike will cost the company an immense sum. The Lake Erie and Western has had a contract with the local mine for years. and the price is unchanged. The Big Four pays the same rate as the Chicago and Alton.

# Railroads Not Considered.

The miners here agreed to work on providing the company would not sell to outside parties. Evidently the railroads are not considered in that connection, as there is no complaint by the employes. Every man has been given work that applied, and many of the

men are working overtime. As the local mine will soon be one of the few mines in the state working it is likely that great pressure will be brought upon the miners here to go out. At pres-ent there is every likelihood that they will be deaf to all entreaties to join the general strike.

Pittsburg sends word that "the New York and Cleveland Gas Coal company has refused to meet the arbitrators, and this practically kills the arbitration plan." A Columbus correspondent quotes President Ratchford as saying: 'The suspension is more complete to day than at any time since the suspension began. There is not a murmur of discontent among the miners; every change adds strength to our forces. The states of Ohio, Indiana, Illinois and western Pennsylvania are completely Drew on Sight.

Commercial law terms are not entirely safe at all times. John E. Watrous, deputy United' States marshal for the southern district of Kansas, sends in this story:

Mart Hoover years ago, when Kansas was not the cultivated commonwealth it has since become, had sent a consignment of corn to a commission merchant in Kansas City. The merchant telegraphed, telling the consignor: "Your eredit is \$27.40. Draw on me at sight."

But Hoover was mad. He had expected his money, and none came. He elt he had been duped, and he treasured up the grievance. One time, about six weeks later, the commission man came to Hoover's town, got out of the bus and started to walk down street. Hoover saw him and instantly drew his revolver and fired. His eye was fairly good. The bullet cut away the mer-

lar Then Hoover put up his gun.

"That's expensive shootin," said he, but I reckon you're as sorry as I am. "What do you mean?" demanded the

town constable, arresting the gun man. "He told me to," said Hoover, sur-

prised "Told you to?" demanded the white cheeked city man. "I never did anything of the kind." "You did," said Hoover, and draw-

ing out the telegram he read:

'Draw on me at sight.' "I done it," said he.-Chicago Post.

Meeting of the National League at Detroit.

# WELCOMED BY GOVERNOR PINGREE

Interrupted in His Speech on Account of the Applause Which Greeted the Illinois Delegation, Headed by Governor Tanner - Congratulatory Telegram Received from President McKinley - Telegrams from Prominent Republicans.

Detroit, July 13 .- Cool and pleasant weather was furnished for the opening of the tenth annual convention of the National League of Republican Clubs, which was called to order considerably later than the schedule hour of 10 o'clock Tuesday morning. Rev. Dr. Robert J. Service of the Trumbull Avenue Presbyterian church came forward to offer prayer. He prayed for a blessing on President McKinley, congress, the governors of states, and all others in authority, and that the na-tional honor might be saved from tarnishment. President Woodmansee then introduced Governor Pingree to deliver the address of welcome on behalf of the state of Michigan.

### Applause for Illinoisans.

The governor was compelled to pause for a moment on account of an interruption caused by a ripple of applause at the entrance of the Illinois delegation, headed by Governor Tanner. Mr Pingree's address was not in any sense a spread eagle speech, and the applause was rather faint, coming mostly from his friends in the Michigan delegation. At one point the governor aroused a genuine burst of applause by an interpolated reference to the miners' strike, expressing the hope that it, would be succesful. Colonel Henry M. Duffield of this city welcomed the delegates on behalf of Detroit. E. N. Dingley Jr., of Kalamazoo, was

the next speaker. As president of the Michigan League of Republican clubs he welcomed the visiting delegates.

WANTED TO BE RID OF A WIFE.

He Resorted to Desperate Means Because Mrs. Creede Insisted Upon Renewing Old Relations - Both Had Agreed to Separate-Colonel Bradley and His Runaway Wife to Meet and Make Up at Chicago-Ward Held Under Bail.

Los Angeles, Cal., July 13 .- Nicholas C. Creede, the millionaire mine owner, after whom the town of Creede, Colo., is named, committed suicide with morphine Monday evening, at his home in this city, because his wife, from whom chant's necktie and unfastened his colhe had separated, insisted upon renew-

ing their marriage relations. On Jan. 4 last Creede and his wife separated and agreed to dissolve at once as far as possible without legal process their martial bonds Mrs. Creede accepted \$20,000 cash and surrendered all further claims upon her husband, at the same time voluntarily withdrawing from his premises. It was understood, after the necessary time had elapsed, Creede would institute legal proceedings and begin suit for absolute divorce.

### Went to Alabama.

At that time it appeared that both husband and wife were well satisfied that they were not required to maintain relations, and while Mrs. Creede considered that the amount of cash settled upon her was insignificant as compared with her husband's wealth, she left him and took up her home in Alabama. About three weeks ago Mrs. Creede returned to Los Angeles and proposed to her husband a reconcilia-This was much to Creede's distion. taste, and he endeavored to avoid his wife, but being unsuccessful, he determined to end his life. Monday evening he took a large dose of morphine and went into the garden to die. He was discovered by a servant and medical aid was summoned, but he died two hours later. Mrs. Creede was notified of her husband's death, but declined to discuss the tragedy.

Colonel Bradbury and His Eloping Wife Expected to Meet There.

San Francisco, July 13.-Mrs. John Bradbury, wife of a Los Angeles millionaire, who eloped with W. R. Ward and was subsequently arrested in this city, is speeding away on an east-bound train toward Chicago, free from the toils of the law and innocent, so the court declares, of the crime charged against her.

Ward, the man who induced her to leave her home, stays behind, held under a cash bond of \$2,000 to answer to the charges brought by the Society for Prevention of Vice. Mrs. Barning, Mrs. Bradbury's mother, aided by influential friends, has accomplished the purpose for which she came to this city and accompanied her daughter on her journey. From the other end of the continent Colonel Bradbury is said to be approaching his wife to extend in person forgiveness. It is understood there is to be a reunion in Chicago and the couple will go south.

The Michigan Trust Co., for the bondholders, appealed to the supreme court, which has reversed the decision as to all the employes, except Toots. The court holds that the labor performed by the petitioners, with the exception of Toots, was that of professional men, rather than laborers, and not such as is covered by the statute relative to preferred labor claims.

# Why Your Back is Lame-Why it Aches and Pains, and How to Cure it.

Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching back, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire. Plasters won't do it, but may assist in bringing strength. Liniment may assist in bringing strength. Liniment won't do it; for, while it may give tem-porary relief, it does not reach the cause. The cause, there's the point; there's where to make the attack. Most backaches come from disordered kidneys, therefore you must correct their action if you would be cured. Read the following from D. D. Cook, whose address is No. 18 Michigan Street Grand Banids. He says:-

Cook, whose address is No. 18 michigan Street, Grand Rapids. He says: — "I have used Doan's Kidney Pills and wish to say it is a truly great medicine. Thirty years ago I had nervous prostration while in the army, where I served for over four years. I think it was during this service that the seeds were sown which have caused all my trouble. Severe bilious attacks bothered me, and at such times my kidneys were worse. It is almost im-possible to describe the pain which so possible to describe the pain which so often lamed me. I have been so lame that to stand up after I had been sitting down required a great exertion. Walking was at times an impossibility, even at night I did not rest, being forced to get up during the night. I heard of Doan's Kidney Pills and wondered if they could make an al-most lame man well. I got some, and soon after taking them began to feel their soon after taking them began to feel their good effects. I used them for some time, my lameness all left me and I have not felt it since. Doan's Kidney Pills have done me an inestimable amount of good.'

# DINED WITH A CORPSE.

A Fisherman Discovers His Partner's Death at the End of the Meal.

Ashland, Wis., July 13 .- A peculiar instance of a fisherman eating dinner with a dead man came to light Tuesday at the inquest over the body of O. Carlson. CHAS. E. HISCOCK, Monday noon Carlson, who had been feeling ill for several days, sat down to table to eat dinner. He must have died soon after, for he was leaning his head on his hands, when his partner, Olson, came in.

Olson took no particular notice of Carlson, except to speak to him, and proceeded to cook his dinner. This he placed on the table and seated himself opposite the corpse, asking it to join him. He did not think it strange that Carlson did not eat, because he had been ailing for forth, Pres. Luick-4. two or three days, so Olson ate his meal in silence. When he had finished Carlson's brother came in and discovered by the staring eyes that Carlson was dead.

# WILL KEEP HAWAII.

# United States Marines Are To Be Landed on the Islands.

Washington, July 13 .- The administration has taken steps to keep its grip on Hawaii. Any suggestive interference on the part of Japan will result in the land-Ing of marines and the hoisting of the American flag with or without the rat-ification of the pending annexation treaty. The administration, realizing that some crisis might arise while the treaty still hangs fire in the senate, has taken steps to be prepared for any emergency. Rear Admiral Beardslee will have, when the next steamer arrives in Honolulu, instructions giving him power to act at the first sign of aggression on the part of Japan or trouble of any kind with which the local authorities are not able to cope.

Rear Admiral Beardslee will be given sufficient force to carry out the programme that events may force upon him. It is definitely settled that the battleship Oregon, now en route to San Francisco from Seattle, will be dispatched to Hawaii as soon as she can be prepared for the voyage. This will give Admiral Beardslee three vessels—the Oregon, Philadelphia and Marion. Japan has at present but one vessel in the harbor at Honolulu—the cruiser Naniwai. She has has another cruiser at San Francisco awaiting orders which may take her to the Hawaiian islands.

Apparent Excuse for the Recent Accident at Bay City.

Lansing, Mich., July 13 .- Mechanical ngineer Moore, by direction of Railad Commissioner Wesselius, has made exhaustive investigation of the acdent on the Inter Urban railway at ay City last week, which resulted in e loss of seven lives. In his report ade to the commissioner, he says that is patent that the company had in rce no rules requiring that cars be rought to a standstill on approaching he draw bridge, and that it was a comon custom to proceed without stopping nless upon a clear signal from the idge tender. He expresses the opin-n that the accident must have occurred rough gross negligence or a lapse of uman faculties on the part of the mo-rman and conductor, for the reason at there was a clear view of the bridge

nd draw for more than half a mile. The construction of a derailing and gnaling system was ordered and agreed by the company, the only reliable and re safeguard against such accidents sing derailers constructed and intereked in such a manner as to compel e cars to be stopped before the daner point is approached. The report ills attention to the fact that there are ree draw bridges in Saginaw and one in Bay City where similar provisions against accidents should be made.

SUPERIOR AND DULUTH UNITED

The Big Steel Bridge Is Formally Opened for Traffic.

West Superior, Wis., July 13.—The big steel bridge uniting Superior and Duluth was opened for traffic at 2:30 Tuesday afternoon with appropriate ceremonies. At that hour Mayor Truelsen of Duluth and Mayor Starkweather of Superior, with prominent citizens from either city, met 'upon the great draw span, which is the third largest in the world, and in the presence of the thousands of spectators, with appropriate speeches, the whistle of vessels, the blare of brass bands, formally opened the great highway. The center draw is 491 feet long and

weighs 2,200 tons; total length of bridge is 1,094 feet between approaches. A clear waterway of 200 feet is opened on either side of the draw pier when the span is swung. Tugs and small vessels pass under without swinging the draw. Electricity is the power used in swinging the span, which makes the turn in twenty seconds. The structure is flftyeight feet wide, arranged for two railway tracks, besides street railway, wa-gon and foot passenger ways, and cost about \$1,000,000.

# Vetoed by Mayor Harrison.

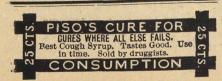

Chicago, July 13 .- Mayor Harrison was feeling particularly good Tuesday morning over his success in securing the defeat of the General Electric ordinance at Monday night's session of the council. He declared that he was more than pleased to know that enough members of the council remained loyal to him and thus prevented the friends of the measure from carrying it over his head. The defeat of the ordinance came as a surprise to many, who, in view of the stronuous efforts made secure votes in i's behalf, predicted that the mayor would not be able to muster the needed number of aldermen to sustain his veto.

France and Britain Reported Displeased with Work in Turkey.

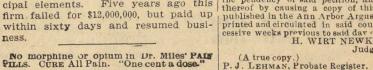

Berlin, July 13 .- The Tageblatt's Constantinople correspondent says that the British and French ambassadors to Turkey are about to be recalled, owing to their government being dissatisfied with their conduct in connection with the peace negotiations. It is stated that Emperor William, who is now on a Northland tour, kept the telegraph wires between Norway and Berlin occupied with official dispatches during the whole of Sunday night. These dispatches, it is supposed, were in reference to Eastern affairs.

A queer freak of lightning which happened the other day on the farm of Jas. Buchanan near Dexter, is related by Judge Newkirk. A Mr. Esslinger and the hired man were at work loading a wagon with hay, when a small black cloud appeared over their heads. With scarcely any warning a thunder bolt shot out from the cloud and struck the tines of the pitchfork, which the hired man was holding upward. The lightning was conducted down the handle of the fork which was ripped into splinters. The man's hands were severely burned and he and Mr. Esslinger were knocked senseless. One of the horses was knocked down, but came to before the men did and the team ran away to the barn, where they were found later. The results were not serious in case of either of the men.

Up to this time we have had a great deal of color in our gowns and combinations which heretofore were considered far to gay for street wear. Violet and red has perhaps been the most odd combination, while blue and green, cerise and purple, black and gold, have attracted their own shara of notice. Now that the weather has settled and has become permanenty warm, such combinations as these are almost entirely abandoned and dove gray and yellow, slate gray and pale pink, blue and white lavender and corn color hold sway in the soft materials for extremely warm weather. A large variety of shades in green are worn, sometimes two or three shades in one gown, and often one shade com-

bined with cream, white or linen. Almost all of thin batistes, dimities, awns, swiss and linens are made over colored slips and trimmed with ribbons, the same color as the slip or a contrasting shade. As silk is rather expensive for these summer gowns. he stores are showing a large variety of lawns in solid colors, which make a cool and durable lining. Some skirts have the outside materials cut away to make curved or pointed yoke effects, leaving the plain lining for the yoke. This is often outlined with a band of lace, insertion, or two inch wide rib-bon gathered in the center to make a double ruffle.

The skirts are trimmed around the bottom quite a little. Three and four narrow ruffles, either double or single, with lace at both edges, make a pretty finish for thin dresses. The traveling gowns are sometimes trimmed with bias bands of the goods. Some of these are graduated, the narrow ones being near the top, while others use inch wide bands altogether.

Large varieties of latest models can be found in the late numbers of Mc-Dowell's Fashion Journals (published t 4 West 14th street, New York). La Mode de Paris" is \$3.50 a year, 35 cts. a single copy. "French Dressmaker" is \$3.00 a year, and 30 cts. a single
