

CARNEGIE ASKED FOR GIFT TO ANN ARBOR

Library Site Already Secured and a Movement in Foot to Unite the Ladies Library and the High School Library

If the plans now in the minds of the city school board and the Ladies' Library association can be carried out, Ann Arbor will find itself in the possession of a handsome public library at no distant date, as the initial steps have been taken looking to a consolidation of school and Ladies' Library association interests, and the solicitation of \$20,000 from Andrew Carnegie for a new building.

The matter was brought before the city school board Tuesday by Mrs. Anna B. Bach, a board member, who, in the capacity of a committee from the Ladies' Library board, explained the possibilities of the situation.

The library committee of the board were directed to investigate and to confer with Mrs. Bach in regard to the details of the arrangement and to report at an early meeting, while Mrs. Bach will render her report to the Ladies' Library association at the annual meeting Monday afternoon.

There is no reason why the school and Ladies' Library association should not consolidate their interests and ask Mr. Carnegie for money for a building," said Mrs. Bach to a reporter this morning, "as the association have a site, which is one of the requirements connected with Carnegie's gifts, while the school and association spend at least \$2,000 a year in keeping up the two libraries, and that would be ten per cent of \$20,000, which would be as much as we would need for a building. Carnegie, you know, stipulates that the city shall furnish for the maintenance of the library ten per cent of the cost of the building he gives, and this keeps many cities from taking advantage of his offer, but by the proposed arrangement Ann Arbor could get a \$20,000 building without the cost of a cent additional. We would then have a free library, which is not now the case, as the association charges a membership fee of \$1 per year."

Mrs. Bach explained that the plan is as yet in its infancy and that many details will need to be looked up before any attempt can be made to secure the \$20,000 from Carnegie. The Ladies' Library association have a \$4,300 memorial fund for the purchase of books, which could not be turned over to the city, while there is considerable doubt whether the association itself could legally be merged into a public institution. The necessary mode of procedure would probably be for the association to rent their grounds and building to the city and then use such rent for new books.

"That's the way it is done at Ypsilanti," said Mrs. Bach, "where the Ladies' Library association have a building that was given to them by a wealthy citizen on the condition that it should revert to the estate if at any time it passed from the hands of the association. The city pays several hundred dollars toward the library's support, and the books are free, but the city money goes down as rent, and the association keeps its name."

There was talk two years ago of a consolidation of the Ladies' association and the school library, but although many in both boards were in favor of such action the project was allowed to die a natural death.

The ladies are all enthusiastic advocates of the new plan and the talk at the school board meeting last evening was also favorable.

Much time was given at the meeting of the board of education Tuesday to perfecting the contract with Koch Bros. on the new first ward school building and discussion of certain changes in the specifications and examination of the contractors' bonds. The bonds amount to \$20,000 and are furnished by the Aetna Indemnity Co., of Connecticut, through the Detroit office of the concern. Ten thousand dollars of the bonds are for the faithful performance of the conditions of the contract and ten thousand dollars to cover all matters of material and labor.

Koch Brothers are to be given possession of the grounds to begin work on the new building on or before May 1.

Some discussion was indulged in relative to the percentage allowed Architect Oates for his plans. It developed that there is an agreement among architects on this point and that the price paid Oates is the regulation trust price.

Mrs. Bach, as a representative of the Ladies' Library, presented a proposition from that organization looking toward the consolidation of that library with the school district library and the joint organization moving to secure a gift of \$15,000 or \$20,000 from Mr. Carnegie. It was stated that the ten per cent on the sum given which he is in the habit of requiring cities to raise each year on his gifts would not be more than is being put into these libraries now and that consequently it might be a good thing to try to secure a gift from him. The matter was referred to the library committee with Mrs. Bach added.

YPSILANTI MUST SETTLE

For Several Years Money for Fines Held Back

HOLD UP LIQUOR TAX

In This Way the County will Endeavor to Force Ypsilanti to a Settlement

Ypsilanti is soon to be brought up with a round turn in the matter of the \$500 or \$600 it owes the county library fund in statutory fine money, for the county officials will refuse to hand over the \$1,000 or more delinquent taxes they have collected for Ypsilanti until the library fund claim is settled, and in addition they will hold back the \$3,000 or more that will be paid in during May by the Ypsilanti saloon keepers.

Prosecuting Attorney Duffy had it brought to his attention last fall that for the past five or six years Ypsilanti has failed to turn over to the county the statutory fine money collected by the justices of the peace, and he brought the matter to the attention of the Ypsilanti officials. Investigation showed that by the city charter the Ypsilanti justices are obliged to hand in all fines to the city, so the councils of the past few years were at fault in not forwarding the statutory money to the county.

A committee was appointed to determine the exact amount that is due the county, and after two weeks' work they reported to the Ypsilanti common council, but the latter body has as yet delayed in remitting. Some time ago it was proposed at Ypsilanti that the city offset the claim by a bill for expenses to which the city has been put by fighting contagious diseases, and a committee was appointed to look up the amount, but it has not made any report.

Prosecuting Attorney Duffy has wearied of the procrastinating tactics of Ypsilanti and announced this morning that the county officials will carry the war into the enemy's camp by refusing to hand over the delinquent taxes or the city's half of the liquor license money.

"In a few weeks we will have about \$4,000 that belongs to Ypsilanti, so I guess they will be willing to settle our claim of a few hundred dollars to get it. We could of course commence suit against the city any time, but it would mean an expense to one or both parties, and if we chose we could take out the fine money that is coming to us, and turn over the balance of the \$1,000 now in our possession, but that would not be entirely satisfactory either. We will therefore hold back all the Ypsilanti money until they pay up what is coming to the library fund."

The prosecutor says that even if Ypsilanti comes forward with an offset on the contagious disease score, he will refuse to give them credit for it, as he wishes every item settled on its own basis and merits. If the county owes the city of Ypsilanti because of efforts for the prevention of contagious diseases well and good, the bill should be brought before the supervisors. That, however, has nothing to do with the statutory fine money.

It is believed that the present council at Ypsilanti have put off settling the claim in the hope that it would go over until their successors assumed office and the budget was made up for the coming year. They have been accused of extravagance, and it is said that they are now trying to keep expenses down in every possible way.

DID SHE RUN INTO A WAGON

OR DID HER HUSBAND HIT HER WITH A SHOE

The Question in the Assault and Battery Case of the Whitmore Lake Blacksmith

Rudolph Ludholtz, shoer of horses at Whitmore Lake, was bound over to the circuit court, Wednesday, by Justice Frank Taylor, of the Lake, for alleged assault upon his wife.

The testimony was to the effect that the smith beat Mrs. Ludholtz about the head with a shoe because she had neglected to have water ready for his tri-weekly bath when he came home one evening, and was slow in getting paper from a neighbor's.

"I didn't touch her with a shoe," he said with a great show of indignation, "I just slapped her a few times with my open hand."

"How did she get those marks on her forehead?" asked the justice.

"She must have run into a wagon that stands in the yard," responded Ludholtz.

The justice didn't see it that way, and the smith was bound over to the circuit court.

THE ENGLISH THOUSANDS

AN ADOPTED DAUGHTER CLAIMS HER SHARE

Mrs. Stella May Bowen of Manchester Files a Bill Asking For Rights in John G. English Estate

Mrs. Stella May Bowen of Manchester has filed a bill in the circuit court to get her share of the John G. English estate. She sets up that she was adopted by Mr. and Mrs. English when six months old and had always been regarded as their daughter, taking the name of English. Her foster mother died in 1879, after deeding 36 acres to Mr. English for 20 years with reversion to her. This land she claims was included in the inventory and she wants the title conveyed in her. In 1897 Mr. English married again and died Jan. 1, 1902, leaving an estate valued at \$20,546, with his widow, brothers and sisters, part of whom she claims deny her right to inherit as a daughter. She wants the court to give her a share of the estate.

STANDARD TIME FOR ANN ARBOR

Everything will Probably Run on it Next Week

COURT HOUSE CLOCK

Will be Set on That Time and Schools will Run on Standard Time

Ann Arbor is to have standard time at last.

The court house clock is to be set on standard time. The University clock is to be set on standard time. The city schools are to run on standard time. The D., Y., A. A. & J. is to run on standard time.

The board of supervisors after a hot fight last October, decided to set the court house clock on standard time as soon as the University and the street cars adopted it. The University regents determined on standard time as soon as the others adopted it. The school board adopted standard time to go into effect at the same time. The electric line thus held the key to the situation. They have decided to adopt it as soon as they put in their interlocker on W. Huron street, which will probably be on Sunday next. Cars will then run through from Detroit to Jackson.

Standard time has been a long time coming, but it is about here at last.

SHADFORD TO GET HIS DAMAGES

The supreme court has affirmed the judgment for \$8,500 in the case of John H. Shadford vs. the Detroit, Ypsilanti & Ann Arbor railway. Under this decision Mr. Shadford may now collect the damages for injuries received while in the employ of the old city railway some years ago by falling from a scaffold while repairing the wires. This case has been a particularly hard fought one and Mr. Shadford has had the sympathy of the community.

DEXTER WAS OUT IN FORCE

There was a large attendance Monday evening at the initiation and banquet of the local camp of the Modern Woodmen of America, about 75 being present, 20 of whom were from Dexter. The foresters and officers conferred the three degrees upon the candidates—Adam Schlecht and Jacob Wurster. Elegant refreshments were served, the initiating team acting as waiters. A very enjoyable time was had, especially by Messrs. Schlecht and Wurster.

MYSTERIOUS DISAPPEARANCE

John Beck Left no Word of Whereabouts

MISSING TWO WEEKS

He Lived all Alone—Police Failed to Find Trace of Him on His Premises

Where is John Beck? John Beck is a bachelor who lives all alone in a red brick house on W. Liberty street. For years he drove a wagon for the Central Mills, but for the past few years he has not been in active work, having amassed a competence.

He has not been seen by his neighbors for about two weeks. The police entered his house and after a thorough search failed to find any trace of him.

He traded a farm in the country recently with Charles M. Buehler for the house on 514 S. Third street. He had leased the farm for four years and when the lessee tried to turn his cattle in the purchaser of the farm refused to let him do so and the lessee wanted \$300 damages out of Beck. Beck offered, it is said, \$200. Some think that this is the reason for his disappearance.

John M. Wagner thinks he saw him in a farmer's wagon last Saturday, but other acquaintances claim that it is about two weeks since he has been seen.

Where is John Beck?

TROLLEY PULLED OUT ON WRONG SIDE

CONTINUATION OF THE HERBERT HARRISON INQUEST

Expert Reilly was on the Stand for Two Hours Cross-Examination

The inquest on the death of Herbert J. Harrison, the motorman killed near Chelsea, March 11, was continued before Coroner Watts Tuesday. Chief of Construction Reilly of the Westinghouse system being on the stand for a two-hour cross-examination. He said the poles 35 feet high were of the usual height on which the high tension feed wires were carried, acknowledged that the trolleys when changed were usually changed a substations and that perfect safety could then be secured by erecting 50-foot poles there. The trolley could have been pulled out on the left side with safety but when pulled out on the right side was in danger of coming too near the heavily charged wire.

The inquest was then adjourned until Friday.

WAR SONGS AT RELEIF CORPS

The entertainment given under the auspices of the Women's Relief Corps Tuesday evening was most enjoyable. Mrs. Hinsdale read a most interesting paper which showed much careful preparation. She had culled the most meritorious war poems and songs and gave interesting sketches of the writers' lives and the circumstances under which they were written.

Interspersed throughout the reading Mrs. Hoff sang war songs in her sweet, sympathetic voice, the audience joining in the familiar choruses. Several musical selections were rendered by Miss French's orchestra and Mr. Denney gave two recitations, on humorous and the other, the old favorite, "Barbara Fritchle," in a manner which pleased the audience greatly.

After the reading and rendition of the songs, ice cream and cake was served.

EXTENDS RHODES' LIFE POLICY.

One of the most significant characteristics of the present time is the disposition of the world's very rich men to make vast gifts to the cause of education. Others have given larger sums, but it remained to Cecil Rhodes, the South African genius and multi-millionaire to devise the most imperialistic scheme of the kind which has yet been promulgated. By the terms of his will he sets apart ten millions of dollars with which to found scholarships at Oxford, his alma mater. This gift, in amount, does not approach some of those of the Scotsman, Carnegie. But it is in the scope of his plan that the imperialistic conception of the man manifests itself. His scheme does not embrace the world, but it includes the whole Anglo-Saxon race. It provides sixty scholarships at Oxford for England and the British colonies, fifteen for Germany, and one hundred for the United States. The qualifications are equally broad and include the highest marks for scholastic, athletic, manly and moral attainments. These scholarships are to be open to undergraduate youth of the countries before named.

If his plans are carried out, the tendency will be to draw America and the colonies into closer relation with England. There may be some difficulties in carrying out the details of the plan, but the brain which planned this comprehensive scheme has probably solved the problem.

The idea would have been a more attractive one probably had the scholarships been limited to advanced students. For many reasons the years of undergraduate work are best spent in the universities of the students' native country. For instance, with American youth, is it not better that their years of undergraduate study be spent amidst the influences of American ideas, purposes and convictions? The plan is certainly a great one and a high tribute to the genius of Cecil Rhodes, as well as university education. It indicates a lofty mind and a broad grasp of twentieth century ideals. Mr. Rhodes has in this bequest disposed of his wealth in a manner that will yield the greatest returns.

Senator Hanna in an address in Philadelphia on "Industrial Conciliation and Arbitration," while contending for the right and necessity of capital to organize as freely acknowledged the right and necessity of labor to organize. There are students of Senator Hanna's past, however, who do not feel inclined to concede his entire sincerity in all that he said. They think the senator is listening to the dream-producing buzz of the presidential bee. There are indications which squint that way, but it would be straining the facts to say that there has been in the immediate past any change of Senator Hanna's attitude toward organized labor. He has always stood well with organized labor. He may be desirous to realize on this fact in the coming contest, but, if he is, it will have to be conceded that it is a desire simply to appeal to the power of a pretty long and consistent record. Objectors to Senator Hanna as a presidential candidate will have to base their opposition on other grounds than his record relative to labor.

The Cuban reciprocity bill will be up in the senate this week and indications are that it will have a hard road to travel. It is probably true that a majority of the senators are for the Cuban concessions, but the minority in the senate has a long lease when it is desired to hang up a measure and indications point to a determination to fight the bill to the end of the session, if need be, to prevent its passage. Its passage may be considered very problematical therefore.

The bequests of Cecil Rhodes will start an enduring impulse between the great nations which have been made the recipients of his gifts and arouse sentiments of good will which will tend to forward the cause of christian civilization.

MRS. SECRETARY, WHAT ARE YOU GOING TO DO ABOUT IT?

The governor of Louisiana has informed the authorities at Washington that there is a British military camp in full organization in that state, but a short distance from the city of New Orleans. This camp is reported to be under the control of British officers and is established to facilitate the work of buying and shipping horses and mules to South Africa to be used in the war against the Boers. It is a part of the British military system used in furnishing remounts for the South African army which have been declared to be more necessary than men at this juncture of the conflict.

Again and again the charge has been made that our neutrality laws were being violated by British agents in this country, but the Washington authorities seem to have given the charges little attention. This latest charge, that a branch of the British military system is established here, under high officers of the British army who are engaged in open violation of our neutrality laws, has also been placed before our state department. Will Secretary Hay act? If all this does not prove the pro-British sympathies of the state department, what would show it? Does any one believe for one moment that if Germany, or France, or Russia occupied the places of the two Boer republics that this sort of thing would be permitted? Does anyone think England would even have been permitted, through authorized agents, to buy and ship horses and mules to the field of conflict, let alone establishing a regular camp under the direction and control of British army officers, for the systematic carrying forward of such flagrant violations of the laws of neutrality?

The fact that such a camp exists on our territory shows how thoroughly we have become imbued with the doctrine of might rather than right. The struggling Boer republics cannot make any show of force to prevent our unwarranted traffic with the British government and consequently it goes on, our laws to the contrary notwithstanding. Our moral obligations are thrown to the wind. There is no physical force to call us down and hence the laws are violated with impunity. It is a shame and a disgrace. Will the country permit this thing to continue now with this overwhelming evidence before it? We shall see.

Evidence accumulates every day that President Roosevelt is not destined to be a popular president with the political forces which are generally credited with the business of making the mare go in national political matters. It is quite as impossible for a man of his make-up to keep close to these forces as for water to run up hill. He believes in having his own hand on the throttle too firmly to suit the machine men and as a result he is very likely to find himself outside the machine's sphere of influence when the punt for delegates really begins. His conduct of his great office has thus far, however, been reasonably satisfactory to the people. But whether he can pull strongly enough with them to gain re-nomination without the machine remains to be seen. Then there is the additional factor against him that he is an accidental president and none such have ever thus far in the history of the government been able to land the prize before a national convention.

The oleo bill, now before the senate, is causing its friends all sorts of trouble. On the face of it it is a revenue measure, while in reality it is a measure to regulate commerce within a state. It is a bill making one wholesome food product subservient to another. It is an interference with one industry in the interest of another by the taxing power. It is an iniquitous measure, but is probably destined to pass for there is partisan need for it.

18,350 SHEEPSKINS BEEN GIVEN OUT

ESTIMATED THAT THERE ARE ABOUT 15,000 LIVING ALUMNI

The Number of Deceased Graduates and Non-Graduates is Thought to be About 4,000

According to the latest statistics from the University of Michigan 18,350 diplomas have been given to date. The first commencement was held Aug. 6, 1845, and 11 students received the degree of bachelor of arts. Since that time 56 commencement days have come and gone and members of as many classes have received degrees.

As regards the number of diplomas granted the law department stands first, the literary second and the medical third. The number of diplomas issued by each department and the number of diplomas granted for honorary degrees, are as follows: Law department 6,466 Literary department 5,353 Medical department 3,523 Dental department 1,013 Pharmaceutical department 853 Engineering department 615 Homeopathic department 372 Honorary degrees 155

Total 18,350 Of the 18,350 diplomas conferred by the law department all but 130 were for the degree of bachelor of laws—the latter number being for the degree of master of laws. In the literary department 4,388 diplomas have been issued for the bachelor degrees, 482 for the degree of master of arts, taken in course, and 483 for the masters' and doctors' degrees taken on examination. In the dental department diplomas for eight advance degrees have been conferred: in the pharmaceutical 5, and in the engineering 36.

While 18,350 is the number of degrees conferred (and diplomas given), it is not the figure for the number of alumni of the institution. Not a few persons have taken more than one degree and therefore received two or more diplomas. An estimate as to the number of second and third degrees conferred, gives 1,250, which amount deducted from 18,350 gives 17,100. This latter figure is not far from the correct number of the different persons who have been graduated. In round figures on the alumni of the University number 17,100.

Although over 17,000 persons have been graduated from the school the number of persons who have come under its influence has been much larger. More than 12,000 persons have attended different departments of the institution—during the years 1841-97 without taking a degree. The exact figure is 12,643. This number, however, includes a few who entered the University at a later date than September, 1897, but have since become deceased.

The total number of deceased graduates and non-graduates, as reported by Prof. Demmon, is 4,151. The number of deceased graduates is 2,105, distributed through the several departments as shown in the table below, and the number of non-graduates was 2,046. The table is as follows: Medical department 672 Law department 655 Literary department 529 Pharmaceutical department 73 Engineering department 53 Dental department 49 Honorary graduates 40 Homeopathic department 35

Total 4,151 Non-graduates 2,046

Total number deceased 4,151 With the above figures and those which preceded, it is possible to approximate the number of graduates and non-graduates of the University now living. Deducting the number of graduates who are deceased (2,105) from the estimate of the total number of persons graduated (17,100), the figure 14,995 is obtained; and subtracting the number of deceased non-graduates (2,046) from the total number of non-graduates (12,643) the figure is 10,597. In round numbers the living graduates number 15,000 and the living non-graduates 12,600.

Of the 57 classes that have gone out from the University the class of 1900 with its 776 members was the largest and the class of 1845 with its 11 members was the smallest. The second largest class was that of 1896 with 771 members and the second smallest was that of 1847, with 12 members. The steady growth of the University can be seen by the increase of the graduating classes from year to year. The following table gives the size of the class every fifth year since 1845:

Table with 2 columns: Year and Number of Graduates. Rows: 1845 (11), 1850 (17), 1855 (40), 1860 (109), 1865 (220), 1870 (343), 1875 (374), 1880 (417), 1885 (508), 1890 (558), 1895 (720), 1900 (776)

The class of 1845 has been increased by one since graduation day by the board of regents conferring a degree on a graduate as if he were a member of that class.

A SENSATION FLATTENED OUT

Newman Breach of Promise Suit Dropped

SETTLEMENT REACHED

Mrs. Newman Pays Part of the Chattel Mortgage and Gets Lease on Hotel

The \$20,000 breach of promise suit of Mrs. Mattie Newman vs. Charles F. Kayser has been settled out of court and those who have been anticipating a trial with some racy testimony will have to go 'way back and sit down until the troubles of somebody else get into court.

The suit was precipitated by the fact that Charles F. Kayser, the owner of the Newman house property, had started to foreclose on the chattel mortgage held on the hotel furnishings of Mrs. Newman. There were also proceedings taken to get her out of the hotel.

The attorneys got together and arranged matters whereby Mrs. Newman is to pay a part of the chattel mortgage and she gets a lease of the property for one year with the privilege of two more.

Thus she will be left in the quiet enjoyment of the property and Mr. Kayser will continue to manufacture cigars.

The case is dismissed by stipulation.

THE JUNIOR EX FRIDAY EVENING

Despite counter attractions the junior exhibition at the high school Friday evening was the center of interest for a large number of people.

Ten young people, the pick of the junior class, carried out a most pleasing program.

In anticipation of the event the large assembly room had been decorated with the high school, the senior class, and the junior class colors. In silver letters on a blue background over the platform was the motto of the class of 1902, "Loyal to Truth." On either side of the platform were banks of palms.

Prof. Pattengill, principal of the high school, was the presiding officer of the evening. With him on the platform, however, were the members of the school board, Supt. Stauson and the high school faculty.

The program was introduced by a selection by the high school orchestra. Rev. J. M. Geiston of the First Presbyterian church offered prayer, after which another selection was rendered by the orchestra.

The first oration was by Arthur Charles Cole. The subject on which he had written was "America in the Philippines." He took an optimistic view of the matter; and presented the vital facts in such a convincing manner that he won the approval of his hearers.

"A Royal Coronation" by Miss Lillie Louise Hogan was then given. Her introduction was to the effect that people are now looking toward the coming coronation of King Edward VIII. But this event, in her mind, is of no greater significance than the coronation of his mother, Queen Victoria.

Miss Louise Anna Mann told of some of the "Myths of the Rhine." One was the story of the clock, which is always an hour ahead of time in commemoration of the narrow escape of the city from capture. Another myth was that of the silver bells—the one which tolled at the death of an emperor and the other at the death of a common person—and their transposition, which brought forth the thought that with death the distinction between an emperor and a common person is lost. The several myths were pleasing told.

Leo Harvey Darrow of Chicago, with the timely subject, "Wireless Telegraphy," gave a timely oration. He pointed out the significance of the recent invention, not failing to call attention to its possibilities.

Under the title, "The Model High School," Miss Nellie Malcolm MacNaughton made a few suggestions which those present seemed to endorse. Among other things she said that in the model high school the studies pursued by the pupils would be only those fitted to their special talents. She successfully "hit off" some of the peculiarities of the Ann Arbor institution.

The "Scientific Achievement" described by Miss Rosina Katherine Schenk of Ann Arbor town was a description of the method of getting photographic representations of the minds of the freshmen, sophomores, seniors and juniors. The first was a green background, the second a tangle of algebra definitions and Latin rules; the third a purple and gold mound of conceit; but the juniors had a goodly quantity of common sense and a generous supply of physics' rules.

The question "Have we Outgrown the Monroe Doctrine?" was answered by Victor Benedict Fitzpatrick in the negative. He told of the benefits derived from the Monroe doctrine in the past; and its possibilities for the future.

Miss Lillian Warner presented, under the title, "The Language of the Future," an argument for a universal language. This language she prophesied would be English, and in support of the prophecy she pointed out the great strides made by the Anglo-Sax-

ons and their language up to the present. The advantages of a single language in fields of science, literature, commerce and diplomacy were not overlooked.

The history of the Ann Arbor high school since organization in 1861 was handled by Horace Douglas Wines under the head of "Ancient History." He referred to the development of the societies, the various interesting incidents that have occurred in former years and paid tributes to several men who have held the position of superintendent, including the present incumbent.

The "Curious Beliefs" of the day were reviewed by Miss Mabel Wood of Lodi. She gave the origins of such superstitions as 13 at a table, the beginning of an undertaking on Friday, the man in the moon, the horse shoe and several others.

Interspersed at suitable intervals were selections by the orchestra.

Great credit for the success of the exhibition is due to the Misses Sara Whedon and Eliza Cady. The former had charge of the composition of the oratories and essays, and the latter carefully drilled the different persons as to the manner of delivery.

GOPHERS BEAT WOLVERINES

Minnesota Won the Debate From Michigan

UNANIMOUS DECISION

But the Verdict was Somewhat Unsatisfactory to the Crowd

Chicago, April 4.—By a unanimous decision of the judges the University of Minnesota defeated the University of Michigan in the fourth annual final debate of the Central Debating League held this evening in Music hall, Fine Arts building. The Minnesota men successfully maintained the anti-government position on the Philippine question, arguing for the affirmative of the following question:

"Resolved, That the best interests of the United States forbid that we should permanently hold and govern the Philippines."

The principal point of the Minnesota men was the moral argument. Basing their subsequent arguments on the maxim that governments derive their just powers from the consent of the governed, they led up to the moral statement, voiced with such telling effect by Hugh J. McClearn in a plea for the honor and integrity of the nation, and an appeal not to turn a yearn for humanity into a base and sordid struggle for commercial supremacy. The other Minnesota debaters were Benjamin Drake, Jr., and Willis I. Norton.

Hugo Sonnenschein, Andrew J. O'Connor and Leonard O. Meigs were the Michigan debaters. They emphasized the commercial side of the question, but covered it broadly. The north side of the hall was filled with Michigan enthusiasts and the south side with Minnesota "rooters." There was the usual discussion over the decision. Chicago men present, and some Minnesota men, agreed with Michigan men that they should have received the decision. The judges were Judge Deemer, of Iowa; Judge Howland and John W. Ela. Dr. Edmund J. James, president of Northwestern, whose team was defeated by Michigan and formerly of Chicago, whose team lost to Minnesota, presided.

A Trying Position.

Ann Arbor Readers will Appreciate This Advice.

A constant itching tries your patience. Nothing so annoying. Nothing so irritating.

As itching piles or eczema. To scratch the irritation makes it worse. To leave it alone means misery. Some Ann Arbor citizens can tell you how to be free.

Free from these troubles. Read the following:

Mrs. T. Martiny of No. 501 Detroit street, says: "I suffered a great deal from fever sores and at times the inflammation caused a burning sensation which was intense. I used numerous ointments and lotions but nothing ever gave me permanent relief. I saw Doan's Ointment highly recommended, and got a box at Eberbach & Son's drug store. On applying it, it relieved all the distress and irritation almost at once. I continued the use of it until the part looked healthy and nicely healed."

For sale by all dealers. Price 50 cents. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States.

Remember the name, Doan's, and take no substitute.

HE FEARED HE HAD LOST

When Wu Ting Fang, the famous Chinese Minister to Washington, irritable and somewhat forgetful from a severe cold, missed one day from the front of his cap the immense diamond he always wears there, he was dreadfully frightened. A friend pointed out that the statesman had inadvertently donned his turban wrong side before, and that the diamond was safe in the rear. Had Wu Ting Fang been wearing a Bonson's Porous Plaster on his chest or back to cure his cold, he never would have doubted its location. He would have felt it doing its work,—warming and making flexible the torpid muscles, extracting the pain and soreness, promoting the free circulation of the blood, stimulating the skin and lungs to proper action, and so dissolving and banishing the malady. Thus we perceive, beloved friends, that

THE BIG DIAMOND ON HIS HAT

while a pretty thing to look upon, was of no practical use. But Bonson's Plasters are supremely useful. They relieve and cure gout, rheumatism, neuralgia, colds on the chest, lame back, etc., so quickly and completely as to make you wonder how it can be. Better now,—well to morrow; that's the way they work. Get the genuine. All druggists, or we will prepay postage on any number ordered in the United States on receipt of 25c. each. THE WELL-KNOWN CHICAGO HEART SPECIALIST, FRANKLIN MILES, M. D. L. L. B., WILL SEND \$2.50 WORTH OF HIS NEW AND COMPLETE TREATMENT TO OUR READERS

There never was a better opportunity for persons suffering from diseases of the heart, nerves, liver, stomach or dropsy to test, free, a New and Complete Treatment of these disorders. Dr. Miles is well known as a leading specialist in these diseases, and his liberal offer is certainly worthy of serious consideration by every afflicted reader.

This new system of Special Treatment is thoroughly scientific and immensely superior to the ordinary methods. It includes several remedies carefully selected to suit each individual case and is the final result of twenty-five years of very extensive research and experience in treating this class of diseases. It consists of a curative elixir, tonic tablets, laxative pills and usually a plaster, selected for each case. Extensive statistics clearly demonstrate that Dr. Miles' New Treatment is three times as successful as the usual treatment.

Thousands of remarkable testimonials from prominent people will be sent free which prove the doctor to be one of the world's most successful physicians.

Mr. Julius Keister of 350 Michigan Avenue, Chicago, testifies that Dr. Miles cured him after ten able physicians had failed. Mrs. R. Trimmer of Greenspring, Pa., was cured after many physicians had pronounced her case "hopeless."

Col. E. B. Spelman of the 9th United States Regulars, located at San Diego, Cal., says: "Dr. Miles' Special Treatment has worked wonders in my son's case when all else failed. I had employed the best medical talent and had spent \$2,000 in so doing. I believe he is a wonderful specialist. I consider it my duty to recommend him." "For years I had severe trouble with my stomach, head, neuralgia, sinking spells and dropsy. Your treatment entirely cured me," writes Hon. W. A. Warren of Jamestown, N. Y.

As all afflicted readers may have \$2.50 worth of treatment especially adapted to their case, FREE, we would advise them to send for it at once. Address Dr. Franklin Miles, 201 to 209 State St., Chicago. Mention this paper.

A GOOD WORK APPEALS FOR A HOME SHOULD BE HEARD

And at No Far Distant Date the City Will Have a Magnificent Structure

The canvass for the new Y. M. C. A. building continues with spirit and success and it seems that at no far distant date the city will have a magnificent structure devoted to the work of the most successful social organization in America. The strength and influence of the Young Men's Christian association is largely due to its social feature. Young men will avail themselves of social intercourse and unless places are in existence where they can meet under helpful surroundings they are apt to congregate in places which are questionable.

The Y. M. C. A. is, too, a place where all men of self-respect can meet on an equal social footing. In a visit to the local association the other evening we found the laborer reading at the same table with the merchant and manufacturer, and the clerk, bookkeeper and the young man from the factory meeting and working together on the same committee. The association is not for any one class of men, but for all classes of well-meaning men. No questions are asked as to family tree or financial condition.

The home is the safeguard of our young men, but although the home may be elegantly furnished and the mother and sisters in it noble, pure, and charming, yet the young man in that home must and will have the fellowship of other men of his own age. The association makes such fellowship possible.

But the great majority of young men, it must be admitted, have no such homes as the above. In some places which we call home the social atmosphere is anything but pleasant. Many other young men are away from home and boarding and the four walls of their room soon fail to satisfy them. A nicely furnished Young Men's Christian association building is, therefore, a benediction to every young man, be he rich or poor, living at home or boarding. By our gifts let us make it possible for our city to have such a home for its young men—a home which shall stamp its influence not only upon the present generation of young men, but with ever increasing power upon every succeeding generation.

Stops Pain

Omega Oil Pains are very much alike. As the old saying goes, "Six of one are half a dozen of the other." The principal difference between pains is the names given by doctors. The name doesn't amount to anything. If the pain is in the back the doctors call it one thing, and if it is in the leg they call it another, and yet if they should change those names the pain would hurt just as bad. Omega Oil stops pain. The trouble may be in the neck, shoulders, back, arms, elbows, wrists, hips, legs, knees, ankles or feet. No matter. Omega Oil puts out pain in all parts of the body just as water puts out fire in all parts of a house. It has been tried so often that there is no longer any doubt about it. Hundreds of thousands of bottles have been used and given satisfaction everywhere. Omega Oil stops pain, and don't forget it.

Omega Oil is good for everything a liniment ought to be good for.

THE NEW WARD AT THE HOSPITAL

PLANS FOR PALMER MEMORIAL WARD PREPARED

Dimensions of the New Building—It will be Constructed of Brick With Tile Roof

The plans for the Palmer Memorial ward of the University hospital have been prepared by Architects John Scott & Co., of Detroit. It will be built adjoining the nurses' home at the University hospital and will be 50x96 feet in size with a wing 15x37 feet, two stories, attic and basement. It is to be constructed of stock brick with trimmings of pressed and molded brick and tile roof. Proposals for the erection of the building will be received until Wednesday next.

A NEARLY FATAL RUNAWAY

Started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill., which defied doctors and all remedies for four years. Then Bucklen's Arnica Salve cured him. Just as good for Bolls, Burns, Bruises, Cuts, Corns, Scalds, Skin Eruptions and Piles. 25c at Duane Spaulsburys and C. W. Rogers & Co.'s drug stores.

Mirth is an almost infallible sign of good health. A sick woman may force a smile or at times be moved to laughter. But when a woman is bubbling over with mirth and merriment she is surely a well woman.

Dr. Pierce's Favorite Prescription has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength. It establishes regularity and so does away with monthly misery. It dries debilitating drains and so cures the cause of much womanly weakness. It heals inflammation and ulceration, and cures the bearing-down pains, which are such a source of suffering to sick women.

"I take great pleasure in recommending Dr. Pierce's Favorite Prescription for female weakness," writes Mrs. Susannah Rementer, of Pauls Store, Shelby Co., Texas. "I was troubled with bearing-down pains in my back and hips for six years, and I wrote to Doctor Pierce for advice. I tried his 'Favorite Prescription' and six bottles cured me. I feel like a new person and I thank Dr. Pierce for my health. Life is a burden to any one without health. I have told a great many of my friends about the great medicine I took."

Accept no substitute for "Favorite Prescription." There is nothing "just as good."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

LYCEUM FAVORS MANUFACTORIES

The debate at the Northside Lyceum last Saturday evening was a very spirited one, the subject being: "Resolved, That the city of Ann Arbor should encourage manufacturing concerns within its limits." The judges decided in favor of the affirmative.

There will be no debate next Saturday evening. Instead, Will Kent will give an interesting talk on his impressions of the Chinese in California, made during his stay there. This talk will be given at the usual place.

HIGH SCHOOLS MET DEFEAT

AT THE HANDS OF CLEARY COLLEGE IN YPSILANTI

But the First Game of the Season was Well Played With No Errors in Outfield

Saturday afternoon, at Ypsilanti, the Ann Arbor High School baseball team played its first game with the Cleary Business college team and met defeat. The game was well played and interesting, but it was evident from the first that Cleary's superior training would win her the victory. Seven innings were played, and at the close the score stood 10 to 6 in favor of the Ypsilanti team.

Ann Arbor's failure may be attributed to the fact that the home team has had little training, in fact Saturday was the first time it has "lined up" this year. On the other hand, Cleary has had the benefit of considerable outdoor practice. In spite of this, however, the men played together well, and not a single error was made in the outfield. Captain Taft proved himself a star by picking in half a dozen flies.

Next Saturday at Detroit, the home team will meet the University School for Boys, of that city. Ann Arbor will find it harder to wrest a victory from this institution than from Cleary, and the game will doubtless be an interesting one.

WHY SUFFER FROM ASTHMA?

Asthma is a spasm of the muscles of the Bronchial Tubes. Inhalers, or Sprays, give only temporary relief. It has fallen to the lot of that eminent specialist, Dr. A. B. Clark, to give the death blow to this dread disease. After many years of research and demonstration he is now prepared to give Asthmatics the absolute and permanent cure they have for years sought in vain. The results obtained by Dr. Clark's Asthma Cure border on the miraculous—curing seemingly incurable cases of 20 to 30 years' standing. A complete treatment mailed on receipt of One Dollar by the Clark Medical Co., Pittsburgh, Pa., and your money back if it fails to cure you. Order a treatment at once, or send for circular. Medical advice free to all who write and give a brief history of their case.

THE U. S. STANDARD.

No Man Is Stronger Than His Stomach.

The man who seeks to enlist in the U. S. Army must be physically sound. There is a minimum standard of height and men under that standard, no matter how healthy, will not be accepted. But aside from height the requirement is a sound physical condition, and this condition depends in chief upon the health of the stomach and its allied organs of digestion and nutrition. Many a man has been rejected by the medical examiner who appeared externally to possess all the physical requirements of a good soldier. But the examiner looks below the surface. He knows when the stomach is weak, and he knows also that no man is stronger than his stomach.

Most people look upon indigestion as a discomfort rather than a disease. But

in reality indigestion or dyspepsia is the disease of all diseases. It makes other diseases possible. It involves the blood and the heart, lungs, liver, kidneys—every organ of the body.

WEAK STOMACH WEAK MAN.

That a "weak" stomach causes general physical weakness may easily be understood. Food is the staff of life. The source of all physical strength is food. But before the body can receive strength from what is eaten the food must be digested and assimilated. To convert the food eaten into nutrition is the office of the stomach and the other organs of digestion and nutrition. When the stomach is "weak" the food received into it is only partly digested and assimilated; the body loses its proper supply of nutrition and grows proportionately weak. The capacity of the stomach in its normal health and use equals the nutritive demands of the body. State that normal capacity as equal to 100. When the stomach is "weak" its capacity is reduced proportionately. It may be reduced ten or twenty per cent. of the nutritive values of the food eaten are lost or wasted. That ten or twenty per cent. of lost nutrition must then represent a ten or twenty per cent. loss of physical strength.

WHERE STRENGTH COMES FROM.

Physical strength comes from food and from food alone. If a man has enough to eat and eats enough, there's no reason why he should not have a perfectly nourished and healthy body. If he is not well nourished, if he is losing weight, then the stomach is weak or diseased, whether he knows it or not. If he knows he has stomach "trouble," then he may be sure that his "trouble" will not stop with the stomach, but will reach out to other organs of the body dependent on the stomach for nutrition.

Dr. Pierce's Golden Medical Discovery has restored lost health and strength to thousands of suffering men and women, because it cures diseases of the stomach and other organs of digestion and nutri-

tion, and enables the building up of the body in the only way known to nature, by the assimilation of the nutrition extracted from food. "Golden Medical Discovery" makes the "weak" stomach strong, and so makes the weak man strong by perfect nutrition.

"I had been suffering from indigestion so badly that I could not work more than half the time," writes Mr. Victor L. Hayden, of Blackstone, Nottoway Co., Va. "But now I can work every day and eat anything I want. Why? Because I took Dr. R. V. Pierce's Golden Medical Discovery. It has put new life and energy in me, restored my health and made a man of me once more. I used to weigh 170 but had gotten down to 144, now am back to 150 and will soon be back at my old weight if nothing happens. Your medicine has done it all. I cannot thank you enough for your advice and think if it had not been for your medicine I would not have been here many years."

A CORNFIELD LESSON.

The average person seems entirely unaware of the dependence of the several organs of the body upon the stomach for their health and strength. But if a "weak" stomach makes a weak man that weakness must be distributed among all the parts and organs which, taken as a whole, make up the physical man. The relation of the stomach to the physical organs is like the relation of the corn to the soil in which it grows. If the soil abounds in the nutrition which makes corn, then the stalk is tall, the leaves broad, the ears heavy. If the soil is poor or weak then the corn is weak and it is weak all over, in stalk, leaf and ear. Every part of the corn shares in the lack of nutritive elements in the soil. It's so with the stomach. When it is "weak" and there is loss of nutrition, every organ shares that loss—heart,

liver, lungs, kidneys, etc.

Dr. Pierce's Golden Medical Discovery cures diseases of organs remote from the stomach when these diseases have their origin in disease of the stomach and its allied organs of digestion and nutrition. In numerous cases men and women who have taken "Golden Medical Discovery" to cure disease of the stomach have been astonished to find themselves cured of diseases of heart, lungs, liver, kidneys or other organs.

"Words fail to express what I suffered for three years with cold chills, palpitation of heart, shortness of breath and low spirits," writes Mrs. A. C. Jones, of Waterboro, Colleton Co., S. C. "I could not sleep, and really thought I would soon die. Had a peculiar roaring through my head all the time. Was so emaciated and weak I could not feed myself. My aunt induced me to try Doctor Pierce's Golden Medical Discovery, which I did, only to please her, and six bottles cured me. To-day am sound and well. During the three years I was sick I had five different physicians."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

A GUIDE TO HEALTH.

Dr. Pierce's Common Sense Medical Adviser is a safe guide to sound health. It treats of health and disease in a common sense manner and in plain English. It explains how health may be established and how it is preserved. This great work, containing more than a thousand large pages and over 700 illustrations is sent free on receipt of stamps to pay expense of mailing only. Send thirty-one one-cent stamps for the cloth-bound volume, or only twenty-one stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

WHAT WILL IT CONTAIN

The New Y. M. C. A. Building for Ann Arbor

SOME PLANS FOR IT

Different Rooms Needed for the Work and Which will Probably be Provided for

A great deal of interest is being shown by the citizens in the new Y. M. C. A. building to be erected on the association property on Fourth avenue opposite the court house. It is hoped that when the association does build it will make ample provision for the growth and extension of its work which may naturally be expected and which the experience of other cities shows will surely come. Ann Arbor should have a building that will accommodate 700 to 1,000 members besides transients and visitors.

It will have a gymnasium for the building up of our young men physically, equipped with dumbbells, Indian clubs, chest weights, horizontal and parallel bars, vaulting bucks and other necessary apparatus, with a good running track above. There will also be a place here for recreative games like basket ball, hand ball and volley ball. Adjoining the gymnasium should be a room for the fencing club, already organized, and other individual exercises. Below the gymnasium will be the locker room and a number of good baths.

The parlors will be easily accessible, well furnished and so cozy and home-like as to cheer the most despondent and home-sick. Here the members of the association can meet strangers and give them the glad hand, invite in and entertain for an evening their friends and acquaintances, and hold receptions and socials.

There will also be game rooms with all kinds of ordinary parlor games, together with shuffleboard, ping pong, ballete, etc., which will vie in attractiveness with any billiard hall in the city.

The reading rooms and library should have the more quiet corner of the building.

At the secretary's office will be found a bureau of general information, a boarding house register and employment bureau.

On the floor above rooms will be provided for the high school. Accommodations should be had for at least 250 students. The classes in arithmetic, grammar, algebra, etc., will need a room with ample blackboard space, penmanship and bookkeeping a room with large tables, and mechanical drawing an equipment appropriate to its work. Still another room will be needed by the Current Topic club and other clubs that may be organized, like a camera club, good literature club, etc., and also a music room, where rehearsals of the orchestra, mandolin club and male chorals may be held without disturbing other classes.

Bible classes and Bible study clubs can utilize the regular class rooms. A larger room, however, will be needed for gospel meetings, lectures, addresses, musical and literary programs and other entertainments.

For the boys there should be separate rooms with a separate entrance, capable of taking care of 250 boys. Over 100 are frequenting the association rooms now. But work for boys and for young men can never be carried on in the same rooms with satisfaction to either, nor with profit.

A very popular feature in the more recent association buildings are the dormitories. Young men away from home find these a great boon. In the basement are usually located a restaurant, lunch counter and barber shop. The first floor is reserved for store or office rooms in order to produce a revenue to help meet the running expenses of the building.

This, in general outline, is such a building as Ann Arbor needs and should have. The work done in such a building will leave its stamp upon the great majority of the young men who grow up in, and move to, Ann Arbor for the next 50 years. Is it not worth every cent it will cost?

THREE GIRLS WERE DRIVEN FROM CITY

Kittle Hines, Maggie Riley and Kate McGinnis, the inmates of the place known as "The Farm," who were arrested about two weeks ago, pleaded guilty before Justice Andrew Gibson, Wednesday, and were given fine and costs amounting to \$13.95 in the case of the Hines woman and \$5.53 in the case of the others, which they paid.

"What about the eight prominent business men who are reported to have been found in the place by the officers?" was asked the justice.

"They weren't prominent business men," although in one capacity or another they are all in business," was the answer, "and they were not placed under arrest. The marshal has their names but no one else has an idea as to their identity."

The three women, who were fined, left the city this morning.

ANNUAL REPORT OF BAPTIST CHURCH

PROPEROUS CONDITION OF THE CHURCH IN ANN ARBOR

The Church Raised \$4,152 for its Work Last Year—Election of Officers for the Year

The annual meeting of the First Baptist church was held last Monday evening. The reports showed a very prosperous year. All departments of the church are in a fine condition. During the year five members died, 25 were dismissed by letter to other churches, and three were excluded. There were received into the membership 39 new members by letter, and 18 by baptism. The present resident membership is 418, with 91 non-resident members.

The amount of money raised during the year shows the church to be generous givers:

Subscriptions and contributions to the church.....	\$2,707 22
Ladies' society.....	322 49
Women's Home Mission Circle.....	79 50
Women's Foreign Mission Circle.....	110 80
King's Daughters.....	20 00
The Bible School.....	177 02
The Baptist Young People's Union.....	220 28
The church contributed for:	
State missions.....	\$ 59 01
Home missions.....	91 15
Foreign missions.....	90 36
State Sunday school work.....	36 28
Baptist ministers' home.....	27 95
Christian and ministerial education.....	30 43
Beneficent work.....	\$1 92
Other causes.....	87 59

This makes a grand total of \$4,152 raised through all departments of church work.

During the year the pastor conducted 11 funerals, married 12 couples, delivered 96 sermons and addresses, and made 990 pastoral visits. Dr. D. T. Smith and Mr. George Blach were elected deacons. Mr. William Goodyear and Mr. H. B. Dodsley were elected trustees. Dr. J. L. Markley was re-elected treasurer and Prof. H. U. Chute assistant. Prof. J. Montgomery was re-elected clerk. Mr. H. O. Severance was elected treasurer of the benevolent funds. For the bible school Mr. J. H. Montgomery was re-elected superintendent and Mr. L. C. Palmer assistant. Mr. Homer Godfrey was re-elected treasurer and Mr. V. L. Snauble secretary and Mr. Geo. Seybold assistant. Miss Ethel Bancroft was elected librarian and Mrs. Homer Godfrey chorister. Miss Gertrude Chute and Miss Lula Daley were elected church pianists.

The church was never in a more flourishing condition.

THE ARCHITECT MAKES BIG MONEY

On the New First Ward School Building

LOCAL ARCHITECTS KICK

He Gets Over \$1,100 and \$15 a Day and Expenses—Here From Chicago

Local architects are disposed to feel hurt by the action of the building committee of the local board of education for employing a Chicago architect to prepare plans for the new First Ward school building, a cut of which appeared in a recent issue of the Argus. Mr. W. A. Otis is the architect of the new building, and it is claimed he was employed without giving others an opportunity to compete for the work.

The new school is to cost something over \$2,000 and the architect is to receive three and a half per cent of the contract price for his plans. It is also provided that whenever he comes to Ann Arbor on business connected with the erection of the building he is to be paid \$15 and his expenses. Our local architects seem to regard the percentage paid for the plans as excessive.

The building will be modern and up-to-date in all respects, and a credit to this city of schools.

THE BOY CHOIR GIVEN A FINE SUPPER

About sixty-five people sat down to the choir supper in Harris hall, Tuesday night. All those who had assisted night. All those who had assisted with the music at the daily lenten services were invited, together with the vested choir, choirmaster and Mrs. Kempf, the Rector and Mrs. Tatlock and Rev. Frederick Pitts. The supper was served by a committee of nine ladies with Miss Alice Douglas as chairman. The name card at each place was beautifully decorated with a pen and ink sketch of a vested choir boy, or an angel's head. The tables were adorned with potted plants. The supper consisted of chicken patties, potato croquettes, buttered rolls, delicious salad, coffee, ice cream, cake and candied orange. After the supper the young people adjourned to the hall above, where they enjoyed music and dancing the Virginia Reel, etc., until half past nine.

DISGUISED CATARRH.

A Stealthy, Insidious, Weakening Enemy to Women.

REV. HARRIET R. EDWARDS, CLINTON, IA.

Rev. Harriet R. Edwards in a recent letter from Mt. Pleasant Park, Clinton, Ia., writes: "I have found that Peruna is a wonderful medicine to use in diseases peculiar to women. It quickly and permanently restores health and vigor and acts as a natural tonic to a worn-out system. I have so far never observed a case which was not greatly aided by its use."—REV. DR. H. R. EDWARDS.

There are a multitude of women, especially housewives, and all other women obliged to be on their feet constantly, who are wretched beyond description, simply because their strength and vitality is sapped away by catarrhal discharges from the pelvic organs. These women get up in the morning tired, drag themselves through their daily duties, only to go to bed at night as tired as before.

Peruna is such a perfect specific for each case that when patients have once used it they can never be induced to quit it until they are permanently cured. It begins to relieve the disagreeable

symptoms at once. The backache ceases, the trembling knees are strengthened, the appetite restored, the digestion made perfect, the dull headache is stopped and the weakening drains are gradually cured. These results certainly follow a course of treatment with Peruna.

Jos. B. Crowley, Congressman from Illinois, writes from Robinson, Ill.:

"Mrs. Crowley has taken a number of bottles of Peruna on account of nervous troubles. It has proven a strong tonic and lasting cure. I can cheerfully recommend it."—JOS. B. CROWLEY.

Washington county, Neb., writes: "I am fifty-six years old and have not felt well since the Change of Life began ten years ago. I was in misery somewhere most of the time. My back was very weak, and my flesh so tender it hurt me to lean against the back of a chair. I had pain under my shoulder-blades, in the small of my back and hips. I sometimes wished myself out of this world. Had hot and cold spells, dizziness, and trembling of the limbs, and was losing flesh all the time. "After following your directions and taking Peruna I now feel like a different person."—Mrs. Wm. Hetrick.

Barbara Alberty, corner Seventh and Walnut streets, Appleton, Wis., writes as follows in regard to Peruna:

"For years I have suffered with backache and severe pains in the side. I doctored so much that I became discouraged.

"A school friend told me how very much Peruna had benefited her and I sent out for a bottle, which did more to relieve me than all the other medicine I had ever taken.

"I used it faithfully for two weeks and it completely cured me. I have not had any pains since, anywhere, but feel like a new woman. I am truly thankful for what Peruna has done for me."—Barbara Alberty.

Mrs. D. W. Mason, 502 Dauphin street, New Orleans, La., writes:

"I have been taking your Peruna and Manalin and can cheerfully recommend it to all those suffering with the same trouble that I was. I have been suffering for the past two years with female weakness, palpitation of the heart, stomach, kidney and liver disorder, and above all a dreadful cough with smothering spells. I was completely run down.

"After I had taken one bottle of Peruna and a few doses of your Manalin, I could sleep soundly, my heart was better, my cough left me, it acted immediately upon my nerves, and after taking four bottles according to your directions, I was entirely cured of all my troubles.

"I can truthfully say that there is nothing to equal your Peruna and Manalin. I was a different woman after taking the second bottle. It is without a doubt the best medicine in the world. Language fails to express my gratitude for this cure. May God bless you."—Mrs. D. W. Mason.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Miss Mabel Milham, traveling secretary of the Student Volunteer movement, addressed the young ladies of the S. C. A. in Newberry hall Monday evening. She gave an interesting and helpful talk on the importance of finding the right place in the world. There was a good attendance and everyone was pleased with her address.

Frank L. Campbell, of Detroit, was declared a competent in the probate court Thursday. His case was a sad one and he was in University hospital a year ago. W. W. Wedemeyer has been acting as his guardian and it was at his instance that the guardianship terminated. Drs. Jas. F. Breakey and D. M. Cowie acted as examining physicians.

The Athens club was pleasantly entertained Monday evening by Mr. and Mrs. John Kenny. The first prizes were won by Mrs. James Quinlan and George Fischer and the consolation prizes by James Quinlan and Miss Weimer. A delicious supper was served. This is the first meeting that Mr. and Mrs. William Jacobus have not carried off the booby prizes.

Miss Anna Schrepper and Joseph Neff were quietly married at the home of the bride's parents on Spring street, Wednesday. The young couple have gone to housekeeping on Cherry street. Mr. Neff is one of the genial clerks in the C. F. Pardon grocery and meat market on N. Main street. The many friends of the young couple wish them a long and happy married life.

The following new books have been received at the High School library: "Our Devoted Friend, the Dog," Bolton; "A Year in the Fields," H. J. Burroughs; "Modern Athens," G. Horton; "Features of the Roadside," F. S. Mathews; "Maud and Matrons of New France," Pepper; "Little Rivers," A. VanDyke; "Biography of a Baby," M. W. Shinn.

Next Monday evening the King's Daughters of the Baptist church will give an entertainment under the auspices of the Student's Christian Association, in Newberry hall, at 8 o'clock. Two farces will be given, "The Play of Fate" and "A Petticoat Perfidy" and the participants are for the most part students who gave the "Old Maid's Convention" last year. The admission will be 15 cents.

Anyone who saw the production of "The Old Maid's Convention," which was given by the King's Daughters of the Baptist church in Newberry hall last year, will not fail to see their entertainment next Monday night at Newberry hall. They will give "A Petticoat Perfidy" and "A Game with Fate." Miss Josie Davidson, who needs no introduction to Ann Arbor audiences, will appear on the program. Admission, 15 cents.

Judging from the number of fishermen who are proudly exhibiting a string of bass on returning from a fishing trip, comparatively few people know of the new law making it an offense to catch bass between April 1st and May 20th. A heavy penalty will be imposed upon offenders if they are discovered. The young man on Liberty street who came in with a fine string of bass on Saturday had better keep his eyes open.

Saturday forenoon the high school team meets the Detroit University School for Boys at Detroit. In commenting upon the outcome of the game, Captain Taft spoke confidently of the home team, but he thinks victory can only be purchased by hard work. Ann Arbor chapter, Daughters of the American Revolution, is desirous of locating and marking the burial places in Washtenaw county of soldiers and sailors of the Revolution and of the war of 1812. The society would be thankful for positive information as to places of interment and names of such soldiers and sailors. Address Mrs. S. W. Clarkson, chairman of the committee, or Mrs. W. G. Doty, corresponding secretary D. A. R., Ann Arbor, Mich.

PROPERTY WAS DESTROYED DETROIT AND FULLER STREETS SUFFERED THE LOSS

It seems that Ann Arbor is becoming so tough that not only pedestrians but property owners as well are not safe. Tuesday night a disgraceful thing happened on Detroit and Fuller streets. The work began at the little fruit stand, corner of Kingsley and Detroit streets, where the steps were taken off and carried down to the next place. This nefarious work was carried on down the street, the steps, walks and anything available being torn up and carried away. On Fuller street, the railings approaching the house and store owned by A. Brahm were wrenched and broken. Great force must have been exerted in order to do the damage that was done.

One of the property owners who lives on Detroit street says that he will give \$10 to find out those who did the damage.

This happened late in the evening or night, but it is unsafe even for a girl to be on the streets early in the evening. This work should be stopped in Ann Arbor.

MUCH BUILDING AT WHITMORE

Twelve New Houses will be Built This Season

A MIDNIGHT RAID

On Finney Tribe is Blocked by a Deputy Game Warden and a Rifle—The Results

Whitmore Lake, April 7.—Jacob Zeeb has secured the services of Wm. Franier for the season.

Jay G. Pray has a gang of carpenters putting up a very handsome residence for Wm. Lowrey on the Chas. L. Rane addition.

Chas. A. Pray has just completed an elegant residence on the vacant lot adjoining his hardware store, and Henry Stilson is putting the finishing touches on the painting.

Ed Beckwith has the contract for building an addition to the residence of Bernhard Bauer.

Chas. D. Rane has overhauled his residence on Main street, and is in position to entertain his numerous friends to the queen's taste.

Edo Boos, from Salem, is in town assisting his brother-in-law, H. Fischer, in removing his blacksmith shop. Mr. Fischer has purchased a residence and blacksmith shop from Chas. A. Pray and will open up for business on May 1.

On April 1 our popular blacksmith, Daniel Stollicker, received his commission as fish warden and Dan has it nicely framed and hung up in a conspicuous place. We are glad this appointment has been made, as it will put a stop to the promiscuous slaughter of fish and Mr. Stollicker will judiciously protect the fishy tribe.

Jay G. Pray has the contract for building a fine residence for Samuel Hummel on the Pray addition, fronting on the lake.

Mrs. Rena Stilson has sold her Stillman grove to Detroit parties for \$1,500 and this season the new proprietors will build a casino and seven up-to-date cottages.

Timothy McCarthy, one of Northfield's scientific farmers, 75 years old, came to town this morning and is as spry as a boy. He says next week he will sow his oats and is in hopes the democrats will elect their whole ticket.

Frank Munger has purchased a lot on the Pray addition and has men at work constructing a residence thereon.

Mr. Barker, manager of the elevators, reports trade good, but says \$1 is the top price for beans.

Jacob Zeeb says he is doing a steady and increasing business and anticipates the best summer Whitmore Lake has ever seen.

Chas. A. Pray has leased the upper store of his store to Fred Jandart for a season. Mr. Jandart comes here through Ann Arbor well recommended as a fine workman.

Fred Perry, our popular station agent, reports business on the Ann Arbor in good condition and on the increase.

A 12½-pound baby boy was found at the residence of James K. Killhame by Dr. John Lemon. The doctor reports all going well.

Swed Stilson, who has been for three months visiting friends at Lapeer, arrived in town today looking much improved in health.

Frank Wallace arrived in town this morning and will accept a position with Jas. E. Burke for the season. Frank has a host of friends in town who were glad to see him.

George Hauschenberger says that made at his resort is on the boom and that he thinks Whitmore Lake will be at its very best this season. Live stock is in good demand and the shipments from this point by Dunlavy & Houschenberger are on the increase.

The new fish warden, Dan Stollicker, accompanied by Deputy Sheriff Jas. Burke, had his attention called to some suspicious lights on the lake the other night and as Dan is always on the alert for the various trespassers of the law, he loaded his Winchester and cleaned his hip boots and started for the lawbreakers, who were not ten rods from shore. Dan, in his stentorian voice, told the boys to surrender and as they piled their oars he fired his Winchester and their lights went out with the remarks "We surrender."

One of the bunch threw himself on his abdomen in the bottom of the boat and the rest of the party called "Never surrender," when again the rifle went off and in the darkness the boys landed their boat on the large stone called "Rocks of Safety," when they waded ashore and vanished in the gloom. They remained out of sight until sunrise. Some of the boys struck deep water and had to swim, while others of the party wandered through the swamps and were pitiable sights when they got on terra firma.

Frank Dunlavy, our popular butcher, says business in his line is O. K. He can sell all the meat he can secure and he is kept busy supplying his market.

WHY TAKE ANY CHANCES

with some new and untried medicine for the serious troubles as diarrhoea, cramps, dysentery, when you should know that for over half a century Ayer's Sarsaparilla has cured millions of cases? Look out for imitations, there is only one genuine, "Perry Davis."

FRED'K KURFESS PASSED AWAY

FORMER SECRETARY OF MANCHESTER ARBEITER SOCIETY

He Had Also Held Village and Township Offices—Funeral of Dr. George Johnson

Manchester, Mich., April 4.—Miss Ruth Cushman, of Ann Arbor, came here Thursday to make an extended visit with Mrs. Wm. Campbell and other relatives.

Mat Wurster has purchased the Lehn cottage recently occupied by Frank Merithew.

Mrs. Frances Rundell is spending the week in Detroit.

Muri Ford will entertain a company of little folks at tea this evening in honor of Vivian Westgate.

The Saturday club will meet with Mrs. Egan Essery.

Frank Maguin went to Sylvania Wednesday to attend the funeral of a relative.

Mr. and Mrs. Fred Williams left Wednesday for Sheridan to visit their daughter.

Simon Nissley went to Ypsilanti the first of the week to look for employment, and his son Simon went to Ann Arbor to work in the Walker carriage factory.

The funeral services of Dr. George Johnson were held Thursday afternoon at the home of his father, west of town. Rev. Mr. Steinger officiating. It was a very large funeral and a number from town attended. The remains were placed in the vault at Oak Grove cemetery. Two members of the Knights of Pythias, Mr. and Mrs. Black of Hastings, and Miss Florence Poucher of Cadillac, accompanied Mrs. Johnson and the remains.

Miss Henrietta Wier, of Ypsilanti, spent a few days this week with relatives and friends in town.

The Ladies' society of Emanuel's church met with Mrs. George Nisler Wednesday afternoon.

There is some talk of another mail route being established from this place in order to accommodate patrons of this office.

After a lingering illness one of our old and respected citizens, Frederick Kurfess, passed away Thursday morning at the age of 66 years. He was a miller by trade and for many years was employed in the mills at this place. For some years he was secretary of the Arbeiter society, and also held village and township offices. His sons, Fred of New Albany, Ind., Rudolph of Chicago, and daughters, Mary, Rosa and Lizzie, were all with him when the end came. The funeral services will be held Sunday afternoon at 2 o'clock at Emanuel's church.

The 20th Century club met with Mrs. C. W. Case Wednesday evening. They enjoyed quite an elaborate spread prepared by the hostess, this being out of the ordinary.

TWO VERY IMPORTANT INDUSTRIES

While it may seem a broad statement, it is probably true, that our railroads, with their immense capitalization and army of employees, form one of the most important industries of the country. The other very important industry is the manufacture of that celebrated family medicine, Hostetter's Stomach Bitters. It is compounded with the greatest care, and contains nothing that would injure the most delicate system. It is backed by a record of fifty years of cures of sick-headache, indigestion, flatulency, belching, dyspepsia, liver and kidney troubles, and malaria, fever and ague. It is a splendid spring medicine and blood purifier, and as a tonic for the run down system it is unequalled. Try it. Our Private Stamp is over the neck of the bottle.

DEP. CLERK CLARK HAS RESIGNED

Osban Clark, deputy city clerk, has resigned his position and has accepted a position as time-keeper for a mining company at Parma, U. P.

City Clerk Harkins has secured the services of Edmund Andrews to fill the vacancy made by Mr. Clark's resignation.

Weak?

"I suffered terribly and was extremely weak for 12 years. The doctors said my blood was all turning to water. At last I tried Ayer's Sarsaparilla, and was soon feeling all right again."

Mrs. J. W. Fiala, Hadlyme, Ct.

No matter how long you have been ill, nor how poorly you may be today, Ayer's Sarsaparilla is the best medicine you can take for purifying and enriching the blood.

Don't doubt it, put your whole trust in it, throw away everything else.

\$1.00 a bottle. All druggists.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old family medicine. Follow his advice and we will be satisfied.

COULD NOT SLEEP.

No Rest at Night—Nervous—Worried—Tired all the Time—The Medicine that Never Fails.

Mr. C. F. Schultz, of No. 629 Spring street, Ann Arbor, Mich., says: "Last winter I got a box of Dr. A. W. Chase's Nerve Pills at Mummy's Drug Store and used them for sleeplessness and found splendid results from their use. I was feeling pretty well except that at night I would be nervous and could not sleep well. The pills corrected that trouble and I can recommend them."

TO SUPPRESS CIGARETTE SMOKING

Cigarette smoking is becoming a curse to so many boys it will be noted with pleasure that an anti-cigarette league was started here Sunday. It was in the boys' meeting at the Y. M. C. A. The evils of smoking cigarettes was clearly explained to the boys by Mr. W. B. Van Akin, of the Detroit Y. M. C. A. Then the pledge was read which over 7,000 boys in the city of Detroit have already signed. Forty-three boys pledged themselves not to smoke cigarettes or use tobacco in any form until they are 21 years old. The movement is an important one and the Young Men's Christian association will have the gratitude of every thoughtful parent for starting such a work here in Ann Arbor.

If the Y. M. C. A. continues doing this kind of work it ought to receive its new building at the hands of our citizens and that right quickly.

PEOPLE WHO HAVE MONEY TO SPEND

WOULD BE INDUCED TO COME HERE BY A SANITARIUM

And is to be Hoped That the Projectors will Push the Enterprise to Completion

Now that the Ann Arbor Sanitarium company has been incorporated with a capital of \$50,000, it is to be hoped that the projectors will push the enterprise to completion. This is a town of institutions. Our people have been slow in holding out inducements to factories and many of our citizens would discourage such enterprises here. But this sanitarium project is right in line with the institutions that have made Ann Arbor. Our citizens have been amply repaid for the outlays they have made in securing the University hospitals. But here is an institution which, while not coming into competition in any way with the University hospitals, would bring hundreds of people to Ann Arbor every year who do not come now, and people who have money to spend.

The primary object of the promoters of the sanitarium is to provide a place for the care of the patients who now come here for treatment by Ann Arbor physicians. There are now a sufficient number of these patients coming to Ann Arbor to warrant the erection of an elaborate sanitarium building and insure a profitable investment, and with the knowledge that such an institution is here the number of patients cannot fail to increase.

The name is associated everywhere with all that is skillful and successful in medicine and surgery and will be a never failing attraction to the invalid.

It goes without saying that a sanitarium like the Kellogg institution at Battle Creek would be of immense advantage to the business interests of the city.

HE GETS A SECRETARYSHIP

Reilly Atkinson, one of last year's law graduates, has already won distinction. He accepted the position of secretary of the San Salvador arbitration commission. The place was tendered him by the Hon. Don M. Dickinson, Sir Henry Strong, chief justice of Canada, and Don Jose Pacas, members of the commission.

Secretary Atkinson is a son of the late Col. John Atkinson and has been practicing his profession in Detroit the past winter.

When the Spanish war broke out Mr. Atkinson was a student at Detroit college. He enlisted in the Thirty-third Michigan Volunteer Infantry and was made first lieutenant of Co. L. With his regiment he went to Cuba and participated in the engagements around Agnadore, his company suffering the loss of some of its members by the explosion of one of the Spanish shells. He served through the Cuban campaign, during which he was prostrated with yellow fever. After being mustered out he entered the law department, graduating with the class of 1901.

NOW LOCATED IN HOLLY, MICH.

Robertson Bros. will be the firm name of a new store that will open for business in Holly about April 15. The members of the new firm will be Dan Robertson, now with the H. C. Church Drug company, and James Robertson, who has resigned his position with the Goodyear Drug company, of Ann Arbor, and will have full charge of the drug business in the new store. They will be located in the Wade building on Saginaw street, now occupied by C. Stuart's clothing store, and besides drugs will handle books, stationery and wall paper and their store will be fitted with all modern conveniences, such as "Silent Salesmen" show cases, etc.

Both members of the new firm are well known in Holly and need no introduction to our people and will enter the business with the best wishes of their friends for the success of the enterprise. James Robertson thoroughly understands the drug and prescription business, as he is a graduate of the pharmacy department of the Ohio Normal University and for the past four years has had charge of the Goodyear Drug company's store at Ann Arbor. John Tice, manager of the Central drug store of Detroit, has resigned to accept the position vacated by Mr. Robertson at Ann Arbor.

LOCAL BREVITIES

Mrs. Mary Isbell sold her farm in Pittsfield last week for \$4,500. Ground has been broken on Lincoln avenue preparatory to the erection of a new residence for Prof. Drake. Mr. and Mrs. Guy Mullison are the happy possessors of a fine new boy baby. It arrived Saturday evening.

Charles K. McGee, of the Crescent Works, has purchased an Olds' mobile. It is propelled by gasoline power. This makes four automobiles in the city at present, the owners being Mr. McClure, Mr. Staebler, Mr. Coffin and Mr. McGee. James H. Webb, one of the prosperous farmers of Pittsfield, was in the city Friday. While plowing in his orchard recently he turned up a number of 17-year locusts. He took some specimens to Mr. Sargent, curator of the museum.

MISS SIMS TWO ADDRESSES

STATE SECRETARY OF THE Y. W. C. A. HERE. Addressed the Y. W. C. A. in the Afternoon and Spoke at Baptist Church Sunday Night. A large audience was present at the regular vesper service of the City Young Women's Christian association Sunday afternoon, when Miss Florence Simms, state secretary of the association, gave the members a very interesting and helpful talk, her subject being "Christ—Consider Him."

MAN'S HIGHER DESTINY

Era of a Far Superior Race Predicted. OUTLOOK A VERY BRIGHT ONE. H. G. Wells, the Novelist, Declares the Human Race is Soon to Mount to Higher Plane of Thought and Power—Considers Great Men Only Symbols. H. G. Wells, the scientific novelist, who out-Darwins Darwin and dares to direct a confident gaze upon a future still eons distant, delivered a lecture at the Royal Institute in London the other night on "Discovery of the Future," says the Chicago Tribune. Mr. Wells' address was purely scientific and philosophical, but its tenor was that the present race of man is to be infinitely elevated above present conditions. He said: "We are at the beginning of the greatest change that humanity has ever undergone. There will be no shock, as there is no shock at a cloudy day-break. We are creatures of twilight, but out of our minds and the lineage of our minds will spring minds that will reach forward fearlessly."

THE CHILDREN SHARE ALIKE

Mrs. Martha Sheehan, by her will bequeaths \$100 to the building fund of the St. Thomas church in Ann Arbor. The balance of her estate, after payment of debts and expenses, is to be divided share and share alike among her children, Daniel, Thomas P. Patrick H., Robert W., John V. and Michael C. Sheehan and Margaret Slater, subject to any advancements made. The estate is estimated at \$20,000 personal property and \$3,000 real estate. The will is dated Sept. 9, 1899, and witnessed by M. J. Cavanaugh and Mary Kearns. John V. Sheehan is nominated as executor.

REAL ESTATE FOR SALE. State of Michigan, County of Washtenaw—ss. In the matter of the estate of Christian Brenner, deceased. Notice is hereby given that in pursuance of an order granted to the undersigned, administrator of the estate of said deceased by the Hon. Judge of Probate for the County of Washtenaw, on the twenty-sixth day of February, A. D. 1902, there will be sold at Public Vendue, to the highest bidder, at the east door of the Court House in the City of Ann Arbor, in the County of Washtenaw, in said State on Monday, the fourteenth day of April, A. D. 1902, at 10 o'clock in the forenoon of that day (subject to all encumbrances by mortgage or otherwise existing at the time of the death of said deceased) the following described real estate, to-wit: Lot number one, in block number one north of Huron-street, in range number two east, according to the recorded plat of the village (now city) of Ann Arbor, in the County of Washtenaw and State of Michigan.

H. G. WELLS.

den in our loins, shall stand on this earth as one stands on a footstool, and they shall laugh and reach out their hands among the stars." The lecture has already aroused widespread interest and will probably be much discussed. Along certain lines, with certain limitations, Mr. Wells argued that a working knowledge of the things of the future was practicable and possible. As during the last century the amazing searchlight of inference had been passed into the remoter past, so by seeking for operating causes instead of for fossils the searchlight of inference might be thrown into the future. The man of science would believe at last that events in A. D. 4000 were fixed, settled and unchangeable as those of A. D. 1600, with the exception of the affairs of man and his children. It is as simple and sure, declared Mr. Wells, to work out the changing orbit of the earth in future until the tidal drag hauls one unchanging face at last toward the sun as it is to work back to its blazing, molten past. It might be argued that man, individually and collectively, was an incalculable factor, a new element offering the nature of the inquiry and stamping it as vain and hopeless, but Mr. Wells seemed to favor the idea that man, though complicating, did not alter the essential nature of induction. He did not believe in the importance of the leading man, and he confessed to a belief that if by some juggling with space and time Caesar, Napoleon, William the Conqueror and other great individualities had been changed at birth it would not have produced any serious dislocation of the course of destiny. Great men, he declared, were no more than images and symbols and instruments taken at haphazard by the incessant, consistent forces behind them. They were the pennibs which Fate used in her writing, and the more one was inclined to trust these forces behind individuals the more one could believe in the possibility of a reasoned inductive view of the future that would serve us in politics, morals, social contrivances and in a thousand specious ways. A deliberate direction of historical, economic and social study toward the future and in a deliberate and courageous reference to the future in moral and religious discussion would be enormously stimulating and profitable to the intellectual life. That man is not final is a great and disturbing fact in scientific discovery in the future, and the question, What is to come after man? is the most persistently fascinating, insoluble question in the world. But for the near future some few general statements have grown more certain. Two years ago it was an irresponsible suggestion, but it was the commonplace remark of cabinet ministers, that our dense populations were in the opening phase of the process of the diffusion of aeration; secondly, it was inevitable that the mass of the white population of the world be forced in some way up the scale of efficiency within two or three decades. Thirdly, reasons have been collected showing that in the comparative near future humanity would—indeed, and conscientiously organizing itself into a great world state—purge itself of much that is mean and bestial and dreary in the world.

'JIM'S TOASTERS' NEW HOME

THE INCREASE IN BUSINESS MADE IT NECESSARY. And a Fine Nhw Shop Has Been Erected on Elizabeth Street. Harkins & Willis have just completed the erection of a fine new workshop on Elizabeth street for the manufacture of the "Jim" toaster. The enlargement of the shop was made necessary by the increase in the business. The new building is commodious and convenient. It was erected by H. Pipp, contractor.

Westminster Abbey. Officials of Westminster abbey charge fees aggregating over \$2,000 when a memorial is placed in the abbey. The Swedish Bride. A Swedish bride, if she be prudent and superstitious, will fill her pockets with bread before she sets out for the church, and to every poor person she gives a piece, thus averting as many misfortunes from herself or her husband. Ancient Gold Mines. Very ancient gold diggings have been found beside the Red sea. The Colors of Amber. Amber has a wonderful variety of colors. Some of it is as clear as crystal, some as yellow as honey, some light blue and again a transparent green. Then it is found as white as snow, the color of cream, and often many of these tints are blended in one piece. Sun Baths. BLOOD DISEASE CURED. If you ever contracted any Blood or Private Disease, you are never safe until the virus or poison has been eradicated from the system. Don't be satisfied with a "patch up" by some family doctor. Our New Method is Guaranteed to Cure or No Pay. No Names Used without Written consent. Cured When All Else Failed. "Could I live my early life over, this testimonial would not be necessary, though I was no more sinful than thousands of other young men. Early indiscretions, later excesses, exposure to contagious diseases all helped to break down my system. When I commenced to realize my condition I was almost frantic. Doctor after doctor treated me but only gave me relief—no cure. My Springs helped me, but did not cure me. This treatment always returned. Mercury and Potash drove the poison into my system instead of driving it out. I bless the day you New Method treatment was recommended to me. I investigated who you were first, and finding you had over 27 years' experience and responsible financially, I gave you my case under a guarantee. BANQUET OF THE CURRENT TOPIC CLUB

One of the most pleasant gatherings that has ever been held in the Y. M. C. A. auditorium was held Monday evening when the Current Topics club tendered an elaborate banquet to Judge and Mrs. Newkirk.

The tables were decorated tastefully and prettily with cut flowers and plants, while the excellent menu made that part of the evening a social success.

"The Club" was the subject of an apropos toast by Ed. Meyer. Earl Stewart spoke on "Success" giving good and valuable advice. "Girls that I know," and "Prosperity" were the subjects of toasts responded to by Robert Moore and Mr. Imus. Several solos added to the pleasure of the evening. After the regular program, Judge and Mrs. Newkirk made a few pleasant remarks.

During the supper, music was rendered.
