

## WHO IS TO SUCCEED KINNE

Question Local Politicians Are Asking Themselves

### ATTORNEY LAWRENCE

Said to be the Most Available Man, Should Judge Kinne be Appointed to Hague

"Who is the most likely man to succeed to the circuit bench, should Judge Kinne be appointed as minister to the Hague by the President?" is the question which is already interesting the politicians and members of the local bar.

There seems to be little available timber in Ann Arbor to select from, say some of the foremost attorneys. Men who would be fitted to fill the office as splendidly as has Judge Kinne. The tendency, however, is to put John Lawrence, the well known lawyer, forward for the position, should Judge Kinne go abroad.

Members of the bar who were seen Tuesday were almost a unit in expressing the opinion that Mr. Lawrence was the only attorney in the city who would have the general support of the legal fraternity for the office and it looks as if he would be the strongest man in the field if a successor to Judge Kinne has to be named.

When Mr. Lawrence was informed of the general good feeling in his behalf, at the court house this morning he said he was delighted to know that he had so many friends.

"But," he continued, "should Judge Kinne go to the Netherlands and I was asked to accept the judgeship, I hardly think I would accept. Of course it would be rather premature for me to make any definite statement at this time, but really I do not think that I would take the office. My law practice is much more profitable than the office of circuit judge would be."

Mr. Lawrence said that he would be very glad to hear that Judge Kinne had gotten the Hague post. "For," he reflectively remarked, "I know the Judge would like a rest. He has often told me that he was becoming tired of the duties of the circuit bench and hoped to have a change to some quieter office."

In this connection a University professor, who was a close friend of the Hon. Chas. Gorham, at one time minister to the Hague, tells the following incident. Meeting Gorham one day he put this question to him:

"Gorham, what do you do at the Hague?"

"But an orange after rising in the morning, then a cup of coffee and toast, then go to the club and drink gin," was the laughing reply of the minister.

It developed today that there are a few well known local politicians who do not take the story of Judge Kinne's possible appointment to the foreign mission seriously. In talking of the matter, one of them said:

"I am inclined to believe that this talk about Judge Kinne going to the Hague is another of Hank Smith's grandstand plays. Looks to me as though Smith was at the bottom of the story, and that it is only another of his spectacular moves to make an impression on the people here, although I hope I may not be right. I would like to see Judge Kinne get the place."

## JOHN W. HAARER SUCCEEDS HELBER

A telegram was received by John W. Haarer, President of the Council, from Congressman Smith Tuesday afternoon appointing him a member of the Second district congressional committee in the place of Eugene J. Helber, who resigned.

The appointment, it is understood, has been under way for some time, or at least since Editor Helber gave Mr. Smith to understand that he would no longer serve as committee man, if the congressman did not give some indications of fulfilling his promise to give Mr. Helber the postmaster's office.

Mr. Haarer, who is a son of John Haarer, the well known stationer on Liberty street, is a young man. He has been president of the council since the spring of last year.

He was not inclined to speak of his recent appointment on the congressional committee when seen this morning, merely saying that he was not surprised that he had received it as he had been in communication with Mr. Smith on the matter for some time.

## WAS KILLED BY FREIGHT TRAIN

Lance E. Barnes, whose home is in Battle Creek, was killed in the Michigan Central yards near the Argo mills Wednesday night, by a midnight east-bound freight train.

The body was found on the tracks an hour later by Frank Garlinghouse, who immediately reported the matter to the police. The body was conveyed to the baggage room of the station. Coroner Watts and Undertaker Martin were sent for immediately and after the former viewed the remains, they were taken immediately to Martin's funeral parlors.

The young man, who is about 23 years old, was well and neatly dressed. In his pocket was found a certificate of membership in the Cigar Makers' Union of Jackson, where the young man had been working. A telegram was sent to the superintendent there, who immediately found Mr. Barnes' brother. The latter arrived today on the 11:45 train to take charge of the remains.

At the inquest yesterday it was found that Barnes came to his death by being struck by a freight train.

Later—Coroner Watts has just called at the Argus office and says that the dead man is not Barnes. That he is a stranger, unknown to any person here.

## THE SAD DEATH OF DR. LOOMIS

He Passed Away in the Philippine Islands Wednesday

FEVER WAS THE CAUSE

The Body will be Sent Here on the First Vessel From Manila—Friends Greatly Grieved

The sad news was received here Wednesday from Rev. Mr. Bourmes, of Detroit, of the death of his nephew, Dr. William S. Loomis, which occurred at Manila Wednesday morning.

Dr. Loomis was the only son of Mrs. Emma Loomis, who resides on N. Main street. About three weeks ago, Mrs. Loomis received a letter from her son, who said he had been ill but thought he was getting better of his illness, which was due to the tropical heat and overwork.

About the middle of December, Dr. Loomis was taken ill, but would not give up his duties. Since that time he had had intermittent fever attacks, which ended in his death.

He was born in Ann Arbor about thirty-three years ago. After graduating from the local high school, he entered the medical department of the University, graduating in 1897. Immediately after graduation he was made house physician of the University hospital, which position he held one year. He then bought out a country practice in one of the small towns of Ohio, where he remained one year. He was called back to this city to attend to the business pertaining to his mother's estate. Upon his return to Ann Arbor he began the practice of medicine, having his office with Dr. Jones, although not associated in practice with the latter.

One year ago last December he went to the Philippines to accept a position as bookkeeper in the government office in Manila. Six months later he was appointed head of the hospital of Manila, which position he filled faithfully and efficiently previous to his last fatal illness.

The cablegram received yesterday by Rev. Mr. Bourmes, of Detroit, stated that the body would be embalmed and sent here on the first vessel leaving the port.

**HOLD MEETING IN DETROIT**  
The members of the second district republican congressional committee were nearly all in Detroit yesterday, where a meeting of the committee was held sometime yesterday afternoon or evening.

The secrecy that is being maintained about the holding of the meeting is thought by some to indicate that there is some sinister move being made which will not bode well for some of the candidates which have announced themselves for the congressional nomination.

Among those who went to Detroit today was John W. Haarer, the committeeman recently appointed by Hank Smith, to the vacancy left by Editor Helber who resigned.

The funeral of Henry Coe, one of the best known farmers in York and who died Sunday from blood poisoning, was held Tuesday from his home in York. The interment was in York cemetery.

## BACON LOOKING TO HIS FENCES

Says He is in the City Just to Get a "Little Acquainted"

BELIEVES HE WILL WIN

Thinks There Will Be a Split Among Delegates --Smith Wants the Convention Held at Adrian

With the air of the man who has got a sure tip from the paddock on the horse that will win the race, M. R. Bacon, of Wyandotte, arrived in the city Wednesday to get a "little acquainted" as he said by way of being on the ground floor when the next congressional convention comes off.

For a man who will be up against a whole string of aspiring candidates to represent the second district in congress, Mr. Bacon gave the impression that he was not at all worried about the result, providing a break came in the convention, and Mr. Bacon felt very sure that there would certainly come a hitch in the balloting which would result in a split, making himself the successful candidate.

In other words, Mr. Bacon will be somewhat of a dark horse until the delegates begin to scratch their heads and get into a tangle over the candidate to be undividedly supported by them when the mist will be suddenly penetrated by the man from Wayne, who will prance in upon the convention floor like a thunderbolt from a clear sky and so charm the delegates by the magnetism of his appearance as to bring them all to his support.

And it would not surprise a great many persons hereabouts if this program should be carried out to the letter and that Bacon should turn out to be the choice of the convention.

One of the first calls made by Bacon this morning was on A. J. Sawyer, where he remained for several hours. Then he saw Fred Green and a few other brilliant luminaries of the republican party. When he got through visiting he returned to the Cook house and was one of the happiest appearing gentlemen that one would meet in a day's walk.

"I will win," he said in an interview if a break comes in the convention, and it looks very much now as though there would be a split.

"Just starting your campaign?" was asked.

"Oh, dear, no," was the reply. "I began several months ago. I am just here today to get a little acquainted."

Mr. Bacon said that he understood there is a move being made by Congressman Smith to have the convention held in Adrian this year.

"I saw a letter from Smith to one of his workers the other day," he said, "in which he advised holding the convention in Adrian."

This evening there will be held a meeting of the republican congressional committee to arrange for the approaching convention, at which an effort will be made to hold the convention next month. This is unusually early and it is said that the purpose of the move is to prevent too many dark horses appearing on the scene at the last moment.

## ASKED TO LEAVE U. OF M.

PROFESSORS ROLFE AND DOW MADE FLATTERING OFFERS

From the Universities of Pennsylvania and Missouri—Professor Rolfe will Accept Offer Made Him

It would seem that the universities of the country have a grudge against Michigan, or else they are envious of the very efficient corps of professors of which the University boasts, judging from the many flattering offers recently received by its professors.

Among the latest coveted acquisitions to other institutions is Prof. John C. Rolfe, who is professor of Latin here.

Prof. Rolfe has been asked to accept the professorship of practical philology in the graduate school of the University of Pennsylvania. The offer comes accompanied by a handsome increase of salary, in consequence of which the University of Michigan loses one of its most valuable men.

In an interview Wednesday Prof. Rolfe said: "I have accepted the offer from Pennsylvania. The increase in salary is very large. I shall leave Ann Arbor immediately after the closing of the summer school."

Prof. Rolfe expressed his regret at leaving Ann Arbor, saying he has become very much attached to the place.

Prof. Rolfe was born in Lawrence, Mass. When very young his parents removed to Cambridge, where he passed most of his boyhood days. Before entering college he was a student at the Latin school of Harvard. In 1881 he received the degree of Ph.

B. from Harvard and in 1885 he received the degree of Doctor of Philosophy. Immediately after receiving the latter degree he received a position as instructor of Latin at Cornell University. Later he was instructor in Latin and Greek at Harvard. During 1896 and 1897 he studied at the University of Munich and in 1898 continued his studies in Latin at the school of Athens. In 1899 he came to Michigan and was appointed assistant to Prof. Kelsey. In 1904 he was made Professor of Latin.

Prof. Rolfe is a deep and earnest student and in every respect a most capable man. The loss to Michigan will be a decided gain to Pennsylvania.

An offer has also been made to Earle Dow, assistant professor of history. Prof. Dow has been asked to accept the chair of history in the University of Missouri. He said this morning, however, that he had declined the offer. Although he has been offered a flattering salary, he does not care to go so far west. He could not carry on his individual studies, he says, so successfully there as here, the library of Missouri University having been destroyed by fire in 1892. As yet it has not been fully replaced.

## M'CAUSLAND IS SILENT

Young Doctor Won't Talk About the Damage Suit

FILED AGAINST HIM

Miss Simmons a Young Woman Whom He is Said to Have Jilted is the Complainant—A Nurse in the Case

Dr. Marshall McCausland, of this city, has a breach of promise case on his hands. Miss Mamie Simmons, of New Haven has brought suit against him for \$10,000 damages.

The doctor and Miss Simmons have been sweethearts for a number of years and have been engaged to be married during the past four years, during which time he was studying medicine in this city. The arrangement was that they were to be married when Dr. McCausland graduated and to start life together. Last summer Dr. McCausland received the appointment of house physician at the University hospital and has been practicing there during the year. He has been thrown constantly into the company of the corps of nurses and one of them, it is said, made a great impression on his apparently susceptible heart. A few months ago, it is alleged, he transferred his affections from Miss Simmons to the nurse.

Miss Simmons noticed the lack of fervor in his letters during the last days of their correspondence and a few weeks ago received a letter from him saying that he no longer loved her and asked that the correspondence should cease.

Miss Simmons is a young lady of a good deal of spirit and made up her mind that she would not consent to being jilted so summarily and so brought suit for damages. Miss Simmons comes from a very good family, is well educated and is considered one of the most charming young women of the town in which she lives.

When the reporter went to the hospital this morning to get Dr. McCausland's side of the story in order to state the facts fairly on both sides of the case, he said he had no use for reporters and refused to be interviewed on the subject.

He is quite a young physician and but for the large amount of damages asked by Miss Simmons, the matter would probably not have leaked out.

## NEW INVENTION IN DENTAL TABLE

Harry Bower, who is in the city as agent for dental supplies, was in Detroit Tuesday completing the sale of the American patent on a surgical gynaecological operating table, of which he is the inventor.

The table is built entirely of metal and is easily sterilized in every part. Its special feature being a moveable top which will conform to every position of a patient's body.

Surgeons have always had to move the patient themselves into the required position, either forward or back, and sometimes during an operation. This is a dangerous procedure. This table does away with such difficulties and it meets the approval of the best surgeons of this country. The table will be adopted in many of the principal hospitals all over the country, orders having already been given by them.

Mr. Bower expects to sell his patents in England and Canada within a short time.

THE COMING BATTLE. It is expected that this week will witness the beginning of the government fight against the beef trust which is alleged to be responsible for the big boost in prices of meat.

The action of the government in this case, as in the case of the Northern Securities company, is understood to be undertaken at the express command of the president. To say that the masses of the people are pleased with the courage of the president as manifested in these steps is to put the matter mildly.

Washington dispatches indicate that Judge E. D. Kinne, of this city, is under consideration for United States minister to the Hague. The judge is in Washington and the Argus has no means of knowing his position relative to the appointment.

Congressman Fordney, of the 5th district is out for a third term. Indications point to a rough and rugged road for him to travel to get there, however.

Ex-Postmaster Henry E. Edwards, of Jackson, proposes now to camp on the trail of Congressman H. C. Smith because he says Smith did not keep his pledges with him.

DANGEROUS HIGH TENSION WIRES.

The accidents which are happening right along with the high tension wires of the Detroit, Ypsilanti, Ann Arbor and Jackson Electric railway indicate that a mistake was made when those wires were permitted to enter the city. A few weeks ago one of them came down, or rather got loose from its insulation in some way, burned the whole top of the large pole on which it was strung off and fell down.

"MONEY AND MORALS."

Colonel Waterson, the silver tongued orator of the Louisville Courier-Journal, in his great speech in Detroit, Thursday night, on "Money and Morals," said that he is constantly growing prouder of this glorious country.

In spite of his clear vision of the dangers which lower, he manifests the optimism of the American generally in holding that our people will yet surmount these difficulties which beset them and rise to a higher and better civilization in which right shall be a larger factor and money more closely restricted to its legitimate function.

School teachers appear to be about the only people in public employ who have no political pull and consequently they are the first and the last people to have their wages cut when there is any shrinkage in funds.

JUDGE KINNE FOR THE HAGUE

As a Result of His Conference With the President

DISTINGUISHED JURIST

Said to be Slated for a Foreign Mission—His Friends Here Greatly Delighted Over the Announcement

The conference held at the White House last Saturday, between the President and the Hon. Judge Kinne, of this city, has resulted in a dispatch being sent out by the Washington correspondents slating the Judge for the appointment of minister to the Hague.

Judge Kinne had quite a long talk with the President but would not say what it was about. A friend of the judge says, however, that the latter told him some time ago that aside from a place on the bench there is only one office he would care to fill, and that is the office of minister to the Hague.

This circumstance, taken with last Saturday's summons, lends color to the story that the president may contemplate giving Judge Kinne the Hague mission.

The well known Michigan jurist, the announcement of whose possible appointment to the Hague was received here with a great deal of pleasure by the members of the bar and others, is Judge of the twenty-second judicial circuit, embracing Washtenaw and Monroe counties. He was born at DeWitt Centre, now East Syracuse, Onondaga county, N. Y., Feb. 9, 1842.

CAME TO THIS CITY.

He graduated from the classical department of the university in 1864, and going to Washington, D. C., he entered the employ of the government in the diplomatic bureau of the treasury department, and also took up the study of law at the Columbia Law school in Washington.

He is one of the few active and successful practitioners who have been able, through a long and successful practice, so to conduct the varied and complex interests submitted to his management, that his integrity has never been questioned.

HIS FRIENDS GRATIFIED.

Some of those who have known Judge Kinne intimately since he has been judge of this circuit have expressed themselves as most gratified over his possible appointment as minister to the Hague.

Attorney M. J. Cavanaugh—The judge would make a first rate man for the office. It would be hard to get a man to fill his place on the circuit bench here, however.

Attorney W. W. Wedemeyer—I'd like to see Kinne get it. He would make a splendid representative of the country abroad.

Arthur Brown, attorney—The only reason I would not want him to have it is that we would lose him here. No better man, however, could be selected for the post.

Attorney Thomas D. Kearney—The appointment would be all right, but if Kinne should go it would be a serious loss to the county.

City Clerk Harkins—Couldn't get a better man. He's fitted in every way for the place.

Justice Gibson—He would make an able, shrewd diplomatic representative of the United States anywhere. But I

should prefer he would be appointed nowhere unless perhaps the supreme court of the state.

Judge Wm. D. Harriman—It would be a splendid appointment. I hope the judge will get it, but I hardly think the salary is large enough for him to accept it.

Prosecuting Attorney Duffy—It would be a fitting tribute. One that is well deserved. Don't know a man who could be named for the place who would be better equipped for the duties or whose appointment would give better satisfaction.

Chas. A. Ward—I consider Judge Kinne a very capable man for the position. His place on the bench here will be hard to fill.

John Lawrence—It would be a fine appointment for Judge Kinne, but I should hate to see him leave Ann Arbor.

Judge N. W. Cheever—Judge Kinne would fill a position of this kind with marked ability. He is a man of broad culture and his experience as a judge and a lawyer will tend to prepare him to fill successfully any position of this kind.

Frank C. Jones—He is a man who is perfectly capable of filling any position requiring diplomacy. He is the most diplomatic man I have ever met. It would certainly be a suitable and fitting recognition both from a political and business standpoint, if his services to the party were to be thus recognized by the president.

THE DEATH OF MRS. DOIG

Mrs. John Doig, an old resident of this city, died suddenly of heart disease, on Saturday night, at the home of Mr. and Mrs. Fred Lutz, 607 W. Huron street.

Mrs. Doig was born in New York state 65 years ago and early in her married life made Ann Arbor her home. She lived here continuously until the time when she went, with her husband, to California.

The funeral was held Tuesday from the residence of Mr. and Mrs. Lutz, and the interment will take place in Kensington, Mich.

"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. MADE AN ATTACK ON SALOON WINDOW

The noise of breaking glass and the boisterous harrangue of a number of men at Philip O'Hara's saloon at 1005 Broadway on last Saturday night, about 7 o'clock, caused considerable excitement in the neighborhood.

According to Chief of Police Warren the disturbance was caused by "Reddy" Smith, the rag-peddler, who it appears was carrying a good sized jag. He had become boisterous in the saloon, when he was forced out of doors. On the sidewalk "Reddy," it seems, put on additional steam to his already belligerent attitude.

Officer Isbell was notified but when he reached the place "Reddy" was nowhere to be found. O'Hara refused to make a complaint against him, it being understood that he agreed to pay for the damage he had done.

## THROUGH AN OPEN SKYLIGHT

At the American House Mrs. Kaercher Fell Ten Feet  
HER BRAIN WAS INJURED  
Unfortunate Woman Still in State of Unconsciousness—May Recover However

Mrs. Caroline Kaercher, who lives at 102 West Liberty street and who has been employed for the past few days at the American house, met with a serious accident Friday afternoon, the result of which it is impossible to estimate at this time, since the unfortunate woman is still in a state of unconsciousness.

Mrs. Kaercher, who was engaged in the work of house-cleaning, was on the third floor of the hotel, where in the hallway there is a skylight. Yesterday it seems that the latter was open and that Mrs. Kaercher stumbled through the aperture to the floor below, a distance of about ten feet. Her cries attracted the attention of Mrs. Staebler, the wife of the proprietor, and other persons in the hotel. They hastened to the part of the house from which the cry for help came.

Mrs. Kaercher was lying on the floor. She was badly bruised about the face and head and was unconscious. She was carried to a room adjoining the scene of the accident, and Dr. John A. Wessinger was immediately summoned. He worked over Mrs. Kaercher for some time but his efforts to restore her to consciousness were unavailing. Dr. Wessinger, however, thinks that Mrs. Kaercher will recover, although she is suffering from a quite severe concussion of the brain.

Michael Staebler, the proprietor of the American house, says that Mrs. Kaercher was particularly warned Friday, by his wife, to be careful of the open skylight, Mrs. Staebler knowing that Mrs. Kaercher's eyesight was not of the best. It is thought that in her hurry, perhaps, from one part of the floor to the other that she had forgotten that the skylight was raised and fell through the open space before she was aware of her danger.

## THE PASSING OF THOS. D. RYAN

The funeral of Thos. D. Ryan, who died Thursday, April 24, at his home on Catherine street, was held Saturday morning at 9 o'clock at St. Thomas' church. The interment was in St. Thomas' cemetery.

Mr. Ryan was born in Ireland, county of Sligo in 1847. When a very young boy he came to Canada with his parents, settling in London, Ont. There he received his education. In 1867 Mr. Ryan went into the wholesale and retail grocery business in Seaford, Ont., with his brother-in-law, John Gilloran, as his partner. They were in business together twenty years, when reverses came and the partnership was dissolved.

While in Canada Mr. Ryan married Miss Sarah Kidd, daughter of the late Joseph Kidd, of Dublin, Ont. In 1887 Mr. Ryan left Canada and went to Saginaw and since then had been a commercial traveler for several prominent New York firms. Prior to his illness he traveled for Bennett & Sloan, the coffee and tea dealers of New York.

Mr. Ryan removed to Ann Arbor from Saginaw ten years ago so that he might have the advantages of the educational facilities here for his children.

He is survived by four sisters, a widow and six children—Joseph, May, Frank, Genevieve, Camilla, of this city, and Bert, of Chicago. Another daughter, Miss Sadie, was drowned at Whitmore Lake two years ago. Mr. Ryan grieved very much over her sad death and this may have hastened his death.

## MAY COURT DOCKET FINISHED

The making up of the docket for the May term of court was completed Monday by County Clerk Blinn. There are twenty-four jury cases, six chancery cases of the first class and eleven fourth class chancery cases to be heard.

The most important cases to be heard, perhaps, are *Lambert vs. Roller*, a slander suit, and that of *Thomas P. Kearney* against the *Washtenaw Mutual Fire Insurance company*, more familiarly known as the "Bean" case.

This is the case in which Kearney claims that the insurance company in appraising his loss after his barn was burned down did not allow him the proper remuneration for a large quantity of beans which were stored in the barn, he says, and which were lost in the fire.

## YOUNG BICYCLIST SAVED FROM DEATH

By the Timely Presence of Mind of Motorman Bloomfield THE CARELESS WHEELMAN Was Almost Under the Car When the Motorman Brought it to a Stop

What might have resulted in the death of a young bicyclist was narrowly averted about 7 o'clock p. m. Friday at State and William streets by the timely presence of mind of A. E. Bloomfield, a motorman on the city railway.

The car which Bloomfield was driving was going south. It was approaching the switch at the point above named, when a young man riding a wheel, attempted to pass in front of it. The bicyclist would probably have gotten across the tracks safely, had the fire of his wheel not caught in a slight intersection between the main and the switch rails. The young fellow fell off across the track and the car was almost upon him when motorman Bloomfield, by a heroic effort suddenly reversed the lever of his motor and the car with a sudden jolt was stopped.

The bicyclist picked himself up, mounted his wheel and rode off before Bloomfield had an opportunity of getting off his car to secure his name or find out if he had been hurt by his fall.

Among the passengers on the car was Thomas J. Keech, manager of the Michigan Telephone Co. In talking of the occurrence Saturday, he said:

"I have been on many electric cars, but the way in which Mr. Bloomfield handled his motor last night was the best I have ever witnessed. The car was going at a fair rate of speed. It stopped suddenly that the passengers were all jolted more or less and some of us got out to see what was the matter. The young fellow who had ridden on to the tracks, was just picking up his wheel from the street in front of the car, but before any of us could speak to him he was gone. Motorman Bloomfield should have the appreciation of the public for the splendid effort he made to save the young fellow's life."

**SMALL BLAZE AT COUNTY HOUSE**

The two fire alarms which were rung in Saturday were from the county house, where a small fire was raging, and that rung by Chief Siple to notify the firemen who were at dinner that their services were needed, it being thought for a while that the fire at the county house was of a more serious character than afterwards developed.

The latter was caused by an overheated stove in the kitchen which set fire to the flooring of the room, but was extinguished before the department arrived, although they made an exceptionally quick run.

## A Nightmare

Gives point to the fact that excessive or irregular eating disturbs the digestion. Nightmare or night hag has its day time correspondence in the undue fullness after eating, with the belchings and sour or bitter rising so often experienced after too hasty or too hearty eating.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and its allied organs of digestion and nutrition. When these diseases are cured, the whole body shares in the increased strength derived from food properly digested and perfectly assimilated.

"Your 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy have been of great benefit to me," writes Prof. Pleasant A. Oliver, of Viola, Fulton Co., Ark. "Before I used the above mentioned remedies my sleep was not sound; digestion bad; a continued feeling of misery. I now feel like a new man. Any one in need of medical treatment for nasal catarrh could do no better than to take treatment of Dr. R. V. Pierce. I know his medicines are all right in this class of diseases."

Sometimes a dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It is better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others, and which you believe will cure you.

## NEW STORE ON DETROIT ST.

Rocco Disteride, the confectioner, is tearing down his little store on the corner of Kingsley and Detroit streets, and has let the contract to Hochrein & Braun for a large store which will be built on the property as soon as the old structure is removed.

The new building will be a two-story frame, with brick veneering and stone foundation. The store will face Detroit street and will have a handsome tile entrance. The first floor will contain the store, ice cream parlor and kitchen, while the second floor will be occupied by the family.

The brick used in the construction of the building will be hand burnt and the outside finishing lumber will be of Michigan pine. White maple will be used for the floors of the store, dining room, kitchen and bath room. The entire store front is to be fitted with the best polished American plate glass.

The building will be fitted up with all the modern improvements and when finished will be very attractive and a great improvement to the street on which it will be located.

## LARGE TAX SUIT BEGUN TODAY

Against the Holmes Mercantile Co. by Chelsea Village

## CREATING MUCH INTEREST

Martin J. Cavanaugh and W. W. Wedemeyer, of this city, are Counsel for the Village

A suit, through summons, was begun Friday by R. D. Witherell, city attorney of Chelsea, and Martin J. Cavanaugh and William W. Wedemeyer, associate counsel, of this city, against the Holmes Mercantile Company of Chelsea, to recover \$300 in taxes alleged to be due the village by the Holmes firm.

The suit is engaging a great deal of attention both here and in Chelsea, as there are some features involved in it which may result in showing that there was not much zeal displayed in the effort to collect the tax against the Holmes company.

The history of the case dates back to September, 1901, when the village assessor of Chelsea appraised the property of the Holmes Company at \$15,000. These figures, it seems, did not meet with the approval of the Board of Review who later tacked on \$15,000 more to the value of the property, thus assessing the property at \$30,000.

On this amount the Chelsea village government levied a tax of \$300 per annum. This was prior to the twenty-first of October, 1901, when the treasurer's warrant expired and the latter official reported that the tax was unpaid. There has been apparently no effort made to collect the tax up until this time, when the present suit has been commenced.

Should it be shown, say the attorneys in the case, that the Chelsea village treasurer has not made the proper effort to collect the tax, he will probably be brought into court and asked to explain his position in the matter.

The Holmes concern are one of the largest general mercantile houses of their kind, outside of Detroit, in this section. They have a large trade in many of the towns surrounding Chelsea and throughout the country districts. For this reason the outcome of the case will interest a considerable number of people, to say nothing of the attention that it is already attracting from Chelsea citizens.

The gentlemen comprising the Holmes Mercantile Co. are Harmon S. Holmes, Edward Vogel, Ernest R. Dancer and Dallas H. Wurster, all of whom mean to contest the suit strongly as they profess to believe that the tax levied upon them is too high.

The present suit is brought to recover the unpaid tax with interest from the twenty-first day of October last.

Many people believe Rheumatism is a disease of the blood. Perhaps it is, and perhaps it is not. If it is a blood disease, why is it the pain often stays in the same place? Why is it the blood doesn't always carry the disease all over the body and into every muscle and joint? Your doctor may be able to explain it, but it is all guesswork anyhow. Omega Oil is what you ought to use for Rheumatism. It is to be well rubbed on the place where the pain is. No matter whether the trouble is in the blood or not—Omega Oil goes in, finds it out and cures it. What's the odds so long as you get relief? Drink plenty of fresh water every night and morning while using Omega Oil. The water will keep the kidneys well flushed, and will bring about a quicker cure of Rheumatism. # MRS. YOUNGS ON DECK AGAIN

### She Marries Foster Kilpatrick and Trouble Results

## A SEWING MACHINE

### Plays an Important Part in Civil Suit Begun Against the New Made Bride

The Youngs perpetual injunction case has of itself left the boards, as Mrs. Youngs is happily married to Foster Kilpatrick, who was perpetually enjoined from speaking to her, but its influence is at work, with the result that the little town of Maybee is witnessing a lively civil suit due solely to the Youngs affair.

The Youngs children boarded for some time with one of the brothers-in-law named Hayden, and as security for the pay Mr. and Mrs. Youngs left a \$20 sewing machine, promising to settle the bill of \$30 as soon as they were able. In the meantime the trouble occurred, and the children left the Hayden family, while the opening of chapter No. 3 revealed the fact that a relative of Mrs. Kilpatrick, Greisehopper by name, had caused the machine to be conveyed to his own home. Hayden has reprieved the machine to obtain satisfaction for the \$30 worth of board the small Youngs are alleged to have absorbed, and through sympathy for Mrs. Youngs, who is the owner, Greisehopper is fighting the case. The case was set for Wednesday, but Attorney L. N. Brown of Ypsilanti returned that evening with the information that it had been adjourned until the middle of May.

Maybee and the environs are shaken to their foundations by the suit, which has split the community into two factions, who take their stand on the general merits of the Youngs case and the particular justice in the wife's being obliged to lose her sewing machine to settle the children's board bill.

The former Mrs. Youngs is at present living with her husband, Kilpatrick, in the northern part of the state.

## "Gone With Handsomer Man."

Durand, Mich., May 1.—When Wm. Skedule, the inspector of water tanks on the Grand Trunk road, returned to his home in this village Tuesday he found this note on the table: "Will, I shall never return to you. It will do you no good to look for me. Are you surprised? I wish you success." During the intervals during which her husband was absent from home on other parts of the division she frequently entertained a man whom she told the neighbors was her brother. He is said to be a married man living in Battle Creek. She left with \$200 belonging to her husband, who vows vengeance if he ever comes across the man who wrecked his home.

## Jumped to His Death.

Jackson, Mich., May 1.—Israel V. Cookingham, aged about 80 years, jumped from the tower of No. 1 fire engine house shortly after 7 o'clock Wednesday morning, and was instantly killed. The deed was the result of worry over the necessity of moving to another house, and the fear that the family could not hold their boarders in another location.

## FOR ENHANCEMENT OF CITY'S BEAUTY

### An Enthusiastic Meeting was Held Yesterday Afternoon

## A CIVIC ORGANIZATION

### Was Perfected and Work will Shortly Begin on the Improvements That Have Been Mapped Out

For the first time in the history of Ann Arbor, a society has been organized the purpose of which is to beautify and improve the city. Ann Arbor has long been widely famous for its natural beauty and now when the new organization executes some of the improvements, at present under consideration, the city will be an attractive summer resort and a home of which its citizens may well feel proud.

Wednesday being the last meeting of the Ladies' Union, the last paper in the series of philanthropy had been assigned to Mrs. Reighard. Instead of presenting this paper, however, Mrs. Reighard arranged for a symposium on the subject "Civic Improvements," the aim of the meeting being to organize the Civic Improvement association.

The speakers procured by Mrs. Reighard, representing the city and University, were all masters of their subjects and their talks tended to show what has been done in cities less favored by nature than Ann Arbor, what can be done, and also ideas of what may be accomplished.

The first speaker was Mrs. Joseph Markley, who gave an interesting account of what has been done by the improvement association in the little German town of Gottingen, which has not the beautiful natural resources that Ann Arbor possesses.

Mrs. Lloyd presented a very practical paper on "The Possibilities of Ann Arbor." She suggested that the city should have parks, play grounds for children, bathing places, etc. She took occasion to remark that the saloon should be fought by providing something to take its place. A park, provided with comfortable seats, music, cafe, etc., will keep many from the saloon who go there because there is nowhere else to go. She also recommended hygienic improvements—care of back yards, sidewalks, roads and gutters, giving suggestions regarding the disposal of different kinds of refuse, etc.

Prof. Slauson spoke of the assistance that can be given both by adults and children for beautifying the city. A child should be taught, he said, to refrain from marking walls, walks or buildings of the town and much of this can be learned in the child through imitating older people.

Mr. Allmendinger, a former member of the council, cited all the improvements made by the city council during the past fifteen years, after which Mayor Copeland, who is deeply interested in the new movement, expressed his willingness to co-operate in every way possible to carry out the plans already suggested. He spoke at length regarding the question of caring for the sidewalks in the winter. He referred to the plan of the authorities to replace all dead and dying trees with new ones, offering suggestions as to how this can be accomplished, by the co-operation of the people concerned with the city council.

In regard to the planting of public places with shrubs and trees he suggested the assistance children could lend in this matter. Being especially interested in the park system he spoke of the "cat hole" and triangle north of the Michigan Central station. He suggested that without much trouble a park could be made to extend from the triangle to the boulevard, thus bringing in the large island, situated near Lawrence's wood, which he said is one of the prettiest spots to be found anywhere. Together with the aesthetic side of this question there is a practical and business side. By improving this part of the city, the fifth ward can be brought into closer connection with the high school and University.

Prof. Davis, who occupies the chair of forestry in the University, gave a valuable talk, offering suggestions concerning the laying out of trees and shrubs in the public and residence places of the city. He was followed by Prof. Spaulding, who favored the investment of money in order to procure a landscape architect. He, too, favored the park system and suggested that there was no time better than the present to accomplish it. The work, he said, should be begun in a small way with an appropriation of \$50 or \$60 from the council or secured by taxing the members of the association.

Prof. Spaulding concluded the list of speakers, after which Mrs. Petree, president of the Ladies' Union, announced the meetings adjourned until the first Wednesday in October.

In order to offset various rumors circulating about we wish to say that the meetings of the common council of this town are as happy and harmonious as a Sunday school and that we have not had to point a gun at Alderman Murphy for the last four weeks.

## DAN GROSVENOR SAYS:

### "Peruna is an Excellent Spring Catarrh Remedy---I am as Well as Ever."

HON. DAN. A. GROSVENOR, OF THE FAMOUS OHIO FAMILY.

Hon. Dan. A. Grosvenor, Deputy Auditor for the War Department, in a letter written from Washington, D. C., says:

"Allow me to express my gratitude to you for the benefit derived from one bottle of Peruna. One week has brought wonderful changes and I am now as well as ever. Besides being one of the very best spring tonics it is an excellent catarrh remedy."---

DAN. A. GROSVENOR.

In a recent letter he says:

"I consider Peruna really more meritorious than I did when I wrote you last. I receive numerous letters from acquaintances all over the country asking me if my certificate is genuine. I invariably answer, yes."---Dan. A. Grosvenor.

## A County Commissioner's Letter.

Hon. John Williams, County Commissioner, of 517 West Second street, Duluth, Minn., says the following in regard to Peruna:

"As a remedy for catarrh I can cheerfully recommend Peruna. I know what it is to suffer from that terrible disease and I feel that it is my duty to speak a

good word for the tonic that brought me immediate relief. Peruna cured me of a bad case of catarrh and I know it will cure any other sufferer from that disease."---John Williams.

Miss Mattie L. Guild, President Illinois Young People's Christian Temperance Union, in a recent letter from Chicago, Ill., says:

"I doubt if Peruna has a rival in all the remedies recommended to-day for catarrh of the system. A remedy that will cure catarrh of the stomach will cure the same condition of the mucous membrane anywhere. I have found it the best remedy I have ever tried for catarrh, and believing it worthy my endorsement I gladly accord it."---Mattie L. Guild.

## A Congressman's Letter.

Hon. W. P. Brownlow, Congressman from Tennessee, writes from Washington, D. C., the following:

"I have suffered from catarrh of the stomach for several years, and for the past twelve months was in an exceedingly critical condition. My attention was called to your Peruna, and I began to use it, and my improvement was noticeable after the first three days. I have taken three bottles of the medicine and I feel satisfied that I am now almost, if not permanently, cured. In connection with the Peruna, I have used your Manalin for biliousness and torpid liver. I regard it as the best medicine for this purpose that I have ever used. Having been benefited so much myself, I give you this statement, that others may be likewise benefited."---W. P. Brownlow, M. C., Jonesboro, Tenn.

Mrs. Elmer Fleming, orator of Reservoir Council No. 168, Northwestern Legion of Honor, of Minneapolis, Minn., writes from 2535 Polk street, N. E.:

"I have been troubled all my life with catarrh in my head. I took Peruna for about three months, and now think I am permanently cured. I believe that for catarrh in all its forms Peruna is the medicine of the age. It cures when all other remedies fail. I can heartily recommend Peruna as a catarrh remedy."---Mrs. Elmer Fleming.

Treat Catarrh in Spring.

The spring is the time to treat catarrh. Cold, wet winter weather often retards a cure of catarrh. If a course of Peruna is taken during the early spring months the cure will be prompt and permanent. There can be no failures if Peruna is taken intelligently during the favorable weather of spring.

As a systemic catarrh remedy Peruna eradicates catarrh from the system wherever it may be located. It cures catarrh of the stomach or bowels with the same certainty as catarrh of the head.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

## KARL HARRIMAN GETS A SEND-OFF

The Detroit Evening Journal has the following to say about Karl Edwin Harriman, the former dramatic and literary editor of the paper, who has resigned to take the position of associate editor of the Pilgrim Magazine. Mr. Harriman, who is a son of Judge Harriman, and a graduate of the University, was one of the most popular young men of the city before he left for the Detroit field.

"And if ever I come back to the Journal I sincerely hope to find all you good fellows at your accustomed desks in the office and then I will not feel as the old Hoosier felt when he said: 'What's come o' Bill Lindsay an' th' sax-horn fellers—say I wanten hear th' old band play!'"

Karl Edwin Harriman, dramatic and literary editor of The Journal, who leaves this paper today to become associate editor of the Pilgrim magazine, was given a send-off in the ordinary of the Russell house last night by his fellow-workers. About the circular table in the ordinary of the hotel were seated just a score of workers on The Journal, with Tom May, the cartoonist, as toastmaster.

During the closing festivities the toastmaster made a neat little speech and presented the guest with a diamond and pearl scarf pin. Then it was that Mr. Harriman arose to the occasion and in a happy vein recited James Whitcomb Riley's verses in a way that would have warmed the heart of the Hoosier poet.

One of the surprises of the evening was when John B. Fitzpatrick, press agent of the Avenue theater, was called on for a few remarks. He made a characteristic speech and then, digging down in his pocket, he brought forth a morocco case containing gold cuff buttons set with diamonds and a handsome emerald and pearl shirt button.

These he presented to Mr. Harriman with the compliments of and on behalf of the Avenue theater management.

## ST. JAMES HOTEL NEW MANAGEMENT

The St. James hotel went under new management yesterday. Michael Brenner, who owns the property, will take charge of the rooming facilities of the house. E. G. Alber will conduct the saloon, while W. F. Willits, the Oyster Bay man on State street, will have charge of the restaurant.

The latter is to be conducted on the European plan and under Mr. Willits' management will probably be one of the best restaurants in the city.

## FATHER KELLY ATTACKS "DOC" ROSE

At the special meeting of the council Wednesday night Father Kelly addressed the board.

He said: "I appear in the capacity of self-defense. On N. State street there is a disreputable place. Those who frequent it disturb the sisters of the school. The young men become drunk and climb up on our terrace and throw sticks and stones at the windows of the school. I appeal to you to deny this man the right to a license and ask you to give us some relief."

Attorney Sawyer said that Rose ought not to be denied a license until it was found whether or not he was running an unsafe place.

## LITTLE GIRL RUN DOWN

By a Bicyclist at Lawrence and State Streets

MONDAY AFTERNOON

He was Going at a Great Rate of Speed and Did Not Wait to Help the Child

Little Nona Fogerty, a pupil at the Fourth ward school and a daughter of Mrs. Emma B. Fogerty, living at 518 Lawrence street, was run over by a bicyclist at Lawrence and State street about 3:30 o'clock Monday afternoon.

Young Harold Stevens, who saw the accident, says the bicyclist, who was riding at a great rate of speed, ran into the child as she was crossing the walk. The little one was thrown to the ground and for a time it looked as though she had been seriously injured, but after she recovered from the shock of the fall she was able to go to her home, assisted by some older girls who came along just as the little girl was thrown to the ground.

The fellow who rode the bicycle did not wait to help the child whom he had run down, but hurried up State street, despite the fact that a number of persons called upon him to stop.

It is not known whether or not the child is injured internally as she was suffering considerably after she was brought home.

A little life may be sacrificed to a sudden attack of croup. If you don't have Dr. Thomas' Electric Oil on hand for the emergency.

HER LIFE SUDDENLY EXTINGUISHED

Miss Persis Willard, who for a number of years has been in the millinery business in this city, was found dead in her bed at her home, 330 S. Main street, Sunday morning at 6:30 o'clock by Miss Elliott, who rooms at the house.

A few days ago Miss Willard contracted a severe cold resulting in pneumonia. As she had no relatives in the city, her neighbors were with her a great deal of the time, some of them being with her during the evening before she died, at which time she apparently felt no worse than usual.

When Miss Elliott went to Miss Willard's room she saw that something was wrong and immediately sent for Dr. Kapp, who pronounced Miss Willard dead.

The coroner was summoned, but decided that no inquest was necessary, death having resulted from natural causes.

Miss Willard was born in Churchville, N. Y., sixty-eight years ago and has been a resident of Ann Arbor nearly forty years. Although of a very retiring disposition she had many friends in Ann Arbor.

The remains were taken to Churchville, N. Y., Monday for burial. The deceased is survived by three sisters, one living in Hudson, Wis., and two in Churchville.

DEATH OF A PIONEER IN YORK

A SUCCESSFUL SALINE SCHOOL ENTERTAINMENT

The Flouring Mill is Putting in New Machinery—New Telephone Company's Poles Being Placed

Saline, Mich., April 28.—Henry Coe, one of the pioneers of York township, died at his home at 2 o'clock Sunday afternoon of blood poisoning, aged 62 years. Mr. Coe, who was a well known, highly esteemed and successful farmer, was born in this county August 29, 1839. He was married in 1861 to Martha A. Stark, who was also a native of this county. They had four children. Mr. Coe was a member of the Masonic lodge at Saline and the funeral will be held at 2 o'clock this afternoon under the auspices of the lodge. Burial will be at Stony Creek.

The Union School entertainment held Friday evening was a great success and repaid the teachers for the hard work its preparation entailed. The acting out of the Mother Goose melodies by the children brightened the golden chords of memory as the echoes came of voices which in bygone days had sung the lullabies to the children. The requests that the entertainment be repeated have been so numerous that we may expect to hear it again.

J. A. Kim is putting in new steam flour mill equipments and will have an up to date flour mill.

Will Derendinger has been on the sick list but is out again.

G. C. Townsend is putting in a cement walk around his house.

The poles for the line of the Co-Operative Telephone Co. have arrived and are being placed in position.

The last number in the Saline lecture course, the Ladies Military band, will be given May 7. Dont miss it.

## CHELSEA'S NEW LUMBER PLANT

Chelsea, Apr. 25.—Everybody is invited to the Congregational church on May 2, when the sisterhood will give a good supper for 15 cents, children ten cents with the following menu: Potato Salad, Boston Baked Beans, Cold Tongue, Cold Cheese, Cold Pickles, Brown or White Bread, Cottage Cheese, Assorted Cakes, Coffee.

The Presbyterian church of Unadilla will hold a warm sugar social at their hall April 30.

Another business enterprise has been started in Chelsea known as "The Chelsea Lumber and Produce Co." with the following stockholders, O. C. Burkhart, F. H. Sweetland, W. P. Schenk, J. W. Schenk, and F. P. Glazier. Anything in the shape of produce will be bought by them.

Mrs. George Irwin, of South street, lies dangerously ill at her home. She was quite suddenly stricken recently while preparing to attend church and has been in a serious condition since. Fears are entertained as to her recovery. Mrs. Irwin has been a resident of this village for upwards of 30 years.

BOLAND WANTS TIME EXTENDED

For the Completion of His Electric Road to June 1, 1903

A WATERING TROUGH

It is Ordered Put Up in the 5th Ward—New Hydrant at Washington and Third Streets

At a special meeting of the city council Monday evening several important matters were taken up and passed upon.

Ald. Fischer introduced a resolution providing that William A. Boland be granted an extension of time for the completion of his electric road to Ann Arbor to June 1, 1903; and that Mr. Boland make satisfactory arrangements with H. W. Ashley, manager of the Ann Arbor railroad, for bearing a proportionate share of the expense of the proposed grade separation.

Alderman Koch then presented an amendment to Mr. Fischer's resolution, providing that Mr. Boland and his successors shall allow other electric roads running into Ann Arbor in the future to use the tracks around the court house square after paying for the use of current and track. The motion was carried as amended.

Alderman Koch moved that the liquor bonds be fixed at \$3,000, as usual, with two sureties.

Alderman Hamilton presented a petition from the requisite number of taxpayers on State street requesting that the street be paved from Huron street to Monroe street, and moved that the petition be referred to the Board of Public Works, with directions to report to the council as soon as possible the plans and specifications for the paving, together with an estimate of the probable cost.

The water committee reported in favor of an appropriation of \$75 for the construction of a watering trough in the Fifth ward, and ordered a fire hydrant to be placed at the corner of Washington and Third streets. On motion of Alderman Schlenker the report was received and the appropriations were allowed.

## ADD UP THE GAINS.

The virtue of one dose is so small, you can't see any change. But add together all the little virtues from all the little doses and the effect is very marked.

In consumption, as in other cases, the results secured from continued treatment with Scott's Emulsion come from the accumulation of many small gains. A little gain in strength each day—a little gain in weight each day—if continued for weeks, amounts to something.

The fact that Scott's Emulsion can be taken for so long a time without the slightest inconvenience is greatly in its favor as a medicine for consumptives. Such a medicine gives itself time to do good.

It makes new flesh and strengthens the lungs.

THE AMERICAN INVASION

London and Continental Papers Continue to Discuss It.

BRITISH FIND OUR FLATS SUPERIOR

Way of Leasing Apartment Houses Praised by London Paper—Americans to Teach Scotch Ship Riveters, Ingenious Undertaker Advertiser to Bring Back Bodies of Dead From South Africa.

So steadily does America's industrial invasion of Europe progress that even the monotony of American success cannot dull the keen interest and apprehension with which it is viewed on this side of the Atlantic, says a London dispatch.

"We are whole encyclopedias behind the times in the science of flat building," says a writer in this paper, "and perhaps no city in the world can show us our deficiency and their remedy more effectively than New York."

Continuing, the writer points out that flats are let in New York on a year's lease, but that none is rented in London for less than three or five years. The New York rents, it is maintained, though nominally higher, are really lower than the London rents owing to the fact that the London landlords insist on excessive and senseless repairs being executed by the tenants.

Another London paper reprints from a Swiss review details of a plan by which American coal is supplanting the German article in Switzerland. According to this authority, large warehouses will be built at northern French ports for the purpose of storing and sorting American coal and also for the purpose of manufacturing briquets (compressed coal bricks) from the waste of French and Swiss railroads.

The universal plaint is concisely voiced by The Evening Standard. "American influences," it says, "appear just now to pervade the whole of Europe. If American horses do not carry all before them yet, American riding, American trading, American horse dentistry and, shall we add, American 'doping' seem to have increasing vogue not only in this country, but in France, Germany, Austria, Russia and wherever else there is an opportunity on the continent."

The Star, commenting on the recent Windsor races, says: "One could not fail to notice how completely the American sent has come into vogue, so much so that it positively strikes the eye as old when a jockey rides in the old fashioned style."

Judging from the English papers themselves, American superiority in enterprise extends from the cradle to the grave. The Morning Leader has a long article on the advertisement of an American undertaker in The Times. He offers to disinter and ship home the bodies of officers and men killed in South Africa.

Providing For Pastors' Families. The rich churches of New York have inaugurated the custom of raising large funds for the benefit of the families of ministers who may die in the brack. When Dr. Babcock, pastor of the Brick Presbyterian church, died in Italy, his congregation raised \$50,000 for his widow. A similar movement is on foot, says the Chicago Tribune, in the Fifth Avenue Presbyterian church for the benefit of Mrs. Purves, widow of the Rev. George T. Purves, who was in charge of that church for a year or so. The sum set in this case is \$100,000.

\$2.50 SENT FREE!

The Well-Known Chicago Heart Specialist, FRANKLIN MILES, M. D., LL. B., will send \$2.50 Worth of His New and Complete Treatment to Our Readers

There never was a better opportunity for persons suffering from diseases of the heart, nerves, liver, stomach or dropsy to test, free, a New and Complete Treatment of these disorders. Dr. Miles is well known as a leading specialist in these diseases, and his liberal offer is certainly worthy of serious consideration by every afflicted reader.

This new system of Special Treatment is thoroughly scientific and immensely superior to the ordinary methods. It includes several remedies carefully selected to cure each individual case and is the final result of twenty-five years of very extensive research and experience in treating this class of diseases. It consists of a curative diet, tonic tablets, laxative pills and usually a plaster, selected for each case. Extensive statistics clearly demonstrate that Dr. Miles' New Treatment is three times as successful as the usual treatment.

Thousands of remarkable testimonials from prominent people will be sent free which prove the doctor to be one of the world's most successful physicians. Mr. Julius Keister of 350 Michigan Avenue, Chicago, testifies that Dr. Miles cured him after ten able physicians had failed. Mrs. R. Trimmer of Greenspring, Pa., was cured after many physicians had pronounced her case "hopeless."

Col. E. B. Spileman of the 9th United States Regulars, located at San Diego, Cal., says: "Dr. Miles' Special Treatment has worked wonders in my son's case when all else failed. I had employed the best medical talent and had spent \$2,000 in so doing. I believe he is a wonderful specialist. I consider it my duty to recommend him." "For years I had severe trouble with my stomach, head, neuralgia, sinking spells and dropsy. Your treatment entirely cured me," writes Hon. W. A. Warren of Jamestown, N. Y.

"BILL" LEFRADGE AGAIN IN TROUBLE

William Lefradge, the notorious colored character who, in company with three others of his race, one a woman, held up Fred Joerndt at the farmers' sheds on Catherine street last October and robbed him of his valuables, is in trouble in Detroit.

This time Lefradge is locked up at the Detroit Central police station on the charge of stabbing Zeb Smith, another colored man, in a saloon brawl at Hastings and Clinton streets, one of the toughest colored localities in the city.

After the affray, the Detroit Free Press says that Lefradge was found in a dwelling on Rivard street, where he was surrounded by beer bottles, empty and otherwise. He was as happy as could be, and insisted on explaining that he was having a fine time when the police swooped and spoiled his indulgence.

A MOTHER'S GRATITUDE.

The care taken during their childhood brought them past the danger point and made them healthy men and women. Children are generally bothered at some period with incontinence of urine, and inability to retain it is oftentimes called a habit. It is not the children's fault, the difficulty lies with the kidneys and can be readily righted if taken in the proper way. An Ann Arbor mother shows you how.

Mrs. Wm. Thaisen, of 321 N. Thayer street, says: "Our little boy, five years old, had for two years an extreme weakness of his kidneys and loss of control over the secretions from these organs. We doctored and doctored for him and tried numerous remedies without his getting the least benefit. On seeing Doan's Kidney Pills recommended and especially in such cases, drug store and began to give them to our drug store, and began to give them to him. He improved after a few doses and continuing the treatment he was soon cured."

GIRLS HELP GOVERN.

Straws That Show Which Way the Wind is Setting. Are women to take part in government in the future? Yea, they are, if signs mean anything. The beginning of the present year marked a movement that recognizes fully woman's right and power to govern.

At Vassar college has existed for years a students' association for the mutual benefit and pleasure of its members, but the organization had until recently little or no voice in the discipline or government of the institution. That was conducted old style—on the one

THE GOVERNING BOARD AT WORK.

hand, a faculty whose rule was despotic or otherwise, as happened in all cases one from which there was no appeal, while the students were automata, whose only role was to obey.

Now this old time regime has been changed. The faculty granted to the students' association a charter of its own, and that charter, like the constitution of the United States, conferred on the young women certain rights that not even the faculty can take away. The rights also involve duties, and among these are the maintenance of order in the college buildings and grounds, quiet during study hours and the establishing of all regulations for open air exercise. The powers that be still claim the right to "boss" the gymnasium, it seems. On the supposition that girls do not know what is good for them the right to enforce attendance on chapel service is reserved to the faculty. Perhaps they thought there could not be power enough in a students' governing board to make the girls go to chapel. The faculty and college trustees still hold a checkrein on the young ladies, but it is a longer, looser one than ever before it was. Vassar distinctly recognizing that even a girl is a responsible creature and that in the main she can behave herself without being watched. This is a very great gain for a girls' school.

In the second instance it is not women or young ladies who take part in government, but just public school girls, in a Pennsylvania high school at Williamsport. The principal, Professor W. W. Kelchner, to his credit be it spoken, devised the educational republic wherein pupils themselves, and girls as well as boys, are members of the legislature. Despotism in school government, as elsewhere, seems to be passing.

The Williamsport scheme embraces a constitution and bylaws under which the co-sex legislature works. It consists of two bodies, of which the board of education may be called the senate; the other, including pupils and two members of the faculty, is the house of representatives. The preamble to the constitution says among other things:

"Realizing that we can repay the city and the state best by becoming good citizens and believing that self government in school affords the best training for a broader citizenship, we hereby institute a representative government under the following conditions:" etc.

This preparation for broad citizenship includes girls as well as boys, mark you. Further, the admirable document governing the deliberations of this enlightened legislature, more enlightened than the congress of the United States, provides that the board of governors shall consist of two members of the faculty and "a boy and girl from each class." Following along the line of perfect sex equality a lady and gentleman from the faculty were chosen to represent that body on the governing board. A boy is president and a girl is secretary and treasurer. One notable feature of this system of government is that not even the board of education itself can pass regulations for the government of the pupils unless their own board concurs in the measure. They themselves help make the rules and help pass sentence on those who break them. Instead of being reported to a teacher, disorderly or improper conduct is reported to the board composed mostly of pupils themselves, and they pass sentence. This excellent arrangement will prevent schoolgirls from acquiring the name of spies and tattlers, which some of them occasionally get.

FAINTING. Is it Only a Fashionable Feminine Accomplishment?

In the novels of a generation or so back, fainting seems to be generally regarded as an accomplishment of a fashionable woman. Whenever there was an awkward situation to be covered the woman discreetly and decorously fainted. It is also insinuated that place as well as time had to be considered in the fitting exercise of this accomplishment. There must be a convenient couch to lie on and still more there must be a pair of manly arms to support the limp burden as it swayed and slipped to the ground. Women did not as a rule exhibit this accomplishment for the benefit of their own sex, but only when some observant male was at hand to see and succor.

The heroines of the modern novelist are not given to fainting. The "accomplishment" seems to have gone out with the working of samplers. Weakness was once a woman's weapon. Now she

despises weakness, and all its symptoms. It may be taken for granted therefore that now-a-days if a woman faints it is because of genuine weakness that she cannot conceal. Instead of wanting male observation she avoids it and despises herself for her own frailty.

WHY WOMEN FAINT.

In general women who faint are more liable to do so at some special periods than at others, and the liability to faint is generally increased with the recurrences of the periodic womanly function. From this fact alone it might be fairly argued that there is a close relation between local womanly weakness and the physical weakness which causes women to faint. Womanly ailments surely undermine the general health. Irregularity, suppression, profusion, unhealthy drains, inflammation, ulceration, and female weakness, are the diseases which drain the vitality and weaken the general health of women and render them liable among other things to "fainting spells." Cure the local womanly diseases and there is at once a gain in the general health.

"It gives me great pleasure," writes Miss Ella Sapp of Jamestown, Guilford Co., N. C., "to thank Dr. Pierce for the great good received from the use of his 'Favorite Prescription' and 'Golden Medical Discovery.' I had suffered for three years or more at monthly periods. It seemed as though I would die with pains in my back and stomach. I could not rise to my feet at all without fainting; had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I felt better, had better appetite and slept better. Now I have taken two bottles of 'Favorite Prescription' and am happy to say I am entirely cured, and all done in two months' time when all other medicines had failed to do any good at all."

WEAK WOMEN MADE STRONG.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well. It does not matter how great is the weakness or how chronic the sickness, "Favorite Prescription" may be used with the utmost confidence and assurance that it will cure and strengthen if the disease lies within the bounds of a medicinal cure. In many a case where local physicians have said there was no aid in medicine and pointed to a hazardous operation as the only alternative to a life of suffering, the use of Dr. Pierce's Favorite Prescription has resulted in a perfect and permanent cure. It is such cures as these which have given "Favorite Prescription" pre-eminence among medicines for the cure of woman's diseases.

"I suffered for twelve years with female trouble," writes Mrs. Milton Grimes, of Adair, Adair Co., Iowa, "which brought on other diseases—heart trouble, Bright's disease, nervousness, and at times would be nearly paralyzed. Had neuralgia of stomach. I can freely say your medicines (nine bottles in all, five of 'Favorite Prescription,' four of 'Golden Medical Discovery' and two vials of Dr. Pierce's Pleasant Pellets), have cured me. I can work with comfort now, but before I would be tired all the time and have a dizzy headache, and my nerves would be all unstrung so I could not sleep. Now I can sleep and do a big day's work, something I had not done for over eleven years before."

"Publish my consent to your illustration, hoping it will be the means of helping some other invalid."

WOMEN ARE THE WITNESSES. It is the women who have acclaimed Dr. Pierce's Favorite Prescription as the greatest and best medicine for the cure of womanly diseases. The witnesses to its power are the women it has cured.

There are hundreds of thousands of healthy women to-day who have been restored by "Favorite Prescription" to a happy, useful life after years of suffering, and years of useless medical treatment. If you are suffering from any disease peculiar to women there is every motive for you to try Dr. Pierce's Favorite Prescription and every encouragement to expect a complete cure. No matter how severe the disease, the wonder will be not that "Favorite Prescription" cures you, but that it should fail to do so. Its cures are so uniform, so reliable, that if it did not cure you, you would stand alone, a wonder and a marvel, a solitary exception among hundreds of thousands of weak women who have been made strong and sick women who have been made well by the use of this great remedy.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. As a tonic and nerve for weak, worn-out, run-down women, it is without an equal. It promotes the appetite, tranquilizes the nerves and induces refreshing sleep.

If you are led to the purchase of "Favorite Prescription" because of its remarkable cures of other women, do not accept a substitute which has none of these cures to its credit.

A HELP FOR WOMEN.

"I received the 'Medical Adviser' and am much obliged for it," writes Mrs. Elmer D. Sheare, of Mount Hope, Lancaster Co., Pa. "I would not part with it if I could not get another in its place, as it is a help every woman should have." Dr. Pierce's Common Sense Medical Adviser, containing more than a thousand large pages and over 700 illustrations is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the volume bound in cloth, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

# IT'S NOW UP TO THE STUDENTS

## Will They Forego Daily Rations of Tender Beefsteaks AND FIGHT MEAT TRUST

### Make a Sacrifice and Help to Rescue the Victims of the "Oxtopus" Says Professor Brewster

The meat dealers of Ann Arbor say that the trust is affecting their business seriously—that unless there is a let-up soon some of them will be obliged to go out of business. The consumers feel the burden of the raise in prices, but it affects most seriously the men who have been compelled to sacrifice the profits of their business in order that they might not unduly crowd their customers. This is what is what Jacob Eschelbach, the Huron street dealer, thinks of the situation: "Unless conditions change and the meat trust ceases to hold up the public, I shall shut up shop and go out of business. There is absolutely no use of continuing when a dealer loses from \$3 to \$5 on each beef that he handles. The dealers have not raised prices as much proportionately as prices have been raised on them by the packers, and are selling at a loss; and besides that, business has fallen off greatly. Where I used to cut up five or six beefs I now cut up but two or three, and I could easily handle all of a day's business in a couple of hours. We are almost absolutely at the mercy of the packers, as there are almost no cattle in this section of the country. Yesterday I drove 40 miles in search of beef, but couldn't find any. Many of the boarding houses which deal with me have cut down their orders materially, and some of them do not give meat at all for breakfast, using eggs instead."

L. C. Weinmann, the Washington street dealer, was a little more hopeful. When he was asked if he thought that there was any prospect of relief from the present condition of high prices he said:

"I think that the high water mark in prices has been reached, and that when the grass cattle come onto the market in July there will be a reduction in prices all along the line. I think that the present high prices are due in a measure to the shortage of the corn crop last year, although the trust is probably the most responsible. The dealers are the people who must undergo the principal hardship, and if the consumers can stand the raise until July, conditions will probably resume their normal state after that."

#### EFFECT ON BOARDERS.

J. F. Hoelzle, a Washington street butcher, has particularly noticed the effect of the increased prices on boarding house keepers.

"Why, some of customers who used to buy roasts of 23 pounds have cut down their order to 16 of 17 pounds," said he. "I suppose the boarders can notice the difference in the serving, and then the boarding house keepers are more particular about waste than they used to be. They have made up their minds, at least some of them have, that they are not going to be the ones to suffer, and so have put their guests on short rations. I never saw a time before when the prices of all meats were up to the point where they are now. It is not uncommon to see one kind of meat reach a high price, but to see all meats go up is something unusual."

Butcher C. F. Pardon of North Main street does not care much whether he continues to sell meat or not if present conditions are to remain indefinitely. When asked what he thought of the proposed plan of consumers to do without meat for a time he said:

"I have no objection to their doing so, as I am now carrying on the business at a loss, and would just as soon close up as continue business under existing circumstances. There is a prospect that when this year's corn crop is harvested the price of meat may be lowered, but that time is of course quite a way off. The farmers who have cattle certainly have no cause for complaint, as they can get their own prices now."

#### WILL STUDENTS HELP?

Prof. James H. Brewster of the law department, whose communication in regard to the meat trust appeared in Monday's Argus, was also seen this morning. He strongly favors a meeting of interested citizens, dealers and boarding house keepers, for the purpose of considering means for relieving the situation. He said:

"The trust evidently has a hard and fast hold on the public, and any efforts to check it will have to be determined ones. As I said in my communication last evening, I should very much like to see a meeting called for the purpose of considering the feasibility of the consumers of Ann Arbor doing without meat for a time. By united action of this kind we might produce a moral effect that would cause other cities to follow our lead, with the ultimate result that the trust might ease its grasp on the public. Of course there are many things to be considered before such a course is taken. For example, would the boarding houses be able to convince the students that they should do without meat for a time in the interests of the community at large? Unless something of the kind is done, however, it is quite likely that the boarding houses will be compelled to raise their rates."

## HELBER'S REMARKS ABOUT SMITH

That there is apparently no desire on the part of Editor Eugene J. Helber to let up on Hank Smith, may be readily understood from the following editorial comments in the last issue of Helber's paper:

"We have been informed that Congressman Smith has requested his committee to call the congressional convention this month instead as usual in September. This snap-convention is to be called thus early because the congressman determines to spring his renomination on the people before they shall become aware of his treachery, double-dealing and faithlessness."

"We understand that Congressman Smith has offered the position on his committee made vacant by Mr. Helber's resignation to Mr. John Haarer, jr. John is a nice young man and is deserving of a more honorable master. We think that his services will be of short duration as Congressman Smith will not need a committee much longer."

"Congressman Smith has discovered that while it may be easy to fool a dutchman when you have his full confidence, it is quite dangerous to attempt to fool two dutchmen at the same time."

"It is safe to say that all the postmasters of this district will be for Congressman Smith's renomination. We have heard him repeatedly say, that he would compel every man that he appointed to give him a written resignation in order to hold them in his power."

"Congressman Smith says there is no reason why he shouldn't be congressman for twenty years. This explains his generosity in offering Wedemeyer the P. O."

"Congressman Smith knew that he couldn't get Judge Kinne the consulate at the Hague any more than he could get Zenas Sweet appointed chief of the Washington police force, yet it got him a lot of cheap advertising."

## FROM OVER THE WORLD

Some statistics which will appear in the forthcoming catalogue of the University of Michigan are given in advance and show how cosmopolitan an institution it is, students coming from all parts of the earth, 64 states, territories and countries being represented. Ontario, China, Germany, Japan, South Africa, Jamaica, British Columbia, Mexico, Turkey, Quebec, Bulgaria

and England are represented among the students.

There are three Filipinos, four Hawaiians and six Porto Ricans in the University.

There are also 47 states and territories of the United States represented.

Of the total of 3,709 students, there are 2,162 from Michigan, Illinois comes second with 327 and then follows Ohio 249, Indiana 145, New York 144, Pennsylvania 102. These are the only states having over 100 students.

The Pacific coast states have 49 students, California sending 20, Washington 21 and Oregon 8.

## SHE DUPED MANY MEN

### WOMAN NEAR ALLEGAN WORKED "RICH WIDOW" SCHEME.

### GOT LETTERS BY BUSHEL CONTAINING MONEY AND STAMPS.

### ELOPED TO MINNESOTA, BUT WAS CAUGHT AND RETURNED.

Allegan, Mich., May 1.—Sheriff Bensley arrived here last night with Mrs. Lizzie Coffee and Frank Kipea. He captured them at Fairmount, Minn., living together. They skipped from Burnip's Corners two weeks ago.

Mrs. Coffee for some time advertised in Chicago that she was worth \$60,000, was a young widow and handsome. She received several hundred letters daily, enclosing money and stamps. Over 400 letters have arrived in this office since she left, and the pile is steadily increasing.

The prisoners will be prosecuted for adultery. The woman has a husband and children. Her companion is a young man aged 30.

Notice was drawn to Mrs. Coffee's career some time ago through the petition of the postmaster at Burnip's Corners for help, he stating that Mrs. Coffee's mail was so immense that it necessitated an allowance for an additional clerk in the office. The officials investigated and Mrs. Coffee got wind of the fact. She evidently preferred to disappear rather than stand an investigation of her methods.

At this time Mrs. Coffee was living with her husband on their farm near Burnip's Corners. He was apparently in sympathy with her scheme and usually got the mail himself, driving to the office and getting the letters in a bushel basket.
