The Wexford County Pioneer for May 26th, announces its ninth birthday. It is published at Sherman, the county scat of Wexford county, by H. F. Campbell and J. H. They are very modest in their announcement, preferring to have the public discover their two worth rather. lic discover their true worth rather than to vaunt it themselves. The following is what they say: "With this number, the Pio-neer starts out upon the ninth year of its existence. Friends of law and order, shall they triumph?"

With the issue of May 26th, the Little Traverse Republican, published at Little Traverse, Emmet county, by L. A. Clark, entered upon the fifth year of its existence. It is a large quarto, and ably represents the interests of the village and county in which it is located. In fact it is a wonder to us many times, how our pioneer publishers of the northern portion of our state can afford to issue such excellent journals as they al-most invariably do. From its editorial upon the event we quote: "With this issue we enter upon the fifth year in the history of the Republican, and we start out with the hope of being able to help push forward the car of enterprise in this new country with increased enterprise in the new country with increased enterprise in the new country with increased enterprise in this new country with increased enterprise in the country with the car of enterprise in this new country with the car of enterprise in this n country with increased courage, and we look forward with bright anticipation to the time when we may expect to see this grand country well developed in all its borders, and that our facilities for good and efficient work may be correspondingly increased. In our effort to give you a good, reliable journal, a paper that all may feel proud of, may we not hope to receive a generous support in the future as in the past, and labor

on, hand in hand together. The Gratiot Journal thus sums up some of the beauties of democratic domination in Congress: "Gradually the beauties of democratic economy unfold themselves. None of the internal revenue collectors, and officers connected with that branch of the service, are now receiving any pay, and none of the United States marshals have been paid for eleven months. The latter officers have incurred a large indebtedness, on the faith of parties with whom they have official relations, in the ultimate justice of congress. They have kept their prisoners in jail on credit for nearly a year, because the sheriffs of the counties in which the jails used by the government happen to lie, have believed that eventually the for the maintainance of prisoners would be paid. The sheriffs are becoming impatient and there is a prospect that ere long there will be a general jail-delivery of the thieves, counterfeters, etc., now confined awaiting trial. All the United States courts are ajourning their terms for want of money to pay jurymen, and the wheels of justice are virtually stopped. The government is col-lecting its revenue on credit, and its courts having been run on credit for nearly a year, have been compelled to stop altogeth-er. Under democratic economy the United

State can not now try a criminal. A Voiceless Wife.

This was the terribly suggestive statement crayoned on the blackboard which stood on the platform at the Chicago noon prayer meeting the other day:

"It costs \$1,000,000,000 a year in money.

"It makes 50 per cent. of our riminals.

"It causes directly 75 per cent. of our mindle."

"It causes directly 75 per cent. of our wicious youth.

"It sends forth 95 percent. of our vicious youth.

"It sends one every six minutes into a drunkard's grave, or nearly 100,000 a year."

The work shops of the D. L. & N. R. R. at Ionia are now being moved to the east part of the village. The old hotel near the D. & M. depot is also being removed to a lot immediately north of the D. L. & N. road.

The Rockford girls are given to flattery. Register: "A beautiful girl up town received a bouquet from one of her many admirers. But now, old man, you'll soon be up and among 'em,' he concluded, with a cheerful laugh. "No," said the old fellow, with the

Among the troubles which beset churches and pastors are those which come from a class of men marked for unstableness in everything but complaining. Nearly every church has a man of this description. He has no fixed opinion of what the church needs, is sometimes enthusiactic in praise of his pastor, but more generally sees in the pastor's removal the first hope for the prosperity of the church. Not troubling him-self to look carefully for the causes of de-cline or the lack of growth he rushes to the conclusion at once that everything of an unpleasant character is traceable to the pastor. Such a man is constantly obtruding his opinions on every one whom he can approach, and, probably, by his incessant criticisms and wide cast doubts, helps considerable to whom he can be considered to the constant of the consta erably to make the unfortunate circumstan ces he professes to deplore. Too often such men succeed in creating disaffection and

Brilliant and accom-plished a few years ago, she had gone down into the world of voiceless silence, and now all the music and all the speech that comes into her life comes through the tender devotion of her husband; and, as I talked, I watched him telling off the lecture on his nimble fingers, while her eagre

### AT CHICAGO.

It had been a fondly anticipated hope that the names of the next president and vice president of the United States would appear at the head of this column to-day, but we have been doomed to disappointment. The convention at this writing-Thursday p. m .- in session at Chicago, have not as yet announced their decision. In the meantime speculation is rife, and guesses wild. We might say any guess made is wild, for the delegates are so evenly divided between Senator James G. Blaine and Gen. Ulysses S. Grant, that a little turn in the tide might give the vic-

Wise heads, however, who have the semblance of sharp political prognostication, aver that neither of the two great leaders of the party can by any possibility win the coveted prize, but that Senator Geo. F. Edmunds, of Vermont, or Elihu B. Washburne, of Illinois, will be more likely to be chosen.

One thing is absolutely certain. There will be no split in the party; no bolting, and no hard feelings. The fight has been a hard one, but the feeling prevails among all, that whoever is victorious shall have the cordial, hearty, united support of the republican party.

Hurrah for the nominee!

### TO VICTORY!

Now that the battle is over-or probably will be when this goes to our readers and the party, represented by its prominent men, men selected for their wisdom and calm judgment, by a majority vote will buckle on our armor and press on to victory. No matter what our personal preferences can not all be victorious in our own ideas; it was utterly impossible to nominate more than one man for president at Chicago, and that one is justly entitled to the hearty support of every true republican in the United States.

Do not let us underrate our enemies. too, and some of their most prominent men have said that come what may, their next presidential candidate would be inaugurated. This betokens desperation on their part, and should the majority be as close as in 1876 there is no doubt but revolutionary measures would be resorted to to

The Temperance Rally.

The county temperance mass meeting exceeded in magnitude, perhaps, the anticipation of the most enthusiastic. The weather could not have been better behaved; cool and exceedingly pleasant, the rain of the previous day had laid the dust nicely, and seemed to be in league with the cause. At about 101 o'clock THE PROCESSION

and at about 20 minutes past eleven the last vehicle had passed, taking about one hour in passing. The banners of nearly every club in the county were waving in the line. The Ann Arbor city band headed the procession, and the following clubs came after: Ypsilanti, Ann Arbor, Whitnore Lake, Salem, Leeland's Church, Salem Station, Dixboro, Forbs' Corners, Superior, Hamburg, Paint Creek, Lima Center, Lapham Corners, Saline, Stony Creek, Mooreville, Milan, Lodi, Chelsea, Dexter and Delhi, 21 in all. The Delhi delegation had several wagons artistically trimmed with evergreens, red and white ribbons, appropriate mottoes, etc., and the whole made a very pleasing sight, said to be the largest demonstration since the famous mass meetings of war times. The line of march was up Huron to State to the university square, around which they circled back to William street, which they deallow such violation of the mails. THE OPERA HOUSE was filled with as large a crowd as ever within its walls, to listen to the in-door exercises. The four bands present, the Ann Arbor city, Ypsilanti, Dexter and Chelsea, were massed upon the stage, and under the leadership of Con Hoffman, of the Dexter band, rendered two pieces in a most excellent manner, after which the reform club choir sang the hymn "work, for the night is coming on." was next called upon. He said "he came here to ask you as men and women to favor this constitutional ameudment." This seemed to be a spontaneous outpouring of the people, and he thought that this immense crowd bid defiance to the assertion that the temperance flag would be traited in the dust as long as they all lived. He thought it high time for action when the whisky men publicly proclaimed their intention to buy up the legislature. He spoke or the insults which had been offered them that day in most scathing and cutting terms, and to the alleged remark that the temperance crowd were "all old women, children, or idiotic and insane persons" said that those present represented a great deal of property for that class of people and that as long as they remained so that property would be theirs, but as soon as they commenced becoming sane it would go to the whisky seller. Let the two causes bring out their array of followers, let their opponents go to the poor houses, the jals, the workhouses, the insane asylums and bring out their victims and the comparison with the temperance people, the ministers, the professors, the Christian women and mothers, and he does so pledge himself; all they asked was the voice of the people upon this accursed traffe. He said that a liquor man had told him that they would have a majority of the next legislature if they had to pay \$1,000 a piece for them. That was a glowing tribute to the honor of legislators, that they could be so bought up. Their opponents had taken their cause into politics and there proposed to fight it out, and the speaker desired the temperance men to meet them face to face. After paying a beautful tribute to the principles of temperance and the class of men, women and children which they had railled upon that day—the speaker closed.

After this speech the meeting adjourned until 7½ o'clock in the evening. During the remainder of the afternoon the people busied themselves in various and sundry ways. The bands did an admirable share of the entertaining, playing in turn several pieces in a most excellent manner in front of the opera house, and also upon the court house balcony. As evening approached many of the delegations wended their way homewards, notably those from a distance. The bands, however, all remained, with the exception of the Ypsilanti band. At

THE EVENING EXERCISES the crowd at the opera house was not quite as large as in the afternoon, yet the auditorium was well filled. The bands were again massed upon the stage, rendering several pieces, after which the choir and audience sang that enlivening hymn "Hold the Fort," a portion of the scriptures were read and prayer offered by Rev. J. Alabaster, of the M. E. church of this city, followed by the song, "What a friend we have in Jesus.'

The first speaker for the evening was PROF. J. BEAL STEERE,

of the university.

The professor spoke directly to the point. Referred to the former prohibitory law, and to what he attributed its failure. He at one time thought all prohibitory laws failures. Said our laws were of two kinds, statutory and constitutional; our first law was a statutory law, that was the trouble; what we want is a constitutional law; we want this prohibition of the liquor traffic engrafted in the constitution of our state, and if it is done, it will be so firmly rooted that no fegislature will ever dig it out. The speaker next referred to the university people; they might be considered a little to one side; their interests were not the same as those of the business men, the merchauts, the editors, and the dealers of the city, who were directly take upon these great and vital questions; their bread and butter did not depend upon it. He told how the work had progressed with them; spoke of the force of association among students, and how but a few years ago the students viewed their life while at the university. The heighth of their ambition then was a rolicking, jovial student life, with little idea of a strictly temperate course, (the majority, not all). The Methodists held public services in their church last Sunday for the first time in two months, during which time the church was undergoing extensive repairs. The church now looks inviting and cheerful. Rev. D. Edgar, the editor of the Leader, preached in the morning after which the sacrament of the altar was cele-

The Rt. Rev. S. S. Harris, D. D., L. L. D., Bishop of Michigan, paid his first visit to Dexter Wednesday evening. Preached in St. James' church in the evening and confirmed seven persons, namely: Prof. C. A. Cook, Mr. Coy, Mrs. H. Stebbins, Mrs. D. Sacket, Miss Mary Bilbie and two ladies by name of Mrs. Flynn. An informal reception was held at the rectory after services.

The Leader man don't appear to understand our reference to his notice of seven girls going-a-fishing, who caught 42 fish weighing 21 lbs. A vote was then taken upon had thrown around the university square a decimal offence that when divided by seven it can not do much harm." "Infinitely sentiment, and had enough left to tie a decimal!" The offence consisted in just that, and calling it good fishing. See? The girls are in a quandary as to whether they should not perhaps make allowance on the ground that this may be an honest opinion of good fishing on the Leader's precious figures. But as there is not likely to be any trouble from it, we shall dismiss the subject. Last Friday morning while Mr. and Mrs. Wooster Blodgett, of Webster, were on procession and go to Ann Arbor, their horse got scared at something along the road, and suddenly running to one side of the road. threw Mr. Blodgett out of the buggy. He struck on his head on the ground, the lines caught hold of his feet and this stopped the horse, after dragging him a few yards. Help was immediately at hand, who assisted Mr. B. to arise, who at this time was uncounscious. He soon revived and was taken home. During the day he began to get worse, and in the afternoon a messenger was sent for the family physician, Dr. Ziengenfuss, who unfortunately, was in Ann Arbor at this time. Instead of taking one section or block at a time they are compelled to commence on a certain street and go through with it before commencing on another street. They also have to report each day's work, both to Washington and the census superintendent of their district, which for this county is at Jackson. The enumerators in the city report fair progress.

Last Sabbath a horse belonging to Fred Stabler, who lives on Huron street, while being driven by his daughter Mary, became | week. frightened by the raising of an umbrella, kept her out of school for a few days, but when opposite Dr. Cocker's residence, on Huron street, and ran "like a streak of lightning," as a bystander expressed it, for home. By good management and pluck the driver kept free from accident, and reigned the horse into the barn without injury to occupants, vehicle or animal.

There is a reform needed in a certain line, which parents can themselves greatly aid if they choose, and that is the suppression of cheap literature, 10 cent novels, and that class of highly colored, exciting reading which injures every boy or girl who touches

it. The majority of the stuff is immoral, and should be shunned by all pure minded children as they would shun a viper. There are plenty of books and magazines, pure in tone to be procured, and parents by supplying these in very many instances can save the athletic association of the university is themselves great sorrow in after years, and make the happiness of their children more ecure.

The Robert Raike's centennial at the M. E. church last Sabbath evening was quite interesting. The pulpit was surrounded by both exquisite and mammoth bouquets of beautiful flowers which made sweet the entire auditorium with their fragrance. The exercises consisted in readings and responses and singing by the children. The little song sung by the infant class was of itself worth all the time and trouble spent in getting up the memorial. The names of Wesley and Vincent were also eulogized as being intimately connected with the Sunday school work, in the remarks of the pastor.

The red ribbon news for the week is, that Will Carleton will speak at the opera house Sunday at 3 p. m., and an admission fee of ten cents will be charged .- The people interested in the cause are preparing to give the Whitmore Lake club their presence as much as possible upon their anniversary celebration to-day, Saturday and Sunday. -Some one from this city will speak at Lodi town house next Sabbath and an Ypsilanti speaker will address the Superior club at the same time. -Mrs. O. B. Schuyler is announced for Sabbath of next week at Dixboro. - The high school reform club will be addressed by J. C. Bontecou, of Jackson, Sunday, June 20th.

A painful and perhaps fatal accident occurred at the residence of Mr. Jeremiah D. The June meeting of the Washtenaw county Pomological Society will be held on the 12th, Saturday afternoon, at 2 p. m. in the court house. There will be a dissive a dress parade cerner of Main and Huron streets, They have received several Huron streets, They have received several invitations to participate in 4th of July celebrations.

Mosquitoes ANNIA

Among living creatures, we find none that belies its appearance as the mosquito What an innocent little thing it looks like! Blood-thirsty? Impossible! See—as it alights before you, a thistle-down is bulky compared with it; the floating ghost of the dandelion is coarse beside the slender outlines of this airy gossamer. None of the gauze-winged or beetle-backed antomies that frolic in the sunshine appear less capable of inflicting pair. As the pipule meson, of inflicting pain. As the nimble mosqui-to sings and dances fairly over your head, he seems innocent compared to yonder black spider. And yet your slightest move-ment the spider scuttles off, only too anx-ious to get out of the way; while the little singer, so graceful in the airy curves of its flight, retreats a circle higher only to re-new the attack at your first ungarded mo-ment. His movements are as light as if

ment. His movements are as light as it earthly elements had fermed none of his component parts, or if he might live on mist or dew, or as if his ethereal frame found its support in the moisture inherent more blood-thirsty, and more persistently intent upon satisfying his craving for blood than this innocent-looking little hypocrite. The house-fly, alighting on your face and

tickling you with his six rough spongy feet—had he a like power to inflict pain, to what annoyance would you be suject! If proportion to their strength and size, the power and will of the mosquito to inflict torment, what a world this wold be; the lion and the tiger would be comparatively harmless!

Surely these innumerable and ubiquitous little pests were given to teach as some lesson. We find their prototypes in the tormenting and harrassing nothings that worry our every-day life, the sharp sting

mining malady curses mankind. One-fifth of our children die of diseases generated by its Infectious given under cover of apparently smooth words, the buzzing of malicious tongues; ecessarily swallowed into the stomach and inhaled happiness—these are the mosquitoes that sting the heart. You who find cause for Dr. Wei De Meyer's Catarrh Cure ab- complaint that God should give life to such sorbs the purulent virus, and kills the tormenting things in the animal world, is seeds of poison in the farthest parts of the system. It will not only relieve, but certainly cure Catarrh at any stage. we have received from a gentleman who visited the scene. On the 7th inst. the people of the hacienda and vicinity were aroused by a startling noise resembling thunder. Upon assembling to see what was the matter, it was soon discovered that a small mountain in the immediate vicinity had sunk into the earth, and it must have gone out of sight like a flash. Our informant, with others, made observations, and learned that the aperture thus opened was 200 metres in length, 150 in width, and its depth from 130 to 150 metres. width, and its depth from 130 to 150 metres. It was with great difficulty the rim of the cavern was approached, as all about there were great yawning fissures which threaten to open still wider. To miss a step there

was danger of finding a grave in the depths beneath. Some stones weighing about two pounds each, were thrown into the cavern, and it took from nine to ten sec-onds before they struck the bottom, their contact with the surface beneath making a great report. After these brief observa tions, the exploring party retired hurriedly from the scene, as the earth was trembling and shaking as if upon a balance. location of this strange phnomenon is sitrite?"
