# Baking Powder Figures THAT DON'T LIE!

The Royal Baking Powder Co. try to give the inference that their powder contains more **Cream Tartar** and that its **Leavening Power** is greater than any other made, as stated in their advertisement on the "Comparative Worth of Baking Powders" exhibited by black lines. Our name was mentioned in connection with one of our cheaper brands, made of different materials as the trade might demand. Our **Cream Tartar** brand of **Andrew's Pearl** was omitted, evidently for a very good reason, judging from the **relative merits** of **Andrew's Pearl** and the Royal, as clearly demonstrated by the Government Chemist, Dr. Peter Collier, of the Department of Agriculture, at Washington, from samples received by him from dealers who furnished the samples from their stocks on hand in open market.

## DR. COLLIER'S ANALYSIS

U. S. DEPT. OF AGRICULTURE. WASHINGTON, D. C., March 11, 1884. C. E. ANDREWS & CO.—Gentlemen: I received by express from Thos. Lydon and J. P. Harkins & Co., Grand Ave., Milwaukee, and Harper Bros., Chicago, Ill., samples of **Andrew's Pearl** and **Royal Baking Powders**. The cans were in good condition when received and the seals unbroken. I find your analysis that **Andrew's Pearl Baking Powder** contains about four and a half (4½) per cent more **cream tartar** than the **Royal Baking Powder**, and a **proportionately large percentage of carbonic acid gas**, and I find it to be **free from alum**, and any **injurious substances**.

Sincerely yours, PETER COLLIER, U. S. Chemist, Dept. of Agriculture.

## Government Chemist Collier's Analysis as to the Leavening Qualities.

### ANDREWS' PEARL

No wonder the Royal Co. omitted **Andrew's Pearl** from their "Comparative list," as Government Chemist Collier's analysis shows conclusively two things: 1st, That **Andrew's Pearl** contains more **Cream Tartar** than the **Royal**, as shown by the cuts above; 2d, That the **Leavening Power** of **Andrew's Pearl** is **greater** than the **Royal**, as shown by the two black lines above.

## CHALLENGE.

We will give the Royal Co. or any one else \$1,000 or \$5,000 if they can prove by any fair method test that **Andrew's Pearl Baking Powder** does, or ever did, contain alum or any injurious substance, and this challenge is open forever. **Andrew's Pearl Baking Powder** is sustained by a testimonial as to its **purity and strength** by the only genuine commissioned Government chemist, such as the **Royal Co.** never have published. Try it.

## OUR IDOLS.

We fashion our idols—not of stone, Nor beaten gold, nor molten iron, wood, Ah, no! our idols are our loved, our own. The country they have seen, the soil they tread, And dream their glorious as the angels' tread. Their very presence fills the gloomiest night, With their radiant, like some wandering star. On their dear shrines we lay our choicest gifts, Devotion, faith—aye, oftentimes a life—O, constant sweet that strongly binds The soul from self through every best strife! God pity those who live too long and see That light celestial slowly fade away, And, in their own dear native country, Their idols crumble into common clay! —Manhattan.

Not all of the wheat has been sowed in the county yet. Been too dry. Supposed to have been caused by the action of the prohibitionists.

We are told that Hiram Pierce sowed 45 acres of wheat a second time on account of the drought. Many others are doing the same thing.

His friends (?) then should beware the day the returns come in. They had better be a little wag-on' move off.

A newspaper man of Ypsilanti is constructing a "unicycle," or one wheeled machine, which he will use to propel himself to Kalamazoo. He will find the front gear, the machinery, and the wheels, and can amuse himself right in.—Soo Weekly News.

The above is a libel on the newspaper men of Ypsilanti. None of them are engaged in any such enterprise. Besides, the motive power of Pat's presbytery is not a unicycle, but a windmill. Sentimental would wish to see the Ypsilanti unicycle could foot it, and then keep up with either of the others.

THE NATION'S DISGRACE.

Upon the first page of this paper will be found a letter from Rev. Geo. H. Ball, of Buffalo, to a brother minister residing in Cleveland, Ohio, telling the story of Grover Cleveland's immoralities.

Attached to the letter is an opinion of Mr. Ball given by the united ministers' association, of Buffalo, making the testimony indisputable.

In fact no attempt is made by Mr. Cleveland or his party to deny the facts narrated, but on the contrary they are practically admitted.

AN OUTRAGEOUS ACT.

A big man at Ann Arbor because the Western Union telegraph office is run on the one man principle, and when the one man goes out the office is hermetically sealed.

Yes, the company has just shown the cloven foot again by wreaking vengeance on the unlicky operator in laying him off.

It knows the public rights and accommodations have been disregarded and trampled under foot, and it now is beginning to feel its displeasure.

It starts under the indignant protest now being gotten up here, and in a puerile spirit of animosity makes an innocent man to suffer.

Supt. Corbett, of Detroit, to whom this action is due, claims that after the change in hours was made, the public should not have been informed of it but left to find it out by experience.

Just as though a man coming down town after 8 in the evening and finding the office closed, would feel any better about it because he had not been informed.

Was it not enough to deprive their supporters of the service due them, and not subject them to further inconvenience because proper notice had not been given?

The editor of THE COURIER having a telegram to send Monday night of last week, in awaiting a reply, had occasion to enter the hours of the thus asserted change, and finding a considerable number of others were being discommodated every day by the crippling of the service in discharging the operator's assistant, the editorial in our last issue was written, entirely on our own responsibility.

Now, a few words in regard to the action of the Western Union towards Mr. Pulipher. For 16 years he has unremittingly toiled for the interests of the company, without vacations and with such assiduity as greatly to impair his health.

Three times new telegraph companies have opened offices in Ann Arbor and despite of tempting inducements offered he has stood faithful to the company.

Twice the operators of the Western Union all over the country have found it impossible longer to submit to the exactions of the grinding monopoly and have struck for better pay and shorter time of work.

But Mr. Pulipher remained at his post every time. Every one who has ever done business at the telegraph office has liked him, because he was quiet, gentlemanly, obliging and courteous.

Yet all this record, clean in every way, is now for naught in the eyes of the Western Union, simply for the reason that an officious little would-be autocrat has conceived a grudge against him.

Ann Arbor takes an interest in Mr. Pulipher, and a sharp reprobation is being gotten up, not only in his behalf, but also for its own rights, which have been disregarded.

GERMANY vs. AMERICA.

A Comparison of Wages made and Prices paid by Workmen.

The following statistics and comparisons are furnished by C. Kraft, of this city, the facts in respect to Germany being taken from a letter written him by his brother, who lives there.

In making the estimates and comparisons below we allow 2 marks per day as the average pay of a laborer in Germany, or about fifty cents of American money, which is an extremely high average, for the majority get less than that.

The German coin one mark is equal to about 25 cents of our money, and a penny is about 1/4 of a cent.

The following table gives the prices of the necessities of life in Germany, and how much labor is required there and in Michigan to purchase them:

A day's labor in the country in Germany for males, with half board, is worth 75 to 90 pfennig; for females 50 pf. with board, 60 pf. without board.

Day's labor in the city without board is worth 1 mark 50 pf., to 2 m. 30 pf.; for females 1 m. 50 pf., and for washing 1 m. 80 pf. for ironing 1 m. 13 pf.

Masons and carpenters receive in the cities from 2 m. to 3 m. 20 pf. In railroad shops and factories, mechanics receive, from 2 m. 20 pf. to 2 m. 50 pf. Experts, or the very best mechanics, earn by the piece in 10 hours work, from 4 m. to 5 m. 50 pf., but they are very few.

Day's labor Day's labor in Germ. vs. Mich. Wheat, 200 lbs., 18 m. 27 pf. vs. 75 c. Rye, " 15 m. 42 pf. 70 c. Oats, " 10 m. 7 pf. 70 c. Corn, " 10 m. 10 pf. 50 c. Potatoes, 200 lbs., 4 m. 50 pf. (usually from 7 to 9 m.)

In Germany, 100 lbs. of labor buy 3 lbs. of Beef, " 65 pf. 3 lbs. 90 c. Mutton, " 65 pf. 3 lbs. 10 " Pork, " 65 pf. 3 lbs. 10 " Kidney tallow, " 75 pf. 3 lbs. 8 " Lard, " 75 pf. 3 lbs. 8 " Butter, " 1 m. 10 pf. 4 " Sugar, white, " 50 pf. 4 " Pearl barley, " 50 pf. 4 "

A day's work in Germany buys 16 lbs. of bread in Michigan, 25 lbs. In Germany you can buy a suit of common clothes; in Michigan, 12 days. In boots it takes from 4 to 6 days in Germany to earn a common pair, while in Michigan it takes from 3 to 4 days, the nearest even of any of the necessities of life.

In looking over the figures it seems astonishing that laboring people can exist on the remuneration they receive and support their families. These figures indicate to what extent the free traders desire to bring the masses of the people of this nation. We advise every laborer to look over and study the figures given above, carefully; see how far they live in Germany and then go and vote the democratic ticket if he chooses to.

Every man who votes for free trade, votes to bring poverty to his home and want to his children.

LOGAN AT BULL RUN.

To the editor of the Evening News: Please inform me whether John A. Logan, at the breaking out of the rebellion, went from the house of Representative Logan in some regiment which took part in the first battle of Bull Run.

He didn't run. He joined the troops in the field, as a spectator, with many other representatives, to see them sweep the rebels into the Potomac. When the rebels went the other way, the other statesmen fled precipitately for the capital, but Logan seated himself, which had been done by a soldier, took his place among the soldiers of the Union and blazed away until the day was over.

The above, from last Friday's Evening News, needs no comment. Mr. Hendricks during the early days of the war was at home, and in league with such men as Vallandigham, was trying to trip up the feet and shackle the hands of grand old Gov. Morton, in his efforts for the union cause.

DO NOT LIKE G. A. R. BOYS. The Albany Argus is Mr. Cleveland's personal organ, and here is its opinion of the Grand Army of the Republic: "It comprises loud, braying men, who seek to the ear to escape their characters, or because there is money in it."

THE COUNTY FAIR.

A Splendid Beginning—Great Number of Entries—Fine Display.

The thirty-sixth annual fair of the Washtenaw county agricultural and horticultural societies is in progress at the fair grounds in this city, and bids fair to be the best seen upon the grounds for many a day.

The entries up to last night numbered 2,500 the various departments, and in no one of them were there any extraordinary numbers, so it will be seen that each department is handsomely represented.

The most interesting exhibit is generally the FLORAL HALL, and it affords us much pleasure to be able to tell the people of the county that they will not be disappointed in what they visit that building.

Entering the north door of the hall we find directly in front of us a display of fruit and ranges, displayed by C. Eberbach & Co. To the right the Ann Arbor organ factory has some very fine instruments on exhibition.

Next to them is a display of C. Eberbach's clothing and fancy goods, by W. W. Douglas & Co. To the left is C. Spoor's display of harness, blankets, whips, etc., and next in line is H. Krause the leather and leather goods of all kinds.

Then a double or thrice booth, reaching way around into the east wing, occupied by well-known merchants have their goods very tastefully arranged, consisting of misses' and ladies' garments of various kinds and designs.

In cloaks, dolmans, new-fangled suits, of dress, and various other styles we noticed garments worth \$25, \$50, \$60, \$75, \$100, \$170, and we suppose as much further up the scale as desire.

The entire east half of the east wing is used by Schuch & Mehlberg. On the north side they display sewing machines of various patterns and makes, and various side stoves and ranges, and other hardware. One of the handsomest grates and mantles is on exhibition here that we ever saw.

Fill & Hendrick come very close to "taking the pastry" for an elegant exhibit and handsomely arranged booth. Everything worth a gentleman from a lady's dress to a pair of shoes, and various things they show. All the heavier goods: Astracran, melton chinchilla, etc., together with fine worsteds, silk and satin lined. Exquisite smoking jackets and plush lined, the handsomest cardigan jackets plush lined, you ever saw. Jersey stitings, something new, will take the eye of the fashionable young man every time.

Seeing that our friends have a case of fine shoes for the ladies, the misses, the ladies, the boys and the men—fit any one. Then Wisely has put in a number of musical instruments, mostly pianos, that are tempting to the musically inclined.

Occupying the east side of the south wing is the ladies' fancy and needle work, art and bric-a-brac department. Occupying the above, carefully, see how far they live in Germany and then go and vote the democratic ticket if he chooses to.

Every man who votes for free trade, votes to bring poverty to his home and want to his children.

EDITOR COURIER—In your last previous issue you speak of the "Wilkinson" school as being that in which our honored friend Reuben Kempf received the greater part of his education. The school to which you refer was called "The Ann Arbor Preparatory School," and was taught by Rev. Daniel Wilkinson, now of Chicago, and Theodore R. Chase, now of Detroit, in 1840-1851, and by Mr. Chase alone in 1851-1852.

Both teachers graduated from the university in 1840—and fitted for college many of the best students who entered the university between 1851 and 1854. The school occupied the upper story of the building on the corner northeast of Hangsterfer's hall (C. Eberbach's hardware store) in 1850-51 and later the third story of the building on the corner south of the St. James' hotel. Reuben was a good scholar, as he is well remembered by his old

A Knightly Pilgrimage.

One of those delightful interchanges of courtesies common among the Knights Templar occurred Friday evening when Ann Arbor Commandery, No. 13, K. T. went as the guests of Adrian Commandery No. 4. Thirty of the plumed knights were mustered, and went on the afternoon Toledo train, arriving at their destination a little after six.

They were received at the depot by the Adrian fraters drawn up in line with a band, and many of the citizens. After being escorted to the large and commodious asylum in Masonic block a neat speech of welcome was made by E. C. Wheeler and modestly responded to on the part of the visitors by eminent Commander Duty.

The evening was passed in friendly emulation, in exemplifying the work until midnight, when, under pretext of getting a little "fresh air," the Adrian brothers lured their unsuspecting victims out of the hall to the hotel where strains of music were heard and savory viands were whiffed from afar.

A full and rich banquet awaited the hungry pilgrims who did not long delay in getting outside of what they could conveniently carry. This served them to renewed zeal, and to get even with their captors they returned to the Commandery rooms with the purpose of initiating them into the Benevolent and Protective Order of the Golden Gate. Accordingly a new Council was instituted and the Adrian men took to it with distinguished assiduity.

In the wee sma' hours the jolly company broke up, and after a short rest the Ann Arbor delegation returned to their homes by the morning train voting the occasion an immense success and their guests true and worthy Knights. The bouquets furnished by Mrs. A. Wheeler, Mrs. A. Aldrich and Mrs. W. E. Jewett, were extremely exquisite and lovely, and the thanks of the commandery is due to these ladies for their thoughtful generosity.

The pilgrims were W. G. Duty, E. C.; W. W. Nichols, Genl.; C. S. Fall, C. G.; John R. Miner, prelate; L. C. Goodrich, S. W.; B. F. Watts, J. W.; E. N. Gilbert, standard bearer; D. C. Fall, sword bearer; H. W. Hayes, warder; T. Taylor, sentinel; F. K. Owen, E. B. Abel, C. J. Durheim, J. E. Beal, E. Eberbach, E. H. Hudson, J. L. Stone, L. S. Garrison, T. F. Hill, W. W. Watts, N. S. Gardinghouse, E. J. Morton, H. T. Morton, Wm. Stockford, J. M. Stafford, H. M. Burt Geo. A. Hendricks and J. C. Bemis.
