The Ann Arbor Browns go to Owosso Thursday and to Corunna Friday. As the club has been recently reorganized they have yet to meet their first defeat.

Ed. Kent, of the 5th ward, bought a mustang yesterday, and it took three men to get it home, and three times three to get it in the barn. When tamed he will be a dandy. Again and again it becomes necessary to say that no communications can be published without the name of the writer being known to the office. This is a rule that cannot be deviated from.

On Saturday p. m., while Albert McCollum was wrestling with Fred Brown in the 5th ward, he fell in such a manner as to dislocate his left elbow and broke one of the bones of the forearm. A horse was stolen from George McCormick, of Salem last Sunday night. A reward of \$50 for the arrest of the thief, and \$25 for the horse has been offered. There are three men in jail now for horse stealing.

When Regent Whitman returned home yesterday he found a big surprise in store and one that was not at all a happy one. During the absence of the family some thief had entered the house and stolen all the silver ware, some \$600 or \$700 worth, including several pieces that were family heir looms, wedding presents, etc. The plated goods were all left. It must have been taken in the day time, as a young man occupies the house at night.

Moore & Taber will commence to move Aug. 1st, sure. A sale of mustangs at Kittredge's barns yesterday congregated quite a crowd.

A big light in the northwest at about 10 o'clock last night, told of a fire somewhere in the region of Birkett, but we have not learned what burned.

To kill the carpet bug which has put in an appearance in this city, take hot flat irons and iron the parts of the carpet infected. If the iron is hot enough and the work well done, it will kill the pests, which fatten on all insect powder, kerosene oil, naphtha, carbolic acid, etc.

Mrs. Elizabeth Mogk, one of the old pioneers, who lived on the corner of Packard and Fifth sts., died on Monday evening July 28th, very suddenly from heart disease, aged 78 years. Funeral services Thursday from Bethlehem church. She leaves one son August Mogk, and one daughter Mrs. Bruegel. McClellan Mogk, with L. Gruner, is a grandson.

There are over 50,000 census enumerators to pay, and they come in alphabetical order. Ours are quite fortunate. Bennett, Come, Dodsley, Donovan, and Braun, of Ann Arbor town, are all well up in the alphabet, while Schmidt and Terry will have to wait longer for their pay. Those whose names commence with Y or Z, will have to wait until the spring time comes, evidently.

The Soldier boys returned home last evening with battle scarred arms and sunburned faces. But they all came back again who went away. Not one was captured by the enemy or fell as a target by the way side. The return brought to mind an old war song:

When Johnnie comes marching home again, Hurrah! Hurrah! We'll give him a hearty welcome then, Hurrah! Hurrah! The men will cheer, the boys will shout; The ladies they will all turn out; We'll all feel gay when Johnnie comes marching home.

Yesterday a man obtained \$4.50 each from two dressmakers at Dexter, as subscriptions for forms or patterns that he pretended to be canvassing for. He also obtained a gold watch from another lady for the purpose of engraving her monogram thereon, and then skipped out. He was traced to Delhi where he took the 6 o'clock train east, and upon reaching Ann Arbor, Sheriff Dwyer was on hand to take him into custody. He gave his name as John Gilbert, and is now in jail. The money and watch were recovered.

It is understood that the Regents of the Northwestern University, of Evanston, Ill. have under consideration the name of Prof. Henry Wade Rogers, of this city as President of that institution, with a strong probability that he will be chosen and accept the same, though nothing has been decided upon as yet. The regents will make no mistake in choosing Prof. Rogers but the University of Michigan will meet with a loss by his departure that can ill afford. While the entire community will rejoice to see so worthy a scholar and gentleman promoted, yet there will be universal regret over the departure of Prof. Rogers and his admirable wife from this city, if they shall be called away.

Volunteer Infantry. From 1840 to May 1844 Mr. Church was in the U. S. navy and sailed around the world, the ship on which he served, (U. S. ship Constellation) being sent to China to look out for the interests of Americans in China during what was known as the opium war between England and China.

From the return from the latter place the vessel stopped at the Sandwich Islands and prevented Lord George Paulet from taking possession of those Islands in the name of England. On leaving here the ship went to Monterey on the coast of California in 1843, just at the time gold was discovered by Capt. Sutter while putting up his sawmill, the discovery was called washing diggings, some five or six years later the placer diggings were discovered, which was called the pocket by miners, and no man was able to find it. He has served both his country and "the great art preservative of all arts," both well, and deserves to have his closing days pass in comparative ease, which the generosity of Uncle Sam will enable him to do. He is now 69 years of age. On Saturday last Mr. Church left for Sparta, Kent Co., to reside permanently.

PENNSYLVANIA ROAD COMMISSION.

The movement for better highways taking under an act of the Pennsylvania legislature passed Jan. 23, 1890, a state road commission was established.

The commission was appointed jointly by the governor and the general assembly, and is composed as follows: Appointed by the senate—A. D. Harlan, Chester county; Amos H. Mylin, Lancaster county; and H. K. Sloan, Indiana county. Appointed by the house—John G. Foy, of Westmoreland county; W. E. McCullough, Allegheny; John E. Faulmer, Bradford; John P. Griffith, McKean; John L. Shillito, York. Appointed by the governor—David McCargo, of Pittsburgh; Cyrus Gordon, Clearfield; H. S. Goodwin, South Bethlehem; Jacob Bolard, Connoquettus; Samuel E. Downing, West Chester.

At a recent meeting—the first to adopt a definite course of action—Senator Harlan said that it was his idea to prepare a circular bearing certain interrogatories pertinent to the subject, and to send copies to the board of commissioners of each county and also to the chairmen of the Better Roads Committees in county committees to obtain the sentiment of the people on the subject of road improvement. The senator from Chester didn't want to start out to formulate a bill without conferring with the people.

Representative Faulmer agreed with the chairman, but so many families in his section didn't know exactly what he wanted at this time, and as they were so much interested in the matter as anybody they ought to be consulted.

The commission, after nearly every member had had his say, harmonized on the question of state aid which was decided to be made to get the views of the people on the subject and that as far as possible the improvements should be effected without increased taxation.

Then Dr. McCullough took the floor in advocating a classification of state aid, and in his speech he also raised a point regarding the distribution of state aid for road improvements, if it was decided to grant such aid.

"There are in the state," said Dr. McCullough, "1,738 school districts outside of cities and boroughs. Now, on the question of Philadelphia and the other large cities will not be willing that their taxes shall be expended on country roads. Philadelphia pays more taxes than any other part of the state. I favor the reconstruction of the entire road system, with a view to reducing mileage and increasing stone roads without augmenting taxation."

Mr. Goodwin precipitated a legal argument in stating that cities and boroughs were subjected to higher taxation for roads and streets than the rural districts, and he thought it would be unfair to tax the rural districts to contribute to the improvements unless they applied to throughfares in cities and boroughs as well as those of the country.

Mr. Gordon said they could expect to do nothing if the cities and boroughs were against them. City folks, he argued, are not in the habit of adopting the system of roads than country folks. He favored a dual system of roads—one a local system, controlled by the local authorities and kept up by local taxation, and the second maintained by state aid, controlled by state authority.

These questions were finally adopted: First, Are you in favor of abolishing the present system of working out road taxes, and paying a cash tax instead? Second, Do you favor state aid to public roads? Third, If so, how shall it be distributed? On the basis of population? How shall the amount be ascertained; by valuation of assessable property, number of inhabitants, road mileage or otherwise? Fourth, How shall roads be supervised and controlled; by state, county or township supervisors or engineers? Fifth, Are you in favor of the state aid to be handled the same as local taxes? Sixth, Are you in favor of convict labor on public roads? Seventh, Is the stone in your county suitable for road building? Eighth, Are you in favor of authorizing township to borrow money for road purposes? Ninth, Give your views upon other questions relating to road law and construction.

The commission decided to print 20,000 copies of the interrogatories in circular form to be sent to all parts of the state.

Convict Labor on the Roads. I find an excellent suggestion in some arguments of a deputation of Troy laundry girls who appeared before a legislative committee to protest against convict labor on the roads. A similar suggestion has been presented by many different trades, but this deputation advised a good substitute and remedy, namely, the employment of convict labor on the roads. Every one knows that a bad road is a great public enemy. They bring people to the superior merit of Dr. Ayer's preparation by a constantly increasing demand for it.

Today is the time to do tomorrow is the fool's feed him.
