### Burglary and Its Results.

On Saturday night, the store of Bowdish & Matteson, on State st., was burglarized of about \$500 worth of gent's furnishing goods, boots, shoes, etc. The burglars taking the best goods in the store and leaving the poorer goods.

The thieves went to the neighboring barn of Tom E. Nickels and took a horse and cutter therefrom, to carry off their plunder, the absence of which was discovered about 6 o'clock a. m., when Mr. Nickels went to the barn to take care of the horse.

Mr. Nickels then discovered the burglary of Bowdish & Matteson's store, and sent for those gentlemen. Officers were at once notified and went to work upon every clue possible. During the day the horse was found luring upon the streets of Ypsilanti. The thieves evidently taking it for granted that if the horse was turned loose he would at once return home, and thus throw officers off the trail.

But the horse didn't carry out its part of the programme, but remained in Ypsilanti until discovered.

Sheriff Brenner and Deputy M. C. Peterson of this city, tracked the rig to the home of a colored family, the Jones brothers, living in the 5th ward, Ypsilanti, and went to Justice Beach's office and procured warrants of arrest and also a search warrant.

As they returned to the house, one of the brothers, Tom Jones, left by a rear door, jumped over the fence and started for the river. Officer Peterson saw his performance and started for him. He chased him for a considerable distance, when the fellow made for the river and commenced running on the ice. But Peterson gained on him so much that he finally stopped, pulled out a revolver, and leveling it at his pursuer told him that if he came any nearer he would shoot him. Peterson was not to be cowed in any such way, and with the remark, "I guess you won't shoot," made for his man. But Jones did shoot and fortunately nearly missed his mark, hitting Peterson's hand just at the base of the thumb. At this Peterson, not yet realizing that he had been hit, grabbed the fellow and they rolled around on the ice for a few seconds until Sheriff Brenner and other help came and Jones was secured.

While this was being enacted, another of the brothers, Wm. Jones, came out and started down town. Officer Smith, of Ypsilanti, who had become one of the party, joined William and said he would go down town with him. When a little way down, William whipped out a revolver and told Smith to "git or I will shoot you." As Smith had no weapon with him, he thought he would take the advice, but evidently did not move quick enough to suit Jones, and he fired at him three times, one ball passing into his back and down toward the right side, the other two shots doing no damage.

Jones then made his escape. Sheriff Brenner, upon being told by a neighbor that a trunk had been taken away from the house a short time previous, went to the express office and found one directed to a party in Chicago, that had been delivered there by the Jones boys. This was seized and opened and found to contain a portion of the stolen goods.

Another brother, Irving Jones, was found and arrested, and some of the goods found on his person.

Officer Smith is evidently quite badly wounded, as the surgeons have not as yet been able to find the ball that is lodged in his body.

Officer Peterson will probably lose his thumb, though it is possible that it may be saved.

The next meeting of the County Horticultural Society will be held in the supervisor's room at the court house, on Saturday afternoon, March 3rd. Assurances have been received from Senator Palmer, late President of the World's Fair Commission, that he will be present and address the meeting upon the important subject of Good Roads.

### The Great Parade.

To-morrow will be a great day in the history of this corporation. The parade under the auspices of the Ann Arbor Rifles will be a thing not previously heretofore witnessed in this country. It will be a striking and unique affair the like of which was never before conceived by the genius of man.

The various organizations taking part in the gorgeous spectacle form in the following order:

On the extreme right will be:

The Tall End Democrats.

On the extreme left will be:

Cramer's "Fifty that are Fifty."

Sandwiched in platoons, battalions and squads, according to their various desires, customs and numbers will be

Liesemer's Politician's Club.

The Court House Chronic Card Club.

The Owls.

Frenault's N. Main st. Boiler Club.

Street & Walker's brigade in full costume.

The Sons of Rest—in carriages.

The Secret Society of Sign Thieves.

The Society for the Prevention of Cruelty to Superannuated Office Seekers.

There was an attempt to compel the latter to condense or amputate a portion of their cognomen but they steadfastly refused and were admitted in full.

The bitter contest between the Tall Enders and The Fifty, as to which should occupy the post, honor was extremely acrimonious, but by the soothing persuasiveness of Capt. Schuh, the affair was compromised as the above indicates.

When this procession, in all its splendor of purple and gold, its rich feathers and gaudy furbelows, shall pass in review before the P. O. applicants stationed on the new government building site, there will be a scene of magnificent splendor not equaled since the episode in Roman history where Mr. Nero fiddled while Rome was being consumed.

The whole is to conclude in the evening at the Palace Rink, where the various individual members of the organizations will form themselves into reception committees and chaplains, and shake hands with their innumerable friends as they pass down the line.

### Municipal Honors Go Begging.

There is some talk about candidates for city offices this spring, but candidates themselves are very scarce or very modest. In fact the chances for being elected are so numerous and the compensation of glory so diminutive that big fishes are especially chary of the glittering bait. We have not heard a republican name mentioned for mayor, but among the democrats the names of Mr. Zamerman, of E. Huron st., and Mr. Bogle of Hill st., are both being talked of. Neither of them are p'oneers, though Mr. Bogle has resided here a sufficient time to know the names of the principal streets and the location of most of the public buildings. In the meantime the present mayor, Prof. Thompson, has many friends who regret his decision not to allow his name to be used again. For president of the council, Mr. Watts can have a clear field in his own party convention if he wants it, but he says "no." He has numerous friends who will present his name for the mayoralty, but of course Will's native modesty prevents him from allowing it to be pushed in that connection.

W. J. Olcott is the name of the new president and manager of the Rockefeller consolidated mines on the Masaba range. Billy has made wonderful success as a mining engineer and manager. But he will never better excel in this than he did in the old days at Ann Arbor when he was the star performer of the University foot ball eleven. The U. of M. boys on the peninsula are glad to see him kick such a fine goal.—Sault Ste. Marie Democrat.

Mr. Olcott is well remembered here, was a favorite among the boys as of student, and took away one of our most popular young ladies, Miss Fannie Bailey, as his bride. His success will be pleasing news to many of their old friends here.

### Death of F. L. Parker.

On Monday evening last, Franklin L. Parker, died at his residence on E. Ann st., after a somewhat protracted illness. Mr. Parker was born Mar. 19, 1820 at Perry, N. Y., and consequently was nearly 74 years of age.

He was an alumnus of the U. of M., having graduated in 1847, being one of the first to receive a sheepskin from the now famous institution.

The deceased leaves a wife and four children, Mrs. Dr. Huber, Frank, Edwin and John Parker, all residing in the city.

Mr. Parker was a lawyer by profession, but had large interests in real estate, not only in Ann Arbor, but all over the state. He was a good citizen and strictly honorable man. His family have the sympathy of the entire community in their affliction.

Funeral services will be held Thursday a 3 o'clock p. m., from the residence, Rev. J. M. Gelston conducting the same.

### Do Creameries Pay?

Thousands and thousands of dollars have been sunk the past few years by farmers and others who have put money into creameries. Some way the smooth-talking agent who desires to sell the machinery, is able to convince men, good, sharp, shrewd business men, oft-times, that there is money in the investment, when in fact the investment of failure has been brought to their notice. A creamery is like any other business. It must have a level-headed, economical, safe man to conduct it, a man who understands the business and who knows what to do, and how and when to act. It is very seldom that a novice can succeed in running a creamery any more than he could a store or a bank. Experience must be the teacher, combined with good sense and good judgment. Then, again, to have a creamery succeed well, the farmer should prepare for it by procuring the right sort of cows for dairy purposes, and turning their attention more thoroughly to stock and grazing.

### Rev. Dr. Holland's Lectures.

The lectures of Rev. Mr. Holland, of St. Louis, Mo., are proving of great interest to scholars and students. Thursday, to-morrow evening, at Harris Hall, will be delivered the third lecture of the series, entitled "Fated to be Free." On Sunday morning, at St. Andrew's church, the fifth lecture of the course will be given, the subject being "The Art of Living." In the evening "The Divine Man" will be the subject. On Tuesday evening of next week, at Harris Hall, the seventh lecture will be delivered, entitled "Midsummer Night's Dream." This course is well worth your time to hear.

### Fr. Kelly's Lecture.

Rev. Father Kelley delivered an address before the Unity Club on Monday evening upon Cardinal Newman. The fact that a Catholic priest was to speak in a protestant pulpit, created considerable interest and a large audience greeted the speaker. The address gave great satisfaction. The manner of Father Kelly is frank, graceful and dignified. His consideration of the character of the illustrious Cardinal was very appreciative rising at times into real eloquence. Father Kelly by consenting to lecture before the Unity Club has shown a broad and generous liberality and has made many friends.

One lady in this city must be in a very sad condition physically. As she was returning from the concert at University Hall last Friday evening, and endeavoring to walk over the pitfalls and hummocks of the beautifully cleaned sidewalks, on State st., she evidently had a difficult time as everyone else did, in keeping a perpendicular. All at once her feet slipped and she made some delightfully Delsarte movements in endeavoring not to fall, and in so doing gave a charming little feminine squeal. When she had regained an upright position she remarked to her companion: "There, I dislocated my liver that time."

We judge people by the company they keep, and political parties by the promises they keep.

The Quincy Herald believes that not only the governor, but all state officers should reside at Lansing during their term of office.

If New York and Brooklyn should unite as one city the United States would then have the second largest city in the world, with a total population of 2,757,965. London has 4,231,431, while Paris now comes next with 2,344,550.

The old soldiers are fast disappearing. More than 17,000 were dropped from the pension rolls last year on account of death. For Heaven's sake let's treat the veterans well the few years any remain to us.—Howell Republican.

A wounded Union soldier like Judge Long must be insulted, and humiliated by this administration, but a bushwacking rebel guerilla, like Jo. Shelby, with a record that honorable southern people blush over, can be given a high office.

Congress may whitewash the Hawaiian policy of this administration from now until time ceases, it can not wipe out the stain it has made on the nation's escutcheon. The people will always see through the white outer coating to the black within.

Of the 858 convicts in the state prison at Jackson, over 125 are unemployed. No wonder there are frequent escapes. They have nothing to do but plan and execute their plans. Why not set them pounding stone, with which to improve the roads?

It is altogether probable that the Flint & Perre Marquette R. R. of this state will be consolidated with the Columbus & Hocking Valley R. R. of Ohio, and that a connecting link between the two will be built from Monroe to Toledo, and a strong, powerful corporation result from the union.

It is practically assured that it will be many and many a year before any tinkering will ever be done with election returns in Michigan, even on insignificant amendments. But how about such affairs in every southern state in this Union? Will there be any reform down south?

"The tariff is a tax," squeals the Adrian Press. Of course it is. No one ever denied it. A democratic tariff for revenue is a tax, most certainly, but a protective tariff is not a tax. The laborers of the United States are learning a practical lesson about the tariff just now, and how a revenue tariff affects their salaries.

Are the democrats men or mere eoccygomorphic chumps?—New York Sun.

The Sun guessed it the second time. Now let's watch out for Grover's next message and see if he does not catch on to that word and send it ringing down through the ages with innocuous desuetude and other words he likes so well to chew on.

Careful and profitable work is being done at the Michigan School for the Blind at Lansing, and every blind or child so nearly blind as to be unable to receive instruction in the public schools should be there if possible. The school is under the management of excellent teachers. Particulars can be learned by writing to the superintendent at Lansing.

Jo. Shelby the Missouri bushwacker and swash-buckler, who acted the part of a murderous rebel guerilla during the war, killing every Union soldier who fell into his hands and robbing every Union family he could find, has been appointed to the high office of United States Marshal for the western district of Missouri. The appointment is a disgrace to the administration.

The sentence of Boss McKane, of Brooklyn, N. Y., the rascal who committed the ballot box frauds at Gravesend, a Brooklyn suburb, in aid of Tammany Hall, has been convicted and sentenced to six years in state prison at Sing Sing. This is a victory for good government that will have a great influence in that state, and may make a few officials at Lansing feel shaky.

Jim Stocum of the Holly Advertiser, attended church in this place last Sunday, fell asleep and had a dream. It is as follows: "Last Sunday, after hammering away nearly an hour at the sinners, a Fenton minister yelled out, 'My dearly beloved friends, permit me to remind you that I came here to preach and not to act as umpire in a sleeping match.'"—Fenton Independent.

Every city, village, official or citizen who makes an offer for the Corbett-Jackson fight ought to be indicted by a grand jury and thoroughly punished therefor. The brutal scenes of the Roman gladiatorial days are out of place in these enlightened times, and any attempt to revive them, and these human pummeling exhibitions are nothing else, should be summarily crushed out.

The Ypsilanti Sentinel says that the deficit in the U. S. treasury is an inheritance from the republican administration of Mr. Harrison. Which is an easy way to dispose of the subject if it was only a truthful way. But it is a mis-statement of fact. Of course the Sentinel does not claim never to make any such mis-statements, but it ought to be careful about making them deliberately.

Every additional bit of correspondence on the Hawaiian matter given out by the government, only places Mr. Cleveland and his man Gresham deeper and deeper into a hole. No wonder they give out this correspondence so hesitatingly, and only under compulsion. The indignation of the American people will become so great before long that they will instruct their representatives in congress what to do.

Here is what Mr. Sellers, of the Cedar Springs Clipper, says for himself after giving the fellow who came to thrash him for writing that item, a good, respectable clip: "There are times when patience and reason prevail little and in self defence one is forced to that which any good citizen might naturally feel ashamed of. Self defence is always more honorable than running, even if degrading in a certain degree."

In Pennsylvania the law makes it a criminal offense to wilfully furnish a newspaper with false news. That ought to be the law in every state. The libel law in most states is no law at all. It is simply whatever keen lawyers are capable of convincing a jury it is. It is time that action was taken in all the states, Michigan included, and the libel laws amended in accordance with modern and enlightened ideas of justice.

It turns out that the Gogebic county returns were not the only ones "doctored" in '91, as the following from the Flint Globe indicates: "Ex-County Clerk Geo. O. Crane was summoned to Lansing, it is supposed in connection with the grand jury investigation. The Genesee county returns which were 'doctored' were of '91 during Ed. A. Murphy's administration and it is not unlikely that he may be summoned to appear at Lansing."

Wilbur F. Davidson, of Port Huron, who recently recovered some \$43,000 damages from the Illinois Central R. R., for injuries received last summer, has commenced suit against the Detroit Evening News claiming \$50,000 damages to his character because the News asserted that he attended the Corbett-Mitchell fight in Florida, when such was not the fact. It will probably be difficult to secure a jury that will consider the last injury as great as was the former one.

President Cleveland has given up his personal fight with Senator Hill and sent the name of Senator Edward Douglas White, of Louisiana, to the senate to be justice of the U. S. supreme court. Mr. Cleveland has gone from one extreme to another, like a petty boy in a rage. Mr. White is at present senator from Louisiana, was educated at Mount St. Mary's school, Maryland, and at the Jesuit College in New Orleans. He served through the war as a confederate and has since practiced law. He is a full blooded southerner in sentiment and feeling.

"THAT'S IT" SAYS BYNUM.

If any of our readers, be they democrats or republicans, doubt that the Wilson bill has been formulated in the interest of England, let them read this part of a report of a meeting of one of the committees of the House:

A committee of manufacturing potterers recently went to Washington to induce the Ways and Means Committee to restore some of the disastrous reduction in the proposed tariff on crockery. The delegation was turned over to Congressman Bynum, one of the prominent members of the Ways and Means Committee. Mr. Bynum was told how the pottery industry would suffer if the tariff was cut as intended.

"The only way we can continue in business," said the spokesman for the delegation, "is by reducing the wages of our workmen to a pitiful point in order to compete with foreign manufacturers. The trade is already anticipating what will happen. Foreign producers, we can well suppose, will even increase the paltry wages of their employees in order to get out the ware to supply the tremendous business that will come to them. Don't you see how it will effect the workingmen in this country?"

Bynum's face lighted up with a smile, and he replied: "Well, you fellows will be just as well off. The increase in wages on the other side will be offset by the decrease in wages in your establishments. You can compete all right and make money."

Quick as a flash one of the delegation turned to the congressman and said:

"Do you mean to say, Mr. Bynum, that the object of the Wilson bill is to increase wages in Great Britain and other countries and reduce wages in the United States?"

"That's it," answered Bynum. The next minute he understood what a fatal admission he had made, bit his lip and said he trusted the delegation would consider his remarks strictly confidential.

The Big Rapids Herald is a democratic paper but it has the fairness and manliness to give Gov. Rich its good right arm to help along the work of ferreting out the salary steal frauds. We quote: "It is quite refreshing to see Governor Rich take the stand he had with reference to the thieves, official and otherwise, who thwarted the will of the people in canvassing the votes of elections of 1891 and 1893. The sturdy governor has his coat off and sleeves rolled up, and is putting in good hard work. That's what is wanted—there's no politics in the great work of running down the conspirators."

A correspondent of the Detroit Free Press from Ann Arbor writes that paper a communication favoring the income tax, but making a plea for the exemption of all salaries paid persons in the employ of the state. That of course means that all professors and others engaged in teaching should not be asked to contribute to the support of the government on this plan. Now if the principle of an income tax is correct; if it is right to place a burden upon thrift and energy and enterprise for the relief of those who are not thrifty or energetic or enterprising, then there should be no favoritism. If a man is bright enough to earn a handsome income by his pen or by his ability as a teacher, he in justice can not ask the government to favor him as against the man who earns his income by a similar ability in the business world. This attempt to build up a favored class is not right, it is not patriotic, it is not American. If we are to have the principles of free trade carried out, let's have them in all their glory, with no cultured aristocracy receiving the favor of the government.

It is the most common thing in the world nowadays to hear a prominent democrat say that what with the Hawaiian business and the silver lunacy, the populist general foolishness and the Wilson bill, it is the hardest thing in the world to keep within the party lines through another campaign. Names could be given which would surprise you. As to the republicans who had a soft side for Cleveland eighteen months ago, and who, on the ground of his being a safe man, bigger than his party, and all that sort of thing, either voted for him or declined to contribute money to beat him, they are sick unto death. Speculation in political features is the most uncertain business in the world, and there is so much in party discipline, especially democratic party discipline, that we cannot tell what a few months may bring forth; but the pendulum will have to swing a long way in a direction opposite from its present trend if the republicans do not sweep the country at the next general election. A democrat of national reputation and unquestioned loyalty to his party said to me in New York the other day that if congress were to be elected now there wouldn't be a grease spot left of the democratic majority.—Inter Ocean.

Dictator Not President.

For the first time in the history of this American republic, the chief executive thereof had stooped to use the powers of patronage which he possesses to dictate to congress such legislation as he desires. No president ever did such a thing before, not even Cleveland the I.

This has not been because we have not had ambitious men as presidents, but because they have placed their sense of honor, and the dignity of the great office they held far above the grovelling tactics of the ward politician.

Hon. Thos. H. Benton, a great man from Missouri, who once represented that commonwealth in the United States Senate, as far back as sixty years ago, predicted this very thing in these words:

"We must look forward to the time when the public revenues will be doubled, when the civil and military officers of the federal government will be quadrupled, when its influence over individuals will be multiplied to an indefinite extent, when the nomination of the president can carry any man through the senate, and his recommendation can carry any measure through the two houses of congress, when the principle of public action will be reduced to this: 'The president wants my vote and I want his patronage. I will vote as he wishes and he will give me the offices I wish for.' What will this be but the government of one man?"

Speaking of Cleveland's policy in this respect the New York Press says:

"The president is the autocrat of the house of representatives. The most subservient of English parliaments never obeyed Tudor or Stuart with more abject slavishness than that with which the majority in the house obeys Cleveland. He cracks the whip; and the cuckoos cringe in terror. He promises offices in return for votes; and the unmanly crew tread on each other's heels in their eagerness to do his bidding. A majority of northern democratic representatives were unquestionably opposed to the Wilson starvation bill with its treasonable assault on northern industries and its odious provisions for employing a horde of spies to pry into the private affairs of citizens. Some of them had bitterly denounced the bill. Yet nearly all these men swallowed their own words and betrayed the interests of their constituents by voting for the measure under Mr. Cleveland's orders. The infamous plot of the president to strike down a friendly government and restore a savage despotism in Hawaii has aroused the indignation of the whole American people. But the commands of the administration were sufficient to induce the democratic representatives to pass the McCready resolutions grossly slandering a courageous and honorable American minister and indorsing the most disgraceful act in the annals of modern diplomacy."

The bill of Congressman Griffin, of the 1st district, providing for the government ownership of telegraph lines, is one that will receive a hearty support by the people, regardless of party.

State Superintendent of Public Instruction H. R. Pattengill has paid back into the treasury \$750 which he drew on the supposed increase of salary. He announces, however, that he is not a candidate for re-election. The state requires too much for the money.

Never before in the history of this nation has partisanship gone so far as with the present Finance committee of the United States senate, having in charge the infamous Wilson bill. That committee will not listen to any one opposed to the measure. It will not even receive a petition, although the constitution of the United States under which it exists, expressly declares that congress shall not abridge the right of the people "to petition the government for a redress of grievances."

If any greater grievance ever existed than this sectional bill bearing starvation in all its clauses, we should like to be informed what it can be.

But this contemptible method is in keeping with the acts of the administration that seeks to crush out liberty in the Islands of the Sea as well as at home.

Any act that can not stand up under adverse criticism is a bad act. Any bill that can not withstand the right of petition is not fit to become a law.

Any measure that strikes at our laboring men by taking from them the opportunities of gaining a livelihood; any measure that seeks to impose a burden upon thrift, energy and enterprise, should be torn in shreds and trampled under the feet of patriotic men such as every state should send to the U. S. senate to protect the interests of the people.

If the Wilson bill was something that would be a benefit to this nation, there would be no need of hedging it about as this senate committee does, in the fear that some just lance of an indignant and outraged citizen may pierce it in a vital part.

Wrong Reasoning.

We overheard a gentleman arguing the other day that the income tax was all right, because it would be taken entirely from the wealthy and thus lessen the burden of the poor. At first glance that theory is quite plausible, but as one reflects upon the subject he soon becomes convinced of its fallacy.

In the first place why is an income tax necessary?

It is necessary with the Wilson bill because that measure, with its free trade provisions will reduce the revenues of the government to such an extent that some scheme must be devised to supply the deficit. The income tax therefore is to take the place of money now collected on imports, the bulk of which is paid by foreigners or their representatives in this country. The principal reason why a great many articles are higher here than in foreign countries, has been because of the better paid labor. Now that many of these things are to be admitted free the laborer must receive just so much less for his services, so that in reality he must pay the tax after all.

It comes off of his salary. In the meantime if he owns a home he will have to pay just as much in direct taxation for state, county and school purposes as before. His outgoes will not be lessened but his income will be from ten to fifty per cent less than formerly. So the necessity of levying an income tax makes the rich richer and the poor poorer.

Then the income tax has a great tendency to create what they call in India, caste. It widens the gulf between the rich and the poor. It creates an aristocracy and throws the common people down to lower levels. It is an un-democratic and an American measure, and should only be tolerated when the country is in some great peril.

Cleveland's Mandates.

The Election laws bill, which Thomas B. Reed tersely described as a law to legalize ballot box stuffing, has been signed by the president. There was special rejoicing over the event. Mr. Cleveland "signed it with a gold pen." It will go to the South as a trophy, another step toward the recovery of those rights which were unaccountably lost at Appomattox and Gettysburg.

Tammany Hall has again a free foot. There is no reason why Mr. Croker should not revert to the happy Barnard and Tweed days, when supreme court judges sat on the bench with a bottle of whisky at their elbows and "naturalized" 3,000 voters in a day. There is no reason why gangs of repeaters should not drift from the Battery to Harlem and make New York as surely democratic as Alabama or Texas. The federal government is paralyzed. There is not power enough in the army and navy to guarantee the humblest voter his suffrage.

Republicans will see in this other step toward a complete realization by Mr. Cleveland of the famous mandate which he carried with him to Washington. This mandate embraced five points:

- First—The destruction of the time honored parity of the precious metals to please Wall street and the Bank of England.
Second—The absolute domination of the Solid South by the withdrawal of federal control from the ballot and the revival in its worst form of the principle of States rights.
Third—The destruction of protection.
Fourth—The imposition of the income tax as a special impost upon the North.
Fifth—The revival of the shipplaster by the repeal of the law taxing the circulation of state banks.

JOHN RUSSELL YOUNG.

Here is an extract from a speech recently delivered by Hon. Geo. L. Douglass, speaker of the Kansas House of Representatives that would be good reading for Hoke Smith, Representative of Maryland, and others:

"The historian who would measure the results of that war by the mere political fact of the preservation of the Union, and the immediate emancipation of 4,000,000 slaves, is shortsighted indeed. Vast as was the gift of freedom to 4,000,000 of black men, the gift to the white race by the consequent change in the whole course of American thought, education, civilization and influence was infinitely greater and grander, and when I take the grayhaired veteran by the hand I reverently think of him not only as one to whom my dearest thanks are due for the preservation of the Union in its integrity and the flag in its glory, but as one of the grand army that did greater service to the cause of Christian civilization throughout the world than any other army that ever battled on American soil. It is no demagoguery to say this; it is but the acknowledgment of an everlasting truth. I care not what are the political affiliations of any man, he honors himself only when he honors the men whose valor saved for him a country and a flag."

# The Forum

"The Greatest of all our Periodicals."

The foremost men of the world write the literature of contemporaneous activity for THE FORUM.

Every great subject is taken up by The Forum when it naturally comes into public attention and is treated by the best authorities, without regard to parties or creeds. It will keep any thoughtful reader informed on the tasks and problems of the time, as no other periodical does.

To many thoughtful people, the price of The Forum has hitherto been prohibitory; indeed all the great Reviews have been too high in price for the masses of intelligent readers. But now the number of readers of thoughtful literature—men and women who wish really to know what is going on in the world outside the narrow limits of particular sects and parties—is great enough in the United States to warrant so revolutionary a reduction in price. The Forum discusses important subjects, but it is not dull. The literature of contemporaneous activity is, in fact, the most interesting of all literature. American citizenship implies that a man shall know the opinions of the foremost men and the latest great achievements in every direction of activity.

SIZE AND QUALITY UNCHANGED.

The Forum is now as cheap as the magazines of mere entertainment. THE CHEAPEST, THE LARGEST, THE BEST, OF THE GREAT REVIEWS.

Maple syrup time is near at hand. It is sweeter than a convention of school ma'ams, and stickier than a bare-legged boy seated on a sheet of fly paper. There is much happiness in sugaring-off time. Church socials are popular, for the raw product of sweetness is at its best when two spoony young people both bite the same piece of solid syrup, at the same time, and try to pull it apart. There is also a pleasant financial side to maple sugar time, for many a farmer gets a good supply of pin money from maple trees.—Hudson Post.

**New Novel by Mark Twain**

The most dramatic story ever written by America's greatest humorist. Like several of Mark Twain's stories, it has for its scene a steamboat town on the Mississippi River forty years ago. "Pudd'nhead Wilson," a hard-headed country lawyer, the hero of the story, furnishes much of the fun that one naturally expects to find in a work written by the author of "The Innocents," "Huckleberry Finn," and "Tom Sawyer," but he appears in quite another light in the murder trial which forms the thrilling climax of the story. The plot introduces a novel and ingenious employment of science in the detection of crime, and the characters are well drawn and their every action is interesting. The Century will contain a

A petition of Ambrose Kearney as administrator of the estate of Richard Sappel, deceased, makes the petition in behalf of said estate, that on the 1st of January, 1894, Richard Sappel was in the employ of the city, as a laborer, in constructing the main sewer and upon the premises of Heinzmann & Laubengayer, the said Richard Sappel was buried in said sewer causing his death. The petition represents that the said Richard Sappel left surviving him Johanna Kennedy, that she was wholly dependent upon him for support and maintenance. REPORT OF COMMITTEES.

To the Common Council:—Your committee on Licenses to whom was referred the petition of eleven dray-men of the city, asking that the dray Licenses be raised to \$10 on single and double drays.

Your committee have had the subject under consideration and find that in the year 1889 the council was petitioned to have the license fixed at \$3 and \$5 and the ordinance was so amended and in 1891 the council was asked to have the license reduced and the ordinance was amended so as to reduce the license, which ordinance is now in force.

Your committee is therefore unanimously of the opinion that there is no good reason why the ordinance should again at this time be amended, therefore recommend that the petition be denied.

Respectfully submitted, ARTHUR J. KITSON, FRANK WOOD, License Committee.

Accepted and recommendation concurred in.

A house belonging to Anthony Hall, situated on Forest ave., and occupied by C. W. Mellor, was damaged by fire last Saturday. The fire department boys had to take water from the hydrant at the fair grounds corner. It was a long run for the team, and the snow in the road made it difficult traveling, but they got there in time to save much of the house and contents. The house was insured but Mr. Mellor was without insurance on furniture.

The concert given by Max Heinrich, at University Hall last Friday evening, was the best attended concert given this season, and the ballads that the singer sang were pleasing to his audience. Mr. Heinrich was not a stranger here by any means, but he added to the good opinion the people here have of him, instead of making them weary, as is often the case with singers. He was assisted in the entertainment by Mr. Zeitz, of the University School of Music, who gave a most excellent exposition of violin pyrotechnics. He certainly gave some very difficult music in a charming and easy manner.

Chelsea was unfortunate enough to have another fire last Saturday afternoon. English sparrows are again very numerous here. We were in hopes that the boys had driven them away or killed them off so that we would not again be bothered with them but they are here now seemingly more numerous than ever.—Enterprise. That is the general complaint all over the county. The last legislature did not do a wise thing evidently in changing the law. And yet it seems as though some of our boys might make considerable money now by killing them, the sparrows, off.

How such a preposterous idea as this, shrouded from the Northville Record, should gain currency, is to say the least, a little singular: "Ann Arbor has at last got a single main sewer completed, but they can't find a hat big 'nuff to fit its head or teeth sufficiently large for its mouth. There's no way getting into it's inside, and it's practically 'no good.'—There is no truth in it, except that a main sewer without any laterals is of no account. The laterals will come, however, in the course of time.

Marshal Wheeler says that President Watts and himself rode all over the city yesterday and could find no walks which had not been cleaned of snow.—Daily Times, Feb. 16.

These gentlemen better walk next time, and they may, possibly, find a few. For it was a notorious and shameful fact that on the day above mentioned the sidewalks of the city were never before in a more disgraceful or dangerous condition from the accumulation of snow thereon. The pure, unadulterated laziness of Ann Arbor citizens in respect to cleaning their walks of snow, is notorious through all the country round.

The sudden death of Mrs. John F. Seeley, of Caro, on Friday evening last, while in attendance upon her daughter Miss Lucy Seeley, of the lit. class of '97 who was ill with scarlet fever at the Delta Gamma house, was a very sad affair indeed. Mrs. Seeley was taken ill at 8:30 and at 9:45 breathed her last. The cause was heart disease. A son, Louis Seeley, is a member of the '94 lit class. Mrs. Seeley was an estimable lady and her loss will be felt by the entire community at her home in Caro, as well as by the immediate family. The remains were taken to her home on Saturday p. m.

The New York Philharmonic Club, assisted by Miss Marion S. Weed, will give a grand concert at University Hall, on Friday evening Feb. 23d, under the auspices of the Student's Lecture Association. Miss Weed, the mezzo-soprano soloist, is a pupil of Luisa Cappiani, is a beautiful and brilliant artist, and captures the audience wherever she advertises. Of her the Boston Daily Advertiser says: "Miss Weed was as charming in personal appearance as her music was sweet, and may be sure of the warmest welcome whenever she sings in Boston." The Philharmonic Club has had an existence of 16 years, and has come to be one of the most popular and approved organizations in existence to-day. It has introduced to the world through the medium of a sextette, the compositions of the masters of classical and modern music literature. The director, Mr. Welner has the reputation of being the best flute player in the world. The programme here will be made up of music that will please an Ann Arbor audience, which by the way, has come to be a judge of what good music is.

How is This? Dexter, Mich., Feb. 14, '94. Ed. Courier: I noticed in the Free Press last week an article on the wool question by farmer D. Cramer, of your city. Is this the Cramer who a few years ago in a political speech near Ann Arbor, advised his fellow farmers to cross fine wool ewes with hydraulic rams, as he understood they were much stronger than the coarse wool rams the farmers were buying? A Girl With a Temper.

If Agnes Herndon, in "A Girl With a Temper," Prof. Hennequin's new comedy drama, is one half as strong an attraction as the advance notices and flattering press excerpts from the larger cities lead one to expect, then the audience that will greet this charming actress at the Grand Opera house Monday evening, Feb. 26th, will have an evening of unlimited enjoyment. "A Girl With a Temper"

It is a wholesome, pleasant, clean and bright and leaves only pleasant memories of a very enjoyable evening well spent. If you see the first act, you will stay to see the second, and then you will have to see the third, and fourth, and fifth acts, and as this is brought to such an unexpected and happy ending you leave the theatre feeling a hundred times better than when you entered it. It possesses the merit of being worth seeing more than once; there is nothing unpleasantly suggested in work or situation, and the dialogue is sharp, witty, and to the point. It is a play that will make Miss Herndon fame and money for a long time to come. This really is one of the good things of our amusement season that you can't afford to miss.

### A Device for Fooling the Fish.

A fishing decoy, invented by William R. Lamb, of East Greenwich, is intended to induce the fish to bite more readily than at a hook as ordinarily baited. A patent on this device has been allowed. A circular or oval mirror is attached to a line by a ring to the frame of the glass. A short horizontal arm is carried out from the frame at the point where the ring is attached, the arm extending a short distance in front of the mirror; it has at its outer end a ring to receive a branch line, the upper end of which is made fast to the main line. The short line is secured to the ring in the end of the arm where it passes through it to serve as a stay to the arm when it is strained by pulling in a fish. The hook is tied to the end of the branch line so as to hang opposite the center of the mirror. The mirror takes the place of a sinker, and with its lower edge just touching the bottom, the least pull on the branch line will be felt by the hand at the upper end of the taut main line. In this position the fish, on approaching the bait, sees his reflection in the mirror also coming for the reflection of the bait, and, it is claimed, in consequence of his ignorance of mirrors, will be made bolder by supposed companionship, and more eager to bite the bait before the other fish can seize it. Losing caution, he will bite with a recklessness that will increase his chances of being caught by the hook. The reflection of light from the mirror in the water will have in some degree the effect of a lighted torch in some kinds of fishing—attracting fish to the bait—and the light reflected by the mirror upon the bait will make it more conspicuous.

The mirror may be made in two parts and secured at an angle to each other so as to have the effect of having two or more reflections of the same fish, and it may be made double so as to reflect on the back and front, or in the form of a triangle or square with a mirror on each side and arm, with hook and bait before each reflecting surface; also in the form of a cross, which will produce a multiplicity of reflections.—Providence Journal.

### About Diamonds.

There is something singularly fascinating about a diamond. Its perfect clearness, the number of colors that lurk in it and that are brought out wonderfully by the gaslight, its absolute look of purity, and its shape, fine cutting all tend to make it the most beautiful of stones. When a woman is asked the kind of ring, or brooch, or bracelet she desires, she is apt to say, "A diamond one."

And unless she has a great many jewels this is a wise choice, for the diamond may be worn many times when the colored gems are in bad taste.

The women of good taste and refined feelings realize when and where she shall wear her jewels. Diamonds should never be worn in the morning.

They should not be worn when a simple visit is paid before two o'clock. They should not be worn when one is doing charitable work.

They should not be worn where they are likely to attract so much attention that they will cause envy and heartburnings.

They should not be worn in profusion with any street toilet, although a small brooch, a pair of solitaire earrings, and a ring which is concealed by the glove, are frequently noticed on refined women.

They should not be worn in bathing; this sounds a little odd, but as they have been seen in such places, somebody, evidently, needs to be given a word or two about them.

They should not be worn to any extent, even in the evening, at places of amusement.

They should never be seen on children.

They should not be worn by people who are in mourning.

They should not be worn unless one's gown is in harmony with them, for a soiled, mussed costume and a profusion of diamonds is a very bad combination.

They should not be worn by men.

They should not be worn at all unless they are real, unless they are properly set, and unless they are suited to the wearer.

Enormous earrings, pulling down the lobes of the ear are the essence of vulgarity.

Choose your diamonds for their clearness and perfection of cut rather than their size, and wear them, not as did the young lady who roved all over Ireland covered with gems, until it is in the evening when the soft light is upon you and you can feel as did the poet who described her, that your beauty is far beyond your sparkling gem.

Mrs. Jos. Bailey, Cedar Springs, Mich., says: "Adironda," Wheeler's Heart and Nerve Cure, is the best medicine I ever had in my family; it never fails."

### Lies Credited to History.

There was probably no such man as Romulus.

There was never such a person as Pope Joan, the so-called female Pontiff.

Wellington at Waterloo did not say: "Up, guards, and at 'em!"

Alfred the great did not visit the Danish camp disguised as a minstrel.

The existence of the Colossus of Rhodes is considered by some historians extremely doubtful.

There is no historic authority for the statement that little George Washington cut down the cherry tree.

Cromwell and Hampden did not attempt to sail for America just before the outbreak of the English revolution.

Philip III. of Spain was not roasted to death by a roaring fire because court etiquette forbade any one to come to his assistance. He died a natural death.

Pocahontas did not save the life of John Smith. It has been ascertained that this worthy man was the most able-bodied prevaricator of his century.

Seneca was not a half-Christian philosopher, but a grasping money-lender and usurer who died worth over \$15,000,000.

Caesar did not say: "Et tu Brute." Eye witnesses to the assassination deposed that "he died fighting, but silent, like a wolf."

Richard III. was not a hunchback, but a soldier of fine form, some pretensions to good looks, and great personal strength and courage.

Gen. Bambourne did not say: "The guard dies, but does not surrender." The words were the invention of a Paris Journalist, and attributed to him.

Mary Stuart of Scotland, was not a beauty. She had cross eyes, and to save the trouble of having her hair dressed, cut it off close to her head and wore a wig.

Sappho, the poetess, was not a wanton beauty, nor did she throw herself from the Leucadian cliff to be cured of an unworthy love. The latest investigations prove her a respectable married woman with a large family.

Queen Elizabeth was not the angelic creature represented in history and poems of her own times. Her hair was red, her temper red hot. She sometimes drank too much, and at any provocation would swear like a trooper.

### Rules from a Burglar.

The killing of Thomas Prunty and the wounding of several members of the family by a burglar recently, recalls an interview with Cramer, a notorious New York burglar, in 1860. Cramer—not one of his aliases—had been caught in the act of burglary, and the court did not delay in sending him to Sing Sing for twenty years, which at his age (55) meant for the balance of his life. He was an old and troublesome offender and had served three terms of five years each, lacking two years of the last term, which he escaped by escaping from jail in the interior of the state.

Cramer said he was glad his sentence meant lifetime, as the last ten years had been miserable ones for him. He knew nothing since ten years of age but the life of a burglar; "and," said he, "if I was given my freedom to-day, to-morrow I would be in search of a new field for theft."

He talked freely, and offered some good advice to people who live in houses, all of which was widely published at that time, but is as valuable to-day as it was then. He laid down two good rules:

"1. Never allow a light to burn in your house at night unless someone is sick and there is a nurse in attendance or a watchman in the building. A light in a house is always a welcome guide to the burglar. It avoids the danger of striking a match, the noise or sudden light of which frequently disturbs nervous people and light sleepers. It also relieves the burglar of the annoyance of carrying a dark lantern and leaves his hands free."

"2. Never place yourself between a burglar and means of exit. A burglar will take the risk of adding the crime of murder to that of theft rather than be captured. When a burglar is discovered he is always anxious to escape, and will drop his booty as well as his tools to accomplish this end. Give him a start and follow, but never step before him."

The observance of the second rule would have saved at least two of Prunty's family. The loud cry of Mrs. Prunty cost her husband's life.

Another suggestion of Cramer was that all doors should have in addition to good locks, strong iron bolts. An expert burglar can pick almost any lock, but he cannot pick a bolt hardly, not knowing its location. The suggestions are valuable in themselves, but doubly enhanced by the fact that they came voluntarily from the lips of a man whose life had been spent in stealing into honest people's homes for plunder.—Chicago Tribune.

### Rules in Speaking.

Speak in chest tones.

Pronounce vowel sounds correctly. Say "It is I," and "He went with me."

Speak distinctly, but softly and slowly.

Pronounce the o in "stone" like that in "go."

Give each syllable its proper value or length.

Say "waistcoat" and "trousers," and not "vest" and "pants."

If an inferior, say "sir" or "madam" in speaking to a superior.

Say "memorandum" in the singular, and "memoranda" in the plural.

Avoid coarseness and rudeness of speech and language and harsh laughter.

Pronounce the letter r in words where it occurs as in "arm," "girl," "rubber."

Lower the voice and speak slowly when one wishes to enforce one's authority.

Train children carefully to read aloud, both for the sake of the voice and the pronunciation.

Avoid the overelocacy of language and affectation of precision which belong to persons of narrow culture.

Say "sir" or "madam" if you have occasion to address a stranger, using the word "madam" for a single as well as for a married lady.

Pronounce correctly, studying not only the dictionary, but the language of living speakers who are entitled to speak with authority.

Pronounce in English fashion the names of foreign places and persons which have become Anglicized, as Vienna, Paris, Napoleon.

### WHY CAN'T I WORK?

Why do I Get Weak and Tired so Easily?

Questions That Are Constantly Asked by Thousands.

A Prominent Business Man Gives Advice Needed by Everybody.

The world is filled with weak, suffering men and women. Oh! if they could only be made well and strong how different their lives would be! And they can be so just as well as not. Read the following letter from Mr. Joseph A. Slayton, one of the most prominent men of Calais, Vermont:

"Two years ago I was taken with the grippe. I had to take to my bed and was very sick. I came very near death. I was confined to my bed six weeks. When I got up I was very weak and could not get around. I employed physicians who did me very little good.

"I had serious trouble with my heart, so bad that I fell and received serious injury. I was completely run down and could not do any work on account of nervous prostration. I was thoroughly discouraged. A friend advised me to try Dr. Greene's Nervura blood and nerve remedy. "I had to have something to help me immediately or I could not live long.

JOSEPH A. SLAYTON, ESQ.

"Other medicines which I had tried did me no good. I took one bottle of Greene's Nervura blood and nerve remedy and it set me right on my feet.

"I could not help having faith in this wonderful medicine even if I wanted to. It cured me completely. Before I took it I was so dizzy I did not dare to go away to work alone, I would fall down and hurt me badly. Since taking Dr. Greene's Nervura blood and nerve remedy, my health is good and my nerves are steady. I know it is the best medicine and advise all to use it."

If you are weak, sickly, nervous, run down, or have any nervous or chronic disease, take Dr. Greene's Nervura blood and nerve remedy. It will surely cure you. The spring is the best time to take it. You can always be cured quickest at this season. Everybody needs a spring medicine, and there is none which will do as much for you as Dr. Greene's Nervura blood and nerve remedy. It is a positive cure. Try it. It is purely vegetable and harmless and is the discovery of Dr. Greene, of 35 W. 14th Street, New York City, the most successful specialist in curing nervous and chronic diseases. He can be consulted personally or by letter, free of charge.

### A Purely Irish Retort.

The conductor's eyes fell on the little black pipe, and he said with a snap, "You can't smoke here!"

"O'm not smokin'," said Pat, with calm good temper.

The conductor collected the rest of the fares on our seat and came back again. "I say you can't smoke here!" he reiterated angrily.

"O'm not smokin'," returned the offender meekly.

"You've got y'r pipe in y'r mouth!" yowled the conductor.

Pat's eyes woke up.

"And O've got me feet in me boots, too, but O'm not walkin'!" he retorted crossly.

"Tenth street!" yelled the conductor, and started off again.—Exchange.

### Two Ways of Seeing a Picture.

An artist had sold a picture for an exorbitant price and the purchaser sued to recover. The lawyer for the purchaser was making the artist uncomfortable by his questions.

"Now, sir," he said in that pleasant ingratiating manner of lawyers with a witness, "do you think anybody could see beauty in that picture?"

"Some persons certainly could," replied the artist.

"You think the initiated in technical matters might have no difficulty in understanding your work?"

"I am sure they would not."

"Do you think you could make me see any beauty in that picture?" this most superciliously.

"Probably not now, sir," and the artist was most humble, "but once I could have done so easily."

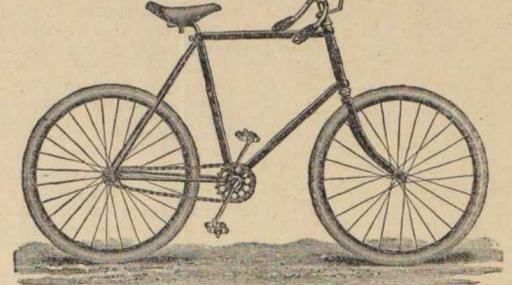

"Now, sir, how is that? I don't understand you. Explain, if you please."

"That's quite easy, sir. I could have done it simply by employing you as my counsel in this case."

**Nervous Debility and Catarrh Cured.**  
Thomas Minchin says: "I was reduced to a nervous wreck—only weighed 115 pounds. The result of early abuse was the cause. I had the following symptoms: Miserable mentally and physically, melancholy, nervousness, weakness, specks before the eyes, dizzy, poor memory, palpitation of the heart, flushing, cold hands and feet, weak back, dreams and losses at night, tired in the morning, pimples on the face, loss of ambition, burning sensation, kidneys weak, etc. Doctors could not cure me; but Drs. Blotches on the skin looked horrible. I tried sixteen doctors in all. A friend recommended Dr. Kennedy & Kergan. I began their New Method Treatment and in a few weeks was a new man with renewed life and ambition. I cannot say too much for those scientific doctors who have been in Detroit for four years. ### The Chelsea Fire.

[From the Argus.]

Chelsea has again been visited by a big fire, the largest in the history of that thriving village. For nearly three hours the flames laughed at the chemical engines which constitute Chelsea's sole fire protection and it was not until help had arrived from Jackson that the flames were got under control but not until the Glazier stove works office and warehouses, and part of the Chelsea House on Main street had been burned and the Congregational church and parsonage on Middle St. The rear of the Glazier stove works is near the rear of the Congregational church which accounts for the spreading of the flames in that direction. A big block of stores on Main street were saved. The losses foot up in the neighborhood of \$35,000, while the insurance was \$22,300 as follows: L. Babcock, building, \$7,000, insurance, \$4,000; F. Staffan, building, \$2,000, insurance, \$1,000; Congregational church, \$4,000, insurance, \$3,000; parsonage, \$1,400, insurance, \$1,300; Glazier stove works, \$20,000, insurance, \$13,000.

The Glazier stove works in Chelsea is a new industry, which has been doing a thriving business. The insurance office of Gilbert & Crowell was in this building. Our Chelsea correspondent sends us the following account of the fire:

The most destructive fire for many years in this village happened last Sunday afternoon. A fire broke out in the basement of the Babcock building, occupied by the Glazier stove factory, probably from the furnace, about two o'clock, and was only got under control about five o'clock. The village chemical engines were of very little use. The fire soon gutted the Babcock building with its contents, and the south half of the Chelsea house, owned by Frank Staffan. The contents of the

hotel were mostly saved in a damaged condition. The fire then went to the Congregational church and parsonage, which were soon in ashes. The contents of these were partly saved. About 4 o'clock a steam engine that had been telegraphed for arrived from Jackson, and was soon in control of the fire, saving the north part of the Chelsea house, owned by Mrs. Gillam, in a damaged condition. Considerable damage was done to the Winans and Hatch building next south, and to the windows on the west side of the street. The property destroyed will aggregate at least \$20,000, and all more or less insured, but not enough to cover the loss. It is a great loss to the property owners as well as to the town, because the property was all good and nearly new, except the church. The fire could easily have been put out before much damage was done if the town had had a steam fire engine. More companies will yet withdraw from the town unless it provides better protection against fire.

It is the local paper which stands nearest of all to the home reader. It is interested in the things that he or she is interested in. The little occurrences which make up the every-day life of the community. The births, marriages and deaths; the couplings and goings; the amusements, the entertainments, the enterprises, the hopes and the ambitions of those here at home. Its columns contain the matters of local interest which are never seen in the city weekly, and can be had nowhere else but in the home paper. The family who cannot get \$1.50 worth of goods in the local paper in 52 weeks is indeed rare.—Michigan Press Bulletin.

### Franklin House New Landlord.

The Franklin House in this city has a new proprietor, or rather proprietors, being run by F. E. and L. M. Kellogg, recently of Dearborn, Mich. The Dearborn Advance give the new hotel proprietors the following send off:

"Supervisor Kellogg and family left Dearborn Thursday morning for Ann Arbor, where they will take possession of the hotel known as the Franklin House. Mr. Kellogg and family came to Dearborn from Detroit in 1880, and settled on the farm now known as the Kellogg farm. Having made this their permanent dwelling place for 14 years, it was with sad hearts they left the old home, around which clustered so many experiences of joy and sadness, and the many friends they have in this locality.

Mr. Kellogg was a hearty entertainer, and his house was always open to the entertainment of his neighbors and friends, and many are the happy and delightful gatherings that have assembled at his hearth and been welcomed to his well-filled table.

Wednesday afternoon a large number of friends assembled at the home of the departing family to shake hands and say good bye. Although they tried to make the parting a matter of good cheer, it was a flat failure; and to suppress their heart-felt sorrow they tried to turn the occasion into loud laughter and merry jests. In fact, everyone had either to laugh or give way to their feelings.

Mr. Kellogg's experience in the hotel business many years ago will be of practical use to him now, and we join with others in wishing him success.
