THE WEEKLY GRIST OF NEWS.

Maj. Soule Tells About the Taking of Mobile—An Ordination next Sunday—To Raise the Treasurer's Salary.

OUR CITY SHOULD WAKE UP.

A School of Instruction Needed—Political Rights of a Teacher—A Sharp Road District—Etc., Etc., Etc.

The Taking of Mobile—

Last evening at the G. A. R. rooms Maj. Soule gave a very interesting account of the capture, by the boys in blue of Spanish Fort and the other forts and batteries in and around Mobile, Ala. The final assault and capture was made on April 9th, 1865, the very day on which Lee surrendered. This news did not reach them until several days thereafter. The Major's account of the slaughter of two green companies, I and K of the 47th Ill. Infantry, and also of the final charge of Gen. Steele's troops, who never stopped for breakfast, or for anything else, but in the early gray of that April morning made a quick march from the transports which brought them there to the front, and kept right on going until they had captured Spanish Fort and two other ones, was quite thrilling at times, and affecting. It was an evening well spent.

The City Treasurer's Salary—

It is understood that the question of increasing the city treasurer's salary will be submitted to a vote of the people at the coming election. It is a difficult thing to secure a proper compensation for an official in that way, because there are so many Cheap Jobs who are ready with this glittering argument: "What's the use of giving any more? I am willing to take the office at the present salary," or, "There are plenty who would be willing to take it at much less," and so on.

The treasurer is a poorly paid officer considering the amount of responsibility and of work connected with his position. He has to give enormous bonds and the worry is often distressing to him. No treasurer can realize much more than \$400 for himself after paying the necessary clerk hire and assistance that he is obliged to have for nearly five months in the year now.

Would it not be a wise thing to do to make this a salaried office, taking away all fees? The salary should be at least \$1,200 per year. It is worth even more than that. If the people do not carry the proposition this spring they will be doing a rank injustice by a hard working official.

It's Second Anniversary—

The second anniversary meeting of the Young Men's Christian Association, took place at the M. E. church Sunday evening, was an interesting affair, and was listened to with much pleasure by the audience.

President Charles W. Wagner furnished a chorus choir of young men furnished the musical part of the program, and General Secretary B. B. Johnson gave an account of the work of the Association for the year.

The work accomplished by this organization is certainly well worth the effort and money it has cost. The result, if only one boy instead of many, was saved every year to right living and pure thinking, would be worth the effort.

This association is doing nobly. If there is any good, conscientious, Christian labor being performed in Ann Arbor to-day, this body of laborers is doing it. The field is a large one. They have only started in it.

More laborers and more givers both, are needed. Join the ranks, can you not?

An Aeolian Concert—

The management of the May Festival could add to the attractiveness if not to the value, also, of the course to be given in a few weeks, May, 21, 22 and 23, by giving the Aeolian attachment a chance to entertain the people for an hour or so, say on Friday or Saturday forenoon.

We understand the mechanics of this ingenious piece of mechanism would

be willing to contribute the entire proceeds that might come from the concert, and the novelty of the thing would be an additional attraction.

Then again it would show the people what the Columbian Organ could do. Many who have come from abroad to hear the organ have been considerably disappointed, as no one person could possibly bring out its full power. This machine would thoroughly satisfy them, and aside from that it would entertain them. Why not add an Aeolian concert to the course?

Ordination of Lawrence Cole—

On Sunday next at St. Andrew's church, the ordination of Lawrence Cole to the ministry, will occur. Bishop Davies will conduct the services, which include the holy communion, and Rev. W. O. Waters, of St. Andrew's parish, Detroit, formerly assistant to the rector of this parish, will preach the sermon. It is a pleasure, and a very great pleasure for the many friends of Mr. Cole, to know that they will be able to see him ordained. He is one of the sons of Ann Arbor on which high hopes are built, and for him to receive his ordination here in the church where he has worshipped all his life, must be no less pleasing to him. The services commence at 10:30 a. m.

The seats in this church are all free to those who wish to come.

It should be remembered that the sermon is the first thing in the service after the processional, and all should be on time.

It Will be a fine Affair—

The coming military ball to be given by the Ann Arbor Light Infantry on April 8, is to be a brilliant affair, and the new armory will be dedicated amidst great splendor.

Gov. Rich and staff will be present and help the guests.

The reception committee for the occasion will be composed of Col. Henry S. Dean, Col. John E. Tyrrell, Maj. Martin L. Belsky, Capt. C. E. Hilscock, Edward M. Duffy, Samuel W. Beakes, Capt. Ross Granger, Lieut. William F. Armstrong and Lieut. H. O. Walters.

For the ball the patronesses are Mesdames A. J. Sawyer, J. E. Tyrrell, W. S. Babbitt, J. T. Jacobs, Seymour Howell, S. W. Beakes and Reuben Kempf and Miss Emma E. Bower.

All of the prominent military men of the state have signified their intention of being present to take part in the festivities.

The Chequamegon orchestra will furnish the music, Hangsterfer will cater and Staebler have charge of the decorations.

A Much Needed School—

Before the coming election is held there should be an effort made in every election precinct in the county to instruct voters how to prepare their ballots. At every election since the new law was passed, there has been a number of ballots thrown out in nearly every precinct in the county, and others have been so marked that the inspectors have had a good deal of wrangling over them. There are voters who are not able to read a ballot, but who do not care to show their ignorance before a crowd of men by asking a member of the board to go into the booth with them and instruct them how to vote, who if once shown before they go to the polls would be able to fix a ballot just as they want it.

This instruction should be at public expense, too. If the state enacts such intricate laws, the state should make provision for the education of the people so that they can fulfill the law and not be disgraced by it.

A friend at our elbow says, "stuff and nonsense. If there are those so ignorant that they can not understand that law, they ought to be disfranchised."

We are not exactly in sympathy with that feeling, from the fact that

we have seen men who are well educated, and also good, sharp business men, so puzzled over the requirements of this law, that they would have lost their vote had they not made inquiry about it.

The schools of instruction which were held in this city when the law was first enacted, did a wonderful sight of good, and they ought to be repeated a few days previous to each election.

Life and Activity Needed—

This is an age of progress and innovations, especially innovations. Of late it has been noticed that in several cities in the west, committees have been appointed from among the best known citizens, for the purpose of securing conventions and annual meetings of societies, orders and organizations of various kinds.

At the first blush the thing looks absurd. But when the idea is looked into it will be found that there is no absurdity about it, but straight forward business.

As an instance in mind. At the recent meeting of Foresters in Lansing there were some 250 or 300 delegates. They remained in that city two or three days, and some probably a longer period. At a moderate estimate each one expended on an average \$5 a day. There was \$1500 brought into the city, all in a lump. That is only one of a great number of such meetings which occur some where in the state annually. The city that secures the most of them is the most fortunate.

Ann Arbor in the past has had its share of conventions and meetings, but the great trouble has been that they have quite largely been of the kind that did not pay. In most cases the delegates have been entertained by our citizens. At one time this sort, which Ann Arbor people have always made welcome, came a little too frequently for the convenience of those who are sufficiently generous to open their houses and entertain.

To secure the paying convention is what is desired, and is what many cities are working for, and why should not Ann Arbor?

Where is our Business Men's Association? Is it still sleeping? If it proposes to keep on sleeping, then let something be organized to supersede it. What Ann Arbor needs just now is something to wake her up. She has been slowly dropping into a lethargic condition for the past four years or more.

The Association referred to took hold of the work energetically at first, and the city experienced good results therefrom. But after the first spasm of push was over, then it set back in an easy chair to watch the result, and has forgotten to ever rise up again. It is sitting yet, sitting still.

Why should this inertia continue? Why not fire out the old Business Men's Association and organize something new? Get a new set of officers, put life and vigor into the work, and secure for Ann Arbor its share, if nothing more, of the plums that are being passed about the state?

This suggestion is one that might be wise for the citizens of Ann Arbor the taxpayers especially, to act on.

Working an Unjust Scheme—

Dear Sir:—It seems to me that there is a certain road district—the number of which I will not give—in the township of Ann Arbor, that has an ingenious scheme for working out its road tax. This scheme which is now in operation, is unjust to the taxpayers of those districts that work out or commute in full their road tax.

In 1893 the district referred to above, which is on the Pontiac road, did not work or commute a single day's work, neither was their road tax spread upon the tax roll in the year 1895. A resident of said road

district, at the annual township meeting made a motion, which was carried, to raise by tax upon the whole township, \$50, which was to be applied and worked out in that district. I am also informed that the assessed road tax of 1895 was not worked out in full, and that they intend to ask for \$50 more at the coming township meeting.

For one I do not believe in allowing anything to be raised for any district until they have worked out what has already been raised. All interested should investigate and be ready to vote understandingly when election comes.

TAX PAYER.

Are Teachers Free Men?—

Editor Courier:

Dear Sir:—I have noticed that people having a desire to express an opinion about questions of interest in the community have a way of writing what they think to the Courier, under a nom de plume, and I have a little something I should like to say, availing myself of a like privilege.

I have occasionally heard criticisms upon the propriety of those who are connected with the institutions of learning, the public schools and the university, taking part in politics.

At a small gathering of republicans a few evenings since, I am told that a member of the school board announced his intention of having every man connected with the public schools, who took an active part in politics, dismissed from their position; further, that if he had it in his power to manage things that he would do the same thing at the University.

Let there should be a misunderstanding as to the authorship of this article I desire to say that I am only a common citizen, and am not now nor have I ever been connected with the schools or university in any capacity. But I am in favor of the greatest freedom of political belief and action of every other citizen, in whatever capacity he may be employed. I represent no trifling number of the people of this city when I say that for any member of a school board, or any member of any board of control of any institution, to interfere with the political rights of any person who may be employed by such board, is to perform an act of tyranny and oppression, an act not warranted by any law, written or unwritten, of this state or nation. If any such official does such a deed he is a dangerous man, and the sooner he is replaced by another who shall be broad enough to tolerate differences of opinion, the better for all concerned.

A man who sells his services, either to the state or the city, in any capacity whatever, either as a teacher or as an official, does not sell his birthright at the same time. It would be most dangerous to our free institutions were such the case. The rock on which this nation is founded is the freedom of the individual to think and act as his conscience dictates in political and also in religious matters. When this right is denied any citizen a crime is committed, not only against that citizen but against the common law as well, which aims to protect every individual in this respect.

The man who made this assertion could not have given the subject any thought whatever. He must have made it on the spur of the moment, without giving the consequences of such action due consideration. Let him exchange places with a teacher in the public schools, for instance, and have his own ruling applied to himself. Would he submit to it, think you? Not for a second. Then he should not lay down rules for others that he would not submit to himself.

For one I believe that the men employed in our schools and universities are just the ones who ought to take part and an active part, in politics, outside of the school and class room. They are too often silent and passive because of the unkind and unjust criticism of some ward politician.

I have never known one of these men to be opposed to good morals or good government, or to work in opposition to good men. They are sure to favor that which is clean and best in all things, and are quite as safe to trust with the

Indigestion is often taken for consumption. The word consumption means wasting away, and dyspepsia often waste away as badly as consumptives.

The reason people waste away is because either they don't get enough to eat, or they don't digest what they do eat.

If the latter is your trouble, take Shaker Digestive Cordial. This will help you to digest your food and stop your loss of flesh.

Shaker Digestive Cordial is made from herbs, barks and the juices of fruit, by the well known Shakers at Mount Lebanon. It possesses great tonic and digestive powers.

Shaker Digestive Cordial has cured many supposed consumptives (who were really dyspeptics), by simply helping their stomachs to digest their food, thus giving them nourishment and new strength.

A private letter written Feb. 8, from Nashville, Tenn., and which reached here last Monday, March 16, tells of the fine reception accorded Prof. I. N. Demmon of the University, in that city. He was entertained in a royal manner by the people of Nashville.

There will doubtless be much talk, and perhaps many delays, but it is of course only a question of time when there will be an electric railroad running between Ann Arbor and Detroit, via Ypsilanti. We believe it will be completed within eighteen months.—Ypsilanti Commercial.

Those who obtained their schooling in the country will have chance to renew old memories in the District School which will be given soon by the Epworth League. This entertainment originated here under the direction of Prof. Wines and has been very popular throughout the country. Now Prof. Wines will try to outdo himself in another one which will be entirely original. The time and place will be announced later.

The Ypsilanti Commercial is responsible for this: "A pretty Dexter school teacher had been relating to her small pupils some of the incidents in the life of George Washington, and endeavoring to instill in their minds an appreciation of the virtues of the Father of his Country, including his truthfulness as a boy. Continuing she said: "Will some pupil give me an instance of Washington's courage?" Several hands went up. "Jimmy Snags you may answer." "Please ma'am, he married a widow!"

An entertainment for the benefit of the Y. W. C. A. will be given at High School Hall Thursday evening March 19, at 8 o'clock, under the direction of Miss MacMonagle. The attractions are: "The Shades of Shakespear's Women," a one act play and Scarf Fantasies, consisting of March, drill, figures and tableaux, by the young ladies. "An Old Ladies Gossip," a pantomime in costume by children. Miss MacMonagle will recite, also will little Miss Mabel Brown. So with songs by Mr. Harkins and other music by High School Orchestra, we are quite sure of a pleasant evening. Admission 10 cts.

A case which attracted a great deal of attention at court last week, was one brought by Mrs. Elizabeth Lam, a niece, to break the will of Sarah Goodrich, by which the Goodrich homestead on Ann st., was left to her sister, Mrs. Anna North. The plea of Mr. Sawyer must have been very convincing to the jury, for they brought in a verdict in favor of breaking the will, against the evident good judgment of the judge and of the people generally. If there can be no wills made that will hold, then people will have to make warranty deeds while they yet live. In the former suit brought by Mrs. Lam, the general sympathy was with her, but in this suit but few thought her claim a just one. But the inscrutable mystery of a jury is a queer thing when its verdict is rendered.

The peculiar mental strain on mail carriers in Washtenaw county, has caused two of them to become violently insane, since last December. Their respective names are Louis Detling and Chris. Walker. Detling has been sent to Pontiac and Walker is waiting for a vacancy in that institution.—Stockbridge Sun. Lest some one should get a false impression from the above, and allow a prejudice to secure a foothold in their minds as to the sanity of Uncle Sam's carriers in Ann Arbor, it might not be out of place to state that these two unfortunate gentlemen were not letter carriers in this city but were mail carriers on star routes, one running from this city to Weinsberg, the other from here to Dixboro. None of our carriers are non compos mentis.

The old man who looks out at the world with clear and healthy eyes cannot help feeling great gratification at the thought that his children had inherited from him no weakness nor tendency to disease. The healthy old man is the man who has throughout his life kept his digestion good and his blood pure. Not one in a thousand does do it. Germs go through the healthy body without effect. Let them once find lodgment or let them find a weak spot, they will develop by the million and the blood will be full of them. Instead of giving strength to the tissues, it will force them upon unwholesome matter, and the man will lose flesh and the more susceptible he is to disease. Dr. Pierce's Golden Medical Discovery is the only medicine that absolutely and infallibly cures all blood diseases, and almost all diseases are blood diseases. It isn't a medicine for some one particular so-called disease. It is a medicine for the whole body. It forces out all the germs of disease, and replaces impurities with rich, red blood.

The estimated cost of an electric road from Springwells to Ypsilanti is \$520,000, or \$20,000 per mile. To bring the road to Ann Arbor would cost \$160,000 more, making a total of \$680,000 for the line from Detroit to this city. Before the enterprise is completed a cool million will be invested.

It is hinted that the attractions will embrace the unaccepted applications of the plains for the position of president of the Michigan Agricultural college."

At the meeting of the common council Monday evening, Messrs. Clark and Bullis sent in their resignations as members of the board of public works, and both were accepted. These two gentlemen who have spent a great deal of time in the city's interest without any compensation whatever, have received nothing but kicks for their pains, have concluded to step down and out and let the kickers run things to suit themselves. Mayor Walker can now appoint a board to his own liking. It is hinted that the new board will consist of the present lone member Daniel J. Ross, John R. Miner and Christian Martin. It is also said that the new board will appoint a new street commissioner in the person of Alderman Snyder.

"In the Beginning,"

Of a new year, when the winter season of close confinement is only half gone, many find that their health begins to break down, that the least exposure threatens sickness. It is then as well as at all other times, and with people even in good health, that the following facts should be remembered, namely: that Hood's Sarsaparilla leads everything in the way of medicines; that it accomplishes the greatest cures in the world; has the largest sale in the world, and requires the largest building in the world devoted exclusively to the preparation of the proprietary medicine. Does not this conclusively prove, if you are sick, that Hood's Sarsaparilla is the medicine for you to take?

Funeral services were held in Detroit on Sunday, several friends from this city attending.

There is quite a fear among the University people and students especially, that Prof. Calvin Thomas, who is now studying in Germany, may accept the tempting offer made by the trustees of Columbia University, to take the chair of German languages and literature, made vacant in that University by the death of Prof. Hjalmar Hjorth Boyesen. It would be a great loss to the University if he did so.

The People vs. Paul G. Suckey, Appropriating public money to private use. When this case was called in the circuit court Monday, there was a scene in court. The array of lawyers was great for the defence, and the attempt to get the case was powerful. The Judge however, was opposed to such action, and believed that it ought to come to trial. The result was a clash and some sharp passages followed. The result was that the case went over until Monday.

At the meeting of the Political Equality Club last Monday, there was a good attendance. Two papers were read, one giving a history of this county, and another a history of this city. Both were excellent. The usual questions and answers were gone through with, and it was considered by all members present an hour or more profitably spent. The next meeting will be with Mrs. Hinsdale on Washtenaw ave., next Monday.

An effort is being made by our city officials, to disperse the gangs of boys from ten years old upwards, who congregate evenings at the post-office, opera house or street corners. These lads are forming habits that are a curse to themselves and may be a menace to the peace and welfare of the community, when they shall become men. The curfew ordinance may be considered a sort of an "Aunt Nancy" affair, yet if it was strictly enforced it would add to the good morals of the community, and be the means of saving many boys, and girls also, from vice and degradation.

The senior literary class of the University has decided to donate \$600 with which to purchase a suitable memorial to be presented to the University. The committee reported in favor of a granite drinking fountain for the center of the campus, but it was not adopted. A class tax of \$5 each, was voted, with \$3 extra for attendance at the senior reception.

He first saw the light of day in this city May 10, 1828, and was nearly 68 years of age. His father Elbridge Gee, came to Washtenaw in 1823, and disputed the honor of being the first actual settler in this county with Benj. Woodruff, the founder of "Woodruff's Grove," near Ypsilanti. A grandson of this famous old pioneer, and son of the deceased, is at present attending the University.

ballot as any class of people in the community.

I fully appreciate, Mr. Editor, the delicate position in which this communication places you, as a member of the school board, but the Courier I take it is eminently fair and liberal, and allows the freest range of expression upon all subjects of public interest.

The writer of this has the kindest of feelings toward each member of the board, and has never before felt like criticizing any of them, but this seems like too serious a matter to let pass unnoticed. Very truly yours,

H. W. D.

Death of Capt. Tyler of Dexter.

Capt. E. B. Tyler, of Dexter village, aged 83 years, who died last week, was one of the early pioneers of the county, and a man who at one time was quite influential.

He was the first agent the American Express Co. ever had in that place, and held the position until age incapacitated him for the work, when the company, recognizing the value he had been to them, retired him with a pension. He served the company faithfully for over 40 years and when Dexter supplied the entire country to the north as far as Howell.

He was a member of Washtenaw lodge F. & A. M., which organization attended his funeral in a body. In his death the pioneers lose a member who was a connecting link between the past and the present.

Death of Dr. Wile.

The Chicago Evening Journal of last Friday contained the following:

"Dr. Jacob Wile, physician at the Palmer House, died this morning at Alma, Mich., from paralysis. Dr. Wile was first stricken with a light attack of paralysis three weeks ago, his condition not being considered as at all serious.

"Dr. Wile was but 32 years of age and was regarded as one of the most brilliant and promising young physicians in Chicago. He formerly resided at La Porte, Ind., was graduated from the University of Michigan medical school in 1886, and removed to Chicago about three years ago. He has since resided with his family at 3537 Indiana ave. He has been associated with Dr. A. E. Evans at the Palmer house for over a year. He leaves a wife and one daughter, 5 years old. He was prominent in several societies and a member of the Maccabees, Masons and Knights of Pythias. His remains will be taken to La Porte, Ind., for interment."

The deceased was a son-in-law of Amariah Hammond, of the northside, having married Miss Anna Hammond some years ago. The family have the sincere sympathy of many friends here in their sorrow.

For Good Roads.

Nearly 200 delegates attended the Good Roads Convention held at Lansing recently. Much interest was manifested in the meeting and it is earnestly hoped that the formation of this organization will be instrumental in bettering the condition of the highways of the state. Hundreds of thousands of dollars are lost each year by the farmers of Michigan through the miserable roads and the present system of keeping them is simply worse than nothing. The following persons were chosen as officers of the Michigan League of Good Roads as the organization was named:

President, William L. Webber, of Saginaw; vice president William Appleton of Lansing; secretary and treasurer E. M. Hopkins of Saginaw. One from each congressional district was chosen as an executive committee, Col. C. V. DeLand of Jackson, being the representative for this district.

We publish the constitution adopted and hope to see the farmers of this county organize a league and afterward each township take up the good work.

Article 1.—The name of this organization shall be the Michigan League of Good Roads.

Article 2.—The objects of the organization shall be to awaken general interest in the improvement of public roads; investigate the best methods of building and maintaining them; aid in securing such legislation as may be deemed necessary to cause to be published and circulated such matter as may best promote these objects.

Article 3.—Any citizen of Michigan may become a member of this league by signing its constitution or giving his authority to the secretary to sign it for him. There shall be no initiation fee, nor any membership dues. Each member shall keep the secretary advised of his postoffice address.

Article 4.—The officers of the league

AUTHORITY MOST HIGH.

Senator Victor I. Spear's Grand Praise of Dr. Greene's Nervura.

Senator Spear of Vermont, with Everybody Else, Finds Dr. Greene's Nervura the Best Spring Medicine Possible to Take.

People at this season want to know what is the best spring medicine to take, what is the sure remedy to give them strong nerves, pure blood, and a healthy action of all the organs. Dr. Greene's Nervura blood and nerve remedy is just what the people want, just what the people are using everywhere, in fact.

They are taking Dr. Greene's Nervura blood and nerve remedy because they hear it recommended on every hand—the people say it is by far the best of all spring medicines.

Not one in a thousand of its cures are reported in the papers, and yet papers are constantly filled with accounts of its remarkable cures, and when a well-known statesman of national reputation like Senator Victor I. Spear, of Brainerd, Vermont, who has filled almost every high position in the gift of his state,—representative, senator, even to being candidate for governor: who was appointed by Governor Page a member of the Board of Agriculture and represented the State of Vermont at the World's Fair at Chicago,—when such a representative man tells that he from his own experience knows the wonderful health-giving powers of this repre-

sentative medicine, Dr. Greene's Nervura blood and nerve remedy, we feel that we only do an act of public justice in publishing to the world his strong words, so full of hope and encouragement of cure to the weak, tired, nervous, and run-down people.

Senator Spear says: "I have used Dr. Greene's Nervura in my family with good results. My wife was troubled with nervous debility bordering on nervous prostration and at the same time a trouble on her hands like eczema.

"The use of Dr. Greene's Nervura blood and nerve remedy produced very satisfactory results, healing the eczema and greatly improving the nervousness. We think very highly of Dr. Greene's Nervura blood and nerve remedy."

Take Dr. Greene's Nervura blood and nerve remedy this spring. You need it now. It will restore all your strength, power, vigor and energy. It will keep you well. It is a physician's prescription, the discovery of the noted specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City, who is always responsible for its action and who can be consulted free, personally or by letter.

shall consist of a president, a vice president, a secretary and a treasurer, who shall serve for one year or until their successors shall be elected and qualify. There shall also be appointed by the president as soon as may be, a vice president for each county in the state where a county league does not exist, and where a county league shall be organized the president thereof shall be vice president of the state league.

Article 5.—There may be organized in each county within this state county leagues to promote the same objects and to operate with the state league. There may be organized in each township a township league to promote the same objects. Such township leagues may act in co-operation with the county or the state league.

Article 6.—As this league is raised for public purposes it will rely entirely upon voluntary contributions from members or others interested in the object for such funds as may be necessary to pay for its publications and other necessary expenses.

Article 7.—The executive committee shall consist of the general executive officers and 12 other members, one from each congressional district, to be elected by the members of the league. The majority of the executive officers and five other members of the executive committee shall constitute a quorum to transact business.

Article 8.—The executive committee shall have control of the affairs of the league when the general board is not in session, but shall incur no debts, and there shall be no personal liability on the part of the officers or members of the league for league debts.

Article 9.—Meetings may be held at such points in the state as may be named by the executive committee from time to time.

Article 10.—This constitution may be amended at any meeting of the league. At all meetings of the league 20 members shall constitute a quorum for the transaction of business, and a vote of a majority of those present shall govern. By laws and other rules may be adopted from time to time as found convenient.

A SLIGHT MISTAKE.

The Eyes Sometimes Deceive

There are a number of experiences in real life from which interesting facts can be gathered. The treasurer of a large manufacturing concern, whose name need not be given for the purpose of this article, has been compelled to give up drinking coffee on account of its effect upon his stomach and nervous system. It was suggested that he try Postum Cereal, as that is made of the healthful grains and takes the place of coffee very nicely. He rather felt that it was a foolish step, to undertake to use any article with the expectation that it would take the place of coffee, which his family used of the best grade of Mocha and Java mixed. However, a package was ordered for the house, and the next morning at breakfast the coffee pot came on as usual; when the beverage was poured out and served to him he told the servant that he had ordered some Postum Cereal, a new drink, and did not care for the coffee. A laugh went round the table and he declined to believe that the rich liquid with the aroma and fragrance that reached his nostrils was the substitute. Investigation, however, convinced him of the fact, and its use day by day without the old sick feeling clinched the argument.

Postum Cereal has a winning way of its own, and when once introduced into the family it answers every purpose of the finest coffee without the attendant aches and ills. Being composed strictly and wholly of pure cereals there is no question or argument or possible doubt regarding the healthful and nourishing properties for children as well as adults.

News Which is Good News to Women.

It is a fact that our women who suffer from female complaints and are consequently weak, tired, nervous, dragged-out, and full of pains and aches, do not have the same opportunity to be cured as do the residents of the great cities where the most successful specialists in female diseases reside. In other words, our women are debarred from seeking a cure by the great and skilled physicians owing to the cost of travel to the large city and the high fees charged by such specialists.

Here, therefore, is a chance for the sick and suffering women of our community which should not be lost. Dr. Greene of 35 W. 14th st., New York City, who has the largest practice in the world and who is without doubt the most successful specialist in curing female complaints, offers to give free consultation by mail to all women suffering from these distressing weaknesses, discharges, pains, irregularities. You have the privilege of consulting Dr. Greene by letter describing your complaints and he will, after carefully considering your condition, send a letter fully explaining all your symptoms, telling you everything about your complaints so plainly that you will understand exactly what ails you. He will also give you his advice, based upon his vast experience and wonderful success in treating such cases, as to just what to do to get cured. All this will cost you nothing and you can thus have consultation with the best known and acknowledged most successful specialist in the world without leaving home and at no expense whatever. The doctor is the discoverer of that greatest of all known medicines, Dr. Greene's Nervura blood and nerve remedy, and he has discovered many other most valuable remedies. Write to him now about your case for this is a chance to get cured which you may never have again.

WASHINGTON'S BIRTHDAY.

[Miss Florence Babbitt recited the following poem at the Band of Hope meeting on February 22. It was written for her by her father, Judge J. W. Babbitt.]

A hundred years have almost passed since death has claimed its own, And yet he lives within our hearts—Our glorious Washington.

Our liberty was threatened by King George of England's throne; Fate raised this leader up for us, Our first, our best, our own.

He called upon his country's men To face the battle's din; They came and answered to his call; They pledged their lives to win.

In all the varying rounds of war, In battle or in camp, He served his men, they shared his board; He cheered their weary tramp.

Through Valley Forge's blood-tracked snows; Through many battles lost; Through wind and storm and summer heat, And winter's chilling frost,

He struggled with our country's foes, Till final victory; Then raised on high the stars and stripes—Emblem of Liberty.

He gave us as a heritage This banner proudly won; And millions yet unborn shall wave The flag of Washington.

At the Grand Opera House, March 20.

A moving standard drama, three accomplished dramatic stars, and a wealth of fine scenery, that may be at the Grand Opera House, Friday. The play is Julius Caesar, the stars Charles B. Hanford, Elibu R. Spencer and Nora O'Brien. The scenery of which there are separate sets, was painted by Voegtlin, Slemmer, Moses, and Albert, and there are few as clever scenic artists. The supporting company is composed of really competent and tactful actors. So that most enjoyable of all performances—one of even excellence—is assured.

The worth of the play itself is of such common knowledge that reference to it is needless. Mr. Hanford will appear as Marc Antony. Mr. Spencer will reveal the nice quality of his art in Cassius. While Miss O'Brien will bring girlish grace, sprightliness and charming personality and convincing dramatic talent to the character of Portia.

Sunset Limited Trains

Comprising: Composite cars—including bath-room, barber shop, cafe, library and smoking-room; Sleepers: Double drawing-room and 10 sections, also combined apartment and Ladies' Parlor Car, rivaling in perfection of detail all former achievements of car building on the Continent—especially designed for lady travelers; Dinners: Meals served a la carte. The entire train illuminated with Pintsch Gas.

Leaving New Orleans Semi-Weekly. MONDAYS and THURSDAYS.

THE SUNSET ROUTE

Is the first line in the United States to recognize that heretofore accommodations for lady travelers have been inadequate to the requirements. The ladies are more especially taken care of than in any cars heretofore built. Instead of being compelled to sit up all day in the "cubby" seat of a sleeper, while the liege lords may perambulate the train, and gather in a special compartment to talk, smoke, etc., one end of the budoir and drawing-room car accompanying each train is to have a special room fitted up for the ladies with library, the latest magazines and periodicals, reading couches and other needed comforts. These cars are sixty-nine feet in length and have seven budoir sleeping compartments, each with separate entrance and capable of being thrown en suite. Each compartment has two sleeping berths, a wash-stand and the necessary lavatory fittings, and opens onto a hall on one side of the car. A ladies' maid accompanies each train for the accommodation of lady passengers, more particularly for those traveling without escort. The train is also accompanied through from starting point to destination by an experienced and courteous representative of the Passenger Department, who acts as a personal escort.
