Let Everybody Come—

There being a general feeling among the citizens of Ann Arbor, that a Fourth of July celebration, one of the old-fashioned sort, would be a good thing for the city. A paper was circulated Monday afternoon and Tuesday morning and the following business men and firms united in calling a meeting to be held at the court house, on Friday evening at 7:30 o'clock, to make the needed arrangements, appoint committees, and do what is necessary to do to insure a successful event:

It has been a great many years since Ann Arbor has indulged in this luxury. So many that all our people are wondering why.

The time is short, quick work is necessary. Active men should be put on committees.

And those who are in the habit of hustling should take hold of this matter and push it for all there is in it.

Let everybody be present at the court house Friday evening. Appoint yourself a committee of one to attend the meeting.

### Hurrah For Our Country—

The sword that is keen from the scabbard that's bright.

In the cause of our country we draw; Then hurrah for the soldiers that battle for right.

And hurrah for our country—hurrah! Hurrah!

For the spirits leap out with the blade from its sheath, That flash like the lightning ye saw.

On the serfs that would trample the fame we bequeath; Then hurrah for our country—hurrah! Hurrah!

Hurrah! for the heroes, their blood they have shed For our fame—honor—liberty—law!

Does the foe think the spirit that moved them is dead? Oh, hurrah for our country—hurrah! Hurrah!

Do they think that the brave who at Concord were slain, And the valor that Lexington saw, Will never move hearts in the battle again?

Oh, hurrah for our country—hurrah! Hurrah! They've insulted our banner of the stars on the sea, And dishonored the weapon we draw;

Do they think they can trample the hearts of the free? Now hurrah for our country—hurrah! Hurrah!

Hurrah! Let us shout of fearless go forth, Cast the scabbard away as ye draw; In the West and the South and the East and the North,

Now, hurrah for our country—hurrah! Hurrah!

"I see, Tremper, that you have a new errand boy at your office."

"Yes, great boy he is, too; we call him that little dragoon."

"Because he's such a warlike fellow, I suppose?"

"Hardly, it's because he has to be booted and spurred before we can get anything out of him."

## Free Trade Illustrated—

Emery Leland, who is the supervisor of Northfield, represented that township on the board some 21 years ago. He says in making the assessment now he finds values considerably changed, for then the country had not recovered from the war and the increase in values caused thereby.

But the most noticeable thing that has attracted Mr. Leland's attention is the scarcity of sheep. He says there is only one man in the entire township of Northfield who has a flock of 100 sheep and upwards, where there were formerly dozens of farmers having from 150 to 250 in a flock, they now have either none at all or perhaps 25 or 30.

This change is the result of the suicidal policy of free trade, free wool especially, that the farmers were told would enhance the price of wool. With the flocks all gone, and no wool raised here at all to speak of, the price is the lowest ever known to wool growers in America. The experiment has resulted as the republicans always predicted it would, and the people, after having learned the lesson through experience, are satisfied that the republican policy of a protective tariff was right—eternally right for America.

Free wool means cheap wool and the entire obliteration of that branch of farm industry in the United States. Free trade means idle workmen, beggarly wages, cheap living, cheap men and women, everything cheap, even life itself—that's free trade.

## A Fine Point of Law—

On Saturday last the executive committee of the Maccabees, consisting of Mr. De Vere Hall, of Bay City, D. D. Aitkin, of Flint, and Thos. Watson, of Port Huron, were in the city, considering the claim of Mrs. Catharine Fillmore, whose husband was a member of the Order, but who forfeited his right to membership therein a few months before his death, by becoming a stockholder in a brewery.

The case has been to the Supreme Court several times, and has been sent back to the officers each time; the court claiming that all resources within the Order itself must be first exhausted for settlement.

What the officers want is for the court to rule on the proposition whether the fact of a person's owning stock in a corporation makes him a principal in the business. It is a far-reaching question, and the supreme court hesitates about deciding it, and takes the safe course of dodging.

The officers say they stand ready to pay over the money, in fact would rather do it than not, but they must obey the law of the Order unless the Courts shall construe it to be wrong. They can not set a precedent in any one case, no matter how deserving it may be, if it would establish a precedent that could not be followed. It will probably be some time before it will be settled.

## Don't Like the System—

A large number of our citizens, who have been made to suffer what they consider a great injustice in the sewer assessments, by reason of the plan of assessment adopted, which is the Henry George land value system, will think a long time before approving such a plan for general assessment purposes.

It lets personal property escape taxation altogether. The elegant houses and business blocks count as nothing.

The land covered by a hotel for instance, where sewerage is needed more than in an entire business block combined, only pays the same as the property next to it.

A lot 4x8 rods on Depot st., for another instance, in which a large boarding house is kept, only pays on an assessment of \$100 or \$200 because land in that section is not considered worth much, while a little lot 33 by 100 feet on E. Ann st., has to pay on an assessment of \$800, although there is only a small house on the lot and a small family of two or three in the house. And yet it costs three times as much to lay the sewer for the Depot st. house as for the Ann st. house.

## MANY NEW FACES

Will be Seen at the Coming May Festival—A Wealth of Musical Events.

SPLENDID ARRAY OF TALENT

The Soloists are Second to None now on the Stage, While the Boston Festival Orchestra is Better Than Ever Before.

All interest is now centering in the great May Festival to be held at University Hall, commencing next Thursday evening May 21st, and continuing through Friday and Saturday.

For the exchange of reserved seats slips for regular tickets to the coming May Festival the ticket office at the School of Music will hereafter be open from 9 a. m. to 6 p. m. every day. Ticket holders will please take notice.

From different newspapers throughout the country we have collected the following notices of the various soloists who take part in the May Festival, which commences at University Hall on Thursday of next week, May 21st:

FRAU KLAFSKY.

Of Frau Klafsky, who will appear here for the first time this year, the Minneapolis Tribune of Jan. 8, '96 says:

"Frau Klafsky, as Isolde, overwhelmed her audience with her powerful, well-balanced voice, at once so

FRAU LOHSE-KLAFSKY, as "ISOLDE."

warm, so passionate, so tender, so well calculated to give entire expression to the ardor of Isolde's love for Tristan, after it was once awakened. Not only was her voice—upon which the greatest demands were made from the opening of her role to its closing passages—clear and true and well controlled to the last, but her acting followed step by step the trying requirements of her part, and left the spectators, as the listener, nothing to ask. It may be said that Frau Klafsky is without any rival as a dramatic soprano in German opera. Her greatest work as an actress, in the role, was in the first act, when, after taking the love potion, her feelings underwent the transformation caused by her awakening compassion for Tristan. Here her feelings passed beyond the power of words to ex-

## FROM THE PEOPLE.

An Explanation Wanted and an Objection Placed on File.

That Catharine St. Opening—

EDITOR COURIER:—I noticed in last week's Courier an article about extending Catharine st. from N. Division to N. State st. The proposed extension would not be in line with Catharine st. on either end, and would not add to the beauty of the city. A wide street is certainly an advantage as a means of traffic, but we do not want another "Lovers Lane," as Ann st. from Division to State st. is commonly called. Nor do I think the citizens care very much for it, as the public from the eastern part of the city have to go south to go to the business portion of the city and the street on either side of the proposed extension is only three or four houses either way.

I have a house and barn on State st. standing in the way, which is both valuable and sightly, and as I have no desire to sell, would be a great loss to me.

Now Mr. Maynard owns all the land between my lot and N. Division st., and the opening of the proposed street would be of great pecuniary advantage to him, the proper thing for Mr. Maynard to do is to buy my property at a fair and remunerative price, then he and the city would have it in their own hands, and if the city chooses to help the enterprise for the benefit it will receive, it is their own business.

Editor Van Every of the Holly Independent, dropped his pen last Friday, and he spirit that moved it took its departure into the unknown beyond. He was well known among the profession in the state.

"The formation of trusts is becoming a feature of daily occurrence," says one of our trade exchanges. "How is that? Was it not announced that there was to be an end of trusts with the repeal of the McKinley law?"

The Massachusetts democratic platform places the responsibility for hard times on the last republican administration. This is not claiming much for democratic ability. A party that can not take hold of bad times and restore prosperity will be bounced, and bounced hard by the American people.

The Hillsdale county delegates who went down to the democratic state convention last week were not all satisfied with the declaration for sound money and the endorsement of the administration, the two most important actions of the convention. The silver men were whipped into line by the postmasters.—Jonesville Independent.

The farmers of the United States, almost as one man, have their ears turned toward the republican national convention, in the hope of hearing an expression upon the tariff and reciprocity that shall be explicit and to the point. They are all satisfied that a tariff does make a difference in the price of wool, and that reciprocity enhances the price of other farm products of nearly all kinds. They will not listen in vain.

The 16 to 1 idea is carried out by Senator Stewart, of Nevada, even in his own family affairs. On Saturday next, May 16, at 1 o'clock p. m., his daughter is to be married. The Senator fixed the time himself, and wagers are being made 16 to 1 that the affair will be a golden one. A wag suggests that there should be 16 girls to one boy among the grand children to have everything in keeping with the senator's idea.

# bruises

The wise farmer handles fruit very carefully. He knows that the bruised spots are the first to decay. So with your system. Don't let your cold continue. The hard efforts at coughing and the inflammation bruise the delicate lining to your throat and lungs. Disease germs like these bruised and weakened parts.

**Scott's Emulsion.** of Cod-liver Oil, with Hypophosphites, will soothe the cough, relieve the inflamed membrane, and tone up the whole system.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites. Insist on Scott's Emulsion with trade-mark of man and fish. Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby. SCOTT & BOWNE, N.Y. Chemists, New York

The friends of McKinley would like to see this ticket: "McKinley & Reed." Of course it doesn't please Reed as well as it would, could it be reversed, but it would be a hummer.

The Venezuelan Commission is proceeding in a very deliberate way, and will probably not be ready to make a report before next December; but meanwhile, it will be observed, England is carefully pursuing a policy of inactivity in the case, and so there is no reason for haste on our part.

It is proposed to send 40,000 unmarried women from eastern Canada to British Columbia, for the purpose of supplying the demand for wives. The same thing was once done by France, it will be remembered, for the benefit of the preponderant bachelors of eastern Canada, and the results were entirely satisfactory.

California's yield of silver last year was \$597,989, an increase over the preceding year of \$302,458. Silver at market rates must pay something after all. But, true to its historical and peculiar proclivities for gold California mined of the yellow metal last year \$15,334,317, an increase over 1894 of \$1,471,035. This is the stuff that California has always used for money, uses now and intends to use, but it is whoopingly enthusiastic for free silver outside of its own boundaries.

Some of our students and prospective students and teachers may be interested in this from the Michigan Moderator: "The one year course for high school graduates has been dropped from the curriculum at the Michigan State Normal School, students hereafter receiving credit only for work actually done. College graduates will hereafter be required to do a year instead of 20 weeks of professional work for graduation. Students taking the five year certificate course will not after this year appear on the stage at commencement time to take their certificates."

Considering that there were only four delegates to be elected to the national convention, the republican state convention at Detroit last Thursday was one of the largest and most enthusiastic in the history of the state. Hon. Chauncey M. Depew of New York, happened in the city that day and made a speech to the convention. He talked mainly on the currency question, he being for a gold standard only. The delegates to the national convention are: Gen. R. A. Alger of Detroit; Hon. Thomas J. O'Brien, of Grand Rapids; Hon. John Duncan, of Calumet; Hon. Mark S. Brewer of Pontiac. Alternates—C. S. Kelsey of Battle Creek; Henry A. Haigh of Detroit; George H. Kempf, of Chelsea; Rev. Isaac C. Washington of Port Huron.

Here is one of the best things ever written for parents. It is short, to the point, and every word is one that must set the mind of a parent to thinking if he has any mind or heart in him. It is taken from the Grange Visitor: "Are you going to take that bright twelve-year-old boy out of school to make him work? Can't afford to keep him there? But what about the boy? Isn't he of more importance than you? When you stop to consider the opportunities he has in this great land, do you really think you can afford to keep him from school? What's a boy for, anyway? Is he a slave of yours? Do you own him body and mind? Of course there are two sides to this question, but fathers, think hard and plan unselfishly before you tell him you need the labor of his young hands more than he needs a good education."

J. Blair Simpson, the justice of the peace of Detroit, who had two or more trials for assaults upon women, and escaped conviction, but who at last found a jury that thought him guilty, was sentenced last Saturday by Judge Hosmer, to six years in state prison at Jackson, for an attempted assault upon Miss Anna Howlett, a young lady who had no relatives. That fact he no doubt took advantage of in his mind, believing there would be no one to prosecute. Those who have read the testimony believe this sentence to be an act of justice. If there are any official positions in the United States to which pure men should be chosen, it is our judiciary, from the humblest justice of the peace to the highest judicial tribunal in the world, the supreme court of the United States. As a general thing good men are selected, but a occasional black sheep gets in, and when he does there should be no compunction in making an example of him. Mr. Simpson's sentence is none too great if he be guilty of the conduct alleged, which 12 of his fellow citizens upon their oaths believed him to be. And many will consider it a light sentence. It is enough to be a warning to future officials to behave themselves. He was taken through this city Monday morning, and is now at the state prison.

## SOME OF OUR EXCHANGES.

If it were true that Willard Stearns looked like his alleged portrait in the Evening News, any officer meeting him should feel justified in running him into jail without a warrant, and not feel that he was taking any chances on false imprisonment.—Monroe Democrat.

A very stern but truthful putting of a fact.

The voting machine of ex-legislator Abbott, of Hudson, has achieved much fame since the April election at which its speed and accuracy were tested. Abbott however is a republican. What is needed is a machine that will show a democratic majority, otherwise we stand opposed to the thing.—Monroe Democrat.

That's the way they feel down in Louisiana, Mississippi, and other southern states.

Our own Don M. Dickinson may yet loom up, as a favorable democratic candidate for president. If he does, it will not be through any effort of his own, but as a spontaneous tribute of the democracy to his leadership, abilities and availability as a western candidate who is not purely a sectional one.—Ann Arbor Argus.

Mr. Dickinson would make a vast improvement on the present incumbent, but the fates have declared for Wm. McKinley for that position next time, no matter who is nominated by our friends the democrats.

The gist of one of the great causes for financial disasters and hard times is told by the Enterprise:

"When sifted thoroughly, the credit system is at the bottom of every financial disaster. Wholesalers borrow from the bank and sell goods on time to the retailer, who sells on credit to the consumer. The consumer buys so liberally that he cannot pay the retailers, and the wholesaler can not pay his banker; the bank fails and depositors cannot get their money; confidence takes wing; those who have money will not spend it; there is no work, no market and there is a panic. Cash up and no grumbling, should be a universal motto. If every man would pay spot cash for what he buys, there would be no loss of confidence, no locking up of money and no panic. Everything would be lovely no matter how the goose hangs."

The Ypsilanti registers a vigorous kick over the proposed cutting down of the plans and the substitution of cheaper materials in the erection of the new Manual Training School building in that city, and says:

"Ypsilanti added by free gift more than 33 1-3 per cent. to the amount given by the state, not for the purpose of erecting what, if the plan is carried out, must result in a miserable abortion of a building, built of cheap material and without symmetry or beauty of any kind. The city gave her \$8,500 for a complete structure built a trifle better model, should be erected, and be an ornament and not an everlasting eye-sore to the public."

Wanted—Information that will lead to the apprehension of the Michigan Press Association. When last heard from it was attending a bull fight in Mexico.—Northville Record.

They were in at the finish, as usual. Returned home safe and happy, and now stand adjourned. Is anything further necessary?

Socialism, communism and nihilism, mean, "Too wicked to acknowledge God, an idler lazy to earn a living."—Ypsilanti Commercial.

Which is the best definition for those species, so far given out.

A charming little lady came a very slick trick on our ticket agent one day last week. She arrived at the depot fully fifteen minutes before train time and seemed lost in deep study. She never made a move to purchase her ticket until the train had stopped in front of the door when she rushed to the window and asked for a ticket to Albion. Mr. Liesemer stamped and handed her a ticket, whereupon she laid down a handful of pennies and boarded the train, and before he could count the money the train was bearing the fair damsel toward her destination. The agent finally got counted and to his surprise found that he was several cents short. Hank has always been quite a friend to the ladies, but says that hereafter he will either hang on to the ticket or girl, until he gets the change counted.—Springfield Signal.

Our experience with newspapers is that they are, in the words of the Monroe Democrat, liars.—Daily Time.

That's a pretty broad assertion, or else Bro. Liesemer's experience has been more limited than we thought for. Our experience has been the reverse. We have found newspapers generally truthful. There have been times, to be sure, when papers have been untruthful and even unscrupulous in order to attain certain ends, but such instances are rare exceptions. On this point we might say that we believe the Times is always proud to be on the side of truth.

The leading article in Godey's Magazine for May is "Seeking For Ends of the Globe," by Rufus R. Wilson, being account of the divers polar explorations parties that are in the field or will be this summer. The paper is illustrated and the account is given in a most graphic style; and the recent reports of Dr. Nansen, and the fact that Prof. Andree is just starting out on his attempt to reach the North Pole by balloon, give additional interest. The troubles of the ruling house of Italy gives timeliness also to an article on the personality of Queen Margherita. Finally, a stirring piece of fiction called "A Belligerent Cuban," by G. E. Walsh, acquires interest from the very general sympathy in this country with the cause of the Insurgents.

Harper's Weekly for May 2 contains an article on the Squadron Drill of the vessels of the U. S. Navy at Hampton Roads, illustrated by a double-page and a front-page drawing by Carlton T. Chapman. There was also a preliminary article on the General Conference of the Methodist Episcopal church, with a page of portraits of the most important Bishops, officers, and delegates; and an especially timely article was devoted to the development of the garden truck industry in the south.

Look at the people you pass on the street. Their faces tell the story of their lives. They tell the story of penury or plenty, of refinement or coarseness, of health or disease.

Three-fourths of these people are not "exactly well." They are not all "sick," perhaps, but many of them are, and few are quite hale and hearty. Consumption has set its stamp of pallor and emaciation on many of them. Dyspepsia has drawn lines of fretfulness and worry about their eyes, and mouths. Impure blood is showing itself in blotches and pimples. One man has "a little trouble" with his kidneys. Some of the women have chronic constipation, and the other ill that constipation brings. The most painful of all diseases, it is a creeping disease. It comes on gradually under cover of a hundred differing symptoms. It is the most dreadful of all diseases, but it can be cured if you begin in time. Dr. Pierce's Golden Medical Discovery will cure it. It will cure all the things that lead to consumption. It is not guaranteed to cure consumption of long standing. There is a stage at which consumption is incurable.

If you send 21 cents to cover postage and wrapping only, we will send free a book of 1000 pages that tells exactly what "Golden Medical Discovery" will do—what it has done in hundreds of cases. World's Dispensary Medical Association, Buffalo, N. Y.

Vagrant cows are causing trouble with Manchester gardens.

The Grass Lake R. A. M's expected to visit Manchester last evening and confer the Royal Arch degree.

Manchester has a merchant who has been in business there for an even 60 years. His name is Wm. Bexter.

Judging by the published report of the Pinckney council, in the Dispatch, it takes two members to make a motion.

They have but five saloons now in Chelsea, and the Standard thinks they will be able to stand the reduction all right.

From all over the county comes reports of wonderful fruit prospects. It is hoped that nothing will happen to them.

A. F. Freeman is to erect a public watering trough in front of the Freeman House, Manchester, similar to the one in front of the court house in Ann Arbor.

The marriage of Miss Mary Ellen Armstrong to Mr. Alton Elwood Fletcher, is announced to take place Thursday evening, May 14, 1896.—Chelsea Standard.

The entire teaching force of the Manchester schools has been retained for the coming year, except Mrs. Hall, who will teach no longer. Miss Henrietta Weir will take her place.

The Washtenaw Times mentions a lawsuit in which "objections were thicker than the skull of a populist." Hon. Gus Peters, of Scio, will you sit there and bear that?—Monroe Democrat.

The Manchester Enterprise says that they are talking about having an old fashioned 4th of July celebration in that place. That's right. Uncle Sam's birthday should always be a great event in the minds and hearts of the American people.

It takes a whole column of the Manchester Enterprise in which to publish the names of the pupils of the Manchester schools which are upon the roll of honor. The average daily attendance of 333, out of a total of 336 is something to brag about.

Charles Merritt of Ypsilanti town, reported dead by the Ypsi newspapers called on the editors last week and denied the truth of their statements. He is one of those smart fellows who think they know so much more than a newspaper.—Monroe Democrat.

Dr. C. F. Ashley, who had been a resident of Ypsilanti since 1849, died at Mayville recently, aged 80 years. He was a single man, having been disappointed in love, it is said, in his early days. He belonged to the M. E. church, the Masons and Odd Fellows.

Mr. Inch lives in Pontiac. Until he showed up, the shortest man on record was "Bilddad the shoe height," mentioned in Job—that is, if we except Simon Peter, who said, "Silver and gold have I none," and he didn't dare say he was "short" of a nickle.—Monroe Democrat.

Howell has a singular case, where-in a wife sues a husband to recover \$4,000, money she claims to have lent him. He claims as an offset that her actions have been such that he "could make no calculations in his business for the past eleven years, or as to his crops, team, work out doors or in the house, and mental anxiety and worryment," and considers those facts worth the \$4,000. And yet the parties, Mr. and Mrs. Cameron, both live in the same house.

## DON'T STOP TOBACCO

IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. Ask your druggist about BACO CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An iron clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure), \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco Curo" simply wonderful, and can fully recommend it.

Yours truly, C. W. HOENSTOCK.

## FAILURE IN BUSINESS.

### Little Habits Gnaw Big Holes.

A large number of men are unsuccessful in their business because of some small habit or habits that rob them of the vitality necessary to push a business as it should be.

The man who is thoroughly well and can plan with a clear brain and work out his plans with a healthy body, is the one who will be in the p rocession when his neighbor has to drop out.

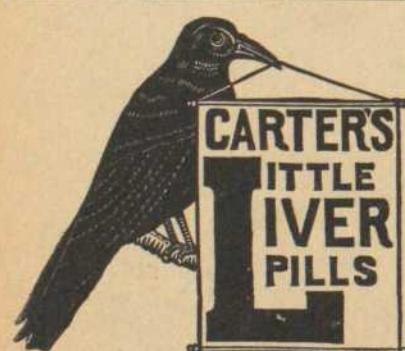

Some men can stand hurtful habits better than others, but when one finds out that he is ailing a little each day, let him remedy the trouble and have the machine work right, for that is the sure road to riches and happiness.

Dr. J. R. Pennington, Chicago Summer School of Medicine, 103 State st., Chicago, says: "The Postum is received brewed and used up. I like it very much. The only criticism I have to offer is that it did not last long enough."

Coffee interferes with the digestion of many people who find it hard to give it up, although they know it hurts them. It is easy to do without coffee if one can have Postum, the grain coffee. This has the deep seal brown color of Java, and changes to the golden brown of thick Mocha when cream is added. It is made of the pure grains, wheat, etc., and is nourishing and fattening, and is true health coffee. It can be drunk at every meal without any of the ill effects of coffee. Made by the Postum Cereal Co., Limited, Battle Creek, Mich.

There is but one genuine original Postum Cereal coffee, with a multitude of imitations offered as "just as good."

The spring flowers have hastened on so rapidly this year that it looks very much as if we should have roses for Memorial Day. The flowers that are usual for that day, Lilacs, Iris, Honeysuckle, Forget-me-not, etc., will all be gone by that time, and those that usually bloom some two or three weeks later will be in their glory.

## A MIDDLE-AGED LOVE STORY.

With every tick of the clock, my dear, Two days gliding by, And the skies are blue and our hearts are true, And there's love in your laughing eye. And never you care if the silver hair Steals into each golden lock, For your heart must know you dearer grow With every tick of the clock.

With every tick of the clock, my dear, We drift from the shore of youth, And we swifter glide on the broader tide Of the grander sea of truth. The flight of time but smooths to rhyme Life's every grief and shock, And we nearer grow in love's glad glow With every tick of the clock.

An injunction has been issued out of the circuit court for Kalamazoo county against the executors of the estate of the late Elijah W. Morgan, and also against Mrs. Lucy D. S. Parker, both individually and as executrix of the estate of Franklin L. Parker, enjoining them from selling a large lot of real estate in this city and vicinity. Mrs. Lucy C. Eames, a sister of the late E. W. Morgan, made the application. This will again tie up a lot of property in the city for an indefinite period.

Some time during Friday night, Thomas Mahon, a member of the senior law class was run over by the cars at West Detroit, and had both feet cut off at the ankles. He was found Saturday morning by a breakman, still alive, but unconscious, and was taken to the Detroit Sanitarium, where it was said the young man could not survive. He is 22 years old, and his parents live at 20 National ave., Detroit. He roomed at No. 14 N. Thayer st., in this city.

Miss Carrie Minor was taken sick on Saturday last, and though for a time nothing serious was thought of it, her disease suddenly became so dangerous that a council of physicians was called. They decided that the only chance of saving her life was by a difficult surgical operation for strangulated hernia. This was accordingly done on Wednesday by Dr. Owen of this city, and Dr. Darling, of Ann Arbor, with complete success, as Miss Minor is rapidly recovering.—Ypsilanti Commercial.

## A President on Brandy "for Sickness.

The President of the Baltimore Medical College, Dr. Byrd, who has thoroughly tested Speer's wines, etc., says: I have prescribed Speer's Port Grape Wine with marked and decidedly beneficial effects. I am prepared to bear testimony to the value of his Climax Brandy, also, as a pure and valuable article in all cases of disease in which a reliable stimulant is required. I would be happy if I was instrumental in inducing my fellow citizens to patronize these productions, to the exclusion of the harmful, adulterated wines and brandies with which our people are often injured.

## The Ideal Panacea.

James L. Francis, alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds, and Lung Complaints, having used it in my family for the last five years, to the exclusion of physicians prescriptions or other preparations."

Rev. John Burgus, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal church for 50 years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Farmers and gardeners should carefully investigate the local market and see if there isn't some crop they can grow which has in the past been supplied by growers in other sections of the country, and imported. The local vegetable and fruit market is seldom supplied altogether by local gardeners and farmers.

How many of the overseers of highways in townships are aware of the provision of law that an overseer may allow 25 per cent. of hte road work in vetting out trees? And that he shall cause at least 50 to be set out in the district? If this wise law was complied with, as it should be, our highways in the rural districts would soon be beautiful shaded thoroughfares. It is a good law and ought to be enforced.

This is a busy time with farmers, and in consequence there is but little stir in the city. It is all right, however, for the better the farms are worked, the more profitable will be the result, and the more money there will be for everybody, for the earth is a source of wealth for all.

A yellow flower will not be affected in any way by the charcoal."

City Assessor O'Hearn has completed the assessment of the city, having traveled continuously every day for seven weeks. He says there are fewer transfers of property than last year and that the increase in real estate, new residences, buildings, etc. will be less than last year, and the indications are that next year the increase will be still less. He thinks Ann Arbor has plenty of residences and buildings of all kinds for its needs. The demand does not warrant further growth at present.

The treasury of the Woman's Charitable Union is entirely exhausted. During twenty-eight years the work of this organization has been carried on. The question now arises, shall it be given up and all care of the poor be turned over to the city authorities? The decision in the matter rests, not with the officers of the Union and the members of the ward committees, but with those who, by the payment of the annual fee of one dollar, or by special contributions, enable the work to be maintained. The officers desire simply to acquaint the public with the facts and await guidance for their future action.

The fact that R. S. Greenwood, who for a number of years has been the agent at this station for the Ann Arbor Railway, has received notice of a promotion which is very gratifying indeed. The Railway is to establish a commercial agency at Pittsburg, Pa., and has selected Mr. Greenwood for the place. The promotion is merited. No better man has ever handled the business of any similar corporation in this city. Always alive to his employer's interests, he is seldom left in the race for patronage. The business men of our city, almost without exception, will regret to have Mr. Greenwood leave here as he has been such a pleasant man to do business with. It is altogether probable that he will remain in Ann Arbor through the coming month, as it would be next to impossible for any new man to step in and handle the passenger traffic especially, of that month.

One tiny birthday, and baby can walk. Two bony birthdays, baby can talk. Three merry birthdays, baby can run. Four gaily birthdays, childhood began. Five happy birthdays, learning to spell. Six sunny birthdays, reading quite well. Seven perfect birthdays, childhood is past. Eight joyous birthdays, "girlhood at last!" Nine precious birthdays, the happiest time. Ten flowery birthdays, life all a rhyme. Eleven bright birthdays—never to see— Twelve more sweet birthday so care-free and free. Thirteen and fourteen fly away feet. Fifteen and sixteen, maidenhood greet. Seventeen and eighteen, halcyon days. Nineteen and twenty, Cupid's sweet maze. —Rochester Union and Advertiser.

The Eastern Stars danced together and made \$12 at Ann Arbor recently. It is estimated that the average waltz is about a mile long, and as they had 24 of them, in which 60 people participated, that was 1440 miles for a dozen dollars. Some unknown bills came in and reduced the surplus, so they didn't make much over \$4. But they had an awful nice time.

### "In the Beginning,"

Of a new year, when the winter season of close confinement is only half gone, many find that their health begins to break down, that the least exposure threatens sickness. It is then as well as at all other times, and with people even in good health, that the following facts should be remembered, namely: that Hood's Sarsaparilla leads everything in the way of medicines; that it accomplishes the greatest cures in the world; has the largest sale in the world, and requires the largest building in the world devoted exclusively to the preparation of the proprietary medicine. Does not this conclusively prove, if you are sick, that Hood's Sarsaparilla is the medicine for you to take?

## SINFUL HABITS IN YOUTH

LATER EXCESSES IN MANHOOD  
MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexertion of mind and body induced by lust and exposure are constantly wrecking the lives and futures of thousands of promising young men. Some fade and wither at an early age, the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life:—The farm, the office, the workshop, the pulpit, the trades and the professions.

### NEW YORK FASHIONS.

Grass Linen Dresses—Organdies—  
Ribbon Sashes—A New Bicycle—  
June Weddings.

The majority of new grass linen costumes are made with plain skirts finished with deep hems, and this is sometimes obligatory in order to show off the floral figures and leaves with which some new patterns are stamped, or the gay colored silk stripes, forming beautiful and varied plaids. Plain grass linen over silk yet remains very stylish, and two rows of insertion at either side of the skirt; two forming the front breadth, and the remaining two nearer the back, obviate anything like extreme severity. The lace striped varieties of grass linen, show to great advantage over colored linings; and when one does not feel disposed to purchase silk, a good quality of sateen answers every purpose.

Clouded Figures on the chine order, contrast prettily with the gray linen surface, and the colored lining is usually in keeping with the predominating hue. Too much trimming can scarcely be put upon the waists, and besides a broad plait down the front edged with lace, wide lace is often put at either side and over the sleeves. Tucks and narrow lace often make up the lower part of a summer waist, but wide lace is almost essential on shoulders and sleeves. Organdies are very much in favor also, and narrow or wide ruffles on the skirt finished with lace, are as universal as silk linings.

A very wide puff to the elbow is the reigning sleeve for all thin fabrics, at the same time a few "leg o' mutton" sleeves appear, and also an occasional coat sleeve, with a drooping puff, not quite reaching to the elbow. A ribbon band and bow with a lace frill, are the necessary requisites to an elbow sleeve. Sash ribbons are extremely handsome this season and with plain grass linen dresses plaided or flowered sashes are a great set off; but with figured organdies plain satin or taffeta ribbon sashes are most appropriate. Eleven inches is about the extreme width, and the bow at the back is tacked in position with a hook and eye on the under side. Chine or flowered ribbon should be used and not saved, as the fancy for it is so extreme that it cannot be of long duration.

It scarcely seems probable that one skirt can be made to do duty for mountain excursions, golf, tennis, skating, general street wear, and also for bicycle riding, and yet some mysterious drawing strings, inserted on the inside, and coming to the surface through eyelet holes, fastening with automatic catches, work all these various changes. In a twinkling the skirt can be drawn up to form either bloomers, or partial bloomers, affording perfect freedom to the motion of the knee, and at the lower edge of the skirt, both front and back, are two small pockets for lead weights, which are transferred to pockets on the hips, when off the wheel. This skirt is intended to be worn over loosely-fitting knickerbockers or bloomers, with leggings, Scotch stockings or knee-high boots, and made of soft materials, of any solid color or mixed shades. Thanks for information are due Messrs. Hulbert Sons, & Co., of West 23d St.

The initiated say that white silk muslin over a silk drop skirt, will to a considerable extent supersede satin for June weddings; and certainly there is an airy softness about muslin, while satin always has a hard, stiff look, no matter how much lace is used for trimmings.

Muslin skirts will be at least seven yards wide, and waists every full, cut square at the neck, and filled in with chiffon, lace or tulle. Orchids or lilies-of-the-valley, are now more often seen than orange blossoms, and the bridesmaids may carry bouquets of white daisies.

## Don't Like the System—

(Continued from first page.)

There is something in that plan which certainly does not look right. The property ought to be made to pay in proportion to the cost in laying the sewer in front of it, if the needs of the building occupying the property assessed cannot be considered. Which many people believe ought to be taken into consideration.

## A Generous Friend Needed—

Regent Barbour, of Detroit, has very generously offered to increase his gift to the woman's gymnasium, of \$15,000 to \$16,000 if the women will raise the required \$15,000 by the end of the college year.

By small donations and by entertainments, etc., the ladies have succeeded in raising the surprising amount of \$6,000, so that with Regent Barbour's extra \$1,800 it leaves \$8,000 yet to raise by July 1st.

It seems as though there ought to be in this great state of Michigan some eight or sixteen persons, sufficiently interested in this strictly woman's building, to give the amount lacking.

It will be impossible to raise so much in so short a time by small gifts such as have been received so far, and if some wealthy person does not come to the relief of the ladies, they will have to lose this generous offer.

## Everyone Should Attend—

Seats are now on sale at Sheehan's book store for the Comedy Club next Saturday night, of Sardon's three-act play, "A Scrap of Paper." A great many tickets have been disposed of and there is every probability that a large audience will be in attendance. Aside from the interest in the play itself, which is almost too well known to need particular mention, and in the fact that it is to be acted by young ladies and gentlemen well known in the city and University, there is a second interest owing to the performance being given for the benefit of the Woman's gymnasium. Apart from the actual expense of producing the piece the entire proceeds of the entertainment will be turned over to the guardians of the gymnasium fund. For this reason if for no other the performance should be favored with the patronage of all students and citizens who are interested in the erection of a gymnasium for women. The young ladies and gentlemen who will act "A Scrap of Paper" next Saturday night have all had experience as amateurs and no one of them is a tyro. Many of them will be remembered for their excellent work of last year and their appearance in the coming performance is an assurance that the entertainment will be better than the ordinary. The cast is composed of Misses Bessie and Dix Dunster, Louise Barnes, Veva Duffy, Gertrude Devine, Katharine Portri, and Messrs. James Handy, Karl Harriman, Tom Weadock, Arthur Smith, Rob. Bourland and Edward de Pont. Admission 35, 50 and 75 cents. Seats on sale at Sheehan's.

## A Formidable Candidate—

Congressman D. D. Aitkin, of Flint, while in Ann Arbor on Macabee business last Saturday, put in an hour or two in company with a couple of his old-time republican friends in meeting some of the republicans of the city. Mr. Aitkin is one of the kind who creates a favorable impression. He is a good talker, and has that peculiar magnetism about him that attracts people. He will certainly prove one of the most dangerous—for the other candidates—competitors in the gubernatorial race that there is in the field.

He is one of the sort who never leaves a stone unturned when he goes for anything, and he is in this race for victory.

Mr. Aitkin would no doubt greatly assist the republican county ticket in this county, because of the stand he has taken on the silver question. He is a man who has had the courage to stand by his convictions while in congress, which can not be said of every congressman. There is one thing certain, Mr. Aitkin would make a good, broad-gauge governor should the people of this state see fit to elect him, one who would do what he believed to be right, and while insisting upon an economical administration of the affairs of the state, he would at the same time pursue a liberal policy toward all its great educational and charitable institutions.

The republican party could go further and fare much worse than to select him as its standard bearer in the coming contest this fall.

We do not believe in his free silver ideas, but would not be sorry to see him elected governor because it does not affect any financial interests of the country whether the Governor believes in 16 to 1 or 30 to 1. His somewhat radical views on the silver question would have less weight at Lansing than as congressman.

## The Time for Building.

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve Tonic. Hood's Pills become the favorite cathartic with all who use them. All druggists. 25c.

## They Were Both All Right—

The investigation ordered by the council into the affairs of Justice Gibson and Marshal Peterson, as to fees and fines collected by them, has been completed, and it is unofficially given out that the committee finds everything all right.

It looks to an outsider as if there had been undue haste in this matter, and by it a taint had been placed upon the good name of these two officials.

The law requiring justices to report each month and turn over all fines collected, is a comparatively new law, and one with which Justice Gibson was not familiar. The docket as kept by him was found correct and all the money due the city from fines was in the bank, ready to be turned over at any moment.

In the case of Marshal Peterson it was found that he had correctly reported and turned over all fees due the city.

In justice to these two officials, who have been proven honorable and upright, would it not have been better for all concerned, to have told them what rumors were in the air, and given them a chance to explain the suspicious features, instead of jumping on them as has been done, and being obliged to retract?

## Michigan's Fine Record—

Michigan has the best record of any state in the union, with the single exception of Maryland, in the matter of reasonable state expenses. This fact is shown by a review of the increase of state government expenses in the several states as compared with the increase in taxable property and population, taken from the Orange Judd Farmer by the Michigan Grange Visitor. State expenses have increased more rapidly in every other state in the union from which a report is given, with the single exception above referred to, as compared with our own glorious old state, and yet no other state in these United States has more to show for its expenditures in the way of grand and superior state institutions, public buildings and educational interests, than has our peerless Michigan. Reflect upon these facts, ye carpers and ye critics, who are endeavoring to make the theme of state expenses a cause for complaint against the republican party of this great state. Calamity howlers ought to compare the course of their own state with that of other states and then thank their Maker that Michigan is their home and that its affairs are directed and controlled by the republican party.—Huron Times.

## A Patriotic Sentiment—

On Thursday evening last, Germania lodge, and Friendship lodge D. O. H., celebrated the 49th anniversary of the founding of the order, by devoting the evening to appropriate ceremonies. In his address John Mayer uttered these patriotic words:

"We are in free America, a collection of nations. We are descendants of a people that have a history and have remained a race for over two thousand years. It is in order to study the civilization and the literature of the Teutonic race and to lend a helping hand to descendants of Germans in free America that our order was founded. Let it be understood that we are Americans. We owe no allegiance to foreign potentates and powers. Every citizen of our union is true to its flag and must be always ready to fight for it, whether right or wrong."

## Old Barth Very Speedy—

Everybody knows that the earth makes one complete revolution on its axis once in twenty-four hours. But few, however have any idea of the high rate of speed at which such an immense ball must turn in order to accomplish the feat of making one revolution in a day and a night. A graphic idea of the terrible pace which the old earth keeps up year after year may be had by comparing its speed to that of a cannon ball fired from a modern high pressure gun. The highest velocity ever attained by such a missile has been estimated at 1,632 feet per second, which is equal to a mile in three and two-thirds seconds. The earth in making one complete revolution in the short space of twenty-four hours must turn with a velocity almost exactly equal to that of the cannon ball. In short, its rate of speed at the equator is exactly 1,507 feet per second. This is equal to a mile every three and six-tenths seconds, seventeen miles a minute.—Ypsilanti Commercial.

## Why Jury Duty is Detested—

On a jury in Justice Gibson's court the other day were three prominent business men of this city and one newspaper man. The other jurors were excused, and both sides consented to try the case with four jurors instead of the usual number, of six.

In the first place these jurors were summoned to appear at 1 o'clock, at least two of them did so, but the case was not ready for trial until after 2 o'clock. The attorneys, officers and justice appeared to have difficulty in getting things ready for business until over an hour of time had been fooled away.

Then after the case commenced there seemed to be unnecessary delays, upon one side at least, in finding out what the witnesses would swear to. The trial held on until about 5 o'clock. Then the judge charged the jury and they retired to consider the matter which was a horse trade, in which it appeared by all witnesses that one horse was better than the other—which is most always the case in a horse trade. The jury took a vote and found that they did not all think alike. They then each told what they thought about it, then balloted again, and found that no one had been convinced by arguments on either side. They talked some more, they balloted some more, but all to no purpose.

Then they filed out into the court room and reported to the judge that they had agreed to disagree.

The judge looked at his watch, passed his hand over his stomach, remarked that it wasn't supper time yet, and he believed that the jury better go back and argue with each other a little longer.

Back went the jury. They argued a little more, they balloted again, only to find the same condition of affairs as existed at first. It was very evident that there were some stubborn men on that jury. After a half hour spent in the enticing precincts of the justice's boudoir, they filed out once more and reported again to the judge that they were unable to agree. After being properly polled and each one asserting that it was impossible to reach a verdict, they were finally thanked in a few choice words by the presiding judge, and told they could step out into the air once more as free men—for during all this time they had been under the surveillance of an officer.

It had then reached the hour of about 6 o'clock. Each member of the jury was paid for the afternoon's work 50 cents!

Of course it is the duty of every good citizen to act in capacity of a juror. It is not a desirable task, but it is a duty which devolves upon him as a free man in a free country. But here were four men who had no time to waste. They were all busy men, and in the habit of doing things promptly. Had the lawyers and parties to this suit been ready at the hour set, and had gone right forward with the case without any dallying there would have been little or no objection to the duty. It was the time wasted more than the rendering of a decision in a dispute that was objected to.

And this reminds the writer of a little conversation that occurred not long since. A number of people were talking about the verdict of a jury in which Mr. Sawyer had been engaged upon one side as the attorney. One man thought it singular that he should be so lucky, to which another answered that there was no luck about it, it was hard work that gave him success. "I have watched Mr. Sawyer in court," said he, "and have noticed this fact, that he seldom enters upon the trial of a case until he knows all about it. He knows the whole story; knows the witnesses and what they will swear to and what they won't swear to; he knows just how far to question them and just where to stop, so that he is seldom surprised by unlooked for testimony from his own witnesses; and he has gained a sufficient knowledge of people in general so that he knows how to handle a witness for his own benefit. All this takes hard work and time, but it has paid him, and any lawyer who does it will be successful."

The gentleman was right. The lawyer who has a knowledge of his case and of his witnesses, and is ready for the trial, is nearly always successful, while the lawyer who trusts to luck and goes it blind is usually beaten, though he may have the best

side of the case.

This is an illustration to young lawyers that they can profit by it if they are so inclined.

## Strange Photography.

I have read, with the comments thereon, the account of the spirit photographing of a child's foot upon a window glass. It has something equally strange to offer. My father-in-law, Mr. Emanuel Ryder, lives a trifle over two miles north and east of here. He and his family are staunch Spiritualists. In the fall of 1879 they had a valuable horse called Nellie, which was quite a favorite. It took sick with colic, I think, and just before it died it sat upon its haunches with the forelegs hanging down, then dropped over dead. Although the day was clear the sun did not shine on that (the west) side of the house, a few rods from which, in front of a window, the horse died.

About five months afterward the lower right-hand pane of glass in the lower sash of that window began to look smoky, and when the sun shone direct on the glass the correct picture of the horse was depicted in the sitting posture mentioned. This remained so for ten years. In the fall of 1889 the glass became clear, and the picture faded away, and in place were five even diagonal lines, which remained about six months and disappeared. The glass began to look clouded or smoky again, and the profile of the horse appeared as before, and is there to this day. It does not look like a flaw in the glass, but as if pictured in the glass. When the sun does not shine in a direct line on the glass the image cannot be seen, but in the night, if a light is held against the window, it can be seen by a person on the outside, and vice versa. This picture has been seen by hundreds, and is apparently a mystery to everybody. The fact of this phenomenon remains just the same, but the query is open for answer: How, why and by what was the picture of that dying horse photographed on that window pane?—Ney (O.), cor. of the Progressive Thinker.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend upon what he gets out of his food. This depends on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headache, sour stomach, flatulence, dizziness, biliousness and "heartburn." The Pellets are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping.

## Deceived by Appearances.

Some visitors going through a county jail under the escort of the chief warden, came to a room in which three women were sewing. "Dear me," one of the visitors whispered, "what vicious looking creatures! Pray, what are they here for?" "Because they have no other home. This is our sitting room, and they are my wife and two daughters," blandly responded the chief warden.—San Francisco Argonaut.

## First Sunday Excursion of the Season to Toledo May 17th.

Lake Erie Park and Casino, Toledo, which proved such a popular resort last season for Michigan people, will be opened Sunday May 17th on a scale of magnificence unequalled even by the most celebrated watering places of the East.

Since the park was closed last fall, workmen have been busy remodeling and improving the grounds and buildings, and so well has the work been performed that it is now conceded to be the most beautiful resort on the chain of lakes.

The following program has been arranged for the opening and will be free to patrons of the Ann Arbor R. R. excursion:

The Famous French Aerial Artists. The Most Daring Life Leapers in the World. A Dream of Beauty. A Marvel of Brilliance. Diana. The Queen of Electricity. In Her Wonderful Fire Dance. ## New Trains on the Ann Arbor.

The Ann Arbor R. R. Co., expects to change time about May 17th, and will put on two new night trains between Toledo and Frankfort. These trains will carry sleeping cars, one of which will leave Toledo daily at 7:45 p. m., arriving at Frankfort 8:50 the following morning; the other will leave Frankfort 7:30 p. m. daily, arriving at Toledo 8:55 a. m. The sleeping car fares will be \$1.50 for lower and \$1.00 for upper berths or \$2.50 for a section. The public have for a long time been demanding a reduction in sleeping car fares and it is hoped they will show their appreciation of this innovation on the part of the Ann Arbor R. R., by giving the new trains a generous support.
