## The Verdict

Said Mr. M—the other day: "I want one of your seamless hot-water bottles that you warrant. I had one of them and it lasted six months with constant use. I bought two at — and they gave out very quickly."

We can give you the man's name if you want it. These bottles will last two or three years with ordinary use.

CALKINS' PHARMACY.

### No more Free dings for Him—

A German farmer in Scio, seems to understand the situation pretty well. A populist democrat was talking free silver to him the other day when he turned and said:

"Dot's all righdt. You one of dem fellers be what talked free trade to me four years ago. You say vote for us, vote for free trade and all dings be fine and goot. I vote for free trade and see! Every dings bad! My sheep all gone, no market for my wheat, and corn and anyding what I raise; evrey dings gone to dunder and blitzen! you shoost go to hale mid your free silver. I vote no more free nodings! I vote mid der republicans for protection, dot's what I want."

And he left his popocratic free silver friend in a non plussed state to think over the unfulfilled promises of four years ago.

This is an actual occurrence. The name of the sensible German farmer is not given, for as he said he didn't want Ez. Norris bodderin' mid him every time he came to town.

### Cheap Excursion to Detroit—

The greatest excursion of the season will occur on Thursday of next week, July 30th, at which time the Y. M. C. A. of this city will give its second annual excursion to Detroit. The train will leave Ann Arbor at 7:45. Returning will leave Detroit at 8 o'clock standard time. Fare for the round trip 85 cents from Ann Arbor, 75c from Ypsilanti. Children under 12 years of age 50 cents, and 40 from Ypsilanti. This bids fair to be THE excursion of the season, so make your arrangements to go.

There will be a baggage car on the train, in charge of a member of the Association and all bundles, baskets and bicycles will be taken free of charge. There will be no mistake this year on this point.

### Aqua Pura in Plenty—

From time to time assertions have been made of a fine flowing well struck by the Ann Arbor Water Company, on W. Washington St., so Monday our reporter shouldered his pencil and went out there to see.

He found what bids fair to be a good thing for not only the Water Company, but for the citizens of Ann Arbor, also.

There have been driven 28 wells, ranging in depth from 70 to 115 feet. Three of these wells are of 6-inch pipe, and the balance 2 and 2 1/2-inch pipe, all flowing wells. The 2-in. wells will throw a stream some eight to ten feet above the surface of the earth.

Titus Hutzel has had charge of the work. The various wells have all been piped into one main, and a compound duplex pump, made by Dean Steam pump Co., of Holyoke, Mass., having a capacity of 2,000,000 gals. daily, put in. Also a 125 horse power boiler to run it. Over these is being built a boiler and pump house, 33x55 feet.

The wells are expected to yield 1,000,000 gal. of water daily. The pump was tested Saturday, and found to be all right, and it is hoped to be at work pumping this water into the mains by the end of the week. The water will be pumped from the wells direct into the water mains, not being exposed to the air at all. The supply will be tested for some time and if found to be permanent a 12-in main will be laid from this pumping station directly to Main St. At present the water will be pumped into the mains on W. Huron, W. Liberty and Seventh Sts.

In driving these wells quick sand is struck after getting through the soil, then comes a great bed of blue clay, then what is termed a hard pan of varying thickness, after breaking through which comes the flow of water, in what is termed water gravel.

Dr. Hale and Mr. Hutzel feel confident that the supply will be all they expect and if so will give to our citizens a bountiful quantity of the very best water in the world.

The water from one of the large wells is of a magnetic character, Dr. Hale says, but there is no mineral taste to any of them. Dr. Vaughan has made an analysis of the various wells, and his conclusions are given in this paragraph. "This water is not only safe, but is an excellent drinking water. Would advise that it be pumped directly into the mains."

If these springs prove to be permanent, Dr. Hale tells us that it is intended to cut off the Allen spring from the city supply, which is now the only possible source of contamination, and not use it at all. He also says that the entire supply will then amount to 2,500,000 gals. daily.

### Ability Should be Considered—

To the Editor:

It has been said by the editor of the Times, that the only objection that will be raised against the personality of Mr. Bryan, is his youth. It is urged upon those who might utter such an objection, that they should not forget that Alexander, the greatest soldier of the ancients conquered the world at the age of thirty-three; that Bonaparte wrote the immortal Code Napoleon, at the same age; that Byron's eternal poems were in print when he reached the age of thirty-six; and that Mozart had finished his masterpieces before his thirty-fifth year; and numerous instances are cited of a like character, as an answer to the claim, made by many persons, that Candidate Bryan is too young to be our president.

Some of the readers of the Times have been thus far unable to discover any force in the argument thus presented.

Does the fact that the great Alexander had subjugated a hemisphere for his mighty will by the power of the sword before he had reached the age of our presidential eligibility, argue anything in favor of the fitness for chief executive of the nation; of a man who was an infant in his mother's arms when many of those whom he now seeks to rule were fighting for the cause of freedom, and who has never smelled the smoke of battle, at the age of thirty-six?

Does the fact that William Pitt was premier of England at twenty-four afford any assurance to a trembling people that Bryan, whose entire training in the practical administration of public affairs must have been secured in four years of inconspicuous congressional membership, will now be able successfully to guard the interests of the union in a great inter-national controversy with our mother country, and save the flag at all times from dishonor and humiliation?

If so, the same line of argument would sustain the assertion that any whistling school boy is fitted for the highest office in the land.

We are certain that Mr. Bryan has not prepared himself for this high function by experience, and there is nothing anywhere to indicate that he has received the necessary qualifications by the process of intuition.

If Alexander Hamilton, at the age of thirty-six, had been honored by a great political party with the nomination for the presidency, few men would, for a moment, have questioned his ability or urged his lack of maturity as effecting the propriety of the choice; but had the objection now made to Mr. Bryan been offered under such circumstances against Alexander Hamilton, it would not have been answered by any recital from antiquity of the lives of men distinguished by youthful achievements, not at all; the book of Hamilton's own career would have been laid open, and there, upon the bright pages of history, would have been read, with overwhelming conviction, his conclusive credentials for any station within the gift of the people. Guizot says of him that "there is not in the Constitution of the United States an element of order, of force, of duration, which he did not powerfully contribute to introduce into it and to cause to predominate," and the constitution was adopted in convention before Hamilton had arrived at the age of thirty-one.

"By their fruits ye shall know them." It may be true that the pages of history are filled with accounts of great deeds and great works accomplished by many of the world's illustrious men before they had arrived at the age of thirty-six years; and men might be fully qualified for the duties of the office to which Mr. Bryan now aspires, but certainly the researches to date exhibit an emphatic dearth of great accomplishments in his biography which renders his name illustrious to any degree whatever.

We are not aware that any of the notable persons mentioned by the Times made use of the "crown of thorns" and "cross of gold," but we venture the assertion that in all history there will not be found an instance of an eagle flight so unexpected and unwarranted by past accomplishments, as that which would occupy the attention of the American people if William Jennings Bryan, the Boy Orator of the Platitudes, should happen to succeed Grover Cleveland in the White House.

## HERE ARE THE BOLTERS!

A List that Brings Consternation into The Ranks of the Popocracy—and There are others to come.

### ALL THE PAPERS OF NOTE.

One Hundred and Ten Advocates of Democracy That Refuse to Advocate Populism—A Corker for the Free Silverites.

The bolt of democratic newspapers against the platform and nominations made at Chicago, is something unprecedented in the history of this nation. It is estimated that the circulation of these bolting papers reaches over one-half of the democratic party of the Union.

Following is a list of Democratic papers that denounce the Chicago platform and refuse to give support to the ticket:

The above list is far from complete. As a matter of fact, there are in the entire country less than a score of Democratic journals of any influence which will have not repudiated the candidates nominated in this city last week. A few newspapers in the foregoing list will advocate the election of McKinley, but the great majority unite in the general demand that another convention be held and candidates chosen who will be thoroughly representative of the great and ever-enduring principles of Democracy, says the Chicago Chronicle.

It will also be noticed that there is no sectionalism about the list. It includes every section, north, east, south and west.

#### GERMAN PAPERS BOLT.

That the Germans as a class are opposed to unsound finance and soft money, is proven, not only by their opposition in the past to all sorts of greenbackism and fiatism, but in the present struggle by the bolting of every prominent democratic German newspaper in the nation against the Chicago nominees and platform.

Here is a list of the most prominent ones:

- Chicago, Staats-Zeitung.
- Chicago, Abend Post.
- New York, Staats-Zeitung.
- St. Louis, Anzeiger des Western.
- Milwaukee, Seebote.
- Louisville, Ky., Anzeiger.
- Davenport, Ia., Demokrat.
- Wilkesbarre, Pa., Waechter.
- Newark, N. J., Deutsche Zeitung.
- Zanesville, O., Deutsche Post.

#### REPUBLICAN BOLTERS.

Perhaps our readers would like to hear the other side, and be given a list of republican papers which have come out against McKinley and honest money. Well, here is the list: Detroit, Tribune-News-Tribune. Ithaca, Mich., Journal.

#### Lightning Speed for the U. S. Mail—

Monday afternoon, as Chris. Donnelly, one of the mounted letter carriers, was watering his horse at the public fountain cor. N. State and Fuller st., the animal in an attempt to shake off some flies from her head caught the bride in such a way as to pull it off. This frightened her and she started on a keen run up State, turning on to E. Ann st. she kept straight ahead to Ashley, went on that to Washington and turned up that street to Fifth ave., where she was stopped. For such an extended run not as much damage was done as one might expect. The mail wagon to which she was attached was somewhat bruised, and Chris got a big jam on his right leg in attempting to catch his horse on the fly, but no further damage resulted.

Several people, it is said, ran out to stop the animal, but observing that she was hauling the U. S. Mail concluded that they had no right to interfere and stop the mails.

Old soldiers, receiving pensions, who just manage to exist on their scanty allowance! What will they do when inflation comes with free silver? Will pensions be inflated too? Never.

The gentleman who writes the editorials in the Democrat wards off the answering of pertinent political questions in true Yankee fashion by asking another question. Great dodge that.

For Representative in Congress, Second District, GEN. GEORGE SPAULDING, Of Monroe.

At the Republican congressional convention for this district held at Jackson last Wednesday Gen. George Spaulding of Monroe, was nominated.

The General is a good man and a safe congressman. The people of this district will be wise if they re-elect him.

Teller would shed tears. He ought to.

It is a square issue between repudiation and republicanism.

Do you want to Mexicanize this country? If so vote for free silver.

Sewall is at the tail end of the ticket but at the head of the barrel. It is a serious question: "Will he tap it?"

A sort of a lawyer for president, and a millionaire protectionist for vice-president! What a combination for populists!

Depression of Spirits

so common in summer-time, accompanied by loss of energy, lack of thought-power, means a deficient supply of nourishment. The vital force is lost. It isn't a question of muscle and sinew, but of resistance and endurance. At any age, but especially in youth, it involves the risk of lung disease. Loss of flesh and a cough are threatening signs.

Scott's Emulsion

of Cod-liver Oil, with the hypophosphites, meets these cases perfectly. It tones up, fattens and strengthens.

In Scott's Emulsion the taste of the oil is fully disguised, making it almost as palatable as milk.

For sale at 50c. and \$1.00 by all druggists. SCOTT & BOWNE, Mfg. Chemists, New York

The pops are already figuring that Sewall will buy up Maine.

He is "the boy orator of the Platte," but it is a significant fact that the Platte runs dry in the fall.

The nation's honor is in the balance. McKinley will sustain it—Bryan will bury it. Which will you decide for?

The only countries on earth today having free silver, are China, Japan and Mexico. Look at the laboring classes there. That tells the story.

It is understood that if the populist organization endorse Bryan & Sewall, that they must be given three members of the cabinet including secretary of state.

Four years ago the Democratic party was for free trade "to put prices down." They got prices down and now they want free silver "to put prices up."—Cedar Springs Clipper.

Hon. James W. Bradbury, of Vermont, the oldest living ex-member of the U. S. Senate, who has not failed to vote a democratic ticket in 73 years, has come out for McKinley & Hobart, and sound money.

Sixteen to one means there are sixteen Democrats who will vote for McKinley and protection to one Republican who will vote the free silver, free trade Populistic combination.—Hillsdale Standard.

Look at Bryan's backers: Populists, socialists, anarchists, all the riff-raff and disturbing element in the nation. Can honest men train in such a crowd? Can a scheme approved by them be an honest scheme?

Sewall is the richest man in Maine, Teller is the richest man in the west, and yet the howl goes up that it is the common people who are opposed to sound money and honesty in the nation's finances.

Bryan was born on Friday; bad luck to it. Just after the convention he saw the new moon over his left shoulder. His present age is divisible by 3, and the product is also divisible by 3. Doubly unfortunate.

My populistic and silverite friend, did you know that your candidate Bryan is a railroad attorney? Well he is. He has been and is yet under pay of the Missouri Pacific R'y, owned by George Jay Gould and Russell Sage, as their lawyer.

The mine owners want free silver, of course. They desire a market for the product of their mines, and believe that by throwing out \$600,000,000 of gold now in circulation they can furnish silver to take its place. No self interest in free silver. Oh, no.

If any man will produce one single argument or one sentence of sound logic out of Bryan's convention speech, the Courier will agree to vote for him. It was a combination of pleasing platitudes and flowery periods, and that was all. It caught the pops and accomplished its purpose.

To William Jennings Bryan, John P. Altgeld, Bloody Ben Tillman and all advocates of debased dollars: You shall not press down upon the brow of Columbia this crown of infamy! You shall not crucify the credit of this nation upon a cross of repudiation.—Detroit Journal.

The delegates at Chicago who listened to Bryan's successful effort at elocution, and thought they were getting something fresh were greatly mistaken. His very effecting "cross of gold and crown of thorns" play on words, he had worked off on congress as far back as 1894, without any appreciable effect, and then again a few days before the convention when he got worsted in a debate with John P. Irish. He had learned it by heart so that he could put a silvery trill on all the r's.

When Hancock was nominated for president by the democratic party a mate was sought for him who had a barrel, and Wm. H. English was nominated. But English had sense enough to keep not only the head of his barrel intact but all bungholes tightly plugged so that his democratic admirers couldn't get their fingers in it. Now the popocrats have found a man for the tail of their ticket with a barrel. Will Sewall prove a second English man? The thought causes a yellow shudder to chase itself all over the body politic of the crazy props?

Price, the millionaire Baking Powder man, writes as follows: "Send me a dozen boxes of Gossler's Magic Headache Wafers. I would not be without them for all the world. They are the best cure for Headaches I have ever found and leave no bad after effects. If you have a headache you cannot afford to be without them." They are guaranteed to cure or your money refunded. A. E. Mumery, your druggist, will tell you there are none half so good. Price reduced to 25 cents per box.

WHO REAPS THE BENEFIT?

Four years ago the same cry was heard: "Things can't be worse, they may be better" and they elected a free trade ticket.

Four years ago, you remember things were a great deal better than they are now, so it seems that it was possible to make them worse.

Today the cry is the same: "Things can't be worse, they may be better," but if the people jump the second time from the frying pan into the fire they will find that times can be even worse than they are today.

Let a panic come from a free silver victory and see where we are at?

Who reaps wealth from a panic? Does the farmer? Does the laborer? Does the merchant? Does the professional man? No, not any of these, but the capitalist does.

The man with money makes money very rapidly in a panic. The man with money takes care of himself every time, and he who votes the silver ticket thinking that he is voting against the capitalist bites his own nose off to spite his face.

THAT MONEY PLANK.

Here is the plank on the currency question, adopted by the republican national convention at St. Louis, June 18. Read it, my good friends, and see if there is anything very bad contained therein:

"We are unalterably opposed to every measure calculated to debase our currency or impair the credit of our country. We are, therefore, opposed to the free coinage of silver except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained, the existing gold standard must be preserved. All our silver and paper currency must be maintained at parity with gold, and we favor all measures designed to maintain inviolably the obligations of the United States, and all our money, whether coin or paper, at the present standard, the standard of the most enlightened nations."

Every man wants the money in his pocket as good as gold. That's all there is of that plank. It means free silver when free silver can be obtained without debasing the currency in which labor is paid; without bringing a great class of hard working people to ruin; without endangering the very foundation of the republic—honesty; without creating a panic in which the rich would grow richer, and the poor poorer; without repudiation and revolution. That's what the money plank of the republican platform means, and no man can be so lost to personal honor and pride as to say that it is not right and just, and one that would lead on to prosperity.

McKinley never has been beaten at the polls and never will be. He represents sound and honest principles, which when adhered to have brought prosperity to this country every time. The people will think of this before they vote.

The New York Daily Tribune of July 15, contained three columns of names of prominent democrats throughout the country who had bolted the Chicago nominations. Among those from Ohio we are pleased to note that of "Harry W. Ashley, general manager of the Ann Arbor Railway." There are no names given from Michigan in the list, and yet there might be whole columns of them. In the Massachusetts list the names of Edward Atkinson, General Francis Peabody, Prof. Chas. Eliot Norton, Prof. N. P. Squaler, Chas. Theo. Russell, etc., etc. In the California list is A. A. Watkins, chairman democratic committee, San Francisco.

The silverite assertion that there has been a decrease in the money in circulation in this country is false. Not a word of truth in it. The money in circulation at various dates is as follows, taken from official sources:

Table with 2 columns: Year and Amount. 1860: \$442,102,477; 1872: 738,309,549; 1896: 1,509,725,200

Showing that the money supply in the United States has increased 240 per cent as compared with 1860, and 104 per cent as compared with 1872.

On July 1st 1860 the per capita circulation was \$14.06; on July 1st 1872, \$18.70; on July 1st 1896, \$21.15, thus showing that the money in circulation has increased much faster than the population. Figures also show that the money supply of the world has been increasing rapidly.

Women TO FARMERS.

Who are nervous, weak, worn out with local troubles find pure blood, nerve strength, and perfect health in Hood's Sarsaparilla.

We do not say the above to raise false hope. It has been the experience of many, very many women in those intensely trying periods which demand and consume so much

Nervous

force—those special physical trials we delicately indicate by merely using the words—Maid, Mother, Matron.

Like a confidential friend we suggest the use of Hood's Sarsaparilla, a reliable blood purifier and tonic; it has helped many others and will help you. "I was in poor health five years, broken down in strength, and appetite all gone. Local troubles and other weaknesses intensified my misery. Nervous sick

dizziness, heartburn and pains in my back made me think I should never be well again. A friend prevailed upon me to try Hood's Sarsaparilla. I soon began to improve and in six months it restored me to better health than for years. I have found Hood's Sarsaparilla a grand medicine for all troubles peculiar to

The state silver convention at Lansing was thrown into confusion by the discovery that one of the delegates had never been a greenbacker. He was closely questioned, and upon expressing regret at the oversight he was permitted to remain.—Detroit Free Press.

Dennis Kearney, the once (in)famous leader of the sand lot toughs of San Francisco, was the first man to send a congratulatory telegram to Bryan. Dennis has been silent for years, and many people had forgotten him entirely until the anarchists came out ahead at Chicago. Now, it is said he has struck the kid orator for a job in the cabinet.

The Hudson Gazette, one of the ablest and best democratic papers, among the inland press of Michigan, comes out in unequivocal terms against the democratic nominees and platform. Mr. Scherr erhorn, its editor, is a man who can not be lead into a false position. He has the courage to advocate what he believes to be right.

Bryan acting as his own lawyer, has got out a search warrant on behalf of his party and given it to field marshal Tillman to serve. Its purpose is to find, if possible, a prominent paper in the union supporting the so-called democratic nominees. Poor Tillman. He has an exhausting job.

Woman's Realm.

MAKE THE HOME A BLESSING.

The Love of Children is Innate in the Heart of every True Man and Woman.

All that is beautiful and lovely in woman, finds its climax in motherhood. How often we find among our American women that longing for the prattling voice, the idol of their waiting hearts. It is a natural instinct, this yearning of the heart for offspring; yet the wife hesitates to talk with the family physician on this delicate subject. A good way to do is to send for "The People's Medical Adviser," 1000 pages, profusely illustrated (wood-cuts and colored plates). Sent on receipt of 25 cents in stamps, for postage and wrapping only, if you address The World's Dispensary Medical Association, Buffalo, N.Y. The reflections of a married woman are not pleasant if she be delicate, rundown, or debilitated. She feels "played out." Her smile and her good spirits have taken flight. It worries her husband as well as herself.

The committee appointed by the Dex-  
ter council to ascertain the cost of put-  
ting in and running an electric plant,  
report that the plant would cost \$8,000,  
that it would take \$2,800 a year to  
maintain it, and that the village could  
realize \$4,100 after furnishing the vil-  
lage with 18 street arc lights free.

They are said to be a standing menace  
to all who are constructed on the origi-  
nal plan. It may not be orthodox to  
suggest to the Creator any improvement  
in His most wonderful work, but the  
doctors claim there is a chance.—Chel-

It is related that a hen in Ogdan  
made her nest in the forks of a willow  
tree, about 12 feet from the ground, and  
"carried her lay," to the deposit of 14  
testimonials, making it 14 by great  
effort, to avoid the unlucky 13. Then  
she hatched 13 chicks, got them down  
safely and cackled to her farmer owner:  
"Get-get-get, get yer hair cut, get yer  
hair cut!"

The annual school meeting for the  
fractional school district including Chel-  
sea was held last week Monday and  
showed that \$6,872.29 had been received  
during the year and that \$6,752.52 had  
been expended, leaving a balance on  
hand of \$119.77. The district voted to  
raise \$4,375 by direct tax, which is  
about \$1,000 less than last year. Dr.  
R. S. Armstrong and H. S. Holmes  
were elected trustees for three years,  
and Wm. Bacon for two years.

The first annual picnic, of St. Mary's  
Sunday School of Chelsea was a grand  
success. The day was a delightful one,  
and a very large number of children  
accompanied by their parents, went to  
Kavanaugh Lake last Wednesday, July  
15, 1896, and had a most enjoyable time.  
Through the courtesy of George P.  
Glazier, Esq., the school had the use of  
his cottage, boats and pleasant grounds,  
for which they are very grateful. Ice  
cream, lemonade and cake were provid-  
ed, for the children by the pastor, and  
all voted the picnic an unequalled suc-  
cess.—Chelsea Herald.

EFFECT OF FREE SILVER.

The New York Herald, democratic,  
gives the effect of a free silver victory,  
and every person should read and ponder:

"Free, unlimited, independent coinage  
at 16 to 1" would mean dollars  
worth only 53 cents. The wage earner  
and the man on salary would be paid in  
these, thus cutting his income down  
nearly one-half, and every debtor could  
pay his creditor with these depreciated  
dollars. If it ever became evident that  
the American people were so dishonest  
and so foolish as to adopt such a policy,  
there would be a rush to anticipate its  
effects. The six hundred millions gold  
in the country would at once be hoarded  
or exported, and this great contraction  
would precipitate a panic, with all its  
dread sequel of prostrated business,  
idle industries, and unemployed labor.  
In the crash and in the subsequent re-  
adjustment to the depreciated currency  
the rich would get richer, the poor  
poorer than ever, and it would require  
a generation of organized agitation to  
bring back wages to their present rela-  
tive purchasing power.

DON'T  
STOP  
TOBACCO

Office of THE PIONEER PRESS COMPANY, C. W. HORVICK, Supt.,  
St. Paul, Minnesota, Sept. 7, 1894.  
Eureka Chemical and Mfg Co., La Crosse, Wis.  
Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have  
smoked fifteen to twenty cigars regularly every day. My whole nervous system became af-  
fected, until my physician told me I must give up the use of tobacco for the time being at  
least. I tried the so-called "Keely Cure," "No-To-Bac," and various other remedies, but  
without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day  
I commenced using your preparation, and to-day I consider myself completely cured; I am in  
perfect health, and the horrible craving for tobacco, which every inveterate smoker fully ap-  
preciates, has completely left me. I consider your "Baco Curo" simply wonderful, and can  
fully recommend it.  
Yours truly,  
C. W. HORVICK.

**FOREIGN AFFAIRS.**

In Canada, the Liberal Government under Laurier has been formed, and a parliament called for August 18. A settlement temporary at least, of the school question may be hoped for.

The European situation is marked on the one hand by the continued decline of Turkey, insurrection and massacre are reported within the empire in Armenia, Crete, and Lebanon, and without, the former friendly relations with Germany are broken. On the other hand the meeting of the two greatest powers of Europe, in the persons of the Czar and the Czarina, of Russia, and the Czarina's grandmother, Queen Victoria is promised.

The conditions and actions of foreign nations in respect to the monetary question are instructive. Bimetallic League in England and the socialists in Germany are optimistic over the situation in the United States. On the other hand, India on the east and the United States of Columbia in the west, are held up as examples of the pauperizing results of free coinage; and Costa Rica is returning to a gold standard, if theories are compared with facts, the conclusion is evident.

**COBDENISM VS. COMMON SENSE.**

The recent celebration of the fiftieth anniversary of the repeal of the common laws of the Cobden Club is significant. It has been said that new measures require new men. The converse is also true that new men demand new measures, and nowhere is this clearer than in the present case.

In 1846, Cobden and the majority demanded and obtained free trade in corn and subsequently in the other articles of consumption. In 1896, Chamberlain and possible majority are demanding a protective system, that is a British Imperial custom's union, which is exactly the American system, the forty-five members of the United States, forming the greatest customs union the world has ever seen.

The Cobden Jubilee like the Jewish day, is the occasion for the proclamation of freedom, but in this case a proclamation by the other fellow.

**ENGLISH UNITY.**

The Venezuelan question has occasioned more senseless declamation than anything in our foreign relations since the Behring Sea controversy. A recent example of this occurring in the correspondence of so able a paper as the New York Tribune, may be cited. Speaking of the proposed Peace Congress, the writer says:

"Does any man believe the Englishmen are not after gold in this peace project, working for partnership, if not for a full swing in our markets, hoping through intrigue, diplomacy or bribery, to dictate appointments and decisions? There is one strong reason for the British aversion to war with us in the large investments they have placed here. In the event of war, much of the property would be confiscated and large obligations repudiated. I don't believe there is an intelligent American who thinks if the British had the power they would not wipe this republic out of existence to-morrow, if by it they could forever rule the commerce of the Americans. War is the escape, the appeal, the only effective resort. Enforced peace or long periods between wars give floods, big waves of demoralizing, degrading practices. Wars do not come often enough for true enjoyable peace."

This is the kind of anarchism that goes about in the sheepskin of patriotism. The intelligent Englishman recognizes that not only his economic, but also his political and moral welfare must be considered. They agree, too, that disease and murder whether on a small or great scale, and whatever the cause or motive, is evil. Monarchist and democrat, democrat and republican must endorse the measures of President Cleveland and of the English government which are intended to perpetuate the harmonious relations existing between the two great branches of the English race.

The old Commercial will now have the best editor it has ever had.—Daily Times.

Col. W. F. Cody (Buffalo Bill) has won his greatest victory in keeping his famous Wild West and Congress o Rough Riders of the World intact in these troublous times between the jealous European powers. As his "Congress" includes detachments of real cavalrymen from the armies of France, England, Germany, Russia and the United States, it required no little diplomacy to do so. They will all positively be here on Monday, Aug. 3d, with Col. Cody commanding, in person.

**A Former Resident Dead.**

Wm. S. Maynard, of South Bend, Ind., in a private letter to a comrade, N. D. Gates of this city, tells of the death of his wife, at their home in that city, on the 9th inst., with consumption. Both Mr. Maynard and his wife were formerly known here. The boys used to give Will the nickname of "Bunty" in school days, before he left to fight for the cause of the Union. He is left with two little daughters, aged 7 and 5 years.

The South Bend Daily Times of July 16, has this notice:

"Mrs. W. S. Maynard died at 2:45 o'clock this morning at her home, 288 North Main street, after an illness covering nearly two years from consumption, aged 41 years. She leaves besides her husband two daughters, Woodie and Christol, at home and her mother residing at Keeler, Mich., to mourn her death. The remains will be taken to Keeler for burial on the 9 o'clock Michigan Central train Friday forenoon."

**Buffalo Bill's Credentials.**

U. S. MILITARY ACADEMY, WEST POINT, N. Y., January 11, 1887.  
\* \* \* I have known W. F. Cody (Buffalo Bill) for many years. He is a Western man of the best type, combining those qualities of enterprise, daring good sense, and physical endurance which made him the superior of any scout I ever knew. He is cool and capable when surrounded by dangers, and his reports were always free from exaggeration. He is a gentleman in that better sense of the word which implies character, and he may be depended on under all circumstances. I wish him success.

Petoskey Daily Resorter of July 16, has this item: "N. J. Kyer, who is a member of a large milling firm at Ann Arbor, is visiting the northern resorts for a few days and during his stay in Petoskey is a guest of the Cushman. Mr. Kyer and his friend W. F. Stimson by whom he is accompanied are both leading members of the masonic fraternity in the University City, and are well known to prominent members of the craft in other parts of the state."

There was a wedding at the Court House last Saturday, at high noon. The couple were Ypsilantians, and we have the county clerk's word for it that they were a smart looking couple, especially the bride, but this view may be a prejudiced one, from the fact that all the witnesses of the happy event wanted to kiss the bride. Justice Gibson was the man who made the couple happy by tying the knot, and John Foki, and Miss Mary Elkins were the couple made one and happy.

It is handsomely illustrated, and well worth the price asked. When Mrs. Potter calls upon you, receive her kindly and help her and the good cause along by purchasing one of the books.

MASONIC—Fraternity No. 262. Special—Friday evening, August, 24. Work on Second degree. Visiting brothers cordially welcomed. GREENMAN, Sec'y, 1 yr.

Republican County Committee—Secretary O. E. Butterfield furnishes The Times the following complete list of the Republican county committee for the year. Its selection was completed during the Republican county convention of Tuesday:

Promoting Harmony—In the last issue of the Register is found this "sarkastic" item:

The Courier force was represented on both sides of the fence in the Pingree contest in the ward caucuses Monday night. Nothing like being ready for emergencies, no difference which way fortune smiles!

That statement simply reflects the mind of the one who wrote it, and shows what he would do if he had the power. It is useless to say the Register "force" represented themselves on one side only.

It is not out of place to state here that the people connected with the Courier are never interfered with in the exercise of their rights as free American citizens.

And again, in the farther interest of brotherly love and affection the Register says:

There is one person in Washtenaw county who was exceedingly anxious to appear, at least in some official capacity, before the county convention Thursday. But it seems not to have occurred to any one to suggest his name to the chairman for appointment upon any of the committees. Although his hankering for official position has become a standing joke, he bobs unceremoniously on every occasion. He got there Tuesday, as usual, but in order to do so he had to ask to be appointed teller. The appeal seemed so pathetic that the chairman appointed him at the tail end of the list.

Of course personal animosity against a former partner had nothing to do with that item. It is simply a passionate appeal for party harmony, and all around good feeling.

Pathetic scenes are occurring daily at the county jail. Sheriff Judson has finally begun to pay the berry pickers and laborers swindled by the Conrath brothers the proper proportion of the money he has managed to scrape together from the sale of what the Conrath's left. Many of the children can't understand why they don't receive all that is owing them. Some of them burst into tears when told that they can have no more money.

The Centennial Mills at Lapeer are again in operation. J. M. Swift, of this city, proprietor of the St. Clair Flouring Mills from '70 to '92 and of life-long experience in the flouring business, is its manager. Mr. Swift has latterly been known through his connection with the firm of Swift & Co., in our city. He expects to move his family to Lapeer next month. Aside from an older married daughter his family consists of wife, son and three daughters. Practical familiarity with his business from boyhood up, is an assurance to the people of Lapeer of good work.—Daily Times.

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

How a Wyoming Boy looks at the Free Silver Craze.

The following letter, taken from the Howell Republican is from a former resident of Livingston County, a farmer, and one who is known to many of the farmers of this county, as he dealt quite largely in sheep before the free trade days had killed off that industry. We of the central and eastern states are so often told that there are none but crazy silver men out there, that it seems hardly possible that Mr. Garlock, the writer, can be in earnest. It only tends to show how such things become exaggerated.

Read the letter. It will do you good:  
OWEN, Wyo., July 6th, 1896.  
Geo. Barnes, Esq.,

I am glad the political sky back east looks so promising. The ticket and the platform can't be beaten. It's a nomination "Of the People and for the People," and will win.

We have tried running democratic free trade, and after piling up a debt of \$262,000,000 in three years, will probably be asked at the Chicago convention to start out to buy up the world's silver output. We are not in shape to do it, and it is well the east knows it. Don't think the west gone daft on the silver question; they are not. A few only will follow Senator Teller—not as many as he thought when he went out of the St. Louis convention. Colorado, the most prosperous state in the Union, is unreliable, but we can do without her if we must. These silver men are noisy, but don't pan out on election day. Dubois, Mantle, Hartman, Carter and Cannon don't represent their constituents, and will be replaced by men that do.

Quiet and brainy John M. Thurston represents the solid west. He's western goods, "All wool and a yard wide." Some of the west is wild but not as woolly as it was. In about four months sheep men will be in better shape. Hold the fort for McKinley.

Yours as ever,  
W. J. GARLOCK.

**A PANORAMA OF THE PAST.**  
Never again may it be possible to gather together the living representatives of so many romantic and picturesque classes of mankind as are seen in Buffalo Bill's great Wild West Exhibition. The native Indians are fast passing away, and the redskin warriors who have terrorized the frontier States of our country will soon join the braves who have passed to the happy hunting-ground. The frontiersmen, scouts, and trappers have seen the day of their glory and have won well-merited imperishable fame in Indian warfare and in the progress of the nation. The Wild West exhibition has attracted attention on both sides of the Atlantic, and called forth expressions of unqualified delight because no other entertainment, however meritorious, could possibly furnish such a remarkable object lesson in history, and in no other theatrical or arenic display would it be possible to secure as a central figure so romantic, so picturesque a personage as Col. William F. Cody, or Buffalo Bill, as he is known the wide world over, who is the living exemplification of the romances in real life of pioneer prairie experiences. Not merely because he is a handsome man, but because he is also a man with a history scarcely paralleled in his dangers encountered, victories gained, and his work achieved, by any of the great heroes of romance or history. As one of his chroniclers has aptly said: "Col. Cody, as an Indian scout and fighter, stands head and shoulders above all those who have gained fame in the same field of energy, enterprise, and display of personal bravery. He has held, and deservedly maintained, the position of Chief of Scouts of the United States Army, and was brought in intimate association with such great American leaders as Gen. W. T. Sherman, Gen. Phil Sheridan, Gen. W. S. Hancock, Gen. Crook, Gen. Miles, Gen. Terry, Gen. Carr, and many others, not the least remarkable of whom was the late much-lamented Gen. Custer. Many times he has been officially commended, and many times he has sacrificed personal interest and abandoned personal desires in response to the call of duty."

In organizing the Wild West show Buffalo Bill has done a great service to the Nation, for while incidentally he may be gaining material wealth, he is certainly adding to the instructive opportunities of the hour.

All the features of the entertainment are genuine and of very great interest. In fact there have been congregated for the first time in history, peoples and races, camping, living and existing on one spot, never brought together in such a manner before in the history of the world. Indians from the Rockies, Cossacks from the Caucasus trained riders of the English, Irish, French, German, Russian and American cavalry, the Bedouin Arab of the desert, the Cowboy of the American plains, Cavalrymen of the Republic, and the Gaucho from the foot-hills of the Argentine llanos, meeting for the first time and forming an ethnological and equestrian amalgamation never before witnessed in the history of the world. The Wild West show will be seen here on Monday August 3rd.

**Puzzles the Doctor's—**  
The eight year old child of Mr. and Mrs. Louis Boecker, residing on S. Main st., is lying at the point of death and suffering excruciating pain from lock-jaw. The child had an ulcerated tooth. Monday a small snake was killed and left lying in the yard. The child played with this dead snake for a considerable time and is supposed to have communicated some sort of poison to his ulcerated tooth by putting his fingers into his mouth. At any rate a severe and painful case of lock-jaw developed Tuesday.

Doctors were summoned until at one time eight of them were laboring to relieve the lad's sufferings. Among these doctors was Dr. Vaughan. But relief came slowly, and the story goes, Mr. Boecker concluded to dismiss the regular physicians and rely entirely upon Christian Science for a cure. At any rate the child is still quite low and an attempt is being made to save him by faith and prayer—the two instruments of the Christian Scientist.

**THE CONVENTION REFLECTS.**  
Ugh!  
Good Lord!  
Where am I at?  
What happened?  
Great guns!  
Take it away!  
What's that?  
Oh my head!  
For heaven's sake, gimme a drink!  
Lord, Lord, what a time I had!  
Snakes a mile long, all silver;  
Blue elephants, with silver mounted tusks;  
Swinging on silver ropes;  
Boy orators, in corn colored trousers  
And red top boots;  
Chewing tar and spitting out  
Populism and platitudes;  
Crazy horses pawing up the floor;  
Jackasses filling the place full of brays  
And kicking holes in the roof;  
Red caps flying through the air;  
Rabble and ruin climbing the tent poles;  
Pale green disaster roosting on the ridges;  
Strange convolutions of whiskers  
And red eyes and torches  
And knives flashing in the darkness;  
Wild yells and hoarse shouts,  
And riot running riot over itself  
Chasing anarchy  
Through pandemonium;  
License dragging Liberty  
Through the mire by the tail;  
The people  
Made the scapegoat  
For all manner of dangerous heresies,  
And sent scurrying  
Through the highways and byways;  
Democratic principles swung by the hind legs  
And their brains dashed out  
Against the tottering timbers of  
A rotten platform;  
Populism stalking through  
A sickly green swamp  
To reach up and tip over the  
Middle kettle of hell!  
Ugh!  
What a night!  
What a Silver Knight!  
And his name is Bill Bryan.

**Paul Meyer's Ride—**  
There has been considerable interest felt as to the time necessary to ride a bicycle from Ann Arbor to Ypsilanti, or the other way, ever since bicycles have been ridden. Old timers will remember the fine gold medal which Frank Bovee had made and offered for a road race from Ann Arbor here, and when the race came off his was the only entry, so he was the "Champion of Ypsilanti," and wore the medal. This was while high wheels were yet in fashion. When the safety, with its pneumatic tire, so increased the army of riders, many other would-be "champions of Ypsilanti" have arisen, and some of them have made very creditable riders, while others have told stories that were a credit to their powers of imagination. There is one young man in particular who "can ride down from Ann Arbor any day in 21 minutes," and who "always comes down in 25." Some six or eight years he has been telling these ghost stories, yet has made no public performance that anyone knows of, and it has gotten so that his friends are as tired when he tells them one of these chestnuts, as he would be if he actually did ride down in 21 minutes. On the other hand, Fred Wilber, Alex. Boutell, Herb. Tenny, Howard Augustine, and others, have said little but sawed wood. Each has ridden to Ann Arbor and return in about 58 minutes. But it remained for Paul Meyer, of Ann Arbor, to clip several seconds from all previous records. He started exactly at 5 o'clock Tuesday afternoon at the Ann Arbor court house, and rode to King's corner in Ypsilanti, and returned to the court house, arriving there in 49 minutes and 10 seconds after he started. This was a wonderful ride, and will probably hold the record for some time, but as he had pace-makers for considerable of the distance each way, it cannot fairly be compared with records made by riders who have no pace-makers.—Ypsilanti Commercial.

### FASHIONS AT SARATOGA.

Early Morning Costumes: Midday Dresses: Large hats: Hair Dressing:

An entire independence regarding costumes, is a peculiar charm in Saratoga life; extremes in opposite directions affording a constant and amusing contrast. Economy and utility find expression in heavy gray linen suits, with either blazer or Eton jackets, trimmed with embroidered linen bands, small buttons at the corners of sailor collars or not unfrequently a vine or band of embroidery is carried down the back, finished by a flowered ribbon knot with a long end. Six or eight fancy fronts to one dress give a constant variety, and tucked white muslin or lawn fronts are new and inexpensive; the tucks running crosswise in waists, fronts or sleeves. While piques are very popular here as breakfast dresses the prettiest having a row of insertion around the jacket and double revers about an inch and a half from the edge; a pink or blue silk front adding the necessary touch of color. As a matter of course, pretty shirt waists and black skirts are seen on all sides.

LATER IN THE DAY

organdy, grass linen or silk dresses begin to come out, and then criticism by ones neighbors is to be expected. A plain apple green silk dress, worn by a lovely blonde, made round waist, with white lace bretelles, very full on the shoulders, a green velvet belt and collar, looked so sweet and simple, among the figured organdies and china silks in its immediate vicinity. The hat worn with this costume was of pure white fancy straw with green tulle bunched high and full in front, held by two pearl buckles, and a large pink rose was placed at each side. Just back of the two roses, two green "Bird of Paradise" plumes drooped over, at either side. At the back were puffings of tulle and pink roses enough to trim an ordinary hat. A white chiffon parasol and long white gloves, completed the lovely ensemble.

CAPE

are very fluffy this season, probably as rivals to hats and sleeves, and a particularly handsome one of stiff ecru lace encrusted with gilt spangles over changeable silk, has a border (below the lace) of alternate rosettes of white chiffon and brown ribbon striped with green, the two colors blended in the foundation. A species of white satin jacket front, closed under the cape by small Rhine stone buttons, was embroidered in green and brown silk, and designed as a genuine protection. The neck was finished by ecru lace combined with green and brown chiffon, in high, full ruchings. A wool suit is an essential in all travelling outfits, and in view of summer showers, or rainy days, those who are experienced in such matters, always use the Duxbak Rainproof Binding for the skirt which turns the water (as the name indicates) never loses its color, and lasts as only one of the "S. H. & M." brands can do.

COOL EVENINGS BRING OUT RICH MATERIALS,

and since the coronation of the Czar, the general popularity of velvet has greatly increased. A beautiful forest green velveta costume worn by a young society matron, attracted attention even here, from the lovely shade and richness of the fabric, second only to the personal beauty of the wearer. The skirt was plain, and not extremely wide, with short basque linen with pale pink chiffon front: epaulets of Venetian lace over the sleeves, and two side pieces, shaped like pocket flaps, attached to the basque at either side of the front.

If hats become much larger, the space occupied by the fashionable women will be a matter of consideration. Some hats are tilted far over the forehead, as a consequence of the flowers at the back, which in their turn force the hair very low down, almost on the neck. Wide taffeta ribbon loops, in clusters at the sides, with tulle at the center, and ribbon at the extreme back, constitute the trimming of a Parisian hat, displayed here by an extreme fashionist. Stylish coiffures are low and very broad fluffy hair standing out at the sides and the pompadour roll is affected by all who can stand the ordeal, and a good many who cannot.

VERONA CLARKE.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion which means not-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps indigestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle.

### AN ELABORATE MOSAIC.

Executed for a Beautiful Palace in Vienna.

The British vice-consul in Venice in his last report says that mosaics still continue in great demand there, says the London Times. A well-known company executed last year a splendid mosaic for a palace now in course of construction in Vienna. It measures 1,000 square feet and is copied from cartoons by the painter, Edward Weith. It represents the five parts of the world. Europe stands in the center of the frieze, represented by the symbolic figures of its various nations, having on one side the emblems of industry and trade and at the top the emblem of the flying genius of light. On the right are the figures of Asia, India, China and Japan, with their rajahs, mandarins and the allegorical chrysanthemum. Next follows Africa, with camel-drivers, palm trees and other African symbols; on the left, America and Australia, with natives on horseback and on foot, foliage and other emblems.

All this variety of types, from the fair Circassian down to the negro, and the display of costumes, from the most decorative to the simplest, have enabled the painter to arrange 24 figures with great delicacy of color and in an artistic manner. Over these figures, which rest on an ornamental base, a blue sky reflects all around its light so as to unite all the tints of the mosaic and to give the whole a harmony of effect which is said to be most delightful to the eye. The same company is executing another important mosaic for the apse of the Guards' chapel at the Wellington barracks in London from cartoons.

**OUR DAILY BREAD.**

The Kind Most Common Now Was Unknown Last Century.

Much rye bread was eaten in this country in the beginning of the century, and much rye and Indian—a healthful compound that disappeared when stoves superseded the huge brick oven in which the maize ingredient was rendered digestible by being cooked all night. The snowy wheaten loaf, as the staple bread of the land, dates only back to the cultivation of the wheat fields of New York in the early part of this century; and simultaneously there seems to arise a "fashion" of white bread. The using of bread made from anything less than "the best Genesee flour" was thought a mark of poverty. About 1840 there appeared about an even distribution of dyspepsia throughout the northern and eastern states, more especially among those well-to-do people who used only the "best Genesee." One investigator announced that the root of the mischief lay in robbing the wheat of its best elements in the process of milling, and taking away its outer coating. This man was Sylvester Graham—a monomaniac on his own hobby, but he rendered an important service to the science of alimentation, though the epithet "bran bread" was derisively applied to the sort that still bears his name.

**A SERIES OF SIMILARITIES.**

How the Free Press Bolted in 1872 and won its Point—How the '72 Campaign is Being Repeated.

In looking over the old files of the Courier, under date of July 12, 1872, this is found:

"It is a pitiable sight when men who have taken the Detroit Free Press for the last thirty years, and have sworn by it, are urging democrats not to take the paper any longer because it will not support a renegade republican for President of the United States."

Now, twenty-four years later, the Free Press bolts the nomination of a populist who has been forced upon the democratic party, as Greeley was at that time.

The Free Press came out ahead in 1872, as it will come ahead in 1896.

In the same issue of the Courier, in July 1872, when a well meaning but hot-headed republican was forced upon the democratic party, August Widenmann, then a prominent democratic business here, upon receipt of the news, hoisted the flag at half mast over his store. He was abused and reviled for it, but maintained the courage of his convictions, and the election proved that they thought as he did only he was a little in advance of them.

If the election could have been held the week after the nomination in 1872, Horace Greeley would have been president of the United States, so carried away were the people with the craze.

This year no flags have been displayed at half mast, but many democratic heads have been hung at half mast, over a similar event, and it is believed now, that could the election have taken place at once after the Chicago nomination, Bryan might possibly come out ahead, so crazed are many people, but every additional day the American citizen has to think it over in, makes Bryan's chances so much less, for when the sober second thought gets in its work, the voters will not dare to turn over the destinies of this great nation into the hands of an inexperienced boy who knows practically nothing of business and business principles, of statescraft, of political economy, of statesmanship, but whose reputation rests solely and alone on his ability to talk in a flowery way—in other words to orate—and whose supporters and adherents are populists, and the other disintegrating elements of the nation.

If Bryan is elected he will be forced to turn this government over into the hands of the men who nominated him; the Altgeld's, the Tillman's, the fiery Texans, who advocated throwing Senator Hill and the gold men bodily out of the convention.

Like Greeley, Bryan is not a democrat, but he is an avowed populist.

Like Greeley, Bryan is pure and upright in private life.

Like Greeley, Bryan is a good man but very erratic and extreme in all things.

Greeley was backed by a lot of so-called "literal republicans," who bolted the nomination of Gen. Grant; Bryan is supported by a few so-called silver republicans who have bolted the nomination of Wm. McKinley.

Like Greeley, Bryan is held in esteem by the people for his personal worth, but is not considered a safe man in which to place the helm of this great ship of state.

Like Greeley, Bryan has created a furore in his nomination—a feverish unhealthy hectic flush.

And like Greeley, Bryan will be defeated in his all consuming desire to be president of the greatest nation on earth.

So much for similarities, and events that repeat themselves.

Business men and all those employed in mercantile and manufacturing pursuits, in this city, are given the most positive assurance that the evening exhibitions of Buffalo Bill's Wild West and Congress of Rough Riders of the World are exact duplicates of those in the afternoon. They are neither curtailed nor rushed through in a hurry. They are illuminated with 250,000 candle-power arc lights and two electric search-lights, making the arena literally as light as day.

It has been held that consumption is hereditary, and the fact that one person of a family had died with consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is likely to transmit that weakness to his children. But there is no reason in the world why this weakness should be allowed to develop. Keep the lungs full of rich, red wholesome blood, and the weakness will disappear. Decaying tissues will be thrown off, and new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This is what makes it cure 98 per cent. of all cases of consumption were it taken according to directions. It searches out disease germs wherever they may be in the body and forces them out of the system. It supplies the blood with rich life-giving properties. It makes the appetite good, digestion perfect. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 "Common Sense Medical Adviser," profusely illustrated.

**A LIVELY SESSION.**

The Council Agrees, Reconsiders and Agrees to Again.

(From Tuesday's Times.)

Our city fathers felt quite "frisky" last night and their regular session was far more entertaining than Buffalo Bill's Wild West can possibly be. Considerable business was attended to but of course the greatest importance and interest attaches to the Council's action upon the questions of macadamizing Detroit st., completing the grading on S. University ave., and lowering the Washtenaw ave., sewer. Detroit st., is to be macadamized at once, S. University ave. improvement completed and the Washtenaw ave., sewer lowered four feet. All the aldermen were present except Aids. Brown and Burke from the Fourth ward, and many representative citizens occupied the seats accorded the public.

Petitions were read asking for sidewalks on Forest ave., and grading on Miller ave. Referred to proper committees. The Board of Public Works asked for \$110 for placing a bath and closet in the engine house. It was granted by unanimous vote. The same Board submitted engineer's estimates on cost of painting bridges over Huron river. By vote the Board was instructed to get bids for the same and have the work done. The Board also submitted estimates for macadamizing Detroit st., \$1,566 and \$900 extra for stone, and for macadamizing part of Division st., \$417.30. These estimates were received and placed on file.

The board also asked for appropriation of \$136 for improving south side of Felch Park. Granted without division. Property holders in the second ward petitioned for cross-walks across Liberty and Third streets. Referred. Charles A. Ward asked that a sidewalk grade be established on Prospect st. Referred.

Clerk Mills then read the estimate made by City Engineer Key upon the cost of lowering the Washtenaw avenue sewer. For the lowering of the sewer four feet as ordered already by the common council the cost is estimated at \$354; for lowering it six feet as desired by Washtenaw avenue property holders, \$581.75. Aid Koch remarked that there were present several gentlemen who no doubt wished to talk on this subject. Professors Knowlton, Demmon and Pattengill then spoke in favor of lowering the sewer six feet. Their remarks were seemingly quite convincing. Aid Maynard favored lowering it six feet. Aid Koch moved that the sum of \$581.75 be appropriated and the sewer be lowered six feet. Aid Coon seconded the motion. Aid Dell objected that the work should be done by contract. Prof. Knowlton replied that he believed the charter would allow such action without bids being received, and asked immediate action. Aid Danforth opposed haste and Aid Soule facetiously touched up his colleagues for slowness and favored immediate action. Aid Shadford thought four feet was enough. Aid Dell insisted that city work was too expensive and demanded contract. President Hiscock warmly approved lowering the sewer no more than four feet. A vote on Aid Koch's resolution was taken and it carried, Aldermen Moore, Shadford and President Hiscock alone voting no. The vote—yeas, 10; nays, 3.

The committee on streets recommended a culvert on the west side of Ashley st., a tile drain on Ashley st., asked \$35 for grading Eighth st., asked reference of matter of alley between Main and Ashley sts. to city attorney, and asked estimates on grading and graveling Gott st. Adopted. The grades on Detroit st. and N. Fourth ave. were established.

Ald. Moore, of the street committee, then precipitated the expected fight by offering a resolution that N. Fourth ave. from Ann st. to Detroit st., and Detroit st. from Fourth ave. to Depot and Cary sts., be macadamized to the depth of eight inches, according to the estimates of the city engineer. Aid Moore insisted that the matter be attended to at once. Aid Cady grumbled about the cost. Aid Maynard felt much the same. The discussion was brief but feeling. Aid Coon moved that the resolution be laid over. Amid deep silence the vote was taken. Aid Maynard, Coon, Soule, Cady and Danforth voting in its favor. The motion was lost. Aid Coon moved that the resolution of Aid Moore be amended so as to read that the B. P. W. be directed to advertise for bids on such improvement. Aid Moore refused to accept the

amendment, but nevertheless it carried. The motion of Aid Moore as thus amended then passed by an unanimous vote, all the aldermen "leaping into the band wagon" with great alacrity.

The sidewalk committee then recommended numerous plank and stone walks and repairs. The aldermen, however, rested easy while Aid Coon's sedative voice read the long lists and paid none too much attention. But the committee is a good one and its recommendations were invariably adopted.

Bonds of City Treasurer C. H. Manley and Plumber J. F. Schuh were received and accepted. Supt. of Poor Siplely was directed to purchase a year's supply of wood providing he can do it cheaper now than later in the year.

Ald. Soule moved that \$35 be appropriated for the purpose of finishing the grading of S. University ave. between Twelfth and Ingalls sts. Aid Moore saw a chance to get even and moved that the B. P. W. be ordered to get bids for the same before the work was done. Aid Soule and Coon thought it meant a needless delay, and then the amount, they said, was so small. President Hiscock remarked with a distinct chuckle that something else beside the amount of money was to be considered. Some people were so careful how such jobs were done! The amendment carried.

Ald. Danforth spoke of the necessity of continuing the trimming of the city's shade trees. Aid Laubengayer then moved a reconsideration of the Detroit st. macadamizing question. The object was evidently the ordering of the work without the preliminary of getting bids. The motion to reconsider carried. Then Aid Moore moved the passage of his original motion shorn of the troublesome amendment. Aid Coon, Soule, Cady and President Hiscock spoke briefly. With consent of the council Captain C. H. Manley spoke earnestly and convincingly in favor of the question. He spoke of the fact that surprisingly little money had gone into street or other improvement in that portion of the city. A vote being arrived at, the list stood as before with the exception that Aid Coon reversed his vote and voted yes.

On motion of Aid Moore and suggestion of Aid Coon City Engineer Key and one member of the B. P. W. were authorized to go to Detroit and study the question of macadamizing.

An old well on Maynard st. was ordered placed in condition for travel. On motion of Aid Koch and a vote of 7 to 6 the resolution ordering the Washtenaw ave. sewer lowered six feet was reconsidered. President Hiscock announced that as acting mayor he certainly should veto the motion as passed. There was some discussion. Aid Maynard sorrowfully spoke in favor of the six feet depth, and felt certain that he has already lost some of his best customers because of the question. He did not care to lose more. He thought himself a fool for going on the council, and said so emphatically. Aid Koch remarked "for God's sake let's do something." The vote when taken showed 8 yeas and 5 nays—yeas, Aid Moore, Koch, Feiner, Laubengayer, Shadford, Rhodes, Soule and President Hiscock; nays, Aid Maynard, Dell, Coon, Cady and Danforth.

Crosswalks over Moore and Broadway sts. were ordered. Both the Fifth ward aldermen asked this. Aid Maynard then moved to reconsider the motion authorizing the advertising for bids for completing work on S. University ave. The aldermen were in a forgiving mood and on motion the work desired there was ordered done without the preliminary of asking for bids.

Brick crosswalks were ordered across Main st. on north and south sides of Huron st. and across Huron st. on west side of Main st. Nelson S. Garlinghouse was appointed.

**Just What's Needed.**

Exclaims thousands of people who have taken Hood's Sarsaparilla at this season of the year, and who have noted the success of the medicine in giving them relief from that tired feeling, wanting appetite and state of extreme exhaustion after the close confinement of a long winter season, the busy time attendant upon a large and pressing business during the spring months and with vacation time yet some weeks distant. It is then that the building-up powers of Hood's Sarsaparilla are fully appreciated. It seems perfectly adapted to overcome that prostration caused by change of season, climate or life, and while it tones and sustains the system, it purifies and vitalizes the blood.
