The Boston "Ludles' Deposit" Swindle. THE Eoston newspapers furnish a number of interesting details of the "Ladies' Deposit" swindle in Boston, and of the so-called President, Mrs. Sarah E. Howe, that have not bee ublished in the Times' specials. She and her gents have repeatedly declared that their in operation for forty years in Alexandria, Va., where it had been founded by capital furnished from time to time by benevolent Quakers anxious to aid virtuous and unpro-tected women. The object of the Deposit was Consequently, it was as willing to pay ninety-six per cent. per annum as half a quarter of that rate. At least three-fourths of the depositors are asserted

to live out of Boston, and never to have drawn their interest when it had fallen due, which has materially helped the "bank" to pay off city creditors. The fact has been revealed that a large number of Boston business men have, singularly enough, raised every dollar they could by selling se-curities, household furniture and personal property in order to put it in the Deposit. While they had no faith in its management or ultimate solvency, they were willing to incu the risk, reasoning that, if the establishment should onlylast one year, they would nearly double their capital, and then draw out the whole amount. The opinion that most of the deposits have been from the middle and lower classes is entirely erroneous. Many of the first families in that city are declared to have intrusted Mrs. Howe with the care of their funds to the extent of from \$1,000 to \$10,000 each, and to have sustained, as well as the business men, very heavy losses. The house in East Brookline street, where the bank was situated, was most expensively, though tawdrily, furnished. So many costly articles were bought and carried here last spring, at the time of its removal from humbler quarters, that the whole neighborhood wondered at such luxury. There are, doubtless, various branches of the Deposit, be residents of this city. Mrs. Howe's record. which has been industriously traced, shows to extreme disadvantage. Her age is given at dxty, and she is described as short, fat, very ugly, and so illiterate as to be unable to write an English sentence, or to speak without mak-

The Bridegroom's "Best Man."

The custom of a bridegroom's being attended on his marriage by a friend or relative, who is styled his "best man," as practiced at weddings in the present day, is of great antiquity, descending from our Saxon ancestors. THANKSGIVING.

By the president of the United States of America-At no period in their history since the United States became a nation has this people had so abundant and so universal reasons for joy and gratiude at the favor of Almighty God or been subject to so profound an obligation to give thanks for His loving kindness and humbly to implore His continued care and protection. Health, wealth and prosperity throughout all our borders; peace, honor and friendship with all the world; firm and faithful adherence by the great body of our population to the principles of liberty and justice which have made our greatness as a nation and to the wise institutions and strong frame of government and the society which will perpetuate it, for all these let the thanks of a happy and united people, as with one voice, ascend in devout homage to the Giver of all good. I therefore recommend that on Thursday, the 25th day of November next, the people meet in their respective places of worship to make the acknowledgement to Almighty God for His bountles and His protestion, and to offer to Him prayer for their continuance.

In witness hereof, I have hereunto set my hand and caused the seal of the United States to be af-

A Cat Show.

Although the twelfth national cat show which opened at the Crystal Palace recently, some of its predecessors, it was unquestionably better in quality. The animals were divided into classes, under the descriptions of short haired and long-haired cats. In the former the prizes for tor-toise-shell male cats headed the list; but the species seems to have become a rare one, for the pure tortoise-shell tom was unrepresented, and there were but two entries in tortoise-shell and white. The peculiarities of some of the exhibits attracted much attention from the numeran English black-and-white pet, Blackie by name, 4 years old, which is accusomed to sit up and beg like a dog. Blackie also possesses considerable skill in shaking hands, and entered the exhibition with the prestige of having won a prize two years ago. In the classes devoted exclusively to black cats, Miss L. B. J. KENDALL & Co., GENTS:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with "Kendall's Spavin Cure." one very large one; don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here: but if it does for all what it has done for me its sale will be very great.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement such as spavins, splints, curbs, callous, sprains, swellings, any lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for illustrated Circular which we hink gives positive proof of its virtues. No remely has ever met with such unqualified success to bur knowledge, for beast as well as man.

—The mausoleum of the late Mark Hopkins, just completed, has cost, with two or three exceptions, more than any public or private structure in Sacramento. The tomb proper is twenty feet long, sixteen feet wide and twelve feet high. It is built of huge red granite blocks from the Sierra Nevada, some of which it is said, weighed in the rough about thirty-six tons. They are doweled and jugaled together on the plan pursued in building the Eddystone Lighthouse. Black granite is used to some extent in the ornamentation and the style of the coping is Egyptian. The great stones forming the doors are opened by a complicated system of locks and bolts.

[Cleveland Penny Press.] Health of the American Eagle.
To relieve the monotony of the constant important sayings of "Our Candidate," "Our Next President" and "Our Fellow-Citizen," it is a pleasure for us to present herewith the opinion of one of Cleveland's most popular Druggists, Mr. E. A. Schellentrager, 717 St. Clair Street. The gentleman writes: I know of no remedy which has given more universal satisfaction than the Hamburg Drops. I have not heard of a case where they failed to benefit. The very large and daily growing demand for this Great German Blood Purifler, is a source of high gratification, for aside from the pecuniary gain, one takes pleasure in selling an article of such marked efficacy and

superior merit. He was saving, as he struck a lucifer on the HE was saying, as he struck a lucifer on the side of the house, "I like these houses with sanded paint; nice when you want to strike a match, you know." "Is that so?" she asked, demurely; "I wish I lived in a house with sanded paint?"—and then she looked things unutterable. If he had asked "What for?" she would have hated him. But he didn't; he took the him and the match was struck. he took the hint, and the match was struck

then and there. [Chicago Inter-Ocean.] He Would Run Like Lightning.

Speaking of candidates and records, it is safe to say, that if a man could be nominated for the highest office in the land, with as clear a record for being the fittest, safest and the best, as our famous German friend St. Jacobs Oil has, there would be no doubt of an election. Party, creed, or denomination would not enter into the canvass. Many of our most influential citizens are enthusiastic upon the subject of this wonderful oil.

THERE is a sort of caste in food, else the apper crust of mince pie would not look down upon hash.—N. O. Picayune.
