carriages and good horses, at reason-
able rates. Breaking colts and hand-
ling track horses a specialty; good
references given.P. Irwin,
Ann Arbor,

COURTYL LIFE.

Not what we would, but what we must. Makes up the sum of living. Hence a man more or less than just in looking and in giving. Swears clean to himself that he should be, and he says as the soldiers' proverb, "Me, whom the city holds, whose feet Have worn the stony highway, Familiar with its roughest streets— He swears as better my way. My cradle was beside the sea, And there I hope my grave will be." Old homestead! In that old gray town The stars are sad and blowing. Thy slip of garden stretches down To where the birds are bowing. But they're the soldiers' friends, The ships that go around the world. Dearest that little country house, Island, with pine beside it, Some peach trees, with unfruitful boughs, No flowers—or only such as rise Self-sown, poor things, which all despise. Dear country home! One I forget The least of thy sweet trifles? The window vines, which clamber yet, Whose blooms the bee still stiles? And in the woods the Indian pipe, That in the woods the Indian pipe? Happy the man who tills the field, Content with rustic labor, Ready to him his best and yield, Hat what may be to his neighbor, Well days, and sound nights—Oh can there be A life more rational and true? Dear country home of child and man! Dear country home of soul and spirit, That with the earliest breeze began, And has outlived the longest. Their lives perchance longed for, Who first were partners with us now. Perhaps our Babes, too, will fall; If so, no lamentations. For Mother, who so well shall all, And feed the unborn nation; Yes, and the words that menace now Will then be sworn by the babe.

—R. H. Stoddard.

A WINTER'S EVENING.

We lived not two miles from a busy little city whose bells, mellowed by water—for the river ran between it and us—blew cheerily over our ears, whose roofs and steeples flashed in our eyes all day under the warm sunshine. And whose lights, red and glowing, cheered our sense of isolation on lonely nights. We were isolated indeed. There was no house near us on either side.

The village at our back was as far away as the city in our face, and on either side of us were waste lands, through which the wind whistled, and the smoke climbing tall hills, and getting lost between tall trees as it left the river. In the daytime wheels rumbled busily enough along its track in summer, and in the winter sleighs and farm sleds, with their merry bells. But after nightfall few vehicles passed with the exception of the milk wagon, which, with its gleaming lanterns, was an enchanted spectacle to us children, as it rolled away into the unseen country beyond. No travelers were abroad, especially in the winter evening, with the exception of tramps, but these were sometimes numerous; and as our household was a little more than a mile from the town, and as the lights were seen at a long distance, and beckoned all sorts of vagrants to our door.

It was a wild February evening, with a fierce northeast hurling a blinding sheet of snow against the windows, hiding and muffling the city noise and lights, and obliterating all signs of life and movement. Feeling as far removed from the world as if we were keeping a lighthouse on a desolate island, the family were congregated in the wide, low-walled sitting-room, which was cheerful enough with lamp-light and fire, in spite of the imprisoned feeling which a snow storm will give even to the most thickly populated neighborhoods. One played on the piano the fitful, half sad, half merry strains of an old waltz. One worked with an air of absorption in brightly colored papers, while all the others, with the exception of our children, were contentedly tucked behind books and newspapers.

Having been kept in the house all day by the storm, we were beginning to find pictures and dolls monotonous, and not being alive to the beauty of the passionate strains of Chopin, we retired to the kitchen, hoping to find "Marthy," our chief help, in a busy, bustling manner. But one glance at her face assured us that the situation was hopeless. Her fingers were engaged in a too solemn operation to allow such frivolous use of her tongue at the same time. She was sewing Methodist buttons on to a Methodist apron, with strong, even Methodist thread. This is to speak more intelligently, she was making an apron for the fair in aid of the Methodist church across the river, of which she was a member, with buttons and thread which came from the store of a Methodist brother. Marthy scorned to sew with secular thread; she seemed to think that her labors would not be blessed in this case, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. So, though the buttons which she was fastening to the child's apron were much too large and coarse for the delicate blue cambric of which it was fashioned, that came from the Methodist store, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. So, though the buttons which she was fastening to the child's apron were much too large and coarse for the delicate blue cambric of which it was fashioned, that came from the Methodist store, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. So, though the buttons which she was fastening to the child's apron were much too large and coarse for the delicate blue cambric of which it was fashioned, that came from the Methodist store, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. So, though the buttons which she was fastening to the child's apron were much too large and coarse for the delicate blue cambric of which it was fashioned, that came from the Methodist store, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. So, though the buttons which she was fastening to the child's apron were much too large and coarse for the delicate blue cambric of which it was fashioned, that came from the Methodist store, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. So, though the buttons which she was fastening to the child's apron were much too large and coarse for the delicate blue cambric of which it was fashioned, that came from the Methodist store, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. So, though the buttons which she was fastening to the child's apron were much too large and coarse for the delicate blue cambric of which it was fashioned, that came from the Methodist store, and as for buttoning her garments with secular buttons, it was not to be thought of for a moment. The freshmen supper was held last Friday evening in Armory hall. It was one of the most successful suppers held in some time. About ninety ladies and gentlemen were present. The programs were gotten up in Dreka's most artistic manner. The menu showed that Hank has lost none of his old time ability as a caterer. The literary exercises were quite excellent and consisted of an oration by R. M. Duff, Anamosa, Iowa; a poem by Miss J. L. Duff, Anamosa, Iowa; class history, Albert E. Miller, Detroit; prophecy, Miss Lydia A. Mitchell, Kendallville, Ind.; The president of the class, S. D. May, delivered his address after which the supper was interviewed in good style. The following were the toasts: The class of '84, response by W. F. Whitman, Chicago, Ill. The sentiment was, "But as he framed a whole, the whole to bless, on mutual vows built mutual happiness." The Faculty, "ask of the learned the way." Chas. Ashley, Ann Arbor. Our boarding houses, "Our loss is their eternal gain." E. N. Scott, Battle Creek. The gymnasium, "And still new needs, new help, new habits rise, that grant benevolence on charities." Wm. A. Tumeq, Springfield, Ill. That football game, "He counted them at break of day, and when the sun set where were they?" A. H. Williams, Buffalo, N. Y. Our mortar boards, "For the apparel doth proclaim the man." C. P. Drummond, Plymouth, Ind. J. B. Whelan Tipton acted as toast master. The address of the president and the toasts were worthy of much praise. The remaining officers of the class are: Vice president, Miss Francis M. Skinner, secretary, Ill. Stanley; treasurer, Burr Whedon.

University Units.

The allopathic hospital is full of patients. The base ball will play the Ypsilanti club soon. All the faculty, it seems, will go to Europe this summer. The work on "political institutions" has been completed. Policeman Brown reports everything quiet on the campus. The base ball club has been challenged by the Dexter club. The pharmacists will have their class supper in about two weeks. The freshmen held their class supper at Hangerster's Friday night. Prof. Tyler has finished his work with the class in Shakespeare. Dr. Vaughan is a member of the Illinois state medical association. Prof. C. K. Adams has finished his work in the historical seminar. Dr. Coker's class in history of philosophy are through with their work in that study. C. H. Horton, of Randolph, N. Y., takes J. W. Vidal's place as nurse in the homeopathic hospital. The media has their written examinations last week. All the rest of their examinations will be oral. The university boys get accused in Detroit Monday by the Cass base ball club. The game stood 4 to 0. The senior pharmacists had a class meeting yesterday to see about having invitations to commencement engraved. A medic on the rampage last Thursday night threw a stick of wood through the window of a house near the campus. Miss Florence Holden, senior homoeopath, received the prize awarded in the obstetric examination by Dr. L. N. Eldridge, censor.

What Will be Done.

The company is organized for the manufacture and sale of the Langley electric light, the rights patented to him concerning the production of the light, the generator and other instruments for that purpose. Negotiations will be completed in a few days probably for the rental of the Duffy block on the East Liberty street, where the factory for manufacturing will be located, and from which it is likely the court house square, the hotels and other places will be lighted.

The Langley Light.

At different times The Free Press has noted the success of the successful exhibition of the light at Ahles' foundry, in this city, where it was then and is now manufactured. There were four lamps burning there with remarkable brilliancy, and giving an excellent light. Prof. Langley, who occupies the chair of general chemistry in the university, began his experiments with the Langley light in the month of October last. He constructed a generator for use in his class room and for the illustration of his lectures. At that time and for perhaps two years later he had no thought of making a business of it. The success of his experiment in perfecting the light finally attracted the attention of some Toledo gentlemen, when the project of its manufacture began to take shape. The result was several lights were made. Prof. Langley continued his experiments made further improvements, and he either has now or has applied for seven patents in all, relating to the light, the generator, the motor, etc., the latter being an especially important invention in that it regulates the light and almost entirely removes the flickering quality which is incident to the electric light, and a great drawback to its use.

A Letter from Gov. Ashley.

At a meeting a few days ago in this city of the stockholders of the T. A. A. & G. T. railroad, the following officers were elected: President, James M. Ashley, Toledo; secretary, Alfred E. Holman, New York; directors, Parker Haney, Chicago; John C. Smith, Detroit; Frederick C. Chapin, James M. Ashley, James M. Ashley, J. T. Jones, Toledo. These men have taken hold of the road in the interest of its early completion. A. W. Hamilton and H. G. Waldron of this city are still connected with the road, and actively engaged as heretofore in pushing forward the work. There are now forty men employed in laying the iron northward and the first section to South Lyon will be completed by July 1st, it is expected. It is well known that I was unable to go with the extension of my road last fall, and complete it, on or before the first of January, A. D. 1881, as I had stipulated, with those who had subscribed aid in money, material and right of way. The time for the completion of the road was purposely limited, and made a condition, in all the notes and obligations given by the public to the company. This limitation was intended as a guarantee on my part to each subscriber that I intended to go in good faith,

and build a railroad without delay, which should not only compensate all who gave aid, but benefit the public as well. I need not assure those who so generously labored for and gave aid to the enterprise, that my failure to complete the road last fall, as promised, was no fault of mine, nor need I add that my failure to get to Pontiac in January' first caused heavy loss. After a delay of several months, I have arranged with responsible eastern capitalists for the necessary funds with which to complete the first section of the road, to South Lyons upon the condition that the donated aid on said section whether in money or right of way which had lapsed by limitation, be renewed. I pledged myself to secure said renewals for the reason that it was made one of the conditions on which the money to finish the road was to be advanced. I have obligated myself, so that the aid in subscription and right way which had lapsed was renewed on each section: First section, from Ann Arbor to South Lyons; second, from South Lyons to Wixom; and third, from Wixom to Pontiac, as a condition for an advance of the money necessary to complete each of said sections in the order named.

WOMAN'S WISDOM.

"She insists that it is more important that her family should be kept in full health than that she should have all the fashionable dress and styles of the times. She therefore sees to it that each member of her family is supplied with enough Hop Bitters at the first appearance of any symptoms of illness. She has a little bottle of this medicine on her dressing table, and she has a little bottle of this medicine on her dressing table, and she has a little bottle of this medicine on her dressing table." Lydia E. Pinkham's Vegetable Compound is a perfect specific in all chronic diseases of the sexual system of women. Send for Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

HIS LAST DOSE.

Said a sufferer from kidney trouble when asked to try Kidney-Wort: "I'll try it but I will not be just done. The man goes well, and it is now recommended the remedy to all."

THE STOCKHOLDERS.

The following is a list of the stockholders: M. I. Wilcox, Herbert Baker, H. F. Stock, L. B. DeWitt, E. B. Duffingham, C. H. Bunker, J. C. Newton, J. T. M. Cooley, James Clements, E. B. Abel, John W. Langley, Philip Bach, Henry C. Waldron, J. F. Lawrence, E. Wells and Fred Bestner.

THE OFFICERS.

The following officers have been elected their terms to expire at the first annual meeting in September next: President, M. I. Wilcox, Toledo. General Manager, Benjamin T. Crane, Ann Arbor. Secretary and Treasurer, Eugene P. Abel, Ann Arbor. Directors, J. T. Newton, M. I. Wilcox, L. C. DeWitt, Toledo; Philip Bach, James Clements, Prof. J. W. Langley, Benjamin T. Crane, Ann Arbor.

WHAT WILL BE DONE.

The company is organized for the manufacture and sale of the Langley electric light, the rights patented to him concerning the production of the light, the generator and other instruments for that purpose.

THE LANGLEY LIGHT.

At different times The Free Press has noted the success of the successful exhibition of the light at Ahles' foundry, in this city, where it was then and is now manufactured.

Corbin, Ann Arbor; Miss Jennie Cornell, Ann Arbor; Edward N. Darrow, Homer; Elmer Dwiggrins, Rensselaer, Ind.; Emmet L. Hollingsworth, Rensselaer, Ind.; Miss Clara A. Hayley, Ann Arbor; Miss Abby L. Hitchcock, Ann Arbor; Chas. McClain, Ann Arbor; Thos. D. Phillips, Calumet; Hiram A. Sober, Ypsilanti; Elias F. Schall, Moore Park; Delos Thompson, Rensselaer, Ind.; Miss Ora Thompson, Rensselaer, Ind.; Miss Adell Wheeler, Ann Arbor.

Leader: It is too bad that that most exhilarating and muscle-provoking game, base ball, cannot be played without accident, but it seems fated to injure some body every time. The week before last the game at Chelsea had James McNamara up for over a week with a lame leg.

Ypsilanti: As Henry Hardy was grading down a rise of ground near the Point Creek church, where a school house has been standing, and after the ground had been lowered about five feet and leveled off, he thought he would plow the ground; the plow struck a hard substance, and on examination, he found a part of something that appeared to be a furnace or stove, or a very curiously made kettle.

There was enough in one piece to hold about a pair of water, in an indication of a fire on one side as though it might have been used for a stove. The question to solve is, how came it there nearly six feet under the surface? It was made of cast iron. They must have had a way of making cast iron in Noah's days.

Perhaps further investigation might disclose wonderful wonders.

The Chicago & North Western railway company have placed upon the trains of its Council Bluffs, Deaver, and California line, a line of the most modern, complete and comfortable dining cars in existence.

These cars were built by this company at its own shops, with a special regard to the needs of the patrons of the line. No expense has been spared in bringing these cars nearly to that state of perfection in every particular as it is possible to get, and being controlled, owned and operated exclusively by the company, they will run entirely in the interest of the traveling public.

The meals and service will be first-class in every particular, and will equal anything that can be procured in any strictly first-class hotel. The menu each day will include all of the delicacies of the season, and will present that variety and excellence that will satisfy the most fastidious.

Next Monday the Whitmore Lake tent meeting will commence and things will be kept red hot until the 14th inst. It is expected that many souls will be saved, for some 50 ministers are expected to lend their aid in the work of salvation.

For the benefit of our readers who may wish to attend the exercises we publish the program: Monday, p. m. preachers' meeting; 6:30 p. m., prayer meeting by J. C. Higgins; 7:30 p. m., sermon by Rev. Wm. George, Tuesday, June 7, is temperance day, and the crowd will be addressed by the following speakers: Rev. H. O. Parker, 9:30 a. m.; Rev. C. T. Allen, 10:30 a. m.; Prof. T. P. Wilson, 1:30 p. m.; Rev. D. R. Shier, 2:30 p. m.; Rev. J. C. Higgins, 3:30 p. m. In the evening, Prof. Samuel Dickie and Prof. J. B. Steere will wind up the exercises of the day.

Wednesday, June 8, Sunday school day. The speakers in the morning are Revs. H. O. Parker, Wm. Washington, and C. T. Allen. Afternoon, Mrs. L. C. York, Prof. Steere, and Rev. E. E. Carter. Services will also be held in the evening. From Thursday 9th till Tuesday 14th there will be regular camp meetings.

Among the speakers engaged, in addition to those above mentioned are Rev. W. J. Campbell, E. Bradley, Geo. W. Lowe, J. C. Wortley, N. N. Clark, D. J. Odell, A. J. Bigelow, L. C. York, F. W. Warren, J. H. Kilpatrick, L. L. Houghton, A. S. Fair, D. A. Curtis, W. J. Clark, Geo. Stowe, Dr. W. H. Poole, and many others. A revival meeting under the direction of Rev. J. C. Higgins will be held each day, and it is expected that every man, woman and child within a radius of five miles of the Lake will be converted.

is Hop Bitters. An ounce of prevention is worth a pound of cure; don't wait until you are prostrated by a disease that may take months for you to recover in—Boston Globe.

"MOTHER HAS RECOVERED," wrote an Illinois girl to her Eastern relatives.

"She took Bitters for a long time, but without any good. So when she heard of the virtues of Kidney-Wort she got a box and it has completely cured her, so that she can do as much work now as she could before we moved West. Since she has got well everyone who here is taking it." See ad.

Never ask a dyspeptic person what he wants to eat, but let him take a few doses of Baxter's Mandrake Bitters and his appetite will be all right. Price 25 cts. per bottle.

Henry and Johnson's Arnica and Oil Liniment is an external remedy for Man and Beast.

"Throat affections and bronchial diseases are relieved immediately by the use of Duwa's Elixir.

Man's Noblest Work. This is an age of great works and wonderful inventions. Steam, electricity, water, air, are all made to serve man.

Who questionably the greatest inventors are those which preserve man's health and prolong his life, and among the greatest of these is Dr. King's New Discovery for Consumption.

Its effects are truly wonderful and hundreds are happy to-day, who once looked forward to an early grave. For Coughs, Colds, Bronchitis, Asthma, loss of voice, Hay Fever, Hoarseness, Croup or any affection whatever of the Throat, Chest or Lungs, Dr. King's New Discovery will positively cure you.

We can cheerfully recommend it to all, and can unhesitatingly say it is a sure cure for Throat and Lung Affections. Trial bottles ten cents; regular size bottles \$1. For sale by Eberbach & Son, Ann Arbor, Mich.

Thomas Whittle and Peter Bena of Fenon, were convicted in the circuit court at Flint for selling liquor to persons in the habit of getting intoxicated, and were fined \$25.

Two valuable blooded colts owned by J. C. Backus, a noted local horseman of Tekonsha, became frightened while they were being led to pasture by a groom, and ran over a fence against a barbed wire fence, receiving injuries which may ruin their prospects for life. One of the animals, however, has been entered in the wire, the flesh being completely torn to shreds upon the fore legs above the knee, leaving a cavity upon the right side of the body.

The millers state convention was held at Kalamazoo and organized by Mrs. M. J. Pittsfield, Washburn county; Henry E. Rann, Benard's Mill, Shawano county.

Jacob Hunt, 70 years of age, committed suicide by hanging himself from a tree. He had been placed in a room in position, adjusted the nose of a lamp and jumped off the top of the tree. He had been suffering somewhat from the influenza of old age, but his friends can assign no cause for his act.

Charles A. Richmond, of Saginaw, has sold the Jewell House at Yassar to Detroit parties, who occupy immediately.

Alex. Sunderboom was drowned in a small lake about five miles from White Cloud. When found, his face and head were considerably bruised, causing suspicion that the boat had been foul play. A fishhook is being held and will probably bring out some points of interest.

THE LEGISLATURE.

May 24.—The Senate passed House Bill 317, amending the charter of the village of St. Johns, by carrying inflammable oils or fluids over passenger trains.

House 405, relative to letting contracts by State officers, boards of control, etc.

House 406, amending the charter of the City of Alpena.

House 407, relative to the organization and management of the insane.

House 408, amending the laws providing for the publication of laws and documents of the State.

House 411, repealing obsolete highway laws.

House 412, appropriating swamp lands for the removal of a jam or raft of food wood from the Shiawassee River in Saginaw county.

House 413, repealing the Detroit Park act of 1871.

House 414, repealing the thirteenth, nineteenth and twenty-first acts creating the township of Grand Rapids.

House 415, repealing the act creating the township of Grand Rapids.

House 416, relative to the State Library.

House 417, for the construction of a drain in Porter Township.

House 418, for the adjournment was amended so as to make the date for closing business June 8, and of final adjournment Saturday, June 10.

House 419, and of the senate, the following was passed on third reading: House joint resolution 19, for the relief of Alfred J. West.

House 420, detaching the same to Bay County.

House 421, amending section 3 of the consolidated general laws, section 2945, compiled for the year 1881.

House 422, amending laws relative to proceedings against debtors by attachment.

House 423, for the amendment of the Constitution relative to the salaries of judges of the Supreme Court; recited, reconsidered and passed.

House 424, amending laws regarding salaries of State officers.

House 425, to compel steam vessels to provide for the safe storage of stocks.

House 426, to punish duress; lost.

House 427, for the incorporation of business firms in Michigan.

House 428, amending laws for the taxation of plank road companies.

House 429, relative to offenses against property.

House 430, repealing acts relative to bottles and glass vessels.

House 431, repealing the Detroit Park act of 1871, were read on the table.

House 432, reorganizing the military forces in the lower peninsula and reorganizing the militia.

House 433, amending laws relative to the passage of the Union Depot bill; of Judges Bros. and Addison and ninety-eight others.

House 434, amending laws relative to the passage of the Union Depot bill; of Judges Bros. and Addison and ninety-eight others.

House 435, amending laws relative to the passage of the Union Depot bill; of Judges Bros. and Addison and ninety-eight others.

House 436, amending laws relative to the passage of the Union Depot bill; of Judges Bros. and Addison and ninety-eight others.

IS ABSOLUTELY NO FOUNDATION FOR THE STORY.

The following is a story which could possibly give the least excuse for inventing such a falsehood. The whole matter is a groundless invention. Vice-President Arthur said, "The whole story is a sheer fabrication. There have never existed any grounds for even the invention of such a story."

One hundred Indians were left at Fort Buford on steamers, guided by three companies of soldiers, for Fort Yates. They were accompanied by the Indians to Standing Rock. They are contented and cheerful and willing.

A local freight on the Louisville & New Albany Road ran on the track near Chambers, wrecked fourteen cars and killed a number of brakemen. Two men stealing a rifle had legs broken.

Vice-President Arthur, Conkling and Platt have arrived in New York. Arthur and Conkling stepped from the train he walked slowly and steadily with the appearance of a tired and careworn man. Very soon, however, he appeared as a man who had been abused and mistreated by reporters, and he uttered his bearing immediately. He began to talk pleasantly with his friends, and spoke in a voice loud enough to be heard by several persons of his confidence in the crowd. Later in the afternoon he was assured a friend that enough names could be obtained for a caucus had been thought advisable to hold here on Wednesday.

Fruit prospects in Indiana and Kentucky are reported as encouraging.

Charles Kahlo, of Indiana, has been appointed consular general at Berlin.

The Albany Express (Conkling organ) abandoned its support of the republican cause. The Albany Express is now supporting the republican cause.

General Stephen A. Hurlbut has accepted the mission to Peru, and will sail from New York on the 20th of June.

Tammann declares against any alliance with the Democrats in the New York legislature with either the Conkling or the anti-Conkling Republicans.

It is announced from Washington that the subordinate officials of the treasury department, against whom grave charges of irregularities and mismanagement have been made, are to be suspended pending investigation.

Declaration day was very generally celebrated at Gettysburg. The Hon. Julius C. Burrows was the guest of honor. The Hon. D. B. F. Dunsell of Minnesota; at New York, the Rev. William Haskell; at Philadelphia, Gen. Harry H. Binham; at Cincinnati, Gen. H. S. S. Powell of Delaware; at Toledo, S. Meyer of Cleveland; and at Memphis, Judge James G. Blaine.

The claim of the United States against Great Britain for damages for outrages inflicted by a Canadian mob upon American fishermen at the mouth of the St. Lawrence River, has been settled by the latter by the payment of \$150,000. The amount originally demanded by the United States was \$250,000.

Henry Ward Beecher has been interviewed by the Nashville correspondent of the Louisville Journal, and according to the report of the Louisville Journal, Beecher has made the following comments on the New York situation.

An accident on the Pennsylvania railroad near Trenton, N. J., resulted in the death of a woman and the serious injury of many others.

Base Ball.—Westchester, 4; Detroit 4.

FORGIVEN.

The Daily News' Paris correspondent says the Citizen is to be prosecuted for publishing the names of the persons who attended the funeral of the late Emperor.

Several more arrests reported in Cape under the coercion act.

The home rule members of parliament will meet in London shortly, and the secretary for the league in place of Brennan.

The Car in receiving the Jewish deputation at Gatchina, requested them to inform their religious leaders if he has made no difference between his subjects on the ground of religion and nationality, and said he knew how long the Jews lived peacefully among the Christians.

Mr. Hest, publisher of the London Freehold, has been found guilty of the charge of inciting to rebellion. Sentence was deferred.

The tide of emigration from the south of Russia is steadily decreasing. There was a decrease of 45 per cent. in April, compared with the corresponding month last year. The returns of the year 1880 show a far show a decrease of 25 per cent.

The government states that a manufacture for explosives and bombs has been discovered near the frontiers of Russia. Two persons have been arrested, and another whose name is unknown.

The Bulgarian government arrested ex-Minister Karaveloff, and proclaimed martial law in Ruse, Kist, Widan and Timovo.

Defalcations amounting to 80,000 drachms have been discovered in the Greek treasury. Several persons have been arrested for complicity.

A young girl, Sarah Jane Potter, while walking on the railroad track near Cambridge, Ohio, was struck by a train and killed.

The Grand contract was approved by the Mexican senate. Grant and Leiza leave for the United States.

Princess Louisa, acting under advice of physicians, has postponed her departure from England to a later date than July.

The noted brigand Nico has captured a rich landowner at Vadina, in Roumelia, and demands 20,000 francs for his ransom.

The Budget committee of the chamber of deputies report that the cost of the Tunis expedition will not exceed 14,000,000 francs.

A new case is being made in France, or presentation to the monetary conference on its resumption. It is composed of gold and silver in equal proportion, and is to circulate at five francs.

TERRIBLE WRECK.

The STEAMER VICTORIA COLLAPSES LIKE AN EGG SHELL A MILE FROM LONDON, ONT., AND 600 EXCURSIONISTS PLUNGED INTO THE WATER.

On the evening of the 24th, at 6 o'clock the steamer Victoria, with over six hundred excursionists on board, was returning from Springfield, and near the Cove Railway bridge, one mile below this city, the boat suddenly collapsed like an egg shell, and became a total wreck on a level with the water's edge. All the passengers were instantly plunged into the stream, more than half of them being underneath the debris.

The first news, which reached the city, was brought by the survivors, who struggled through the weeds wet and weary. The news felt like a thunder bolt, and a tremendous crowd gathered for the spot. Arriving there a horrible sight met the eye. Fifty or sixty bodies had already been recovered and were lying on the greensward, some distance up the bank.

Those arriving from the city from every direction crowded around, anxious to see if any relatives were on board. Several hundred families were represented on the excursion, and the wail of anguish that arose at the sight of the victims was heartrending.

Fathers, mothers, brothers and sisters rushed about piteously, endeavoring to identify relatives. By 7 o'clock about eighty bodies were recovered from under the wreck, while the water is twelve feet in depth. Almost every one has been identified, and a horrible sight met the eye.

The inquest in the London disaster began Saturday, but was adjourned till Wednesday next. The evidence taken reflects in a damaging manner upon the management of the steamer.

FROM LANSING.

Final adjournment day—Passage of the Ontario & Erie River and Bay Bridge Act.—Representative Apportionment.—Miscellaneous.

LANSING, May 27, 1881. As we predicted in our last, when the matter of fixing the date of final adjournment came up in the house on Tuesday last, that body decided that the day proposed by the senate (June 4), was sooner than they could possibly finish up the business, so changed the date to June 8th, as the last day of doing business, and June 11th as the day for final adjournment.

The senate adjourned on Tuesday, the 26th, and the house adjourned on Wednesday, the 27th. The adjournment was a unanimous one, and the vote was 100 yeas and 2 nays.

The famous bill to confer certain lands, rights, franchises, powers and privileges upon the

Ontario & Erie River R. Co., which was under discussion in the house when we closed our letter last week, was finally ordered to a third reading and made a special order for the 25th. When it came up for its final passage it received yeas 65, nays 24, and was declared lost by speaker Moffatt, not having received a vote of two-thirds of all the members elect.

It was reconsidered, a recess taken until evening and then on or two more yeas were present, who were not present in the afternoon, and one or two changed their votes, so that it was then passed, receiving 69 yeas and 23 nays. Its friends confidently asserted that the necessary two-thirds can be secured in the senate to pass the bill.

THE COMPILER QUESTION.

has been again a bone of contention in the house for a day or two more, of the present week, a bill to proceed to the election of a compiler in the usual constitutional way having been under discussion.

The bill was finally passed by a vote of yeas 65, nays 24, and was declared lost by speaker Moffatt, not having received a vote of two-thirds of all the members elect.

REPRESENTATIVE APPOINTMENT.

and has finally placed the senate bill, as given two weeks ago, on the order of their reading.

MISCELLANEOUS.

The joint resolution increasing the salaries of the circuit judges came up in the senate on the 25th and was lost. Yeas 18, nays 9, not the necessary two-thirds vote.

It was reconsidered and will probably fare better the next time. Governor Jerome has nominated and the senate confirmed Peter B. Loomis, of Jackson, as member of the state board of charities via Lieutenant Governor Crosby resigned, and John A. Greenvale, of Greenville, as member of the state board of health, vice Dr. Kozdie, resigned.

The Governor has also nominated the five members of the tax commission recently provided for by the present legislature. As the nominations have not yet been acted upon by the senate, the secret as to who the nominees are has not been removed. It is generally understood, however, that there is some opposition to their confirmation, chiefly on account of the location from which they were chosen.

The Iowa Reformatory investigation closed to-day, after a long list of witnesses had been examined on both sides, and the joint committee are expected to be able to report next week. It is now believed, in advance of the report, that the investigation has not succeeded in establishing the charges of incompetency, etc., against the Wardens. It is also believed, however, that the board of managers and prison officials are not in harmony with each other, but are at sixes and sevens, and so speak, and that the institution should have, as some of the members of the committee express it, either a new boom of managers or a new Warden.

Speaker Moffatt was on the 25th presented by the fourteen messenger boys of the house with a beautiful gold-plated silver water pitcher, goblets and slop bowl, Representative Kinney making a neat presentation speech to which the speaker feelingly responded.

Governor Jerome has approved the consolidated school bill providing for a board of county school examiners. "The Governor has signed the liquor tax bill, but it was passed so late in the session that it can only apply to those who wish to engage in the business

THE TENT CATERPILLAR.

This diabolical marauder of the fruit garden, can be readily destroyed as follows: Take a strip of cotton or linen cloth, wind it upon the end of a stick and saturate it with kerosene oil; then ignite it and hold it just beneath the "nest," so that the flames will ascend into it. It will get off, and will burn for a few seconds, and then withdraw it for a short while, so as to keep repeating the operation as long as any of the worms wiggle or otherwise show signs of life. This manner of cremation will wither and discolor the leaves that come in contact with the flames, but will not kill the caterpillars if subjected to the flames no longer than two or three seconds, as a spark may be lurking in it, and in applying the oil may result in something serious.

The Dominion Government has fixed the price of its pre-emption lands to actual settlers at \$2.50 per acre, and expects a very large immigration this season from Great Britain and Ireland to occupy them.
