

ANN ARBOR DEMOCRAT.

THURSDAY MORNING... February 9, 1882.

Entered as Second Class matter in the Post Office at Ann Arbor, Mich.

THERE is no reason why church property should not be taxed just the same as other property, and we hope to see a law passed to that effect.

We never did take any stock in the fellow Boneteon. In the first place we don't believe he has the cause of temperance at heart, and is only engaged in the work for the money he can make out of it.

Mr. H. P. MYRICK the editor of the Register still sticks to Mr. Hamilton. But the business manager, Mr. Conrad, is well pleased with the postoffice location and so informed a DEMOCRAT reporter Monday.

Guiteau, the assassin, found fault with the court, the attorneys who defended him, and now the confounded fool finds fault because he has been sentenced to being June 30. Some persons are never satisfied.

We are pleased to know that THE DEMOCRAT continues to grow in public favor, and that our efforts to give the public a readable paper is appreciated. The circulation of THE DEMOCRAT is steadily increasing—and why? because it is the local paper of the city.

By the time that the question of a new trial in the Guiteau case has been decided it will be warmer weather. The suggestion of the Adrian Times to have the assassin executed on the anniversary of the shooting of president Garfield is a good one, notwithstanding it comes on Sunday.

The pomological society has taken a move in the right direction, and hereafter if fruit growers live up to the resolution adopted, the people will no longer be swindled in purchasing fruit. It is a notorious fact that for years certain dealers have imposed upon the public by giving poor measure. Mr. Page hit the nail on the head when he said it was downright robbery.

The proposition of speculators to purchase Guiteau's remains and exhibit them throughout the country is too disgusting to entertain for a moment. The government should take possession of the body and cause it to be secretly buried, where body snatchers and ghoulish speculators cannot find it. It should not be delivered to his relatives, or there will be some further terrible scandal about the disposition of the remains.

Gov. JEROME has called a special session of the legislature for February 28, to consider the new tax bill prepared by the tax commissioner appointed last spring.

Under the law legislators cannot receive pay for more than 20 days at any special session, and this provision practically limits the length of the session, as our patriotic representatives are not prone to devote their time to the public for any lengthy period, unless paid for it.

It is therefore more than likely the business of the session will be rushed through. There have been only three special sessions of the legislature since 1850, and it is to be regretted that the state is to be afflicted by this year.

The course of the Free Press in defending the thieves and abortionists of Detroit, and those in office who aid and abet them, has attracted the attention of the decent and reputable people of this community and excited their universal disgust. Of course it is a clear case of sour grapes, but this doesn't make the slightest difference with the facts. No one will suspect Mr. Quincy of "standing in" with the disreputable persons who invest Detroit, but it's disgusting to see him attack those who are trying to bring them to justice. There is one consolation, however. If the Free Press' defense has the usual result in this case, it will land all the thieves, abortionists, and murderers in the state prison, a thing devoutly to be wished.

Rev. David Edgar, editor and proprietor of the Dexter Leader, died Saturday of pleuro-pneumonia in his 51st year. In May 1880 he purchased the office and good will of the paper which flourished under his management. Mr. Edgar was born in the county of Down, Ireland, Sept. 30, 1831. In 1844 with his parents, he emigrated to this country and settled at Lansingburg, N. Y., where he remained until 1857. At Lansingburg he attended an academy, and went through the preparatory course, entering Princeton college in 1851 from which he graduated in 1854, with the degree of A. B. In 1854 he entered Princeton Theological seminary, and graduated from that institution in 1857 at which time he received the degree of A. M. Soon after he received a call to minister to the Presbyterian church at Haverstraw, Rockland county, N. Y., where he remained one year. After that he was pastor of churches in the following places: Dansentburg, N. Y., two years; Troy, N. Y., seven years; Napoleon, Ohio, four years; Upper Sandusky, two years; Parma, Mich., Raisin, four years. The funeral was held Monday.

P. T. Barnum's Greatest Show on Earth, combined with the Great London Circus, Sanger's Royal British Menagerie and International Allied Shows; 3 circuses in 3 rings; 2 menageries in 2 tents, 1 museum of living human curiosities, 1 Hippodrome with nearly half-mile track, making 7 monster shows united; this, and this only, is its title for the coming season. It will have five magnificent advertising cars in advance, each manned by eighteen men, besides the large corps of first-class agents, whose salaries average all the way from three to ten thousand dollars per annum. The daily expense of the show will foot up not less than \$4,000 dollars. The tents will be much larger than those used last season, and for the most capacious ever made. The show does take a great deal of money, to be sure, but it is enough to make the treasurer of the United States weak to think how much it costs to run it.

A good Baptist clergyman of Bergen, N. Y., a strong temperance man, suffered with kidney trouble, neuralgia, and dizziness almost to blindness, over two years after he was told that Hop Bitters would cure him, because he was afraid and prejudiced against "Bitters." Since his cure he says none need fear, but trust in God.

An Iowa man got up a Bible with one page of holy writ alternating with a page of advertisement of business houses. He thought the advertisements would be read.

Good woman, why are you so out of sorts, never able to tell folks that you are well? Ten to one it's all caused in the first place by habitual constipation, which no doubt finally caused deranged kidney and liver. The sure cure for constipation is the celebrated Kidney-Wort. It is also a specific remedy for all kidney and liver diseases. Thoroughly cured by a firm of Druggists, and cured by a firm of Druggists. Try it once. Toles' Bitter.

"What the dickens do you call your medicine?" asked a ton of a woman teamster. "Wal," said the interrogated, "it's the high mule of the par, an I tick the name out the Scripter—An, a nigh ass."

The Boston Post has been there. It says truly: "When a physician regards a case as hopeless he advises the patient to travel, and thus gets rid of having the victim die under his care."

FARMERS AND MECHANICS.—If you wish to avoid great trouble and trouble, it requires a good deal of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and the trifling cost of fifty cents a bottle. Exch.—Sold by Eberbach & Son.

Efforts are being made to revive capital punishment in Wisconsin. It was abolished in that state about 25 years ago.

A man's blood corpuscles average 3,200 to an inch, a hog's 4,300. When you see a party spreading himself over a dozen seats on an excursion steamer, you may know exactly how many corpuscles he possesses.

A silver cup, the Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. William's Indian remedy, called Dr. William's Indian Ointment.
