We have a state law forbidding boys under 16 years of age in saloons in this city. Why not enforce it in this city, Mr. Police?

The Catholics of this city are now active in work to raise the necessary funds to erect a large and commodious school building next spring for the sisters, as the present one is inadequate to accommodate the scholars asking admittance.

The Good Samaritans (colored) held a meeting last Tuesday evening in their rooms on Main street. Quite a number were initiated, the occasion being a visit of the deputy grand master from Detroit. This lodge now numbers upwards of fifty, and they are a benevolent society.

The fight between two ladies of color on Fourth street last Tuesday morning was, to say the least, disgraceful, and upon a repetition of such acts their names will occupy a prominent place in the local columns. It is rumored that the whole thing was brought about by jealousy.

The colored people are about to call a state convention of colored people together to see what they can do to have their claims respected by the several parties asking for their votes. A move in the right direction. Name Ann Arbor as your place, and we will guarantee you a hearty welcome to our beautiful city.

Miss Eliza Haley has sold 161 tickets at twenty-five cents each, for a raffle for a barrel of flour in aid of the Sisters of Knock, Ireland, who are struggling to build a school there. The object is a noble one. The raffle will take place next Saturday evening, September 1st, at J. M. Martin's law office, opera house block.

Coming off the board of health ought to visit the lanes and alleys and see that they are cleared of all rubbish; and also that all outhouses are in a proper state before winter sets in upon us—for upon them in a great measure depends the health of our inhabitants. Nothing like cleanliness as a preventive of disease.

Anton Eisele, the well-known manufacturer of granite monuments, has recently completed tombstones for A. L. Noble, Frederick Knapp, Samuel M. Fay and J. B. Lanpher. In addition to this he keeps a large force of men cutting stone for the sixth ward school house, and the society building on State street, and for A. L. Noble's palatial residence.

The janitor of the opera house has concluded to open up a free reading room in the entry leading to the up stairs—all for the benefit of the homeless that make that their abode evenings. Open only evenings.

At the next ladies fair to be held in October a cane is to be voted for to be presented to the handsomest young man in the city—the principal contestants will be, they say, a young man that runs Duffy's tea emporium and one that talks several languages and one that waits on the ladies at McIntyre's Bee Hive.

Henry Stebbins of Dexter, proprietor of the Exchange at that place, keeps a hotel worthy of the support it receives. Every thing is of the utmost politeness, and every one made to feel himself at home. Dexter may well be proud of such a well kept hotel, and Henry and his wife know how to do it.

Four young boys, from the ages of 11 to 14, were arrested by the police and sent home to their parents. Some had been away from home two weeks tramping. Parents all wealthy. Sad commentary on the youth of this country; but we venture to assert that dime novel reading and Police Gazette reading is the cause of it. The publication and sale of such trash called literature should be suppressed.

Three years ago a young man came to this state from Sandusky, Ohio, and located in the village of Chelsea, went into business and was doing well, but in an evil hour he took to drinking; had to sell out; went on a farm, and only a day or two ago he was an inmate of the lock-up there, paid his fine and departed for home, a sadder if not a wiser man. Yet why publish this—it will be no warning to the rest that are on the downward track.

The small boys in this city have been in the habit of getting on freight cars, and letting off the brakes, but it appears that had happened one too often, as on last Monday when the brakes were loosened the cars plunged into the ditch and delayed the trains, and a force of men were all day busy getting them on the track again, and the railroad employees had eight or ten arrested for the offence. So boys, beware, as the offense is punishable only by serving a term in state prison. Let it be a warning, now to all boys, and steer clear of cars, unless you have business there.

The Catholic cemetery seems to be well cared for. Everything is in order, and on the whole it presents a very pleasing appearance to a stranger. The site is beautiful and from it you can obtain a delightful view of the city. The Catholics are to be congratulated for the manner in which it is kept. Some very handsome monuments add beauty to the enclosure—among the lot we noticed Rev. Fathers Van Erp's, O'Hara's, and the one erected over the grave of Mrs. Ellen Martin, who died here last spring. All worthy tributes to the memory of the departed ones.

Peter Long was arrested last Monday on complaint of one Thomas Devine, charged with assault and battery. His trial occurs next Monday before Justice Brennan. Devine claims that after Long got all his money—\$13—he kicked him out because he had no more. That's his story. When you hear Long's it may be different. Whiskey at the bottom of all.

As one our justices was leaving his office last Tuesday evening he was terribly alarmed, as he fell head over heels over a party of sports bent on mischief. The poor man was on the eve of yelling police, when his lifeless form was picked up off the sidewalk and conveyed to the nearest drug store, where he was sponged with a little water, and all right, he got up after regaining his senses his first words were, "Mine Gott I'm killed." Now, this must be kept a secret, and upon the crowd pleading secrecy they separated for their homes, but it was too good to keep, so "Mike" let the cat out of the bag, not expecting, however, it would appear in print.

A PERFECT REMEDY IN TWENTY DISEASES.

ASHFIELD, MASS.
I am verging on eighty years, and deem it my duty to suffering humanity to say that my long life is due to BRANDRETH'S PILLS, which have been my sole medicine for half a century. I know the last forty-three years of my life is owing solely to their use. Your PILLS saved me many times after the best medical skill in several states had given me up as hopeless. I have had many converts to purgation with BRANDRETH'S PILLS, and have seen them perform almost miracles of cure. For children, a few doses have cured measles, scarlet fever, and whooping cough. In all female troubles and weakness I have never known them to fail. In adult males I have known them to cure the worst cases of dyspepsia, dysentery and diarrhoea, even dropsy, paralysis and apoplexy have yielded to the persistent course of BRANDRETH'S PILLS. In fact I have found them the true Life Elixir. They act as continual preventives against the effects of time, disease and labor.

JOHN H. MANN.

That Cat-Hole Again.
EDITOR OF DEMOCRAT: While much is being said and written of late about the long standing nuisance of the cat-hole in the sixth ward, a few facts in relation to it may be interesting to the public. Many years ago a business man, residing in this city, informed a writer that he had offered the principal owner of the cat-hole \$400 for her interest therein, which she refused. In fact, he said he was willing to undertake the job of draining or filling in the same, so that there would be no water there for \$100, and wait for his pay till the next season, should demonstrate that the object was accomplished. Years passed, new buildings were erected, and improvements made in the vicinity of this nuisance, and the land on which it stands greatly increased in value, until a year ago last spring, when a well-known efficient business man of the sixth ward offered her \$1,200 for it. His design was to fill it up till the water flowed away towards the river. This he expected to do for his individual interest entirely at his own expense, and then divide the land into building lots. His offer was rejected.

The case, then, is substantially this: A certain individual of great wealth, in no need of money, refuses to sell a piece of land on which is a nuisance, sending forth the germs of disease to all living in its vicinity, or to remove it herself. He is quite willing others should make improvements, thereby increasing the value of her land, on which the nuisance is situated. That it is a nuisance is proved by the facts of disease in its vicinity; the declarations of every physician whose opinion has been asked, and by the repeated decisions of successive boards of health from year to year. The owner of the land and the board of health are the only persons that have a legal right to interfere in this matter. The public, with interest, await their action.

Gents—I take this opportunity to express my gratitude for what your Rheumatic Syrup has done for me. After suffering over one year with the rheumatism in my shoulders, so I could hardly get my coat on without help, a friend induced me to try one bottle of Rheumatic Syrup. After taking it I could see such a decided change that I continued its use a short time and it cured me.

THE NEW PATENT DUST-PROOF Stem Winding Open Face Case, MANUFACTURED BY THE American Watch Company, WALTHAM, MASS.

This case is formed in one solid piece, without joint or seam, opening in front only, thus avoiding the usual Cup, and securing greater strength and durability.

These Watches are all open face. The bezel, into which an extra strong crystal is fitted with an especially prepared water-proof cement, is attached to the case by screwing it thereon, and thus forms an air-tight junction with the body of the case, which is proof against dust and moisture.

To railroad men, travelers, miners, lumbermen and others who are almost constantly exposed and who have to make frequent reference to the watch, these qualities are of the utmost importance.

The following letters tell their own story:
"VALDOSTA, GEORGIA, July 20, 1882.
"I sold one of your Patent Dust-Proof Cases about ten months ago, and the other day it came back to me with the request that it wind easier. On examination I found that the stem was rusty, and I inquired into the cause of it. The gentleman stated to me that he was starting some saw-logs that had lodged in the bend of the river, when his chain caught in a bush and threw his watch into about twelve feet of water, and that he was about two hours finding it. When he got it out it was running, and he thought all right. In about three weeks he found that the stem was hard to turn and sent it to me.
"I can say that the watch is all that the company claims for it and recommend it to all railroad and mill men."
"B. W. BENLEY."

"CLINTON, IOWA, APRIL 20, 1881.
"I wish you would send me a spring for the Wm. Ellery Watch."
By the way this Ellery is a watch I sold in your Sewer Bezel Case to a farmer last fall. The first of January he lost the watch in the woods, and found it this week in about one foot of water. It had lain three months and over in snow and water, with but only slight injury to the watch—only a hair-spring."
"C. S. RAYMOND."

The above were very severe tests, and demonstrate beyond a doubt, that for any reasonable length of time during which a watch might be under water it would receive no injury whatever.
We make these cases in both gold and silver, and as a **Perfectly Dust-Proof Stem Winding Watch Case, Challenge the World to Produce its Equal.**
