All civil and military organizations, or individuals, upon foot, mounted or in vehicles are invited to join in the procession, led by the Grand Army Post and Co. A. of the state troops. National Encampment, G. A. R. An elegant and very tasteful circular, bearing on the corner the time-honored badge of the G. A. R. in bronze and colors, comes to us from the Michigan Central, "The Niagara Falls Route." It presents to the veterans all the necessary information about the various attractive routes it offers to the national encampment at Portland, Me., June 24, and in of unusual public interest.

The movement to an eastern trip, combining a visit to old friends, and attendance upon the largest and most notable military reunion since the war, are irresistible. Members of the G. A. R. and W. R. C., their families, and such bands and other organizations as may accompany them, can purchase of the Michigan Central, at the lowest rates, round trip tickets to Portland and return, good for thirty days, and with the privilege of stopping over on the return trip. The first route takes them right through in about forty-one hours via Niagara Falls, Buffalo, Albany and Boston, and will be taken by the commander-in-chief and staff, whose special train will leave Chicago, Toledo and Detroit on the 20th. This route has the advantage of the finest views of Niagara from the train, the grand scenery of the Berkshire mountains, and the historic city of Boston.

The second route takes them through the wild, wonderful scenery of Canada by the new line of the Canadian Pacific, via Ottawa, to Montreal, thence past Memphis and other lovely New England lakes, by the only line running through the heart of the White Mountains to Portland.

The third route described takes them by the brink of Niagara Falls and over the great cantilever bridge, through the rich fields of western New York, by the bewitching beauties of the Thousand Islands, down the rapids of the St. Lawrence to Montreal, and then through the White Mountains by Fabyars' and the Notch, past the very feet of Washington, Adams and the other great peaks of the Presidential range. A special train will run by this route and a special steamer chartered.

The Michigan Central justly claims that no other line offers comparable attractions, greater comforts or lower rates. It is first and foremost "The Niagara Falls Route." From the cars on no other road is a good view of the Falls obtainable; while the Portland and Ogdensburg is the only line passing through the heart of the White Mountain region, no other running within sixteen miles of Mount Washington.

A beautiful engraving of Niagara Falls with the Michigan Central train stopping at Falls View, and a clear, well executed map showing in color the different routes accompany the circular. We presume that any Michigan Central agent can supply a copy, but a postal card to O. W. Buggles at Chicago will undoubtedly procure one.

Baking Powder Nymphs. A band of confidence operators, with a grand-nephew scheme, has been let loose in this vicinity to prey upon and annoy our housekeepers. The operators are generally women, although employed and directed by an agent of the other sex, and their method of procedure, as explained by several ladies who have been victimized, is as follows: These women call at private residence and maneuver to get access to the kitchen, where they introduce the subject of baking powder, inquiring the kind used in the family. Being shown the can, perhaps a fresh full tin, they volunteer to "test" it to ascertain its qualities. Their "test" consists in placing the can on a hot stove or over a lamp or gas jet. If the baking powder is good for anything the heat will, of course, expel the gas, which, being ammoniacal or carbonic, is apparent to the sense of smell. The claim is then made that this odor indicates something detrimental, although, as a matter of fact, a baking powder that would give off no gas when subjected to heat would be almost leaving powder and worthless.

Circulars are left with the housekeeper commending the brand of baking powder tested, and putting forth the claims of some other brand as the "only pure," etc.; or the new baking powder is offered for sale, or orders for it are taken to be turned over to the family grocer.

Were this the whole of the trick, housekeepers would not often be deceived. Every intelligent person knows that baking powder is not made to be used in this way, but in a mixture with flour and water, where its action is entirely different from that produced by dry heat. But the chief object of this jugglery is to destroy the baking powder given for test; or by heating it to drive off its leavening gases and so weaken it that when used it will fail to work. At the next baking there is heavy food of course, and the "tramp" probably gets the credit of having told the housekeeper a valuable fact, instead of spoiling her baking powder, as was actually the case. The average tramp will in this way destroy from 50 to 75 pounds of baking powder a day.

A second method of spoiling for use baking powder in a kitchen where they are permitted to experiment with it, is by dexterously throwing in the can a small quantity of salt, soda, or powdered lime. Again, should there chance to be no baking powder in the house, the operators will produce, of the kind used by the family, a sample that has been purposely adulterated or "doctored" to make such an exhibit as they desire under the so-called test.

The only way to protect our food from contamination by means of this kind is to turn all persons who wish or attempt to tamper with it unceremoniously from the door, and to use those articles only which our own experience has proved satisfactory, or the official tests have established as pure and wholesome.

In these "shutting down" times it is evident that 10 mills do not make a cent. The only way to have a friend is to be one. VERY REMARKABLE RECOVERY.—Mr. George W. Wilcox, of Manchester, Mich., writes: "My wife has been almost helpless for five years, so helpless that she could not turn over in bed alone. She used two bottles of Electric Bitters and is so much improved that she is able now to do her own work." Electric Bitters will do all that is claimed for them. Hundreds of testimonials attest their great curative powers. Only fifty cents a bottle at Eberbach & Son's.

The check is apter than the tongue to tell an errand. A Present! Our readers, for 12 cents in postage stamps to pay for mailing and wrapping, and names of two of our friends, will receive a copy of our new book "The History of the United States," published by Eberbach & Son's, 111 North Main Street, Chicago, Ill.

The recitals by the pupils of R. H. Kempf on Wednesday evening, was but fairly attended. All the pupils did well and reflected great credit on their professor. Mme. Tilden sang excellently, her last number was especially brilliant and well rendered. Mr. Frohlich, for an amateur, played the violin in a charming manner, although he played under the disadvantage of a very sore hand. Had Miss Woodard had more confidence in herself, she would have rendered her number in excellent style, but she was affected by what seem to be stage fright, her voice did not show itself in its fullness. As a whole the recital was a success and very instructing, but we would advise Mr. Kempf next time, to select a programme composed more of parlor pieces and not to confine himself to exercises, rondos and sonatas.

Pioneer meeting at Saline June 10. The Evening Telegram says: In Carroll Moore. Mr. Wm. J. Scanlan has been, it is not too much to say, most happily excited, and the versatility of his undoubted genius finds ample scope in the portrayal of the Irish patriot and lover. In addition to this, his pleasing demeanor and easy grace lend a dignity to the character he so well assumes, while it fails to detract from the genuine humor inseparable from his successful representation. Mr. Scanlan's original songs formed the attraction of the evening par excellence, and sung as they were, in their composer's expirating style, amply merited the unmistakable favor accorded upon them.

It is reported that 17 Bohemian out agents are to work in the county of Lenawee. Time and again has the Record warned its readers against this gigantic swindle. This is not mere newspaper talk. We know that in other states where the swindle has been worked farmers have lost money. We know that to ask ten dollars for fifty cent oats, is an attempt to defraud the farmer. The farmer ought to know this too. He should not listen to the oily tongued agent who tells him how he can become wealthy by buying oats at ten dollars a bushel. This is the way to become poor, to pay twenty times what a thing is worth. No matter if cash is not asked, a note against a farmer who owns his farm, is about as good as cash. And this note in the hands of a third party can be collected, without any reference to the contract made with the oily tongued agent. The bottom will fall out of this gigantic fraud soon, and every farmer who has been bitten, will be out the amount of the notes he signed.—Adrian Record.

These same chaps have been working in Lenawee county, and the farmers who have listened to their seductive talk and been swindled, have no one to blame but themselves, for the press long ago exposed this gigantic fraud. The idea of getting something for nothing.

Death of Dr. Chase. THE DEMOCRAT is called upon this week to chronicle the death of Dr. A. W. Chase, at one time one of Ann Arbor's leading citizens. For some time the doctor was in feeble health, and he peacefully passed away at his home in Toledo, Monday afternoon, the 16th inst., at the age of 68 years. Dr. Chase was born in Cayuga county, N. Y., in 1817. When 11 years of age his parents located near Buffalo, where the subject of this notice received a limited education in a log school house. At the age of 17 he left New York and found employment on the Maumee river, in the meantime devoting his spare moments to study. In 1845 he located at Dresden, O. From the days of his boyhood the doctor always evinced a desire to study medicine. After many wanderings he settled in this city. He attended lectures during the years 1857-8, in the interim graduating from the eclectic institute of Cincinnati. Prior to 1869 he traveled over a large portion of the north, practicing his profession and acquiring useful knowledge which proved a good foundation for the wonderful record book which afterward gained such great celebrity. His first edition, like all subsequent ones, proved a great success. In 1864 he built a brick block on the corner of Main and Catherine streets. The business continued to increase, and in 1868 an addition of two stores in width was constructed which were dedicated with appropriate ceremony. A few years ago Dr. Chase was considered one of the wealthiest citizens of the place, but reverses came and he died a poor man. He was long identified with the Methodist Episcopal church, to which he gave large sums of money. The funeral took place in this city Thursday, under the direction of the Odd Fellows, of which he was an honored member. During the bright daylight of his prosperity he gave liberally to the poor, who will silently pour a tear of sympathy, when they learn of the death of this once benevolent man.

Rage robs a man of his reason and makes him a laughing stock. Dr. Loss was Dr. King's. "Well madam," said a fashionable physician to a wealthy lady patient, "if you don't like my prescriptions, perhaps you had better try Parker's Tonic, or some other 'cat's paw.'" "You don't mean it doctor," she answered, "but your advice may be good for all that. Sometimes what you call 'quack stuff' is the best and most scientific medicine after all. She got a bottle of Parker's Tonic and it cured her of neuralgia arising from disordered stomach and nerves. She told her friends, and now they all keep a bottle at home in the form of Parker's Tonic.
