BOYD WINCHESTER.

Boyd Winchester of Kentucky, who was recently appointed Minister Resident and Consul General to Switzerland, was born in the Parish of Ascension, Louisiana, on Sept. 23, 1836. While he was yet quite young his parents removed to Kentucky. His principal education was received at Centre College, Danville, in that state. He graduated from the law department of Louisville University in 1857. He was elected to the Kentucky Senate. In 1869 he was elected a Representative in the Forty-first Congress from the Louisville District, and re-elected to the Forty-second, serving from Dec. 1876 to March 1884.

The universality with which Devotion day was observed this year is evidence enough that the brave boys who lost their lives that the Union might be preserved, are not forgotten. All hearts united in paying tribute to our soldier dead, and over their graves was erected a new altar on which the fires of a holy, true patriotism, will burn brighter as the years pass by.

In Philadelphia, the other day, a man in a warehouse was sprinkling benzine on some furniture to kill moths, when there was a sudden explosion, which wrecked the building. This should be a warning to many families who use benzine for such a purpose. Benzine ought never to be exposed in an open vessel, or sprinkled or poured, inside of any building, especially if there is a fire or a light anywhere in the building.

All such operations should be performed in the open air, removed from fire lights.

The "charm" of music to "soothe the savage breast" was tested a few days ago at Colbridge, N. M., when a party of cowboys boarded the train on which the Thomas orchestra troupe were en route to San Francisco, and compelled the company to furnish them several selections, both vocal and instrumental. The prima donna protested, but a seven shooter held dangerous to her proved a quietus and she sang the "A Kansas Traveler" to the entire satisfaction of the enthusiastic audience. When the cowboys were thoroughly satisfied they allowed the train to proceed.

ERE, Pa., is agitated by a singular death. Some time ago an Adam P. Harley, a prominent Odd Fellow and Knight of Pythias, was pronounced by the physicians dying of consumption. He thereupon submitted his case to a faith or prayer cure organization; and, to everybody's astonishment, he got up out of bed and went about the city proclaiming himself cured, and lauding the prayer cure as the cause of his recovery. This gave the faith cure a boom, and many sick people came forward to be treated. A few days ago, however, while Harley was engaged in prayer for the candidates for the prayer test, he suddenly died of his disease, and much excitement followed.

A TEST suit has been begun by a band of Sabbatarians in Massachusetts against the Old Colony railroad company, for running trains on Sunday. The suit is based on an ancient statute which prohibits unnecessary travel on Sunday. The company says that it runs no unnecessary trains on Sunday. Travel must go forward on that day to some extent, for many purposes. Their trains carry people to and from cities to attend church; doctors for the sick sick people going home; and people who for various reasons cannot and will not stop on Sundays. As to freight trains, they say they move none but cattle and stock trains, and perishable goods on Sunday, both of which they claim to be necessary and moral. They aver that every railroad company in the country would be glad to stop its trains on Sunday, if it were possible; but that the roads run just a few trains as they can't stop that. But travel can't be wholly stopped; the mails cannot stop; perishable goods cannot be destroyed by delay; stock cannot be allowed to suffer; and the courts would have a company responsible for damages caused by a total stoppage. The case will be it is supposed, carried to the highest court for a decision, and its result will be looked for with much interest.

Martin Parsons and a companion were out hunting near Onisco lake. The companion's arm went off, and Martin's leg will have to come off as a result.

It has turned over to the Michigan unearched part of an Indian mound and found five complete human skeletons; also a tomahawk, a bow, and two solid chunks of silver valued at \$200.

The sawmill of Montgomery, Haire & Giddings, at Upper Park, Mecca county, has been seized by the Fourth national bank of Grand Rapids for debt.

The June meeting of the executive committee of the Michigan state agricultural society will be held at the Hudson house, Lansing, Monday evening, June 8.

Theodore Storm, clerk distributing clerk in the Detroit postoffice, was found dead in his bed on a recent morning. Heart disease is supposed to be the cause.

William McDonald and Samuel T. Barnes have been released from Ionia house of correction by pardon from the governor. Both are in the last stages of consumption.

Gov. Alger has pardoned John Mac, and his ladies, will leave Detroit by the Grand Trunk road on June 18, at 8 a. m., for the G. A. R. national encampment at the State of New York. The twelfth annual r. m. of the C. A. R. county pioneers will be held at the Cassopolis fair grounds, near Cassopolis, Emery A. Storey of Chicago will be the orator.

Hastings people think it is barely possible that the Kalamazoo and Saginaw railroad project will ever become a reality. The project has been in a comatose condition.

Chas. G. Gay, auditor of the Marquette Hotel, has been arrested by the Michigan State Police for several days. No reason is known for his disappearance, as his affairs were all right.

All of the present justices of the Michigan Supreme Court will be sworn in at the New York. Judge Campbell is 62, Judge Cooley 61, Judge Sherwood 58 and Judge Chapman 54.

A man's throat of Kalamazoo, took last Sunday a well-to-do farmer of the township of Acon, and a housewife, hung himself for fear of poverty.

A coroner, proprietor of the Brooks house, has been arrested by the Michigan State Police for a few days. No reason is known for his disappearance, as his affairs were all right.

M. J. Martin has returned from the country. Some persons say that he has been to Washington, D. C., looking after a government office. The query with many is, how a greenback-prohibition-republican should expect anything from a democratic administration.

Saline Observer: Our remarks last week regarding the consolidation of the lands was a little premature, as they did not hold, and the probability is they will not, owing to the fact that quite a number from each band would have to be dropped in that event, and every fellow that it is proposed to drop commences a vigorous kick.

And that is the way his many friends here feel. John is a democrat through and through. He has been a zealous worker for the party, and has always pulled straight.It has been suggested that, as there are a large number of persons in the university who are interested in science, they should come down liberally with subscriptions to defray the expense of the forthcoming meeting of the American association for the advancement of science. It is thought that if each professor would give \$25 a sufficient sum could be raised.The coming meeting of the scientific association will call together several hundred distinguished gentlemen from this country, Europe and the Canadas. Ann Arbor should do herself proud in providing for their entertainment. The great metropolitan journals will also be represented in whose columns proceedings of the days' doings will be published.The following are the directors chosen by the Farmers' and Mechanics' bank, Monday: R. Kempf, John Burg, A. Kearney, E. Duffy, W. C. Stevens, D. F. Schaefer, W. F. Breakey, D. McIntyre, and Wm. A. Tolchard. President R. Kempf; vice-president, E. Duffy; cashier, W. A. Tolchard. This bank is now in its third year, and the business has continued to increase beyond the most sanguine expectations of the stockholders.Of all the low, vile scoundrels that inhabit this mundane sphere, those who slander women are the worst. The law's delays and the weakness of their victims unburies their tongues and the character of no woman is safe from their vile reflections. Beately by nature they can not imagine that any one is better than themselves, hence they soon arrive at the conclusion that every one else is in the wrong. You meet these villains on the streets, in the hotels, at the watering places, in fact they may be found wherever they can meet a woman. With foul breath, distorted minds and vile imaginations they dog the steps of those whom they seek as victims, regardless of all that is pure and good in the human family.—Public Herald.Half a century ago, in Palmer's time, Bill Johnson was known to the traveling public. Times since then have changed. To-day the most advertised man is Jno. Loney, better known as "Jack." For the past 25 years this manipulator of the reins has been engaged in hauling travelers from house to house, and from hotel to hotel. One day he conceived the idea that there was money in a huck and 'bus line, and indeed Geo. Stevens to engage in business with him. As a result their business has increased to such an extent that at times they have more than they can possibly attend to. No huckman in the state is better known than Mr. Loney. Always courteous and obliging to the traveling public, he receives the majority of their patronage. By strict attention to business the new firm of Loney & Stevens expect to increase trade to such an extent that, during the coming winter they hope to be able to put on at least three new hacks.

**Baking Powder Tramps.**  
The danger to public health from the indiscriminate use of the many lime and alum baking powders of commerce has been so fully exposed that everybody desires to avoid them. As forewarned is forearmed, housekeepers will thank us for apprising them of the special efforts at present being made to dispose of such powders in this vicinity.  
The proprietors of some of the worst of these powders are now going from house to house, trying by means of a trick or so-called test, with heat and water, to show that their article is as good as the Royal Baking Powder, making their comparison with this brand because everybody recognizes it to be absolutely pure and wholesome, the object of course, being to supply their own goods in place of the Royal, which housekeepers have for so many years relied upon to put up the most palatable and to make the light, palatable, and wholesome roll, cake, and pastry for which it is famous.  
The housekeeper will do well to be on her guard against these baking powder tramps. Every intelligent person knows that any goods peddled from house to house in this manner, or that are given away in samples, or sought to be introduced by secretly trading the character of other goods well known to be pure and reliable, have no merits of their own, and have failed to find purchasers through legitimate means.  
We are informed, as a matter of fact, that one of these tramps is trying to introduce a powder that has been found by the Government chemist to be 11.85 per cent lime, while the other peddles a powder that is 20 per cent alum—no a powerful caustic, the other a corrosive poison.  
No such tricks or jugglery will be apt to deceive any intelligent person. The housekeeper who has used her Royal Baking Powder, she knows the difference between cream of tartar and soda, knows more about its qualities than all the tramps in the country can teach her. The crucial test to which she has put the Royal Baking Powder, gives her a factual and successful work in the preparation of pure and wholesome food, under which it has never failed—entirely satisfactory to her. She knows, she knows, she knows, with it in making light, sweet, and delicious bread, biscuit, and cake, and has placed it, to stay, at the head of her household favorites. She knows that it has been officially approved by the Government chemists as the best and we imagine that the baking powder tramp who attempts to supplant its place in her confidence will find this a bad year for his business.
