AROUND A GREAT STATE.

THE SEMI-CENTENNIAL.

Preparations for That Event Now Almost on Hand.

The work of preparing the program for the semi-centennial celebration at the state capital June 15 is in progress.

The special committee of three Detroit gentlemen, Superintendent of Police J. E. Pittman, Benj. Vermer and Fred A. Biker, who have the program in charge, selected during their recent tour of the state the following grounds for the outdoor celebration.

The grounds were offered free of charge, and are conveniently located about one mile south of the city.

There are outcrops on the grounds which can be used for seating 5,000 or 7,000 persons in the open air.

The fair association have selected the trees of these places. It is expected that a large crowd will be present on the entire surrounding country, and as the affair is to be known as a patriotic and historical one, there will be very little formality in the outdoor celebration.

Capt. June of Detroit has a cook who is familiar with the preparation of barbecues, and his services have been secured by the committee.

Two oxen, four sheep, and two pigs will be killed. Three or four days will be taken up in the slaughtering process.

The meat will be carved and sent to various parts of the city, and the pickers can help themselves. No dishes will be supplied by the committee but they will furnish bread, butter, milk, coffee, and potatoes, gratis.

The literary and musical features of the program are under the supervision of the program committee.

A speaker's stand will be erected in the fair grounds and another in the Capitol grounds, where the speakers will be delivered during the day.

The papers prepared on topics named by the commission, a list of which was published in the Standard, will be read in the representatives hall at the Capitol.

It is the intention to keep the crowd in the Capitol grounds during the morning, and then adjourn to the barbecue between 1 and 3 o'clock p. m.

The evening will be spent in the Capitol grounds, where the program will be undergirded through renovation.

The day will be cleared of desks and chairs on the day following, and benches to seat 300 people in front of the speakers' platform.

Prof. H. B. Royce of East Saginaw has charge of the music program.

The committee will furnish three brass bands which will probably be the United States military band of Fort Wayne, the Michigan band of the Lansing band, Prof. Royce's band, and an engaged four soloists and a chorus of fifty voices to furnish the vocal music.

The Orator of Bay City will be the piano accompanist for the indoor music.

Why do we have Eggs for Easter? Easter is observed among all Christian peoples as the anniversary of the great event of the resurrection of Christ. He was dead, but returned to life. The egg is taken emblematic of a return to life. It is to all appearance dead, but we know if placed in a fertile ground, it will come forth from it. The use of eggs at Easter was adopted from an usage older than our era. It was the custom in very early times to celebrate the return of spring by making presents of eggs.

"Why do we have Eggs fall upon a fixed day. Christmas is always on December 25th, why should not Easter be held on the anniversary of the event? It must always be on Sunday. It is not particular date that is observed, but a particular Sunday. How to decide upon the Sunday, gave the very early churches considerable trouble. At present, the date is fixed on a Sunday from March 22nd to next Sunday after. This gives Easter day a wider range of dates as it may occur on any Sunday from March 22nd to April 25th.—American Agriculturist for April.
