GENERAL STATE NEWS.

THE AMENDMENT VOTE.

The Adverse Majority Between 3,000 and 3,800.

Republicans Get the Justices and Regents.

The latest revised figures on the amendment vote place the adverse majority between 3,000 and 3,800.

Every county in the state has now been heard from, and the result is, though Manitow and Montmorency are too indefinite to be of service. There is scarcely a single county in the state in which all reports concur in favor of an identical vote as the exact majority either for or against the amendment. The variances are slight, and when the official canvass is made it will be found that the changes will almost offset each other. The official canvass will probably show a majority of from 5,000 to 5,400 in the upper peninsula for the amendment; of from 400 to 8,800 against it in the lower peninsula, and the extreme range in the state is from 3,000 to 3,800 against the amendment.

The returns on the state ticket show that the republican candidates for supreme judges and regents have carried the state by from 5,000 to 8,000 plurality. Campbell ran behind Long in some places, while the latter ran almost ahead of his ticket throughout the state.

The next supreme bench will be made up of Judges Thomas B. Sherwood, John W. F. Johnson, Albert B. Morse, James Campbell and Charles D. Long—three fusion and two republican. It will be the first time that the bench has had five judges. The fifth judge, authorized under the latter law, is calculated to overcome the difficulty heretofore experienced of having the court evenly divided on important questions. Under the present law the terms of judges heretofore elected are for 10 years. The salary is \$4,000, the legislature having recently defeated the bill to increase the salaries to \$7,000.

The constitutional amendment relative to increasing the salaries of state officers is carried by a liberal majority. According to this the salary of the governor will be raised from \$10,000 to \$15,000; that of the treasurer and the superintendent of the public instruction from \$10,000 to \$12,500 each; that of the secretary of state and the commissioner of the land office from \$8,000 to \$10,000; and that of the attorney-general from \$800 to \$3,000. The law further provides that none of the officers shall receive any fees or perquisites for the performance of the duties of their respective offices.

Dr. Thomas's Death.

An anti-slavery leader gone. Dr. Thomas, a pioneer physician of Kalamazoo county, and the leader of the anti-slavery movement in the western part of the state, died at his home in Schoolcraft recently, aged 85 years.

Dr. Thomas's ancestors on both sides were Quakers, and he was a direct descendant of Thomas Macy, the first settler of Nantucket Island. He came to Prairie Ronde in June, 1830, and was a member of the medical society of Michigan territory. The country being then very thinly settled, the young doctor had a very wide range of practice, going sometimes 30 to 40 miles to attend patients. He was a devoted friend of the slave. In 1837 he, with 423 citizens of Prairie Ronde and Brady petitioned congress against the admission of Texas as a part of the United States while slavery existed in that country. This petition was presented by Senator Louis Lyon, who said, "This is the first memorial on this subject that has been presented from Michigan." In 1839 Dr. T., with others united in the establishment of an anti-slavery paper. In 1845 he was nominated by the liberty party for lieutenant on the ticket with James G. Birney for governor. In 1852 was nominated for state elector on the free soil ticket. When the republican party was formed at Jackson he joined it, and continued with it to the day of his death.

Called to a Higher Charge.

Chas. H. Palmer died at his residence in Pontiac the other morning, aged 73 years, of kidney difficulty. He was one of the first regents of the university, and in early life was a prominent teacher in different cities of Michigan. He married an educated lady and moved to the upper peninsula, where he engaged quite extensively in iron and copper mining. He purchased some land adjoining the Calumet & Hecla mine which proved valuable for mining purposes and led to a great deal of litigation, which was finally brought to a close in the United States supreme court about a year ago. The supreme court decided in favor of Mr. Palmer, and he was granted one-third of the property in dispute. His share amounted to \$450,000, and was to be paid to him some time next month. It was through Mr. Palmer's influence that the eastern asylum near Utica was located at Pontiac, and for some time he was a trustee of this asylum. Mr. Palmer was liberal minded, public spirited, and a gentleman of ripe intelligence. He leaves a widow, two sons and two daughters. He was one of the most prominent men in the upper peninsula and well and favorably known throughout the state. He leaves an estate estimated at over \$500,000.

Rather Fishy.

The catch of the fishermen of Michigan amounted last year to nearly 26,000,000 pounds, yielding to the parties so engaged not less than \$800,000, employing over 1,700 persons, 66 steam tugs, 218 sail boats, 203 points net boats and 163 skiffs. The value of the nets, boats, docks and buildings engaged in this traffic is estimated at \$1,100,000. The territory of the state, while the coast line is over 2,000 miles in length, this is totally exclusive of any of the Indian waters of the state.

Foster Exonerated.

The board of control of the state public school fund that the charges of improper conduct with lady employees, severe punishment of children, the use of improper language to children and employees, neglect, and tampering with the mail of employees, preferred against Supt. Foster of that institution, are not sustained, and fully exonerate the superintendent, but agree that his late visits to the cottages were very injudicious. Foster has tendered his resignation to take effect as soon as his successor shall be appointed.

Arbor Day in Michigan.

Gov. Lewis has issued a proclamation fixing April 25 as Arbor day and recommending that each person in the state plant a tree on that day. The governor suggests that the planting of trees be made a national holiday, and a means of making the ceremony more interesting.

THE FAMOUS ONE-PRICE CLOTHING HOUSE.

IF NOT, WHY NOT?

IF a new merchant enters into business in your city and invites every one to come and get acquainted and learn his business methods, IS it not FAIR to give him a call?

IF this merchant sells you goods for as little money, and uses you as well as dealers away from home, IS it not JUST to give him a trial?

IF other dealers offer you goods which your home merchants can furnish, and may be cheaper, or else make the outsider sell cheaper, IS it not POLICY to get your home dealers' prices and terms before buying?

IF a dealer is established in your own city, where you can always find him to have errors corrected and difference adjusted, and who is reliable and responsible, IS it not BEST to buy of him, where you can know everything will be as represented?

IF a man works to merit the confidence of the people, does everything on the square, tells things as they are, uses you honestly and well, IS it not RIGHT to give him your trade?

IF NOT, WHY NOT?
