

OUR MAN ABOUT TOWN.

He Sees About Everything and Prints About Everything He Sees.

It is a disgrace to see in our beautiful city, huge manure piles, from which the stench arising is anything but agreeable or healthful.

The residents of the third ward are congratulating themselves, that through the efforts of the Democrat, the old coal sheds on Miller avenue have been removed.

The Courier says that there "is gas under Ann Arbor without a particle of doubt."

I hear there is much sickness caused by the water works pumping river water into the reservoir, and consumers being obliged to use it for drinking purposes.

From what I know of the water works I should think it very necessary to have things in shape so if any part of the machinery gets out of order, it need not necessitate the stoppage of water all over the city.

In-to-day's Democrat we publish a communication on "How to Boom Ann Arbor."

A few years ago a large waist, measuring not less than twenty-five to thirty inches was the style, and how comfortable a woman looked walking the streets thus proportioned.

In walking around the city in the evening, I notice that the electric lights which have been raised, give much better satisfaction than the others.

One on the corner of Thayer and Lawrence streets throws more light than any other in that part of the city.

I hear many complaints about the water works. New rules and regulations have been left at the various places where they use the water, restricting the use of it to four hours a day and those at stated times.

Last Sunday about five o'clock in the morning a woman darted out of a house on Ingalls street, in dishabille, and grabbed a rope attached to a lively cow browning in the yard.

I notice by the Detroit papers that the citizens of that city are becoming alarmed by the frequency of mad dogs seen upon the streets, and by a number of persons having been bitten, two of them dying most horrible deaths.

It is an undecided question whether an editor of an agricultural paper knows less about farming than a conductor of a cooking school knows of the cause of dyspepsia.

It is curious," remarked a salesman in a Chestnut street store this morning, "what old excuses people will make for not buying things rather than tell the truth."

Whisky is bad enough, but morphine is worse. To the disgrace of many physicians, he said, they are the first ones to prescribe this dangerous drug, and then if the patient cannot control himself, he is lost. Doctors ought to be the last ones to prescribe such remedial agents, for certainly many of them must have it on their consciences that they have caused many a man and woman to endure a hell here below.

HOW TO BOOM.

A Boomer on Booming—How to Advertise Ann Arbor and its Advantages.

To the Editor: The Business Men's Association has made a good beginning with their "booming pamphlet."

The Business Men's Association has made a good beginning with their "booming pamphlet."

How can this be done? A well-known and highly honored legal gentleman said: "The city should take their liquor tax money and do it, and that this fund had better be spent in this than in any other way."

It is in this way that the city would receive tax. In what way should the city advertise? Experience has shown that well-directed newspaper advertising, by the use of the one below, and then select the best newspapers to cover every state.

Let the Business Men's Association, which is getting compliments all over this state for its vim and energy, have charge of it and push it and let the city pay the bills.

Building lots are low here. Boom the town and the lots which now bring \$300 would readily sell for \$600.

It is a fact that nowhere in this great country of ours can so much education be obtained for so little money, and nowhere can a home with all the advantages we have be procured so low.

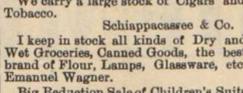

Let the Ann Arbor Savings Bank be open every Saturday evening from 7 'til 8 o'clock, for savings department business only.

Officer Gidley is doing another good work, ordering all the weeds in the city to cut down. When E. B. Gidley makes up his mind to do a thing, he does it.

Company A's excursions are always the very best. No better route could be selected for an enjoyable boat ride. Boat will return to Detroit at 10 p. m., with plenty of time to see the Detroit-Chicago ball game.

Mrs. Emma P., wife of S. C. Andrews, died last week of consumption. Mrs. A. was a graduate of the university in '77. Her remains were taken to her old home, Paw Paw, where the funeral services were held Sunday morning. She leaves three young children.

Next Wednesday, July 27, Company A gives an excursion to Detroit, Lake Erie and Belle Isle. Tickets for the round trip \$1.25, children under 12 years, 65 cents. Tickets good on all of the routes, including Detroit, Windsor and Belle Isle, during the afternoon.

Would it not be a wise idea for the Ann Arbor water company to sink a nest of artesian or drive wells and pump from them, as is done at Kalamazoo and several other cities, instead of depending upon springs that fail in dry weather? Something ought to be done to continue the supply of "good water suitable for drinking purposes," without interruption. River water is not available for domestic purposes, and there are hundreds of people in the city who depend upon the water works entirely for their supply.—Courier. A good suggestion, Bro. Pond.

J. B. Thompson, an old employee of the Toledo road, but late roadmaster of the Erie & Detroit railroad, was killed by the cars at St. Catharine, last week.

The water was turned off, in the fourth ward, last Friday afternoon. Those who depend on the water works for water had to borrow of their more fortunate neighbors.

We have received a copy of "Songs in Earnest," by Mrs. M. P. A. Crozier. It is a short pamphlet, and contains some fifty short poems, which testify to the poetic sentiment of the author.

Trains on the T. & A. road now stop at Black's crossing in Coochectaw, to let passengers off on. The new station is known as Coochectaw Center. A new elevator will be raised at this point this week, and the new station is in process of construction.—Herald Democrat.

The new marriage license act, and all laws pertaining to marriage, have been published in pamphlet form, and it is suggested by the secretary of state, that a copy should be in the possession of every minister or other persons authorized to perform the marriage ceremony.

Prof. J. McInnis, principal of our union school last year, has secured a position in the public school at Rockland, Mich., in the Upper Peninsula.

Mr. Wm. C. Stevens and family, who goes from here to Dearborn, where he will remain until the time arrives to begin work in his new field of labor.—Detroit Leader.

A. S. Osborn, son of Wm. B. Osborn, of Sharon, who for the past seven years has been a teacher of the commercial branches at Rochester, N. Y., has recently purchased an interest in the Buffalo Business university. We wish him abundant success and congratulate him upon becoming identified with the business interests of the thriving city of Buffalo.—Enterprise.

Even the New York Sun, which is bitterly anti-Cleveland, concedes that the departments, under democratic control, are making an excellent showing for the past fiscal year. In one division of the land office 1,542 patents were issued last year, as against 690 the preceding year, and 1,000 more letters were answered than in 1876. This increased work was done with fewer clerks.

Peterston's Magazine for August is at hand in even better season than usual. This second number of the new volume is fully equal to that of July, and to say so is to bestow very high praise. The new style is clean, neat, and the fashion and needlework designs are first class. Miss Bowman's serial, "Along the Bayou," increases in interest, and the number abounds in capital tales and pretty poems. Unless the magazine for the month have very unusual attractions to offer, they will have to be content to see "Peterston" bear off the palm. Terms: Two Dollars a year, with great reduction to clubs. Address Peterston's Magazine, 306 Chestnut st., Philadelphia, Pa.

The state board of health has just issued a little paper entitled: "The Prevention of Cholera Infantum and Kindred Diseases." It is an excellent digest of a paper read before the board by V. C. Vaughan, Ph. D., on the chemistry of typhoid, and is of great value. It is presumed the pamphlet is issued for general distribution. It would be a valuable treatise to be kept among the home medical stores of every family.—Lansing Journal.

C. C. Huff, homeop., '81, and son-in-law of ex-postmaster, C. G. Clark, well-known in this city, but now of Huron, Dakota, has been suggested by the governor of that state, as a member of the territorial board of health.

Mr. Mellor has resigned his position as librarian at Hobart hall, as the salary was not large enough. He has secured him at an advanced salary, at once. Mr. Mellor was with his present employer for ten months before accepting the position at Hobart hall.

The T. A. & N. M. Ry., will sell return tickets to the city, by the 18th, 27th, good for return until August 15th, for one fare for round trip \$8.70. Also return tickets to members holding certificates good to return up to Oct. 31st, \$8.70. Regular round trip \$11.50. O. G. Wales, agent.

Another chapter is being recorded in the Dr. Calvert case in Dakota. Twice did Mrs. Calvert prevent him getting a divorce, but at length he got one and married a pretty school teacher. His wife did not know he had procured the divorce, evidently, and she sued him for bigamy, and first learned of the divorce in court when the bigamy case was on. Now she is on the watch, seeking to have the divorce annulled on the ground of fraud in its procurement. The parties are well known in Michigan.—Evening Journal.

Mr. Wm. C. Stevens and family, one time kept the mineral springs bath house in this city.

President James B. Angell, of Michigan university, has not the appearance of a person who stands at the head of an institution in this country. He is a New England man, but has been in the west so long that he looks like a westerner. He is short, slender in build, light complexioned, and his features, owing to the lack of hair, extend nearly to the foot of his neck. He wears a black sack coat and close-fitting white pants, and never would be taken for a university president. He is an accomplished speaker and one of the foremost educators of the state.—Chicago Tribune.

The same paper contains the portrait of president Angell, which can only be recognized by the lock of hair on the head.

"Most of the men who apply to me for work from the east," said master car repairer, W. B. Ludlow, at the railroad yards yesterday, "and it goes without saying that they are better conditioned. They do not even know how to sweep out a car properly, but they come to me confident in the belief that it is the easiest thing in the world to be an expert in the yards. I have had some very intelligent men at work in the yards cleaning cars—men who have been educated at Oxford, Cambridge, Yale and other places, and who have held high and responsible positions in banks and well-known commercial houses. There was one time that I could have supplied a man for any profession or trade, from a minister of the Gospel to a hod carrier. I had one graduate of a European university cleaning cars for a year. He afterwards taught a country school, studied law, and is now admitted to practice, with a good prospect of eminent success in his profession. Another car-cleaner is a prominent lawyer in Oakland. He was a first-rate car cleaner. I had three ministers of the Gospel working for me one time, and they are all doing well in their profession now. I am compelled to refuse work continually to men whom misfortune has reduced to such straits that they are willing to perform any honest labor, however menial. No, I do not recollect that I ever employed a newspaper man to clean cars."—California.
