THE STATE.

Experimental Stations in Agriculture. The national convention of Agricultural colleges, which met the past week in Washington, obtained some decisions from the secretary and controller of the treasury in reference to the Hatch bill that will prove of great importance to the Michigan agricultural college and all others affected by it.

The Hatch Experiment Station bill provides that congress shall annually appropriate \$15,000 to each state, under certain conditions, to carry on experiments in agricultural science. Congress failed to make the provision last year, and some question had arisen as to whether it would be necessary to go through with much of the labor of securing its passage again.

When it was brought before the secretary of the treasury and the comptroller they decided that the act in its present form and the amount to be put in the next book of estimates. This would not make the appropriation available until October 1, thus losing the benefit of experiments during the greater part of the year.

The addition they decided that the intention of congress was that the money should be used for the present year beginning with October 1, and therefore expected that the secretary will present this amount to the next congress in a deficiency bill, and therefore expected that the secretary will present this amount to the next congress in a deficiency bill, and therefore expected that the secretary will present this amount to the next congress in a deficiency bill.

It is this done I will enable all such stations to perform a line of experiments during the coming year. Michigan will be ready in itself in readiness to push the line of experiments as soon as congress passes the appropriation. The rather abating craze is being revived throughout the state.

THANKSGIVING DAY.

President Cleveland Designates Thursday, Nov. 24. A proclamation. By the President of the United States. The goodness and the mercy of God which have followed the American people all the days of the past year claim their grateful recognition and humble acknowledgments. By His country's power He has protected us from war's perils and from every national calamity; by His gracious favor the earth has yielded a generous return to the labor of the husbandman, and every path of honest toil has led to comfort and contentment; by His loving-kindness the hearts of our people have been united in fraternal sentiment and patriotic endeavor; and by His unerring guidance we have been directed in the way of national prosperity. To the end that we may, with one accord, testify our gratitude for all these blessings, I, Grover Cleveland, president of the United States, do hereby designate and set apart Thursday, the 24th day of November, as a day of thanksgiving, and prayer, to be observed by all the people of the United States.

On that day let all secular work and employment be suspended; and let our people assemble in their accustomed places of worship and with prayer and songs of praise give thanks to our Heavenly Father for all that He has done for our happiness and humbly implore the forgiveness of our sins and a continuance of His mercy. Let families be kindled by mutual affection and let their hearts, filled with kindly cheer and affectionate remembrance, be centered in thankfulness to the source of all their pleasures and the Giver of all that makes the day glad and joyous. And in the midst of our people and our happiness let us remember the poor, the needy and the unfortunate, and by our gifts of charity and real benevolence let us increase the number of those who with grateful hearts shall join in our thanksgiving. In witness whereof I have set my hand and caused the seal of the United States to be hereunto affixed. Done at the city of Washington this twenty-fifth day of October, in the year of our Lord one thousand eight hundred and eighty-seven, and of the independence of the United States the one hundred and tenth. (Signed) GROVER CLEVELAND. By the President: (Signed) THOS. F. BAYARD, secretary of State.

OUR MAN ABOUT TOWN.

He Sees About Everything and Prints About Everything He Sees.

I notice that the lot adjoining Fred Stimson's grocery has been fenced in by Stafford, the merchant tailor, who has put up a large sign advertising his business.

As I was passing a barn on North Ingalls street Sunday, I was astonished to see a student desecrating the day by sawing wood. I thought to myself that if he would give less time to playing base ball, on Saturdays, he could find time to do odd chores without breaking the Sabbath.

I notice that during the last few weeks any number of fences have been taken down from in front of private residences in the first, fourth and sixth wards, and it is certainly a decided improvement.

"We sell four quarts for a gallon," reads a sign posted on fences and sidewalks. Can it be that some concern has been giving short measure, if not why advertise in that way.

During the past week, hundreds of bushels of potatoes have been brought to this city from a distance of 20 miles around, and at the Michigan Central freight house, Wednesday, I noticed several car loads consigned to parties in this city.

If the mayor had seen the flooded streets around the postoffice during the heavy rain Sunday, I think he would not be slow in issuing orders to have the gutters opened, so that the water could run off in its proper channel.

A boy who will abuse his mother on any pretext whatever, should receive about ten lashes on his bare back. As I was passing a house on First street the last of the week, I heard a young upstart curse and abuse his aged mother simply because dinner was not ready when he returned home.

I cannot imagine what the officers can be thinking about to allow rushing in the postoffice. Friday night a section containing several hundred boxes was pushed several inches out of place, and that no further damage was done, was no fault of those who were in the rush.

Notwithstanding winter is fast approaching, there is ample time in which to repair and rebuild a number of dilapidated sidewalks. The present council seems to take little interest in having it done, and why I fail to understand.

I understand that Prof. Frothingham is about the maddest man in town. The case of Joel W. Hamilton against the doctor for the third time, has been decided in Hamilton's favor, the verdict being for \$1,000 and \$340 interest.

I overheard deputy fish commissioner Imus remark last week, that he proposed to make it warm for any person caught spearing fish in Whitmore Lake from now on. There is a law against it, and Mr. Imus proposes to see it enforced to the very letter.

It is well-known that thousands of dollars are taken out of this city every year by the different insurance companies all of which could be kept at home, if a number of enterprising citizens would organize a company here.

What a soft snip the supervisors have, remarked a citizen last week. They take 18 days, or rather draw pay for that number, when they really ought to complete their labors in half that time.

A portion of the time is spent in cutting down hills, yet they vote themselves a pay for Saturdays when adjourning the day before. I heard one of the members of the board say there was no reason why more than a week's time should be consumed in any one session.

It is gratifying to note that party issues are being more and more sharply defined. The republican party is becoming the cheap whisky and tobacco party, and the democratic party the cheap fuel, food and clothing party.

This distinction is very marked in Massachusetts. The republicans declare squarely in favor of high tariff and liberal appropriations. Then, if extravagant expenditures shall not use up all the surplus, they favor the reduction on whisky and tobacco.

On the other hand the democratic convention consisted of the high tariff and liberal appropriations. Then, if extravagant expenditures shall not use up all the surplus, they favor the reduction on whisky and tobacco taxes, and a reduction of those on the necessities of living.

In New York the attitude of the two parties is the same. The republicans resolved in favor of the tariff as it is, but the democrats declared for free raw materials, reduced taxes on clothing and other necessities, and an immediate reduction of taxation to the extent of one hundred millions of dollars.

On this vital question the recent utterances of party conventions make a clear issue. Happily it begins to appear as if the presidential contest of 1888 will be fought on this line, and not on any other. It should be so, as the country has had a surfeit of "silk-water politics."—Jackson Frazier.

The hypocritical republican leaders in Michigan are in a sad plight, and some of their organs, notably the Detroit Tribune, are getting decidedly "red" under the collar. By means of the local option scheme the g. o. p. leaders expected to place the prohibitionists and liquor dealers in a sort of clothes line, and to enjoy vindictive retribution that was almost sure to follow.

As I was passing a barn on North Ingalls street Sunday, I was astonished to see a student desecrating the day by sawing wood. I thought to myself that if he would give less time to playing base ball, on Saturdays, he could find time to do odd chores without breaking the Sabbath.

"I say, mister, how come your eyes so all-fired crooked?"—"My eyes?"—"Yes!"—"By sitting between two gals and trying to look love to both at the same time."

A Western woman supposed to be dead revived sufficiently to sit up as the undertaker drove up to the door with his hearse. She proved that some women are too changeable for anything. "I can recommend Electric Bitters as the best remedy. I had a bottle of Dr. King's New Discovery when I was 20 years of age, and I have ever since used it. It has given relief in every case. One man took six bottles, and was cured of Rheumatism of two years' standing. Abraham Hare, druggist, Belleville, Ohio, has ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their names, so that the evidence is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half a dollar a bottle at C. Eberbach & Sons' drug store, Washington street.

It was Dredmona who looked into Othello's face and repeated the immortal words, "Let me kiss him for his smother."

EXCITEMENT IN TEXAS.—Great excitement has been caused in the vicinity of Paris, Texas, by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two bottles of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free at Eberbach & Sons.

The wife of a wealthy and retired grocer to her artistic dressmaker: "Dress me in such a manner that my vulgarities will pass for mediæval afflictions."

No wonder a baby protests against such doses as people will give it. Dr. Bull's Baby Syrup is the pleasant and safest remedy known for infants. A person often bears the charge of infants when it is only a poorly acting liver or a worn-out stomach which is the cause of his sluggishness. One thus suffering should use Laxador and be relieved. Price only 25 cents a package.

"Doctor, you think my wife will get well?"—"I am sure of it, if you can persuade her to take this dose."—"Doctor, take it she shall, if I break every bone in her body."

"Don't stand on that order of going"—but go straight to the next corner and buy a bottle of Dr. Bull's Cough Syrup, if you want to cure your cold. Farmers and Horsemen read this. I find Salvarsan is the most excellent medicine among horses, and I take pleasure in endorsing it as a certain remedy for scratches. James Thomas, Franklin Road, near Balking.

A sceptic asked, "How is it possible for an ass to talk like a man?" when an old believer replied, "I don't see why it ain't as easy for an ass to talk like a man, as it is for a man to talk like an ass."

The Ypsilantiians say that "Mr. Greene was defeated for superintendent of the poor, for the purpose of securing a salary that would consent to place a brother-in-law of E. Daily in charge of the county house. Mr. D. has only two brother-in-laws. One is a millionaire, and the other can count his thousands. So the statement of the Ypsilantiian is too absurd for anything.

Millen's agency, which will cover the loss. Snow had no insurance on his furniture, which was completely removed. President Cleveland did not go among the western people to discuss political questions or to enlighten them in regard to the duties of a public administrator. In response to pressing invitations he went to see a portion of the great country, the public affairs of which he administers so acceptably to his fellow citizens, and to creditably to Ann Arbor. His judicious avoidance of every topic or act calculated to provoke political discussion is what grieves his partisan enemies. The enthusiasm with which he has been greeted everywhere by all the people shows how little the childish criticisms of his enemies need be regarded.—Philadelphia Record.

The Students' lecture association has put its western tour in the course of lectures offered cannot, on account of its variety, but satisfy everyone. It is noticed that the number of lectures on the regular course has been reduced from six to five, with a corresponding reduction in price of season tickets. The board has made an extra effort to meet the wants of the lecture going public, by including the student public. The subjects announced are not indicative of especially heavy lectures, and this is undoubtedly a merit. Lectures that are inclined to give the hearer a relaxation of mental effort are more suited to a hard working community.—Chronicle.

On Saturday last the University Museum received a fine specimen of American beaver, (Castor canadensis), presented by the Hon. J. M. McCinty, New York City. It was taken near Atlanta, Montgomery county, Mich., and on Monday a pair of log-cuts were received from Munising, J. B. Dow, of this city, being the sender. These specimens are now in the hands of A. B. Covert, the taxidermist. Mr. Covert has arranged with Dr. Belknap, of Oregon, for a specimen of Black-tail deer, and with Dr. Hamlet, of Dakota, for specimens of the Prairie Fox. Arrangements are also being made for specimens from Arkansas and Colorado, such as the mule deer, mountain sheep, elk, jaguar and tiger cat.

The regents of the university having appointed Dr. Henne Gibbes, of Westminster College, England, to the new chair of pathology, the Adrian Times require that the regents in a law of the United States prohibiting the importation of labor under contract. The point raised by the Times appears to be well taken, as the district attorney of New York has just decided to institute proceedings against the trustees of Trinity church for having brought over an English divine to fill their pulpit. Probably the same objection will be raised in contemplation by its framers, but it will serve to remind those who might otherwise violate its provisions that such a statute is in existence and that there is a healthy public sentiment behind it, demanding its thorough enforcement.—Lansing Journal.

In the circuit court the past week, Jno. Conners and Edward Webb, both of Detroit, who were arrested for pocket-picking in Ypsilanti, were tried and convicted. They were defended by Jno. W. Bennett and O. B. Taylor, the youngest members of the bar, and notwithstanding the odds were against them, they handled the case well. When the verdict of Warren Barlow and Dan Westbrook, charged with the larceny of wheat, was called, they failed to put in an appearance, and their recognizance was declared forfeited. Jno. F. Raywalt who charged Jno. Davison with slandering him, and the case which has been hanging fire for several years, has finally been disposed of the plaintiff receiving a judgment for \$100, which will in a measure, soothe his lacerated feelings. Jno. Fogarty and E. Stoffel had some trouble about a hog which broke into the conservatory of the former and damaged several plants; Fogarty obtained a judgment in the justice court, and now again in the circuit court for \$4.25.

Rev. Mr. Hickey has resigned his position as member of the board of education in Detroit, because some of the chemicals used in the school laboratories are bought at Ann Arbor. The truth is that the chemicals to be obtained in Ann Arbor can be found in no other market west of New York. Detroit chemists should brace up if they do not desire to be eclipsed by a little county town. In a conversation with Mr. Eberbach, he tells us that there is no truth in Mr. Hickey's assertion that his house buys chemicals of Detroit firms. On the contrary all of the large Detroit chemists buy their laboratory chemicals of him. These chemicals he either manufactures himself or imports directly from Europe, England, Germany, and France furnishing some of the supplies. But the proper proportion he manufactures himself in his laboratory here. And this fact is becoming generally known and orders are being filled for all parts of the country where school laboratories are established.—Courier. Withholding the past year this firm has filled 50 or more orders for chemicals and apparatus in a dozen different states, and territories for public and private institutions, schools, colleges, etc.

Roland Reed in "Humbug."
Mr. Frederick Marsden's farcical play, "Humbug," is his first production in this city, at the Bijou Opera House, was an instant hit. There was a large audience, which it amused and delighted, although the temperature in the house was anything but cool, and as the play progressed the laughter became continuous. The plot—a far, unlike most farcical plays, it has a plot, if a thin one—centers in the situation of the greatest son of a German shoemaker, who himself off as the scion of an aristocratic house and his marriage under an assumed name to a lady whose predecessors made a great deal of a tremendous snore they, but who is equally anxious to appear of a good family. Roland Reed, as Bill Barts, the son of the shoemaker, would have been able to carry the piece to success in his own hands. The comedy could be more irresistibly comical than the manner in which he managed to get all his friends into a dilemma in keeping the decision of a tremendous snore they, but who is equally anxious to appear of a good family.
