### THE STATE.

Let Us Give Thanks. Gov. Luce has issued the following Thanksgiving proclamation:

Thanksgiving proclamation:

A moment of reflection brings to each of us abundant reasons for observing a day of thanksgiving and praise. Though our fields have not brought forth their usual bounty, yet during the year God's hand hath stayed and kept afar pestilence and famine, war and dissension, and hath showered upon our state and its grateful people the bessings of peace, loyalty and contentment, and numberiess benefits that only its individuals can recount. It is therefore in humble recognition of God's wonderful goodness to us, and in harmony only its individuals can recount. It is therefore in humble recognition of God's wonderful goodness to us, and in harmony with the revered custom of our fathers. that I appoint Thursday, Nov. 24, 1887, as a day of public thanksgiving and praise, in the sunshine of his providence may our hearts be lifted to Him in earnest thankfulness, that when bowed down by the affections that come to all we may in confidence approach Him or help, and that we may give testimony of our appreciation of his kindly dealings with us. Let our praises and thank offerings on that day te borne to Him on the wings of sacrifice. Let those who enjoy the reunion of families and friends remember the widow, the orphan, and the lone ones. Let those who are the recipients of comfort, cheer and social enjoyment be mindful of the poor in deeds of charity, and let those who labor and toil for hire be given by their employers a day about their own hearthstone, for thanksgiving and respite without the loss of ually bread to their families. Democrats Carry New York by a Large Majority.

Returns from Other States.

Returns from the election in New York on the 5th inst. indicate that the democrats have carried the state by aplurality of 20,000. Col. The George men confidently counted on 70,000 votes in New York city; they only polled 35,000, and their total vote throughout the state is estimated below 60,000. In the great contest for the District Attorneyship in New York City, Col. Fellows the united democracy candidate, is elected by 20,000 plurality, over Nicoll, the republican nominee. Post, the labor candidate, polled 30,000 votes. The George party took their defeat gracefully. The legislature, however, remains republican, there being a republican majority of six in the senate and twenty in the assembly. The total labor vote amounts to about 70,000 and the prohibition vote

Iowa shows democratic gains all along the line, and the indications are that the Hawkeye state will have a democratic

The republicans get Pennsylvania by the build majority, the election in this state being for state treasurer for a term of two years and for a judge of the supreme years and for a judge of the sapreme court to serve twenty-one years.

In Dakota the question was for or against the division of the territory on the 46th parallel, and in counties where an election had been called by petition to the county commissioners, the question of local option was voted upon. The Pioneer Press has returns from twenty counties which show a generally light vote on the question of division, with the probabilities that the majority in favor thereof in the whole tertitory will be about 10,000.

On the question of license vs. prohibition the counties containing the larger towns like Fargo and Grand Forks go for license, but of the whole vote cast prohibition will probably get a small majority.
