OUR MAN ABOUT TOWN.

When will this nuisance of skating and coasting on the sidewalks be abated; I have seen a number of women obliged to get off from the walk to avoid being run over.

A laughable scene occurred upon one of our streets Monday. A woman was walking on a sidewalk with a baby in her arms. As the feet of the mother went from under her the baby flew out of her arms and landed in a snow drift a few feet away without injury.

Perhaps when one or two boys are peacefully injured from jumping on passing sleighs, it may be a lesson to others. During the past week I understood that a little fellow came very near having a leg broken in attempting to "catch on," and that another boy is now laid up with a sprained wrist in consequence of falling from a baggage wagon.

I never realized until lately how hard it is for strangers to find their way on foot around our city. One may pass corner after corner and see nothing to designate what street he is on. I have been accosted a number of times lately by persons inquiring for such and such a street. Signs should be placed at the intersection of all streets to guide strangers whether they would go, and not allow strangers but residents, many of whom are unfamiliar with their own city.

It seems that one of the hills in the fourth ward is not icy enough for coasting. So last Monday several boys were on, with kettles and pails pouring water upon the ground so the sleds would descend more swiftly. These same boys undertook to flood the hill last week so they would have a toboggan slide of their own, but it did not work. I have seen from thirty to fifty persons coasting down this hill every evening, and after sled following each other in rapid succession.

What a fine thing it would be if those citizens who have icy walks would follow the example of the county clerk and have their walks sanded like those on the four sides of the court yard square. It could not be obtained then we wish they will keep pedestrians from slipping down and fewer cases of broken bones will be reported in the papers. If every citizen would give this matter their earnest attention, and either sand, salt, or shes put in front of their premises, it would be a good thing.

Tuesday evening a young couple drove to a certain house in this city and tied their horse, leaving him without covering for an hour or more with the mercury nearly at zero, and then proceeded to join a party of young people who were coasting. I was told by this gentleman that another time this was done, the parties would find their horse dead when they came for it, as he would not let his own horse stand without blankets such weather, and he should certainly not allow any one else's horse to be in such a predicament.

Over two years ago I had something to say about the organization of a humane society in this city. It ever one was wanted, it is right here, and I am mighty glad that steps are being taken to bring about the result. It is notorious that horses are unmercifully abused everyday and it is high time a stop was put to it. Only last Saturday I saw a poor old crow-bait, driven by a long, lank specimen of humanity, who does a little draying, urged on by the driver who had a long stick with a prod in the end, which he would punch into the horse's very frequently in order to get him to move off of a snail's pace.

I understand that about the first thing a majority of the superintendents of the poor did after ousting Mr. McDowell, the county house keeper, was to "resolve" to pay his successor, supervisor McCormick the same salary, \$700, and in this case of the fact that when the former was first appointed he only received \$500 per annum until he had familiarized himself with the duties of the office. I also understand that a man by the name of Miller who is every way competent to fill the position, offered to do the work for \$500. Besides himself is his wife and mother, to assist him. Now if the superintendents can save the county \$200 per year, they are in duty bound to do it. The question is, will they do it?

It is hard to indicate just the particular combination of simple melody and colored fire, symmetry and motion, verbal quips and scenic transformations that makes a successful burlesque. The most successful stage pieces of that description are need not be anything at all. "Evangeline," produced amid a great deal of rejoicing at the Theatre Vendome, is a splendid example of contemporary burlesque. The action begins nowhere in particular, and ends in the same place. There are lots of girls, and they are all pretty and young; they are expertly drilled and sing prettily. As to the costumes, they were elegant, and gigantic George Fortescue was a symphony in black silk.

Postmaster General Dickinson took the oath of office Tuesday. He was administered by James Lawrence, who, for nearly fifty years has sworn in all the postmaster-generals.

Judge Kinne will decide next Monday whether the county clerk shall be employed from calling an election in this county, for the purpose of submitting the question of local option to the people.

Southern opposition to the admission of Dakota into the Union is now based on the objectionable character of the Dakota blizzard. To show the unfairness and lack of magnanimity in this objection it is only necessary to recall the circumstance that Colorado was admitted as a state at a time when her celebrated potato-bug was overrunning the whole blessed country.

The time for holding the next democratic national convention will be determined February 23.

LAST week's storm was one of unusual severity in the West. Children were frozen to death on their way to school. Stock of all kinds perished from the excessive cold. In Dakota where the blizzard was most severe a great loss of life is reported.

Some of the Eastern tariff-barons who profess great sympathy for American labor sail away in their steam-yachts to Europe every year and load up with the products of "pauper labor" duty free. But the Western farmer has no yacht, and he must buy American products at exorbitant prices, artificially elevated by an enormous war tariff, and then sell his own products in free-trade markets in competition with all the world.

We observe that the operation of the high seas law in the state is materially cutting down the number of the saloons and materially adding to the funds in the county treasury. Philadelphia Record. Some is the case wherever high license is tried, and we believe it to be the true solution of the liquor question. But of course the law says that the people shall have local option, if a majority so says, and they will have an opportunity of voting on the question, February 27, in this county.—I.

The Rugby association have taken up the gymnasium project and are determined now to see what can be done towards the establishment of a gym for the campus. The boys need a gym and the state ought to pay for it, but it seems she will not, and now they will see what they can do in the matter. We wish you success, boys.

I was told an amusing story the other day about two women who drove into the country several miles to purchase straw to fill a bed. When coming home they were so much engrossed in conversation that they paid no attention to the straw which the farmer had tied to the back of the cutter. One of the women happening to look back discovered that they had lost this bountiful. The horses were turned around, and once again they started for straw. Upon going back a mile or more they found it in the road, when, after again securing it to the cutter they started homeward, one of the ladies holding the strap which bound the straw to the cutter. This occurred on one of the coldest days of this winter.

The women of Buffalo, N. Y., support six different lecture courses. The Buffalo Courier says: "In fact, practically everything that is attempted in an intellectual way here owes its support and success to the women."

Two young women of Hammond, N. J., who had tried teaching and did not like it, have invested fifty dollars in the poultry business, and made one thousand dollars the first year and three thousand dollars the second.

Mrs. Emma P. Ewing, professor of domestic economy at the University of Indiana, has been engaged by the regents of Kenyon College, O., to deliver a course of lectures on household science, during February, to young ladies attending that institution.

A man in Gardner, Me., had let his wife bring water from the well for ten years; but when he needed a little water daily for his business, he at once had a pipe laid and a pump put in, to save so much extra labor. The Gardner Reporter says: "A little personal experience is sometimes worth more than a large number of object lessons."

God seems to be using, in this decade, consecrated women for His glory, as never before. Under the old testament dispensation, Miriam, Huldah, Deborah, and Anna were public teachers. Priscilla understood theology no much better than her brilliant Alexandrian pastor, Apollas, that she "took him and expounded unto him the way of God more perfectly." Phoebe, a Tryphena, and other women were all female exhorters. I believe that when the votes of American mothers, sisters, daughters and wives are as desirable as the polls as the votes of the distillers, brewers, saloon-keepers and drunken anarchists, the American liquor traffic will perish forever.—Rev. S. V. Leach, D. D.

A phenomenal appearance of the sun was observed Tuesday afternoon between the hours of four and five. The extreme lower portion of the disk looked vaporized, while the central and upper portions were ablaze with flames shooting directly towards the zenith and of high altitude. It had nothing like the appearance of a sun dog. Old citizens say they never observed the like before.

We have just received from J. C. Greene & Co. their latest song called "Hungry at Somebody's Door," by Charles A. Davies. It is a beautiful song and will become as popular as his last. It has no one like either to me or to you, which we noticed some months ago. Any one of the songs will be sent for eleven 2-cs. stamps Address J. C. Greene & Co., 30 and 46 Arcade, Cincinnati, O.

Dr. Charles G. Clark a highly respected and influential citizen and a prominent homeopathic physician of Troy, N. Y., died at his residence in that city, Dec. 15th, after a two hours illness. Dr. Clark was a cousin of Mrs. Julia Dell Clark, and had many friends in this city who will regret his untimely death. He leaves a wife and one son, who, unfortunately, were both absent from home at the time of his demise.
The Rev. Mr. Talmage wonders that newspaper men believe anything. They see more of the sham and meanness of the world than the members of any other profession. They are bored by cranks, mook moralists, and pestilent humbugs every day in the week, and they see the follies and shame of those "by-result" digresses that are as open as the day to their practiced and disgusted eyes. All this is true, but Mr. Talmage should not forget that the truly good mortal obeys the injunction: "Know thyself." It is this that enables the newspaper man to bear up under so many adverse circumstances and to rest with unshaken faith on the sublime truth that human nature is not all bad.

The initial presentation of Evangeline at Wheeler's opera house last evening was welcomed by a large and thoroughly appreciative audience. The very best class of theatregoers were to be seen, and if prolonged applause and repeated encores of every specialty presented, were any criterion of approval, then Toledo was ablaze with flames shooting directly towards the zenith and of high altitude. It had nothing like the appearance of a sun dog. Old citizens say they never observed the like before.

Rice's Beautiful Evangeline Co., appears at the grand opera house, Ann Arbor, on Jan. 25th. Little may be said. The cast is better than ever before. Miss Butler has a fine soprano voice, and is an actress of ability. Evangeline will only be seen here once this season, the engagement being limited to the performance on Jan. 25th. All three kinds of programs and bright stage pictures, and with dialogue should see the famous burlesque—Courier.

The tickets for the Dante lectures by Dr. Eccleston are now for sale at Brown's drug store or at Hobart hall. Of the high order of this entertainment there can be no doubt. It is highly spoken of wherever delivered. Rev. Moran Dix recently wrote an enthusiastic testimonial to the lecturer in which he used these words: "I had great pleasure in listening to the first of the three lectures on the Divina Commedia, and regretted very much that I could not brook off engagements to listen to the other two." Last week's Churchman contained another flattering endorsement of this course of lectures. The lecturer is a man of high attainments and is to be illustrated with nearly 200 views from Dore and other masters. The dates assigned for Ann Arbor are Jan. 27 and 28th, in Hobart hall.
