The first bysiness was in determining the representation of delegates. It was discussed considerably and it was finally decided that each county represented in the convention should be entitled to the full number of delegates. The counties represented were as follows: Oakland, Ingham, Gratiot, Manistee, Kent, Washtenaw, Benzie, Menominee, Delta, Jackson, Saginaw, Wayne. The total representation from these counties, as formerly agreed upon, was 211, and of these seventy-two were actually present.

er. E. Kean of Kent, offered an amend-ment to the first resolution, providing that the convention proceed to the nomination of a union labor state ticket, one candidate at a time. This was carried by a viva voce vote, and Wellington R. Burt unanimously nominated. Nominations proceeded down to the office of auditor general, the names being those on the fusion ticket.

Bartley Breen was nominated for auditor general. Then the remainder of the ticket was selected, it being composed of the names on the democratic and greenback ticket. It was voted that the Union Labor party ask for two more electors for president and vice-president, making in all five on the ticket. The names of these two candidates will be named hereafter by the executive committee.

executive committee.

Bartley Breen suggested to the convention that an address be prepared to the labor people of Michigan, stating how near the labor party came to death by asphyxia, by means of a poultice of McMillian greenbacks. This committee was appointed and Mr. Breen was made its chairman. The other members are Andrew Fyfe and T. M. Nesbitt. This committee is also made an executive committee to complete all unfinished business. A number of speeches were made and the convention adjourned, having occupied but an hour in its work. The question of adopting a platform was left to the executive committee.

Proceedings of the Convention.

Bishop Samuel S. Harris of the Episcopal diocese of Michigan died in London, Eng., on the 21st inst. diocese of Michigan died in London, Eng., on the 21st inst.

Right Rev. Samuel S. Harris, the second bishop of Michigan, was born in Chattooga county, Ga., Sept. 14, 1841. He graduated from the university of Alabama in 1859, and at once entered the law school of Chancellor Keyes, from which he was admitted to the bar in 1860. He practiced five years in Montgomery, Ala., after which he removed to New York, where he was engaged in practice before the supreme court only. While in New York he yielded to a cherished desire and relinquished his profession and became a candidate for holy orders. He studied theology under the direction of Rev. J. M. Forbes, D. D. Returning to the south, he was ordained deacon to St. John's church, Montgomery, Ala., Feb. 10, 1899, by Rt. Rev. Richard H. Wilmer, D. D. He was ordained priest in the same church by the same prelate, June 30, 1869. His first parochial work was at this church. Immediately after his ordination to the priesthood he became rector of Trinity church, Columbus, Ga., where he remained two years and six months. Then he removed to New Orleans and became rector of St. James church, there, remaining four years. In the year 1875 he became rector of St. James church, Chicago, which position he held when elected bishop of Michigan.

He was a deputy to the general convention in 1874 from the diocese of Georgia and Proceedings of the Convention.

The Union Labor party held its state convention in Detroit on the 15th inst., adopted a platform and placed a state ticket in nomination. The platform adopted is as follows:

General discontent prevails on the part of the wealth producer. Farmers are suffering from a poverty which has forced most of them to mortgage their estates, and the prices of products are so low as to offer no relief except through bankruptcy. Laborers are sinking into great dependence. Strikes are resorted to without bringing relief, because of the inability of employers in many cases to pay living wages, while more and more are driven into the street. Business men find collections almost impossible, and meantime hundreds of millions of idle public money which is needed for relief and meantime hundreds of millions of ublic money which is needed for relief ked up in the United States treasury ced without interest in favored banks in mockery of distress. elected bishop of Michigan.

He was a deputy to the general convention in 1874 from the diocese of Georgia, and in 1877 from the diocese of Illinois. In December, 1878, he was elected by a unanimous vote as the bishop of Quincy, but at the earnest solicitation of the vestry of St. James church he declined. He received the degree of doctor of divinity from the college of William and Mary, Williamsburg, Va., in 1874. He was consecrated bishop of Michigan in St. Paul's church, Detroit, Sept. 17, 1879. His publications are a volume of sermons, articles for reviews, and the "Bohlen Lectures for 1862."

Bishop Harris was a man of marked abil-That all currency shall be issued to the people direct without the intervention of the banks, and of the same amount per

capita as gave us the prosperity of 1866; That the coinage of gold and silver shall be free and unlimited; That all idle money in the United States esteem. The funeral services were held in Westminster Abbey Aug. 22, and the next day the remains, accompanied by Mrs. Harris, son and daughter, sailed for the United States.

Saturday night, August 18, about a dozen men were gathered in Charles Wagner's saloon near the corner of Riopelle and Alfred streets, Detroit, drinking. Among the number were Charles' two brothers, John and Joseph. A quarrel ensued about the payment of the beer. The men went out into the street, still quarreling, when Charles returned to the saloon, got his revolver, followed the crowd which had been attracted by the fight, and fired at his brother John, killing him instantly. A very heavy sea and dense fog were experienced through the night and early morning of August 14. It is said an object could not be distinguished 50 feet away by reason of the fog. Stories differ asto where the liability lies, if not wholly due to the fog and heavy sea. The Thingvalla struck the Geiser on the starboard side amidships, close on to 4 o'clock in the morning. The boats then parted, and within five minutes the Geiser sank. The crew of the Thingvalla was not dangerously disabled, but owing to the heavy sea only 31 were saved. No other vessel was near at the time. The Wieland on her way to this port was 100 miles away. At 11.30 o'clock on the morning of the 14th the was lead to be a stown of the passengers began. The sea was then very heavy, but no mishaps occurred in the transfer of passengers.

The steamer Wieland took 455 passengers from the Thingvalla and those saved from the steamer Geiser to New York. The thingvalla was so badly disabled that after transferring her passengers she was compelled to put into Halifax.

Democratic Congressional Convention.

A Democratic Congressional Convention, for the second district of Michigan, for the purpose of putting in nomination a candidate to repre-sent said district in Congress, will be held in Dean's Opera House, in the city of Adrian, on Wednesday, the 29th day of August, inst., at 11 o'clock, a.m. of said day. The basis of repre-sentation for each county in said district will be the same as in the last Democratic State Conven-tion.

Democratic Representative Convention.

A Democratic Convention for the first Representative District of Washtenaw county, (the north half of the county) will be held at the court house, in Ann Arbor, on Wednesday, September 5, 1888, at 1 o'clock, p. m., local time, to nominate a candidate for Representative in the Legislature. Each township and ward will be entitled to the same number of delegates as those in the county convention.

A young man in Chicago who is engag. ed to marry a servant girl wants the other young men of Chicago to boycott the girls of marriageable age and intentions who prefer the store and the office, as fields of alleged genteel labor, and frown upon the honest domestics as persons far below them. If such a boycott should be entered into seriously, there is no doubt but that it would speedily result in placing society upon a broader and more solid foundation than it has ever had. At the present time the girl who suddenly finds it necessary to earn her

It is stated that the publicists of that country are discussing the propriety of an official adoption the dainty little note, and perused with of the Christian religion, and are in a large eager eves the following finely-written measure in favor of the step. They do not, they say, believe in Christianity, and are even repelled by its dogmas, holding that educated men should always be guided by pure reason, but they think the adoption of the civilized creed essential to the perfection of their own civilization and to the maintainance of a moral standard among their people. The Japanese, they say, have lost their old faiths, and it is indispensible for the safety of society and its development that they should have a new one. Without it they will never obtain that strong coherence and r ellance on each other which is essential to a powerful state. ome of the reasons pleaded are of less importance than this last, which is not in the Times' narrative, one of those actually pub-lished being that only when Japan is Chris-tian will its music ever improve; and we dare say most of the readers of the account set it down as a mere digest of purely academic dissertations by half-in-formed or over-speculative men. That, however, is not the case. We have strong reasons, wholly independent of the account in the Mail, for believing that of the account in the Mail, for believing that the persons who really govern Japan are discussing this proposal as earnestly as the publicists, and that, although there is a strong resisting party, it is still by no means imposithat Christianity may be declared by imperial decree the official religion of Japan. Some of the most influential councilors of the empire are of the opinion that such a step is essential to further progress in civilization, "which tial to further progress in civilization, cannot be based upon a weak morale,"and all implicity admit that it would be possible, that the indigenous creeds are dying or dead, and that the body of the Japanese would receive the new faith with acquiesence, as something quite within the educating province of their rulers. of the accuracy of this view we can not at

The first feeling of Englishmen on hearing of such a project is one of instinctive repulsion. The last few generations have been so trained in the idea that religion is a matter for the The last few generations have been so trained in the idea that religion is a matter for the individual conscience alone, and that anything, even savoring of persecution, is morally wrong, that the promulgation of a creed by a despotic government as an official measure of education strikes them with a sort of horror. There can, they think, be no good result from a step so opposed to the inner spirit of Christianity. Nobody's faith can be affected by such a proclamation, and for a whole people to profess a creed in which they do not believe must be either hyprocrisy, or at the best a bit of histrionics of an objectionable, not to say a rather blasphemous the said folding her evens and fooleing designed." at the best a bit of histrionics of an objectionable, not to say a rather blasphemous sort. No man's spiritual state can be the better for any official announcement that a creed is true, unattended with an internal change in the minds of those who promulgate or obey it; and a great religious revolution which benefits no man's religious condition must be useless to any country, and be most injurious, as interfering with the natural, and, therefore, beneficial, diffusion of truly religious ideas. changes, whether due to the encroachments of business enterprise or of public sentiment, are good ones. In perhaps four-fiths of the villages in the United States the cemeteries are in the rear or by the side of the churches—the latter generally fronting on the main street. Aside from the melancholy picture village cemeteries present, even to the most devout worshipers, their situation violates the simplest principles of hygiene.

As she stood with her fingers over her ling, she glanced quickly over her shoulder to make sure that her movements were not observed by other than the young American. Assuring herself that she had not been suspected and watched, she glided up as close to the window as she well could, and whispered in a musical voice:

"Look, senor! I place this down here for you. Get and read it as soon as I am gone."

And as she uttered these words, she stooped and placed a note under a rosebush. Then plucking several blossoms from the bush, to avert suspicion, if she should be seen in that quarter, she turned quickly and left him without youchsaling him another glance from her dark orbs.

Leo's curiosity was deeply stirred.

To the poorer classes cremation especially appeals, because it is more economical and less formal than burial. It would be well for less formal than burial. It would be well for each State to try the experiment of cremating its dead paupers instead of continuing to enlarge its Potter's fields. Certainly cremation practiced under Governmental auspices in this way would demonstrate its practical superiority. The more the subject is pondered the deeper must grow the conviction that cremation is the most rational and efficient means of modifying the grim and ghastly victory of death.

Remarkable Surgery The science of surgery has made such wonderful progress in modern times, that the most intricate and delicate operations are now undertaken and carried to a successful issue. There are now several well authenticated cases of what is known as pneumotony, that is to say, the removal of diseased portions of the lungs in cases of diseased portions of the lungs in cases of consumption. While, however, this deli-cate operation has sometimes been success-fully performed, the risks attending it are

As she drew nearer, the young soldier became aware of her presence. She was very handsome. Her form, which was plump, was richly clad. Her eyes were dark and intelligent. She looked searchingly at Leo, and as f satisfied with her swift scrutiny, she raised one soft, dimpled hand in warning and placed the forefinger over her crimson lips to enjoin his silence.

"This is mystery personified!" Leo exclaimed, within himself.

But he preserved silence, and not a movement of the graceful girl escaped his vigilant eye. He did not even shift his attitude, fearing her might.

TESTIMONIALS WORTHY OF CONFIDENCE. My daughter Maud has used Hibbard's Rheumatic Syrup and Plasters, which you so strongly recommended her to try for inflammatory rheumatism. Her limbs were badly swollen, and the poor girl was in terrible agony. In the midst of the pain we wound the Plasters about her limbs, and, as a result the swelling was reduced and she became quiet and rested. The syrup corrected her indigestion, cleansed the rheumatic poison from her blood, and she is now able to be around the house. Hibbard's Rheumatic Syrup and Plasters are remedies of great merit.
