OFFICIAL PAPER OF THE CITY.

Col. Michael Shoemaker, of Jackson, is dead. For many years he was a well known figure in Michigan politics

and held the respect of all throughout

The recent boiler explosion in the Detroit Journal building, has aroused renewed interest in the subject of child labor throughout the state. We have a new law which forbids this evil, but it has been enforced in too few instances. There is no doubt that the plain duty of those officials who have this matter in charge, is to enforce the law in all cases which come before their observation. It is also the duty of manufacturers to respect the law, and to arrange their business in a way that they shall not be open to the charge of disregarding the law's requirements. If the people of Michigan can be so aroused as to the evils of child-labor that officers will find it a popular thing to close up the factories where children are employed, and employers will find it an unpopular thing to evade the law, there will be a more educated class of young men and women growing up in our state, and there will be fewer cases of death and disease among our working people. Let the boys and girls be well educated and acquire a healthy

good effects will be very evident.

The school board was in session for two hours Tuesday night. A number of bills were read and approved and, as a number of them were not endorsed by Mr. Jacobs, chairman of the building and grounds committee, he was asked to sign them, which he did. One of the bills, that of Hutzel & Co. for plumbing, amounted to about \$160, and Mr. Beal objected to this on the grounds that it was exhorbitant. He added that in his opinion, one of the members of the board had rather exceeded his authority in ordering the work done without the sanction of the board. Mr. Jacobs rose to explain his position and explained that everything was all right. It was then made clear tives of the dead in that lot might obthat the only objection was that ject to their removal, but so might the matters should be done in a business much more numerous relatives of like way. The matter of the dog tax income, which the schools have lost by a recent act of the council, then came up and will be referred to legal counsel.

Mr. Mummery was authorized to hire an assistant to take charge of the high school boilers and to be at his post all the time during school hours.

A number of parents wished to avoid paying tuition for various reasons and their petitions were referred to the tuition committee, Trustees Smith and Gruner. Mr. Christian Mack was also made a member of this committee.

Truant officer Arthur Sweet asked for \$100 increase in salary. This was then be a needless expense to the city. Mr. Gruner's resignation be taken from the table, but the motion was lost. The board then adjourned.

#### LELAND T. POWERS.

age wages which factory hands receive,

they cannot afford to pay these rates.

The people who own the rooms, on the

other hand, cannot well afford to re-

duce the rates. The result will be,

that there will be an increasing de-

mand for cheap rooms, located near

our business streets. It has been a

fact hitherto, that while little difficulty

has been experienced in finding fine

houses and rooms for rent at high

rates, many a laboring man or woman

has been disappointed in getting lodg-

ings suited to his means. Ann Arbor's

capitalists would do well to erect rows

able place. The removal of the graves

from the old burial-ground to make

room for Felch park was a good im-

provement, and it made property in

that neighborhood rise very percept-

ably in value. At that time, the matter

of removing the half-dozen graves

from the little Jewish cemetery was

agitated, but nothing was done about

the matter, and the place is still left to

grow up in weeds and underbrush. It

has always been considered a draw-

a cemetery adjacent to it, and Our Man

has often thought that the vacant

It is a strange, but true fact, that the

street cars have not been patronized so

much since Oct. 1st, as before that

ning and keep the conductors too, would be to patronize the line more. Our Man is of the opinion that if the fares were reduced to three cents the whole year round, there would be enough more rides taken to pay for the reduction. This fact was illustrated during the summer months in our own city, and the new Detroit Railway has adopted it with marked success. If, however, the company does not wish to try this experiment, Our Man thinks that it would be far better to dispense with the conductors than to run fewer cars. When one wants to take a car. he cannot wait a half-hour, or so, but will either call a hack, or walk. As a result of this, the company would only secure those people as passengers, who happen to see a car going their way It would be rather hard on the motor men if they have to run their cars, ook out for passengers, keep the run of the fares and stop for those who wish to leave the car, all at the same time, but, so far as the passengers are concerned, they would doubtless pre fer that plan to the other.

From California and Mexico, semitropical fruit, from the south, her products, and from the east the fruit of the oom, the spindle and the factory. For an international display of curios, novelties and numismatics, there are the most valuable collection ever seen n this country, all the electric novel ies, the curios of the police departments of Detroit and other cities, the cross of Napoleon, the medal of the Legion of Honor and that struck off by George IV commorating the capture of Detroit. The music will be the most expensive, pleasing, and artistically perfect, that has ever been heard in Michigan. That grand masterpiece of George Rochegrosse, "The Fall of held at the house Tuesday afternoon. Babylon," will be exhibited. All the railroads will run excursions to the fair on dates to be announced later. At the meeting of the Michigan Fed-

eration of Women's Clubs, held at H. Stone, the venerable advocate o women's equality, spoke on the need of women in the faculty and on the poard of regents of the university. Her emarks were greeted with great applause. Following this, a letter was read from Mrs. Eliza Sunderland o this city, now travelling in Europe which set forth in forcible lan guage the need of women in the iniversity. Miss Soule, of this city also explained at length the aims of next Sunday. The evening service will the proposed ladies' annex to the Waterman gymnasium. She stated that the gymnasium is to contain parlors and reading rooms, together with an office for the woman dean soon to be appointed by the regents, to give advice and sympathy to the hundreds of girl students here. After Miss Soule had concluded her remarks, Mrs. Stone appealed to the delegates to induce the clubs which they represented, to contribute towards raising the sum of \$11,000 which is needed to complete the gymnasium fund. The plan was ably discussed by the delegates, with the result that it was heartily and earnest-

v endorsed. Ex-Gov. James M. Ashley spoke saturday night in the Unity club ourse, on "Abraham Lincoln." The auditorium of the Unitarian church was well filled with those who came to hear the famous author of the anti slavery amendment and the leader of the impeachment movement against man, of this city, introduced the speaker in an extremely appropriate way, refering to slavery times and to the part which Ex-Gov. Ashley took therein. The address which followed was a rare treat. Lincoln was not simply praised in a fullsome way with no good reasons given for so doing. Gov. Ashley carefully and fairly compared him with Douglass, Seward, Chase, Sumner, and others, and analyzed his motives and actions in a very original and instructive way. He was personally acquainted with those of whom he spoke, and was in constant intercourse with them during wartimes. For this reason, he was able to speak whereof he knew, with especial interest and force. The next entertainment in the course will be given next Monday evening, Nov. 18, by Prof. C. E. Greene, who will speak on Building Materials and Points in House Construction." Prof. Greene will doubtless give some interesting information about this subject, which all should know.

It has been discovered that there crept into the charter provided by the last legislature for fourth-class cities a provision which deprived women livng in such cities of the right to vote at school elections. It was not the intention of the members of the municipal charter commission thus to humble the women, and the commissioners ere much surprised when the provision was shown to them. The use of the word "and" where it should have been "or" caused all the trouble.
