A Real Personage Was Brian Boru-His Harp Still Preserved.

Brian Boroihme, or Boru, was a real personage and perhaps the greatest of the old Irish kings, says the Brooklyn Eagle. He belonged to a celebrated clan known as the Dalcassians. He had a brother named Mahon and for a time the two worked together to drive out the Danes and extend their own power over other parts of Ireland than that to which their clan belonged. They were very successful. Mahon became king of a section of the country, but was soon after taken captive by some of his rivals and murdered. Then Brian rose in his might. Gathering his clansmen together, he marched with great rapidity from point to point, sought out the men who had slain his brother, defeated them and took possession of their lands and, by means of the deeds he performed with his strong

He opened the box an instant, dropped a hat over the head of one of the creatures, snatched it from its fellows, and, rushing across the deck, dropped it into another box. The thing looked so easy that a deck hand, waiting until the snake owner's back was turned, essayed to repeat the act. He neglected to use the hat, and with a yell yanked a great snake from the box with its fangs fixed in his fingers. Not daring to let go, yet fearing to hold on, he began whirling the snake about his head, meanwhile dancing madly over the deck. London, according to an Englishwoman's weekly, that "in America they send to table at the beginning of dinner, delicate little sticks of celery, two inches or so in length, very erisp served on ice, and the diners eat their celery as they go on from dish to dish just as we eat bread." Very "appetising and delicious," too, it is pronounced, and it is recommended to be tried by hostesses searching for nov-

OFFICIAL PAPER OF THE CITY.

Secretary of the Treasury Carlisle issued a \$100,000,000 bond call last Mon day, for four per cent coupon or registered bonds in denominations of \$50 and multiples of that sum. Sealed proposals will be received until February 5, and the bonds will be ready for delivery on or before February 15, 1896. Secretary Carlisle will doubtless have little trouble of floating this bond issue, and the country will be relieved from any present apprehension of financial stringency.

THE VENEZUELA SITUATION.

Not a few protests against war with England have been recently published in the papers of this country. Of course every right minded person regrets the possibility of the bloodshed which such a conflict would bring, even while he upholds the President's position. George Kennan, the great Russian traveller and magazine writer has this to say on the subject:- "I am surprised, in fact, dumfounded at the readiness of the American people to bring on a firstclass war. Two months ago every mouth in this land was preaching peace at the contemplation of war in the orient and Europe, and here today, even the ministers of the gospel are shouting for war.

"I regret the position because I greatly fear that a terrible war is imminent. England will not back down from her position. This can be taken for a certainty. If President Clevedoctrine is not altered and continues and lecturing tour in Ireland to be upheld, we shall have war and the greatest war that ever transpired. vention of India will be held in Poma He was the son of Mr. and Mrs. Jacob It will not only take in the United States and Great Britain, but will involve the entire world. A foreign war will be very disastrous to us, and while I have no doubt that we shall ultimately win and add Canada to our possessions, it will be very close to ruination for us. Such a war as is bound to come unless the United States backs down, and I do not think it will, will be the greatest calamity to humanity that has ever occurred.'

The country can congratulate herself that President Cleveland has chosen such able men to investigate the boundary question. Until their report is made both nations can consider the question calmly and fairly, and, as neither power cares for war for the pleasure of fighting, there are the best of hopes that matters may be peaceably ad-

A NEW YEAR'S HOMILY.

"A flower unblown; a book unread; A tree with fruit unharvested:

A path untrod; a house whose rooms Lack yet the heart's divine prefumes:

A landscape whose wide border lies In silent shade 'neath silent skies: A wondrous fountain yet unsealed:

A casket with its gifts concealed; This is the year that for you waits Beyond the New Year's mystic gates."

No man can with certainty foretell a single hour of the future. Chance and change love dearly to deal with the settled affairs of men. Destiny, that invincible necessity of human life, is a sealed book, the pages of which no man may read or change.

All the "good resolutions" one may make are insufficient to entirely shape the course of a man's career, even though every vow and resolution be faithfully kept. But a life without purpose or resolution is a drifting thing. Our own happiness is at the bottom of most of our good resolution. We would be happy, hit the secret of our happiness. He has left it for our own discovery. It lies within ourselves. We want to live harmoniously, and if there are discords they are usually the outgrowth of a failure to have our own way, or else it may be the direct result of selfishness.

There is no greater or surer remedy for this sworn enemy of happiness than a life of usefulness, a life of selfsacrifice, a life of helpfulness, a life given for the happiness of others. A life, of helpfulness can never be a life of discontent and unbappiness. Sha' we all try it during each day of this New Year?

SOME SCIENTIFIC FACTS REGARDING ALCOHOL.

A celebrated physician says: "Because alcohol is a stimulant and wilmake a tired or a weak man feel stronger for a short time, it is though that the alcohol imparts strength. The truth is, it simply acts like the prick of a spur to a fagged horse. The human comes with maturity.

Each heart-beat is more forcible, and at the same time the number of pulsations per minute is increased. Thus instead of being allowed to rest and repair the waste which has already been too great, the whole organism is "whipped" on to continued action by the stimulant and greater waste is compelled from the over-

worked tissues. Another popular error is that alcohol will keep the body warm in extremely cold weather. The heart is driven more rapidly by the stimulant and at the same time the drug causes a dilatation of the small blood vessels immediately to under the skin. In consequence the individual feels warmer, but the temperature of the body has not been raised. On the contrary it has reduced, for the blood being driven to the surface its warmth is rapidly carried off by the surrounding colder

If the stream of blood sent off from the heart sent to nourish the brain is vitiated by the continous presence of a poison like alcohol, the effects on the brain are pronounced. The brain cells are stimulated to excessive activity, and by a point is reached when they can no onger be stimulated to do their duty

After the brain, the kidneys and the heart are the organs most likely to suffer from these injurious effects.

The vast accumulation of fat induced by the constant taking of a considerable quantity of her daily impairs the neart by the presence of this fat in the walls of that organ and the result is insurance companies refuse to accept men who drink to any extent, and the outside of the large cities, and much of with the total abstainers are truly Ann Arbor will have to show their startling and convincing.

Of a new year, when the winter season of close confinement is only half gone, many find that their health begins to break down, that the least exposure threatens sickness. It is then as well as at other times, and with people even in good health, that the following facts should be remembered, namely: tha lood's Sa saparilla leads everything in the way of medicines; that it accomp ishes the greatest cures in the world; has the largest sale in the world, and equires the largest building in the world devoted exclusively to the preparation of the proprietary medicine. Mr. Homer P. Finley, of S. Ingalls st, met with a painful accident Wednesday afternoon. He was driving a horse out W. Huron st. to his stock farm, when the animal took fright at some escaping steam near the Aon Arbor road's track, and started to dash across the track. The gate was just being closed to an engine to pass, when the buggy was on the track. This stopped the horse and although the engine was very near, Mr. Finley was thrown to one side of the track and escaped a runover. He drove on to his farm and back, but in the evening complained of severe pains in his side, and vas found to have sustained severe bruises, and, it is feared, internal

To the Honorable Common Council of the City of Ann Arbor:

Gentlemen:-In my opinion the action taken by your honorable body at the sessson of December 16th, on the ordinance relative to and speed of railroad trains, railroad crossings was not in keeping with the best interests of a large part of oar citizens, who live in the vicinity of the railroads. I refer to the striking out of the above mentioned ordinance the words "And no locomotive whistle shall be sounded within the limits of the City' which I hereby disapprove. Also the amendment to the above ordinance, adding the words "except signals for the operation of trains and in cases of emergency." I also disapprove of. Now gentlemen of the Council, while probably you, as well as myself, fully appreciate the value of the railroads to Ann Arbor, and have for them but the kindest of feeling and would far rather help than to impede their management. But let us not in our desire to help the railroads forget our duty toward our citizens; their rights should be first considered. I have no desire to do anything that will work hardship on the railroads, but I do insist that if the stopping of the extreme and unnecessary whistling of the locomotive within the City limits is a hardship and it becomes necessary to choose between the railroad and our citizens as to which shall suffer, then it is our duty, as the representatives | D. F. Allmendinger, Chairman of of the people sto see that it is not

Ann Arbor has been very lenient with the railroads, and they have grossly abused the kindness. Their engines go screaching through our speed, blowing their whistles at every crossing loud enough to be heard ten miles when the crossing is scarcely that many rods away, awaking (if in the night), our citizens for several blocks on each side of the track. Now may it please your honorable body if they were to slacken their speed, and come within, or anywhere near the requirements of the ordinance, the bell would give ample warning of approachcould be done away with. The railroad authorities here have been comnot be persuaded to give it any attention and it now develops upon you, gentlemen of the Council, to defend your citizens. It is your duty to apply such restrictions as will secure to allow the use of the whistle to give such signals as is necessary in the operation of trains and in cases of emergencies will not help the matter in the least. It would be a poor railroad man who could not do all the whistling he choose and find plenty of protection in the emergency clause. Warren E. Walker,

Mayor.

Ann Arbor, Mich.,

December 20th, '95. To the Honorable Common Council of the City of Ann Arbor:

Gentlemen: - At your meeting of

December 16th the following resolu-

was presented and passed. Resolved:-That the Board of Public Works be and is hereby ordered to purchase fourteen (14) flush- room No. 16 N. Fourth Ave. size 29x15. tank syphons to complete the Hill It will not necessitate the use of any street sewer, at a cost not to exceed more fuel or service than now requirthree hundred dollars (\$300.) dollars. ed. Rate \$5.00 per month. The same The same to be paid for, at present, out of the general sewer fund. As I rent of the city offices at the exporado not believe the time has yet arrived | tion of each month that heat is used when it becomes the duty of the City Jan'y. 6th, 1896. Clay A. Greene. to step in and complete the sewer or purchase material therefor, and beginning apprehensive that to do so at this time might lead to complications which it is our duty to avoid. I am was read and referred to the Street placed in the very unpleasant position of disproving the above resolution and thus apparently delaying the com pletion of the sewer contract. The completion of the sewer, as soon as possible, is greatly desired by all but by none more than myself. There is nothing to show in the record of the Council proceedings that Mr. Collins is not carrying out the provisions of his contract, nor that he has delegated to your Honorable body the right to purchase, for him, the material mentioned in the above resolution. It is stipulated in the contract that in the event of default or abondonment of the contract, on the part of Mr. Co!llns, it shall be lawful for the city to advertise for tenders, for the construction of the unfinished portion of such sewer and to re-let the work covered by his contract, or any unfinished portion thereof, or by its employes to take possession of and complete the same, all at the expense of the contractor. The record poes not disclose that Mr. Collins is in default or that he has al a idoned the work, and therefore, in my opinion, until he does so the City cannot interfere, and therefore I disapprove of the resolution to purchase the material.

Warren E. Walker,

Mayor. Ald. Prettyman moved that the resolution vetoed by the Mayor be laid on the table temporally.

Adopted as follows: Yeas-Ald. Moore, Maynard, Allmendinger, Snyder, Laubengayer, Shad-ford, Prettyman, Coon, Butterfield, Cady, Pres. Hiscock—11.

Nays-Ald. Koch-1 COMMUNICATIONS AND PETITIONS.

To the President and Honorable Common Council of the City of Ann Arber: Gentlemen:-Whereas, In the present condition of the sewers in Hill street district No. 3, it is impossible

or this Board to make estimate on completed work, and whereas, there is a balance of about \$400.00 of the last estimate still in the hands of the tity, now therefore, we recommend that your honorable body order a warrant drawn in favor of Henry Collins for the sum of \$280 00 for the pur-pose of paying for the flush-tank fixtures necessary to complete the work otheend that we may make a final estimate. Ann Arbor, Jan. 2, 1896. Lighting Committee.

Dear Sir:-As an experiment we have placed in the clock tower four Welsbach ights and we think the result is so satisfactory that we desire to make you the following propositions for lighting City at a high and dangerous rate of the same. These lights are hung on an anti-vibrating fixture so that all breakage of mantles will be reduced to a minimum and I can see no reason why the mantles in these lamps should not last fully as long as in other positions. We would make you three propositions as follows :-

First: We will furnish and light four Welsbach lights such as are now in use to be lighted by the automatic attachment of the clock from dusk until ing trains, and the whistle nuisance 3 A. M. taking all care of same and furnishing all repairs, for the sum of seventy-five dollars per year, or we will plained to of this nuisance but could light the same until I A.M. for the sum of sixty-five dollars per annum.

Second: We will furnish the fixtures now in place for the sum of seven dollars charging you the regular price for gas and repairs for the same with five cur people in their homes from this dollars per year for regular inspection unnecessary noise. The proposition and care of same. These four light will consume thirteen feet of gas per hour when lighted and one foot per hour when bye passed.

Third: We will furnish complete lamps and attachment for lighting lamps by electric spark controled by switch down stairs to be lighted by the second proposition for the sum of thirty five dollars. Six thousand feet of gas per annum would be saved bp the use of this attachment.

Trusting that the present illumination is satisfactory and that you will give one of these propositions your favorable consideration,

Respectfully, Ann Arbor Gas Co., By-Henry Douglas, Supt. If lighting be continued until day-

light, ten (\$10.00) dollars per year added to first proposition. Refered to Lighting Committee.

In Berlin the British invasion has brought up all the latent feeling of hostility to England. General belief is that the duplicity of British statesmen is deliberate. In spite of the dis-avowal of Colonial Secretary Chamberlain of any knowledge or responsibility for the step taken by Dr. Jameson, little doubt is felt in Berlin that it was prompted in high quarters, and the weighty terms of the emperor's mes-sage are interpreted as indicating the same mistrust of the English protesta
