Cash Prices.

And can sell at low figures. The large volume of Teas they buy and sell is good proof that

Eberbach Drug and Chemical Co.

Manufacturers of the following articles. Glycerine with Lavender for the hands and face 25c bottle.

FAME BY ACCIDENT.

The Great French Painter Bastien Lepage Thus Won His. The French painter, Bastien Lepage who died recently, was pursued by unmerciful disaster through his youth in his efforts to study art, says an exchange.

Farmers' Institute 'Round Up'

The "round up" of the 60 odd farmers county institutes was held at Grand Rapids with such a large attendance that the hall engaged would not accommodate them.

MICHIGAN NEWS.

The F. & P. M. engine house at Sand Beach was destroyed by fire. Charles E. Johnson, a Swede, aged 18, was instantly killed by a falling tree at Lake Ann.

The Ruffed Grouse.

Some of the hunters in Maine relate peculiar traits of the ruffed grouse of that state. One hunter in particular took a shotgun along to have some sport with the birds, but says it "proved a nuisance."

The One Good Result.

The United States Tobacco Journal declares that the bicycle has caused a reduction for the last year of seven hundred millions in the consumption of cigars, the reason assigned being that men seldom smoke while riding a wheel.

A Singular Feud.

Brothers Who Fell Out About a Matrimonial Arrangement. "The queerest feud I ever heard of," said M. C. Allen, the well-known sportsman, to a Minneapolis Journal man.

In the Kitchen.

Scraps of meat are thrown away. Lights are left burning when not in use. Soap is left to dissolve and waste in water.

A Unique Wedding.

A few Saturdays ago a high-class wedding was celebrated at the town hall of the 17th arrondissement of Paris between a workman who had "made his pile" and the fair one of his choice.

A Bear's Nose.

A sportsman's life was once saved by his knowledge of one of the physical peculiarities of the bear. Gen. Sport in Southern India," was out on a bear-shooting expedition with a brother officer.

Influenza Among Animals.

The influenza is going down in England—down to horses and dogs and cats. The officials of the various "homes" for domestic animals in London report that the mortality in cases of influenza among pigs amounts to 90 per cent, among lambs to 75 per cent, and the percentage is said to be even still larger among horses.

Pretty Girls as Ushers.

Girl ushers have just been appointed in the Arkansas City, Kan., opera-house in place of men hitherto employed. There are six of them, and they are alleged to have been chosen from among "the handsomest young ladies in the city."

The Tramp in Japan.

A traveler in Japan says that the Japanese tramp takes his hot bath daily if he has a fraction of a cent to pay for it, or his cold bath if he hasn't a cent. He carries a comb, toothpicks, a razor and a tooth brush in a little bundle.

A Telephone Newspaper.

In Pesth, Hungary, we are told they have a telephone newspaper—news wire, it should be called. The news and other matter is edited as in any other newspaper office. Then, instead of being printed, it is given to good electionists, who talk it into a telephone at intervals during the day and evening.

A Long Walk.

Charles Roberts, wife and three children arrived at Muncie, Ind., last week after a 1,500-mile walk, from the interior of Texas. Roberts left Delaware county seven years ago and invested all his possessions in the lone star state and lost. Last August, he says, starvation seemed to be staring him in the face and he decided to make a beeline for Indiana on foot. He has walked all the distance except about twenty miles. He selected wagon roads to walk on, and reports kind treatment from the farmers. The youngest child is a boy, aged 7, and the other two are twins, aged 12, a boy and a girl. All showed signs of exposure, but were in good shape physically. At St. Louis the trip was delayed because of the daughter becoming ill.

LABOR NOTES.

St. Louis is making an effort to build a labor hall. General Master Workman Sovereign of the Knights of Labor has made his residence at Sulphur Springs, Ark. Women are now being taught silk ribbon weaving in the Pennsylvania mills, the trade having been exclusively confined to men hitherto.

THE WEATHER AND DISEASE.

A Subject That Is Not Yet Sufficiently Understood. A physician has called attention to the necessity of a wider range of systematized data on the relation between weather and disease. That the various atmospheric changes should have some effect on our bodies is easily understood, for we know that alteration in the surface temperature, a change in the blood pressure, or in the air pressure of the lungs may affect the nervous system, and all these changes may be brought about by some peculiarity in the natural phenomena which we call weather.

Where She Got It.

"I tell you I need nothing," she said, conclusively, preparing to shut the door. "But," pleaded the peddler, despairingly, "surely I can sell you some little thing or other—hairpins?" "Don't need them," she echoed the vendor. "How do you keep your bloomers up without suspenders? By will power, I suppose," he added, sneeringly. "Sort of," she asserted, tersely. "Call it hypnotism."

THE WEDDING.

The bridegroom was dressed in a tuxedo, and the bride in a white gown with a long train. The ceremony was performed by the Rev. Mr. Smith, and was witnessed by a large number of guests.

THE BEAR'S NOSE.

The bear's nose was the subject of a recent anecdote. A sportsman was out on a bear-shooting expedition with a brother officer. The bear's nose was the subject of a recent anecdote.

THE TRAMP IN JAPAN.

A traveler in Japan says that the Japanese tramp takes his hot bath daily if he has a fraction of a cent to pay for it, or his cold bath if he hasn't a cent. He carries a comb, toothpicks, a razor and a tooth brush in a little bundle.

THE ONE GOOD RESULT.

The United States Tobacco Journal declares that the bicycle has caused a reduction for the last year of seven hundred millions in the consumption of cigars, the reason assigned being that men seldom smoke while riding a wheel.

Bearings

Perfectly protected and every Cone and Ball Cup ground accurately true after being hardened. NO. 19 GENDRON ROAD BICYCLE 21 lbs

The Highest TYPE of work, and guaranteed for all riders on all sorts of roads. If you will inspect this 21 pounder you will buy no other.

CALL AT M. STAEBLER, AGT.

And see this great Leader. No. 11 West Washington st., Ann Arbor, Mich.

LABOR NOTES.

St. Louis is making an effort to build a labor hall. General Master Workman Sovereign of the Knights of Labor has made his residence at Sulphur Springs, Ark. Women are now being taught silk ribbon weaving in the Pennsylvania mills, the trade having been exclusively confined to men hitherto.

Good progress is being made in the effort to bring all woodworkers in the United States and Canada into one international organization. Of the 8,000 applications for employment filed with the California labor commissioner at San Francisco, not a tailor was among the number.

Ohio has a law prohibiting children under 16 years from being employed in factories, but it is enforced no better than that of Michigan where the age is 14. The best English in the United Kingdom of those who follow manual labor are as follows: Men, \$6.22 a week; women, \$3.04; lads, \$2.14; and girls, \$1.52.

Indianapolis factories and railroad shops that have hitherto burned natural gas are returning to coal, as gas is diminishing. It is feared the diminution may result in the closing of some of the industries with which gas is essential, particularly the bicycle factories.

A conference will soon be held in New York to prepare a bill for introduction in Congress providing for a postal or similar system of savings banks, the same as was introduced by the American Federation of Labor at its convention. Sydney, N. S. W., authorities furnish all worthy applicants for work with a pass to the gold fields and a miner's right to prospect. There were 9,572 such passes issued in 1894, and since the inauguration of the plan the amount of gold obtained in the colony has risen from 179,288 ounces in 1893 to 324,787 in 1894.

W. A. Klapetzky, president of the international barbers union, holds that the eight-hour work day is the first thing for labor to secure. He says: "We should have eight hours for work, eight hours for sleep, and eight hours to spend as one pleases. This reform effected, we shall have time to look after others of equal importance."

Where She Got It. "I tell you I need nothing," she said, conclusively, preparing to shut the door. "But," pleaded the peddler, despairingly, "surely I can sell you some little thing or other—hairpins?" "Don't need them," she echoed the vendor. "How do you keep your bloomers up without suspenders? By will power, I suppose," he added, sneeringly. "Sort of," she asserted, tersely. "Call it hypnotism."

"Hypnotism, eh?" said the man, packing up his wares. "Keep your bloomers up with hypnotism! Where do you get it?" "I get it—"

How the woman glanced complacently over the bewitching bulginess of her curvilinear figure. "—from the hip!"

And the door banged slammy—New York World.

A Telephone Newspaper. In Pesth, Hungary, we are told they have a telephone newspaper—news wire, it should be called. The news and other matter is edited as in any other newspaper office. Then, instead of being printed, it is given to good electionists, who talk it into a telephone at intervals during the day and evening.

The receivers are connected to the main line by long, flexible wires, so that the hearer can listen in bed or wherever suits his or her will or fancy. Twenty-eight editions are uttered per day. In the intervals the recipients are entertained by vocal and instrumental concerts, which are especially given in the office, and the wires are also connected with the opera house and music halls, and on Sundays and saints' days with the churches. The happy Hungarian, it is said, can lie abed all day and yet never think that it is going on.—Iron Age.
