The House of Representatives passed the resolution to recognize the Cuban belligerents, Monday, by a to e of 268 yays to 17 nays. The Senate had al ready passed a similar resolution, although theirs contained a clause directing the President to endeavor to secure the recognition of Spain for the recognition of Cuban independence. Both branches of Congress have then practically unamiously declared in favor of recognizing Cuba's belligerent rights. Should President Cleveland issue a proclamation of neutracity, between 1850 and 1860 and lived on F. Spain could not justly complain, because Spain recognized the Southern Confederacy before the Buttle of Buil Run or any real victory had been won by the South. The attack upon the United States consulate at Barcelona was an outrageous insult to this country. Spain has, however, apologized and offered to make reparation for it. If the President follows the action of Congress the insurgents in Cuba will be recognized as soldiers and not mere bandits. The future history of the island will be watched with great interest by the people of this country.

### New York Fashion Notes.

Cotton dress goods in Persian style with metal woven into them will be very popular during the Summer sea-Grass cloth is another fashionable fabric. Some varieties have JOHN BAUMCARTNER twilled stripes with dots of white or colored linen, while others have fancy plaids and designs in various colors. The French Pattern Dresses are made very elaborately with applique flowers, embroidery and bands insertion. The new zephyr cottons have threads woven into the outer surface which give to them the appearance of woolen materials so that they are especially adapted for street costume in warm weather. The newest importations for shirt waists are shown in these delicate issues. The shirt waist of this season is easily recognized by immense drooping bishop sleeves which are usually finished with a turn over cuff. These shirt waists are especially satisfactory because of their adjustable collars. Other fancy waists are made up in the otton crepons which appear in large Shop-Cor. of Detroit and Catherine plaids of brilliant collars and in dotted Swiss muslin, the latter being very charming in design this season. They are much embroidered and ornamented with Dresden effects. The iron steamer Bermuda, flying the British flag, was boarded and sei ed by revenue officers off Liberty Island in New York harbor. The Bermuda had been under the watch of Spanish spies for some time under suspicion of carrying a Cuban filibuster expedition. No resistance was offered. Every man was seized. Among the captives was Gen. Garcia's son and several other prominent Cubans. Four pags of gold were seized by the marshals and a great quantity of arms and ammunitions.
