Rooms over Ann Arbor Savings Bank, opposite Court House square. VITALIZED AIR administered. It is agreeable and easy to take and no prostrating effects follow, while teeth are extracted without pain.

GREAT DAMAGE DONE.

CYCLONE SWEEPS THROUGH CAIRO, ILL.

All Passengers of a Ferryboat Lost and But Three of the Crew Saved—Death List of the Michigan Cyclone Growing—Full Account of the Storm.

Cairo, Ill., May 27.—A terrific hurricane and cloudburst struck this city at 8:30 o'clock this morning. The extent of the destruction and property cannot yet be ascertained, but it is known that at least a dozen lives were lost through the capsizing of the steam ferryboat Katherine. The list of drowned includes:

- CAPTAIN RITTENHOUSE, superintendent of the ferry company.
- DR. ORR, of Wickliffe.
- MISS ORR, daughter of Dr. Orr.
- RICHARD THURMAN, of Wickliffe.
- CHARLES GILLOP, of Cairo.
- SEVEN MEMBERS of the crew of the Katherine.

The disaster occurred at the mouth of the Ohio river. As speedily as possible relief parties were organized to drag for bodies and rescue the ill-fated passengers and crew from the mad fury of the waves. The captain, engineer and clerk of the steamer succeeded in keeping afloat until succor reached them and they were brought ashore. All attempts to save the other victims were unavailing, and when the bodies of Thurman, Miss Orr and a deckhand were recovered life was extinct.

Five miles of telegraph poles were blown down on the Mobile & Ohio railway. It is impossible to tell the extent of the damage south of here, but it is believed to be very great. In this city a terrific wind blew and torrents of rain fell. The opera house and union depot were unroofed, trees were destroyed and signs blown down, but no houses were destroyed nor lives lost.

DEATH ROLL GROWING.

Full Extent of the Michigan Cyclone
Mexico to the Appalachian

Oxford, Mich., May 27.—From reports that continue to come in from adjacent points the full force of the fierce wind that swept this part of Oakland county is beginning to be appreciated. The following are known to have been killed in this county:

Near Otterville—W. J. Mitchell, wife and two children; Daniel Thompson and son; Abraham Quick, wife and two children; Mrs. Henry Quick, John Wilkins, John Porritt, Mrs. Joseph Porritt, John Miller, T. E. Gleason, Mrs. T. D. Eaton, Abe Kitchell, Mrs. William Kitchell, Edwin Fifeild, two children of Mr. Fifeild.

At Oakwood—Mrs. Susan Stewart, Mrs. E. A. Wolverson, Mrs. William Davidson and daughter, Ida; Ed. Fifeild; child of Alfred Fifeild; Ed. Howe is fatally injured.

At Thomas—Charles Hicks and son. Reported dead at North Oxford—Mrs. Cecelia Late, Thomas Bishop, a farm laborer, name unknown; Joseph Smiley and son.

Injured at North Oxford—Frank Laidlaw, wife and child; Mrs. Laidlaw was seriously hurt.

Injured at Thomas—Mrs. C. A. Hicks, frightfully crushed; Mrs. Sid Copeman will not live; Elvory Hicks, badly crushed; T. P. Knapp, head badly bruised; William Althouse, internal injuries; George Hiller, both legs broken; William Carr, fearfully bruised, injured internally; Charles Bradley, injured about head; A. M. Kidder, arm badly shattered.

Injured at Oakwood—Jessie badly injured; Harvey Francis, internal injuries, cannot live; Myron Johnson, leg broken; Mrs. E. A. Howe and one or two children.

Near Orionville between twenty and twenty-five were more or less seriously injured. Everywhere is devastation. Villages that were yesterday the homes of contented citizens are today desolate sites and mangled and bruised fathers, mothers, brothers and sisters mourn for those who met death in the twisting, grinding, relentless wind.

The death-roll in this vicinity may run to the hundred-mark, for many homes that were on the edge of the cyclone suffered from its fury. At Oakwood, a hamlet five miles north of Oxford, having a population of about 200, the houses are left standing. The two churches are flattened to the earth.

The 17th of the storm was between half and three-fourths of a mile wide and it extended in nearly a straight course eastward over a distance of thirty miles. A remarkable circumstance is that the buildings in close proximity to each other were blown in opposite directions, some being swept northward and others southward.

Nearly all the people killed were in their homes when the storm came up, and when one viewed the ruins after the cyclone had passed, showing only a mass of small debris, it seemed miraculous that a great many more lives were not lost. Most of the people who could do so took refuge in their cellars and thus many escaped the greater fury of the storm.

MANY HURT AT MOUNT CLEMENS.
Large Tract of Country Swept by the Big Storm.

Mount Clemens, Mich., May 27.—Last night's cyclone left a track 550 feet wide through the southwestern part of the town, which looks as though a reaper with a gigantic scythe had been endeavoring to mow a harvest. Fortunately nearly every body was in such position as to avoid fatalities. No one was killed outright and none of the injured have died. The injured are:

- Mrs. Anna Pohl, widow; cracked broken, injured internally, breast crushed in will not live.
- Henry Pohl, aged 14; hip broken, injured internally.
- Adolph Pohl, aged 12; right leg broken, bruised about shoulders and body.
- Willie Pohl, aged 10; injured internally, right leg broken, left shoulder dislocated; recovery doubtful.
- Mrs. Joseph Harder, injured internally, cut about head and arms.
- Mrs. Carter, head and face cut.
- Mrs. Russell Carter, injured internally.

WINDS BRING DEATH.

FATAL CYCLONE PASSES OVER IOWA.

Many Lives Reported to Have Been Lost—Chicago Suburbs Damaged by the Storm—Wind and Rain Cause Inconvenience at Indianapolis.

Des Moines, Iowa, May 26.—Central Iowa was swept by a terrible cyclone attended by great loss of life last night. Bonduant and Valeria, on the Chicago Great Western railway, and the country surrounding suffered the greatest damage. The wires are working badly and it is hard to get particulars. It is reported that nine are dead at Valeria. The morning at Bonduant, where two boys are just repaired, says there are twenty-four dead bodies in Bonduant from surrounding country and adage cannot be told at this time. Great damage to property and growing crops blown out of the ground.

Four in the Baile family at Bonduant were killed, and in the same family five were injured. One of these is not expected to live. Three in the Bolebaugh family at Santiago, and Charles Magee is reported dead at Valeria.

The storm traveled through Polk county, striking no other towns as yet reported. A mile south of Ankeny a farmhouse and buildings was completely removed from their sites and the contents scattered for miles over the country. The family saw the storm coming and took refuge in their cyclone cave, so they were unhurt. Neither Polk City nor Slater, little towns on the edge of the storm, were hurt.

A relief committee has been organized in this city, with Major Hoyt Sherman as chairman and Conrad Younger, chairman of finance committee. The committee will make personal investigation of what is wanted and will supply all that is needed.

It appears from latest information that the damage is more outside Bonduant than in the town. Bodies are brought there for identification. Early this morning many houses in the city from Bonduant and ordered four coffins for persons killed by the cyclone last night. He reported that six were killed at Valeria and that the storm moved in a northeasterly direction.

DEATHS NEAR ROCKFORD.

One Woman Reported to Have Been Beheaded—Crops Rained.

Rockford, Ill., May 26.—This section was last night visited by the severest wind, hail and rain storm experienced for many years, doing great damage to property of all kinds, ruining crops, killing several people and fatally injuring a number of others. The storm broke about 11:30 o'clock and raged for over an hour with terrific fury. The air was filled with balls of fire, flashes of lightning following each other with great rapidity. Many houses in the city and throughout the country were struck by lightning. In the northern part of the country there was a furious downpour of hail, ruining growing crops and making country roads almost impassable.

The storm was most severe southeast of this city. At midnight a cyclone struck a mile south of Egan City, completely demolishing the residence of Mrs. Isora Bird, killing that lady instantly. Her two girls and two boys were killed in several places and suffered severe internal injuries. The youngest daughter is so badly injured that recovery is not possible. Giant trees were torn up and crops of all kinds leveled.

Davis Junction suffered heavily. Monro Center was also in the path of the storm and several lives are reported lost. One woman is said to have been beheaded and her head, it is reported, has not yet been found. The crippled condition of the wires makes information from the path of the storm difficult to obtain.

Hildebrand, wife and daughter were killed near Monroe Center and Miss Rihlehart at Leaf River.

DAMAGE AT ELGIN.

Sewing Machine and Bicycle Factory Injured—One Life Lost.

Elgin, Ill., May 26.—About 1 o'clock this morning a cyclone passed south of Elgin, taking in the southern extremity of this city, and sweeping away several places, with more ruins to be heard from.

The factory of the Elgin Sewing Machine and Bicycle company, employing over 300 hands, and having over \$60,000 worth of fine machinery, was badly injured.

At the insane asylum in John Keogh, engineer, who slept in the pumping station, was killed by the falling of the chimney. He was in bed. William Bambrugh, his fireman, escaped unhurt.

Many farm houses and barns were blown down, and South Elgin suffered to some extent. Details have not been received.

Damage on Seminoles Reservation
Dallas, Tex., May 27.—A special to the News from Guthrie, O. T., says: "A cyclone is reported in the Seminoles reservation, where several persons were killed and many thousands of dollars' damage was done by the wind and accompanying flood."

TO FIGHT THE LIQUOR EVIL.

Galesburg, Ill., May 26.—The twenty-fifth annual convention of the Roman Catholic Total Abstinence union of Illinois was held here Sunday. There were thirty-one societies represented. In all 2,000 outsiders were here. The convention was called to order at 2 o'clock by President James L. Slattery. The report of the financial secretary, John C. McLaughlin of Chicago, showed an increase of ten new societies and 652 members during the last year, making a total of 2,215 members. The union now numbers forty societies, divided as follows: Eight women's, eight cadets, twenty-two men's, one mixed and one girls'. The resolutions contained the usual strictures against intemperance. The attitude of Miss Frances Willard toward the Roman Catholic temperance societies was endorsed. The hearty co-operation of the Roman Catholic clergy was requested.

MAY SPLIT THE PARTY
DEEP FEELING AMONG PROHIBITIONISTS.

National Convention at Pittsburg Threatens the Destruction of the Party Over the Silver Question—Factional Denunciations Emerge.

Pittsburg, Pa., May 27.—Interest in this city is centered in the national prohibition convention, which opens Wednesday. The hotels are rapidly filling up with delegates and visitors. Those on the ground are considerably excited over the platform question, and one man—Editor Grant of Adrian, Mich.—rose to remark that National Chairman Dickie was a traitor to his party because he refuses to vote for free silver. Ex-Gov. St. John declares that Dickie's position is emblematic of the subterfuges of the gold bugs. "There is no question," said Mr. Dickie, "about free silver being defeated. We have a safe majority." Mr. Dickie thinks the attendance will reach several thousands.

Mrs. Helen M. Gougar of Indiana is threatening to bolt if things do not go to suit her. "There are three things I want," said Mrs. Gougar. "They are prohibition, woman suffrage and a denunciation of the financial policy of Carlisle and Sherman. If woman suffrage is dropped I will leave the party so quick it will make their heads swim. I would go home and denounce the party for its action. If the convention fails to denounce the single gold standard, I shall bolt the national ticket, but I will support the state ticket, and speak where the platform favors free silver."

The broad-gaugers are having some difficulty in getting together on the financial question. The majority of them have formulated a declaration which Judge Logan, of Ohio, and the Nebraska representatives say will be adopted by the committee on resolutions. It reads thus: "We favor the issuing of a paper currency by the general government, based on the credit of the nation, which shall be a full legal tender payment of all debts, public and private. To meet contract obligations we favor the free and unlimited coinage of both gold and silver, at the ratio of 16 to 1, for the purpose of paying bonds which were contracted in coin."

Politics in Indiana.
Democrats to Hold a Big Mass Meeting Thursday.

Indianapolis, Ind., May 26.—The democrats of Oregon have declared for free silver and will send a solid delegation to the Chicago convention to work for a 16-to-1 plank in the platform, the republican delegates elected to the St. Louis convention are unanimous in favor of a "sound money" platform. Charles S. Moore, an influential member of the delegation, said last night: "The Oregon republican delegates will vote for McKinley to the last, and I believe he will and ought to be nominated on the first ballot, as he is the people's choice. The delegation to a man is for 'sound money'—gold standard if you please—and emphatically against the free coinage of silver at 16 to 1, and so far as our influence goes it will be to have the St. Louis platform so declared."

Think Windfall Income.
Chicago, May 14.—At the request of Attorney Burres Dr. Moyer made an examination of Joseph Windrath, who is condemned to die on the gallows here Friday. For nearly an hour Dr. Moyer talked with Windrath and noted the changing moods of the man. His report on the case will be submitted to Governor Altgeld, together with a petition asking for a stay of proceedings. Dr. Moyer said after the examination of Windrath that there were indications of insanity in the case and that the man was evidently of unsound mind.

Sale of Cigarettes and Cider Prohibited.
Ramsay, Ill., May 15.—As a sequel to the success of anti-license, the village board, a majority of whom are license men, Wednesday night refused to grant permits for druggists to sell liquors on prescription. They blame the druggists for the defeat of license, although there are but two druggists, and license was defeated by twenty. An ordinance was also passed prohibiting the sale of cigarettes and cider.

An Old Prisoner Pardoned.
Lansing, Mich., May 15.—The only woman in the state prison at Jackson, and the oldest prisoner in point of service save one, was pardoned by Gov. Rich Wednesday. Her name is Mrs. Sarah Haviland, and she has been in prison thirty years. She was the twentieth prisoner sent to the institution. The crime for which the woman was sentenced to prison for life in 1866 was the murder of her own children, three in number.

Big Glass Works Blows Up.
Hartford City, Ind., May 26.—A natural gas explosion in one of the blowing-rooms of the Hartford City Window-Glass company, Sunday afternoon, destroyed the tank, and burned William Sutton and John Worthen so that they may die. It was only a week to the shut down, and 600 men are prematurely thrown out of work. Loss, \$2,000.

FIGHT OVER SILVER.

Prohibitionist Leaders Disagree on Vital Questions.

Pittsburg, Pa., May 26.—The delegates to the prohibition national convention began to arrive shortly after midnight last night. Governor John P. St. John, of Kansas, and Samuel Dickie, mayor of Albion, Mich., and national chairman for the past eight years, are already on the ground. The number of delegates to the convention will be 1,160. Not all the states will be fully represented. The delegates from the south and west will have some gaps.

The first question to be settled is whether the delegates from states not fully represented will be allowed to vote the entire strength of their sections. Mr. Dickie believes that only the delegates present should be counted, and if some of the states are shy, they will lose to that extent. To this view there will be a strong opposition. A very hot time is expected in the convention. Governor St. John admits that the delegates are likely to be acrimonious, while others interested in the convention believe that a strong body of police will be found necessary to prevent personal conflicts. There will be two factions in the convention—the narrow-gauge, or single-idea, people, led by Chairman Dickie; and the broad-gauge, under the leadership of St. John. The Kansas believes in the policy of all things unto all men in the glory of the prohibition party. He is an ardent advocate of free silver and free trade, and populist ideas. Neither St. John nor Dickie attempts to conceal the fact that he expects trouble in the convention. Dickie is an advocate of the gold standard. He thinks that four years hence the silver question will be settled forever, and it will be in oblivion as an issue with the old greenback and other flat money ideas. He therefore says that as the members of his party cannot agree on the money question and kindred problems, the wise course is to stick to the one issue of prohibition, on which they all agree. Dickie is a firm believer in woman suffrage. He agrees that the time is not far hence when the women will vote but wants this issue, with all others, subordinated to the single idea for which the party was organized.

EFFECT OF TEA CIGARETTES.
They Give One a Sensation of Thickening in the Throat.
One of the most injurious and dangerous of new fashions is the tea cigarette, says the Cincinnati Tribune. That this is no empty, baseless story of a new craze is shown by the application made last week to the commissioner of internal revenue at Washington for permission to manufacture tea cigarettes in Michigan. The applicant was told that, to engage in such manufacture, he must comply with the law governing the manufacturing of tobacco cigarettes, tea being a substitute for tobacco; that he must register, give bond and so on, and that the cigarettes when made, must be packed, stamped, branded and labeled, exactly as the tobacco cigarettes, before the government would sanction their removal from the factory for sale. Several descriptions of the tea cigarette have been printed, but these have erred in the presumption that the tea was taken as sold, rolled up in a paper and smoked. This would be practically impossible, as the sharp edges of the tea would cut the paper in all directions, spoil the draft and render the cigarettes unsmokable. To make the tea cigarette one takes a grade of green tea which has little dust, being composed of unbroken leaf, and dampens it carefully, just enough to permit the leaves to be unrolled without being broken, and so as to be left pliable and capable of being stuffed in the paper cylinder, while the dampness is not sufficient to stain the paper. The cigarettes are laid aside for a few days and are then ready to be smoked. The feeling of a tea cigarette in the mouth is peculiar. The taste is not so disagreeable as might be supposed, but the effect on the throat is a sense of thickening of the head and a disposition to take hold of something or to sit down. If the beginner quits then, that settles it, he will not try tea cigarettes again. If, however, the smoker sits down and tries a second cigarette, inhaling it deeply, then the thickening effect passes and is succeeded by one of intense exhilaration; the nerves are stimulated until the smoker feels like flying, skirt dancing or doing something else entirely out of the common way. This stage lasts as long as the smoke continues, which is until the reaction of the stomach sets in. Words cannot describe the final effect of the tea cigarette. The agony of the opium fiend is a shadow to that of the nauseated victim of the tea cigarette. It will be hours before food can be looked at, yet the first step toward cure is a cup of tea. An hour afterward comes the craving of the tea cigarette.

OFFICIAL PAPER OF THE CITY.

The awful work of cyclones has brought disaster to hundreds of homes. The terrible disaster at St. Louis, where more than a thousand people are thought to have lost their lives, is undoubtedly the worst effect from a cyclone in the history of our country.

Mayor Walker's appointments of Messrs. Thomas J. Keech and W. B. Smith to fill the vacancies on the board of public works, meets with the general approval of our citizens.

Our citizens should respond generously to the appeal of Welch Post, G. A. R., for flowers to decorate the graves of the soldiers on Memorial Day, tomorrow.

THE DEMOCRAT has often called the attention of its readers to the growing need of a great auditorium for Ann Arbor. The May Festival, just closed so successfully was a grand success.

Monday evening—special service were in progress—found the father, but not only in the house of prayer, but kneeling at the altar in penitence.

Memorial Day. Mayor Walker has issued the following request to business men to properly observe memorial day by closing their places of business and attending the exercises which are to take place on that day.

White Ribbon Echoes. Edited by W. C. T. U. Press Staff.

Regular meetings of the local union are held in the P. O. block the second and fourth Thursdays of each month.

The Loyal Temperance Legion for children under the auspices of and supported by the W. C. T. U., meets every Saturday, at three o'clock, in the hall over Calkin's drug store.

Four Ann Arbor delegates will attend the Michigan W. C. T. U. convention in Marquette, June 12-17.

June 9th, the birthday of Jennie Cassaday, will be observed throughout the country as Flower Mission Day.

Miss Anna Richards the leader of the L. T. L., has been on an extended trip through the states lecturing and organizing Legions and Y's.

On motion of Dr. Lewis Curtis a unanimous indorsement of our Polyglot Potition was carried through the General Conference.

The Southern Baptist Convention, in session at Chattanooga, passed by a large majority resolutions condemning the retention of church members who make, sell, or drink spirituous liquors or rent their property for the use of liquor dealers.

A curious mistake occurred last winter in Stanz, Canton Unterwalden.

A little town named memorably by its connection with Arnold von Winkelried. Two large castles were received, of wine and oil respectively, the former for the liquor dealers, the latter for the town lamps.

OUTDOOR LIFE FOR WOMEN.

If we are to do the work that is crowding into women's hands in these days, we must be students of the physical basis of life and character.

ONLY A BUNCH OF FLOWERS. A lonely little woman who had just laid to rest the precious husband that had been her stay and counselor, was on her way, to visit a young clergyman and his wife in a distant part of the state.

Their radiant beauty contrasted strangely with the somber dress and the sad, pale face that bent above them.

Our Man has heard of an amusing incident which recently happened in our city. A prominent lawyer and a prominent dry goods man of Ann Arbor were attorney and juror respectively in a case in the circuit court.

The ordinance against ball playing in our streets is disobeyed nearly every day. Our Man made a round of the city a few days ago and was hardly able to find a street in those parts of the city where the students room, where from two to ten boys and young men were not playing ball in the road.

The Humane society of this city is doing a work which, though quietly managed, has a great power for good. The officers of the society are Marshal Peterson and Mr. J. J. Goodyear.

Remember we have a duty to perform, a service to render. Let us in honor of their memory again close our places of business, lay down the implements of labor, and join hands with the survivors in paying proper tribute to the silent comrades of that heroic band, who 35 years ago so nobly responded when our country was in danger, and gave up their lives in its defense, that you and I might enjoy the blessings of one of the best governments the sun ever shone on.

W. E. WALKER, Mayor. Dated May 22, 1896.

Marriage Licenses. Fred Hertler, Ann Arbor, 27; Mary Hill, Ann Arbor, 28; Wm. Kanka, Ann Arbor, 21; Anna Kisonhoff, Ann Arbor, 21; G. W. Carpenter, Dexter, 27; Louisa Maud Hooper, Pottsville, 22; Joseph F. Glosier, Ann Arbor, 29; Anna Estle, Pittsfield, 24.

OUR MAN ABOUT TOWN.

He Sees About Everything and Talks About Everything He Sees.

Messrs. Jacobs & Ailmand have offered to befriend the Women's Gymnasium a second time. They will give twenty-five dollars if nineteen other business firms will do likewise.

Our Man is glad to see that the shade trees along our streets are being trimmed, but he is not sure that they are being trimmed properly.

Speaking of our shade trees, Our Man desires to call attention to the way in which many of our trees have dwarfed or killed by the telephone and electric light wires which pass through their branches.

Our Man has heard of an amusing incident which recently happened in our city. A prominent lawyer and a prominent dry goods man of Ann Arbor were attorney and juror respectively in a case in the circuit court.

The ordinance against ball playing in our streets is disobeyed nearly every day. Our Man made a round of the city a few days ago and was hardly able to find a street in those parts of the city where the students room, where from two to ten boys and young men were not playing ball in the road.

The Humane society of this city is doing a work which, though quietly managed, has a great power for good. The officers of the society are Marshal Peterson and Mr. J. J. Goodyear.

Remember we have a duty to perform, a service to render. Let us in honor of their memory again close our places of business, lay down the implements of labor, and join hands with the survivors in paying proper tribute to the silent comrades of that heroic band, who 35 years ago so nobly responded when our country was in danger, and gave up their lives in its defense, that you and I might enjoy the blessings of one of the best governments the sun ever shone on.

Woman's Gymnasium Notes.

Ann Arbor, Michigan, May 19, 1896. At the meeting of the Gymnasium Committee of the Women's League held May 18th the following resolution was passed.

RESOLVED, That since on Saturday May 9th the management of the Ann Arbor and Toledo Railway placed at the disposal of the Woman's League three excursion trains between Ann Arbor and Toledo since the entire sum received from the sale of the excursion tickets was made available for the building and no part of it was retained by the Ann Arbor road nor used to meet any of the expenses of the excursion, therefore the thanks of the Woman's League be tendered to the management of the Railway in appreciation of their very great kindness.

The proceeds of the excursion to Toledo given by the Ann Arbor R. R. are \$243.00 for tickets sold. After paying the expenses connected with the excursion and dividing with the Oratorical Association the Gymnasium Fund received \$172.73 of which the Oratorical Association give \$37.92 from all the Julius Caesar entertainments given this spring.

The Oratorical Association received from the excursion \$114.45; E. E. Calkins commission on soda water tickets \$55; Mrs. Jarley's Wax Works \$177.35; Tuesday club, Jackson \$10; Toledo excursion \$127.37; Proceeds of play given by six girls \$10.25; Mrs. Mary Lou Dickinson \$4.00.

DEATHS. Mrs. A. K. Clark died at Saline, Monday night. She was the mother of A. M. Clark, of this city. The funeral was held yesterday afternoon.

Martin Remus died, Monday, from typhoid fever, at his home, No. 74 S. Fourth ave. He was aged 74 years. Rev. J. Neumann conducted the funeral services which were held Wednesday at the house.

Mrs. Julia Myers, of Fountain st., died Friday, aged 24 years, 11 months. Deceased was the wife of John Myers. Rev. W. L. Tedrow officiated at the funeral services which were held Sunday at the house.

Charles A. Richmond died of heart disease Tuesday night. He was aged 23 years 10 months and 17 days, and was unmarried. His parents reside in this city. The remains were taken to Mt. Pleasant for burial. Mr. Richmond was a tailor, having an office over Cutting Reyer & Co.'s store. He was liked and respected by all who knew him.

Col. J. W. Childs, brother of W. K. Childs, Mrs. Robert Campbell and Miss Alma C. Childs of this city, and of E. M. Childs, of Ypsilanti, died at Washington D. C., Sunday. Mr. Childs was aged 62 years. He was the oldest son of the late Aaron Childs, of Augusta township. He leaves a widow and one child, Miss Elaine Childs, who is a senior literary student here.

The Ladies' Home Journal. Secretaries Olney and Carlisle recently consented, for the first time since they held office, to be photographed seated at their desks. The pictures were taken at the request of 'The Ladies' Home Journal, and will be used to illustrate ex-President Harrison's article describing the workings of the State Department in the July number of that magazine.

Cures absolute, permanent cures have given Hood's Sarsaparilla the largest sales in the world and the first place among medicines.

Another Cheap Excursion to Toledo. The 800 passengers who patronized the Ann Arbor Railroad's first excursion to Toledo were so highly pleased with the trip that they have done nothing but talk about it since, and are sure the announcement that they have decided to give another on Sunday, May 31st will be received with delight.

Is the season for purifying, cleansing, and renewing. The accumulations of waste everywhere are being removed. Winter's grip is broken and on all sides are indications of nature's returning life, renewed force, and awakening power.

Is the time for purifying the blood, cleansing the system and renewing the physical powers. Owing to close confinement, diminished perspiration and other causes, in the winter, impurities have not passed out of the system as they should but have accumulated in the blood.

Teachers Examinations. The examinations of Teachers of Washtenaw county for the ensuing year will be held as follows:

Regular examinations for all grades at Ann Arbor, the third Thursday of August, 1895, and the last Thursday of March, 1896.

Regular examination for second and third grades, Ann Arbor the third Thursday of October, 1895, and the third Thursday of June, 1896.

Special examination for third grade, at Manchester, the third Friday of September, 1895.

Wm. W. WEDEMEYER, County Commissioner of Schools.

"Ann Arbor Rail Road Bulletin." Rates of one fare for the round trip will be made to any point on the Ann Arbor road. Decoration day May 30th. Tickets limited to the one day only.

INVENTIONS WANTED.
A perfect and cheap insulator for electric wires.
A safe mailing envelope that costs no more than the ordinary one.

SCRAPS.
The span of Paderewski's hand takes eleven keys.
Jernsulan is 5,495 miles east of our national capital.

RAM'S HORNS.
Talking with God begins in short steps.
Christ is very close to the penitent sinner.

WOMEN OF NOTE.
The Whilmarite (Conn.) chapter of Daughters of the Revolution has a member who is actually a "daughter."

HOW POISONS ACT.
Opium, morphine and the like produce a period of exaltation followed by stupor, which merges into death.

GEMS OF KNOWLEDGE.
A barrel of rice weighs 600 pounds.
First Atlantic cable operated, 1858.

WHEELING WIT AND WISDOM.
Coast defenses—brakes.
Look out for your digestive organs, which means ride as much as you can within reason.

FACTS ABOUT GAS.
A cubic foot of good gas, from a jet one-third of an inch in diameter and a flame of four inches, will burn 35 minutes.

War is Growing Safer.
It is usual to compare the battles of the last century with the battles of today and to conclude that the greater facilities of the modern weapons and the modern results.

Education.
Education is not a stuffing or cramming process, but a drawing out, a developing of what is in a person.
