

THE STORE

The Only Place

Where the Selling of Ladies' Outer Wraps, Suits and Skirts, Is Made a Business.

Where the volume of trade is large enough to give every advantage of selection to be had in any city in this country. Where all the Correct Styles and Favorite Fabrics are found in greatest variety.

AS TO THE PRICE.

We can say that for the last half-dozen years garments have been sold here at uniformly lower prices and at less profit to ourselves than in any other cloak house in Michigan, as a result of which our trade has attained its present large proportions.

PRICES LOWER THAN EVER.

For the first time we have adopted in this department as well as all other departments of The Store a

STRICTLY ONE PRICE SYSTEM and every garment has been marked at a price that indicates the very narrowest margin of profit for us—a Lowering of Prices which will be strikingly apparent to our customers.

\$5.00

For this small amount you can get an All Wool Coat or Cape, in plain and other effects, cut in the best style and well made. Would look cheap at \$8.00.

The principal trouble seemed to be a lack of ability to understand the English language.

Omnibus Senatorial Convention.

The populists, silver men, and prohibitionists of the Tenth senatorial district met in separate session at the Court House on Tuesday morning and nominated separate conference committees to meet with a similar committee from the democracy. The democrats met at two o'clock. Abram S. Drake of Jackson, was made chairman and Chas. H. Kline of Washtenaw, secretary of the convention. Norris and Cavanaugh of Washtenaw, and Teufel of Jackson, were appointed a committee on credentials. On motion a conference committee consisting of Teufel, Baumgardner and Norris was appointed to confer with the committees appointed by the other bodies. The conference consisted of the above named, together with Eugene Belden, L. L. Taft, and A. A. Brooks, on the part of the populists; Chas. Boylan, W. W. Secord, O. R. L. Crozier on the part of the prohibitionists; and Harvey Pellet, W. J. Clark, and James H. Mitchell on part of the silver men. On reconvening W. L. Watkins, chairman John L. Duffy, secretary, and A. S. Drake, were made a senatorial committee. The conference committee reported in favor of allowing 20 votes to each of the four parties, which was adopted. They also reported in favor of making E. B. Norris, permanent chairman, and O. R. L. Crozier, permanent secretary of the convention. Chas. H. Kline, was elected assistant secretary, Hoffman of Jackson, and Cavanaugh of Washtenaw, were appointed tellers.

First ballot. C. H. Manly, 10; Curtis, 20; O. R. L. Crozier, 20; John McDougall, 30.

Second ballot. John McDougall, 40; B. J. Curtis, 20; O. R. L. Crozier, 10.

Mr. McDougall's nomination was made unanimous, the prohibition and populist vote being changed to him.

O. R. L. Crozier made his opening speech into democracy and gained considerable applause. Gus Peters was called out, passed him on the home stretch, and made the speech of the convention. Chas. Boylan was called on and declared he did not feel at home. He declared he wanted to see both old parties die. The only thing he wanted to see that pleased the convention was to see the republican party die first. His prohibition sentiments were received with tumultuous silence.

The democratic senatorial committee were authorized and ordered to certify and cause the nomination to be printed under the vignette of the democratic party, and to fill all vacancies. After several speeches of a rosy tint, the convention adjourned.

TURKEY BARS US OUT

The Sultan Refuses to Admit the Warship Bancroft.

OTHER NATIONS ALSO REFUSED.

Holland and Greece Likewise Denied the Privilege—It is Not Thought that Secretary Wilson's ultimatum to the Turkish government in Istanbul—People Want Turkish Troops Withdrawn—Sultan Wishes to Search Visiting Foreign Ships.

Constantinople, Oct. 7.—It is semi-officially announced here Wednesday that the Turkish government, after weighing the matter over and consulting with certain advisers, has come to the decision not to admit the United States cruiser Bancroft through the Dardanelles, and therefore she will not be able to act as a guardship of the United States fleet in these waters.

The ports, it is added, has also decided not to admit the guardships of Greece and Holland, which countries also proposed to have a ship stationed in the Bosphorus as a guardship and to furnish men to guard their legations in case of emergencies. It should be added, however, that the United States government is not known to have presented through the minister, Mr. Terrell, a formal demand for the passage of the Bancroft or any other United States warship through the straits of the Dardanelles, and it is recalled that Greece in 1888, was allowed to have a guardship in the Bosphorus.

Objection from Russia.
The exact ground upon which the Turkish government takes its stand in this case is not stated, but it is known in official circles here that Russia has objected to the presence in the Bosphorus of United States, Grecian or Dutch guardships.

The objections to the presence of the extra guardships here are said, according to general report, to be based on the Berlin agreement, which excludes from naval representation in the Bosphorus any powers that were not a party to that agreement, and that, therefore, the United States cannot be allowed to send a warship to the straits of the Dardanelles.

To Guard the Mines with Cannon.
Lentulo, Cuba, Oct. 6.—General Brooks and his officers have practically decided to make provisions for defending the endangered mines by placing cannon on Carabate hill, which commands most of them. The next object of attack, if further attacks be made, is pretty well understood to be the great pumping plant of the Maid of Erin mine, which drains the Mahala, Emmet and Marian mines, which are now resuming work as well as many others. The pumps belong to Smith & Moffat, and their expenses are borne by the three other mines named. If these pumps were crippled, the ruin of the mines by water would reduce the normal production of the camp fully one-third.

Failure in Carpets.
New Orleans, Oct. 3.—A. R. Brouseau, one of the largest carpet dealers in New Orleans, has made an assignment for the benefit of his creditors, \$288,246. Of the liabilities \$154,024 are unsecured and \$132,221 secured by mortgages on real estate and pledges of securities. Mr. Brouseau is the brother of Justice E. D. White of the United States supreme court, who was summoned here from Washington to look into Mr. Brouseau's affairs.

The Car in Paris.
Paris, Oct. 7.—[Copyrighted, 1896, by the Associated Press.]—The czar and czarina arrived here very safely on Thursday morning, at 10 o'clock Tuesday morning. The weather was fine and the countless decorations showed up splendidly in the sunlight. Their majesties were accorded a most rapturous reception at the Russian embassy, where they will reside during their visit in this city at 11 o'clock.

Aeronaut Drops to Death.
Paola, Kan., Oct. 3.—George B. Anderson, alias Snyder, attempted to make a parachute descent from a balloon Thursday. His ribs were broken on both sides, also his right arm. When he struck the ground the force of the fall made a hole four inches deep.

NO LIVE STOCK SHOW.
It will not be held as planned this year.

Chicago, Oct. 6.—The loving of cattle, the bleating of sheep, the grunting of pigs, and the other delightful live stock noises which are the vital part of a live stock show will not be heard at the Coliseum from Nov. 9 to 21 this year, as the state board of agriculture had planned. The live stock exhibition has been postponed till next year. This announcement is made simultaneously with the news that the board is to raise \$15,000 by the Springfield state fair, which closed last week.

After looking over finances and discovering that the Coliseum people had not proffered the guaranty of \$20,000 promised last June, the state board, in session in Springfield, canvassed the exhibitors at the state fair, found the limited time now remaining would not be sufficient for preparation, and took action on Friday night. President J. Irving Pierce of the board returned to Chicago Sunday with the tidings. He particularly regretted the failure of the enterprise, as it had been expected to prove a world-wonder, by far greater than any previous husbandry exhibition ever held.

Cuban General Killed.
Havana, Oct. 6.—An important engagement, in which General Serafin Sanchez, the well-known insurgent leader, was killed, had been fought at the Reserva plantation, Province of Matanzas. Serafin Sanchez was one of the most widely known of the Cuban leaders. He served under Maximino Giron in the previous Cuban insurrection.

He overruled all the motions for arrest of judgment and other proceedings instituted in opposition to the sale.

Mysterious Murder.
Council Bluffs, Ia., Oct. 7.—Mrs. Seemin L. Axe of Omaha was found dead at an early hour Tuesday morning in the street. She had been shot in the head four and probably five times, any one of the wounds which would have proved fatal instantly. A careful search was made where the body was found, but no clew could be discovered. There were no traces of a struggle.

Attack Houses Occupied by Non-Union Men.
Elyria, O., Oct. 7.—The striking quarrymen of the Grafton Stone company, in Grafton, are still out, and made considerable trouble Tuesday night in the village. They made an attack on a number of houses which were occupied by the non-union men, who started to work in the quarry Monday morning.

Stones were thrown at the windows, and at one place the 8-year-old girl of Fred Stollo was struck on the head and received injuries which may prove to be very serious. The strikers threaten to blow up the houses of the non-union men if they do not give up work. The sheriff and twenty-five deputies are still at the scene of the trouble and guard the men while they work. The deputies will be on duty all night.

RECENT FLOODS IN MEXICO

Bodies of Over One Hundred Victims Have Been Recovered.

Guadalajara, Oct. 7.—Overland advices received here from Mazatlan state that the damage wrought by the recent floods in the state of Sinaloa is much greater than at first estimated. All of the rivers in that state were flooded out of their banks, and a number of villages and farmhouses were washed away. Over one hundred bodies have been recovered and many others are missing.

The damage to shipping interests is believed to be very great, but as yet reports as to the safety of the coast vessels are very meagre. A full report of the damage done has been forwarded to President Diaz, and a public appeal will be made for funds to relieve the wants of the storm sufferers.

TYNAN RELEASED.
The Dynamite Suspect Now on His Way to America.
New York, Oct. 5.—Dispatches have been received by friends of P. J. Tynan stating that he has been released from prison at Boulogne-Sur-Mer, France, and is now on his way to this country. Mrs. Gertrude Kearney Saturday received the following cablegram from her husband, John Kearney, at Rotterdam: "Am starting for New York today." It is also expected that Edward J. Ivory, now in jail in London, and Haines, the other Irish suspect, under arrest at Rotterdam, will be liberated on Monday.

To Guard the Mines with Cannon.
Lentulo, Cuba, Oct. 6.—General Brooks and his officers have practically decided to make provisions for defending the endangered mines by placing cannon on Carabate hill, which commands most of them. The next object of attack, if further attacks be made, is pretty well understood to be the great pumping plant of the Maid of Erin mine, which drains the Mahala, Emmet and Marian mines, which are now resuming work as well as many others. The pumps belong to Smith & Moffat, and their expenses are borne by the three other mines named. If these pumps were crippled, the ruin of the mines by water would reduce the normal production of the camp fully one-third.

Failure in Carpets.
New Orleans, Oct. 3.—A. R. Brouseau, one of the largest carpet dealers in New Orleans, has made an assignment for the benefit of his creditors, \$288,246. Of the liabilities \$154,024 are unsecured and \$132,221 secured by mortgages on real estate and pledges of securities. Mr. Brouseau is the brother of Justice E. D. White of the United States supreme court, who was summoned here from Washington to look into Mr. Brouseau's affairs.

The Car in Paris.
Paris, Oct. 7.—[Copyrighted, 1896, by the Associated Press.]—The czar and czarina arrived here very safely on Thursday morning, at 10 o'clock Tuesday morning. The weather was fine and the countless decorations showed up splendidly in the sunlight. Their majesties were accorded a most rapturous reception at the Russian embassy, where they will reside during their visit in this city at 11 o'clock.

Aeronaut Drops to Death.
Paola, Kan., Oct. 3.—George B. Anderson, alias Snyder, attempted to make a parachute descent from a balloon Thursday. His ribs were broken on both sides, also his right arm. When he struck the ground the force of the fall made a hole four inches deep.

NO LIVE STOCK SHOW.
It will not be held as planned this year.

Chicago, Oct. 6.—The loving of cattle, the bleating of sheep, the grunting of pigs, and the other delightful live stock noises which are the vital part of a live stock show will not be heard at the Coliseum from Nov. 9 to 21 this year, as the state board of agriculture had planned. The live stock exhibition has been postponed till next year. This announcement is made simultaneously with the news that the board is to raise \$15,000 by the Springfield state fair, which closed last week.

After looking over finances and discovering that the Coliseum people had not proffered the guaranty of \$20,000 promised last June, the state board, in session in Springfield, canvassed the exhibitors at the state fair, found the limited time now remaining would not be sufficient for preparation, and took action on Friday night. President J. Irving Pierce of the board returned to Chicago Sunday with the tidings. He particularly regretted the failure of the enterprise, as it had been expected to prove a world-wonder, by far greater than any previous husbandry exhibition ever held.

Incorrigible Dr. Johnson.

A literary lady once expressed to Dr. Johnson her approval of his dictionary and particularly her satisfaction in finding that he had not admitted any improper words.

"No, madam," replied the incorrigible Johnson, "I hope I have not soiled my fingers. I find, however, that you have been looking for them."

What is called the bicycle brooch is the latest sporting emblem worn by wheelmen. It is made of plain gold, with silver saddle and tires. Wheels, pedals, handle bar and gear cases are all included within its 1 inch dimensions, while a diamond glitters in place of a screw. The most sensible feature of this odd little ornament is the strong pin attachment, which insures its staying where it is placed.

An Asylum Story.

This lunatic asylum story comes from Glasgow. Two councilors of that city were taken over a large asylum the other day by one of the patients, a safe man. He had led them to a room to display a view from the window, when some one shut the door, with its self-acting lock, and the three men were prisoners. The patient alone preserved his composure. While the councilors clamored to be released, he remarked:

"If I were you, I would be quiet." "No help coming the councilors grew desperate, heads of perspiration stood on their brows and they fairly yelled. "If I were you," repeated the patient, soothingly, "I would keep quiet." "But we're no daff," pleaded one of the visitors. "Hoos, mon! That's what I said masef, when I was brocht in."
