ANN ARBOR, MICHIGAN, THURSDAY, FEBRUARY 24, 1887.

WHOLE NO. 635.

## UNIVERSITY MATTERS.

Prof. Thos. C. Trueblood gave a recital of Shakespeare's Hamlet in the law lecture room last evening.

The Phi Delta Phi, of the law department, gave a banquet at the Cook House, Tuesday afternoon, in honor of the Hon. Chas. A. Kent.

D. G. W. Beemis will deliver an address before the Political Science Association, next Friday evening, at 7:30, standard time, in room 24, on "Co-operation and Profit-sharing in New England."

The reception given at the residence of Prof. and Mrs. Morse, Tuesday evening, by the Sorosis society, is characterized by those who were there to have been a very brilliant affair. About 250 were present. The Chequamegon won new laurels by their delightful music.

The lecture which was to have been given by Mr. Ragan in University hall, last Friday evening, was not given, on account of the death of Mr. Ragan's sister. The date of his lecture will be announced later.

Dr. E. B. Patterson, medic '86, who has been wardmaster at the hospital for the past year, started Monday for Lake Lyndon, where he has accepted the position of surgeon for the Calumet and Hecla Mining Co.

An amendment mass meeting will be held in University hall, Friday evening, at 7:30 standard time. Speeches will be delivered by Prof. Spaulding, Miller and Steere, Dr. Prescott, Dr. Palmer and others. Several students will talk on the question. Every body invited.

### SIGMA PHI.

The Michigan association of the Sigma Phi, the oldest of Greek letter fraternities, gave their annual dinner at Detroit, Monday evening. It is reported by those who were there, to have been a most enjoyable affair, eclipsing all former occasions.

The Ann Arbor members present were O. B. Wilcox, jr., Fred W. Job, Charles L. Carter, John D. Hibbard, Donald Davenport, George B. Mitchell, C. Arthur Howell, Louis W. Parker, Charles P. Taylor, Everett C. Rockwood, Edwin T. Stephenson and Lucius E. Torrey. Hon. E. D. Kinne, J. F. Lawrence and Prof. M. E. Cooley.

The society was established at Union college, Schenectady, N. Y., in 1827. A chapter was recently established at Lehigh university, Pennsylvania, it being the only chapter founded in thirty years. The fraternity has now seven chapters.

### WASHINGTON'S BIRTHDAY.

Washington's birthday was observed at the University as usual. The address was delivered by Hon. Chas. A. Kent, under the auspices of the law department. Prof. Henry Wade Rogers introduced the speaker. He was given an enthusiastic reception, and during the discourse there was frequent and hearty applause at the pointed and happy allusions to the questionable methods which prevail in our everyday political life. The speaker chose the political life of Washington for his subject, and then took occasion to point out and contrast the pure and unselfish motives which led and inspired him in his career, with those which influence and control the political men of today. During the course of his remarks he referred several times to the wire-pulling schemes so often practiced in Detroit, to bear out the truth of his statements. He also touched upon the labor question, pointing out the fallacies of so many of the doctrines that are now advocated by agitators, as well as the scope and end of our government.

The audience was large and attentive and followed the speaker closely to the end of his address.

The Phonic glee club rendered some very fine selections.

### THE JUNIOR HOP.

The junior hop which was held in the gymnasium, Friday evening, was a grand success. The room was ablaze with electric lights which showed off the decorations most admirably. Different colored bunting had been profusely woven around the walls and rafters. Paintings, banners, monograms, fraternity notices, etc., were tastefully arranged on the wall, which added more to its brilliancy. Much of the beauty of the occasion, however, was that contributed by the presence of ladies in rich attire. The room was large, but lacked something of tone until the bright colors of the rich robes of the ladies came, to say nothing of the fair faces and bright eyes of those who wore them. The scene was then complete and a richer one was never before seen in Ann Arbor. Trains were not very numerous, most of the ladies wisely shunning them as liable to be in the way at dancing parties. Gibson, the photographer, gave them one of his rooms, which they used as a private parlor, and which helped to add to the comfort and pleasure of the evening. The music, furnished by the University orchestra, was very fine, as was, also, the banquet prepared by Hangsterfer. A number of ladies and gentlemen were present from Detroit, and elsewhere.

### DENVER ALUMNI.

A meeting of the alumni of the University of Michigan was held in the club rooms of the Albany Hotel, Denver, Thursday evening, February 17th. Seventy-five gentlemen were present, namely: C. S. Thomas '71, Paul H. Hauss '73, John Kincaid '80, of Gannison, John E. Shafroth '75, W. T. Jenison '63, Dr. U. Wagner '79, Ben Safety '76, F. L. Forcman '76, James H. Blood '79, Dr. E. J. Rothwell '75, Earl B. Coe '80, W. H. Hannum '80, Dr. F. D. Rothwell '81, L. S. Smith '77, G. C. Bartels '79, W. W. Campbell '80, of Boulder University; A. S. Pettit '79.

A permanent organization was formed with the following officers: President—C. S. Thomas. Vice Presidents—Paul H. Hauss, Dr. E. W. Corwin, Hon. John Kincaid, Ed. F. Colburn, Fred G. Bulkeley. Secretary—Dr. John Chase. Treasurer—A. S. Pettit.

James S. Blood, W. T. Jenison and the president, secretary and treasurer were appointed the executive committee.

A committee was appointed to make arrangements for their first annual banquet to be held March 25th. The alumni of the state are requested to send their addresses to Dr. John Chase of the new Barth block.

Resolutions of respect were offered to the memory of Professor Olney, who died recently. Letters were read from Messrs. Wadleigh, Betts, Gray, Salisbury, Drake and Dr. Corwin of Pueblo, Fred G. Bulkeley of Leadville, Edward F. Colborn of Gannison and Dr. Charles Ambrook of Boulder.

### WASHINGTON ALUMNI.

The Washington alumni of the U. of M. gave their third annual banquet at Willard's hotel, last Thursday evening, to which about forty were present. Senators, congressmen, doctors and men in the ordinary pursuits of life were there. The boys of '80 chatted pleasantly with the boys of '80 and laughed heartily as one or the other would recall a reminiscence of "Auld Lang Syne."

The following is a list of those present with their classes and present occupation in Washington:

'49, Thos. W. Palmer, United States senator from Michigan; '51, M. LaRae, Harrison, postoffice department; '54, J. R. Cook, lawyer; '57, Cushman K. Davis, United States senator elect from Minnesota; '58, Cleveland Abbe, meteorologist, signal office; '58, M. E. N. Howell, general land office; '59, A. H. Pettibone, member of congress from Tennessee; '61, Byron M. Cutcheon, member of congress from Michigan; '62, E. A. Fay, professor of national deaf mute college; '63, Jefferson Chandler, lawyer; Seth C. Moffat, member congress from Michigan; '67, Job Barnard, lawyer; '69, T. C. Chanablain, geological survey; '70, Marcus Baker, coast survey; '71, Rufus H. Baker, lawyer; '72, M. C. Barnard, lawyer; Timothy E. Tarsney, member congress from Michigan; R. S. Woodward, geological survey; '73, Arthur A. Birner, lawyer; '76, Frank P. Davis, civil engineer; T. C. Branch, Alexandria; T. T. Doran; '77, Donald McPherson, lawyer; '78, M. E. Finlay, dentist; '80, Wm. S. Donaly, dentist; '81, Duane E. Fox, general land office; E. H. Hilton, signal office; J. W. Sowden, surgeon general office; '82, F. G. Coldren, lawyer; '85, A. A. Crozier (post graduate), agricultural department; '86, E. B. Hollenbeck, pension office; Charles H. Lane, patent office; Geo. R. Simpson, patent office; Erwin F. Smith, agricultural department; '88, H. H. Cushing, H. W. Beatty, A. H. Whitlark, Prof. W. H. Payne, Ann Arbor; Prof. C. E. Davis, Ann Arbor.

Letters of regret were read from Dr. Henry S. Frize, dean of the faculty, Albert D. Prescott, Prof. John E. Clark, the Rev. Justin D. Fulton of Brooklyn, the Hon. Wm. Warner, member of congress, Missouri, Dr. Adams, dean of Cornell, and the Hon. Henry Strong.

The toasts of the evening were as follows: "The University," response by President Angell; "The University and Scientific Work," Prof. Abbe; "The University in Congress," the Hon. T. E. Tarsney; "Science, the Handmaid of Government," Mr. Woodward; "Our Alma Mater's Semiquincentennial," E. M. Cutcheon; "The University in the Work of Education," Prof. E. A. Fay; "The Old Boys—by One of Them," the Hon. A. H. Pettibone.

### High School Notes.

We had a number of the teachers from Detroit visit us last Friday.

Laboratory work closes tomorrow afternoon for this term.

In consequence of the celebration of George Washington's birthday, the school took a vacation on Tuesday, which was very much appreciated by all.

There will be a social given at the ladies' library on Huron-st., tomorrow evening, for the senior and junior classes. Dancing will be indulged in and a very pleasant time is anticipated.

A matter that may interest some of the students, and especially those interested in literary work, is that a lyceum No. 2 has been organized, and hereafter will meet every Friday evening on the second floor, in room No. 12, at half past six o'clock. This organization differs from the old lyceum, in that its number of members is placed at twenty. Ten gentlemen and ten ladies. At the first evening the following officers were elected: Mr. J. C. Cutler, president; Miss Harwood, vice president; secretary, Miss Cramer; treasurer, Mr. Randall; and the program committee, Mr. Walker and Miss Childs. After the election of officers, they gave the society the name Chi Tau, and the motto, the golden eye. If the two lyceums join in debate, there will probably be some lively times, and a great deal of good may be the result.

#### Favors the Hygienic Laboratory.

To the Editor:  
I have read with interest and pleasure your editorial agent the establishment of a hygienic laboratory, at Ann Arbor. I fully believe that the legislature and governor of Michigan will admit the utility and benefit of such an addition to the University of Michigan. Harvard, Yale, Cornell and the University of Pennsylvania, have such laboratories, and find them an important and useful means of instruction. I sincerely hope that the present legislature will not adjourn before making an appropriation for it, and by so doing earn the gratitude and respect of all philanthropic citizens.

LUIGI GABRAM DOANE, M. D.

#### Leon & Cushman.

This company, now at the Academy of Music in the great musical comedy, "On the Stage," have had a very successful run. The company comprises 12 first class artists. They have made a tour of the world, and in Australia they created quite a furor. At Honolulu, Sandwich Islands, they performed nine nights to crowded houses, and were honored with the presence of King Kalakua and suite at each performance. These royal gentlemen bestow upon the artists many favors.

Mr. Frank Cushman is a Baltimore boy. He was born in the eighth ward, but was never connected in any way with political disputes or differences, so often noted in that locality. He was a first class minstrel and was connected with the best troupes, but abandoned burnt cork to enter the comedy field, in which has scored a success.

Mr. Francis Leon is a native of New York city. He studied for the Catholic ministry, but displaying a talent of another order, adopted the stage as a profession. He is considered one of the best delineators of female character now before the public, particularly in the line of the "Modern Society Girl," in which he has no superior.

This afternoon a "rosebud" matinee will be given, and each lady will be presented with a pretty bouquet of artificial flowers as a souvenir.

FOUND—A lady's hair comb. Owner can have same at 45 E. Liberty St. by paying for his notice. 655-77

### Coming Events.

Do not forget the Cocker league entertainment at M. E. church, next Monday evening, Feb. 28. See program for "last day of school."

Following is the programme for the Unity Club, in the Unitarian church parlors, next Monday evening: "Mind reading," Harold B. Wilson; "Mind Cure," Prof. John Dewey; music and social hour.

The annual meeting of the Ladies' Charitable Union will be held at the ladies' library rooms, Thursday, March 3d. It is desirable that there be a full attendance. The receipt of a box of shoes from Samuel Kranse is thankfully acknowledged.

Next Sunday morning Rev. Mr. Sunderland will give the fourth of his series of sermons on the great philanthropists and reforms of the day. Subject, "The Reformation of Criminals and Prison Reform." His evening subject will be, "The Legendary, Mythical and Political Element in the Bible."

The regular monthly meeting of the pomological society will be held in the basement of the court house; Saturday, March 5th, at 2 P. M. The reports will be heard of the committees on fruit factory, on infusorial earth, on best and cheapest fruit packages, on statistics. Prof. J. B. Steere will lead in the discussion on noxious insects and insecticides.

Rev. Kerr B. Tupper, of Grand Rapids, will occupy the Baptist pulpit, next Sunday, both morning and evening. Rev. Tupper is reputed as being one of the most attractive pulpit orators in the west, and he will well repay all who hear him. Rev. P. S. Henson, D. D., of the First Baptist church of Chicago, will preach from the same pulpit about two weeks later. All are cordially invited.

The Cocker league entertainment for next Monday evening, Feb. 28th, 1887, will be an entertainment long to be remembered by all who attend. A genuine "last day of school," full of life, full of spice, everything to please and nothing to displease. As the exercises will be so good and the admission fee only 10 cents, it will be necessary to come early to secure a good seat. Do not forget this of all entertainments for the year, if you wish to spend a pleasant evening.

There will be an entertainment in the M. E. church, March 11th, which will be dissimilar to anything ever given in Ann Arbor, and it is hoped will be as well attended as the "Mother Goose" concert given last winter. Mrs. Flora B. Hall has it in charge and has given much time to it, which should be an additional motive for making it a success. The entertainment is called "The Queen of the Birds." The argument, "The Queen of the Birds," at the request of the Fairies requires her subjects to sing individually in the presence of the Fairies and after hearing them, the lark is crowned "Queen of Song." The parts will be taken by some of our best singers, among them Miss May Whedon and sisters, Miss Millie Knowlton, Misses Mahon, Richardson, Volland, Payne, Taylor and Wilson. There will also be active songs by a chorus of 50 children, several unique features. There will also be a Fan Brigade by eight of Ann Arbor's attractive young ladies. Come everybody you will not be disappointed.

### Sixty Years in Washington.

Rev. Samuel Clements, of this city, has secured the agency for the county, of Bee: Perley Poor's great work in two volumes entitled "Sixty Years in Washington," and every citizen who feels interested in the history of this country will wish to possess the valuable book. The Albany Evening Journal in speaking of the book says: "Maj. Perley Poor has devoted himself to the preparation of a book that will be welcomed in every American home. He is not only a bright and cheerful writer, but he writes for the freshest. His book will be free from every objectionable feature, and will give no offense to the most considerate. Fine illustrations, photographs and sketches make the volume especially valuable as an addition to the library."

A Massachusetts man who lay down in an old tannery to sleep off a drunk was bitten in 442 different places by rats before he sobered up sufficiently to know what was going on. He, however, flatters himself that it was better than having them in his boots.

Facts in Favor of Prohibition.

People who read only papers published in the interest of those who oppose prohibition, seem to be very ignorant of the facts as found in the publications of the national temperance society. There we learn that wherever it has had a fair trial, it has been enforced as well as any other criminal law. A few cases will serve to illustrate:

Thirty-six years ago, there were twenty-seven distilleries in Maine. Now there are none, and no open saloons. A prohibitory amendment lately carried by nearly 47,000 majority—a good answer to the statement that "prohibition doesn't prohibit" in that state.

A state temperance convention in Kansas unanimously adopted the following: "After five years' trial, we find that the wholesale liquor trade within the state has almost ceased." "The sale of liquor as a beverage has been immensely diminished." "The open dram shop is almost entirely gone."

More than fifty editors representing fifty of the leading newspapers of Iowa, recently signed the following document: "The undersigned members of the Iowa press excursion to the Pacific coast, have found one report here which is unjust to the state which we love and honor. It is that the statute incorporated in its laws, prohibiting the common sale of intoxicating liquors as beverages is not and cannot be executed. Representing different parts of the state, we testify that the prohibitory statute, considering the short time since it was enacted, is as well enforced throughout the state generally, as other laws, and it is daily growing stronger in public sentiment, and will become the permanent policy of the state. We ask the attention of the press of the Pacific coast to this correction of erroneous and unfair statements."

A further testimony of the good result of the law was the unanimous statement a few days ago at a meeting of sheriffs from 70 counties in Iowa, that the court expenses had diminished 50 per cent. under prohibition.

In Georgia "there are one hundred and twenty-one counties under prohibition and the universal testimony comes that business has increased, labor improved, and every material interest prospered." These facts coming from the various counties, largely influenced the people of Atlanta, who gave a majority vote for prohibition.

January 12, 1886, Canon Farrar said in London, "I had the great happiness to visit the Illinois Pullman City. There I saw a population of upwards of 2500 people, self-respecting, happy, singularly enriched with all the blessings of civilization, with a beautiful church, with an admirable library, and some of the very best schools in the whole of Illinois; no city government, no police, and (on the authority of Judge Porter) with not a single arrest during a space of twenty months."

As long ago as 1855 Gov. Dutton of Connecticut said: "There is scarcely an open grog shop in the state, the jails are fast becoming tenanted, and a delightful air of serenity is everywhere enjoyed."

Greeley, Colorado, founded upon the same principles as Vineland, N. J., has a miscellaneous population of about 3000, and there is not a liquor shop allowed in the place. There are no poor, no police needed; and prohibition has been not only a great success but a great blessing. A fair was held shortly after the colony was founded, and \$91 realized, which was put into a poor fund. Two years and a half passed, and there still remained \$84 in hand, \$7 only having been used for the support of the poor. The above cited cases from authentic sources sufficiently show what prohibition has done in other places, both east and west.

The first prohibitory law in Michigan was abundantly endorsed by the people. If the majority in its favor in 1851 was twenty-five or thirty thousand; and the people having since been thoroughly educated these 36 years up to the standard of complete prohibition, the proposed constitutional amendment will probably get 50,000 majority next April.

The prohibition party of this run cursed city is well organized for the spring election. J. M. CHASE, Denver, Feb. 18, 1887.

Is This So?

A few years ago a little book fell into our hands, recounting the experience of a certain prominent business man, from which it appeared that, as with most Americans, too close attention to business had broken his health. The doctor said he could not live. He then stated that he used a certain article which effectually cured him, and "out of gratitude for his own recovery he determined to devote a portion of his fortune to spreading its merits before the world."

As we read it we said: This is evidently a shrewd expression of a commercial motive; it sounds well; it reads well; but many people will not believe it.

In a few years, however, that man got famous the world over. He gave several hundred thousand dollars to astronomical research, and his name became a household word in nearly every home in the United States.

Hundreds of thousands of people today, without reservation, say that to this man alone they owe their lives. If ten men are collected together the chances are that if one man incidentally refers to Warner's safe cure seven of them will be able to tell, from their own experience or from the experience of their friends, of marvelous results which that remedy has wrought.

Nothing has ever been put on the market, we are told, the sale of which has been so great and kept up so wonderfully, and this alone is evidence that merit is at the bottom of its popularity.

In our files we find many an advertisement from this house. Some people have believed, have used and have been cured; others have disbelieved, have not used, and died.

The manufacturers have stated, as the result of their most careful investigations, that the condition of the kidneys is the key to health, and that they know if the kidneys are maintained in health by Warner's safe cure, ninety-three per cent. of diseases would disappear.

The uric acid, or waste of the system, left in the blood, by what may be called constipated kidneys, blocks up the system and carries disease to every organ.

This statement, made time and time again, is so full of sense that it is now accepted as a scientific truth by insurance companies who reject millions of risks every year if there is the least inactivity of these organs.

The public is tired of the wrangles of this school and of that school, and it is quick to recognize anything that has such conceded merit, and on this ground alone can we account for its extraordinary sales on popularity.

Accidents

and how to deal with them, and other valuable medical information, will be found in Dr. Kaufmann's great Medical work; elegant colored plates. Send three 2 cent stamps to postage to A. J. Ordway & Co., Boston, Mass., and receive a copy free.

It is stated that Mrs. Potts, wife of that Potts who went through the whirlpool rapids, was willing for her husband to risk his life. No one who has not had experience can appreciate what it is to be married to a crank.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites, As a Remedy for Pulmonary Affections and Scrofulous Diseases.

"I want to send some floral tribute to the late Dr. Ketchum. What do you think of as appropriate as a device?" "The doctor died, I believe?" "Yes, so I understand." "How would a broken pillar do?"

Lord Bulwer makes Cardinal Richelieu say: "There is no such word as fail." These words can be safely applied to Dr. Seth Arnold's Cough Killer, which has been before the public forty years and has never failed to cure coughs, colds, &c., when taken in season and according to directions. Try it. For sale at all druggists. Price 25c. 50c. and \$1.00 per bottle.

Head of Department (to clerk)—"I observed the other day that you got into a cab almost immediately after my wife and self had left it. Allow me to tell you, sir, that I strongly object to your taking such liberties!"

Dr. Seth Arnold's Soothing and Quietening Cordial for children. Recommended by mothers and nurses. 25c.

De Garmo—And how do you stand on evolution, Miss Brewster? Don't you believe man is descended from the monkey? Miss Brewster—O, yes, I think he is; but what puzzles me, Mr. De Garmo, is where the women come from.

We should economize at all times, but more especially when times are close. Observe the purchases of your thrifty neighbors. More substantial benefits can be obtained from a fifty cent bottle of Dr. Bigelow's Positive Cure than a dollar bottle of any other cough remedy. It is a prompt, safe and pleasant cure for all throat and lung troubles. Sold and endorsed by Eberbach & Co.

The best on earth can truly be said of Griggs' Glycerine Salve, which is a sure, safe and speedy cure for cuts, bruises, scalds, burns, wounds and all other sores. Will positively cure piles, tetter and all skin eruptions. Try this wonder healer. Satisfaction guaranteed or money refunded. Only 25 cents.

Invalid wife (to husband)—"The doctor tells me that I ought to have a change of climate." Husband (hopefully)—"All right, my dear, I see by the 'probabilities' that we are to have colder weather with snow, followed by warmer weather with rain."

FOOD FRAUDS.

The Shameful use of Lime and Alum in Cheap Baking Powders.

Many food frauds, such as chicory coffee or watered milk, although they are a swindle in a commercial sense, are often tolerated because they do not particularly affect the health of the consumer; but when an article like baking powder, that enters largely into the food of every family, and is relied upon for the healthful preparation of almost every meal, is so made as to carry highly injurious, if not rankly poisonous, elements into the bread to the imminent danger of the entire community, it is the duty of the press to denounce the practice in the most emphatic terms.

Among recent important discoveries by the food analysts is that by Prof. Mott, the U. S. Government Chemist, of large amounts of lime and alum in the cheap baking powders. These are, one of the most dangerous, and the other the most useless adulterants yet found in the low-grade, inferior baking powders. It is a startling fact that over one hundred different brands of baking powders so far analyzed, comprising all those sold in this vicinity, not one of them, with the single exception of the Royal Baking Powder, was found free from both lime and alum. The chief service of lime is to add weight. It is true that lime, when subjected to heat, gives off a certain amount of carbonic acid gas, but a quick lime is left—a caustic so powerful that it is used by tanners to eat the hair from hides of animals, and in dissecting rooms to more quickly rot the flesh from the bones of dead subjects. A small quantity of dry lime upon the tongue, or in the eye, produces painful effects; how much more serious must these effects be on the delicate membranes of the stomach, intestines and kidneys, more particularly of infants and children, and especially when the lime is taken into the system day after day, and with almost every meal. This is said by physicians to be one of the chief causes of indigestion, dyspepsia, and those painful diseases of the kidneys now so prevalent. Instances of the most serious affections of the latter organs from drinking lime water found in some sections of the west are noted in every medical journal.

Adulteration with lime is quiet as much to be dreaded as with alum, which has heretofore received the most emphatic condemnation from every food analyst, physician and chemist, for the reason that, while alum is probably partially dissolved and passed off in gas by the heat of baking, it is impossible to destroy or change the nature of the lime in any degree, so that the entire amount in the baking powder passes, with all its injurious properties, into the stomach. When we state that the chemists have found twelve per cent or one-eighth of the entire weight of some samples of baking powder analyzed, to be lime, the wickedness of the adulteration will be fully apparent.

Pure baking powders are one of the chief aids to the cook in preparing perfect and wholesome food. While those are to be obtained of well-established reputation, like the Royal, of whose purity there has never been and cannot be a question, it is proper to avoid all others.

Death of Ex-Congressman Hathorn.

SARATOGA, N. Y., Feb. 21.—Ex-Congressman Henry H. Hathorn, builder and former proprietor of the new Congress Hall and discoverer and owner of the celebrated Hathorn spring, died at his home here at seven o'clock Sunday morning. He was seventy-four years old, and had all his life been identified with the leading business interests of Saratoga Springs. He had been sheriff and was elected to Congress in 1872 and 1874.

Each Work Before Congress.

WASHINGTON, Feb. 21.—There will be a perfect potpourri in the proceedings of Congress during the remaining ten days. The calendar of the House is composed of eighty-eight pages and 1,175 measures. The Senate calendar has thirty-six pages, including the index, and twenty-seven solid pages, giving the titles of 344 measures. Most of these are for general legislation.

Out on Strike.

NEW YORK, Feb. 19.—The total number of industrial employes in the country reported to Bradstreet's since January 1 as on strike is about 97,000. Of these, 18,000 struck during February and 500 prior to January 1. Of the total, 15,000 have secured their ends in whole or in part, and about 55,000 have signally failed to do so.

Severe Snow-Storm.

LINCOLN, Neb., Feb. 21.—The storm which has just subsided along the Rocky Mountain range from the British line to New Mexico is believed to have caused the death of twenty-five per cent of the cattle. Passengers traveling from Denver to this city saw bodies buried to their heads in the snow.

Increase of Wages Granted.

HUNTINGTON, Pa., Feb. 21.—Official notice has been served on the soft-coal miners in the Clearfield region that on and after March 1, 1887, an advance in mining of five cents the gross ton of coal will be paid, payments as at present, or ten cents the gross ton of coal, payments once a month.

Death of an Old Mason.

KALAMAZOO, Mich., Feb. 21.—Harry Dean, one of the oldest Masons in the country, died Saturday night at Otsego, aged eighty-eight. He was made a Master Mason in 1831 at Champion, N. Y., and advanced steadily until 1870, when he took the thirty-second degree, Scottish Rite.

Mormons Pleased with the Edmunds Bill.

SALT LAKE, U. T., Feb. 21.—The general feeling among Mormons here over the passage of the Edmunds-Tucker bill is one of elation. The bill is so much more conservative than as originally introduced that many consider it as a virtual victory for Mormonism.

County Officers Robbed.

ROSEVILLE, Ark., Feb. 19.—The safes in the sheriff's and clerk's offices of Logan County were robbed of \$30,000 Thursday night. A large portion of the stolen money belonged to the public-school fund.

Ohio Millers Assign.

AKRON, O., Feb. 19.—The Franklin Milling Company, in which Attorney-General Kholer has an interest, has assigned. The assignee's bond is \$22,000. Assets and liabilities are said to be about equal.

Five Boys Burned to Death.

ROSEVILLE, Ark., Feb. 19.—J. C. Pendergrass's residence near Roseville was burned early Friday morning, and his five sons who slept up-stairs perished.

A Legal Day's Labor in St. Louis.

St. Louis, Feb. 21.—At the session of the City Council Friday night the bill fixing eight hours as a legal day's labor for laborers employed by the city, was passed.

RUINED MONTANA CATTLEMEN.

Fifty Per Cent. of the Herds Lost During the Terrible Weather of the Past Season.

BUTTE, M. T., Feb. 22.—As reports from different ranges come in it is found that the weather this season has been more severe than even reported. The loss of life will probably reach twenty-five persons. The cattle loss is estimated at from fifty to seventy-five per cent. The banks of Helena will be sufferers to the amount of \$1,200,000, loaned and advanced to cattlemen. The loss in sheep is likewise heavy. Hay broilers, at Geysers Springs, lost a flock of 40,000, sheep in one storm. The sheep, getting astray from the herder in the blizzard, became all scattered, and ten days afterward they were found frozen to death. Several lives were lost in the Cour Dalene country. Reports from Fort Benton show a deplorable state of affairs. Coal is \$50 per ton, coal oil \$5 for a three-gallon can, flour is \$10 per sack, potatoes can not be had, green-cut poles sell readily at \$12 to \$15. The Crow Indians say there has not been such a winter for thirty years as the present one.

EXTRA SESSION TALK.

Probability That the Senate May Be Convened to Reach an Understanding Regarding Proposed Treaties. WASHINGTON, Feb. 21.—The prospects of an extra session of the Senate are being eagerly discussed. Three contingencies may help to bring this about—failure to act on the treaties now pending, the delay by the President of the appointment of the Inter-State Commerce Commissioners, and delay in the selection of a successor to Secretary Manning. The treaties matter, however, is the most important factor in the case, but if the Senate does not reach a decision on them before March 4 there seems little probability that an understanding could be arrived at in an extra session.

DISASTER AT SEA.

A Vessel Capsize by a Whirlwind from a Cloudless Sky—Five Persons Drowned. JACKSONVILLE, Fla., Feb. 21.—Just before dusk Sunday evening an unknown fruit-schooner fully seventy-five feet long was struck by a whirlwind in the St. John's river, about six miles below this city, lifted wholly out of the water, twisted half way around and suddenly capsized. Every one on board was drowned. It is known that there were five men on the schooner, but whether there were more or not is not known. It is also feared that there may also have been women and children among the lost. At the time of the disaster there was not a cloud in the sky.

EX-WARDEN HOWARD.

His Shortage \$150,000—Other Charges Brought Against Him. INDIANAPOLIS, Ind., Feb. 22.—A member of the House committee engaged in investigating the affairs of the Southern Indiana prison says that the shortage of Jack Howard, the late warden, will reach \$150,000, and that the report to the Legislature this week will show that crimes of nearly all degrees are back of the reckless system of stealing that has been in progress for ten years. It is even hinted vaguely that many dark crimes have been committed, and the evidence elicited in the investigation shows that several convicts have died from the effects of the inhuman punishment inflicted for such slight offenses as talking or complaining of illness. The committee's report will, it is asserted, make a shocking story.

Careful attention to diet is the best guard against disease.

It is a fact which all should know, that over-eating not only corrupts the blood but destroys nerve force, and induces dyspepsia, jaundice, bad breath, piles, pimples, low spirits, headache, ague, malaria, and all stomach and liver troubles. Dr. Jones' Red Clover Tonic quickly cures the above diseases. Can be taken by the most delicate. Price 50 cents, of Eberbach & Son.

"Well, what were you brought up on?"

asked the justice as a blear eyed tramp stepped up to the bar. "Judge, I was brought up on the bottle," was the quick response. The justice eyed him sternly a moment, and then ejaculated: "Ten days for drunkenness and five dollars for contempt of court."

DESPITE THE VETO.

The Passage of the Dependent Pension Bill Urged in the House. The President's Objections Analyzed and Answered—The Prospect of the Veto Being Sustained Considered to be Very Good.

HOUSE PROCEEDINGS. WASHINGTON, Feb. 21.—In the House today Mr. Matson (Ind.), from the Committee on Invalid Pensions, reported back the Dependent Pension bill with the President's veto message thereon. He asked that the report be printed in the Record, and gave notice that he would call the bill up for action on Thursday next.

The report states that two facts will arrest the attention of any one who reads the President's message. The first is that no objection is made to the bill on any ground of its constitutionality, or the right of Congress to enact the law is not questioned. The other is that the first section of the bill is not touched upon by the message and no intimation is given by the President as to whether that section of itself, embodying, as it does, an independent proposition, and in the precise form specifically urged by the Secretary of the Interior in his last annual report, meets with his approval or disapproval. The committee then analyzes the objection of the President that the bill is vague in its provisions in that it might apply to various grades of disability or dependency, and submits to the judgment of the House and country that those who framed the bill after months of careful consideration have made no mistake and have confined the bill to one class, and that class can be well defined as consisting of those totally disabled or dependent on their daily labor for support.

"We regard," says the committee, "the strained interpretation put on the bill in the message as an excuse rather than a reason for returning it to the House, and believe we do no injustice to the Executive, when considering the whole message, to say that if its provisions had been plainer and no question could have been raised as to whether it included only those unable to labor he would have interposed his objection."

"It passes the comprehension of this committee to understand how the President could have overlooked in another bill (the Mexican Pension bill) what are alleged as faults in this bill. Such distinction made by the acts of the President is commendable, but we believe will be indorsed anywhere by the patriotic sentiment of this country."

Referring to the expenditures of money which the enactment of this bill into law would necessitate, the committee contends that the estimate of the President is extravagant, but says that no consideration of possible cost shall be allowed to come between dependent soldiers and relief they are entitled to receive from the country which they helped to save. Reducing the whole question to one of money expediency, it seemed to the committee that the surplus in the treasury can be restored to the people in the manner proposed in the bill. No bonded interest or huge monopoly could claim the money for its own. It would go to the people in small amounts and would circulate among them. The bill has been asked for on every hand. Protests against it had only come from money centers where all the money that did not turn their mill was considered as worse than wasted.

In conclusion the committee says that it is loth to believe that the people of the country object to relieving the wants of the men who defended the Nation, and that an error on the side of mercy is preferable to a too rigid economy. The committee ends its report by recommending the passage of the bill over the President's veto.

Unless a number of Congressmen can be won over before Thursday, there is no chance of passing the Dependent Pension bill over the President's veto.

A Democratic Victory in Rhode Island. PROVIDENCE, R. I., Feb. 21.—The special election to fill a vacancy in Congress from the Second Rhode Island district, caused by the decision of the House of Representatives that there was no election in November, took place yesterday and resulted in Charles H. Page (Dem.) defeating William A. Price (Rep.) and Alfred Chadsey (Pro.), by a plurality of 265.

A Coming Dedication. WASHINGTON, Feb. 21.—On the 10th of next May the Army of the Cumberland will meet here to dedicate a statue of General Garfield, which is to be placed in a circle at the foot of Capitol hill and at the head of Maryland avenue. It was announced here yesterday that ex-Congressman Warren Keifer has been selected to deliver the oration.

Wheat Prospects. CHICAGO, Feb. 21.—The Chicago Farmers' Review crop summary is as follows: "Injury to winter wheat by reason of the recent sleet storms and accompanying cold weather is reported from various portions of Illinois, Indiana, Missouri and Kansas, but the general situation, as affecting the prospects of winter wheat, continue to be favorable."

Brought Home for Burial. LOGANSPORT, Ind., Feb. 21.—Rufus Magee, Minister to Norway and Sweden, arrived in the city yesterday with the remains of his wife, who died abroad about one year ago. Mrs. Magee was the oldest daughter of John T. Mueselman, a pioneer newspaper man of this city. The remains were interred in the family lot in Mount Hope Cemetery.

Senator Fair's Gift to Texas. WASHINGTON, Feb. 21.—Senator Fair, of Nevada, has directed the Commissioner of Agriculture to send 5,000 packages of vegetable seed to the drought-stricken territory of Texas. He sends all the seeds that have accumulated during his term, except a liberal supply which he has from time to time distributed in his own State.

Judge Treat Resigns. St. Louis, Feb. 21.—Samuel Treat, United States District Judge here, has resigned his position, to devote his time to private business. He is seventy-one years of age, and was appointed by President Pierce. Amos M. Thayer, Judge of the State Circuit Court, has been appointed to the vacancy.

Five Millions for a Gun Factory. WASHINGTON, Feb. 21.—The Military Committee of the House has agreed upon a bill appropriating \$5,000,000 for a gun factory to manufacture heavy ordnance, mortars and torpedoes, to be expended under the direction of a board to be appointed by the President.

General Logan's Estate. CHICAGO, Feb. 21.—Mrs. John A. Logan has been appointed administratrix of the estate of the late General John A. Logan, which is valued at about \$10,000. A bond of \$20,000 was required.

Another Bond Call. WASHINGTON, Feb. 21.—The Secretary of the Treasury has issued a bond call for \$10,000,000 of three per cent. bonds.

THE TUFFIN HORROR.

The Coroner's Jury Returns a Verdict Condemning the Baltimore & Ohio Railroad Company. TUFFIN, O., Feb. 21.—The verdict of Coroner Lepper on the terrible accident which took place near January 4 has just been rendered. It condemns the company in unmeasured terms, and charges that the methods of lighting and heating of the cars were contrary to State laws; that the company's officials knew the engine was unsafe; that Engineer Kiley was not intoxicated, as charged, but was worn out with sixteen hours and fifty minutes' continuous duty with a green fireman and a poor engine. He had plenty of time to get to Republic from Seneca siding—thirty-eight minutes, ten miles—but his engine was so poor and leaked so that the fires were put out and it died on the point of collision. Conductor Fletcher failed in his duty in that he did not flag the express, and that the disaster was due to gross negligence on the part of the company in using on the train defective brakes.

It would seem that such negligence, resulting in such a great loss of life, could not be other than criminal; but there are no laws in Ohio making such negligence a crime, and no laws under which these persons can be charged with crime. The verdict will cause something of a stir, especially in this State, and will probably be the cause of the enactment of laws making such negligence as described a crime, with severe punishment.

BLOWN FROM THE TRACK. Trains Derailed by Wind—Many Persons Hurt—Damages Done at Denver. DENVER, Col., Feb. 18.—A wind-storm blowing fifty miles an hour raged from four a. m. until two p. m. Thursday. Many buildings in this city were unroofed and other serious damage done. Outside of Denver the casualties reported are considerably greater than in the city. The Leadville express on the Denver & South Park road was blown over a bridge near Como and nearly all the passengers and trainmen were severely wounded and the coaches were badly wrecked. A passenger train on the same road which left the Union depot for Morrison at eight o'clock was hurled down to the foot of an embankment when about twelve miles from this city. One passenger had a leg broken and several others badly bruised. On the Denver & Rio Grande railway, four miles north of Colorado Springs, every coach of the north-bound Salt Lake express, consisting of two sleepers, two passenger coaches, a baggage and a mail-car was blown from the track about three a. m., and the mail-car, with its contents, was burned. No one was hurt.

A Chance for Inventors. WASHINGTON, Feb. 21.—Acting Secretary Fairchild Saturday issued a circular to constructors of passenger-cars and steamboats and other persons inviting suggestions as to the best methods of building railroad cars and steam vessels and heating the same so as to prevent loss of life and property by fire.

To Monopolize the Dressed Beef Trade. New York, Feb. 21.—The meat company organized by the Marquis de Mores proposes to shut Chicago dressed beef out of this city by making every retail butcher a stockholder. Should this scheme fail, the monopoly threatens to open several hundred shops on its own account.

Thousands of Rats Killed. MOUNT BRION, Ill., Feb. 21.—The second Knox County rat-hunting contest has ended. There were eighty-five men on each side, and in four weeks Capt. Rummel's team caught 4,403 rats and 3,081 mice, while Capt. Brown's team killed 3,501 rats and 4,603 mice.

Effect of the Oleomargarine Law. ELOIS, Ill., Feb. 21.—Dairymen find that the Oleomargarine law has largely diminished the demand by Chicago manufacturers for creamery butter. It is thought that the genuine article will not bring over thirty cents per pound for years to come.

Shot Down by a Ruffian. CINCINNATI, Feb. 21.—Mrs. Matilda Warren was murdered Saturday by a ruffian named Edward Jordan. She was wincing her child when the ruffian upset the carriage, and upon being remonstrated with shot her and made his escape.

Clerks and Cash Asked For. WASHINGTON, Feb. 21.—Commissioner Black asks an appropriation of \$7,000,000 and the addition of 221 clerks to his force to adjust pension claims by soldiers of the Mexican war.

Declined an Office. St. Louis, Feb. 21.—Henry Overstolz, ex-mayor of St. Louis, who was appointed Saturday Assistant United States Treasurer for this city, has absolutely refused to accept the office.

Unger Gets Twenty Years. New York, Feb. 21.—Captain Unger has been found guilty of manslaughter in the first degree and sentenced to twenty years' imprisonment at hard labor.

What True Merit will do.

The unprecedented sale of Boschee's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from usual prescriptions given by Physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles.

PUBLISHED WEEKLY BY K. KITTRIDGE. ANN ARBOR, MICH. TERMS: One Dollar per year in Advance; \$1.50 if not paid until after six months.

THURSDAY, FEBRUARY 24, 1887.

The executive committee of the state publishers' association met at Detroit, yesterday, and decided to have the annual excursion, July 26th, probably down the St. Lawrence.

We trust that the committee who are soliciting subscriptions to build a fruit drying and preserving factory in this city, will meet with a hearty reception from the gentlemen who are interested in the growth of Ann Arbor.

The republican state convention, which met at Detroit yesterday, was one of the most enthusiastic and successful meetings of the kind ever held in Michigan.

There are persons in our city who still believe that a city will manage its water supply much better than a private corporation. To such we recommend the following editorial from the Detroit Evening News: "Grand Rapids is all torn up over the water question."

REV. DR. SUNDERLAND FAVORS A PROHIBITORY LAW.

His Views in Relation Thereto.

At the request of some gentlemen who have the interests of temperance at heart, Rev. Dr. Sunderland wrote out his views as to the best course to take in the present condition of the temperance agitation. He says: There is no interest of society that is not effected by the drink habit.

In combatting this great enemy of our nation and of each one of us personally, several agents are to be employed, each important. But, among the rest, it is at least a question whether there is not important work to be done of a political character, in the way of securing better temperance legislation.

What laws have we now? We have (1) law regulating licenses, and (2) laws forbidding the sale of liquor on Sunday, after certain hours at night, on certain public holidays, and to minors and intoxicated persons.

Still others believe, and some very earnestly, that the only real solution of the liquor difficulty,—the only plan that puts us on the road to an ultimate mastery of this gigantic evil, is the absolute and unconditional prohibition by the individual states, and ultimately perhaps by the general government of the manufacture, importation and sale for drinking purposes of all kinds of intoxicating liquor.

Certain it is that the prohibition idea is steadily growing in favor in almost all parts of our own country, and in foreign lands,—in sections where it has not been tried, but especially in sections where it has been tried, and among the wisest, most able, most candid and most influential men and women.

MICHIGAN'S LEGISLATORS.

A Resume of the Business Done by them the Past Week, by our Regular Correspondent.

Much to the surprise of everybody last Saturday morning both houses voted down propositions to adjourn over from noon till Monday and held two sessions Saturday, then adjourned till 2 p. m., Monday.

Since the legislature resumed business the introduction of bills has been the principal order in both houses, and the mass of legislation proposed largely exceeds that of former years.

Of course with the avalanche of bills which have been pouring in, breaking all previous records, it is absolutely impossible to attempt any enumeration.

tory amendment to be carried at the polls, therefore Representatives Rumsey and Henry Watson have introduced bills to more stringently regulate the traffic. A bill has been introduced to make only practitioners in the supreme court eligible to the office of judge of probate, which the granger members seem inclined to sit down upon as a form of class legislation.

The bill introduced in the house prohibiting the use of stoves in railroad passenger coaches is one of the most timely measures of the session, and will undoubtedly receive favorable consideration.

Representative Ogg, one of the active, wide-awake labor members, has introduced a bill that he thinks will settle the troubled question of prison contracts, which has obtruded itself like a terrible nightmare on the vision of the knights of labor for a long time.

Representative Hosford's bill for the completion of the decoration of the state capitol appropriates \$35,000 for the work. It specified the frescoing and decorating shall be completed upon the entire first floor, the offices of the governor, the library, the legislative post office, the rooms occupied by the judges and the clerk of the supreme court, and the corridor and pioneers' room.

Among the important railroad legislation of the session the bill of Manager Ashley, of the Toledo, Ann Arbor & Northern Michigan, is receiving its share of attention. It is the intent of this bill to modify the inter-state commerce act of congress.

The resolution asking Michigan senators and representatives in congress to aid in passing the dependent pension bill over the president's veto met with considerable opposition, on the grounds that the present pension laws or special act could cover all deserving cases, and that it was not the province of this legislature to instruct the members in congress.

The members of the "third house" have been having a good deal of fun lately. Last week the regular biennial meeting was held, at which time Capt. Joe Nicholson presented that body a magnificent easy chair for its speaker.

As I wined him down to the Shannon, As I rowed him across in my boat, Thin I lathered him wild me shillalah, For he thrid on the tall or me coat.

Under the portrait is the motto of the "third house": "Let no Guilty Man Escape." The chair will be used during this session only and then disposed of and the proceeds applied to charitable purposes.

The senators, representatives and reporters have each had a miniature nugget of native copper, fashioned into a paper weight, placed upon their desks by Senator Hubbell. It is needless to say they are highly prized by the recipients.

The senate joint resolution proposing an amendment to the constitution of the state extending the term of office of state senators to four instead of two years as a present, has passed, and the question will be submitted to the people at the coming spring election.

The second bill of the session for the organization of a new county has passed the house. The western part of the northern peninsula gives us the new county of Gogebic, the bill creating which was signed by the governor during recess.

To the Editor: Will you be kind enough to insert now and again the following announcement, thereby helping to guard poor working

Now You Have Them! Real Genuine Bargains! Musician's Money Saving Sale!

I have determined to sell off many of the old instruments and much old music bought of Mr. Wilsey, and this is how I mean to do it: SHEET MUSIC—Standard copyright music a little soiled but perfect, 1-4 price. Think of it, 75 per cent. off. This must not be confounded with the cheap music usually advertised, it cost more at wholesale than above prices.

VIOLINS—Several well-made violins—good tone. Former price \$8.00. Now \$3.25.

BANJOS—Banjos which formerly sold at \$8.00 for \$4.90 and \$4.00. \$6.00 banjos for \$3.75.

I invite every one to come in and examine the celebrated Haines Bros. Pianos. These Pianos are used constantly by Patti, Gerster, Mapleson and many other famous artists and stand unequalled for fine tone quality.

Yours, ready to please, LEW. H. OLEMENT, Successor to A. Wilsey, 25 Fourth St., Ann Arbor.

Washington's birthday was duly observed by Company H and the cornet band in a grand parade; while at the normal, the most patriotic exercises were enjoyed to the utmost by a large number of students and visitors. Fine music, excellent addresses, recitations and essays made the occasion very enjoyable.

The Ypsilanti dress stay factory, which has not yet reached its first birthday anniversary, has assumed such gigantic proportions during the few months of its existence, that more room, more help, an engine and many other conveniences for labor have been added, and work is being pushed as rapidly as possible in order to fill back orders and be ready for new ones.

Mrs. Ann Bassett has been circulating among the business men and wide-awake ladies, a petition for the granting of municipal suffrage to women. Nearly every man signed without hesitation but many of the ladies were either so afraid of their husbands displeasure or that they would certainly be dragged to the polls or run for sheriffship if the bill passed, that they refused to give their precious names to the document.

It is announced that the sanitarium is going to lose the valuable management of Dr. Hale, who will probably accept a fine position in the sanitarium at Alma, Mich. It is said that the doctor, who has built up a wonderful patronage here, requested more accommodation for guests, as the house is too full for comfort now, and new applications coming in every day. The request was denied, hence the doctor's resignation. Our citizens regret that such a change should take place, as the sanitarium under Dr. Hall's management has been one of the most thriving institutions of its kind in the state.

In Memoriam.

To MR. AND MRS. LATHROP: Please permit me to pen you a few lines in memory of your dear little daughter, Gracie, who has been with us so often in our Sabbath school. We have heard her voice so often with ours in songs of praise and the beautiful pieces we have heard from her lips:

They say your little Gracie has bid you adieu, Until life's short journey is past; And there in that home prepared for his own, You will meet your dear darling at last.

How often we have heard her sweet voice, In our Sabbath school, singing His love, And speaking of Him she has now gone to meet.

In that home prepared high above, And now with the angels so pure and bright, Your little Gracie has gone, ever to be With Him who hath said, while here upon earth, "Let the little ones come unto me."

Waiting and watching for you to come, When life's short journey is o'er; To join in the songs of the redeemed of the Lord.

On that bright, bright heavenly shore, [G. W.]

SHERIDAN AND FITZ HUGH LEE.

A Historical Meeting at a Recent White House Dinner.

That was a striking illustration of letting bygones be bygones the other day at a White House dinner in Washington.

Present at the banquet were Gen. Sheridan and Governor Fitz Hugh Lee, of Virginia.

Their wives were present with them. Mrs. Lee, a beautiful gray-haired woman, was taken to dinner by Gen. Sheridan.

It was a brilliant scene, with the flowers, the gleaming chandeliers and the ladies' bright dresses.

It recalled to more than one mind a scene which happened between these same two men not quite twenty-two years ago.

It recalled in brief the fact that Sheridan and Lee were the two generals who did the very last of the fighting between Union and Confederates at the fall of Richmond, in April, '65.

SHERIDAN AND LEE.

Gen. Robert E. Lee had perceived that it was all up with the Confederate army, and announced his intention of surrendering to Grant.

Gen. (now Governor) Gordon bitterly opposed the proposition. Lee declared he would retreat with his men and join Johnston in North Carolina, cutting his way past Sheridan, who was with the cavalry at Appomattox station.

For reply Grant double quickened his Fifth Army corps, Gen. Gibbon and Ord, to the assistance of Sheridan. They reached him at daylight. Gordon and Fitz Hugh Lee had already attacked Sheridan.

At the approach of Ord and Gibbon they fell back. Just as they did so a white flag was seen, and bugles sounded loud. Robert E. Lee had surrendered the armies of the Confederacy.

JONAS G. CLARK,

Who Gives One Million Dollars to Found a University.

The announcement that Jonas G. Clark, of Worcester, Mass., is to give \$1,000,000 to found a university in that city to perpetuate his name places him among the leading American philanthropists.

His gift is the most magnificent on record. Mr. Clark has had the scheme under consideration for many years, and he has laid his plans so carefully that they will not be altered by his death.

Mr. Clark is a native of Worcester county and is now 72 years of age. Leaving his father's farm early, he began life as a carriage maker, then he became a manufacturer of tinware and dealer in hardware.

When the news of the discovery of gold in California reached the east he immediately entering an enormous trade in hardware and miners' outfits generally.

Later he went to California, and became one of its wealthiest citizens. He had unbounded faith in the cause of the north during the war, putting all his money into government bonds at low prices.

In 1864 he came east, and turning all his gold into greenbacks at the big premium then prevailing he made large real estate investments in New York and Boston, which have swelled enormously on his hands.

He proposes to have a law, medical and unsectarian theological school attached to his university, as well as an academic department.

List's Rebuke to David.

A pupil of List relates the following anecdote: "On one occasion the master and several of us from Weimar were spending the evening with Ferdinand David, who desired to try new composition through with the master."

"You will find the piano part," said he, as he touched the music with his bow, "very difficult." We all felt indignant at David's arrogance, but List said nothing.

The piece began with a broad, majestic movement; the piano part grew more and more brilliant. David's face changed expression as though some important fact were dawning upon him, and finally he stopped playing altogether.

"Why," he gasped, "is playing the violin part too?" List continued without noticing the mortified violinist, and brought the piece to a magnificent close. It was a rebuke that David never forgot.—Boston Transcript.

The Contest in Indiana.

This is a portrait of Senator Alonzo Green Smith, of Indiana, contestant for the right to preside over the state senate.

While the election of Robert S. Robertson for lieutenant governor was in dispute Senator Smith, as president of the senate, claimed the right to assume the duties of the position.

To maintain his position he secured, through Judge Ayres, of the supreme court, an injunction, restraining Col. Robertson, from performing any duties of that position.

The fight for the lieutenant governorship was important, for on it depended whether the next senator elected by the legislature would be a Republican or a Democrat.

Col. Robertson appealed the case, and the remarkable feature of the trial before the supreme court was the appearance of Senator Harr on as counsel for the appellant and Judge Ayres as counsel for the Democratic appellee, these being the rival contestants for the United States senate.

Children Cry For PITCHER'S CASTOR OIL. A Practically Perfect Preparation for Children's Complaints.

"NEARLY CRAZED" is the sad cry of many a victim of rheumatism or neuralgia, and frequently other diseases, such as kidney and liver complaints, are directly traceable to rheumatism or neuralgia. These diseases, for some unexplainable reason, are rapidly increasing, and in many instances are so direct cause of much sickness which so hides its real origin as to be mistaken for other diseases. In curing rheumatism, neuralgia, sick headache, and in many cases of kidney and liver troubles, Athlophors has wrought wonders. Those who have used it are best qualified to speak of its merit.

Mrs. C. W. Brown, No. 143 Sixth St., Milwaukee, Wis., says: "My daughter was first taken with what seemed to be nothing but ordinary stiff neck. I treated her with the usual remedies in such cases, but the disease seemed to spread very quickly over the whole body, giving her the most excruciating pains, which seemed almost beyond endurance even for a short time, causing her to scream violently for relief from a physician, and he pronounced it a very bad form of inflammatory rheumatism; he endeavored to give her relief from this terrible agony but could not. The disease was steadily growing worse, she began to feel it around the heart, this being the vital part, and fearing the child would die before we could get her some relief, I said, doctor, I am not satisfied, this child must have relief at once or she will die, she cannot stand this torture much longer. I at once sent for a bottle of Athlophors and to my utter surprise after giving her eight teaspoonfuls she had relief, and in two days' time she was up and around and did not suffer a pain. All I used was one bottle. It saved my child's life."

Every druggist should keep Athlophors and Athlophors Pills, but where they cannot be bought of the druggist the Athlophors Co., 112 Wall St., New York, will send either (carriage paid) on receipt of regular price, which is \$1.00 per bottle for Athlophors and 50c. for Pills.

For liver and kidney diseases, dyspepsia, indigestion, weakness, nervous debility, diseases of women, constipation, headache, impure blood, etc., Athlophors Pills are unequalled.

## HIGH HATTED LADIES.

SHALL NOT THE HATS COME OFF IN THE THEATRE AT LEAST?

Bonnets Come High, but Fashions Are No More Absurd than They Always Were—Views of Some Old Fashioned Head Coverings.

The newspapers, for the purpose of getting something picturesque for their Sunday editions, have taken up the war against high hats. The possibilities in the way of illustration are tremendous. When you are run out of something to write about, go for woman's dress. It will never fail you.

Women's hats at the theatre! cry the grumblers. Down with them! "most mutations and atrocious of all" screams Col. P. Donan, "behold the hideous headpiece, fitted, deformed, skilful like abominable, hatched with impossible botanical and ornithological monstrosities." "Give us women," quoth the gallant colonel, "and not gaudy clothes racks and husband angling fashion plates."

Papers teem with illustrations of broken headed bald headed men twirling their necks off in the vain attempt to shoot their eyes around the gain trim of some lop eared theatre hat. How they pity themselves, the dear men.

It's all very well. But what if the women on their part had something to complain of? What if it could be charged against the men and proved on them that they are guilty of worse theatre conduct than the wearing of even the four storied of the pagoda hats? In short, gentlemen, what can you say in defense of that utterly accused and unspokeably nasty habit you have of tramping out like horses between the acts every night at the theatre and going to get a drink?

Women's hats at the theatre may look like these that the artist has caricatured, but if they were ten times worse they would still not be an offset to the men who squeeze past ladies and roll out in procession every time the curtain lurches down.

At least that is what the women say. They declare that the men rub their dusty trousers' shins past the bright silks and velvets, taking the luster off the one and the pile off the other. Ladies must rise for them, catching their skirts against the chairs and tearing out the drapery and the strings of their gowns.

They must stand there, a spectacle to gods and men till the oily, black boots have rubbed along by them, and the knees have torn out and carried away the loops in their dresses. Then the hoofs clatter up the steps like a cavalry company, and the ladies sit down, only to be routed up again by the tramping cavalry.

The troop come in smelling—heavenly how they do smell, and sit down all about, clearing their throats, expectorating, and filling the air with their tobacco and whisky breaths. The getting up and sitting down must be gone through altogether some twelve times whenever a woman goes to a five act play. The women's dresses are spoiled, their stomachs sickened and their patience is worn to the bone. Now, say the ladies, have we not just cause for complaint? Are the grievances all on the masculine side of the house? They pause for an answer.

In times past and in all times it is true there have been intervals of monstrous feminine hair covering. Women, being shut out from the large interests of humanity, are apt to overdo the small interests in which they live and move. Women's hairgear has been sometimes four feet high.

Well authenticated pictures show that within the last three centuries bonnets like those in the second illustration have been worn by the highest ladies of the lands. They were rendered additionally high by their hats. Old engravings and paintings of the continent of Europe represent the leaning tower headdress exhibited in the figure on the right. In the days of our own grandmothers bonnets like that upon the central figure were worn. They were called "sky scrapers," and across the formidable looking brim in front were draped black and white embroidered veils, done in silk by the delicate fingers of maidens fair, "their own selves." It was before the days of machine embroidery. Many of these beautiful old veils are even now in possession of maidens as fair as those who wrought the delicate silken netting, but who are great-granddaughters of the dames that wore the sky scraping bonnets.

On the right is yet another monstrous hat. It is of the style worn by the court ladies of France in 1787. At that time women rolled their hair back over a cushion and powdered it white, in the style of hapless Queen Marie Antoinette. So, perhaps, it is a consolation, though a slim one, to know that women are no more absurd than they always were.

The question of the obstructionist theatre hats is being very earnestly discussed at present. It is a little odd, by the way, that no objection has been raised against these hats in church, though the same ones are worn to both church and theatre. Perhaps the stock of Christian grace is so much larger in a church than in a theatre that the nuisance is put up with uncomplainingly there.

If we are so fond of imitating British fashions, we certainly ought to follow the best of them. In London bonnets are only worn in theatres of the lowest class. In the best ones women, like men, are bareheaded. A woman looks so much prettier bareheaded than in any kind of a bonnet that it is a pity she will not sit without a bonnet. The reason she hangs to it is that it costs so much money she feels as though she must show it off at all hazards. Why not have low crowned hats made on purpose for the theatre?

The Calhoun Statue. Haensch's bronze statue of John C. Calhoun will be unveiled at Charleston, S. C., in April. The pedestal is in place, and the statue has reached Marion square, where it is to stand, but the four bronze figures of justice, truth, history and the constitution are still to be cast in Italy.—Chicago Herald.

## PREPARING FOR THE FIELD.

The New Uniform for the French Infantry.

Gen. Boulanger, just now the idol of the French fire eaters, is making many changes in the French army designed to increase its effectiveness.

He proposes to change the dress of the soldier. For one thing, he has recommended the wearing of a beard—a full beard—close cropped. He has set the example by cultivating one upon his own chin and cheeks. Since Napoleon III, the Frenchman has worn a mustache and imperial in the fashion set by the late emperor. But Gen. Boulanger knows the weakness of his fellow countrymen, which is their vanity. A Frenchman would prefer to go without his beard rather than to have his mustache waxed till its two ends stuck out like steel pens. But this operation takes time, far too much time, so does the elaborate shaving and trimming around the mustache. Therefore, says Boulanger, let the soldier wear a full beard and save all this time.

The changes in uniform proposed by the minister of war have been carefully looked into by a military board, and recommended. They were ordered to be submitted to the French assembly for approval.

The recommendations were that the round jacket be abolished altogether, and the tunic serve for all occasions. This tunic is represented in the illustrations.

The new tunic is large and loose, rendering movements and respiration easy. It will be worn tucked in to permit a woollen waistcoat to be worn underneath. It has pockets interior and exterior. The belt is of black leather, as it has been heretofore.

The infantry are to wear epaulettes. Cartridges are to be carried in an outside pocket of the tunic, thus doing away with the cartridge box.

"LUCKY" BALDWIN.

The Famous Millionaire Speculator of the Pacific Coast.

The news of the recent severe illness of Mr. E. J. Baldwin, the daring, open handed speculator whose name has become the synonym for luck on the Pacific coast, will be received with regret by all who have met him. Baldwin went from Butler county, O., to Indiana at the age of 7 years. At 22 he was a merchant in Valparaiso, Ind. He built three canalboats, the first to ply between Chicago and St. Louis, in 1848. In 1850 he was a grocer in Racine, Wis. In 1853 he started for San Francisco with a large stock of horses, which he sold out in Salt Lake City at a large profit. Arriving in San Francisco he bought and sold two or three hotels. Then he went into the brick trade. From bricks he went into the livery business, which he followed for seven years. Selling out the livery business he next opened in Virginia City, Nev., in the lumber trade, dealing also in real estate and mining stocks. He came out of the mining region at last with \$9,000,000, and built in San Francisco the Baldwin hotel, one of the costliest hostleries on the continent. He also purchased some 50,000 acres of the best land around Los Angeles in southern California. He has erected many farm houses on this plantation, and here he spends much of his time among his orange groves and vineyards. An intense lover of horse racing, he is sure to turn up when there is some great turf contest. And although he is called "Lucky" Baldwin, there is no doubt that hard work and foresight have had much to do with his success.

Time Wasted in Shaving. The poet Campbell is said to have calculated that a man who shaves himself every day, and lives to the age of three score years and ten, spends in his life as much time in the act of shaving as would suffice for learning seven languages. The great French naturalist, Cuvier, said that he found himself wasting as much time with the shaving brush and razor as amounted to at least four days in the year, and he resolved therefor to waste no more precious time in that way, and to let his beard grow.—Exchange.

He Will Stick to Journalism. Henry Grady has never held nor desired public office. He has again and again refused a proffered candidacy, and has found his chief pleasure in pushing others to the fore. Not a spark of jealousy or envy finds a place in his broad and noble nature. His friends and contemporaries, brilliant young fellows, with intellects rivaling his own, have never found in him an obstacle, but rather a great and helpful lever to success, and he has directed their campaigns, planned and powerfully aided their successes, and rejoiced in their reputations with supreme self abnegation and princely generosity. Some two years ago a petition signed by 10,000 names, amply assuring his nomination and election, brought Grady to run for congressman-at-large under the new congressional apportionment of Georgia. I think that was the one tempting moment of Grady's life. The offer was so tempting, success so certain and the manner of the presentation so peculiarly flattering that the journalist hesitated—but only for a moment. He declined the office with thanks, and has been greater ever since. It is the impersonality of his work and the unselfishness of his labors that have made him to-day stronger and more potent in Georgia politics than Brown, Colquitt or Gordon. Grady has made the later fortunes of these great Georgians.—Florida Herald.

THE TENNESSEE'S NEW SENATOR. Ex-Governor William B. Bate Wins the Prize at Last.

On three occasions has ex-Governor Bate contested for the privilege of representing Tennessee in the United States senate, and success has crowned his pertinacity at last. In 1879 he came within one vote of getting the caucus nomination. In 1872 he contested the place with Andrew Johnson. The fight was a protracted one, resulting in the election of Gen. Cooper as a compromise candidate. In the recent contest it is presumed that Gen. Bate was assisted by his record while governor for the term ending 1855. Senator Bate is in his 62d year. He was a young soldier in the war with Mexico, and at the beginning of the civil war took the field in the service of the Confederacy at the head of a regiment. He was promoted a brigadier general, and at the battle of Shiloh was severely wounded in the left leg. He still limps, and leans heavily on a cane. He is a lawyer by profession, and a brilliant man before a jury. He is in independent circumstances, and lives in most comfortable style in Nashville. His family consists of a wife and one child, an attractive young lady who has just entered society.

U. S. MINISTER TO COREA. Arkansas Furnishes the Consul-General to That Land.

Hugh Anderson Dinsmore, of Arkansas, has recently been appointed minister to the flowery kingdom of Corea. He is a tall, sturdy young man of 37 years. He was born in Benton county, Arkansas, his father coming there from Pennsylvania in 1848. Dinsmore, the elder, was wealthy, but the civil war left him penniless. Young Dinsmore went to work to earn his own living at the age of 15. By employing all his leisure time in study he qualified himself so as to secure the appointment of clerk of the circuit court of his native HUGH A. DINSMORE, county. While holding this position he studied law and was admitted to the bar. He entered into partnership with J. D. Walker, subsequently a United States senator. In 1878 Mr. Dinsmore was elected district attorney, which position he held for three consecutive terms. He was a Cleveland and Hendricks elector in 1884. In the campaign of last fall he was defeated for election to congress by but a few votes.

In 1879 he came within one vote of getting the caucus nomination. In 1872 he contested the place with Andrew Johnson. The fight was a protracted one, resulting in the election of Gen. Cooper as a compromise candidate. In the recent contest it is presumed that Gen. Bate was assisted by his record while governor for the term ending 1855. Senator Bate is in his 62d year. He was a young soldier in the war with Mexico, and at the beginning of the civil war took the field in the service of the Confederacy at the head of a regiment. He was promoted a brigadier general, and at the battle of Shiloh was severely wounded in the left leg. He still limps, and leans heavily on a cane. He is a lawyer by profession, and a brilliant man before a jury. He is in independent circumstances, and lives in most comfortable style in Nashville. His family consists of a wife and one child, an attractive young lady who has just entered society.

U. S. MINISTER TO COREA. Arkansas Furnishes the Consul-General to That Land.

Hugh Anderson Dinsmore, of Arkansas, has recently been appointed minister to the flowery kingdom of Corea. He is a tall, sturdy young man of 37 years. He was born in Benton county, Arkansas, his father coming there from Pennsylvania in 1848. Dinsmore, the elder, was wealthy, but the civil war left him penniless. Young Dinsmore went to work to earn his own living at the age of 15. By employing all his leisure time in study he qualified himself so as to secure the appointment of clerk of the circuit court of his native HUGH A. DINSMORE, county. While holding this position he studied law and was admitted to the bar. He entered into partnership with J. D. Walker, subsequently a United States senator. In 1878 Mr. Dinsmore was elected district attorney, which position he held for three consecutive terms. He was a Cleveland and Hendricks elector in 1884. In the campaign of last fall he was defeated for election to congress by but a few votes.

He Will Stick to Journalism. Henry Grady has never held nor desired public office. He has again and again refused a proffered candidacy, and has found his chief pleasure in pushing others to the fore. Not a spark of jealousy or envy finds a place in his broad and noble nature. His friends and contemporaries, brilliant young fellows, with intellects rivaling his own, have never found in him an obstacle, but rather a great and helpful lever to success, and he has directed their campaigns, planned and powerfully aided their successes, and rejoiced in their reputations with supreme self abnegation and princely generosity. Some two years ago a petition signed by 10,000 names, amply assuring his nomination and election, brought Grady to run for congressman-at-large under the new congressional apportionment of Georgia. I think that was the one tempting moment of Grady's life. The offer was so tempting, success so certain and the manner of the presentation so peculiarly flattering that the journalist hesitated—but only for a moment. He declined the office with thanks, and has been greater ever since. It is the impersonality of his work and the unselfishness of his labors that have made him to-day stronger and more potent in Georgia politics than Brown, Colquitt or Gordon. Grady has made the later fortunes of these great Georgians.—Florida Herald.

Who Will Shortly Become the Countess Miranda. Attention is directed anew to this grand singer just now. It is said that her marriage with Count Miranda will close her professional career forever. Usually when great artists marry noblemen it is necessary for them to work harder than ever, in order to support the birth and expectations in a style becoming their delicate and exacting, so to mean sure rumour says that, that is by no means thorough evidence that Nilsson is stopping singing.

THE TENNESSEE'S NEW SENATOR. Ex-Governor William B. Bate Wins the Prize at Last.

On three occasions has ex-Governor Bate contested for the privilege of representing Tennessee in the United States senate, and success has crowned his pertinacity at last. In 1879 he came within one vote of getting the caucus nomination. In 1872 he contested the place with Andrew Johnson. The fight was a protracted one, resulting in the election of Gen. Keech, J. J. Farshall, S. Mills, C. C. Orcutt, J. Allmand and Levi Hall.

The cases which have been dragging along in the circuit court for some time, growing out of the Goodale assignment, were finally disposed of Saturday, by Judge Joslyn declaring the assignment void. The judge's reasons for declaring it void was on account of the failure of Mrs. Goodale to assign her personal property. Judgements were immediately taken by the several claimants against the estate and garnishees issued against the assignees as follows: S. J. Durant, \$240.62; Peter Poisson, \$1204.50; E. D. Kinne, \$620; Patrick Gallagher, \$1784.10; T. P. Karney, \$679.50.

B. F. Watts has in his possession a silver box, used for keeping small chain books in, which has a history dating back to July 26th, 1827, the date of its manufacture. It was first the property of Wm. Davis, then it passed into the possession of Davis & Watts, then J. C. Watts numbered it among his earthly possessions. J. C. Watts & Bro., next claimed it, afterwards coming into the possession of its present owner. It is treasured very highly by Mr. Watts, who would not dispose of it for any consideration, in fact he prizes it so highly that he keeps it in an old drawer, where old nails, etc., are kept.

Again we are Reminded.

Legislator (with wife) to citizen who is showing off the city: "And what large building is that?" Citizen—"That is our famous High School;" "Yes, and what are those two smaller buildings?" Instantly Killed.

A woman supposed to be Mrs. Christian Frey, and a child aged about three years, were walking across the railroad bridge, about half a mile west of Foster's station, this morning, when they were overtaken by the Grand Rapids express, going east, and instantly killed. The train was immediately brought to a stop and the unfortunate victims picked up and brought to this city. They were horribly mutilated, every bone in their bodies being broken. An inquest is now being held by Coroner Clark. The bridge where the accident occurred is situated just around a curve in the railroad and it is supposed they had no knowledge of the near approach of the train.

The Ann Arbor Savings Bank.

Among the Savings Banks in our state there is no one outside of Detroit that has taken a more solid and prominent position than the Ann Arbor Savings Bank. Its growth has been steady and of the kind that makes it one of the best banks in the state. The list of depositors embraces our citizens occupying all different positions, but mainly among the farmers, mechanics and laborers, and these are the classes whom they especially seek.

Deposits are received from one dollar up and interest paid.

Nothing as sensible offers itself to fond parents and friends as to deposit a small amount on New Year's time for some child, who will be prouder with a bank account than with any other gift. Saturday, the Bank will be open for savings deposits from 7 to 8 p. m.
