

THE ANN ARBOR REGISTER.

VOL. XIII. NO. 45.

ANN ARBOR, MICHIGAN, THURSDAY, NOVEMBER 10, 1887.

WHOLE NO. 672.

SHALL THE SALOON GO?

PROHIBITIONISTS OF WASHTENAW WILL HOLD A CONFERENCE.

They are not anxious to circulate a petition, but are trying to throw it on the Republicans.

A Washtenaw county prohibition conference will be held in Ann Arbor, at Fireman's hall, Wednesday, Nov. 16, at 11 o'clock a. m. Hon. Chas. S. May, of Kalamazoo, a fine orator, is advertised to address the meeting at 2 o'clock of that day.

It is expected that every town in the county except Freedom, Lyndon, and Bridgewater, will be represented. The conference will discuss ways and means for the campaign of next year. It is desired by the leaders in Ann Arbor to keep a good man in Washtenaw county all the time making speeches in school-houses, canvassing for prohibition papers, and laboring with individuals to induce them to join the Prohibition party.

The vexed question of local option of course will come up for discussion. In counties where the prohibition amendment had a majority, the prohibitionists are going ahead securing petitions for a special election; but in this county the third party prohibitionists are evincing a desire to throw the responsibility upon the republicans for starting the ball a rolling. Mr. B. J. Conrad, the chairman of the prohibition county committee, was found Monday working industriously in sending out circulars to his lieutenants in the towns asking them to attend the conference. He said that he had been about the county a good deal lately, and some Prohibitionists and Republicans he found think that local option could be carried in Washtenaw county in spite of the adverse vote on the amendment.

"This local option law is a Republican measure," said Mr. Conrad, "and I don't know of a third party prohibitionist who asked for it. We don't feel very anxious, therefore, to take all the odium, and bear all the expense and trouble, of circulating a petition for the necessary number of signatures before the election can take place. The Republicans ought to do that. But if the question of prohibition in Washtenaw county comes up for a vote we will work hard for prohibition. If we had secured a majority for the prohibitory amendment, we would go ahead now without doubt, and circulate the petition.

"It would be a grand thing for Ann Arbor if we could once banish the saloons from the county," continued Mr. Conrad. "I know of a family in Missouri that sent a young son to the University, and in four years he was a drunkard. The father went about Missouri advising parents not to send their sons here. We would soon have 500 more students in the University after driving out the saloons."

Said a Republican the other day: "The attempt of the third party prohibitionists to make political capital out of the question of an election under the local option law, will not work. The law says nothing about parties. Certainly, if any party has any responsibility about it, it is the Prohibition party. But it is really a citizens' question, and the citizens irrespective of party should take hold of the matter. I think we ought to wait in Washtenaw awhile, and see how the efforts in other counties succeed."

Prof. D'Ooge's "Life in Athens."

The announcement that Prof. M. L. D'Ooge, who has just returned from Greece, was to give a lecture at the Sunday school room of the Congregational church last Thursday evening, called together a full house to welcome his safe return and to listen to his instructive lecture on the above topic. The professor's vivid description of the wonderful scenery and detailed account of its several points and objects of interest were highly appreciated. The subject afforded the professor a wide range, and scenery, character, history, progress, prospects for the future, classic allusions, and many other matters of interest were treated with great vividness and interest. His account of the politics of Athens was entertaining. The Athenians are divided into two political parties, the peace party wearing olive leaves or branches, and the other laurel. He attended a political meeting where the speaker was standing on a pillar that was hundreds of years old, and near at hand there was a man beating a drum to disturb a rival meeting. A morning paper in the ancient city condemned this plan of campaign, saying that it would not have occurred in any place in the world—except in America. At the close of Prof. D'Ooge's lecture, he received many hearty and earnest greetings from those who had not met him before since his return.

Death's Doings.

The many friends of Miss Emma Healy, niece of Mrs. President C. K. Adams of Cornell University with whom she made her home while in this city, were much surprised and pained to learn of her death at the residence of President Adams in Ithaca, last Friday, of Bright's disease. The remains were brought to this city on Tuesday morning and interred in Forest Hill cemetery, services being held at the grave.

The family of Howard Granger were apprised on Saturday last of his sudden death in San Francisco, Cal., on the day previous. Mr. Granger was well known in this city, he being the eldest son of the late Hon. B. F. Granger, and was in the grocery business here until about one year ago. He was in the insurance business at San Francisco and was in perfect health when last heard from. The remains will

reach this city on Monday next, and the funeral will be held at the Presbyterian church on Tuesday afternoon. Mrs. Granger came east some months ago, and is now with her son, Ross Granger, 36 S. State-st.

George Beavis, L. D. S., a student in the dental department of the University, died suddenly Sunday, of pneumonia, age 29 years. His home was Newport, England, and he was a graduate of the Royal College of Surgeons, Ireland. He leaves a wife in this city. The funeral was held in the University chapel, Tuesday afternoon.

The remains of Mrs. Stephen Hedges were brought to this city and interred in Forest Hill cemetery, Monday afternoon. She was a former resident of Ann Arbor and died at Grand Rapids last Friday, of consumption.

The School Board nearly a Tie.

At the school board meeting Tuesday evening, the question of Donaldson & Meier's plans for the proposed new school building was taken up. As announced before, the board has been notified by the firm's lawyers that the city will be sued for \$600.00 which they claim is due them for the plans which they presented. There were five competitors, and the board had agreed to pay each \$50. In March the board took a vote to show their preference among the plans submitted, and Donaldson Meier's plans had the lead; but it is claimed by a majority of the board that the plans have never been accepted. Tuesday evening the board passed the following resolution which offers Donaldson & Meier \$100 for their work, but blows a defiant blast in reply to their threat of a law suit:

WHEREAS, The architects under the firm name of Donaldson & Meier of Detroit have entered into a competition with other architects for the plans and specifications of a new building proposed by this school district; and

WHEREAS, They had been repeatedly informed that a guarantee or bond would be required as a condition precedent to the awarding of a contract for the building of a school house; and that the building committee at their first meeting and afterwards ratified by a vote of this board at a regular meeting, and furthermore they had been warned against these requirements before they had done any work on the specifications by at least two of the members of this board; and

WHEREAS, Their plans had had the preference only conditionally upon their complying with the wishes of the board in making their specifications conform to the proper requirements of such a building; and

WHEREAS, The said Donaldson & Meier have persistently refused to make their work conformable to such proper requirements and to complete the same; therefore be it

Resolved, That the board of education do hereby instruct the secretary to tender to the said firm \$100.00 as full payment for any claims they make, and that they be informed that their plans are dismissed from further consideration.

On this resolution Messrs. Mack, Smith, Jacobs, Beal, and Bach voted aye; and Messrs. Harriman, Doty, Gruner, and Whedon voted no, making the close vote of 6 to 5.

In Remembrance of Washington.

A concert will be given in Hobart hall, Nov. 17, by the School of Music, for the benefit of the Mount Vernon endowment fund. The cantata, "The Daughter of Jairus," is being arranged for an orchestral accompaniment and the "Chequesmegons" will take the orchestral parts, and will also contribute numbers in the second part of the program. The solos will be given by members of the School of Music,—Miss Caroline Ball, Miss Lucy K. Cole and Miss Kate Jacobs. The whole program promises a very enjoyable concert, and the object for which it is given, the Mount Vernon fund, should make it a popular one among the citizens of Ann Arbor, who it is believed will be glad of an opportunity of contributing to the fund that is being raised for the maintenance of Washington's old home. Some views of Mount Vernon will be on exhibition next week at Randall's and other places, and tickets can also be obtained on Monday, Nov. 14, at Brown's drug store and Moore's book store. Those wishing to become life members of the Mount Vernon association can do so by contributing one dollar.

Rev. Joseph Parker, of London, Eng.

The Students' Lecture Association have shown great enterprise in securing Dr. Parker, the friend of Henry Ward Beecher, to lecture in University hall to-morrow evening. He should be greeted by a large audience. Dr. Parker stands near Spurgeon as a pulpit speaker. He has a face which in some respect resembles Beecher's and is very striking. His subject is "Henry Ward Beecher from an English Point of View." Of course it will be an appreciative view of the great Brooklyn orator which Dr. Parker will give. Dr. Parker is able to do justice even to Beecher: he has been called the Beecher of England. He is a Congregationalist of the most liberal school, and has built up a great society in London. His style of speaking is said to be eloquent, but convincing rather than persuasive. He lacks Beecher's wonderful humor, but he has great force of thought, clearness of expression, and thorough logic.

City Improvement Fund.

The parties having in charge the matter of getting out an injunction against the supervisors to restrain them from collecting the \$5,000 "booming" fund in this city, are not dead. They are only sleeping and claim that the injunction will be served by the time the supervisors turn their books over to the city treasurer. They further claim that there is not the least doubt that the injunction will be granted and sustained, and that the fund will not be raised. On Monday evening the common council voted to reduce the amount to \$2,500.

THE ANARCHISTS.

LOUIS LINGG COMMITTED SUICIDE AT 9 O'CLOCK A. M.

Great Excitement in Chicago, where Great Efforts Will be Made to Stay the Execution

At 11 a. m. today a dispatch was received from Chicago to the effect that Louis Lingg the condemned anarchist at 9 o'clock this morning put a fulminating cap which is used to explode bombs to his head and touched it off with a lighted candle, blowing off his jaw and part of his head. A dispatch of an hour later states "Lingg is dead."

Great excitement prevails in Chicago. Persistent effort are being made to have Governor Oglesby pardon the anarchists, but no indication of his action has yet been given.

Tappan Hall Association.

The board of trustees of the Tappan Presbyterian Hall Association had a meeting on Tuesday for a thorough organization. Committees were appointed. It was stated that Mrs. Sackett had decided to deed to the association her property which consists of the large brick residence and the two lots on corner of State and Huron-sts.

The Baldwin Lectures.

Prof. William Clark, M. A., of Trinity college, Montreal, Can., will deliver the course of lectures in Hobart Guild which were provided for by ex-Governor Baldwin. His main subject is "Evolution to Christ." The scheme is as follows: Nov. 19 "Phases and Failures of Unbelief," Nov. 20 "Civilization and Christianity," Nov. 26 "Personal Culture and Religion," Nov. 27 "The Unity of Christian Doctrine," Dec. 10 "The Insufficiency of Materialism," Dec. 11 "The Pessimism of the Age," Dec. 17 "The Resurrection of Jesus Christ, Proofs of the Resurrection," Dec. 18 "The Resurrection of Jesus Christ, Theories Invented to Set Aside the Proofs."

Deer, Bear and Beaver.

M. S. Stewart, of Duluth, Minn., a graduate of the law department of the University in 1871, and now a prominent lawyer where he lives, came to Ann Arbor about two years ago to spend his summer vacation. He spent it in shooting about the city and on the campus, a little to the annoyance of Secretary Wade, who, upon remonstrating with him, received the explanation that he was only shooting the English sparrows. The slayer of sparrows was about the museum a good deal, and noticed the lack of fine specimens of deer. The University has wanted better specimens, and was considering the subject of procuring them, when recently they received from Mr. Stewart four deer well stuffed and magnificently mounted,—one a buck in the gray, lying down, a buck and a doe in the red, and a fawn in the spot. There were also two bear and a cub, and a beaver, all well mounted. The collection is very fine, and must be worth \$500 or \$600.

Concerning Regent Whitman who left Ypsilanti to reside in Ann Arbor, the Ypsilanti says: "There are no church deaconships made vacant by Charley's departure, we believe, but the removal of himself and family will cause vacancies in social and literary circles here that may not soon be filled, as they filled them. One of Charley's young friends recently remarked, that if the cry of 'Red Blood' should ere long be borne on the night winds from the northwest, it must not be taken as the forerunner or follower of some dreadful deed. It would result from the fact that Charley Whitman was playing progressive euchre at Ann Arbor, was ahead in his game, and was making his pathetic plea for the ringing of the bell."

It is rumored that one of the students of the high school has taken his departure for parts unknown and a number of our merchants are mourning for unpaid bills.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in 5c. ROYAL BAKING POWDER CO., 106 Wall street, N. Y.

A Bold Bank Robbery—\$50,000.

The startling discovery was made yesterday morning, and no new developments were made up to the time of going to press, that \$50,000 in currency and \$40,000 in bonds had been missed from the Commercial National bank of Ann Arbor, and there was no clew whatever to the manner of its loss. The vast sum was kept in a black walnut box which is also missing, and it is surmised that some one has made off with the whole thing. It created great uneasiness in the commercial department of the high school in which the bank is a prominent feature. The currency and bonds are used by the pupils in their fictitious transactions, and while their loss will not exactly 'break the bank' yet it will embarrass the operations for a time.

Saline.

John La Rue is buying and shipping live stock from Ann Arbor.—Coal is reported scarce here.—Skating rink will be open during the winter.—Presiding Elder Joslin preached in the M. E. church last Sunday.—The Saline Observer says that Ernest Hill rode around the triangle, on his bicycle, Nov. 2, a distance of 29 miles, in two hours and six minutes. A school man timed him, lucky boy.—Charles Conklin, who has been west for a few years, prefers to live in Saline, and has returned; also Frank Cammett says he likes Saline best.—C. L. Blodgett, principal of Saline schools, makes a report for October, which shows that he has 247 pupils enrolled, with an average attendance of 233; good.—L. Silsbury takes meteorological observations regularly.

Manchester.

J. D. Covey, Esq., keeps blanks for marriage licenses.—They are hoping to get a flowing well in Manchester.—Mart Dewey was suddenly taken sick about a week ago while sorting sheep, and his people were much alarmed for a time.—A meeting of citizens was held Nov. 2 to see about giving assistance to a firm that wants to come to establish a foundry and machine shop.—Geo. Rheinfrank has moved his goods to Chelsea where he will reside hereafter.

Mr. Purcell offered the following: Resolved, That when this Board adjourns, it be to meet in adjourned session on Monday next at 11 A. M.

Adopted. Mr. Young, from same committee, reported the bill of A. K. Rouse, Deputy Fish and Game Warden, which, on motion, was referred back to the committee for further consideration.

Mr. Young, from same committee, reported the following bills and recommended their allowance at sums stated, to-wit:

Table of Civil Claims Committee reports, listing names and amounts.

Report adopted. Mr. Purcell offered the following: Resolved, That the committee to settle with County Officers be requested to report to this Board, at our adjourned session, an itemized account of all orders drawn on the Contingent, Public Building and Fuel Funds from the 11th day of October, 1886, to the 11th day of October, 1887.

Mr. Osborn moved to indefinitely postpone. Lost. Mr. Gilbert moved to lay the resolution on the table. Lost.

The question then recurring on the original resolution, the same was lost. Mr. Sage, from committee on per diem, made the following report:

Your Committee on per diem respectfully report the following, and recommend payment for the October session, to-wit:

Table of per diem payments for October session.

All of which we respectfully submit. Committee: JAMES SAGE, A. R. GRAVES, N. G. BUTTS.

Report adopted. Mr. Case, from Building Committee, made the following report:

To the Honorable Board of Supervisors of Washtenaw County:

The undersigned Committee on Public Buildings, in accordance with a resolution adopted by the Board at the last October session, would hereby submit an itemized report of the work done by them during the past year.

The first matter to which our attention was called was the necessity of a sewer leading from the cellar of the county jail. It was found that after every heavy rain that water came into the cellar, at times to the depth of six inches. It did not soak away but could only be removed by carrying it out with pails. After an examination we decided that the only way to drain the cellar was to construct a sewer leading from it to Allen's Creek, a distance of about forty rods. The contract to do this work was let to Mr. Schub of this city, he being the lowest bidder, for \$203.20.

Our attention was next directed to connecting the Court House with the water works. This being a job on which it was difficult to estimate the cost and one of so great importance, especially the getting rid of the water-closet nuisance in the basement, your committee decided not to let to the lowest bidder, but to accept of an offer from Hutzel & Co. to do the work, and when completed to present to us itemized bills for labor and material used, for us to audit and allow what we considered just and right. After carefully examining the bills and comparing the prices charged for material with prices charged by dealers in this city and other places we allowed Hutzel & Co. \$1,175.00 for the job. In its construction the best material in the market was used, and after a trial of nearly a year we have not heard one word of fault or complaint, but only words of praise, and we believe the improvement is well worth all it has cost.

Our next work was to carry out your instructions to heat the County House with steam. To draft the necessary plans and specifications, and also to superintend the work, we were fortunate in securing the services of Prof. M. E. Cooley, of the University, to whose skill we are indebted for the perfect arrangement for heating and ventilation which we now have at our County House. The first contract let was to John B. Dow, to erect a large smoke stack and prepare the boiler room to receive the boilers, for which we paid \$418.48. We advertised for and received four bids for putting in the steam heating and ventilation. The Detroit Heating and Metal Works making the lowest bid, was awarded the contract for doing the work. The bid was for \$3,175.00. If to this we add \$418.43 paid Dow, also \$179.67, which is five per cent. of contract price for architect's fees, we have \$3,773.10, total cost of steam-heating and ventilation at the County House. And now, when we consider that by heating with steam we have done away with the use of twenty-five stoves and two large furnaces, that every part of

the main building and hospital can now be thoroughly warmed, which could not be partially done before, that every room in the main building and hospital, also the water closet, is now thoroughly ventilated, we feel that the money thus expended has cost but a great saving to the county by way of fuel and annual cost for repairs, besides adding much to the comfort of the unfortunate inmates.

For repairs, bills have been allowed and orders drawn for the following amounts:

Table of repair bills and amounts.

Making total amount of orders drawn—\$148.48. All of which is respectfully submitted.

N. G. BUTTS, MORTON F. CASE, JOHN V. N. GREGORY. Com. on Public Buildings.

Report adopted. Mr. Braun moved, that the clerk be instructed to draw orders on the Contingent fund for Supervisors' services. Carried.

On motion, the Board adjourned. J. V. N. GREGORY, Chairman. FRED A. HOWLETT, Clerk.

MONDAY, Oct. 24th, 1887. The Board of Supervisors met in adjourned session in the Supervisors' Room in the Court House, in the city of Ann Arbor, on Monday, Oct. 24th, 1887. Called to order by the Chairman.

The following report of the County Treasurer was read to the Board by the Clerk.

To the Chairman and Board of Supervisors of Washtenaw County: GENTLEMEN—I herewith transmit a statement of Fine moneys paid into said Treasury by the several Justices from the first day of January, 1887, up to and including the 30th day of September, 1887, to-wit:

Table of fine moneys paid to the Treasury.

Respectfully submitted, F. H. BEISER, County Treasurer.

On motion of Mr. Gill, the report was accepted and ordered spread upon the Journal.

SHALL ANN ARBOR HAVE SEWERS?

The importance of Alderman Wines' resolution at the common council meeting Monday evening cannot be too highly estimated for the welfare of Ann Arbor. It looks to a separate system of sewerage. Our city is noted for its beauty, and its healthfulness is certainly up to the average; but no city can attain the attractiveness and healthfulness which it ought to have if it does not systematically remove its filth to a place where it is not dangerous. The expense ought not to be considered for a moment except for the purpose of insuring that the work is done as cheaply as is consistent with thoroughness. As the city increases in population, this question is sure to be of more and more importance. Cholera threatens this country, and may break out at any time. If it appears in two cities, the one which is the best sewered will suffer less in proportion to its population, other things being equal. If it should invade an unsewered city, then look out. The same is true of typhoid fever, as has been abundantly demonstrated: its ravages are greatest in those communities that have no good system of disposing of sewage. Of course, the introduction of good general water supplies also has a bearing on the question. Ann Arbor has a general water-supply; we should now have a system of sewerage.

THOMAS EDISON ON THE LABOR QUESTION.

As is usually the case when a man of eminent attainments in one line attempts to talk about another subject to which he has paid no attention, Mr. Thomas Edison has been making a sorry spectacle of himself in talking on the labor question. Mr. Edison thinks that machinery will solve the labor question. He says: "The multiplication of machinery means for every worker more food, better clothes, better houses, less work." If the multiplication of machinery alone can solve the labor question, then there ought to be no labor question now, because the productive power of labor, owing to machinery, has increased marvelously in the past few years. The productive power of the agricultural laborer of England today is 700 or 800 per cent. greater than it was a few centuries ago, and yet Hallam and Thorold Rogers tell us that the agricultural laborer of England is now in a worse condition, relatively and absolutely, than the agricultural laborer of the 14th century. He gets less to eat, and is less sure of getting it. Theoretically, increase of labor-saving machinery ought to solve the labor question, but somehow it doesn't. The laborer is constantly producing more, but he gets less and less in proportion to the amount he produces. The rate of wages may have risen in the past fifty years, but so have man's necessities increased. John Stuart Mill says it is doubtful if a labor-saving invention has ever lightened the day's toil of a single human being.

GASOLINE EXPLOSIONS.

An explosion of gasoline occurred in St. Louis, Mo., last week, which destroyed \$20,000 worth of property and several lives. A large building was lifted from its foundation and completely wrecked. This is the most terrible event of the kind of which we have heard, but gasoline explosions are becoming common in Michigan. As gasoline stoves are coming into common use in summer, these accidents will increase. People handle it carelessly who would not go near gunpowder, and yet it is more dangerous than gunpowder. It is claimed that some dealers in gasoline and gasoline stoves no longer send out with the stoves circulars to warn people of danger and instructing them how to avoid explosions. The State board of health could do a good work by taking hold of this subject, as it did of the illuminating oil question, and devising a way to prevent such frightful losses of life from gasoline explosions.

WHAT IS CIVIL SERVICE REFORM?

The most inconsistent of mankind is the average eastern independent, popularly known as "mugwump." On the main question,—the theory of the correct use of the offices of the United States,—he is unquestionably correct. The old spoils system cannot for a moment be defended. But in some way he has become firmly convinced that President Cleveland is a civil service reformer. How he got the idea, it is impossible to guess, for there isn't a single fact to support it. He has the idea, however, and no matter what the president may do which apparently violates civil service reform, the "mugwump" continues to "love him for the enemies he has made." Harper's Weekly, for instance, admits that

President Cleveland is largely responsible for the disreputable gang of ruffians and repeaters that dominate Baltimore politics and that so far seem able to carry the state. Read this from that great "journal of civilization": "If it [the Gorman ring] should be beaten, the nature of the contest, the reason of the defeat, and the overthrow of the president's party in one of its strongholds [Baltimore] would be the severest and most significant of rebukes." And yet they believe he is a civil service reformer! In the same article Harper's Weekly declares, without any qualification, that the independents will support Mr. Cleveland next year, and yet admit that he is supporting the toughest set of political adventurers in the United States.

HOW TYPHOID FEVER IS SPREAD.

A prominent physician in Lapeer, Dr. H. McColl, has made a thorough report, with a diagram and explanation, of a severe outbreak of typhoid fever which recently occurred in his practice. The report is too long to give here, but it seems to demonstrate conclusively that the outbreak was due to a first case. This case came to Lapeer already sick with what was called "malarial fever." His discharges were not disinfected and were thrown into the vault at the back of the house near the well. A rain came on which soaked the sandy soil. Very soon three members of his family came down with a severe form of typhoid fever, and people in the half dozen houses near them were also taken sick. It is probably true what sanitarians teach that typhoid fever never occurs unless people in some way get the germs of typhoid fever from previous cases. Accepting this, it clearly becomes the duty of every health officer to see that the law in such cases is enforced. Discharge from typhoid fever patients should invariably be disinfected and buried away from all sources of water-supply. And this case illustrates the necessity of using such precautions even in doubtful cases. Let doctors dispute as much as they please about the differences between typhomalarial fever and typhoid fever; but there is one plain course to pursue, and that is to prevent any possibility of the disease spreading no matter which it is. Typhoid fever kills more than a thousand people in Michigan each year. Health authorities should do all in their power to stop this.

The Democrats swept New York in Tuesday's election; the Republicans made gains in Massachusetts where the Democrats hoped to win, and the honors are about even in the other contests. The effect of the New York election will be to brighten Cleveland's chances of securing the democratic nomination for president next year. The city election resulted in putting a man of questionable character in the office of district attorney in place of the man who prosecuted the bootleggers. This may be a good thing according to the standard of New York politics; but unprejudiced citizens will want more than a reform in the election laws to do away with the abuses which make such things possible. Henry George's strength in the city is shown to be at least 35,000, a powerful working force.

The National Grange will next week Wednesday begin a week's session in Lansing. It is an important gathering, one usually seen in larger cities. Michigan has the honor partly because she is the banner grange state, and partly because our granger governor worked for it. The meeting will occur in Representative hall in the capitol. The governor will give the address of welcome. Hon. E. P. Allen of Ypsilanti is among the speakers, and his subject is "Michigan's Best Crop."

DR. MOSES GUNN, DEAD.

The First Man who Lectured at the University on Anatomy.

Dr. Moses Gunn, who died in Chicago Nov. 4, is remembered by a large number of Ann Arbor citizens. In the 40's he came to this city from Detroit, and commenced the practice of medicine. At the same time he started a course of lectures, the first systematic course in anatomy given in Michigan. He had a class of thirty or more students and practitioners soon gathered about him. This was three years before the University had a medical department.

When the medical department was established, Dr. Gunn was selected among numerous competitors for the chair of anatomy and surgery. In three years he was relieved of his work with anatomy, and during the remainder of his connection with the University, which in all was fifteen years, he filled the chair of surgery. The first class in the University to which he lectured numbered 92; the last numbered 525.

In 1861 Dr. Gunn went into the peninsular campaign, and saw much hard service. During a short absence from his post in the army, he gave some fifty lectures to students in the University, which were just what they needed because many of them soon entered the army as surgeons.

The present prosperity of Rush medical college in Chicago is said to be "largely due to his business energy, his professional skill and personal popularity as a teacher."

In the latter part of his connection with the University, Dr. Gunn had his residence in Detroit. His remains were taken to that city on Monday for burial.

Prof. Harrington on Honduras.

At the Unity club Monday evening, among other interesting features, was a "talk" by Prof. M. W. Harrington on his last summer's trip to Honduras. He said that Michigan is represented in Honduras in three industries,—lumber, banana growing, and mining. The Michigan lumber company there does the largest business in mahogany, probably, in this country. The Grand Rapids banana company is very successful. The Calumet and Hecla mining company owns land in Honduras. The mahogany forests are yet new. The trees are very heavy and large: a single slab would make a large table. The banana trade is profitable: the land costs nothing; it costs only \$12 to \$15 an acre to get a plantation in shape, and in favorable times the profit is \$200 per acre. The Spaniards were the first to do mining there, but did not go beyond the water line. When the water is pumped out, the mining can proceed. There is a strong feeling in the island in favor of annexation to the United States. A trip to Honduras is not so expensive as to San Francisco. The climate is healthy: the professor did not find the temperature raise above 93 degrees or fall below 65. In the highest parts of the island frosts are unknown.

First and Future Chamber Concerts.

The first Chamber concert given in Hobart hall Nov. 4, under the auspices of the University Musical society, was greeted with a full house. The Detroit Philharmonic club, assisted by Miss Alice Andrus, soprano, of Detroit, gave an excellent program. Their Schumann's Traumeri was especially fine. The next concert occurs Friday, Dec. 2, when Miss Fannie Bloomfield, of Chicago, will give a piano recital, assisted by Miss Ida Belle Winchell, soprano. Full programs for the remaining concerts have not been made, but the Philharmonic club will be present at four of them. At the third concert, Miss Grace Hiltz, of Chicago, will give a song recital, assisted by Miss Caruthers of Ann Arbor. Homer Warren, baritone, and Mr. Littlehales, tenor, of Detroit, will also be heard, and it is expected that Orin B. Cady, of this city, will sing. The necessary amount has been subscribed, so that these concerts are assured.

Circuit Court Proceedings.

The following business has been transacted in the circuit court during the past week:

Archibald Ellair vs. David B. Taylor. Judgement for plaintiff rendered, \$492 with costs. Defendant granted 20 days in which to move for a new trial.

C. H. Richmond, et al. vs. Amanda Goodale, et al. Petition of plaintiff granted.

Marie L. Walker vs. Charles H. Walker. Decree of divorce granted on ground of non-support.

Mathew Seeger, guardian of the Schaeble minors, began suit against Seymour Combs, Frances Combs and Martin L. Wheelock to foreclose a mortgage.

Sarah M. Van Alstine began suit for divorce against Andrew L. Van Alstine, claiming extreme cruelty and non-support.

ON THE CAMPUS.

Dr. Parker to-morrow evening at University hall.

Nineteen Japs. are attending the University this year.

J. F. McCulloch, lit '80, has been appointed instructor in mathematics.

The contractors expect that the new anatomical building will be done in about ten days.

The library and parlors of the Hobart Guild are now open every Sunday from 2 till 5 o'clock.

F. C. Clark, '87, had an interesting article on the fisheries question in last Sunday's Free Press.

The president of the junior class, C. V. Nafe, has resigned, and they will try to choose a successor Saturday.

Mrs. J. R. Miner rearticulated a few days ago and is now a regular student in the homoeopathic department.

Fred N. Scott who this year is assistant librarian, held the position a few years ago, and has been a newspaper man in Cleveland.

Several students of the medical department have been ordered before the faculty to account for their disturbance during lectures.

Miss Faith Helmer and Miss Smallery, both Gamma Phi Betas, are in Madison, Wis., this week, attending a convention of that Sorority held there.

About 400 books have recently been received at the library. One box from Leipzig contained about 150 Goethe books, and one box was from London.

E. S. Palmer, dent. of '83, was in town a short time since. Although very successful in his practice of dentistry in Chicago, he has recently removed to Rochester, N. Y.

W. D. Stearns, son of the president of Tennessee Normal College, to the head of which institution Professor Payne has lately been elected, has lately entered this University.

It is reported that the lits of '86, or a number of them, will meet in Chicago Thanksgiving day. Among them will be Will McAndrew, F. C. Hicks, Nathan Corbin, and H. S. Sober.

Water from the Lansing and Iron Mountain districts where typhoid fever is now so prevalent has been received at the chemical department, and is now undergoing examination by F. G. Novy.

The Argonaut condemns the practice of college papers accepting ads from saloons and reasons that even financially, to say nothing of the moral side of the question, they are a detriment to a paper. The Argonaut is right.

Up to the present date, there are 1,600 students in attendance at the University. As there are always numerous students entering during the holidays and at the beginning of the second semester, this number bids fair to be considerably increased.

The sophomore reception tendered her classmates last Friday evening by Miss Francis Arnold, was a highly enjoyable affair and was attended by a majority of the class of '90, who are loud in their praise of Miss Arnold as a jolly and entertaining hostess.

Last Saturday the senior lits elected in the person of J. H. Powell, the first "independent" class president in eight years. Miss Tower, also "independent," was elected vice-president. The election of the remaining officers over whom there is not so much interest manifest, will take place at some future time.

The annual meeting of the northwestern collegiate alumnae association will be held in Ann Arbor, Dec. 9 and 10. Miss Francis Willard will speak on "The White Cross Movement." Miss Lucy Salmon and President Lucy Andrews will read papers, and President Angell is expected to give the address of welcome.

But little progress has been made by the soliciting committees for the gymnasium, and work moves very slowly indeed. It is to be hoped, though, that the small sum requisite may be raised that the University so handsomely represented in every other respect may not go without one of its most necessary features—a gymnasium.

The Jefferson Literary society will this evening give an entertainment in Room 24 of the literary department. The Chequamegon orchestra will render "The Bells of Corneville," Schumann's Traumerei, and "March from Tannhauser." W. C. H. Keough, the president of the society, will talk; L. F. Crofoot an essay, "Snow King;" J. E. Bell will speak on "Influence of a Fallen Republic;" Miss Jessie Taylor, a piano solo; G. H. Mason, a declamation; debate, Resolved, That an attorney is always justified in defending his client, by P. J. Galle and A. R. Thompson; dissertation on statesmen, Jefferson by J. Warum, and Gladstone by S. L. Thompson; and remarks by Prof. Henry Wade Rogers.

FIELD DAY.

Last Saturday afternoon the annual field day sports of the students of the University were held on the fair grounds, under the auspices of the Rugby association. For once the day was fair and all that could be asked. The crowd that gathered filled the grand stand and left only standing room (on the track) for a large number. Many ladies braced the day by their presence, among them being ten members of the sophomore class wearing the regulation class cap.

The contests began at 2 o'clock sharp, the first being the 100 yards dash which was won by E. W. McPherran, time 10 3-5 seconds, J. E. Duffy second. The contest was close and exciting, there being nine participants and the leader winning by not over a foot. W. W. Harless secured the first prize for throwing the hammer 56 feet, 10 1/2 inches. F. T. Ducharme jumped 12 feet, 1 1/4 inches, defeating the other contestants in the standing broad jump with the greatest ease, although F. M. Crum was close enough to secure the second prize. In the light weight sparring, Royal T. Farrand defeated Arthur Prantzen and L. D. Millman. F. T. Ducharme won the 120 yards hurdle race, covering ten hurdles in 21 3-5 seconds, W. D. Ball second. The drop kick was won by W. D. Ball, distance 152 feet, 6 inches. In the heavy weight wrestling, J. G. Jackson succeeded in throwing A.

M. Miller, and W. C. Malley threw W. W. Harless, but when Jackson and Malley came together, neither was able to gain an advantage over the other, and the finish was postponed. James E. Duffy won the 220 yards race, time 23 1/2 seconds. Much interest was centered in the one mile bicycle race, in which five wheelmen started. E. B. Perry won the race, time 3 minutes, 36 1/2 seconds. F. T. Ducharme won the running high jump, clearing 5 feet and 1 inch. F. M. Crum, second. After W. W. Harless had put the shot 69 feet and 3 inches and won the prize, the real contest and the one that the spectators had been waiting to see, began. This was the tug-of-war between the sophomore and freshmen classes. For some time the two teams seemed about equally matched, but the freshmen caught their upper classmen napping and won the contest by a long pull and a strong pull. This finished the exercises, darkness interfering with the 440 yards race and the pole vault. The day was a success both in an athletic and in a financial view.

COUNTY NEWS.

A freight train was wrecked Nov. 3 at Carland; no one hurt.

William Lee writes an interesting letter from Hull, Eng., to "the boys," and it is printed in the Milan Leader of Nov. 4.

Catarrh Cured

Catarrh is a very prevalent disease, with distressing and offensive symptoms. Hood's Sarsaparilla gives ready relief and speedy cure, from the fact it acts through the blood, and thus reaches every part of the system.

"I suffered with catarrh fifteen years. Took Hood's Sarsaparilla and I am not troubled any with catarrh, and my general health is much better." I. W. LILLIS, Postal Clerk Chicago & St. Louis Railroad.

"I suffered with catarrh 6 or 8 years; tried many wonderful cures, inhalers, etc., spending nearly one hundred dollars without benefit. I tried Hood's Sarsaparilla, and was greatly improved." M. A. ABBEY, Worcester, Mass.

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the combination of remedial agents; 2d, the proportion; 3d, the process of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence. "Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.

Hood's Sarsaparilla

Sold by all druggists. \$1; six for \$5. Made only by C. I. HOOD & CO., Lowell, Mass. 100 Doses One Dollar.

A QUESTION OF HEALTH.

Bread, biscuit and cake, now generally made by the aid of baking powder, enter so largely into our daily food that their debasement by the introduction of any injurious or deteriorating substance is a matter of serious concern to the public health. What baking powder shall we use to the lime and alum now found in so many leavening agents, and to insure pure, sweet and wholesome bread, is a question, therefore, of direct importance to every individual.

It is an indisputable fact that all baking powders with the single exception of the "Royal" contain one or the other of these adulterants—lime or alum—in quantities from five to twenty per cent. Alum is poisonous. Lime reduces their strength not only but (aside from its injurious effects upon the system) by debasing our food with a useless substance robs it of a portion of its nutritious qualities, thereby depriving our bodies of the full sustenance necessary to maintain that bodily vigor requisite to protect us from disease.

The importance of this matter in its bearing upon the life and health of the public is much more fully realized in England, where severe punishments, under stringent laws prohibiting the manufacture and sale of adulterated articles of food, are of frequent occurrence.

The "Royal" has been determined by the Government chemists and the most prominent food analysts to be the only baking powder made that is entirely free from lime, alum and other impurities, and absolutely pure. It is made from cream of tartar refined for its exclusive use by patent processes by which the tartrate of lime is totally eliminated. No other baking powder manufacturer uses chemically pure cream of tartar, and hence the adulteration of other brands. The "Royal" is, accordingly, the only baking powder that will produce perfectly pure bread, biscuit, cake, pastry, etc.; and these articles are now pronounced more wholesome when raised by the Royal Baking Powder than when leavened by any other agent.

It is particularly a question of health, therefore, what baking powder we shall use; and those who appreciate the miseries of dyspepsia and other ailments that follow the use of impure food will not hesitate to select the "Royal."

THE CITY FATHERS

DO AT LEAST ONE VERY IMPORTANT PIECE OF BUSINESS

Which should be promptly followed up for the good of Ann Arbor. A System of Sewers.

On Monday evening there was a full attendance of the city fathers at the council meeting.

PETITIONS.

Petitions were received for electric light at intersection of Fuller and 13th-sts; for concrete or stone cross-walk across Fourth-st opposite the east front entrance to the court house; to establish grade and order the laying of a four-foot sidewalk on the east side of Thayer-st between North and Huron-sts; for a sidewalk on south side of Ann-st between Division-st and State-st; for permission to construct in front of Cook house a platform about eight inches high and two feet wide for the purpose of receiving trunks; relative to lowering the grade on North Main-st, by J. J. Robinson, which was referred to general street committee. Mr. Robison asked that immediate action be taken on his petition. Alderman Kearns claimed that the street had been lowered all it could stand. Mr. Robison said that he built his houses on North Main-st with the promise that the grade should be lowered. No action was taken as desired.

The resignation of Albert Sorg as chief engineer of the fire department of Ann Arbor was received and accepted.

INJUNCTION AGAINST LAYING SIDEWALK.

Notice was given of the injunction which had been served on the city marshal restraining him from laying a sidewalk on Williams-st, on what is known as the Maynard property. Aldermen Ware, Wines, and Herz were appointed a committee to confer with the city attorney in regard to what course to pursue in regard to the injunction.

REPORT ON FINANCE.

Alderman Swift, chairman of the finance committee, reported in favor of allowing the following amounts from the various funds, which was adopted:

Table with 2 columns: Fund Name, Amount. Includes First ward fund, Second, Third, Fourth, Fifth, General street fund, General fund, Contingent fund.

The bills of J. C. and W. W. Watts for \$7.50, and of H. E. Bower for \$3.40, were allowed.

The finance committee reported that they could not recommend payment of certain bills relating to the fire department. Such bills were ordered certified to by the fire department committee before they are presented to the finance committee.

ELECTRIC LIGHTS.

Alderman Allmendinger presented a report relative to electric lights. Quite a light occurred over the question of removing the light which had been ordered at the railroad crossing to the corner of Fuller and Thirteenth-sts. Alderman Ware opposed the change. Alderman Allmendinger favored it. On a vote, there was a tie, and the effort to make the change was lost. The report stated that the long-promised poles have arrived, and with one exception have been placed as directed. At some future date, it may be desirable to have a general raising of the lights, as experience has shown that a slight increase of elevation will often double the efficiency of the light.

NEW SIDEWALKS.

A new sidewalk was ordered on south side of Jefferson-st, in front of property of F. A. Booth; and on south side of east Ann-st, from State to Division-st.

CITY TELEPHONES.

It was decided that the city should bear one-third of the expense of telephone connection with the water-works. The question of placing the telephone now in the office of the Michigan Furniture company where it will do better service was referred to the fire department committee.

THE CITY POOR.

The city marshal reported that during the month of October the poor orders amounted to \$156.31.

TREASURER'S REPORT.

The city treasurer's report for October showed amount received, \$5,617.73; disbursements, \$4,260.42; on hand, \$1,357.31.

WIDENING GRASS PLATS.

Alderman Wines offered a resolution instructing the city attorney to draft an ordinance allowing citizens to widen the grass plats in front of residences to 16 feet from line of fences upon petition or otherwise as may be deemed best, the city to excavate gutters as may be necessary. Carried.

THE IMPORTANT PIECE OF BUSINESS.

Alderman Wines offered the following: Resolved, That the city engineer is hereby instructed to furnish this body with an estimate of probable cost of a map of this city furnishing all necessary details and data looking forward to future improvements in general and the introduction of a system of sewers in our streets in particular.

GRADES.

The city surveyor was instructed to give a grade on the north side of Thompson-st, between State and Division-sts, commencing east of Prof. Jones' driveway down to the west corner of J. T. Jacobs' residence, also a grade on the south side of east Ann-st, between N. State and N. Division-sts.

THE CITY FUNDS.

The question of meeting orders on the city treasury before the next taxes come in was discussed. The city treasurer reported that the general fund was largely overdrawn, and yet the council had this evening voted more orders on the same fund. The same was true of other funds. He wanted instructions. Should he go on and pay the orders as long as he has any money in the treasury? It was tacitly agreed that the treasurer should draw his checks for all orders made by the council, and according to a resolution passed in

September the bank is allowed the same interest as it pays the city on money advanced the city after the city's deposit is exhausted.

THE CITY IMPROVEMENT FUND. Alderman Allmendinger offered a resolution reducing the city improvement fund of \$5,000 to \$2,500, which passed.

POMOLOGICAL SOCIETY.

Transportation.—Prof. Nichols' Successful Management.—Peach and Plum Trees.—Chrysanthemums.—Fruit and Preserves.—Butter Factory.

The November meeting, presided over by J. D. Baldwin, was so well attended, especially by ladies, that the room was found to be too small. The society enjoyed the presence of its former president and founder, J. Austin Scott.

Prof. B. E. Nichols reported on transportation: 5025 bushels of fruit were sent under his care to Detroit at 7 1/2 cents per bushel, a saving of \$375 over the charges of the express company. Nearly all fruit sent elsewhere went by the express company. A claim on the Michigan Central freight office of \$21 for over charge on the first shipments was reported. One cent per bushel covers all the expenses of the committee on transportation.

A resolution by Mr. Clough that every shipper should at once attend to the payment of this small tax to Prof. Nichols passed unanimously; also a resolution by the corresponding secretary, that the society let their claim of \$21 on the Michigan Central freight office rest in abeyance for the present, in consideration of the accommodations and attention paid by Mr. Hayes, the agent here, to the interests of the fruit growers. A hearty vote of thanks was tendered to Prof. Nichols for his successful management of the transportation of fruit which opened the way for cheaper freight in future on berries and all other fruit.

The discussion on peach and plum trees for profit, in which prominent experts like Messrs. J. D. Baldwin, C. C. Clark, J. Ganzhorn, Wm. McCreery, J. Allmand, E. Baur, and others took part was very interesting. Mr. Ganzhorn reported the success of a plum grower, who planted his trees in hedge rows, 5 feet in the row, the rows 20 feet apart.

A vote of thanks was tendered to Mr. Toms who displayed 26 varieties of chrysanthemums. It was a feat especially for the ladies. Prof. Nichols put in a plea for the passies on exhibit. He said: "If we wish to keep our children on the farm we must cultivate not only the useful but also the beautiful. The pansy blooms all summer, and, if transplanted into a box, it continues to bloom in the room all winter. Who would be without these innocent and lovely flowers?"

J. Ganzhorn exhibited the Kieffer pear well ripened and fine; J. Allmand, Winter Nelis, the best winter pear; Mrs. L. Gruner, pear marmalade, peach butter, strawberry wine, all delicious and much sampled; Ann Arbor Preserving company represented by Mr. Morgan, Kieffer pear confection, highly praised, especially by the ladies; E. Baur, Winter Nelis, D'Arenberg, Vicar and Lawrence pears, also Isabelle grape, a good keeper, the only grape on exhibition, Orange quince; J. D. Baldwin, pomegranate from Mississippi.

Allmendinger & Schneider presented their report on expenditures for fruit preserving factory, which amounts to \$5161.25. Mr. Clark reported \$800 of the bonus collected and deposited with Mr. L. Gruner. All subscribers to the bonus are requested to pay to Mr. Clark or Mr. Gruner. Allmendinger & Schneider expect to begin canning fruit next season.

What we now need is a good butter factory. This topic will be discussed at our next meeting, to which the members of the agricultural society are invited.

E. BAUR, Cor. Sec'y.

Will the City Do It?

E. H. Morgan is a genuine Englishman who has been engaged in growing fruit near Ann Arbor about three years. On a visit to England not long ago he says he organized a fruit preserving company which would like to engage extensively in putting up fruit for the English market, and would do so if the city of Ann Arbor would erect for them on their land south of the city a building 30x60 feet. Mr. Morgan is the manager for the company, and says that during the past summer he put up, in the basement of his residence, 5,000 cans or jars of different kinds of fruit, and shipped them to England.

Mr. Morgan says that if Ann Arbor will put up the building for them, they will agree to employ 20 to 30 hands, and he thinks they could keep that number employed all the time. He is now making preserved ginger which can be put up in winter as well as in summer. There is a great demand for the ginger in London where they buy it in China, India, and Japan. Mr. Morgan thinks it can be made here cheaper and better than in those countries. The company is desirous of putting capital into this business except in a necessary building.

Fine Cleveland Stallion in Sale.

E. Heiber, of Saline, has the Cleveland bay stallion, Lord Wenlock, which was brought from England a few weeks ago to Aurora, Ill., and the Michigan Farmer congratulates him on securing such a well-bred specimen of this family of horses. He is entered for registry in Vol. I. American Cleveland Bay Stud Book. The breeder, in speaking of this colt in his catalogue, says: "He is a grand colt, a real gem, one of the stars of the stud, a horse of great promise and quality and will make a valuable stock horse. Won first prize at Stokesley, Eng." His breeding has been passed upon by the editing committee of the Coach-Horse Society of Great Britain and Ireland, and found correct and certified to by the Secretary, Mr. John White, on the 30th day of May, 1887.

should be used in attempting to cure that very disagreeable disease, catarrh. As catarrh originates in impurities in the blood, local applications can do no permanent good. The common-sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla. That this peculiar medicine does cure catarrh is shown by the many testimonials from people who have found relief upon using it when all others had failed. Real Estate Transfers.

Following is a list of the real estate transfers in Washtenaw county, as recorded by the register of deeds, for week ending November 7, 1887.

Table with 2 columns: Name, Amount. Lists various real estate transactions with names like C. F. Mahle and wife, Anna V. Coddington to Wesley Hicks, etc.

ON THE WHEEL!

What 'Round-the-World Stevens and Champion Howell say of the Sport.

The popularity of 'cycling is growing. Thomas Stevens, who has just been around the globe on a wheel says that the best roads in the world are found in British India. The Grand Trunk road is 1,600 miles, an unbroken highway of marvelous perfection, from Pershwar on the Afghan frontier to Calcutta. It is made of smooth, hard, natural concrete, beds of which lie along the line.

How such roads would be appreciated by the enthusiastic 'cyclers of this country!

The wonderful achievement of Mr. Stevens, in the face of myriad dangers, entitles him to all his honors.

The fast riding champion of the world, however, is Richard Howell, of Leicester, England. He is a splendidly made fellow, between 25 and 30 years of age, six feet high, and weighing, in training, about 160 pounds.

He commenced riding in 1879 and in 1881, at Belgravia grounds, Leicester, he won the one-mile championship of the world, beating all the best men of the day.

From that time his career has been one of almost unbroken successes. He came to the United States in 1884 and 1885, and at the great Springfield tournament in 1885, won seven out of eight races.

In the 'Cycling News, (Eng.), October 1st, 1887, is the following interview with him.

"What are your best performances?"

"This year I did a full mile on the track at Coventry in 2 minutes, 35 seconds. Good judges think, with everything in my favor, I could do 2:30 for the distance."

"What is your system of training?"

"I eat plain good food, and plenty of it. I take a little walk before breakfast, and then, after that meal, if I am lucky, ride eight or nine miles on the track here, in thick flannels. After dinner I do some more 'slogging' work and maybe a walk and early to bed."

"But there is one idea of mine which I have found invaluable. If I have done too much work, or my system is out of order, or if I don't feel quite sound, I take what I have used since I was 'queer' in 1883. I have always found that Warner's safe cure sets me up and puts me to rights again, and it is a remedy which I believe in and tell all my friends about."

"In the winter-time especially, when you can easily understand I am not so careful of my health as in the spring, summer or autumn, I have found it invaluable."

"All I want, to beat the fastest bicyclist in the world, is plenty of practice, an occasional dose of my favorite, and my machine."

"When I am about right in weight I content myself with short, sharp bursts as hard as I can go on the track, and when I can cover 400 yards in thirty seconds with a flying start, I reckon to be moving as well as I want to."

Bicycling is glorious sport, but it has its physical ill effects which, however, can be easily overcome by the method used by Champion Howell.

THAT HACKING COUGH can be so quickly cured by Shiloh's Cure. We guarantee it. Sold by Eberbach & Son.

The worst feature about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

Partly.—Mrs. Buckram—"How's dat baby ob youn? Yo' wife was a sayin' tudder day ez how she hadn't named it yet. Recoon she call it arter yo' ob course?" Mr. Hodge Crabtree—"Waal, no'm, no'm pa'dy. She goin' call 'im Willum Crabtree, Willum arter her Brudder Bill, and Crabtree arter me."

SORROWFUL TALES.

Record of Disasters in Various Parts of the World.

Storms, Shipwrecks and Fires Swell the Already Large Number of Fatalities This Year—The Uncertainty of Life Vividly Portrayed.

NUMEROUS CASUALTIES.

PETERSBURG, Ont., Nov. 4.—Miss Ellen Powers, of this place met with a strange death yesterday. While hunting in a trunk she fainted and her head fell inside the trunk, the lid closing over her neck. Death from suffocation occurred in a few moments.

ALLEGHENY CITY, Pa., Nov. 5.—At a crossing in this city Thursday night a freight train dashed against the rear end of a street-car, which was filled with passengers. The car was partly wrecked, and John M. Culp and a young woman named Harriet Weyman, who had rushed to the rear platform, were knocked off and ground to pieces under the wheels of the engine. Other passengers were not injured.

LONDON, Nov. 4.—An explosion of fire-damp occurred yesterday morning in a lead mine at Black, County of Derby. Twenty-five men were in the pit at the time. Five dead bodies have already been recovered.

BOULOGNE, Nov. 4.—Fifty-nine fishermen have been missing since the gale of Tuesday last. Seven bodies lashed together have been washed ashore at Etalles.

ST. LOUIS, Nov. 5.—It is clearly proven that the recent terrible explosion in this city, by which nine lives were lost, was purely accidental, but the cause remains a mystery.

BLUE SPRINGS, Neb., Nov. 5.—C. W. Livingston's five-year-old daughter was burned to death yesterday. She had been playing with matches.

NORFOLK, Va., Nov. 6.—Reports have been received that the schooner Ocean Bird sank in the Pasquotank river during Monday night's storm, and that all on board perished. Probably twenty lives were lost.

CLEVELAND, O., Nov. 5.—In the office of Pickands, Mather & Co., Friday, a boy, while playing with a loaded rifle, discharged the weapon. The bullet struck William J. Mason, a book-keeper, who died in fifteen minutes.

SAN FRANCISCO, Nov. 7.—From the latest mail advices from China it appears that a typhoon on September 17 caused great loss of life on the island of Hoi Ling. Two hundred people were thought to have been drowned.

A MYSTERIOUS BOX.

Chief-Justice Waite Receives by Mail an Infernal Machine.

WASHINGTON, Nov. 4.—Chief Justice Waite received at his residence in this city at 6 o'clock last evening, through the post-office, a box containing a contrivance resembling an infernal machine, but the breaking of a wire by the post-office clerk in stamping the box rendered the apparatus harmless. The circumstance naturally connects itself with the Justice's delivery of the opinion of the Supreme Court in the case of the Anarchists, and the general opinion is that friends of the condemned men intended to take the life of the Chief Justice.

WASHINGTON, Nov. 5.—It has been ascertained that the sending of the bomb to Chief Justice Waite's residence was a cruel hoax and was the work of Sherburne G. Hopkins, who makes a precarious living by selling sensational news to newspaper correspondents, and Arthur D. Sperry, a reporter. Both men had been arrested. Hopkins confessed the deed, and said his object was to create a sensation and make some money by selling the news to the papers.

A Fight with the Crows.

CROW AGENCY, M. T., Nov. 7.—General Ruger gave battle on Saturday to the Crow Indians, in which Sword-Bearer and three or four of his desperate followers were killed, and the outbreak was virtually direct.

WASHINGTON, Nov. 8.—Indian Inspector Armstrong has telegraphed the authorities that all the refractory Crows, save one, have been delivered up, and that no further trouble is feared.

Against the "Breeders."

CHICAGO, Nov. 8.—In the cases of Van Pelt, Wasserman, Cochs, Wren, Lyden and Overland, the convicted bootle county commissioners of this county, Judge Jamison yesterday overruled the motion for an arrest of judgment, and sentenced the six men to the State penitentiary for two years each. The prisoners will now appeal their case to the Appellate Court, remaining in jail until that tribunal shall pronounce its decision.

The Late Justice Woods.

WASHINGTON, Nov. 8.—In the United States Supreme Court yesterday the resolutions adopted by the Bar Association on the death of Justice Woods were presented by Attorney-General Garland, who made a speech highly eulogizing the deceased. The Chief Justice responded in fitting terms.

The Rascals Unknown.

MORRIS, Ill., Nov. 8.—The verdict of the coroner's jury in the train-wrecking case on the Rock Island road near here is a mere recital of the facts already known to the public. Every effort was made to discover the men who caused the disaster, but all to no purpose.

The First for Many Years.

LEXINGTON, Ky., Nov. 5.—The first white man who has been legally hanged in Central Kentucky for the crime of murder since the War of the Rebellion was executed here yesterday—Trucker Agee, who killed his brother-in-law in a quarrel some months ago.

The Ordnance Bureau.

WASHINGTON, Nov. 4.—From the report of General Benet, Chief of Ordnance, which has just been submitted to the Secretary of War, it appears that the expenditures of the bureau for the last fiscal year amounted to \$1,597,652. The report contains the usual request for liberal appropriations.

A Bank Failure.

ST. LOUIS, Nov. 8.—The Fifth National Bank of this city closed its doors yesterday, owing to continual withdrawal of funds by depositors. The capital was \$300,000, and the deposits are figured at \$400,000, all of which, it is alleged, will be paid in full. Several firms are affected by the failure.

Ravages of Yellow Fever.

WASHINGTON, Nov. 6.—Dr. Porter reports to the Marine Hospital Bureau from Tampa, Fla., that there were 74 cases of yellow fever and 9 deaths during the last week. The total number of cases to date is 325. The epidemic is reported to be subsiding.

Burned His Children.

NEW HAVEN, Conn., Nov. 3.—John Hodel, a silk-weaver living at Hebron, shot his wife Tuesday night and then set fire to the house. Two children were burned to death. Hodel fled, but is now under arrest. Domestic trouble caused the tragedy.

Washington's Inauguration.

NEW YORK, Nov. 7.—A movement is on foot to celebrate in this city in 1889 the centennial of the inauguration of George Washington as President. The celebration will be National in its character.

Letter from the Assistant Foreman of the Delivery Department—A subject in which thousands are deeply concerned.

About five years ago I suffered from painful emigration and great pain and weakness in the lower part of my back, pain in the limbs, bad taste in the mouth, disgust at food, and great mental and bodily depression.

I live at 241 York street, Jersey City, and on arriving home one night I found a copy of the *Shaker Almanac* that had been left during the day. I read the article, "What is this Disease that is Coming Upon Us?" It described my symptoms and feelings better than I could if I had written a whole book. My trouble was indeed like a thief in the night for it had been stealing upon me unawares for years. I sent for a bottle of Shaker Extract of Roots, or Selsig's Syrup, and before I had taken one-half of it I felt the welcome relief. In a few weeks I was like my old self. I enjoyed and digested my food. My kidneys soon recovered tone and strength, and the urinary trouble vanished. I was well.

Millions of people need some medicine simply cast on the bowels. To them I commend Shaker Syrup in the strongest possible terms. It is the gentlest, pleasantest, safest and surest purgative in this world. The most delicate women and children may take it. One point more: I have all the more confidence in this medicine because it is prepared by the Shakers. I may claim to be a religious man myself and I admire the Shakers for their zeal, consistency and strict business integrity. What they make may be trusted by the public.

IT WAS DYNAMITE.

The Four Bombs Found in Ling's Cell Loaded to Kill.

A Fortunate Discovery—Engel Attempts Suicide—Governor Oglesby Threatened with Assassination—Some Newspaper Opinions.

THEY WERE LOADED.
CHICAGO, Nov. 7.—The cells of the condemned Anarchists were thoroughly searched yesterday, and in the one occupied by Louis Ling four bombs were found after the prisoner, who had been taken out, had made a desperate attempt to prevent the officers from entering. This startling discovery has led to additional precautions on the part of the sheriff and jailer. Four of the men have been removed from murderers' row to cells on a lower floor, and Ling will be kept in solitary confinement until the day set for the execution. A watch is now placed over each prisoner, whereas heretofore the responsibility of guarding all of them has rested upon one man alone.

During Saturday night George Engel attempted suicide by taking laudanum, but a physician was summoned, and after hard work for an hour, succeeded in getting him out of danger.

SPRINGFIELD, Ill., Nov. 7.—Governor Oglesby was thunder-struck when he received the news last night of the finding of the bombs in Ling's cell. He read and re-read the dispatch, and a cloud of gloom, vexation and anxiety swept over his face as the full import of the information dawned upon him.

It is stated on good authority that there were several very threatening letters in Saturday's mail declaring violence would be used in case the Governor did not exercise clemency. It is also stated that one of the communications threatened death in the event mercy was not shown.

CHICAGO, Nov. 8.—Sheriff Matson reported yesterday the result of the analysis of the four bombs found in Ling's cell. In each of them was found a sufficient quantity of the deadly explosives to create havoc and desolation wherever exploded. Ling himself would make no accusations of their being placed in his cell by outside parties, but denied that he knew anything about the existence of the bombs in the box. Messrs. Parsons, Spies, Fielden and Schwab also said they had no knowledge of any thing of the kind.

It was said that a scheme would be sprung Friday by applying for a writ of habeas corpus, which, it is thought, may result in deferring the execution of the sentence.

Engel yesterday had completely recovered from the ill-effects of his attempt at suicide. He acknowledged to Dr. Gray that he had taken the laudanum with suicidal intent.

Beginning to-day, everybody will be excluded from the jail and the prisoners will not be let out of their cells again until the night before the execution.

SPRINGFIELD, Ill., Nov. 8.—Precautions have been taken to guard against the introduction of bombs into the State House and Executive Mansion. Governor Oglesby is entirely unconcerned about his personal danger, and regards all of the threatened assaults as the mere ravings of cranks; but some of his official associates consider it wise to exercise a judicious surveillance of all visitors during the time of the present excitement.

NEW YORK, Nov. 8.—The *Tribune*, *World*, *Herald* and *Times* of this city, and the *Press*, *Times* and *Public Ledger*, of Philadelphia, contained strong editorial articles yesterday in favor of carrying out the sentence of the Chicago Anarchists.

WASHINGTON, Nov. 3.—The decision of the United States Supreme Court upon the petition for a writ of error in the case of the Chicago Anarchists was announced yesterday afternoon by Chief Justice Waite in a long and carefully-prepared opinion which occupied thirty-five minutes in the reading.

Following are the main points in the decision:
When, as in this case, application is made to us on the suggestion of one of our number to whom a similar application has been previously made, it is our duty to ascertain, not only whether any question reviewable here was made and decided in the proper court below, but whether it is of a character to justify the bringing of the judgment here for re-examination. In our opinion the writ ought not to be allowed by the court if it appears from the face of the record that the decision of the Federal question which is complained of was so plainly right as not to require argument, and especially if it is in accordance with our own well-considered judgments in similar cases. That is in effect what was done in *Twitchell vs. The Commonwealth*, 7 Wall. 83, when the writ was refused because the questions presented by the record were "no longer subjects of discussion" although, if they had been in the opinion of the court "open," it would have been allowed.

In the present case we have had the benefit of argument in support of the application, and while counsel have not deemed it their duty to go fully into the merits of the questions involved, they have shown us distinctly what the questions were of which they complain, and how the questions arose. In this way we are able to determine, as a court in session, whether the errors alleged are such as to justify us in bringing the case here for review. We proceed, then, to consider what the questions are which, if it exists at all, our jurisdiction depends. The particular provisions of the constitution of the United States on which counsel rely are found in Articles IV, V, and XIV of the amendments.

That the first ten articles of amendment were not intended to limit the powers of the State governments in respect to their own citizens, but to operate on the National government alone, was decided more than a half century ago, and that decision has been steadily adhered to since.

It was contended, however, in argument that though originally the first ten amendments were adopted as limitations on Federal power, yet in so far as they secure and recognize fundamental rights, common law rights of the man, they make them privileges and immunities of the man as a citizen of the United States, and can not now be abridged by a State under the Fourteenth Amendment.

The objections are in brief (1), That a statute of the State as construed by the court deprived the petitioners of a trial by an impartial jury; and (2), That Spies was compelled to give evidence against himself. Before we considered the constitution of the United States has the effect which is claimed, it is proper to inquire whether the Federal questions relied on in fact arise on the face of this record. One statute to which objection is made was approved March 12, 1871, and has been in force since July 1, of that year. The complaint is that the trial court, acting under this statute, and in accordance with its requirements, compelled the petitioners, against their will, to submit to a trial by a jury that was not impartial, and thus deprived them of one of the fundamental rights which they had as citizens of the United States under the National constitution; and that if the sentence of the court is carried into execution they will be deprived of their lives "without due process of law."
In *Hopt v. U. S.*, 130 United States 498, it was decided by this court, that, where a charge by a defendant in a criminal action to a juror for bias, actual or implied, is disallowed, and the juror is thereupon peremptorily challenged by the defendant, and excused

and an impartial and competent juror is obtained in his place, no injury is done the defendant if, until the jury is completed, he has other peremptory challenges which he can use. Of the correctness of this ruling we entertain no doubt. It is held that both Denker and Sanford had been properly impaneled, and that the fact that the defense had exhausted their peremptory challenges when Juror Sanford was presented did not come within the rule laid down in a Territorial case, decided by the Supreme Court of the United States, and that, therefore, Sanford was a competent juror. The decision then says that the jury law of Illinois is similar to the statute of New York, Michigan and Nebraska, the constitutionality of which has been sustained in numerous courts of record, and says: "We agree entirely with the Supreme Court of Illinois in the opinion that the statute on its face as construed by the trial court is not repugnant to section 9 of article 2 of the constitution of that State, which guarantees to the accused party in every criminal prosecution a speedy trial by an impartial jury of the county or district in which the offense is alleged to have been committed, as this is substantially the provision of the constitution of the United States on which the petitioners now rely, it follows that even if their position as to the operation and effect of that constitution is correct the statute is not open to the objection which is made against it."

We come now to consider the objection that the defendant Spies was compelled by the court to be a witness against himself. He voluntarily offered himself a witness in his own behalf, and by so doing he became bound to submit himself to a proper cross-examination. The complaint is that he was required on cross-examination to state whether he had received a certain letter which was shown, purporting to have been written by Johann Most and addressed to him, and upon his saying that he had, the Court allowed the letter to be read in evidence against him. This, it is claimed was not proper cross-examination. It is not contended that the subject to which the cross-examination related was not pertinent to the issue to be tried, and whether a cross-examination must be confined to matters pertinent to the testimony in chief, or may be to the matter in issue is certainly a question of State law in the courts of the State and not of Federal law.

Something has been said in argument about an alleged unreasonable search and seizure of the papers and property of some of the defendants, and their use in evidence on the trial of the case. Special reference is made in this connection of the letter of Most, about which Spies was cross-examined, but we have not been referred to any part of the record in which it appears that objection was made in the trial court to the use of the evidence on that account. Such an objection as that, which is not suggested by the nature of the offered evidence, but depends upon the proof of an outside fact, should have been made on the trial. The defense should have proved that the Most letter was one of the letters illegally seized by the police, and should then have moved to exclude or oppose its admission, on the ground that it was obtained by such illegal seizure. This was not done, and therefore we can not consider the constitutional question to be introduced.

Upon the question of the special plea entered by General Butler that Spies and Fielden were aliens and had been deprived of their rights and immunities under existing treaty stipulations with Germany and England, the Court holds that no special plea was presented in the court below, nor any treaties having been cited in the court in substantiation of this claim, and as the court had not been able to find any such treaties, it, therefore, followed that it could take no cognizance of them, as it was a question outside the record of the case. Chief Justice Waite closed by saying:

"We are, therefore, of the opinion that no federal question has been presented warranting the interference of this court, and, therefore, we deny the writ."

CHICAGO, Nov. 3.—The decision of the Supreme Court was received at the jail at 11:45 and was immediately communicated to the condemned men, who received the news without the least outward showing of surprise. The relatives of all the prisoners visited them in the afternoon, and although apparently endeavoring to appear calm, all showed traces of the intense mental suffering they were enduring.

The police captains of the city have taken every possible precaution against any bomb-throwing. Each police station is patrolled by four officers, and any person who comes near is required to give an account of himself.

Captain Black, counsel for the Anarchists, said that the only thing to be done was to appeal to the Governor and this would be done at once.

CHICAGO, Nov. 4.—Public interest in the condemned Anarchists grows more and more intense as the day set for their execution approaches, and extraordinary precautions have been taken to properly guard the place of their confinement. Yesterday a petition to the Governor, which in reality amounts to a general plea for mercy, was signed by Spies, Fielden and Schwab, and it is believed that the others will not hold out for "liberty or death" much longer.

PRINCETON, Pa., Nov. 3.—It was reported yesterday that Thomas Owen, a center, who recently fell from a building in Honesdale, near this city, and broke his neck, told a fellow-workman that he was an Anarchist, that he came from Chicago, and that he threw a bomb at the Haymarket riot. The whole story is considered a hoax.

SPRINGFIELD, Ill., Nov. 5.—Governor Oglesby is busily engaged at the Executive mansion in examining the records of the case, the decisions of the Illinois and United States Supreme Court, newspaper editorials and reports of the public expressions of prominent men. He was interviewed yesterday upon the matter, but he refused to say a word.

Partners for Life.
St. Louis, Nov. 6.—Lawrence Barrett said in an interview Friday that the present arrangement between him and Edwin Booth was a life partnership. A friend of Barrett's says that Booth and Barrett will lease or build a theater in New York City, which will be devoted to the production of legitimate drama and become to the American metropolis what Irving's Lyceum is in London.

The Dairyman.
MANCHESTER, Ill., Nov. 5.—The National Butter, Cheese and Egg Association closed its sessions here Thursday. The following officers were elected: President, Jonathan Bigelow, of Massachusetts; Vice-President, J. F. Holtz, of Minnesota; Secretary and Treasurer, Colonel R. M. Linder, of Chicago. Hon. W. P. Quinn, of New York, was elected attorney for the association.

Death of Jenny Lind.
LONDON, Nov. 3.—Jenny Lind, the "Swedish Nightingale," quietly passed to rest yesterday in this city, at the age of 66 years. She first made her appearance in public as a singer in London in 1849, and in 1850 appeared in the United States under the auspices of P. T. Barnum.

Grain in Sight.
WASHINGTON, Nov. 8.—The amount of wheat in sight in this country was officially reported at 35,144,758 bushels, of corn at 7,516,089 bushels, and of oats at 6,523,437 bushels. A year ago the stock of wheat was 55,048,195 bushels, of corn 11,013,212 bushels, and of oats 5,559,495 bushels.

Hay Destroyed by Fire.
PORTAGE, Wis., Nov. 8.—Lewiston marsh, a few miles from here, was fired by a locomotive spark Sunday and thousands of tons of hay were destroyed. Hundreds of acres were burned over and many farmers lost their entire season's out of hay.

IOWA.
"Old Zion," the first brick Methodist church built in Iowa, located at Burlington, has recently been transformed into a theater.

The law granting State certificates of incorporation went into effect July 1, 1886, and since that time 567 certificates have been granted to State and 133 to foreign incorporators.

A. J. Graham, editor of the *Red Oak Independent*, was found dead in his office the other evening. A bottle labeled "fracture of acetone" was near. He bought the poison in the morning, telling the druggist he wanted it for a friend in the country for medicine. Temporary insanity was the cause.

The harness and saddlery house of Mueller & Nepper, in Sioux City, made an assignment the other day. Liabilities, \$11,000; assets, \$22,000.

The pharmaceutical certificate of L. J. Anderson, a druggist at Humboldt, was revoked recently because, during a two months' absence in Chicago, his store was run by an unregistered young man. Anderson can not engage in the drug business in Iowa again.

The State Supreme Court has decided that the law reorganizing the grand jury of the State is constitutional.

John Dany, at one time a well-to-do citizen of Le Mars, but for the past two years an inmate of the Plymouth County Poor-house, went to bed a few nights ago with a lighted pipe. The bed-clothes caught fire, and being feeble he was unable to help himself and was burned to death.

The German-American Savings Bank at Burlington has increased its capital stock from \$60,000 to \$100,000.

There are 297 Presbyterian Sunday-schools in the State, with an enrollment of 30,887 members.

The appointment is announced of George W. Ogilvie to be superintendent of the Des Moines & Northwestern railroad, known as the Fonda line, and L. E. Martin to be superintendent of the St. Louis, Des Moines & Northern, known as the Boone line.

Miss Martha Fairer, a white girl, whose parents move in good society, in Mason City, eloped a few days ago with Thomas Jefferson, a colored jockey. The young woman's family had renounced her.

Farmers near canning factories have realized twenty dollars per acre this year for the sweet corn they raised.

ILLINOIS.
The following rates of State tax for extension against the equalized assessment of all property in Illinois for the year 1887 have been determined upon: For general State purposes, three and nine-tenths mills on each dollar; for State school purposes, one and four-tenths mills on each dollar; aggregating five and three-tenths mills on each dollar.

Governor Ross, of New Mexico, has removed the cattle quarantine restrictions from Illinois, except Cook County.

The Soldiers' Home at Quincy has admitted 524 inmates, of whom 262 are natives and 262 foreigners. The foreigners are divided as follows: Germany, 110; Ireland, 95; England, 12, and Scotland, 10. Two hundred and fifty-six are married or have living children; 67 are widowers without children and 197 are single. The trades and professions number 63, and there are 151 farmers and 192 laborers.

A number of farmers in Pope county have occupied their lands for a quarter of a century were ousted a few days ago by ejectment suits brought by non-resident claimants.

An alleged incendiary fire destroyed the four ice houses of the Moline Ice Company late the other evening. Loss, \$4,500; no insurance.

Edgar Fitzgerald, a fifteen-year-old son of J. Fitzgerald, of Jefferson County, was thrown from a horse and almost instantly killed the other afternoon.

J. E. Eddy, proprietor of the City Hotel at Geneseo, shot himself dead a few days ago. He was nearly fifty years old and leaves a wife and family. Financial troubles were said to have been the cause of his act.

George Wolford, of Georgetown, who had been shamefully abusing and mistreating his wife, was taken out by a party of neighbors the other night, tied to a tree and given a thorough whipping. He was then turned over to the authorities and placed in jail.

William Gaffney and Samuel Carnahan, of Paris, were killed the other day by the caving in of a gravel bank.

William Wrightman, sixty years of age, died from neglect and starvation in Chicago a few nights ago.

Mrs. Schnaubelt, mother-in-law of Anarchist Schwab and mother of Rudolph Schnaubelt, the supposed bomb-thrower, reached Chicago the other day. She came alone from Germany.

WISCONSIN.
In the redistricting of the State the Legislature made one hundred and one assembly districts, whereas the constitution of Wisconsin says there shall not be more than one hundred. This fact was not discovered until the Governor had signed the law and the statesmen had taken care for their homes. The question now is whether it will be necessary to call a special session of the Legislature, weed out the obnoxious district and have the thing legal.

Governor Rusk has issued a formal order for the cleaning out of the immoral dens at Hurley, and promised the local authorities all the assistance needed.

A well-dressed young man named Frank Novotny recently swindled a number of his friends at La Crosse. He robbed his landlord and wheeled his best girl out of \$200.

SMARTING Sufficient to stop in five minutes the smarting, stinging pain of roo burns or scalds. It will stop the pain as soon as applied.

We Stirred the Town!

WE knew the \$16.00 Plush Wraps, the \$25.00 Seal Plush Sack, 42 inch; Satin lined and richly trimmed Astrachan Jackets, \$4.50 and \$5.50; English Cheek Tailor-made Jackets, \$4.50; Boucle Short Wraps with or without the tail trimmings, \$10, were unheard of prices, but we didn't expect such a rush of buyers the first week.

There are three examples: One lot of 25 Frieze Wraps, handsomely trimmed, \$10, \$12 and \$15, made to sell for \$20 and \$25. One lot of 10 Silk Circulars, \$8, made to sell for \$10. One lot of 13 Silk Circulars, \$20. This lot includes Circulars made to sell for \$23, \$28 and \$32. A very elegant garment for old and young ladies.

A heavy plaid cloth came Tuesday. A dozen different plaids, suitable for dresses or wrappers, 54 inch; worth \$1.25 for \$1. To tell the whole tale in a few words: You won't find them in any other store. If you should find them in one or two of the quieter stores the price will be \$1.25.

COTTON COMFORTABLES.

No shoddy in the filling—every scrap of it thoroughly cleaned cotton. Great variety of patterns. Double-bed size. Very good one for \$1, little better cover for \$1.25 and \$1.50. Satteen, one side turkey-red, \$2 and \$2.50. "Tuck-in" Comfortables, 2 yds. square. The good old fashioned size, covered with Turkey-red chintz, ornamental border, hand-quilted, \$3.

Blankets.—Not a bit too early to be thinking about them. It is a rare time for blanket buyers, too. 50 PAIR each 10-4 white blankets at 90c, and \$1.25. Surprising price, isn't it? They are not all wool. You see and feel only the cotton. A great deal of blanket for little of money.

A LITTLE FINER if you choose, 11-4, \$6, \$8, \$10 and \$12.

THE PRICES quoted give a fair idea of the money value in our blankets, but they no more than hint at the assortment and prices.

WE KNOW of no seller of Underwear in the city who either keeps so great a variety as we or gathers it with equal care as to quality. We will mention just one price. 1 Case Gents' Scarlet all wool Underwear, at 96c, worth \$1.25.

The children's department of the fair to be given by the Methodist ladies in December, is under the supervision of Miss May Breakey, and the army of little workers that congregate at her house every Saturday morning with work bag in hand is evidence sufficient that there will be no lack of pretty things on sale for the children and sold by the children. The list of articles to be on sale has not been given out, but there will be something besides dolls.

The chrysanthemum exhibition in the court house last Saturday makes the editor of the Adrian Press green with envy of Ann Arbor because Adrian people have not had such an exhibition. He acknowledges that he doesn't know what chrysanthemums are, but evidently has an idea that they are a new kind of animal pet imported from Australia which are all the rage, and that her lack of them is another evidence of Adrian's sleepiness. There is a good deal that can be learned in Ann Arbor if people will only come here.

Judge Beach, of Huron county, will be present in the circuit court on Nov. 22, and will sit on some of the most important cases that will come up at this term. Bucklin. The jury has been notified to be present on the 15th.

Probably the most excited man that has been in this city for a long time was Michael Pocal who arrived in this city Tuesday evening. He was to be married at 8 o'clock Wednesday morning to Miss Mary Armbruster of this city, and until he arrived here was not aware that our new law required a marriage license. He searched in vain for county clerk Howlett or his deputy until midnight, and was at it again at daybreak Wednesday. At last he found deputy clerk Brown, and the license was issued, but the "happy" groom had but two minutes to spare.

M. C. Sheehan was happily surprised by a number of his intimate friends who visited him last evening, and assisted in celebrating his 30th birthday anniversary. By a prearranged plan about forty couples met at the residence of Sed James, and after each had been masked and enveloped in a sheet and pillowcase, marched up State st. to Mr. Sheehan's residence. After a short time spent in a vain endeavor to find out who the visitors were, the whole party adjourned to the hall above where a lunch was spread and dancing began which continued until 2 p. m.

At the Unitarian church Sunday evening, the pastor answered the question as to whether it would be well for a young man starting out in life to make any place in his plans for the use of liquor. It was a temperance sermon of the calm, unimpassioned, convincing kind, full of illustration and facts. He gave twenty reasons why the young man shouldn't use liquor as a beverage: It does no good; it costs too much; the time wasted; it leads in the direction of low friendships; for sakes of mothers, sisters, and wives; influence on others; business reasons; injurious to physical health; harmful effect on the mind; weakens the will and dulls the conscience; hereditary influences; may lead to drunkenness.

Mr. Bryan goes to Detroit.

Horton B. Bryan went to Detroit last Monday to take a position in the business department of the Evening News. His connection with THE REGISTER as local editor ceased on the first anniversary of his coming to Ann Arbor to take that position. In his stay of one year in Ann Arbor, Mr. Bryan developed considerable of the talent of a good news gatherer. He was everywhere, and nothing escaped him. Very few could resist his smile and genial manner; the secrets would come out in spite of them. And whenever he made his appearance, people would immediately begin to tell all they knew that could possibly interest the public. His friends on his "beat" will miss him, but will be glad to learn that he has a good position in Detroit.

To my Friends and Numerous Customers.

Not having sufficient room in my old store on Huron-st, to make a fair and advantageous display of my large and varied stock of Holiday Goods, Jewelry, Glassware, Crockery, etc., I have opened a branch store on Ann-st, north side of court house, where I shall exhibit a beautiful stock of everything that is usually carried in bazaars, and give you better and greater facilities for careful selections. To see, come to the opening, November 1st. 672 F. STOFFLET.

Hello! Hello! Hello! 36!

The enterprising Druggist, Mr. H. J. Brown has taken the agency of Baxter's Lucky Star Cigar. Hereafter the lovers of a good smoke can be accommodated with a cigar for five cents that will prove, upon trial, superior to the ten cent cigars sold. The Lucky Star is pure Havana filler and guaranteed unflavored. H. J. BROWN, Sole Ag't. Ask for the Lucky Star, Only five cents

Goods Cheap!

There is no mistake about this. Our large increasing business is a big proof of this statement. Our store is not the largest in Ann Arbor; but you will always find it packed with customers from morning till night. We are giving the people more goods for the least amount of money than any Dry Goods House in the city. How do we know this? Our customers tell us so. They are posted and know where to find goods cheap. October was a very satisfactory month, and our Sales were immense. November with a little push will go a few thousands better. If the weather is favorable it can't be otherwise, we have the goods and our
