

THE ANN ARBOR REGISTER.

VOL. XIV. NO. 40.

ANN ARBOR, MICHIGAN, THURSDAY, OCTOBER 4, 1888.

WHOLE NO. 719.

ON THE CAMPUS.

Mr. McLaughlin is now the assistant professor of history.

Dr. John Abbot is the new assistant to Dr. Donald MacLean.

Librarian Davis returned to Ann Arbor, last Friday, from his foreign trip.

The S. C. A. gives its first social of the year tomorrow evening in the chapel.

Dr. Victor C. Vaughan spent the summer in Europe, but is now at his post.

The University Republican club will meet in the law lecture room tomorrow evening.

Dr. Sewall has leave of absence for 1888-9, and Dr. J. W. Warren, of Boston, will do his work.

Prof. Steers has returned from his tour in the eastern hemisphere, and will conduct the work in zoology.

Prof. Spalding's botanical laboratory has been improved by introducing a ventilating apparatus, and by raising the ceiling three feet.

Prof. Calvin Thomas, of Michigan University, has edited Goethe's "Torquato Tasso," for D. C. Heath & Co., to publish.

—Detroit Journal.

Erwin F. Smith, who did Mrs. Stowell's work during the last semester, is again with the department of agriculture in Washington working his report relative to yellows in peaches.

Prof. Langley will study in Germany, having a leave of absence for a year. L. L. Van Slyke, recently of Honolulu, is to give his course in general chemistry in the second semester.

Frank M. Sessions, of Ann Arbor, lit '88, is book-keeper for the Edison illuminating company in Detroit. Paul Perry, of Ann Arbor, and C. A. Read, of same class, are reporters on the Detroit Tribune. Louis Comstock, '88, is in Chicago with an electrical company.

The board of editors of the Bulletin, the Christian association organ, will organize tomorrow evening. E. E. Brown will probably be re-elected managing editor, but is now detained at home by the illness of his father. E. B. Conrad, of Ann Arbor, will probably be elected business manager.

Dr. H. Gibbes has volunteered to go to Florida to study yellow fever, and Dr. Huber, '87, would go with him as assistant. President Angell communicated this fact to President Cleveland last week. Dr. Gibbes was once in India, under the auspices of the English government, studying Asiatic cholera. He would like to go south now and make a few post-mortem examinations, and go again next year, when the disease is almost certain to break out, to make a more extended examination. He is now engaged in experiments with the tuberculous bacilli. He has already killed one monkey by inoculating it with tuberculous matter and thus causing it to have consumption. Another monkey and some guinea pigs now have the disease. He takes tuberculous matter from a human patient, causes it to develop germs by keeping it in blood serum at a certain temperature, and then by successive cultivations makes sure that he has the tuberculous bacilli alone. The doctor is not a firm believer in the germ theory of disease, and says there are cases of consumption in which the germ cannot be found.

CLOSE OF THE FAIR.

THE FOX HUNT FEATURE A FIZZLE, PURE AND SIMPLE.

Probably no Loss Financially.—Bad Weather.—Poor Races.—Prizes Awarded.

The fortieth annual fair of the Washtenaw agricultural and horticultural society which closed last Friday, was the most successful, as regards the quality of the exhibits shown, ever held by the society. In point of numbers the entries did not reach that of last year; but as an exhibit of fine products it was a long way ahead.—The weather during the entire week was as disagreeable as possible, rain and cold winds prevailing.—On this account the fair will not prove a very great success financially, although it is thought that the receipts will be just about equal to the expenses.—On Thursday and Friday much larger crowds were present than were expected, considering the bad weather.

There were several features of the week which were not quite up to the standard. The "fox hunt" was a fizzle, pure and simple. The hounds would not take the scent, and when they did get anywhere near the fox, he was drawn up out of reach by a wild cow-boy who rode about with a rope hitched to the fox during the entire farce.—In the speed department, some of the races were fairly contested, but all were trotted in time too slow to be very interesting. In fact the last race Friday was so slow that the judge got tired of waiting, and called the race off. One feature which has been a drawing card heretofore has been the trotting, but this year it amounted to nothing.

Thomas McVeigh, of Detroit, made an interesting and masterly address upon the Republican principles, on Thursday afternoon; Willard Stearns, of Adrian, who desires to try to fill Congressman Allen's shoes, did the same for the Democrats on Friday. Senator McDonald, of Indiana, was not here to assist Stearns' as advertised, and it was not strange that he was not, as it is said that the Democratic managers failed to even invite him.

THE CIRCUIT COURT.

October Term—Mrs. Whiting to Defend a Tramp.

Judge Kinne was called to Detroit on Tuesday, and hence no business was done on the first day.

Yesterday Arthur Powers, a young tramp from Ohio, was arraigned and pleaded guilty of breaking and entering a dwelling house. He tried to get released by promising to enlist in the regular army; but he will first serve two years in Ionia.

Mrs. Mary Whiting at last gets a chance to beat Prosecuting Attorney Norris, for which she has longed some time. She was appointed to defend Sid. Swick, who pleaded not guilty to the charge of larceny from a dwelling. His bail was fixed at \$500, in default of which he was sent to jail again.

Frank Wilson, tramp; larceny from dwelling; pleaded not guilty; will remain in jail; Charles Kline will defend him.

William Anderson, tramp; larceny from dwelling; Mr. Cramer appointed to defend him.

William Cook pleaded not guilty to the charge of rape.

In the foreclosure case of Jane R. Forbes vs. Fred L. Thompson et al., a decree was granted for \$697.79 for plaintiff.

Cooper vs. Cooper; chancery; ordered the order pro con be set aside, and the defendant be allowed to file his answer; complainant be allowed to amend his bill within ten days; the defendant to answer the amended bill within ten days after service.

Wm. Cook gave bail for \$300, and his case to occur Feb. 17, 1889.

This morning John Eisenbeiser and Louis Eisenbeiser were admitted to citizenship, and the court adjourned till Saturday, at 9 a. m.

THE UNIVERSITY OPENED.

Crowded Everywhere—Fine Prospects for a Large Attendance.

The usual briskness incident to the appearance of the students has been seen in Ann Arbor for several days. Monday was the day for the opening of the college year. Students have been pouring into the city steadily, and the wonder is among the several departments when it will cease. There is every indication that the number registered this fall will exceed 1700. The number registered on the first day was largely in excess of that on the first day last year. In the literary department the number of freshmen entered on Monday exceeded the number that entered by Dec. 1 of last year.

There is evidence of pleasant anticipation on all sides in the University circles; but it is mixed with anxiety on the part of those officials who must find accommodations for larger classes than were expected. It looks as though the legislature, like the husbandman of scriptural fame, will have to pull down and build larger. The dental department is already so overflowing that it may be necessary to turn the lecture-room into a work room, and have the lectures given in the medical building.

The fame of the law department is simply overwhelming its seating capacity.

In the medical department only 55 seniors were expected, but 70 already have entered; they are sure of 81, and the prospect is that it will run up to 90. There are 20 more entered in the medical department than at the same time last year. The freshman medical class is enormous.

Unquestionably many students will be slow in coming on account of the campaign and approaching election.

Senator Gorman Renominated.

The Democratic senatorial convention of Washtenaw and Monroe counties met in Milan Tuesday. Senator Gorman, of Chelsea, had the ropes set up so that he received 16 votes on the first ballot, and 17 on the second, out of 30. There was no bubbling, spontaneous joyousness in renominating him. On the contrary, there was plenty of half suppressed "kicking," especially among the young Democrats. This opposition was sternly repressed by the machine by methods that must be galling to an independent spirit.

Gorman was the whisky champion through thick and thin in the legislature at its last session, but the ground of opposition to him, Tuesday, was his action as chairman of the county convention in favoring the nomination of Lehman for prosecuting attorney; and there was also much said about his hostile action in the legislature to the Catholic church. He is said to have introduced a bill to regulate Catholic and other church property in Michigan, against which an enormous petition went in. It was denounced by the Catholics as an attempt "to revolutionize" instead of "to regulate."

The Democrats who were to represent Washtenaw in the convention are as follows: F. A. Howlett, N. E. Sutton, E. B. Norris, G. B. Greening, George Schwab, Eugene Donegan, L. J. Liesemer, T. D. Kearny, B. F. Watts, J. L. Duffy, Frank Joslyn, Alfred Davenport, Jacob Knapp, Henry Paul, J. O'Brien, N. Schmid, T. S. Flinn, and H. Burtis.

Professor Phillips, optician, will remain with Wm. Arnold until Oct. 13. No case too difficult to fit. All teeth free.

Cadillac People Welcomed.

Word was received yesterday that a delegation of citizens of Cadillac would arrive in Ann Arbor on the evening train. The T. & A. A. company, feeling grateful to Cadillac for assistance, had invited the common council and other citizens to take a ride to view the road. The Ann Arbor common council met yesterday and appointed a committee of 20 citizens to meet the Cadillac people and to show them every attention. When the train arrived, there were found to be 18 gentlemen and 15 ladies in the Cadillac party, and they were welcomed in the hospitable manner. Among them are Perry F. Powers, editor of the Cadillac News and Express; J. R. Bishop; W. H. Hutchinson, clerk of the city; Judge Green, superintendent of the Cadillac Water Company; Mr. Teed, city surveyor; E. E. Haskins, city attorney; John G. Mosser, Fred Lentz, and Joseph S. Day. This morning the whole party was taken out in hacks about the city and were shown the University, when they left on the forenoon train for Toledo.

COLD ROOM AND POLITICS.

They Prevented Much Business by the Common Council.—Special Meeting Tonight.

There was a full attendance of city fathers at the common council meeting Monday evening, but the room was cold and there was a Republican political meeting in the rink; hence there was an eagerness to get away. The first motion carried provided for a special meeting to-night.

A BEAUTIFUL DRIVE.

A communication from Spencer D. Lennon and George Weeks, of Ann Arbor, was read, in which they asked that a street be opened and fenced by the city across their land on section 21 in the township of Ann Arbor, during the fall of 1889, and to build a bridge over a small creek or ravine, and they offered to deed the right of way.

Ald. Allmendinger wanted to put off the consideration of the motion till their next meeting, although he was favorable to the scheme. Mr. Kearns objected to the postponement. Mr. Herz thought it could be postponed three days, if the Second-st opening could be postponed two years. The proposition was received, and the street committee was ordered to report at the next meeting about the probable expense of making the street and bridge.

FINANCES.

Ald. Kearns moved that the proposition of Mr. Lennon and Mr. Weeks be accepted and adopted. He claimed that the proposition was a liberal one, and that it would make a beautiful drive.

CITY MARSHAL'S REPORT.

The whole number of arrests during September was 7, of which 6 were on the charge of drunkenness and one of fast driving.

President Adams, of Cornell, has set his foot right down. In his annual address, Sept. 27, he told the students that any one found guilty of intoxication, gambling, gross immorality, or of any interference with the personal liberty of any student, will be removed from the university. He said: "If any Freshman here thinks the pride of the Sophomore class should be humbled, let him beware. If any Sophomore intends to lay hands on a Freshman I invite him without delay to get letters of introduction to some institution in need of more students. Should any student find life too tame here, if he will come to me I will recommend him to a lively field. Cornell is not a reform school. The reformatory in this part of the State is at Elmira." He expressed doubts as to whether any good comes of class organizations, but favored athletics in the University.

THE LOG CABINS of America have been birthplaces of some of the greatest men. Lincoln, Grant, Sheridan, first saw the light of day through the chinks of a Log Cabin. Warner's Log Cabin Sarsaparilla also originated in a Log Cabin, stands prominent among the blood purifiers of today as Warner's "Tippicano" does as a stomach tonic.

Carlotta Patti is teaching singing in Paris.

Eczema, Itchy, Scaly, Skin Tortures.
The simple application of "SWAYNE'S OINTMENT," without any internal medicine, will cure any case of Tetter, Salt Rheum, Ringworm, Piles, Pimples, Eczema all Scaly, Itchy Skin Eruptions; no matter how obstinate or long standing. It is potent, effective, and costs but a trifle.

John Tod, a Scotchman who has just published in Edinburgh a book entitled "Bits About America," says that American women have great power of expressing what they mean.

SOME DOCTORS

honesty admit that they can't cure Rheumatism and Neuralgia. Others say they can—but don't. Athlophoros says nothing—but cures. That's the secret of its success. Years of trial have proved it to be a quick, safe, sure cure.

Concord, N. H., Sept. 3, 1887.
In my own family Athlophoros was used as a first remedy for those having suffered from rheumatism for years, and having been treated for this disease by different physicians in the States and Massachusetts, without even temporary relief. Upon my recommendation scores of people have used this remedy with the same results claimed for it by Dr. W. H. Williams.

Dubuque, Iowa, Jan. 3, 1888.
Athlophoros has completely cured me of nervous headache, and I feel thankful for all the good it has done me.

FURY OF THE ELEMENTS.

NEW YORK, Sept. 27.—A dispatch to the Herald from Valparaiso, Chile, dated September 15, says: A fearful calamity occurred here on the 11th inst. An artificial pond, 300 feet above the level of the city, burst, flooding the valley Yungay and several streets. The flood came down in an irresistible torrent, sweeping everything before it and bringing down rocks and trees of wood which it had stimulated needs revision, it is not wiser and more patriotic to revise it with a careful regard to the interest of protection than with the purpose of lessening its protective features? For myself, I do not hate to declare that from long observation I am an unwavering friend of the protective system. To the men who earn their bread by the sweat of their brow the difference between the two systems is that of narrowing chances on the one hand and expanding opportunities on the other. Free trade would open America to competition with the whole world. Protection reserves America for Americans, native and adopted."

In closing Mr. Morton says: "It is for the American people to devote and cultivate the country to the best interests of the providence and they have fallen heirs. They should adopt a policy which looks steadily to the greatest good. With no spirit of narrowness toward other peoples, but rather in the highest interest of all, they should find under their own flag a field of untold advance in the direction of the improvement, the prosperity and the happiness of man."

LEVI P. MORTON'S LETTER.

He Accepts the Republican Nomination for Vice-President.

NEW YORK, Oct. 3.—Mr. Morton's letter accepting the Republican nomination for the Vice-Presidency was made public yesterday. He sees but one real issue in the campaign, and that is the tariff, and he thoroughly and heartily commits himself to the policy marked out by the National platform. He says:

"The Republican platform recognizes the necessity of reducing the revenue, but declares that this reduction must not be made at the expense of American industries and of American labor. The American people have enjoyed the protective system for a long period, and the result is that for more than a quarter of a century they have realized a degree of industrial and financial prosperity unprecedented in this country and never equalled in any other. Admitting that the present tariff by large of time and the large expansion of trade which it has stimulated needs revision, it is not wiser and more patriotic to revise it with a careful regard to the interest of protection than with the purpose of lessening its protective features? For myself, I do not hate to declare that from long observation I am an unwavering friend of the protective system. To the men who earn their bread by the sweat of their brow the difference between the two systems is that of narrowing chances on the one hand and expanding opportunities on the other. Free trade would open America to competition with the whole world. Protection reserves America for Americans, native and adopted."

In closing Mr. Morton says: "It is for the American people to devote and cultivate the country to the best interests of the providence and they have fallen heirs. They should adopt a policy which looks steadily to the greatest good. With no spirit of narrowness toward other peoples, but rather in the highest interest of all, they should find under their own flag a field of untold advance in the direction of the improvement, the prosperity and the happiness of man."

CORN IS KING.

This Year's Crop the Largest Ever Raised.—The Entire Agricultural Product of the Country Valued at \$100,000,000 More Than That of Last Year.

NEW YORK, Sept. 30.—R. G. Dun & Co.'s weekly review of trade says: Doubt about the corn crop has vanished. Estimates vary either way from 2,015,000,000 bushels, but it is doubtless the largest crop ever raised. The increase of more than 550,000,000 bushels in this crop far outweighs in value any loss in the yield of wheat, and also any possible loss in the yield of cotton, but the yield of oats is also the largest on record, and the yield of hay and potatoes excellent. It is safe to say that this year's agricultural products will represent, at least, \$100,000,000 more money than last year's, at average prices for both. In view of this great gain in the actual production of wealth, it is natural to expect increased activity in business and manufactures, but as yet the improvement has been but moderate.

The fact that failures continue in large numbers for the season is not to be overlooked, the September reports showing about 770 in the United States against 664 last year. Business failures during the last seven days number for the United States, 186; Canada, 34; total, 220; compared with 223 last week and 197 for the corresponding week of 1887.

EXCITEMENT ON CHANGE.

B. P. Hutchinson, the Great Speculator, Averts a Panic.

CHICAGO, Oct. 2.—Two failures were reported on the Board of Trade yesterday as the result of the recent wheat corner. The unfortunate were Frank Clifton & Co. and S. C. Orr. It was in the power of "Old Hatch" to ruin one-third of the traders by advancing December wheat to \$1.25, and the question was would he do so or reletent? The wildest tumult existed in the pit, and it is said the old man yielded to the entreaty of his son Charlie, and sold out 7,000,000 bushels, thereby averting the threatened disaster.

THE YELLOW FEVER.

The Progress of the Plague in Florida Evidently Checked.

JACKSONVILLE, Fla., Oct. 3.—The prospect is a bright one. For the twenty-four hours ending at 6 p.m. not one death from yellow fever has been reported. This is the first instance of a like record in many weeks. The number of new cases yesterday was ninety-eight, of which thirty-two were white and thirty-six colored. Total cases to date, 2,823; total deaths, 264.

WILL NOT Be Permitted to Come Ashore.

SAN FRANCISCO, Oct. 3.—Judges Hoffman, of the United States District Court, has refused to issue any more writs of habeas corpus to Chinese who arrived by the steamer City of New York Saturday. There are 30,776 return certificates issued at this port still outstanding. The several hundred Chinese arriving by the Belvoir, due to day, will not be allowed to land under the new law.

A Strike Ordered.

CHICAGO, Oct. 3.—The North side street car conductors and drivers decided at 4 o'clock this morning to go out on strike next Saturday morning. The vote by which a strike was decided upon was 400 to 7. The grievances of the men are twofold. They oppose the set car system and demand increased wages.

New York Clearing-Houses.

NEW YORK, Oct. 3.—The exchanges of the clearing house for the year ended October 1, 1888, amounted to \$30,883,689,609.21; balances same time, \$1,570,198,527; total transactions, \$83,493,885,136.99; total transactions since organization (thirty-five years), \$831,133,273,210.16.

Business Failures in Nine Months.

NEW YORK, Oct. 3.—During the nine months ended September 30 last there were 7,550 business failures in the United States, with liabilities of over \$90,000,000 as against 6,850 failures and \$128,000,000 of liabilities in the same period of 1887.

End of a Long and Useful Career.

AUGUSTA, Me., Sept. 30.—Russell Eaton, aged 88 years, the oldest journalist in Maine, founder of the Kennebec Journal, president of the Kennebec Savings Bank and formerly owner of the Maine Farmer, is dead.

A Farmer Robbed.

TOLDO, O., Sept. 29.—A farmer named Miller from Chesaning, Mich., who was going to Vernon, O., with his family and \$900, the proceeds of the sale of his farm, was swindled out of the entire sum by a couple of sharpers in this city yesterday.

Damaged by Frost.

DANVILLE, Va., Oct. 2.—The frosts on Friday and Saturday nights have greatly damaged the Virginia tobacco crop. About 60 per cent of the crop is still outstanding, all of which has suffered severe injuries, much of it being utterly ruined.

Twenty-Three Lives Lost.

NEW YORK, Oct. 3.—Disasters report the collision off Pernambuco of the steamers Earl Wemyss and Ardenchapel, and the sinking of the former, by which twenty-three lives were lost.

Snow in Pennsylvania.

WILKESBURG, Pa., Oct. 3.—The mountains between here and White Haven are covered with snow, which has been falling several hours.

W. M. CAMPBELL,
M. J. HOWE,
G. H. COLE,
J. W. MORRIS,
FRED. VOGEL.

The Detroit Tribune publishes the names of 18 veteran soldiers all employed in the mail service in Michigan, who have been discharged by this administration—all claimed to be experienced and faithful men, but men who would not desert the time-honored principles for which they fought in the life of this Union. That is civil service reform as Cleveland & Co. transact it.

The following table shows the number of private pension bills vetoed by the respective presidents since Lincoln, with the percentage of such bills to the whole number acted on:

Vetoed.	Per cent.
Lincoln.....	0
Johnson.....	0
Grant (eight years)...	8
Garfield.....	0
Arthur.....	0
Cleveland.....	175
	13.06

Of Grant's eight vetoes five were in the interest of the beneficiaries. Cleveland, in addition to these direct vetoes, disapproved of 156 bills without returning, and killed one by a pocket veto; total 281, or 29.61 per cent. disapproved; some of them with ribald and cruel sneers. And yet he poses in official reports as the soldier's friend!

BOB FRAZER'S Irish enthusiasm has counted well on the numerous occasions in which he has addressed Republican meetings in the east. At a big meeting in New York recently he told them why an Irishman is a Republican, in a way that convinced his hearers that there was a good reason for it. He said.

"I am a Republican, because I am for a protective tariff. (Applause.) I am for a protective tariff, because I am an American citizen. (Cheers.) I am for a protective tariff, because I believe that it benefits the American working-man and all connected with him. (Cheers.) I stand by the next Governor of New York tonight, and I congratulate the Republicans of New York that they have at the head of their ticket a man brave enough to face every issue. (Loud applause.) God hates a coward and so do the people of New York and the people of the country. (Cheers.) I stand here the

son of an Irish immigrant to advocate the cause of the Republican party—the son of a man who came here fleeing from the oppression of England. He taught me that the country which gave him the privilege of earning a home and living for his wife and children had a right to my allegiance. I don't know what in the name of God makes any Irishman a Democrat. The London Times has said that the Irish people were of no use at home to England, and that the only use they could be put to was to send them to America to vote the Democratic ticket. (Cheers and laughter.) I'd have Irishmen look back upon their own country's history before the Union of England and Ireland. Free trade drove every manufacturer from Ireland and has made it the panoply nation of the earth. Where does she get her help from in distress? From free-trade England? No. She knocks at the door of protection America. (Applause, culminating in three cheers for the man from Michigan.)

The American market is the best in the world. England and the South have gone into partnership to destroy it. England and the South united in 1861 and the South put free trade into its constitution. They tried to drive free trade down our throats with the bayonet. (Great cheering) The alliance of 1861 met its defeat at the hands of the Union army (cheers) and the same alliance of 1888 will meet a similar fate at the hands of free, unpurchased voters of America. (Loud cheering) We whipped the combination in 1865 and we will whip it again in 1888." (Three more cheers for the Michigan man.)

BEHIND THE DINNER PAUL."

It has been well said that the Republican forces this year fight behind the dinner pail. The men who work for wages understand this; the country has been turned into a debating club, and the tariff is the bone of contention. Never have the British influences been brought to bear more thoroughly and systematically, and the Democracy more absolutely united on breaking down our protective system; and never have the Republicans taken a more decided stand, under the genius of that successor of Henry Clay, the gallant McKinley, for the system of protection to American industries. The question is, Shall the dinner pails be empty?

It is the system which Henry Clay and Horace Greeley demonstrated to be the one that would start industry into life. It brought the farmer and manufacturer closer and closer together, relieving the farming land of its pressure, thus increasing wages and the demand for the produce of the farmer. It not only relieved farmers and farm laborers of competition, and gave an ever increasing home market for farm produce at high prices, but it saved to the consumer the cost of transportation by thus putting the manufacturing establishment right down by the side of the farmer.

This system made it possible for thousands to turn aside from agriculture and engage in other pursuits. It brought bread and butter and more of it to the laboring men; and the result of the election will be decided by the men who carry the dinner pails.

The free traders who deny that protection raises wages love to compare Germany, a "protection" country, and England, a "free trade" country. Free trade England, they say, pays higher wages than protection Germany. How is this? But they fail to compare the two countries as to poverty. The Chicago Tribune says that 3,000,000 women and girls in England work for such low wages that "one might suppose they worked for amusement rather than for a livelihood." Half the working-class families in England are partly maintained by women. Surely where there is so much distressing, grinding poverty as there is in free trade England, it doesn't pay to compare rates of wages.

There is this to be said of Germany, however, that her protective system is young. The policy was adopted in 1870. The Nation, of New York, admitted, March 24, 1887, that this system enlarged the opportunity for labor in Germany. In 1883, there were 207,577 men engaged in mining black coal in Germany as compared with 170,509 in 1879. The copper mines, furnaces, foundries, and other branches of industry showed a like gratifying increase. Of course this had the tendency to raise the wages, and such an admission coming from the most elegant free trade journal in the United States, is significant to say the least.

OPINION OF THREE CANDIDATES.

"THE NEGRO IS A PROLIFIC ANIMAL." Thurman's speech at Port Huron.

"THE TIME WILL NEVER COME UNTIL GABRIEL BLOWS HIS TRUMPET THAT THE NEGRO VOTER IN THE SOUTH WILL BE COUNTED."—The Rev. John A. Brooks, Prohibition Candidate for Vice-President.

"NO MAN'S WAGES SHOULD BE SO LOW THAT HE CANNOT MAKE PROVISIONS IN HIS DAYS OF VIGOR FOR THE INCAPACITY OF ACCIDENT OR THE FEARENESS OF OLD AGE."—Benjamin Harrison.

REPUBLICAN SUCCESS in New York is greatly increased by the promised support of the United Labor party. That party has nominated a full state ticket except for the office of Governor, for which position they will support Warden Miller.

JASPER B. WORTLEY, of Ypsilanti, was nominated by acclamation, Tuesday, in Saline, as the Republican candidate for representative from the Second district of Washtenaw county.

LITERARY NOTES.

The October Century closes the 36th volume and 18th year of that periodical. The opening illustrated article of the number is a paper by Richard Jeffries, on "An English Deer Park," with illustrations by Alfred Parsons and Bryan Hook. Theodore Roosevelt closes his Ranch series with an anecdotal paper on "Frontier Types," the text being expanded by a number of Remington's studies of Western character and incidents. Another illustrated article is on "American Machine Cannon and Dynamite Guns." But to most readers the most interesting and important illustrated article of the number will doubtless be George Kennan's description of "Tomsk forwarding Prison," in his series on the Siberian Exile system.

Orange Judd, who was the builder and for thirty years the editor of the old American Agriculturist, and for four years past of the Prairie Farmer, is now with his sons publishing a first-class weekly weekly journal, viz., the Orange Judd Farmer, adapted to both country and village life, out-door and in-door. He invites all of his former readers, and any others, to send for a free sample copy, to Orange Judd Farmer Co., Chicago, Ills.

Scribner's Magazine for October is notable for the varied interest of its contents and the eminence of its contributors in their special fields of work, among them being Lester Wallack, the Hon. Hugh McCulloch, Robert Louis Stevenson, Professor Arthur T. Hadley, and H. Bayesen. The Railway series (which meets with increasing success and the heartiest popular approval) is continued with a discussion of "The Railroad in its Business Relations" by Prof. Arthur T. Hadley, of Yale, ex-Commissioner of Labor Statistics in Connecticut, and author of the standard work on "Railroad Transportation: its History and its Laws."

Discussion of social and political questions, natural history and human science, predominate in the October number of "The Popular Science Monthly." In the first article Prof. E. D. Cope considers, from a strictly philosophical point of view, "The Relation of the Sexes to Government," drawing his argument against woman suffrage from its tendency to disturb the natural relations of the sexes. In "A Living Mystery" Grant Allen illustrates the whole process of birth and reproduction from the life history of a pea. Prof. W. K. Brooks concludes his interesting though somewhat technical paper, which is made clearer by fitting illustrations, on "The Growth of Jelly-Fishes. These are only a part of the many valuable articles of this number. New York: D. Appleton & Co.

The October Forum contains a review of Tolstoi's remarkable career and writings with especial reference to the religious opinions and teachings, by Archdeacon Farrar. He writes with profound respect for Tolstoi's unselfish life, but concludes that his is not the proper interpretation of Christ's teaching. The essay contains a sketch of Tolstoi's life, a description of his present mode of living, and a review of his great novels. Another essay on a literary subject in this number is the British critic, Edmund Gosse, an answer to the question, "Has America produced a poet?" With words of praise for Longfellow, Bryant, Emerson, and Poe (especially the last two) are severe criticisms of Lanier and other American writers and a general review of our poetic literature.

Pittsfield.

Miss Annie Judson, who taught in the Stone school-house last winter, has again resumed her duties as teacher.

Miss Emma R. Kempf, teacher of the school in the Mills district, gives the following names of pupils who were neither tardy nor absent during the month of September: Bertha Huss, John Huss, Edwin Kempf, Laura Mills, Genievee Mills.

Patti will give European concerts in January and February and then start again for Buenos Ayres.

The Clinical Rooms of this Department are now open for the reception of those who desire to avail themselves of the opportunity of the service here rendered.

Appointments for the preservation of the teeth, treatment for diseases of the mouth, and the insertion of artificial teeth, will receive prompt and careful attention, under the direct and personal supervision of the Professor in charge.

Charges will be made to cover the expense of material used.

Extraction and treatment free.

The Rooms will be open for the reception of those desiring attention each week day, except Saturday, from 1:30 P. M. till 4 P. M.

Early applicants will secure the more prompt service.

Among those entering the University this week from this city were Alex. Hardy to the literary course, and James C. Fuller to the pharmacy course.

There were crowds of people out to hear Fred Douglass Friday evening, and also Tuesday evening to hear Willard Stearns. The political pot is boiling for sure now.

Dr. McCorkle greatly surprised his congregation, last Sunday, by offering his resignation as pastor of the Presbyterian church, on account of a lack of harmony between himself and a part of the session. On Monday at a church meeting, the congregation very unanimously voted in requesting him to withdraw his resignation and pledging to stand by him, session or no session.

Manchester.

Jerry Van Giesen died Sept. 29, in Brooklyn. He was a former Bridgewater boy, and a brother of Thos. Van Giesen of that town. His remains were deposited in the vault at Manchester, awaiting burial in the Center cemetery.

Martin Dewey died, Oct. 1, of Bright's disease. He has been a resident of Bridgewater for 40 years. He was a kind parent, a genial companion, and a highly respected citizen. He leaves a wife, two children, and an adopted son to mourn his loss.

A serious and perhaps fatal accident occurred near Iron Creek in this town on the 30th. John Curry, a boy about fifteen years of age, was hunting with a companion who set his gun down, when the trigger was caught by a twig, discharging the gun, the contents entering the cheek of young Curry, knocking out two teeth and cutting his tongue nearly off.

As the ball cannot be found, it is supposed to be in his face somewhere. He is at present in a critical condition.

Whaley keeps on improving his premises. He has recently built a large storage room and hopes to be able to handle all the cider apples which may come.

On Saturday last a few of the Democratic faithful went to Moorville to help raise a hickory and hear Babbitt, Manly and Lehman expound Democratic law. Lehman alone came. The burden of his story consisted in his having little or no education, while his opponent is college bred. This sally appeared to please the Democracy hugely. The hickory did not go up to suit and was deferred until after the speech.

SENATE.

WASHINGTON, Sept. 27.—In the Senate yesterday the question of establishing inquiries under National authority and the tariff question were discussed. Retaliation measures were also considered. The name of John H. Oberly, of Illinois, to be Commissioner of Indian Affairs, vice John D. Atkins, resigned, was received from the President.

WASHINGTON, Sept. 28.—Senator Chandler's resolution providing for an inquiry into the last Louisiana election involving the choice of United States Senators was the subject of a bitter debate in the Senate yesterday between Senators Spooner (Wis.), Chandler (N. H.) and Coke (Tex.). Adjourned to Monday next.

WASHINGTON, Oct. 2.—In the Senate yesterday a resolution was offered in regard to the circular of General Bonet directing the discharge of Republican employees from the United States arsenals, stating that under it honorably-discharged soldiers of the Union army and widows and daughters of soldiers had been discharged. A message was received from the President announcing his approval of the Chinese Exclusion bill, but favoring the admission of Chinamen en route and the feeling among the men who are thrown out of employment is very bitter against them. The mill will not be rebuilt.

A TOWN WIPE OUT.

Fire Visits the Village of Romeo, Wis., and Leaves but Four Buildings Standing in the Place.

SPENCER, Wis., Sept. 30.—The small hamlet of Romeo, three miles north of here, has suffered a repetition of the disastrous fire of 1886. The large saw-mill, 100,000 feet of lumber, boarding houses, stores, barns, blacksmith-shop and dwelling houses were totally consumed. Only four buildings are left standing and the loss to Mr. Vanhoosear, who owned the property, is in the neighborhood of \$135,000, with some insurance. The fire was undoubtedly the work of incendiaries, and the feeling among the men who are thrown out of employment is very bitter against them. The mill will not be rebuilt.

An Exciting Bridal Tour.

NORTH EASTON, Mass., Sept. 29.—At the fair grounds Thursday afternoon Prof. Allen made a balloon ascension accompanied by Mr. and Mrs. Edward T. Davis, who were married in the basket just before the ascension. The balloon landed in a cedar swamp near Easton last evening. It was dragged across the swamp for nearly two miles, the party being obliged to cling to the ropes in order to keep out of the water. The drag rope was finally caught and made fast to a tree and the party safely landed.

Robbers Wreck a Train.

MEXICO, Mo., Oct. 2.—A supposed attempt was made to rob the Wabash train bound west at 2 o'clock a. m. at a point about two miles west of here. The entire train was wrecked and thrown into the ditch, and upward of twenty people are reported hurt, though so far as known there were no fatalities. Attendants have been dispatched to the scene of the wreck to care for the injured passengers.

Snow in Vermont.

BRATTLEBORO, Vt., Oct. 2.—Southern Vermont hills are white with snow. It has been the coldest September here for many years. At Wilmington the mercury fell to 30 degrees above Sunday. Considerable damage has been done to corn and fruit. Snow has fallen at Montpelier and Springfield.

Sixteen Lives Lost.

ST. PETERSBURG, Sept. 30.—Sixteen persons perished in the fire at Cronstadt Thursday. The building destroyed was a lofty wooden tenement. The staircase was burned away and a number of the inmates leaped from the windows to the stony street to escape the flames and were mortally injured.

Snow in Pennsylvania.

BRADFORD, Pa., Sept. 30.—The first snow-storm of the season visited this valley Friday night. At Lafayette Corners, the highest point in McKean County, a howling snow-storm was in progress at 10 o'clock. Snow also fell at Colegrove and other points. No snow fell here, but the weather is freezing cold.

Falling Off in the Seal Catch.

VIRGINIA, B. C., Sept. 30.—The catch of the sealing fleet this season is 19,038 skins, a falling off from last year of 14,762 skins, due to rough weather and the feeling regarding the Behring sea. The value of the catch this year is less than last by nearly \$75,000.

The Old, Old Story.

SPRINGFIELD, U. T., Oct. 1.—A little son of Robert Kirkman, of this place, while playing with a gun on Saturday accidentally discharged the weapon, killing his little sister and a daughter of Charles Bradford, aged 3 years.

Pitcher Gets Seven Years.

MONTRÉAL, Can., Oct. 1.—C. A. Pitcher, the defaulter teller of the Union Bank of Providence, R. I., was on Saturday sentenced to seven years' imprisonment on a charge of bringing stolen money into Canada.

Murdered by a Brute.

WHEELING, W. Va., Oct. 1.—Louis Hildebrand, of this city, a laborer, went home drunk yesterday, and when his wife told him there was nothing to eat in the house he shot her dead.

Children

often need some safe cathartic and tonic to avert approaching sickness or to relieve colic, headache, sick stomach, indigestion, dysentery and the complaints incident to childhood. Let the children take Simmons Liver Regulator and keep well. It is purely vegetable, not unpleasant to the taste and safe to take alone or in connection with other medicine.

A Merchant's Opinion.

Mr. B. F. Nourse, General Western Agent Royal Baking Powder Co., writes: "I have never found so great results from physician's prescriptions and attendance upon our children, as I have after a few days' use of Papillon (extract of flax) Skin Cure. I cannot describe to you medically what it has done for us, but can say that years of treatment have not accomplished what Papillon has done after a few applications." Large bottles only \$1.00, at Eberbach & Son's Drug Store.

Mme. de Valsayre, the leading champion of women's rights in Paris, has turned her energies to influencing the ladies, tailors in favor of the divided skirts. She makes little progress.

What Am I To Do?

The symptoms of Biliousness are unhappily too well known. They differ in different individuals to some extent. A tilious man is seldom a breakfast eater. Too frequently, also, he has an excellent appetite for liquors, but none for solids, of a morning. His tongue will hardly bear inspection at any time; if it is not white and furrowed, it is rough, at all events.

The digestive system is wholly out of order and Diarrhea or Constipation may be a symptom, or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this, if not effect a cure, try Green's August Flower; it costs but a trifling sum.

Queen Natalie is mentioned as gorgeously handsome, the owner of splendid black hair inclined to curl in rich waves, splendid dark eyes and beautiful teeth, skin at regular features.

What is Said About it.

There is no medicine which has been offered to the people of the past fifty years that has attained the popularity of Pomery's Plaster. It is an external Remedy that relieves at once Rheumatism, Neuralgia, Headache, Sciatica, etc., which do not need a doctor, must be attended to, and is so simple and harmless that anybody, old or young, can use it. As a guarantee of their worth, physicians everywhere recommend them and in many instances they use them in their own practice. They are an indispensable household remedy, and no family should be without them. For Sale by H. J. Brown Dist. Agt. for Ann Arbor.

Cricket is growing in popularity among women. They are making very creditable scores.

PILLES: PILES! Itching Piles.

SYMPOMS—Moisture; intense itching and stinging; most at right; worse by scratching. If allowed to continue, tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail for 50 cents. Dr. Swayne & Son, Philadelphia.

The young people's society of the Congregational church has W. L. Page for president; Miss Alice Damon for vice president; and Miss Kate Jacobs for secretary.

A flock of wild geese settled down in W. E. Boyden's wheat field in Webster, and Mr. Boyden secured eight of them, — a haul that makes hunters around here green with envy.

Mrs. L. L. VanSlyke and Miss Martha A. Tenney have been added to the school of music corps of teachers. Prof. R. H. Kempf has been tendered a position as teacher in the school.

Judge Kinne, Prof. Winchell, and C. H. Worden, were subpoenaed to appear Tuesday in the United States court in Detroit in the case of the United States against Charles Livingston.

Southerland, the barber, has sold his lot, corner of Huron and First-st., to Mack & Schmid, for \$2250. Mack & Schmid purchased the land on which the capsules stood, for \$755.

The school board Saturday evening, authorized the appointment of two new teachers for the high school, and ordered the Third ward school to be kept closed another week on account of scarlet fever.

The students' bible class at the Unitarian church opens next Sunday, Oct. 7, at 12 m., in the auditorium of the church. A very rich year of work has been planned on "Old Testament history, literature and religion."

Three new classes have been formed in the high school, imposing more work upon some of the teachers. Herbert Frost, a graduate of the high school, and a member of '89 in U. M., has been engaged to teach Latin.

St. Andrews' church has bought of Mrs. Matthews the property on corner of Bowery and Division-sts, and will probably erect a dwelling for the janitor. It may finally be the site of a home for the aged poor of the parish.

A. J. Sawyer and J. F. Lawrence spoke at Camp's Corners, Ann Arbor township, Tuesday, at a pole-raising. With George S. Wheeler, the candidate for judge of probate, they will speak at Whitmore Lake, Saturday, 7:30 p.m.

Mr. Toms, the florist, says that the most needed street-opening at present is Third-st west, from Washington to Huron. It would unite the Second and Third wards from south of Second to north of Third without crossing the Toledo railroad track twice.

Silas Tolbert, colored; Justice Pond; Sept. 27; Tolbert was a disorderly person; Detroit house of correction 65 days. It was his third time before Justice Pond. He is a farm laborer, and fills up when he comes to town. He raised a disturbance on the fair grounds, and was put out.

Rev. J. T. Sunderland has just completed his tenth year, with the Unitarian church in this city. Next Sunday morning he will preach a sermon appropriate to the occasion, on "Ten years of work in Ann Arbor." In the evening there will be a meeting of the young people of the congregation and students in sympathy with liberal thought, to plan for religious work among the young for the winter.

Rev. J. W. Bradshaw, of Galesburg, Ill., the minister chosen to succeed Rev. W. H. Ryder, of the Congregational church, has accepted the call and rented Dr. Wilson's house on S. Division-st. He will commence his labors in Ann Arbor the first Sabbath in November. He is an able preacher and a pleasant and social gentleman, about 40 years of age. He can speak eloquently without notes. He has a wife and three children.

John B. Dow, of Ann Arbor, died Sunday morning, of pneumonia, probably contracted during fair time as he tended the gate. He was 60 years old, an old resident of the city, and has served as alderman of the Third ward. He was street commissioner at the time of his death.

J. D. Stimson & Son, Tuesday morning, were surprised by a new wood walk in front of their store an Ann-st. The old worn-out walk was in its place at 10:30 of the preceding evening; hence the new walk was laid in the night. Did the owners of the block want to evade an ordinance?

Rev. Mr. Pope, formerly of Ann Arbor, made some charges detrimental to the character of Rev. T. F. Hildreth, but the latter was acquitted. Now Hildreth is charged with immorality in Cleveland where he is preaching in the Lorain-st. E. church, and has been allowed to withdraw from the church.

Julia E. Van Buren, of Milan, wants a divorce from Martin F. Van Buren, to whom she was married in 1871. They lived together 14 years and had one child. Van Buren is a physician now said to be practicing in Tacoma, Washington Territory. Mrs. Van Buren claims that he deserted her in January, 1886, when they were living in Detroit.

W. H. Hamilton, on his return trip from Boston, last Thursday, made a Republican speech at Rodman, Jefferson county, N. Y., to an audience of 1,000. There is great enthusiasm for Harrison and Morton in that county. A canvass has been made, and it is known that the county will poll 1500 more Republican votes than it did four years ago.

An entertainment was given last Friday evening, for the benefit of St. Thomas school, to a large audience. J. E. Harkins, George Parker, and others, did some "funny business," even deluding the people into thinking that they were actually fighting. Miss Hoban, the Misses Duffy, Miss Killion, Miss Clarken, Miss Foley, Miss Jones, Miss Tice, and Messrs. Foley, Meuth, Willis, and Gibson, gave a fine musical program.

There will be a meeting of Hobart Guild tonight, for a change of rules and for the election of a new corresponding secretary. A new feature is a blank form of application for membership. Hereafter the regular Sunday evening service of St. Andrews' church will be held in Hobart Guild hall and not in the church, and they will be somewhat informal. The Episcopalian Sunday school will be held at 3 p.m., hereafter.

Quite a change occurred in the board of stewards of the M. E. church in this city with the ending of the conference year. C. H. Worden and W. W. Whedon who had served more than twenty years and E. B. Lewis declined a re-election. T. Y. Kayne had removed to Chicago. The newly elected members are J. B. Steere, L. D. Wines, C. G. Darling, J. J. Goodyear, Mrs. M. J. Johnson and Mrs. H. E. Neal.

Gen. W. H. Gibson, of Ohio, one of the most effective stump speakers in the northwest, spoke in the rink Monday evening, to a large audience, for Harrison & Morton. The Allen Republican club with its live coon and with the new Chequamegon band, made a fine appearance. Gibson stirred the souls of all who heard him, and alternately kept them in roars of laughter. He did good work for the cause as he always does.

Nathaniel G. Gates, a drayman who lives at 8 Kellogg-st., thought he could beat the south-bound passenger train on the T. & A. A. yesterday noon at the Jones-st crossing. He nearly did it, but the engine struck the hind part of his handsome dray and smashed the spring and hind wheel, throwing Mr. Gates in such a manner that his scalp was laid open in two places. No other injuries were sustained. He is 70 years old, too old to try such a hazardous game.

The high school seniors and juniors tried conclusions at foot-ball on the campus last Saturday, and the seniors won in 15 minutes. The seniors have A. M. Hull for president, and the juniors Geo. J. Jewett. The wrestling match was won by the juniors. Patterson of '90 had no opponent as a heavy-weight boxer. The middle-weight boxing match was won by Louis Whitehead, '89, over E. de Pont, '90. The 100 yards dash was won by W. S. Miller, '89, over M. Drake, '90. The 50 yards dash was won by Jewett '90, over W. S. Miller, '89.

H. W. Newkirk, who recently left Ann Arbor to assume the management of the Luther Enterprise, is gratifying his taste for curiosities by making a collection. It at the same time advertises his new paper. He has a copper cent of 1795, a cucumber 22 inches long, a piece of pottery made by the prehistoric Indians, a paper printed in the Chinese and one in the Hebrew language, a slip of paper framed, bearing the name of a subscriber who paid in advance for his paper, and many other curious things.

Rev. Mr. Studley, the new M. E. pastor in Ann Arbor, cannot complain of his welcome to this city. Last Friday evening, he was given a formal reception in the church. Prof. Winchell presided, and Prof. Henry Wade Rogers made an elaborate speech of welcome, to which the new pastor responded. Speeches were also made by Prof. Carhart, Rev. A. F. Bourne, R. Kempf, Rev. Benj. Day, and others. Sunday morning, Dr. Studley preached his first sermon here to an audience of more than 1200 and in the evening to more than 1000. The Sunday school children gave Mr. Studley a reception Monday evening.

FRED. B. BRAUN.
Ann Arbor, Mich., Oct. 1, 1888.

The records of the diocese of Michigan of the Episcopal church have recently been moved to Ann Arbor and placed in Hobart hall, under the charge of Rev. Wm. Galpin, who was elected registrar. There are many curious things among them. One is a prayer book about 20 inches long and 12 in width, printed in large old style type in 1795. It is a beautiful specimen of the art preservative of that time. There are also two manuscript sermons preached in 1760 and 1763 in Palmer, Mass., by a Congregational pastor. There is a copy of Gov. Barry's message of 1843, in French, and a copy of the "Massachusetts and Boston Gazette News-Letter," of Sept. 15, 1763.

Mrs. Jennie B. Fisher is spending the week with friends in Manchester, and also acting as delegate to the county convention of the W. C. T. U. now in session there.

Ira Cornwell, of Hill-st, came to Ann Arbor in July, 1826, at the age of nine years. His father kept the Old Tavern, as it was called then. As he remembers those times there were only six inhabitants here then.

C. A. B. Hall came Saturday, from Murphy, N. C., for a visit among relatives and old friends. He has been engaged in real estate and photography in Murphy for two years. He is authority in regard to the mountainous country of North Carolina, Georgia, Alabama, and Tennessee.

Congressman Allen pleased.

Chas. E. Hiscock, Esq., President Capt. E. P. Allen Club, Ann Arbor, Mich.

MY DEAR SIR: — I see by the papers that I have been greatly honored by the young Republicans of the Third ward, in bestowing my name upon their club.

Please convey to the club my warmest thanks for the unlooked for honor. Surely if there is one thing more than another that gratifies me it is that the intelligent young men of our district approve of my political course, and that I can lean strongly upon them in our mutual efforts to perpetuate those principles for which our forefathers fought and the fathers and brothers of many of your number died.

With every passing day I more and more appreciate the grandeur and worth of the republic, the full responsibility for which will soon pass to the care of the generation to which you belong.
