Work on the university calendar for this year is being pushed at the secretary's office.

The university committee from the state legislature will interview the U. of M. Friday and Saturday. The committeemen are Taylor, Hinkson, Waite, Aleshire and MeKia>try. The class of '90 of the medical depart-

ment have purchased a surgical case which they will present to Dr. George A. Hendricks as a token of the esteem in which he is held by them. W. F. Gonnery, of the medical students

who volunteered to go to Azilia as a nurse when the small-pox broke out in that village, has contracted the disease. He is not seiiously ill, however. Alpha Nu society debated last night on

the question "Resolved, that a student is justified in electing soft snaps." It is not necessary to remark that the affirmative had the better of the argument. The mechanical laboratory is building a

hydraulic elevator to lilt pig iron, etc. to top of cupola. Also a dynamometer is nearly finished, to be used by Pro^f. Cooley in testing horse-power of dynamo?, etc.

Prof. Cooley will take the mechanical engineers on a tour again this year. Three tries are under consideration, one of which will be take : to Pittsburg, Chicago or Philadelphia. The last will probably be

Yes, this might satisfy the faculty, but it don't have to, as the Ypsilantian misquoted the figures which should be 1,849 instead of 1,489.

The university branch of the Michigan club held its annual meeting Saturday afternoon, and elected the following officers: T. N. Jayne, president; Ö. R. Hardy, vice president; E. L. Miller, secretary. Threo delegates were elected to tary. Threo delegates were elected to attend the state convention, and a committee was appointed to make arrangements for the club to attend the annual banquet of the Michigan club at Detroi'., on Feb. 22d. Much enthusiasm prevailed at the meeting.

Enthusiasm in the "gym." has dropped off considerably this year. For the second time this semester, a meeting was called to take some measures to revive interest in the project, last Saturday forenoon. Only eight enthusiasts were present and they quickly adjourned, resolving each to do a little missionary work for the "gym" before it was entirely lost. It is too bad that the students of this year do not carry on the good work which their predecessors commenced.

The senior law class of '89 have decided to select their class orator by a competitive oratorical contest, to be hell tomorrow evening at 7-J o'clock. Hon. C. R. Whitman, Rev. A. S. Carman and Prof. C. M. Gayley have been selected as judges and the Chequ-imegons will furnish music for The contest will be open to the public and everybody is invited. Seven contestants have entered, their names and subjects being as follows: W. C. H. subjects being as follows: W. C. H. Keough, Missouri, 'The Centennial Year of Oar Constitution." S. L. The university dramatic club played to a large audience at the opera house, last Friday evening. "Time Tries AH" is a simple and improbabte little story of a girl rejecting an offer of marriage because the man was not handsome and dashing, and then rejfeting a score of suitors be-cause they were handsome and dashing, finally falling desperately in love with the first man after he had departed for France. Miss Gertrude Wade, daughter of Secretary Wade of the university, took the part of this peculiar young woman end tustained it in good amateur style. A. E. Anderson was the young man who experienced the uncertainties of the female mind as given in this two-act play. A. L. Free, as the father of this girl, was made up exceedingly well. The comedy was supplied by four characters: Charles Clinton (by W. C. H. Keougli); Hon. Augustus Yawn (by T. N. Jayne). who went to sleep while proposing to Miss Laura; Tom Tact (by E. H. Smith) and Fanny Fact (by Miss Ida Z. Hibbard). Mr. Smith secured applause for his assumption Smith secured applause for his assumption of French speech and airs, and Miss Hibbard, as the pretty servant girl, Fanny Fact, who was perfectly willing to accept any eligible man in marriage, did excellently well. In the one-act farce, "A Storm in a Tea-cup," which followed, C. T. Alexander sustained his reputation of being a clever amateur. He, as Mr. Felix Summerly, and Miss Lizzie Seymore, as Mrs. Letitia Summerly, had nearly all the work to do, and it consisted of funny preparations for a journey on the continent and jealousy on the receipt of a letter whose address was not plain. The other characters were a servant, sustained by Miss Ardie E. Clark, and the respected the of Mr. and Mrs Sumoaerly, taken E. P. de Pont. As is well known the hole affair vias managed by Prof, de

FAMOUS II. OF M. STUDENT.

Amos E. Dolbear. - Jndge Cheever Draws a Moral bearing: upon
II. of 91.—A Remarkable
Electrician.

Prof. Amos E. Dolbear, well known to many Ann Arbor people, was born in 1837 at Norwich, Conn., and at an early age was left an orphan. In 1854 he began work in a pistel factory at Worcester, Mas?., and there introduced the magnet to pick up the small parts of the locks of pistols. He entered the Ohio Wesleyan college at Delaware, O., and graduated in 186C. While there he invented a magneto e'ectric telegraph, in which the current of eletricity was generated by the action of a permanent magnet when thrust into or withdrawn from a hollow bobbin. This was designed to move a needle. He also proposed to have alike instrument at the receiving station which he supposed would duplicate the movements of the first instrument. The receiving magnet wa9 to be furnished with a pen, and thus register the movements of the transmitting one. It will be seen, in the light of the present, that the

PRINCIPLE OF THE SPEAKING TELEPHONE is essentially involved in Dilbear's invention of 1864.

The year 1867 was spent by Dolbear as a student at the University of Michigan at Ann Arbor. While here, he invented a gyroscope to run by electro-magnetism. and which demonstrated the rotation of the earth, and this machine was shown at the Centennial exhibition at Philadel. phia. In 1874 he was appointed Professor of Physics at Tufts College nea; Boston, and has occupied that position up to the present time.

During the years from 1867 to 1874 he continued his experiments in electrical ecience. He discovered the convertibility or sound vibrations in electricity. Using a tuning-fork in connection with a thermopile and galvanometer, he noticed that when the fork vibrated the needle was deflected. He further observedithe effect of a vibrating tuniug-fork, which was also a magnet, upon the current from a thermopile. At the Portland meeting of the American Association in 1873, Prof. Dolbear read a short paper in regard to the first of these experiments, which he thought was new, but said nothing about the second as he deemed it only a particular second as he deemed it only a second as he deemed as he the second, as he deemed it only a particular case of magneto-currents which were well known. Still, it was precisely the same thing as the "undulatory current," which Prof. Bell claims to have discovered. ered. In 1876 Prof. Colbear constructed a telephone with a permanent magnet, that transmitted singing and speech. He now thought (this was in December, 1876) of obtaining a patent upon his speaking telephone with permanent magnets, but before he completed bis model, he was in-formed that Prof. Bell "had declared that he had secured a patent upon the same thing two or three years before." About March 1, 1877, Prof. Dolbear chanced to see the official Gazstte of the Patent office, containing Bell's patent of January 30, 1877, and then it first dawned upon him that he had been deceived. In July of that same year, Prof. Bell acknowledged to Prof. Dalbear that he (Dolbear) had invented the telephone independent-

la 1879 Professor Dolbear perfected an

NEW (STATIC) SYSTEM OF TELEPHONY,

which was patented in 1881. It has often been described and illustrated. By way of comparison it may here be stated that, in order to receive messages by the Bell system, it is necessary to use between the ear and the line wire an electrical machine, consisting of a magnet, a metallic diaphragm near the magnet, a magnetocoil to influence the magnet, which coil is connected with the line wire and with the ground. Take out this machine, and the entire Bell telephone system will be useless; but this is precisely what Professor Dolbear has done, substantially, in his new system. To receive a message, he takes out the machine, and puts the end

of the telegraph wire directly to the ear.
Said the London Electrician, April 1, "It must be regarded by all practical men as a new telephone, and one which does not conflict at all with the telephones already in use. There can be no question of likeness between electro-magnetic receiver of Bell, or the electro-chemical receiver of Edison, and the electro static instrument of Dolbear."

JUDGE CHEEVER DRAWS A MORAL

Upon being shown the foregoing taken from the November "Practical Electricity," Judge N. W. Cheever, of this city, said: "Yes, I knew Prof. Dolbear when he attended the University in 1867-8. In view of his remarkable success as a teach view of his remarkable success as a teacher and inventor, I am sure I shall be pardoned for making some statements in regard to him. When Prof. Dolbear came to Ann Arbor, I think he did not have money enough to keep him a month. I employed him as organist for the Congregational church, and gave him some assistance in forming a class in instrumental music by which he was enabled to pay his way while in the University. I know that at the close of the year he, one day, went without his dinner, because he had no money to buy a dinner. It was also my privilege to render him some assistance in getting started as a teacher in Kentucky and Virginia.

"For several years past Prof. Dolbear has held the position of Professor of Physics in Tufft's College near Boston. I believe he received at one time from the Bell Company, ten thousand dollars for his claim as Vhe original inventor of a por-ticn of the telephone now in use. He

also has invented a telephone that does not infringe upon the Bell patents, that is, so far as the apparatus is concerned. He has also invented an instrument by which you can telegraph a map or anything of that nature, the receiving instrument making the exact counterpart of the figure made by the operator. Prof. Dolbear has also invented several other useful instruments that will be of value, and is constantly at work in his shop in Boston upon new inventions. upon new inventions.

"I am sure I am within the facts when I say, that this one poor foreign student, who was enable!, through the generosity of the State of Michigan, to obtain the preliminary training necessary to enable him to do the work he has done, has repaid in cash to the business men and farmers of **this** State, much more than they have expended in the education of all foreign students since the University was established. It must be evident to all unprejudiced men, that it pays our State to turnish all the facilities for higher education as cheap as possible, even to loreign students. It never pays to leave such men as Dolbear undeveloped, and there are scores of poor boys and girls as able as he, who must remain in obscurity unless the strong arm of the State grants

More Losses.

A^ain our business men are caused to regret the sudden disappearance of a temporary citizen of Ann Arbor, who did not forget to leave behind numerous unpaid bills. Fred. O. Merrifield, a student from Ottawa, 111, is the party in question, and at least one of the transactions in which he engaged was sufficiently tricky to be o a criminal nature. Some time since hf induced J. M. Stafford to indorse a note for him for \$40, leaving with him as see curity a Richmond, Va., library bond o. the face value of \$500, and representin that it was worth its face value. Mr. Stafford investigated the bond and fourn that it had no market value. The not then coming due, he notified Merrifielie that he must pay it or be arrested for ob tainingmouey under false pretenses. Thii Merrifield promised, but instead he quietly left the town for parts unknown. Mr Stafford will pay the note, but unless this money is returned to him, will prosecute Merrifield.

Among his studant friends Merrifielil borrowed money ex'ensively, amounting in all to over \$100. The others who mourn his flight are Chas. 0. Brush, \$10; Mrs. Halleck,\$40; Chas. Fox. \$6; Cook House, \$12.50; and L. H. Clement, a small amount. It is understood that the cause of the young man's downfall was his gambling proclivities, and the chanoe which he had to develope them here.

Surprised.

D. C. Fall had a birth-day-somewhere between his 30th and 60th-last Tuesday, and he thought he would go home early in the evening and celebrate the event quietly with **hit** family. He went home early and celebrated, but not so quietly as he had anticipated; for when he arrived there he found that between thirty and forty of his friends had accidently dropped in to spend the evening. He was nonplussed for a time but recovering himself proceeded to make the evening a pleasant one for his unexpected guests. The Appolo quartette were present and furnished music, and as the gues's thought the lar-der might be a little low for such a crowd, they had provided for the occasion. After a pleasant evening, they departed leaving behind a handsome antique oak bookcase, as a testimonial of their friendship.

LXAR SIR:—In your last issue you state that I aoi a "Vice President, of the National Woman Suffrage association, and a Republican."

It is a matter of no moment what political views a woman may hold, as long as she is "governed wirhout her **OODSent,"** and "taxed without representation," which, in the language of Benjamin Franklin, "is tyranny, and if long coniinaed, seems to be in effect an entire disfranchisement of of every civil liberty: for what civil right is worth a rush," after a man's property is subject to be taken from him at the pleasure of another without his consent. For it a man is not hisowu assessor in person or by deputy, his *liberty* is gone, for he is entirely at the mercy of others."

This is the condition of American wo-men today, who are held by the men of the nation in political and civil slavery; and it is to change this condition that we are demanding of the men our inh. rent right to political and civil liberty; "for voting is the primary light, by which all other rights are protected" iu a republican government, and for this purpose, we have associated ourselves into a national organization, and demand of all men, of every political party, our emancipation; therefore we hold ourselves as an association, wholly nonpartisan, and disclaim any party affiliations whatever. But among us every religious and political belief is represented individually, and tor myself, whatever party gives back to me my civil acd political liberty, shall have my first heller (provided to decent man be first ballot, (provided a decent man be nominated), and I believe most women would do the same. Respectfully,

Your Committee on Public Buildings beg leave to make the following report: At a meeting of the Committee, Nov. 15th, we made a thorough examination of the Court House, and found it necessary to make certain repairs, recommended in our last report. We found the steep dissolving to such as the steep dissolving the steep dissolving the steep dissolvent to such as the steep dissolvent to such a mended in our last report. We found the stone dissolving to such an extent that we thought it necessary to paint the whole outside of the building, in-cluding tower, roof, and all the stone work, cleaning and oiling brick to re-store them to their natural color: freestore them to their natural color; fres-coing the Court room, cleaningseatsand varnishing same, with ceilings in Court room. Your Committee believs the roof to be in good repair, and the gutters being new there will be no more trouble from the washing away of the stone work or discoloring of the brick. We also found it absolutely necessary to relay the stone steps, and also some of the tiling that was loose. The contract for painting and frescoing was given to Oscar Sorg, requiring an itemized statement of all labor and material used for said repairs. On presentation of his bill we made a thorough examination of all items and labor and were satisfied it was a just bill. Allowed his claim, the whole amount being eight hundred and one dollars and 21 cents. Mr. John Flinn received the contract for relaying the steps and other repairs, giving an itemized account of all labor and material used. On presenta-tion of his bill we examined the bill and allowed the same, whole amount being \$447.46. Your committee feel confident that the money has been well

Mr. Braun offered the following:

Mr. Braun offered the following:

WHEREAS, Section 2128 of Howell's Annotated Statutes of the State of Michigan practically discriminates against any township containing within its limits a city (as, for instance, Ann Arbor township,) in this, that dogs that have killed sheep outside the city limits are very often traced directly to the city, their identity then lost, thus imposing upon the township the burden of paying damages done by unknown dogs from the city; and

WHEREAS, Said statute does not provide that the city dog tax fund shall be applied toward the payment of such damages done; therefore, be it

Resolved, That our Representatives and Senator in the Legislature are hereby instructed to use their influence to obtain an amendment of said section, providing that when the killing of sheep can be proved to have been done by a dog or dogs owned in a city, the treasurer of said city shall pay from the dog fund of said city the amount of damages as assessed by the justice of the township where such killing was done, when the owner is not known or unable to pay damages.

Resolved, And it is hereby ordered that the Prosecuting Attorney shall attend and conduct in person all criminal prosecutions in justice courts of the county, and that hereafter no fees or costs will be allowed or paid by the Board of Supervisors to any justice of the peace for services in cases of misdemeanor, unless such proceedings shall first be authorized by the Prosecuting Attorney in writing; and that all such bills or claims shall be accompanied by such written authorization. And further, the Board of Supervisors will not allow or pay any bills of the Sheriff or his deputies for board, turnkey fees or allow or pay any bills of the Sheriff or his deputies for board, turnkey fees or washing for any prisoner arrested for said misdemeanor, unless said prisoner has first been regularly committed by some justice of the peace. And further, that the Prosecuting Attorney be paid the sum of three hundred dollars per annum for attending in person to all cases in justice courts, said sum to be audited and paid when certified to by Commitand paid when certified to by Committee on Criminal Claims No. 2, that he has faithfully performed the duties hereby required.

GEO. D. CRIPPEN. Report adopted.

Mr. O'Hearn, from the Committee to settle with County Officers, made the following report:

Your committee appointed to settle with the county officers respectfully report that they have examined the books in the office of the County Treasurer, showing the receipts and disbursemens of moneys from Oct. 1st, 1888, to Dec. 31st, inclusive; they have also examined the vouchers on file in that office verifying the accounts, and find the books and vouchers to agree. And we further state that we found four hundred eighty-twoand one one-hundredths dollars (\$482.01) in bis hands belonging to the unknown heir fund, and that the said unknown heir money is on deposit at the Farmers' and Mechanics' Bank of Ann Arbor, Mich. Also that we found the overdraft at the Farmers' and Mechanics's Bank to be sixteen thousand seven hundred eighty-four and seventeen one-hundredths dollars, and a cash balance of three hundred seventy-four and fifty-eight one-hundredths dollars in the Treasurer's hands, leaving the net overdraft of sixteen thousand four hundred nine and fifty-nine one-hundredths dollars. THE Howell Republican advertises as one of its leading attractions that it is "only thirty miles north of Ann Arbor," etc. Yes, the halo of beauty and intelligence of which Ann Arbor is the center radiates a long way and adds a charm to every neighborhood over which it spreads.

A GROWL FROM THE SUBURBS.

Mr. M. F. Case has returned from Lansing and reports the prospect good for a fair and full investigation of the Ann Arbor charter question. This is as it ought to be. There has been much talk of that city's foisting expenses upon the county, which justly belonged to the city government to assume, and if one-half of what is currentstittement be true, we question the propriety of en-larging, in any respect, that city's authority. One thing is certain, if Ann Arbor is entitled to six supervisors, "Ypsilanti is entitled to five under the same mling, and will see to it that her rights are respected.

It seems a little strange that Ypsilanti should uniformly turn over more inss than a city which boasts of double the population and three times the sa-It certainly cannot be because Ann Arbor is more law abiding, and it is competent for Ypsilanti to investigate. We believe that Ann Arbor should have her own "lock up" and pay the expenses of municipal violations as other cities do, instead of using the county jail and charging all prison bills arising under their charter to the county. Will Ann Arbor object to this?—Ypsi

Were the above statements correct. Ana Arbor would not object to the plan proposed. Ann Arbor does not foist expenses upon the county which the city should pay. The county has never paid one cent of expenses for any prisoner arrested under a city ordinance and has never been af-ked to do so. It is true that when a person is arrested under a city ordinance, by an arrangement made with the supervisors long ago, the jail is used as a lock-up, but the city pays the expenses incurred. Judging from the manner in which the Ypsilantian mixes up "fines returned" and "bills arising under their charter," it is evident that they have not investigated the matter. No fines would be jieturned to the county for arrests under theeity charter, and even our Ypsilanti friends should not expect the city to pay for expenses of arrests under the state laws. In regard to Ypsilanti's representation on the board of supervisors, it is only their own fault if the city has not a fair quota. Do as Ann Arbor is doing and demand your rights.

SIR JOHN LISTER KAYE, of Canada, has decided to purchase ten farms of 5,000 acres each from the Interior department of Canada. This allotment of great tracts of land to individuals is looked upon with much disfavor by many, as experience shows this to have wrought much injury already in the Northwest territories. A careful observer •was heard to remark lately that the fnwts in Manitoba last summer, which destroyed one-fourth or more of the wheat crop, had been the salvation of that province as it left the farmers an encouraging crop, but discouraged 3and speculators sufficiently to prevent them operating a boom. So the land will more likely be put on the market at fair prices and the province enter apon a career of steady development.

A PROVISION by our law makers for ihe state to furnish cradles free to all who raise babies would be far more sen-

sible than for it to provide free school books. This baby business is being overdone. If the boys and girls have not grit enough to earn their school books, in this age of cheap literature, they had better take a few lessons from the self made men and women who have preceded them.

JOHN WANAMAKER, of Philadelphia, was invited by President-elect Harrison to visit him at his home in Indianapolis last week. This causes the Detroit News to suggest the petty insinuation that Wanamaker was guilty of dishonesty in the late campaign. "It can be taken for granted," says the News, "that the Philadelphia merchant's liberality in sending \$40,000 to New York City a few days before the election, is at last to receive acknowledgment," and that a cabinet position is to be the reward. The fact is, which the News probably knows, that Mr. Wanamaker contributed to the Republican campaign in a perfectly legitimate way \$10,000 and not a cent more, and not late in the campaign—the same amount that President Cleveland contributed for his party and sixty thousand less than Cleveland's cabinet contributed to keep their party in power. If the wizard of the News could at a breath convert all the fiction daily manufactured in the editorials of that sensational sheet, into concentrated lye, it would supply all the soap factories of the country and leave a handsome profit for the in-

AH the gongs were eung with appropriate costume and action. The stage was well-lighted, the audience room was kept in darkness, and the curtain was drawn on each number, tbu9 often making a charming effect with light, colors, and fair faces RDd forms. Among the comical songs, the 'Barlev-Brownie" and "How it Looks iu the Mill" were especially appreciated; and of the sentimental songs the "Spinning Song" was peculiarly a succes" in spite of the obstinacy of the rickety wheel. The program was carried out with the exception of "The Fairy " by Miss Armstrong, whose place was supplied by Florence Sundt-rland. Between the two parts, Miss Marian Smith, organist for the Uniterian church, performed on the pipe organ. The gross receipts of the evening were \$22.

Miss Jane C ombs appeared last night as "Lady Dedlock" and "Hortense" in Charles Dickens Bleak House, io a large audience, and gave as Lady Dedlock one of the most finished, artistic, and beautiful performances of female character that has ever been seen upon our stage. In the impassioned scene in the third act she reached the most intense expression of passionate acting and received an enthusiastic recall after the fourth act when she disclosed her identity to her child, the audience were moved to tears for the re-pentant mother. MUs Coombs' regal beauty, magnificent voice, and exquisite grace captured every heart in the large audience. As Hortense, the revengeful lady's maid, Miss Coombs achieved a distinct success, playing it with all the abandon of a French woman, who when goaded to desperation by Tulkinghorn, deliberately plans and accomplishes his murder. The supporting company was very fine and gave 8uc' i representations as

The Cologne Gazette Says There I< N i Occasion for Alarm-Tim Views Expressed by Washington and London Officials.

TUREATENINGS OF WAR. BERLIN, Jan. 25.- The N<Ktli G.;rraiwi Gazette, Princo B Bmarok'B organ, denies tho existence of any treaty precluding any European power from acquiring or seeking to acquirj ascendency ia Samoa.

The Gazette also denies that England and the United State< are agreed that the proceedings of the, German agen in Samoa aro contrary to the stipula-tions of the treaties o nceining Sa-moa and are o posed to diplomatic etiquette, and that those powers have officially notified twie German Gov-ernment accordingly. The treaties between Samoa, Germany, Knglaud and the United States, the Gazette further says, provide that Samoa shall concede to each treaty power equal rights with any other power, but no treaty regarding the neutrality or independence of Samoa exists between Germany and the United

BEKI-I.V, Jan. 126 — The North German Gazette gays that the English Cabinet disclaims co-operation with the Washington Government regarding Samoa.

The Cologne Gazette declares that there is no occasion to fear that the excellent relations between Germany and America areIndanser of undergoing any radical

change. It says:
"Comparatively little importance is to be attached to the last acts of an American Gov-ment about to quit office. Under the Presidency of Mr. Harrison a complete clearance of Mr. Cleveland's official staff becomes unavoidable. Mr. Cleveland's most recent steps therefore, have lost their importance, and his actions are in no way binding uDOtt Mr. Harrison. From the intelligence received here it is evident that the American Government treats the Samoan question in a spirit hostile to Germany and on a basis of in-cerrect suppositions. It is incorrect to speak of a violation by Germany of actual agreements between the treaty powers, as no treaty was ever concluded between Germany, C5reat Britain and America in regard to Samoa, while on the other hand such a treaty does exist between Germany and England. The excitement in America is therefore incompre-hensible. Mr. Uayard has declared that he does not know whether Klein is an American BUbject, but nevertheless he is responsible for Klein's misdeeds.'

LONDON", Jan. 25.—The article in the North German Gazette relative to the treaties regarding Samoa has caused somewhat of a commotion in official circles hero. By some persons it is regarded as a deliberate defiance to tho Washington Government.

LONDON, Jan. 26—Commenting on the

Samoan affair the Daily News says: "Iti3 extremely important that Knglaud should act cordially with America. It is therefore the more to bo regretted that wo have no Minister at Washington. If Lord Sal-isbury would be a little less humble to Germany and a little more civil to America it would be far better for all the parties

WASHINGTON. Jan. 2(5.—When Secretary Bayard was shown the Berlin dispatch giv-ing the North German Gazette's views on the Samoan question he said he did not know what authority the Gazette had for its statements, consequently he could not assume them to be official, and they might, after all, prove to be mere newspaper gossip. In regard to the statement that Germany would violate no treaty in acquiring an ascendency in Samoa Mr. Bayard called attention to the declaration concerning tho boundaries of the German and English dominions in the West Pacific Ocean, signed at Berlin, April 6, 1888, and he thought this agreement precluded Gorman acquisitions in Samoa, and that Germany was bound to respect the rights of that island.

Senator Sherman said he supposed Bismarck had a perfect right to express his opinion upon any subject, but did not sup-pose such an expression of opinion would doter the American people from carrying out any policy they might adopt. PARIS, Jan. 27.— Le Temps p

- Le Temps publishes a PARIS, Jan. 27.— Le Temps publishes a dispatch from Zinzibar slating that an American sailing ves^jl from Zanzibar for Madagascar ports ha< been lired into and disabled by a German warship.

NEW YOKK, Jan. 29— John C Klein, the Samoan correspondent of the New York World, who has been charged with being

World, who has been charged with being the leader in the trouble with tie Germans the leader in the trouble with the Germans in that country, has a six-column letter in Sunday's paper describing the trouble. Klein begins his letter by stating that the situation is alarming, owi. { to the tyrannical action of Dr. Knappe, the German Consul. He then tells of the killing of German soldiers, and the destruction of Amor.can homes. Klein declares that' the German officers were drunk on shore and committed were drunk on shore, and committed many outriges. Thoy announced that they •were particularly anxious to meet Americans or Englishmen. The sailors from the steamers took possessions of the saloons and proceeded to get drunk. They made insulting remarks about Americans, whereupon George and Morris Scanlan, two Americans, resented tho reflections They were attacked and severely statbed in the back. Then the sailors run amuck through Matafelo, assaulting men, women and children. One woman had her ribi and bot't armst "breken. The story than assess of a report of the sailors run." "broken. Tho story then goes on to repeat the story recently told by tho press dis-patches arout tho fighting and alleged out rages. KJom repeateJly declaros that he acted simply as a newspaper correspond-ent, and did not advise any one. He de-scribes in detail the battles between the natives and tho protests of United States Consul Blaoklook against the Germans attacking the t"".moans.

BERLIN, Jan. 29—Tho North German Gazette says: "Advices from San Francisco show that the Cuambur of Commerce there is the most active element in tho opposition to Germany's policy in Samoa. The anti-German feeling is heightened by tho action of Mr. Sewell, the American Consul in Samoa. There is no conflict between Germany and America. It is only with Sewell and this American officials in Samoa, who are anxious to causo complications."

Ticket Brokers B Severe Blow. WASHINGTON, Jan. 88.—Tee Inter-State (Commerce Commission has promulgated an opinion on the subject of passenger prints and rale wars prepared by Chairlan Cooley. The paper narrates the acts attending the wars in passenger ates in St. Louis in October and at Chiago in December. The C licago rate war xtended over the lines running to t. Paul, Minneapolis, Kansas City and St. -ouis. Its characteristic feature was the act that tickets were placed in the hands f brokers or scalpers to be sold at rates ielow tho tariff rates, and that the roads xeused themselves for their dealings with rokers by claiming the right to pay commissions at will. The Commission recommonds that the Inter-State Commerce act e so amended as:

1. To define what shall be considered excursion and commutation tickets.

a. To prohibit all payment of commissions on the sale" of tickets and alt sale of tickets for

Out or the Breastworks. TATE SPRINGS, TENN., July 4, 1888.

The Swift Specific Co., Atlanta, Ga.: Gentlemen—Seven years ago I contracted an exceedingly bad case of blood poison. tried a physician, the best at command, but secured no benefit. My throat began to get sore, and my body covered with sores and ulcers. Going from bad to worse, I felt that my grave must be reached in the near future. I gave up the doctors' treatment, and with a despairing hope I commenced taking your medicine. I began to improve from the first bottle, and in a short time theulcers healed, and my skin cleared off and was e-itirely well.

One year ago a case of catarrh developed in my system. The physician did his best, but could not cure me; but two bottles of Swift's Specific gave me permanent relief.

The father claims that these terms are not lived up to and asks the circuit court to

The opera house was crowded to the doors on Saturday night, the attraction being Harkins and Granger's amateur minstrels. The entertainment given by our local "funny-men" was equal to that of professionals. The hits of the evening were made by Harkins and Granger in th'ir songs and dances; Ed. O. Come, swinging Indian clubs; Schumacher and Hangsterfer in burlesque trapere performance; Bruce St. James in vocal solo, and the Big Four in songs and dances. The only thing to mar the entertainment was the tedious stage waits.

The board of supervisors concluded at their October session that the lot on which the jail is situated was too small, and a committee was appointed to negotiate with W. M. White for the land adjoining on Second St. For some time the committee could not get Mr. White to state his price, but last week they received an offer of the land, 60 feet front and 90 feet deep, for \$5,000. The committee begin to think that property is worth something at Ann Arbor and it would not be surprising if they suggested to the board the advisability of raising our valuation again.

Mr. Jacobs named Blaine, Allison, Alger, Wanamaker and Estee.

The addre.-s of Prof. Henry Wade Rogers at the M. E. Church on Sunday evening last, richly deserved the favorable attention which it received from a large and appreciative audience. It set forth in forcible language the ennobling effects of Christianity upon human progress, emphasizing expecially its effect upon liberty, law, literature and art.

The New York Herald says in an article on female beauty: "The great actress, Miss Jane Coombs, has this divine gift in "The great actress, a very rare degree. In classical perfection of features, in depth of refinement of expre.-sion, in perfection of form and grace of movement, she pre.-ents a beautiful completeness. It is no reproach to exaggeration to say that she is the most beautiful woman on the American stage. If a thing of beauty is a joy forever, a truly beautiful woman in a public profession is a public benefaction."

The Boston Herald says of Jane CJombs who will appear in "Bleak House" in Ann Arbor Feb. 6: "Thus a person with a fine voice is one to be cherished as an ex ample. Influence is felt in all socioty, The great actress, Miss Jane Coombs, has a voice that, inasmuch as we have heard none superior to it, we may call the perfection of the vocal organ for a woman All similes of clearness and sweetness

such as silver belle, flutes and ?o on, would only disparage iis divine quality. If the public display of this charming gift can hase ary influence in cultivating the voice, this art,i-te is a public benefactor. Imitation and emulation have much influence on every kind of development. In a countity where the general voiC3 is inferior, it is necessary to impress upon the general mind the value of a good value and to estimate it to sufficient voice, and to stimulate it to cultivation and emula'inn."

Goes tor tlie Board or Health.

To the Editor of THE REGISTER;

SIR—In your last is.-ue you spe k of the 'absurd fear" of small-pox on the part of eople who evince no alarm at diphtheria. You are mistaken, I think, as to the fast. Thf-re is a fear of diphtheria as general as hat about small-pox, but though as much eared because dangerous, it is not a loattiame disease, and neither board of health nor the unanimous demands of our people not the thanholds definition of our people of the property of the people pox as both infectious and loathsome is nstilictive and irrepressible, not ab>urd. The remonstranfe to establishing a ren-dezroaa for small-pox cases on Mann st. within twenty feet of one residence and ;carcely the distance of a single block roin a dozen others, it U true, was by a 'few" but it was unanimous as far as it was possible (in the short time allowed) o a-k for signatures' and I feel sure that a ust regard for the public health ought not Jo ignore the respectful objections of a few, when as in this o-tse, they happen to be all. And does our honorable board of lealth justify its ill advised if not inexcusible location of the pest house on Mann-st. because perchance one of the objectors to exposures to small pox did not report a case of diphtheria? I call attention to this matter at this time because I.think hat our citizens should demand of the board of health that they take a little more time and exercise a much better udgment in establishing a pest house. The selection of a valley so near and directly west of Main St., and from whence the prevalent winds can distribute the germs of this most infectious disease into the heart of our ei:y (ascending as it does toward the east) would seem to be a flagrant violation of the more recent theories of disease, and tends to increase the danger Instead of lessening it. It is very greaily to be desired in order that there may be no more such ill advised haste and indiscretion, that the city council take early steps to provide some suitable place for the care and treatment of all cases where the public safety requires this iso-
